Dear Comrade Sievers!

In the middle of December I requested that you send me both carbon copies of the letters you received from the German Research Association so that I would have documentation for the further handling of this entire issue. I need these letters urgently in order to make the necessary decisions regarding my colleagues and the relocation of the Atlas of German Folklore.

I would be grateful to you if you could send these letters in the next few days and ask that you send them to me in the Education Ministry.

I hope that you have had a good start to the new year and remain well

With comradely greetings
Heil Hitler!

Your

(signed) Harmjanz
