Historical Sketch

Ursinus College had its educational beginning in 1832 when Todd's School was opened at Perkiomen Bridge, now Collegeville. In 1848, Freeland Seminary was opened on a tract adjacent to Todd's School and within a period of twenty years gave an education to many hundreds of young men.

In 1868 the work of founding a liberal arts college was undertaken by a body of men actuated by a desire to serve the interests of higher education and evangelical Christian religion. In 1869 the Act of Incorporation was granted by the Legislature of Pennsylvania. The site of Freeland Seminary was chosen, and instruction was begun on September 6, 1870. In 1881 the doors of the College were opened to women.

When the College was founded Freeland Seminary was incorporated into it as its preparatory department, and became known as Ursinus Academy. It was operated as such until 1910, when it was discontinued.

From 1871 to 1898 the Ursinus School of Theology was conducted at Collegeville. In the latter year it was moved to Philadelphia. In 1907 it was merged with the Central Theological Seminary at Dayton, Ohio, where it was continued until its termination in 1933.

LOCATION AND ENVIRONMENT

The College is located in Collegeville, a borough of 1900 population, in Montgomery County, Pennsylvania, twenty-five miles northwest of Philadelphia. Collegeville is located on National Highway 422 and State Highway 29. It may be conveniently reached from Philadelphia by means of trains of the Pennsylvania, Reading, or Philadelphia and Western (69th Street Terminal) railroads to Norristown, Pennsylvania, whence buses leave hourly for Collegeville, carrying passengers directly to the College.

Students at Ursinus have all the advantages of living in the country and at the same time being close enough to the city to have easy access to such additional opportunities for culture as the Philadelphia Orchestra, grand opera, legitimate theatres, museums, lectures, and exhibits.
HISTORICAL SKETCH

ACCREDITATION

Ursinus is a member of the Association of American Colleges, and is on the approved list of the Middle States Association of Colleges and Secondary Schools, the American Association of University Women, and the *Association of American Universities.

NEEDS

The College constantly employs fully the equipment and resources at its disposal. The steady growth of the institution should encourage its friends to provide for its further needs. The following present exceptional opportunities for gifts and memorials: endowment of scholarships, $2,000 to $10,000 each; endowment of professorships, $80,000 and upwards; general endowment funds, $5,000 and upwards; residence halls for women, $60,000 and upwards; an infirmary, $35,000. The counsel of the President of the College should be sought with a view to obtaining the most advantageous cooperation on the part of benefactors.

GIFTS AND BEQUESTS

It is the judgment of those who have had the responsibility of disposing of large fortunes that Education furnishes the most promising field for benevolence. The great philanthropic foundations, after discriminating scientific inquiry into the ways and means of doing good with accumulated wealth, have made Education their chief objective.

The practice of making donations during one's life rather than making bequests to be executed after death is recommended. In this way the donor has absolute assurance that his wishes are being carried out, he has the satisfaction of seeing his gift bearing fruit in the improved work of the institution, and he avoids the deflection of part of his proposed gift in the form of inheritance taxes.

When the donor wishes to retain the income of his estate during his lifetime, a very satisfactory arrangement is provided in Ursinus College Annuity Bonds, which the College issues in exchange for cash or property. Annuity Bonds guarantee to the donor a fixed income payable semi-annually during the period of his natural life. Upon his death the bonds become null and void, and the gifts which they represent continue as permanent possessions of the College.

* The Association of American Universities late in 1949 discontinued its practice of accrediting colleges and universities. At that time Ursinus had been continuously approved by the Association for many years.
Buildings and Equipment

BUILDINGS

Bomberger Memorial Hall, named for J. H. A. Bomberger, President of Ursinus College, 1870-1890, is a large and imposing structure in the Romanesque style of architecture, built of Pennsylvania blue marble. This building is for the use of the departments of language and literature, the social sciences, history, philosophy, religion, public speaking, and music. In it are the chapel, twelve classrooms, six conference rooms, a seminar room, two music studios, two day studies, and the offices of the Dean, the Dean of Men, the Registrar, the Treasurer, the Director of Student Teaching and Placement, and the Alumni Secretary. The erection of Bomberger Hall was made possible by the benefactions of the late Robert Patterson. The Clark Memorial Organ occupies a position in the front of the chapel in Bomberger Hall. It is a memorial to the late Charles Heber Clark, LL.D., and was the gift of his wife.

Pfaehler Hall of Science, erected in 1932, and named in honor of Dr. George E. Pfaehler, is a stone and concrete building. The first floor and basement are devoted to work in psychology, education, mathematics, and physics, the second floor to biology, and the third floor to chemistry. The building contains the offices of the President and Vice-President, the Levi Jay Hammond Laboratory of Comparative Anatomy, the W. Wayne Babcock Laboratory of General Biology, the Anna Heinly Schellhamer Laboratory, the Schellhamer Laboratory, nine other teaching laboratories, two laboratories for research, nine professors' laboratories and offices, seven classrooms, a lecture hall with gallery and projection booth, and a library. The building is equipped with a deck for astronomical observation, on which is mounted the Elihu Thomson Memorial Telescope.

The Alumni Memorial Library contains reading rooms, offices of the library staff, seminar rooms, workroom, faculty and directors' room, stacks, vaults containing rare books and manuscripts, music room, and the Shaw-Bernard (Museum) Collection.
The Library collection of 42,000 volumes, exclusive of government documents and pamphlets, has been selected to serve the needs of the liberal arts college. The resources of the Library are kept up-to-date by the current purchase of books in curricular and general subject fields. In addition, the Library currently receives over 200 periodicals and newspapers. The collection contains such basic and important reference sets as Chemical Abstracts, Beilstein’s Handbuch der Organischen Chemie, Biological Abstracts, the Americana and Britannica encyclopedias, The New English Dictionary, Der Grosse Brockhaus, the Cambridge histories, Dictionary of National Biography, and Dictionary of American Biography. The location of Ursinus College in the Philadelphia area makes available for special studies the considerable bibliographical holding of the region’s libraries through personal consultation or inter-library loan.

Aside from reference works, periodicals, and course reserves for assigned reading, library books circulate for a two-week period with renewal privileges. A competent staff is available to assist students in the use of the Library.

LIBRARY HOURS

(Regular Session)
Monday-Thursday: 8 a.m.-12 m.; 12:30 p.m.-5:00 p.m.; 6:30 p.m.-9:30 p.m.
Friday: 8 a.m.-12 m.; 12:30-5:00 p.m.
Saturday: 9 a.m.-12 m.
Sunday: 6:30 p.m.-9:30 p.m.

THE THOMPSON-GAY GYMNASIUM, built in 1927, occupies a convenient position adjoining Patterson Field and John B. Price Field. It is built of native brownstone, structural steel, and concrete. It contains a playing-floor, a gallery for spectators, locker rooms, shower rooms, coaches’ offices, and storage rooms. At one end of the main floor is a completely equipped theatrical stage. Portable seating constitutes a part of the equipment of the building. This building is a memorial to Robert W. Thompson, ’12, and George H. Gay, ’13, noted Ursinus athletes, both of whom died in their senior year in College.
The College Gymnasium, erected in 1947, is located near the Thompson-Gay Gymnasium and Price Field. It contains a large basketball court, two single handball courts, seating for 800 spectators, two dressing and shower rooms for players, a dressing room for officials, and storage rooms.

Patterson Field, named for Robert Patterson, first benefactor of the College, contains the varsity football field, space for competition in field events, and a quarter mile track with a 220 yard straightaway. The steel grandstand provides seating for 1440 spectators.

Price Field, named for Dr. John B. Price, '05, one of the great athletes in Ursinus history, contains the soccer field, the baseball diamond, several softball fields, and football practice ground.

The College has six tennis courts, two of which have all-weather surface, in the rear of Curtis Dormitory.

The women's hockey fields are located in the rear campus near the Alumni Memorial Library.

Freeland Hall, erected in 1848, the original building of Freeland Seminary, Derr Hall, and Stine Hall constitute a group of buildings for domestic purposes. The buildings are of stone, four stories in height with a fifth story of dormer rooms. On the two lower floors are the dining rooms, four in number, the kitchen, storage and refrigeration rooms, and the office of the steward. The upper floors are fitted up for the residence of men students. The rooms are of varying size, designed for one or two occupants, a number being arranged en suite.

The Brodbeck and Curtis Dormitories for Men are buildings in English Colonial style. Each building has four floors. The rooms are spacious, well lighted, and easy of access by means of fireproof stairways. They bear the names of esteemed benefactors of the College, Andrew R. Brodbeck and Cyrus H. K. Curtis.

Fircroft, a residence for women students, was presented to the College by Miss Sara E. Ermold as a memorial to her mother, Ella N. Ermold. Hobson House, is located at Sixth Avenue and Main Street. It is used as a residence hall for women.

Fetterolf House, fronting on Main Street and facing the College campus, is a residence hall for men.
BUILDINGS AND EQUIPMENT

SHREINER HALL, fronting on Main Street and facing the College campus, is a residence hall for women. This is a three story brick building arranged for the accommodation of twenty-nine students. On the first floor are a reception room and the office of the Dean of Women.

DURYEA HALL, next to Shreiner Hall, is a residence hall for fourteen women and a faculty family.

TRINITY COTTAGE, familiarly known as South Hall, is a residence for women located on Sixth Avenue. The building, with the grounds on which it is located, represents a joint benefaction to the college by the late Henry M. Housekeeper, who was an elder in Trinity Reformed Church, Philadelphia, and the late Abram G. Grater, who was an elder in Trinity Reformed Church, Norristown, Pa.

THE MAPLES, a three story building located on Main Street, opposite the east campus, is a residence hall for women.

SPRANKLE HALL, on the east campus fronting Fifth Avenue, is a residence hall and infirmary for women.

SUPERHOUSE, a residence on Main Street opposite the campus, bequeathed to the College by the late Henry W. Super, D.D., LL.D., Vice-President and Professor of Mathematics, 1870-1891, and President, 1892-1893, is the home of the Vice-President.

LYNNEWOOD is a private residence hall for women, on Main Street opposite the west campus.

GLENWOOD, CLAMER HALL, 646 MAIN STREET, 724 MAIN STREET, 942 MAIN STREET, and 944 MAIN STREET, Collegeville, are buildings leased by the College to provide additional residence quarters.

THE EGER GATEWAY, erected by the generosity of George P. Eger, of Reading, Pennsylvania, stands at the entrance of the walk leading from Main Street to Freeland Hall.

POST OFFICE AND SUPPLY STORE. A Post Office is maintained on the campus for the accommodation of students. Adjacent to the Post Office is a Supply Store, in which are kept on sale college jewelry, stationery, confections, and students' supplies. New text books are supplied on order.

Admission

The first step in seeking admission to Ursinus College is the filing of a formal application. A form for this purpose may be had by addressing the Registrar, Ursinus College, Collegeville, Pa. Upon receipt of this form properly filled out the College will send to the applicant's school principal or headmaster for the school record. Further inquiry is made as to the character and fitness of the candidate to do the work of the institution, and if found qualified the applicant is notified and a place is reserved for him in the College. Each new student remains on probation during his first semester. Each candidate for admission must present a certificate of sound health on a form provided by the Registrar.

All candidates for admission to the Freshman Class must take the Scholastic Aptitude Test and the English Composition Sub-test of the College Entrance Examination Board. If the Committee on Admission and Standing deem it advisable, candidates for admission may be required to take additional tests specified by the Committee, so that their fitness to do college work may be fairly evaluated. Scores made on these tests are used not only in selecting members of the Freshman Class but also in placing them in certain courses after selection. The Committee on Admission and Standing may in exceptional cases prescribe other tests than those of the College Entrance Examination Board.

Candidates for admission should place their application with the College not later than the close of the first term of the final year in high or preparatory school. Upon receipt of their full credentials they will be informed specifically of tests they must take to be considered for admission.

TERMS OF ADMISSION

If the applicant is a graduate of a four year school, he should offer for admission at least fifteen units; if he is a graduate of a senior high school, he should offer at least twelve units.
The applicant should present the following units: English 3, Elementary Algebra, 1; Plane Geometry, 1; Science, 1; Social Studies, 1; Foreign Languages, 2. On the standard four year basis for consideration two and one-half additional units in acceptable Mathematics, Science, Social Studies, or Foreign Language should be included. Additional units of electives to a maximum of three and one-half may be accepted in the following subjects: Bookkeeping, Drawing, Geology, Physiography, Stenography, Junior Business Training, Music (prepared course), Commercial Law, and Commercial Geography. Not more than one unit may be accepted in any single elective. A candidate from a three year high school may not present a total of more than one unit of electives unless he desires to enter the Business Administration Group, in which case he may present two.

Applicants for admission to the Business Administration Group will not be required to present the normal two entrance credits in Foreign Language, but will be permitted to substitute in place of Foreign Language additional units in Bookkeeping, Stenography, Junior Business Training, Commercial Law, and Commercial Geography. Not more than two such units will be permitted in any single subject. A student so admitted must meet the normal Foreign Language requirement for graduation.

Candidates whose preparation does not precisely coincide with the foregoing outline may in exceptional cases be admitted to the College if, in the judgment of the Committee on Admission, they are qualified to do satisfactory college work.

A limited number of applicants for admission may be received as Special Students, provided they have satisfactory preparation for the college courses which they desire to pursue.

When admitted, special students are enrolled as members of the groups they choose to enter and are under the direction of the regular advisers. Special students must register for at least twelve hours of work in each semester, and are held accountable for the satisfactory completion of courses for which they register. They are subject to the same regulations as other students.

ADMISSION TO ADVANCED STANDING

Applications for admission to advanced standing should be made to the Registrar of the College. The applicant should request the institu-
tion last attended to send to the Registrar a transcript of the student’s record accepted for admission, a transcript of his record there, and a certificate of honorable dismissal.

Not more than sixty semester hours of work taken at another institution will be credited to students who transfer to Ursinus College.

THE FIFTH YEAR FOR TEACHERS

Although the completion of four years of college work leading to the Bachelor's degree is still widely regarded as a sufficient minimum preparation for teaching in secondary schools, several states and a number of cities require the completion of a fifth year of preparation leading to the Master's degree. Even if the fifth year of preparation does not become a universal legal requirement, it is certain that those who wish to teach will find a fifth year of preparation desirable in many ways.

In addition to the four year curriculum for prospective teachers, the College offers a five year curriculum for prospective teachers. In the five year curriculum the work of the fourth year and of the fifth year is planned to meet the needs of each candidate. The primary purpose is to give the student a more extended and thorough preparation for teaching than is possible in four years. The five year curriculum is not recommended for those who are interested in supervision or administration, or for those who plan to prepare themselves for college teaching.

A candidate who wishes to be admitted to the five year curriculum should apply simultaneously to the Dean and to the Registrar, preferably at the end of the third year. If the candidate is admitted to the five year curriculum, the Dean, the Group Adviser, and the Chairman of the Department of Education will plan his program for the fourth year and the fifth year. No courses in Education, except courses in special methods, will ordinarily be included in his fourth year schedule. Practice teaching will be included in his fifth year schedule.

The Bachelor’s degree will be awarded for the satisfactory completion of four years of work (120 semester hours). The Master’s degree will be awarded for the satisfactory completion of the fifth year of work (27 hours).

The Master’s degree is awarded only to a candidate who has completed the five year curriculum for prospective secondary school teachers. The work of the fifth year is not to be considered as meeting in part or in full the requirements for a Master’s degree at another college or as
meeting in part the requirements for a Doctor's degree. Students in the five year program are required to maintain an average of B during the fifth year.

PROGRAMS IN SPECIAL FIELDS

Ursinus is a college of liberal arts and sciences. This means that Ursinus emphasizes a broad, general education for all regardless of the particular career for which a student plans to prepare. In addition, it is possible at Ursinus to prepare for specific careers in the fields listed below. A placement service maintained by the College assists the student in locating a position in the field of his choice.

Business. Graduates in the Business Administration Group find employment as accountants, secretaries, junior executives, sales managers, and the like. They are employed by many types of industrial concerns, banking institutions, public utilities, transportation companies, department stores, chain stores, etc. By electing Spanish, it is possible for students majoring in business to prepare for the growing opportunities in South American trade.

Chemical Research: Industrial Chemistry. The Chemistry-Biology Group provides opportunities for students desiring to major in Chemistry with a view to devoting their lives to some type of chemical research. Graduates find employment with large chemical companies doing pioneer work in the field of chemical investigation and research.

Dentistry. The Council on Dental Education of the American Dental Association fixes as the minimum basis for admission to an approved dental school the successful completion of two full years of academic work in an accredited college of liberal arts and science. This college work must include courses in English, biology, physics, inorganic and organic chemistry.

Educational Administration. Basic courses in education are provided which are pre-requisite to the professional courses in educational administration offered in graduate schools of education of leading universities.

Foreign Service. The American Foreign Service presents attractive opportunities to a limited number of young people who are willing to prepare themselves adequately for service abroad. The History-Social Science course, together with offerings available in the modern languages, provides preparation for the examinations required of applicants for
positions in foreign service. Upon graduation students are urged to pursue additional work at a recognized graduate school.

**Graduate Study.** One purpose of the curriculum of the modern liberal arts college is to prepare students for advanced study in various fields of knowledge. Preliminary study is done by the student at the undergraduate level in his chosen major field. Those intending to enter graduate schools should have a thorough grounding in their chosen field. As a reading knowledge of French and German is essential for most higher degrees, this knowledge should be acquired in the undergraduate school.

**Health and Physical Education.** By following the program outlined in the following pages it is possible to specialize in health and physical education and at the same time obtain a general cultural education. Health and physical education graduates meet the requirements for certification to teach in this field in Pennsylvania and other states.

**Journalism.** A student interested in journalism should enroll in the History-Social Science or the English Group and elect widely in other fields. Following graduation from college a year at a professional school of journalism is recommended.

**Laboratory Technician.** It is possible to arrange for either a two year or a four year course of preparatory work, although the latter is strongly recommended as the preferred training.

**Law.** As a general rule leading law schools require a baccalaureate degree as one of the conditions for acceptance of candidates. A broad, cultural education is considered the best preparation for legal study. Courses which emphasize reasoning are especially valuable.

**Medicine.** The Chemistry-Biology Group is designed to prepare students who are interested in the various aspects of medicine. Preparation for schools of osteopathy and of veterinary medicine, as well as for the regular medical schools, is provided.

**Music.** Although a considerable number of courses in music are available at Ursinus, no major in music is offered. Those who wish to follow music as a career should plan to attend graduate school after completing their work at Ursinus.

**Physical Research.** A special curriculum in connection with the Chemistry-Biology-Physics Group is offered to students interested in physics as a career.
Psychology. Undergraduate work in Psychology is designed for those who seek admission to graduate schools or who wish to enter personnel work in industry. Undergraduate study in Psychology is of assistance in the fields of teaching, guidance, law, clinical psychology, personnel and social work, nursing, and preparation for medicine.

Teaching. Work in education as required by many of the state departments of Education, including practice teaching, is offered to those who plan a career in education. Teacher preparation is limited to the secondary school field. Students follow curricula under the guidance of group advisers.

Theology. Most leading theological schools have as a requirement for consideration for admission a degree of B.A. Students who are preparing for the ministry should plan a broad course of study which will include history, languages, and literature, although specific subjects are not ordinarily specified by seminaries as necessary for admission. The History-Social Science or the English Group is usually recommended to students preparing for the ministry.

ACCELERATION OF COURSE
The College year at present consists of two terms of sixteen weeks each and a Summer Term of twelve weeks divided into two six week sessions. Students are admitted to the College at the beginning of each term. Students who wish to do so may accelerate their college courses by attending the Summer Term as well as the Fall and Spring Terms. The Summer Term is available to all students who wish to take advantage of it.

REGISTRATION
All students must register at the beginning of the Fall Term for the work of the Fall and Spring Terms, and will not be allowed to change their registration or drop courses of study later than one week after Registration day except by special permission of the Faculty. A fee of one dollar is charged for registration on days other than those appointed in the College Calendar for the registration of students.

ABSENCES
If a student is absent from class on account of exigencies such as illness, the death of a relative, or duty away from the College as a representative of the institution, the student should obtain a written statement from
his doctor, from the College nurse, or from the athletic director, adviser of debating or other College officer certifying the reason for absence on a definite date or dates. In special cases the Dean may give students such a statement, and statements from persons other than college officials will be accepted if initialed by the Dean. Such statements are to be shown to the instructor of each course missed (and with regard to Chapel to the Dean of Men) no later than a week after returning to class. The instructor will record the absence as excused. A student is allowed during a term two unexcused absences in any course.

If the total number of absences, excused and unexcused, exceeds twice the number of exercises per week in that course, the student in question may be dropped from the course by the Dean and the instructor in charge in consultation with the Adviser. If he is allowed to continue, he must make up the work missed. If he is dropped, he will be given a grade of F or W.

If the allowed number of unexcused absences is exceeded, the student in question must secure a permit from the Dean in order to take the final examination, for which he will be charged a fee of five dollars.

A third year or a fourth year student is permitted absences if during the preceding term he has received no grade lower than B and at least one A.

A student who absents himself from a test previously announced must take a special test, for which he must pay a fee of one dollar. Permits for such tests must be obtained at the Dean’s office.

**GROUP ADVISERS**

At the beginning of the year the Faculty appoints from its own number an Adviser for the students in each of the eight groups in which the courses of instruction are offered. The Group Adviser is the medium of communication between the Faculty and the students of his group. The approval of the Group Adviser is necessary before a student may register for or enter upon any course of study, or discontinue any work.
The Educational Program

THE GROUPS

The group system is employed in the organization and administration of instruction. By this system, the courses of instruction are offered in carefully arranged groups, each comprising (1) dominant subjects which adapt the group to the intellectual tastes and the future purposes of the student, (2) other prescribed subjects essential to a liberal education and required of all students, and (3) elective subjects from which may be selected studies meeting the particular objectives of each individual. A student, at matriculation, chooses the group of studies he desires to pursue, and with the advice and consent of his adviser, selects his studies for the year and reports the same to the Dean on a blank provided for the purpose. By virtue of this act he becomes a member of the group of his choice and as such is officially recognized thereafter in all acts and processes of administration in the College. A student who is uncertain on entering college as to his future plans and, therefore undecided as to the group of studies he should pursue, may make a temporary choice and change to any group he may prefer at the end of the first year.

CHOICE OF STUDIES

In registering, the student must present his complete list of studies, both prescribed and elective, for the whole year.

Courses to satisfy conditions take precedence over regular courses. It is strongly advised that conditions be made up in summer so as not to interfere with the proper arrangement of one's curriculum.

In selecting studies for the year, the student will follow the synopsis of his group as presented although, with the approval of his adviser and of the Dean, he may substitute other studies for the elective courses listed, or at the beginning of a year may change from one group to another.

Courses prescribed as degree or group requirements must take precedence over and be scheduled before elective courses.
When a student changes to another group, he will receive credit toward graduation only for those prescribed courses which he may have completed that are included in the group to which he has received permission to change.

REQUIREMENTS FOR GRADUATION

The requirement for the degree of Bachelor of Arts or Bachelor of Science is the completion of one hundred and twenty semester hours of work, within which must be included all the courses required by the Faculty of all students for graduation and the courses required by the group to which the student belongs. At least sixty semester hours of this work must have been taken at Ursinus College, and this must include the work of the senior year.

A student may not take in any one term less than twelve semester hours of work. The normal maximum for a term is five courses or fifteen semester hours. Two semester hours above the normal maximum may be scheduled with the approval of the Group Adviser, provided the student’s average for the preceding term is eighty or higher. Three semester hours above the normal maximum may be scheduled with the approval of the Group Adviser, provided the student’s average for the preceding term is eighty-five or higher.

With the permission of the Dean, a student in the Physical Education Group may take in each term two semester hours more than the maximum set for the other groups.

The courses required of all students for graduation are the following:

In the first year
- English Composition 1-2
- History 1-2
- Foreign Languages 1-2 or 3-4
- Biology 3-4, Chemistry 1-2, or Physics 1-2 (if prerequisites are satisfied)

Physical Education 101-2
(No semester hour credit. Not required of students in the Physical Education Group)

The remaining first year course is to be selected from Mathematics 1-2, Mathematics 1a-2a, a second foreign language, English Literature 17, 18. Economics 3, 4, Political Science 1-2, or Religion 1, 4, or 6. This course
may be prescribed under group requirements. History 1-2 or the Science course may be postponed until the second year if group requirements make it necessary.

In the second year

- English Literature 3-4, or 17, 18, or 19-20
- English Composition 3-4
- Foreign Languages 3-4, if not previously completed

In the third year

- Economics 3, 4, if not previously completed, or
- Political Science 1-2, if not previously completed

In the second or third year—Psychology 1

In the second, third, or fourth year—Philosophy (a one semester course)

The work of every student is composed of three parts. The first part consists of the courses just named, which are required of all students and which are, in the judgment of the Faculty, essential to a liberal education. The second part consists of the courses required by the group to which the student belongs for the major subject in which he is concentrating. Within the seven groups, there are fourteen major subjects offered—Biology, Chemistry, Economics and Business Administration, Classical Languages, English, French, German, History, Mathematics, Physical Education, Physics, Political Science, Psychology, and Spanish. The requirements for a major in each of these subjects will be found listed under the several Departments in the Courses of Instruction. The third part consists of the courses the student elects of those offered for which he is eligible. These courses are a means of further individualizing the course of study for each student and of fitting it to his needs and desires.

The specific courses in addition to the College requirements for graduation that must be taken to satisfy the group requirements for the several majors are as follows:

- **Biology**: Biology 3-4; 6; 7-8; 9-10; 11-12; 17-18; Physics 1-2; Chemistry 1-2; Mathematics 1, 2 or 1a, 2a.

Students majoring in Biology who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Biology 9-10, 17-18.
Chemistry. Chemistry 1-2; 14; 3-4; 5-6; 7-8; 9-10; Mathematics 1a, 2a; 3-4; Physics 1-2; Biology 3-4.

Students majoring in Chemistry who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Chemistry 3-4; 5-6; 9-10.

Classical Languages. Students majoring in Classical Languages are required to take at least 12 semester hours of Greek and 12 semester hours of Latin, beyond Latin 1-2. In the first half of his senior year, each student must take the Seminar in Classical Studies, Greek 7. In the examination at the close of this course, he will be expected to show a satisfactory general knowledge of Greek and Roman literature, language, art, history, geography, mythology, religion, and private life. For this examination the student is expected to prepare himself (with the advice and help of the instructor) throughout his previous three years both by courses and by outside reading.

Business Administration and Economics. Students majoring in this department must take a minimum of thirty (30) semester hours of work in the department, including Courses 3 and 4, and twelve (12) semester hours of work in Political Science, including Course 1-2.

A student may, if he wishes, concentrate in Accounting, Economics, Finance, or Industrial Relations, as is indicated by the grouping of courses as shown below:

Accounting: Economics 3, 4, 6, 11, 12, 15, 19, 20; Mathematics 13, 14; Electives in the department six (6) semester hours.

Economics: Economics 3, 4, 8, 9, 10, 14, 17, 21; Electives in the department six (6) semester hours.

Finance: Economics 3, 4, 6, 9, 10, 11, 12, 13, 15; Mathematics 13, 14.

Industrial Relations: Economics 3, 4, 5, 18, 22, 23; Electives in the department twelve (12) semester hours.

English. English Literature 3-4; 5, 6; 7, 8; 9, 10; 11-12; 19-20; History 7-8; 9-10.

Students preparing for graduate study in English should elect French and German as their modern languages. Study in classical languages is also strongly recommended for such students.

French. French 5, 6, 9, 15, 16. One of following courses: French 7, 8, 10. One of following courses: French 11-12; 13-14; History 3-4; Latin 1-2; 3-4 (or equivalent, i.e., four years of Latin in secondary school).
German. German 5, 6; 7, 8; 10; 13-14; twelve (12) semester hours' study in another language.

Health and Physical Education. Physical Education 1, 2; 3; 5, 6; 7, 8; 9, 10; 14; 16, 17; 19; 20; 22; 201-2; 203-4; 205-6; 207-8; Chemistry 1-2; Biology 3; 1 or 2; 17-18; History 20; Sociology 1.

History. History 5-6; 9-10; ten (10) semester hours in elective courses in History, including one seminar; Economics 3, 4; Sociology 1; Political Science 1, 2.

Mathematics. A member of the Mathematics Group normally takes Mathematics 1a, 2a, and 5-6 in the first year; Mathematics 3-4 and Physics 1-2 (to satisfy the general requirement in science) in the second year. For graduation at least 30 semester hours in Mathematics are required.

For students expecting to teach, the recommended courses in Mathematics are Problems, the Teachers' Course, Statistics, Theory of Equations, and Modern Geometry.

Students expecting to go into business, insurance or the actuarial profession should take a third year of English, and two years of Accounting. The recommended courses in Mathematics are Mathematics of Finance, Statistics, Finite Differences and Probability.

Students expecting to attend a graduate school, or engineering school, or interested in scientific applications should take courses in their chosen science. The recommended courses in Mathematics are the Calculus, Vector Analysis, Group Theory, and Theory of Functions of a Complex Variable.

Physics. Physics 1-2; 3-4; 5, 6; 7-8; Mathematics 1a, 2a; 3-4; 7-8; 9, 10; Chemistry 1-2, 14.

Students majoring in Physics who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Physics 7-8; Mathematics 9, 10.

Political Science. Political Science 5, 6; Electives in the department twelve (12) semester hours; History 9-10; Economics 3, 4; Sociology 1, 2.

It is recommended that Political Science 1-2 be taken in the first year, Political Science 5, 6 and Economics 3, 4 in the second year, and History 9-10 in the third year.

Psychology. Psychology 1, 4, 5, 6, 8, 10, 12; Biology 3, 11-12; Mathematics 15-16. First Year—Biology 3. Second Year—Psychology 1, 8; Biology 11-12. Third Year—Psychology 5 (Education 3), 6; Mathematics 15-16; Fourth Year—Psychology 4, 10, 12.
The following courses are suggested but not required: Physics 1-2 (for those who have not had high school physics); Philosophy 3 or 4.

Spanish. Spanish 5, 7, 8, 13-14.
History 3-4, 21-22.
Latin 1-2; 3-4 (or equivalent, i.e., four years of Latin in secondary school).

GRADERS OF SCHOLARSHIP

On the completion of a course the standing of the student is expressed, according to his proficiency, by one of six grades, designated by letters: A, B, C, D, E, and F. The signs + and − may follow the letters to denote further differences in proficiency. Letter A is taken to denote grades between 100% and 90%, B between 90% and 80%, and so on. The grade E denotes a failure which may be made up by re-examination. The grade F at the end of a term denotes a failure such that the class work must be repeated in order to secure credit for the course. For the purpose of taking averages, grade E is reckoned as equivalent to 55% and grade F as equivalent to 45%.

If by the end of the year a first year student fails to make an average of at least 65%, and if by the end of the year a student of a higher class fails to make a cumulative average of at least 70%, he is discontinued unless, on account of mitigating circumstances, he is permitted to remain by special action of the Faculty.

A permanent record is kept of each student’s work, and a copy of the same is sent to his parent or guardian at the close of each term. The standing of first year students is reported also at mid-term. Through correspondence and conferences, the cooperation of parents is sought in the endeavor to obtain the best possible results in the work of students.

DEGREES

URSINUS COLLEGE confers four degrees in course—Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Science. For specific requirements of the curricula leading to each of these degrees, see pages 24 and 30 et seq. Degrees are conferred only at convocations and candidates must present themselves in person.

The College may confer the honorary degrees of Doctor of Divinity, Doctor of Pedagogy, Doctor of Science, Doctor of Letters, and Doctor of Laws on persons whose distinguished ability and service have been
THE EDUCATIONAL PROGRAM

deemed worthy of such recognition by the Faculty and the Board of Directors.

HONORS

COMMENCEMENT PARTS

Two Commencement honors are assigned: one, the Valedictory, to the person attaining the highest standing in the graduating class; the other, the Salutatory, to the person attaining the next highest standing.

GRADUATION WITH DISTINCTION

Members of the graduating class who have shown great proficiency in their entire course may be graduated with distinction if, in the opinion of the Faculty, their attainments warrant such honors. These distinctions, Summa Cum Laude, Magna Cum Laude, and Cum Laude, are given only for unusual excellence in all the subjects pursued by the candidate.

DEPARTMENT HONORS

Students may be graduated with special honors in departments of study in which they have shown exceptional proficiency, and in which they have done extra work.

1. A candidate for Department Honors must have the endorsement of the professor in charge of the department in which he expects to try for such honors, and must enroll as a candidate at the Dean’s office at least eight months prior to the anticipated date of graduation.

2. A student must maintain a grade not lower than C in any course pursued after the first year and must maintain an average of B while he is pursuing his work as a candidate for Department Honors.

3. A candidate must complete an amount of work equivalent to three semester hours in the department in which he intends to try for honors in addition to the full number of semester hours prescribed for graduation. At least twelve semester hours must be in the subject in which he is registered for Department Honors. He must submit to the Faculty a thesis on some subject within the field represented by his extra work. The thesis must be presented at least one week before the time set for the senior final examinations.
Prizes

THE PHILIP H. FOGEL MEMORIAL PRIZE

The Philip H. Fogel Memorial Prize of $25 is awarded annually to the member of the Senior Class who has attained the highest excellence in the Department of Religion, as shown by examination on completion of at least twelve semester hours of work. APPLICATION FOR SCHOLARSHIPS

SCHOLARSHIP application forms may be obtained from the Office of the Registrar. Candidates for Open Scholarships must complete and submit a scholarship application form and an application for admission by February 15. The regular Pre-Matriculation Fee of $10 must accompany the application.

The College offers to each entering class eight Open Scholarships. These provide full tuition to the recipients. Candidates for Open Scholarships must take the Scholastic Aptitude Test and three sub-tests of the Scholastic Achievement Test (one of which must be in English) in the March Series of the College Entrance Examination Board.

Many Endowed Scholarships, varying in value from $50 to $300 a year, are available. Each scholarship is tenable for four years, provided that the holder’s conduct and scholastic work remain satisfactory. All scholarships to first year students are awarded on the basis of the results of competitive examinations and need. Correspondence concerning scholarships should be addressed to the Registrar.

The George Wolff Scholarship, founded by the Rev. George Wolff, D.D., of Myerstown, Pa., 1,000

LOAN FUND

A loan fund has been established through gifts of individuals and an appropriation by the Board of Directors. Loans are made to upper class students under a contract providing definitely for their repayment. Application must be made to the President of the College, who is custodian of the Fund.
College Principles

Ursinus College is a coeducational institution devoted to the principles that have made the smaller privately endowed college so important in American education. In principle and by tradition it is devoted to a policy which opposes unnatural distinctions among its students. Equal opportunity for all is provided and a wholesome spirit of fraternity throughout the entire body is encouraged. A system of student government for young men, with powers inhering in a central representative body known as the Council, maintains order and encourages self-control in social and civil affairs. The life of the young women also is regulated through a system of self-government administered by the women students of the College. The aim of the institution is to train its students, through the performance of their social and civil obligations and duties, in those virtues which will fit them for the extraordinary responsibilities of educated men and women in after life. With this in view, the College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community, and in such cases the fees due or paid in advance to the College will not be refunded in whole or in part.

The College is dedicated to fostering close association among the administration, faculty, and students. A homelike atmosphere is found in the residential buildings, and modern equipment is provided to support the educational program and to assure adequate facilities for sports and extra-curricular activities. All students live in rooms provided by the College or in their own homes, and all resident students take their meals in the College dining rooms.

Public Worship

All resident students and all day students whose homes are within a mile of the campus are required to attend religious services in the College chapel on certain designated days of each week. Students may not be absent from chapel services more than three times in a semester without valid excuse. Students are expected to attend services on Sunday in the church of their own or their parents' choice.
College Activities

ATHLETICS

Ursinus maintains teams in intercollegiate competition in football, basketball (varsity and junior varsity), soccer, wrestling, golf, track, tennis, and baseball for men. The intramural program of athletics for men students includes league competition in touch football, basketball, and softball, and an elimination tournament in tennis.

The College maintains intercollegiate competition for women in the following sports: hockey (varsity and junior varsity), basketball (varsity and junior varsity), softball, tennis, and swimming. The intramural program provides recreation in hockey, basketball, tennis, and softball.

The gymnasiums, playing fields, and equipment available for the pursuit of these various sports are described under Buildings and Equipment (see pp. 8 to 11).

ORGANIZATIONS

A large number of organizations of many types and purposes provide ample scope for extra-curricular activity on the part of the students. These organizations are all approved by the Faculty and are supervised by the Committee on Student Activities or the Dean of Men and Dean of Women.

Student life on campus is controlled and regulated by the Men's Student Council and the Women's Student Government Association.

Religious thought and activity are fostered by the YMCA, the YWCA, the Chi Alpha Society, the Lutheran Student Association, the Canterbury Club, and the Newman Club.

Many clubs serve the interest of students in particular subjects of study or future occupations: the James M. Anders Pre-Medical Society, the Beardwood Chemical Society, the English Club, the French Club, the German Club, the Spanish Club, the International Relations Club, the Pre-Legal Society, the Future Teachers of America, and the Business Administration Club.

Dramatics and debating are the province of the Curtain Club, Alpha Psi Omega, the Debating Club, and Tau Kappa Alpha.
Students interested in music are encouraged to join the College Choir, the Glee Club, the Meistersingers, the Band, and the Music Club.

Interest in athletics and the support of athletics at the College are fostered by the Varsity Club and the Women's Athletic Association.

A chapter of the American Veterans' Committee has been organized at Ursinus.

There are ten local social organizations on the Ursinus campus. The fraternities are Sigma Rho, Zeta Chi, Alpha Phi Epsilon, Demas, Beta Sigma Lambda, and Delta Pi Sigma. The sororities are Omega Chi, Alpha Sigma Nu, Kappa Delta Kappa, Phi Psi, and Tau Sigma Gamma.

**PUBLICATIONS**

*The Ursinus Bulletin*, of which the Catalogue is a number, is the official publication of the College. It is issued five times a year.

*The Alumni Journal,* the official publication of the Alumni Association, appears three times a year.

*The Ursinus Weekly* is managed by a Board of Control representative of the Faculty and the student body, and edited by a staff chosen from among the students on a basis of merit. It is a weekly newspaper, interesting to students and alumni as a record of life at Ursinus.

*The Lantern,* student literary journal, is issued three times a year.

*The Ruby,* published by the Senior Class, is a pictorial volume presenting an intimate view of the year's life, not only of the Class, but of the whole College.
College Fees and Services

A candidate for admission must pay a Pre-Matriculation Fee of $10 at the time he files his application. If he is accepted and completes matriculation, the fee is credited on his bill for the first term; otherwise it is not refunded.

Upon his acceptance by the College, an applicant must make an Advance Payment of $50. This payment is also credited on his bill for the first term. If he fails to complete his matriculation, this payment is forfeited.

All regularly enrolled students must make an Advance Payment of $50 at such time as may be designated by the College. It is credited on the bill of the first term. This payment is forfeited if the student fails to complete his registration.

An enrolled student must pay $10 in order to qualify for drawing a room.

Ursinus College is a residential college. All students, except those who reside in their own homes, must occupy rooms provided by the College and take their meals in the College dining rooms.

The expenses for a term of sixteen weeks are therefore included in a Comprehensive Fee which covers class room instruction; the use of laboratories, libraries, gymnasiums, and the infirmary; ordinary medical attention; care by the resident nurse; furnished room, including heat and light; and table board, exclusive of Christmas and Spring recesses. The Comprehensive Fee for men is $500.00 to $520.00, depending upon location of room. The Comprehensive Fee for women is $520.00 to $545.00, depending upon location of room. The Fee for a student living in his own home is $250.00 per term. The College reserves the right to make reasonable alterations in the Comprehensive Fee at the beginning of any term in order to cover possible unforeseen costs.

An Activities Fee of $7.50 is charged each term to cover the following: subscription to the Ursinus Weekly, intercollegiate debating, the Chris-
tian associations, the Ursinus College Forum, and a number of other activities. Students are admitted without charge to all athletic games at the College, to Curtain Club Plays, and to College dances.

A fee of $50, payable upon presentation of bill, is required of each student engaged in practice teaching.

Private individual instruction (organ, piano, violin, voice, or any band or orchestral instrument) $50, one half-hour lesson each week during regular term.

A deposit of $10 is required of each new student to defray any expense incurred by injury to property, and is included on the bill for the first term. The unexpended balance is returned upon graduation or withdrawal from College.

To a student in his senior year, a graduation fee of $10 is charged in the last bill of the senior year.

Fees for students in the fifth year program are the same as those in preceding years.

Bills for the Comprehensive Fee are issued approximately thirty days before the beginning of each term. A student’s bill must be settled no later than the opening day of each term.

No student who is indebted to the College or to any of its departments or agencies will be permitted to register at the beginning of any term, and all items due the College from a candidate for graduation must be paid before the candidate may be presented for a degree.

Checks should be made payable to Ursinus College.

A charge of $1 is made for the transcript of a student’s record. Requests for such transcripts should be made to the Office of the Dean.

A student who is absent from College on account of sickness, and retains his place in class, pays the Comprehensive Fee in full during his absence, except when the absence is continuous over a period exceeding four weeks, in which case resident students are allowed a rebate of $5 for each full week on account of table board. No refund is allowed on account of a student’s dismissal or withdrawal from the College during a term, except when the student enters the armed services.

Since the College provides for all resident students a health service, which includes attention and care by its physicians and resident nurses, the College will not pay bills that students contract with hospitals or
with physicians or nurses not on the staff of the College. The College reserves the right to enforce quarantine and to engage the services of special attendants if necessary, but will not be responsible for the compensation of extra physicians, nurses, or attendants, which compensation must be provided by the student or his parent or guardian.

Each resident student supplies his own towels, two pairs of sheets for a single bed, mattress protector, a pair of pillow cases (19 x 34), a pair of blankets, and a bedspread.

First year students, except those whose presence is needed for service, are required to vacate their rooms immediately following the second term examinations.

**MEDICAL SERVICE**
The Comprehensive Fee paid by resident students entitles them to ordinary medical attention. The College Physician may be consulted in his office on the campus during office hours. He will regularly visit patients in the infirmaries and students confined to their rooms by illness. The Resident Nurses care for the sick under the direction of the College Physician. Each student is given a physical examination on entering College.

**BUREAU OF STUDENT HELP**
The Bureau, conducted under the management of officers of the College, provides opportunities for students to earn a part of their expenses by working as waiters, laboratory assistants, library assistants, typists, and clerks in the Supply Store. These positions are standardized so as not to overburden the student or to interfere with his studies. Positions accepted under the Bureau of Student Help must, however, always take precedence over any other extracurricular activities. A standard position, such as a waitership in the dining room, pays two hundred and fifty dollars per year. Approximately one hundred and fifty positions, representing varying amounts of compensation and types of work, are now open to students.

Letters of application, as well as those requesting information, should be addressed to Dr. Charles D. Mattern, Director of Student Help.

**PLACEMENT BUREAU**
Ursinus College conducts a placement Bureau to assist students and graduates in finding positions for which they qualify. Its function is to
serve as a point of contact for Seniors and Alumni with educational institutions, business and industry. Detailed personal and scholastic records of Seniors and Alumni are compiled and are available along with a photograph, for all prospective employers.

Alumni Placement—The Placement Bureau acts as a clearing house for the placement of alumni seeking employment or new positions. Alumni are encouraged to place their names on the list of available candidates. A fee of $1.00 is charged for Alumni registrations.

Persons seeking placement in the educational field or in business or industry should address communications to Dr. Harvey R. Vanderslice, Director of Placement, Ursinus College, Collegeville, Pa.
Courses of Instruction

IN DESIGNATING courses of study, odd numerals are employed to represent the work of the Fall Term and even numerals the work of the Spring Term. Exceptions to this regulation are noted. Summer Term offerings are not announced in this catalogue, but so far as possible, courses will be offered to meet the needs of students who register for the Summer Term. When a single numeral is employed, the work represented constitutes a term’s course. When two numerals are employed, the work represented constitutes what is normally regarded as the work of two consecutive terms. When the numerals are connected by a hyphen, the course may be entered only at the beginning of the course. When the numerals are separated by a comma, the second part of the course may be entered even though the student has not had the first part of the course.

The credit value of each course, expressed in semester hours, is printed in italics. The hours per week are given in the definition of the course.

BIOLOGY

PROFESSOR BROWNBACK
PROFESSOR WAGNER
PROFESSOR SNELL
ASSISTANT PROFESSOR GURZYNSKI
MISS FRETZ

Students majoring in Biology must take the following courses: Biology 3-4; 6; 7-8; 9-10; 11-12; 17-18; Physics 1-2; Chemistry 1-2; Mathematics 1, 2 or 1a, 2a.

Students majoring in Biology who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Biology 9-10; 17-18.

Course 6 is not required for Biology majors other than those preparing for secondary school teaching or veterinary training.

1, 2. Personal and Community Hygiene. DR. WAGNER, MISS SNELL, MR. GURZYNSKI
Study of the structure and physiology of systems in relation to personal hygiene; study of the problems of community hygiene. Lectures, papers, and discussions. Three hours per week. Three semester hours.

Course 1 is for men. Course 2 for women. Elective for first-year students in all groups. Course 1 is given in both terms.

3-4. General Biology. DR. WAGNER
A survey of the biological facts and problems of the plant and animal kingdom. The first semester is devoted to the study of zoology, the second to botany. In both semesters correlated laboratory and lecture work is definitely planned. Two hours of lecture and three hours of laboratory work per week. Six semester hours.

52
6. Advanced Botany. DR. WAGNER
A course designed to acquaint the student with a more detailed study of the plant groups, stressing in particular the principles of taxonomy and ecology. Lectures and discussions followed by field and laboratory work. Prerequisite, Course 3-4. Three semester hours.

Course 6 is required for students who intend to apply for certification as teachers of biology in Pennsylvania and for pre-veterinarian students.

7-8. Vertebrate Anatomy. DR. BROWNBACK
The comparative anatomy and relationships of the chordates. Prerequisite, Course 3-4. One hour of lecture and six hours of laboratory work per week. Eight semester hours.

Courses 7-8 and 9-10 alternate. Course 9-10 will not be given in 1952-53.

9-10. Histology and Embryology. DR. BROWNBACK
A course in the preparation and study of tissues and in the embryology of the chick. Prerequisite, Course 3-4. One hour of lecture and six hours of laboratory work per week. Eight semester hours.

11-12. Evolution and Heredity. DR. BROWNBACK
Designed to familiarize the student with the recent work in evolution and heredity and their social applications. Open to students who have had no biological training. Lectures, papers, and discussions. Two hours per week. Four semester hours.

Course 11-12 is open to third-year and fourth-year students in all groups.

15-16. General Physiology. DR. BROWNBACK
The study of the physical, chemical, and physio-chemical processes taking place in living matter. Prerequisites, Courses 3-4, 7-8 or 9-10 and Chemistry 1-2. Chemistry 7-8 is not a prerequisite but is recommended as preparation. Opportunity is given for students to investigate assigned problems at times other than regular hours. Enrollment is limited to fifteen students. One hour of lecture and six hours of laboratory work per week. Eight semester hours.

17-18. Anatomy and Physiology. DR. BROWNBACK
The human skeleton; muscular, respiratory, and circulatory systems; the internal organs; the special senses; all considered with reference to structure and function; secretion, absorption, and elimination. Models, charts, and parts of the human cadaver. Three hours per week. Four semester hours.

Course 17-18 is prescribed for students in the Physical Education Group.

CHEMISTRY

PROFESSOR STURGIS
PROFESSOR PETTIT
ASSISTANT PROFESSOR STAIGER

Students majoring in Chemistry must take the following courses: Chemistry 1-2, 14; 3-4; 5-6; 7-8; 9-10; Mathematics 1a, 2a; 3-4; Physics 1-2; Biology 3-4.

Students majoring in Chemistry who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Chemistry 3-4; 5-6; 9-10.
1-2. General Chemistry. MR. PETTIT, MR. STAIGER
The facts, theories, and laws of the chemistry of the commoner elements, their industrial uses, and their physiological and nutritional applications. Two hours of lecture and three hours of laboratory work. Six semester hours.

14. Inorganic Chemistry. MR. STAIGER
A more detailed study of the theories and principles of chemistry accompanied by work in the solution of chemical problems. This course is to be pursued concurrently with Chemistry 2. Prerequisite, Chemistry 1. Two hours of lecture. Two semester hours.

3-4. Qualitative Analysis. DR. STURGIS
The physico-chemical basis of analytical chemistry; analysis of metals and non-metals. Prerequisite, Course 14. Two hours of lecture and three hours of laboratory work. Six semester hours.

5-6. Quantitative Analysis. DR. STURGIS
A study of the most acceptable methods of gravimetric and volumetric analysis. Prerequisite, Course 3-4. Two hours of lecture and four hours of laboratory work. Six semester hours.

7-8. Organic Chemistry. MR. PETTIT
The study of the properties, synthesis, and structure of the most important classes of the carbon compounds. Prerequisite, Course 14. Three hours of lecture and three hours of laboratory work. Eight semester hours.

9-10. Physical Chemistry. DR. STURGIS
The course includes a study of the states of matter, the properties of solution, atomic structure, radio-activity, and other topics. Prerequisites, Physics 1-2; Mathematics 3-4; Courses 5-6 and 7-8. Three hours of lecture and three hours of laboratory work. Eight semester hours.

11. The Literature of Chemistry. MR. PETTIT
The use of books, journals, and reports in the field of Chemistry. Open to third year and fourth year students in the Chemistry-Biology-Physics group. Prerequisites, Course 7-8 and German 3-4. One hour per week. One semester hour.

Course 11 will not be offered in 1952-53.

16. Advanced Quantitative Analysis. DR. STURGIS
This course may be taken with Chemistry 6. One hour of lecture and six hours of laboratory work. Three semester hours.

20. Seminar. DR. STURGIS
Papers and reports in Physical Chemistry. One hour per week. One semester hour.

Course 20 will not be offered in 1952-53.

21. Seminar in Valence. MR. STAIGER
Selected topics dealing with the valence, resonance and isomerism of inorganic and organic compounds. One hour per week. One semester hour.

Courses 21 and 22 will be offered in 1952-53.

22. Seminar in Organic Chemistry. MR. PETTIT
Reports on recent advances in Organic Chemistry. One hour per week. One semester hour.
CLASSICAL LANGUAGES

PROFESSOR BAKER

Students majoring in Classical Languages are required to take at least 12 semester hours of Greek and 12 semester hours of Latin, beyond Latin 1-2. In the first half of his senior year, each student must take the Seminar in Classical Studies, Greek 7. In the examination at the close of this course, he will be expected to show a satisfactory general knowledge of Greek and Roman literature, language, art, history, geography, mythology, religion, and private life. For this examination the student is expected to prepare himself (with the advice and help of the instructor) throughout his previous three years both by courses and by outside reading.

GREEK

1-2. Beginning Greek. 
DR. BAKER
Allen, *First Year of Greek*. Attention is paid to the Greek element in English words and to the social customs and institutions of the Greeks. Three hours per week. *Six semester hours.*

Course 1-2 is elective for students in all groups.

3. Intermediate Greek. 
DR. BAKER
Xenophon, *Anabasis*. Reading on the history of Greek literature. Three hours per week. *Three semester hours.*

4. Homer. 
DR. BAKER
Selections from the *Iliad* and the *Odyssey*. Three hours per week. *Three semester hours.*

5, 6. Greek History and Comedy. 
DR. BAKER
Thucydides and Aristophanes, selections. This course will include papers and outside readings and is designed to give the student a complete picture of Athens during the latter half of the fifth century, B.C. *Six semester hours.*

7. Seminar in Classical Studies. 
DR. BAKER
A study of selected topics dealing with the Greco-Roman world. Knowledge of Greek and Latin is a prerequisite. Three hours per week. *Three semester hours.*

DR. BAKER

LATIN

1-2. Elementary Latin. 
DR. BAKER
A study of the grammar, syntax, and vocabulary, with emphasis upon the Latin elements in English words. Reading of passages from various authors. Three hours per week. *Six semester hours.*

3, 4. Vergil. 
DR. BAKER
*Aeneid*, Books I-VI. Emphasis is placed on vocabulary and mythology. Prerequisite, Latin 1-2 or its equivalent. Three hours per week. *Six semester hours.*
5, 6. *Cicero, De Senectute*; *Horace, Odes and Epodes*; selections from other authors. **DR. BAKER**

Prerequisite, Latin 3, 4 or its equivalent. Three hours per week. *Six semester hours.*

7, 8. *Horace, Satires, Epistles,* and *Ars Poetica*; selections from other authors. **DR. BAKER**

Readings on the history of Latin literature. *Six semester hours.*

9, 10. *Advanced Latin.* **DR. BAKER**

The instructor will arrange with students electing this course to read authors of one period or literary type, or authors whose works may be correlated with other fields of study, e.g., philosophy, history, law. *Six semester hours.*

11, 12. A continuation of the work done in Latin 9, 10. *Four semester hours.* **DR. BAKER**

22. *Preparation for Teaching Latin.* **DR. BAKER**

For third year or fourth year students. Three hours per week. *Three semester hours.*

**ECONOMICS**

**PROFESSOR BOSWELL**

**PROFESSOR BONE**

**MR. SYMONS**

**MR. HERBSLEB**

Students majoring in this department must take a minimum of thirty (30) semester hours of work in the department, including Courses 3 and 4, and twelve (12) semester hours of work in Political Science, including Course 1-2.

A student may, if he wishes, concentrate in Accounting, Economics, Finance, or Industrial Relations. For outline of courses specified for these concentrations, see page 32.

A survey of the general principles which underlie the functioning of our economic system. Special attention is given to the roles played by each of the factors of production, and to the pricing process. *Three semester hours.* Economics 3 is prerequisite for all other courses.

This is a study of current economic problems, their impact on our society, and a critical analysis of proposed solutions. Among the problems considered are inflation, taxation, price controls, and monopolistic tendencies in business and labor, and our economic relations to other countries. *Three semester hours.* Economics 4 is a prerequisite for all other courses except Economics 3.

5. *Labor Problems.* **MR. SYMONS**

A study of human relations arising from industrial organizations and the employers' part in bringing about industrial peace. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

6. *Business Finance.* **MR. SYMONS**

A study of the financial aspects of business management, including the financing of corporations. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

7. *Marketing.* **MR. HERBSLEB**

A survey of the marketing mechanism and a comparative study of the most usual methods and practices. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*
8. Foreign Trade. **MR. HERBSLEB**
The principles of foreign trade; relation of foreign trade to national prosperity; foreign trade policies of the more important countries. Prerequisite, Courses 3, 4 and 7. Three hours per week. *Three semester hours.*

9. Money and Banking. **DR. BOSWELL**
A study of monetary and banking theories followed by an analysis of the services and methods of operation of our commercial banks. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

10. Investments. **DR. BOSWELL**
A survey of the various types of investment opportunities available. A study of methods of analyzing securities and timing their purchase or sale. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

11. Fundamentals of Accounting. **MR. BONE**
Fundamental principles involved in the proprietorship and partnership form of organization. Adjusting and closing the books, preparation of statements and working papers. Problems and systematic practice set accompany the work. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

12. Principles of Accounting. **MR. BONE**
Principles involved in the corporate form of organization, including large enterprises and manufacturing types of business. Problems, questions and a systematic practice set accompany the work. Three hours per week. Prerequisite, Courses 3, 4, 11. *Three semester hours.*

13. Public Finance and Taxation. **MR. HERBSLEB**
A study of the general principles of public expenditures, public revenues, public indebtedness, and financial administration. Attention will be given to the principles and workings of the Federal Income Tax law. There will be class assignments in solving actual income tax problems. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

14. Railway Transportation. **MR. HERBSLEB**
A study of the financing of railroad construction in the United States; rate making, routing, personal and territorial discrimination, competition and consolidation; state and federal legislation and regulation; government operation; criticisms of some of the proposed solutions of our railway problems. Prerequisites, Courses 3, 4. Three hours per week. *Three semester hours.*

15. Business Law. **MR. BONE**
An introductory course covering the fundamental procedures governing contracts, sales, agency, bailments, negotiable instruments, real and personal property. Lectures, reading, and study of cases and problems. Three hours per week. Prerequisite, Courses 3, 4. *Three semester hours.*

17. Business Organization. **MR. BONE**
A study of the forms of business organizations—the historical background and the reasons for their development. Governmental control of large organizations with special attention given to the problems of monopolies. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*
18. Industrial Management.  
Mr. Bone
Historical background of industrial management, organization, physical plant, standardization, time study, wage payment, methods, control of production, planning and operation, executive control. Prerequisites, Courses 3, 4. Three hours per week. *Three semester hours.*

Mr. Bone
A study of advanced principles and the application of principles to the analysis of problems. Analysis of profits, application of funds, capital expenditures and depreciation policies, inventory valuation, installment accounts, branches, consolidated statements. Two hours per week. *Two semester hours.* Prerequisite, Economics 11, 12.

Mr. Bone
A study of the fundamental principles of cost accounting. Methods of finding the cost of specific orders or lots, fundamentals of process costs, accounting for by-products and joint products, estimate costs, and standard costs. Prerequisite, Courses 11, 12. Two hours per week. *Two semester hours.*

Dr. Boswell
Attention is devoted largely to a study of the Physiocratic, Classical, and Neo-Classical writers. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

22. Personnel Management.  
Mr. Herbsleb
An examination of methods of selecting and training workers; also the development of policies designed to build and maintain worker morale. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

Dr. Boswell
An examination of labor legislation, the social security program, and workmen's compensation, as they affect labor organization policies, employer policies, terms of collective bargaining agreements, and their relation to employment, living standards, and the general public welfare. Prerequisite, Courses 3, 4. Three hours per week. *Three semester hours.*

*Mathematics of Finance.* See *Mathematics,* Courses 13, 14 and 15, 16, p. 72.

**EDUCATION**

Professor Tyson
Professor Vanderslice
Associate Professor Minnich
Mr. Hirst

Students preparing for teaching must take the following courses:

- Spring semester of their second year, Education 2.
- Fall semester of their third year, Education 3, 7.
- Spring semester of their third year, Education 4 and a special methods course in their major field.
- Fall semester of their fourth year, Student Teaching.

2. *Introduction to Teaching in Secondary Schools.*  
Mr. Minnich and Dr. Vanderslice
The characteristics of teaching as a profession with special reference to secondary education; the nature and interests of adolescents; the task of secondary schools in the United States contrasted with those in other countries; the organization of second-
COURSES OF INSTRUCTION

ary education to meet the needs of pupils. Three hours per week during the second semester of the second year. *Three semester hours.*

3. **Educational Psychology.**

   **DR. TYSON**

   The native equipment of the learner; the relationship of heredity and environment; the inheritance of human traits; the principles of growth and development; physical, emotional, social and mental development; the principles of learning; transfer of training. Prerequisites, Psychology 1 and Education 2. Three hours per week during the first semester of the third year. *Three semester hours.* (*The same course as Psychology 5.*)

4. **Principles of Teaching and Learning.**

   **MR. MINNICH**

   The application of the principles of educational psychology to teaching in the secondary school; the teacher as a guide of learning; the activities in which the teacher is called upon to engage. This course is required by the Department for all persons who expect to qualify for practice teaching. Prerequisite, Courses 2, 3, 7. Three hours per week. *Three semester hours.*

5. **Student Teaching.**

   **MR. MINNICH, DR. VANDERSLICE**

   A laboratory course in student teaching consisting of observation participation and teaching in neighboring high schools with individual and group conferences. Consult the instructor for the requirements of different states. Required to complete certification. Open only to fourth year students who meet the personality and scholastic requirements. This course is given in the fall term, and only six hours of additional work can be carried with it. Prerequisite, Courses 2, 3, 4, 7, and the special methods course in the student's major field. *Eight semester hours.*

7. **The History and Philosophy of Education.**

   **MR. MINNICH AND DR. VANDERSLICE**

   The development of educational ideas as they influence the present. The evolution of present practices with the underlying philosophies. Prerequisite, Psychology 1 and Course 2. Three hours per week during the first semester of the third year. *Three semester hours.*

10. **Educational and Psychological Tests and Measurements.**

    **MR. HIRST**

    An introductory survey of the field of measurement in education, including measurement of intelligence and school results; main features of the technique of testing and test construction; types of tests and scales; evaluation; interpretation; use. Prerequisite, Course 3. Three hours per week offered in the first term. *Three semester hours.* (*Same course as Psychology 6.*)

12. **The Teaching of Science in the Secondary School.**

    **DR. TYSON**

    This course is designed to acquaint the prospective teacher with the purposes and problems of the teaching of science in the secondary school. The chief topics include the development of objectives, the organization of typical curricula, and the methods used in both junior and senior high schools. Required of third year students who are preparing to teach science. Three hours per week. *Three semester hours.*

22. **Teaching of History and the Social Studies in the Secondary Schools.**

    **DR. VANDERSLICE**

    Selection and interpretation of subject matter in accordance with the following aims: (1) local, national and international issues, (2) cultural inheritance. Methods of engendering and developing desirable social concepts in secondary school students. Demonstrations; field trips; study of the tools of learning, including visual aids; cooperative planning and evaluation. Three hours per week. *Three semester hours.*

MR. HIRST

A study of the design, construction, and application of the combined visual and auditory aids to learning; anatomy and physiology of the eye and ear; the psychology of sensation and perception and its application in the use of slides, charts, motion pictures, and models. Review of applied research projects dealing with audio-visual aids to instruction and learning. Three hours per week. Three semester hours.

Course 24 is required of all students in the Five Year Program in the preparation of teachers.

For similar courses in other fields see English 25, German 21, Latin 22, Mathematics 24, Physical Education 5-6, and Romance Languages 21.

Requirements for the Teaching of Science and Social Studies in Pennsylvania

Distribution of Required Eighteen Semester Hours.

A. Science.

1. A certificate of standard grade will be validated for the teaching of science upon the completion of eighteen semester hours of approved preparation in science as follows:

   Physical sciences, nine semester hours including three semester hours in physics and three semester hours in chemistry.

   Biological sciences, nine semester hours including three semester hours in botany and three semester hours in zoology.

2. Where the applicant presents eighteen semester hours of approved preparation in physical sciences including six semester hours in chemistry and six semester hours in physics, "physical science" will be written upon the certificate.

PROFESSOR CLAWSON  
PROFESSOR MANNING  
PROFESSOR DENNIS  
ASSISTANT PROFESSOR SCHULTZ

A member of the Mathematics Group normally takes Mathematics 1a, 2a, and 5-6 in the first year; Mathematics 3-4 and Physics 1-2 (to satisfy the general requirement in
COURSES OF INSTRUCTION

For graduation at least 30 semester hours in Mathematics are required.

For students expecting to teach, the recommended courses in Mathematics are Problems, the Teachers' Course, Statistics, Theory of Equations, and Modern Geometry.

Students expecting to go into business, insurance or the actuarial profession should take a third year of English, and two years of Accounting. The recommended courses in Mathematics are Mathematics of Finance, Statistics, Finite Differences and Probability.

Students expecting to attend a graduate school, or engineering school, or interested in scientific applications should take courses in their chosen science. The recommended courses in Mathematics are the Calculus, Vector Analysis, Group Theory, and Theory of Functions of a Complex Variable.

1, 2. College Algebra, Trigonometry. DR. MANNING, DR. DENNIS, MISS SCHULTZ
A basic course covering the usual topics in these fields. The emphasis is on utility in science and business rather than on formal statement. Three hours per week. Six semester hours.

Course 1, 2 is prescribed for all students in the Mathematics Group who have been credited with not more than 3 units of mathematics toward admission.

1a, 2a. College Algebra, Trigonometry. DR. MANNING, DR. DENNIS, MISS SCHULTZ
A more advanced course, presupposing the usual high school courses in these subjects. Three hours per week. Six semester hours.

Course 1a, 2a is prescribed for students in the Mathematics Group who have been credited with 3.5 units of mathematics toward admission.

3-4. Elementary Calculus. DR. MANNING, DR. DENNIS, MISS SCHULTZ
A first course in infinitesimal calculus, comprising a study of methods and applications of differential calculus and an introduction to integral calculus. Prerequisite, Course 1, 2 or 1a, 2a. Three hours per week. Six semester hours.

Course 3-4 is prescribed for students in the Mathematics Group.

5-6. Analytical Geometry, Plane and Solid. DR. CLAWSON
The use of algebraic methods in the study of geometry. Three hours per week. Six semester hours.

Course 5-6 is prescribed for students in the Mathematics Group.

Students in the Mathematics Group must elect a minimum of twelve additional hours from the following courses:

7-8. The Calculus. DR. DENNIS
Review of the fundamentals, and a further study of methods of differentiation and integration and applications. Elements of differential equations. Prerequisite, Course 3-4. Three hours per week. Six semester hours.

9, 10, 11, 12. Advanced Mathematics. DR. MANNING, DR. DENNIS
These courses vary from year to year in accordance with the needs of the class. In recent years, Projective Geometry, Theory of Equations, Theory of Finite Groups, Vector Analysis, Theory of Functions of a Complex Variable, Theory of Numbers, Modern Geometry, Higher Algebra, Probability and Finite Differences have been studied. Prerequisites, Courses 5-6 and 3-4. Three hours per week. Six semester hours.

One or more of these courses will be offered in every term.
DR. MANNING, MISS SCHULTZ  
The operation of interest in relation to the amortization of debts, the creation of sinking funds, the treatment of depreciation, the valuation of bonds, the accumulation of funds in building and loan association, and the elements of life insurance. Two hours per week. Four semester hours.

DR. MANNING  
Statistical methods of studying data from fields of economics, education and the natural sciences; including the study of graphs, averages, dispersion, probability, index numbers, curve fitting, analysis of time series, correlation, quality control, production control, and analysis of variance. Two hours per week. Four semester hours.

See Physics, Course 11-12.

19, 20, 21, 22. Problems.  
DR. CLAWSON  
A weekly set of problems from various fields. This course may be begun in any term and continued for as many as four terms. Prerequisites, Courses 3-4 and 5-6. One hour per week. One semester hour for each term.

24. Teacher's Course.  
DR. DENNIS  
The study and teaching of mathematics: a consideration of problems, materials and methods. Prerequisite, at least eighteen semester hours in Mathematics. For third year students. Three hours per week. Three semester hours.

MUSIC  
PROFESSOR PHILIP  
MISS SPANGLER

A. Theory of Music  

1-2. Elementary Harmony.  
DR. PHILIP  
A thorough foundation in the melodic, rhythmic, and harmonic elements of music; keys, scales, intervals, cadences, major and minor chords; rhythmic reading and dictation, time durations, and the study of compound and simple measures. Prerequisite, one year of piano study or of musical theory. Two hours per week. Four semester hours.

3-4. Advanced Harmony and Simple Counterpoint.  
DR. PHILIP  
A detailed study of harmonic resources, from secondary chords to chromatic modulations and higher dissonances; principles of counterpoint, in two and three parts as divulged by study of sixteenth and seventeenth century compositions; four part harmony from melody and figured bass; dictation of four part harmony and works of the Classic School. Two hours per week. Four semester hours.

5-6. Counterpoint and Forms.  
DR. PHILIP  
Counterpoint based on study of medieval modes; fifteenth and sixteenth century styles; tonal counterpoint including two and three-part inventions; harmonic technique in contrapuntal style; dictation in contrapuntal style; survey of form in music; analysis of a comprehensive list of masterpieces. Two hours per week. Four semester hours.

Course 5-6 alternates with Course 3-4. Course 5-6 will not be offered in 1952-53.

DR. PHILIP  
An advanced course requiring 10-15 hours of preparation per week. Two hours per week. Four semester hours.

9-10. Composition.  
DR. PHILIP  
Practical composing in the smaller and simpler forms of voice, piano, and other instruments. One hour per week. Two semester hours.

Course 9-10 alternates with Course 7-8. Course 9-10 will not be given in 1952-53.
11-12. *Orchestration.*

*DR. PHILIP*

Symphonic scoring through practical study; the study of the instruments of the orchestra and their relationship to the above. One hour per week. *Two semester hours.*

**B. APPRECIATION OF MUSIC**

*DR. PHILIP*

This course is especially intended not for those studying music from an applied or practical standpoint but for those desiring to enlarge their critical appreciation of music as a detail of their general culture. PHILOSOPHY

PROFESSOR MATTERN
MR. CREAGER

One three semester hour course in Philosophy is required of every student for graduation.

Courses in Philosophy are open to third year and fourth year students, with the exception of Course 6. Course 6 is open also for second year students.

Courses 5 and 6 are designed for students who do not plan to elect advanced courses in Philosophy.

1. Introduction to Philosophy.
   DR. MATTERN
   A preliminary course designed to give to the student orientation with reference to the fields and problems of philosophy. Three hours per week. Three semester hours.

   DR. MATTERN
   This course is continuous with Course 1, but is a more intensive study of certain problems outlined in Course 1. Prerequisite, Course 1. Three hours per week. Three semester hours.

3. History of Ancient and Medieval Philosophy.
   DR. MATTERN
   This course is designed to assist the student in his interpretation of modern thought-currents by means of a history of the evolution of reflective thought from Thales to Descartes. Three hours per week. Three semester hours.

   DR. MATTERN
   This course is a continuation of Course 3, beginning with Descartes and tracing the modern development to present philosophical tendencies. Prerequisite, Course 3. Three hours per week. Three semester hours.
5. Ethics.  
DR. MATTERN
A study of the principles of moral judgment, with exposition and criticism of the more important theories concerning the basis of distinction between right and wrong conduct; the various problems of theoretical and practical ethics. Papers by students. Three hours per week. *Three semester hours.*

DR. MATTERN
A study of the guiding principles involved in correct thinking; the use of terms; classification; the nature of deductive inference with special reference to fallacious forms of reasoning as they receive expression in daily life; the canons of inductive inference; the basic concepts in scientific method. Three hours per week. *Three semester hours.*

Course 6 is open to second year students.

7. Philosophy of Religion.  
MR. CREAGER
A study of religious beliefs and practices in order to ascertain the nature and value of religion. Particular attention is given to questions involving the nature and reality of God, the problem of evil and suffering, free will, and immortality. Prerequisite, third year standing. Three hours per week. *Three semester hours.*

PHYSICS

PROFESSOR HEILEMANN
ASSISTANT PROFESSOR SNYDER
MR. MARSTELLER

Students majoring in Physics must take the following courses: Physics 1-2; 3-4; 5, 6; 7-8; Mathematics 1a, 2a; 3-4; 7-8; 9, 10; Chemistry 1-2, 14.

Students majoring in Physics who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Physics 7-8; Mathematics 9, 10.

1-2. General Physics.  
DR. HEILEMANN, MR. SNYDER, MR. MARSTELLER
Elementary mechanics, heat, sound, light, electricity and magnetism. Physics is presented not only as a science having practical application to everyday life, but as an example in itself of general scientific method. Prerequisite, Mathematics 1-2, or High School Trigonometry and a satisfactory rating in the Mathematical Aptitude section of the CEEB test or in some test of a similar nature. Although not a requirement, Mathematics 3-4 is strongly urged, to be pursued concurrently if not already completed. Three hours lecture and three hours laboratory per week. *Eight semester hours.*

*Note: Admission to advanced courses depends upon the quality of work done in the elementary course.*

Students intending to elect any of the advanced courses are asked to confer with the instructor during the year prior to that in which the course is to be taken, in order that a satisfactory schedule may be arranged.

DR. HEILEMANN
Linear and plane kinematics of a mass point; Newton's Laws; Linear and plane dynamics; work and energy; dynamics of a system of particles; statics and dynamics of rigid bodies; hydrostatics; fluid dynamics. Prerequisite, Mathematics 3-4. Three hours lecture and three hours laboratory per week. *Four semester hours.*
4. Electricity and Magnetism.  
MR. SNYDER
Gauss's Theorem; potential; capacity; electric and magnetic circuit; Kirchhoff's Laws; inductance; alternating currents; electrical machinery; elements of electronics. Prerequisite, Mathematics 3-4. Three hours lecture and three hours laboratory per week. Four semester hours.

5. Optics.  
MR. MARSTELLER
Image formation; systems of lenses and mirrors; dispersion; spectra, interference and diffraction; polarization; origin of radiation; effects of radiation; applications. Three hours lecture and three hours laboratory per week. Four semester hours.

DR. HEILEMANN
The nature of sound, the physical basis of music, speech, and hearing; acoustics of buildings; methods of sound transmission and reproduction, and study of distortion; diffraction and interference; applications. Three hours lecture and three hours laboratory per week. Four semester hours.

DR. HEILEMANN
The elementary charged particles; electromagnetic radiation; waves and particles. Elementary theory of the Hydrogen atom; atomic spectra and electron distribution. Natural radioactivity; nuclear disintegration; nuclear energy. Prerequisite, Mathematics 3-4. Three lectures per week. Six semester hours.

7a-8a. Laboratory in Atomic Physics.  
MR. SNYDER
Laboratory work (optional) for Course 7-8. Three hours per week. Two semester hours.

9-10. Special Topics.  
DR. HEILEMANN, MR. SNYDER, MR. MARSTELLER
Readings and laboratory work with conferences. The student, having chosen some field in which he is interested, is expected to become familiar with the special instruments and methods of measurement used in that field. Only students capable of independent work may elect this course. Prerequisites, Mathematics 3-4 and two years of college physics. Credit according to work done.

MR. MARSTELLER
Facts and theories concerning the appearance, dimensions, motions, and interrelations of celestial bodies. Prerequisite, Mathematics 1, 2 or its equivalent and some knowledge of physics. Two hours per week. Four semester hours.

POLITICAL SCIENCE  
PROFESSOR E. H. MILLER  
ASSOCIATE PROFESSOR PANCOAST  
PROFESSOR CHANDLER

When it is decided to make a bequest, care should be taken to have all testamentary papers signed, witnessed, and executed in strict accordance with the statutory laws of the State in which the testator resides. In all cases the name of the corporation should be accurately given, as in the following form:

I give, devise and bequeath to **URSINUS COLLEGE**, located at Collegeville, Montgomery County, Pennsylvania, its successors and assigns forever, the sum of ________________ dollars, for its several corporate purposes (or name the particular corporate purpose desired by the testator).
