Two Faculty Members Receive Promotions

Two Ursinus Faculty have received promotions this spring. Both men have been with the College for over ten years. They are Dr. Hans and Coach Gurzynski.

Dr. Hans, an Associate Professor of history, will be promoted to the rank of Full Professor effective July 1. Hans is a graduate of Temple University. He joined the Ursinus faculty in 1965 and has taught courses in American and European history, as well as critical thinking and writing. Hans is also a member of the American Historical Association and the Society for Historians of the Early American Republic.

Coach Gurzynski, the University's head football coach, has received the Bruin's Club Award from the Alumni Athletic Association. This award is given to an individual who has made a significant contribution to the Ursinus athletic program. Coach Gurzynski has been at Ursinus since 1959 and has coached the football team to five conference championships. He is also a member of the Pennsylvania Football Coaches Association and the Intercollegiate Athletics Association.

Rules Committee Proposes Rule Changes

By GEORGE CEPEH (Corresponding Sec. USGA)

During the last week's U.S.G.A. meeting, the Rules Committee, the Rules Committee of the United States Golf Association, made several rule changes to be implemented in the rules of Ursinus College. After discussion of several recent changes made to the rule committees, the sub-committee's proposals, was discussed. The sub-committee was accepted with the stipulation that some minor changes and suggestions for further rules for the coming season be added to the official rule book.

The possible changes include:

- Freshman cut rules, now in existence, should include only the freshman year. Freshmen (freshman) achieving Freshman Low (F.L) average are then exempt from the cut system.

Professor Dr. Hans received his doctorate degree in history from the University of California. He has been at Ursinus since 1965 and has taught courses in American and European history, as well as critical thinking and writing. Dr. Hans is also a member of the American Historical Association and the Society for Historians of the Early American Republic.

Other Faculty Members

Other changes proposed by the Rules Committee include:

- Freshman cut rules, now in existence, should include only the freshman year. Freshmen (freshman) achieving Freshman Low (F.L) average are then exempt from the cut system.

- The Men's or Women's V.P. President must be present when charges are brought against a student. If the Men's or Women's V.P. President is not present, the rule will be waived.

- Student athletes must be eligible for the opportunity to be a member of the Board of Directors. This is especially important if the student athlete is part of the men's or women's basketball team.

- Students who are on probation or have an academic suspension will not be eligible for the opportunity to be a member of the Board of Directors.

- The opportunity to be a member of the Board of Directors is a way of thinking that differs from the traditional way of thinking. It is a way of thinking that differs from the traditional way of thinking that is often used in the past.

- The opportunity to be a member of the Board of Directors is a way of thinking that differs from the traditional way of thinking that is often used in the past. It should be a valuable addition to the Shakespeare course.

- Dr. Parsons will be in sunny California this summer. He will take part in an interdisciplinary seminar at UCLA. The purpose of the seminar is to study how literature is influenced by various other arts. The relationship between literature and visual art is an area of great interest to Dr. Parsons. This is something new and different to his usual Lit and English Comp classes next year.

This is a great honor for Ursinus to have not one, but two professors receive these grants. Congratulations to Dr. Hans and Dr. Parsons.

The U.S.G.A. Tournament

The U.S.G.A. Tournament is a prestigious golf tournament held each year in the United States. It is one of the major events in the golfing world and is considered to be the pinnacle of golfing achievement. The tournament is held in a variety of locations, with the course changing each year. The tournament is open to professional golfers, and the winner is determined through a series of elimination rounds. The winner is awarded a trophy, and their name is added to the list of past winners, which has included some of the greatest golfers in history.

The tournament is broadcasted on television and radio, and it is a major event in the golfing world. It is a highly coveted event, and winning it is considered to be a major achievement in a golfer's career. The tournament attracts top players from around the world, and it is a showcase for the best golfers in the world. It is a highly anticipated event, and it is a major highlight of the golfing calendar.

**Italian Philosopher Is Reborn**

By RICHARD WHALEY

VICE, an 18th century philosopher, who has been much neglected, is not forgotten at Ursinus. A new interest in his philosophy of history. At the last Socratic Club meeting Professor Grofman, who shall be a part-time Philosopher, presented his views at last year at Ursinu, spoke on the ideas of this Italian. Vico is seen as the father of modern philosophy of history. He contributed to both Formal Philosophy and Speculative philosophy of history. Speculative Philosophy has a great deal to say about nature and man. Vico's philosophy reflects on the nature of history. His views are very similar to those of Heidegger. Vico's views can be seen as a reaction against Descartes. Descartes' Knowledge of nature is a great problem in mathematics. All knowledge is seen as mathematics. Vico agreed with what is real knowledge according to Descartes. According to Vico, what one really knows is what one has made, and when one has a cause. One has to be the creator and pursuer of a thing in order to understand it.

His major work is the *New Science* (1725). It is about human culture and civilization. If man can only know what he makes, then we don't know, because God created it. Man can only have an understanding of what we make. Man's knowledge of mathematics can only be considered as a guide. Mathematics can be a thing. Mathematics is based on the fiction of the possible and the true, and has a clearness of understanding of truth. But mathematics is only something we choose to make it and we can make it a happier place by smiling.

**FREAK WEEKEND**

Dear Mr. Gold:

I think that Fines Arts Weekend was a failure. The people who paid their admission were the most crowded with bars and alcohol. This event serves no purpose other than catering to the hippies and free thinkers. As this weekend didn’t have enough, the Festival was a disaster. All the people who came were heads from nearby college campuses like Widener and Swarthmore. I then realized that your college is not as dangerous outside all that.

These people do not need a Fines Arts Weekend to show they are artistic. BATH, A HAIRCUT, AND A CARNIVAL are all enough for me to go to a carnival. I am gratified to know that a fine institution like Ursinus has enough sense never to do these freaks of nature, as other colleges often do. Apparently, the weekend still will remain a painful eyesore on the campus, and nothing more.

**Ursinus Students View Unicorns**

By DR. REINER

A group of students from French 22 and French 6 made an excursion to New York on April 19 to visit the exhibition of French tapestries called "The Age of Chivalry and the Renaissance" at the Metropolitan Museum in the afternoon and a reception.

BRUCE SPRINGSTEEN AND HIS E STREET BAND

By BOB SEARELS

I had been around the gym most of the day. After brunch, I sat in back of the room, but got restless and wandered down to the track to watch the track meet. After the outcome was certain, I started back to the dorm, but paused in front of Heifer Hall.

Saturday was the day of the first major rock concert at Ursinus. I went to bed the night before eagerly awaiting the arrival of the next day. As I stood at the modern gymnasium, however, I began to have second thoughts.

It seemed so inescapable: a huge rock concert at Ursinus. I wasn’t sure if I should be there at all. After the excitement of the past few days, I decided to see what was going on.

The sound crew arrived early and parked a truck in front of the gym. I got a bad feeling and decided to stay away. The equipment was gradually piled higher and higher on the stage. I grabbed a bite to eat and watched.

The doors were finally opened at quarter of eight after a hurried sound check. Hundreds of people poured in. I still couldn’t believe it.

I continued to sit near the door

U. C. STUDENTS PLAN SUMMERS IN EUROPE

Nice Ursinus College students majoring in Romance languages will go to Europe this summer to continue their course work.

They are: Joanna E. Harper, Maria G. Johnsen, Thomas A. Kohan, Todd N. Y., Nina M. Shockey, Fy N. John, Carlos A. Rodriguez, L. Young, Philadelphia (a 1973 Ursinus graduate); Eleanor C. Boyer, Pamela V. Curnutt, Linda A. Heaton, Jocelyn L. Kenton, Pa.; Linda J. Stell, Harrison, Pa.; Sally Arendt, Spring City, Pa.; and Jonathan E. Detweiler, Kimberly, Pa.

Missions are students who will live in the homes of French families and then rent their own apartment in Paris, in efforts to develop their linguistic ability by living only in the French language.

The students were selected by their French instructors.

Two Ursinus Basketball Stars Honored

Two Ursinus College basketball stars were named to the All-Star Basketball Team in the Middle Atlantic Conference.

Randy Stobart, Palmerton, Pa.; and George P. Kinne, Allentown, Pa., both 6-5 and 205 pounds, were named to the second team of MASCAC basketball All-Stars. The two received the most votes from the coaches, who picked their starting five for the championship.
