HISTORICAL SKETCH

The beginning of educational work on what is now the campus of Ursinus College dates back to the construction of a primitive schoolhouse built of logs probably two centuries ago. The ancient building was razed in 1832 when Todd's School was built in the town of Perkiomen Bridge, now Collegeville. In 1848 Freeland Seminary was opened on a tract adjacent to Todd's School. The new school occupied the buildings now known as Freeland Hall and Stine Hall. During the following two decades many hundreds of young men were educated here.

In 1867 a group of men, members of the German Reformed Church, actuated by a desire to serve the interests of higher education and of evangelical Christian religion, laid plans to establish a college where, to quote their words, young men could be "liberally educated under the benign influence of Christianity." They chose as the name of the College that of the distinguished sixteenth-century scholar and reformer, Zacharius Ursinus of the University of Heidelberg. In 1869 the charter was granted by the Legislature of Pennsylvania. The buildings of Freeland Seminary were bought, and instruction was begun on September 6, 1870. Women were admitted to the College for the first time in 1881.

Coincident with the founding of the College was the establishment of a preparatory department as a successor to Freeland Seminary. The preparatory school was called Ursinus Academy and was operated as such until 1910, when it was discontinued.

Although Ursinus College admits students of all faiths, the College has been since its founding a church-related college, related to the German Reformed Church, later known as the Reformed Church in the United States, from 1934 to 1957 known as the Evangelical and Reformed Church, and since 1957 known as the United Church of Christ.

COLLEGE PRINCIPLES

Ursinus College is a Christian, coeducational, liberal arts college which seeks to help the student to understand and to emulate excellence in scholarship and in conduct. Although in recent decades the College has extended its work to include the preparation of men and women for a variety of professions, the College continues to emphasize the fact that however varied and specialized the changing needs of the day, the fundamental needs of man remain constant. Each student, whatever his field of specialization, is required to study those subjects which are the core of our cultural heritage.
Ursinus recognizes its duty to preserve the cultural and spiritual tradition which this generation has inherited and to transmit a sense of that duty to succeeding generations.

The College seeks to help the students to develop those qualities which will fit them for the extraordinary responsibilities of educated men and women. The purposes of the College are achieved through its curriculum, through the many extra-curricular activities, and through the pattern of campus life.

The whole educational program serves to cultivate a particular set of qualities in the students:

1. An active intellectual curiosity and a desire to learn
2. A knowledge of the techniques of sound scholarship
3. An ability to think logically and critically
4. A mature understanding of one's self, of others, and of society
5. An insight into our natural environment, and a knowledge of the laws governing it
6. An appreciation of our cultural inheritance
7. A sense of responsibility
8. Attitudes consonant with the Christian ideal of morality and service

CULTURAL ENVIRONMENT

Students at Ursinus have all the advantages of living in the country, and at the same time they are close enough to New York and Philadelphia to have access to such additional opportunities for culture as the symphony orchestra, grand opera, legitimate theatres, museums, lectures, and exhibits.

Ursinus is located in the heart of a region which is rich in historical tradition. In Colonial days this region was the center of the cultural and political development of America.

ACCREDITATION

Ursinus is a member of the Association of American Colleges, and is on the approved list of the Middle States Association of Colleges and Secondary Schools, the American Association of University Women, and the American Chemical Society.
ATHLETICS

Ursinus recognizes the physical and moral benefit derived from athletic activity and accordingly offers a well-balanced sports program open to all. Intercollegiate competition is encouraged in football, basketball (varsity and junior varsity), soccer, wrestling, baseball, track and tennis. In addition to this intercollegiate program intramural games are played. Intramural athletics for men include touch football, basketball, volleyball, wrestling, a free-throw contest, softball, track, tennis, and inter-fraternity competition.

For women students, the College supports intercollegiate competition in hockey (varsity and junior varsity), basketball (varsity and junior varsity), softball, tennis, swimming, lacrosse and badminton. The intramural program provides voluntary recreation in hockey, basketball, tennis and softball.

The gymnasiums, playing fields, and equipment available for the pursuit of these various activities are described under Buildings and Equipment. (See pp. 27 to 30.)
ORGANIZATIONS

A large number of organizations provide numerous and varied facilities of extra-curricular activity. All such organizations are approved by the Faculty and are supervised by the Committee on Student Activities or the Dean of Men and Dean of Women. In addition various members of the Faculty serve these groups as advisers. Student life on campus is regulated and controlled by the Men's Student Council and the Women's Student Government Association under the direction of the Dean of Men and the Dean of Women. Members of the student governing organizations are elected by the student body.

Among the most active organizations is the Young Men's and Young Women's Christian Association. Numerous religious and social activities are planned and sponsored by this group in collaboration with other campus groups. Allied religious and service groups are the Chi Alpha Society for those students planning to enter the ministry or other religious work, the Canterbury Club, and the Newman Club.

Other organizations stimulate the interest of students in particular areas of study or in future occupations: the Brownback-Anders Pre-Medical Society, the Beardwood Chemical Society, the English Club, the French Club, the Pre-Legal Society, the Student National and Pennsyl-
vania State Education Associations, and the Business Administration Club. Interest in athletics and campus spirit is fostered by the Women's Athletic Association, the Varsity Club, and the Spirit Committee. A chapter of the Honorary Social Studies Society, Pi Gamma Mu, has been established.

A large and varied program of dramatics is sponsored and carried out by the Curtain Club, which presents two major productions a year in addition to various group productions. There is at Ursinus a chapter of Alphi Psi Omega, a national honorary dramatic fraternity.

The Debating Club each year holds intercollegiate and intramural debates on topics of national interest. Members may qualify for election to Tau Kappa Alpha, the national honorary debating fraternity.

Music plays a large part in the life at Ursinus. Choral music is represented by the Chapel Choir; the Meistersingers, who offer concerts on and off campus, including a one-week tour in the spring; the Messiah Oratorio Chorus whose presentation of Handel's Messiah during the Christmas season is one of the outstanding musical events of the year. Instrumental music is offered by the Concert and Marching Bands. There is a chapter of Pi Nu Epsilon, the national honorary musical fraternity.

There are eleven local social organizations on the Ursinus campus. The fraternities are Sigma Rho Lambda, Zeta Chi, Alpha Phi Epsilon, Delta Mu Sigma, Beta Sigma Lambda, Delta Pi Sigma, and Alpha Phi Omega, the national service fraternity. The sororities are Omega Chi, Alpha Sigma Nu, Kappa Delta Kappa, Phi Alpha Psi, and Tau Sigma Gamma.
PUBLICATIONS

The Ursinus Bulletin, of which the Catalogue is a number, is the official publication of the College. It is issued five times a year.

The Alumni Journal, the official publication of the Alumni Association, appears three times a year.

The Ursinus Weekly is the Ursinus newspaper. It is managed by a Board of Control consisting of student and faculty representatives and is edited and written entirely by the students. The Editor-in-Chief, the associate editors, and the business manager are elected by the board on the basis of merit and the staff is selected by the editors on the same basis. The paper is of interest to students and alumni as a record of life at Ursinus.

The Lantern serves as an outlet for those interested in creative writing and art. It is written and edited by an all-student staff under the direction of a member of the Faculty Committee on Student Publications. It is published three times a year.

The Ruby, the Ursinus yearbook, is published by the Senior Class each year. It is a volume presenting an intimate pictorial account of the year’s activities, not only of the Class, but of the entire College.
BUILDINGS AND EQUIPMENT

Bomberger Memorial Hall, named for J. H. A. Bomberger, President of Ursinus College, 1870-1890, is a large and imposing structure in the Romanesque style of architecture, built of Pennsylvania blue marble. This building is for the use of the departments of language and literature, the social sciences, history, philosophy, religion, public speaking, and music. In it are the chapel, twelve classrooms, six conference rooms, a seminar room, two music studios, two studies for day students, a recreation room, the student lounge, and the offices of the Dean, the Dean of Men, the Director of Admissions, the Treasurer, the Director of Student Teaching and Placement, and the Director of Student Employment. The erection of Bomberger Hall was made possible by the benefactions of the late Robert Patterson.

Pfahler Hall of Science, erected in 1932, and named in honor of Dr. George E. Pfahler, is a stone and concrete building. The first floor and basement are devoted to work in psychology, education, mathematics, and physics, the second floor to biology, and the third floor to chemistry. The building contains the offices of the President, the Evening School, the Levi Jay Hammond Laboratory of Comparative Anatomy, the W. Wayne Babcock Laboratory of General Biology, the Anna Heinly Schellhammer Laboratory, the Schellhammer Laboratory, twelve other teaching and research laboratories, two radio-activity laboratories for research, nine professors' laboratories and offices, nine classrooms, a lecture hall with gallery and projection booth, and a library. The building is equipped with a deck for astronomical observation, on which is mounted the Elihu Thomson Memorial Telescope.

The Alumni Memorial Library contains reading rooms, offices of the library staff, seminar rooms, workroom, faculty and directors' room, stacks, vaults containing rare books and manuscripts, music room, and the Shaw-Bernard (Museum) Collection of curios and objects d'art.

The Library collection of 60,000 volumes, exclusive of government documents and pamphlets, has been selected to serve the needs of the liberal arts college. The Library receives over 300 periodicals and newspapers. The location of Ursinus College in the Philadelphia area makes available for special studies the considerable bibliographical holding of neighboring libraries through personal consultation or inter-library loan.

The Thompson-Gay Gymnasium, built in 1927, occupies a convenient position adjoining Patterson Field and John B. Price Field. It is built of native brownstone, structural steel, and concrete. It contains a playing floor, a gallery for spectators, locker rooms, shower rooms, coaches' offices,
and storage rooms. At one end of the main floor is a completely equipped theatrical stage. Portable seating constitutes a part of the equipment of the building. This building is a memorial to Robert W. Thompson, '12, and George H. Gay, '13, noted Ursinus athletes, both of whom died in their senior year at the College.

The College Gymnasium, erected in 1947, is located near the Thompson-Gay Gymnasium and Price Field. It contains a large basketball court, two single handball courts, seating for 800 spectators, two dressing and shower rooms for players, a dressing room for officials, and storage rooms.

Superhouse, a residence on Main Street opposite the campus, was bequeathed to the College by the late Henry W. Super, D.D., LL.D., Vice-President and Professor of Mathematics, 1870-1891, and President, 1892-1893.

Sprinkle Hall, on the east campus fronting Fifth Avenue, is the infirmary.

Patterson Field, named for Robert Patterson, first benefactor of the College, contains the varsity football field, space for competition in field events, and a quarter mile track with a 220-yard straightaway. The steel grandstand provides seating for 1440 spectators.

Price Field, named for Dr. John Price, '05, one of the great athletes in Ursinus history, contains the soccer field, the baseball diamond, several softball fields, and football practice ground.

The Tennis Courts are at the rear of Curtis Dormitory.

The Effie Brant Evans Hockey Field is located on the east campus near Stauffer Hall.

The Eger Gateway, erected by the generosity of George P. Eger, of Reading, Pennsylvania, stands at the entrance of the walk leading from Main Street to Freeland Hall.

Post Office and Supply Store. A Post Office is maintained on the campus for the convenience of students. Adjacent to the Post Office is the Supply Store, in which are sold text books, college jewelry, stationery, confections, and students' supplies.

Dormitories for Men

Freeland Hall, erected in 1848, is the original building of Freeland Seminary. Derr Hall and Stine Hall are additions to Freeland Hall. The
buildings are of stone, four stories in height with a fifth story of dormer rooms. On the two lower floors are the four dining rooms, the kitchen, storage and refrigeration rooms, and the office of the steward. The upper floors are for the residence of men students. The rooms are designed for one or two occupants, a number being arranged *en suite*.

*The Brodbeck and Curtis Dormitories for Men* are buildings in English Colonial style. Each building has four floors. They bear the names of esteemed benefactors of the College, Andrew R. Brodbeck and Cyrus H. K. Curtis.

*Maples, 512 Main Street; Fetterolf House, 554 Main Street; Zwingli Hall, 620 Main Street; Omwake Hall, 701 Main Street; and 801 Main Street are all residence halls for men.*

*Fircroft, 930 Main Street, a residence for men students, was presented to the College by Miss Sara E. Ermold as a memorial to her mother, Ella N. Ermold.*

*Trinity Cottage* familiarly known as *South Hall*, a residence for men, is located on Sixth Avenue.

**Dormitories for Women**

*Paisley Hall, Stauffer Hall and Beardwood Hall*, are three dormitories for women. The buildings house 244 women and are located on the east campus behind the Alumni Memorial Library.

*Hobson House* is located at Sixth Avenue and Main Street. It is used as a residence hall for women.

*Shreiner Hall*, fronting on Main Street and facing the College campus, is a residence hall for women. This is a three-story brick building arranged for the accommodation of thirty-three students and a faculty family.

*Duryea Hall, 612 Main Street, next to Shreiner Hall, is a residence hall for fifteen women and a faculty family.*

*Clamer Hall*, Main Street, the gift of Dr. Guilliam H. Clamer, is a residence hall for women.

*646 Main Street, 942 Main Street, and 944 Main Street are residence halls for women.*
ADMISSION

The first step in seeking admission to Ursinus College is to file an application. A form for this purpose may be obtained from the Office of Admissions. After the completed form has been returned to the College, accompanied by the ten-dollar application fee, the Director of Admissions will request the applicant’s school principal or headmaster to send an official transcript of the school record. At the same time, inquiry is made concerning the character of the candidate and his ability to do college work.

All applicants must arrange for a personal interview on campus, unless, of course, the distance makes such a visit impracticable.

Applications for financial aid should be filed at the time the candidate applies for admission.

It is the responsibility of the candidate to make arrangements to take the Scholastic Aptitude Test according to the instructions below and to have the test results sent to the Director of Admissions.

TESTS

All candidates for admission to the Freshman Class are required to take at least the Scholastic Aptitude Test of the College Entrance Examination Board. Full information concerning the dates of administering these tests can be obtained by writing directly to the College Entrance Examination Board, P.O. Box 592, Princeton, New Jersey. If, in the opinion of the Committee on Admissions, it seems helpful to have additional information, the applicant may be asked to take additional achievement tests.

PREPARATION

A candidate for admission to the Freshman Class must be a graduate of an approved secondary school.

If the applicant is a graduate of a four-year high school he should offer for admission at least fifteen units which are to be distributed as follows:

BASIC ACADEMIC CREDITS (9 Units)
English, Four years, Earning Three Units
Elementary Algebra, One Unit
Plane Geometry, One Unit
Science, One Unit
Social Studies, One Unit
Foreign Language, Two Units in One Language
ADDITIONAL ACADEMIC CREDITS (At least 2½ Units)
Advanced Mathematics
Solid Geometry
Plane Trigonometry
Science
Social Studies
Foreign Language

ELECTIVES (Maximum 3½ Units)
Not more than one unit will be granted for any single elective.
Bookkeeping
Drawing (Mechanical, Prepared Course)
Geology
Stenography
Junior Business Training
Music and Art (History or Appreciation)
Commercial Law
Commercial Geography

If the candidate is a graduate of a three-year high school, he should offer at least twelve units, which should include the basic credits above. Not more than one unit may be presented from the group designated as electives.

Applicants whose preparation does not coincide precisely with the foregoing outline may in exceptional cases be admitted to the College if, in the judgment of the Committee on Admissions, they are qualified to do college work satisfactorily.

EARLY ACCEPTANCE
Outstanding Juniors may apply for admission in the late spring or summer of the junior year. They must have junior year S.A.T. scores sent, apply for admission, and arrange for an interview preferably prior to October 1. Early decisions will be made and the students notified during the summer and early fall.

ENGINEERING PROGRAM
Arrangements have been made with the Engineering Schools of the University of Pennsylvania and similar institutions to which a student may transfer after completing three years of prescribed work toward the B.A. degree at Ursinus College.
Ursinus College will grant the B.A. degree after the student has satisfied the requirements for that degree. The engineering school will grant the engineering degree on satisfactory completion of the fourth and fifth years. For the outline of the program see page 109.

*The candidate for the Engineering program must present 3\frac{1}{2} years of entrance credit in Mathematics.*

His background in foreign language must be such that he will be capable of entering the second year of language in college. If he is not so prepared he must make up the deficiency in foreign language in summer school.

**ADVANCED PLACEMENT**

Students who wish to be considered for advanced courses upon admission may submit the results of the Advanced Placement Examinations as given by the College Board. If the scores are satisfactory, the student may be advanced beyond the basic course, but no credit will be given toward the degree.

**SPECIAL STUDENTS**

A limited number of applicants who are not candidates for degrees may be admitted as special students, provided that they have satisfactory preparation for the college courses which they wish to pursue. Special students who reside at the College must register for at least twelve hours of work in each semester. They are subject to the same regulations as other students.

**TRANSFER STUDENTS**

To enter the Sophomore or Junior Class at Ursinus College, an applicant must support his application by requesting each institution he has attended subsequent to graduation from secondary school to send to the Director of Admissions a transcript of his record at the institution of higher learning and a letter from the Dean of Men or Women indicating that the applicant is entitled to honorable dismissal insofar as character and personality are concerned. It will be helpful if the candidate will send a catalogue of the college he has been attending, marked to indicate the course he has taken. No advanced standing will be granted to a transfer student unless his previous college record is free of failures and conditions. There will be no credit for grades below C.

*Not more than sixty hours of work taken elsewhere will be credited to students transferring to Ursinus College.*

**PART-TIME STUDENTS**

Non-Resident students who are candidates for a degree and who wish to pursue fewer than twelve hours of work may be classified as part-time students upon the written approval of the Dean of the College.
NOTIFICATION OF ADMISSION

When a candidate for admission is notified of his acceptance by the College, he must make an advance payment of one hundred dollars in accordance with the provisions of the letter of acceptance. This payment is credited on his bill for the first term. If he fails to complete his matriculation, the payment is forfeited.

THE SUMMER SCHOOL

The curriculum of the Summer School is announced in the Spring and information concerning course offerings is available after April 15. Admission to Summer School is limited to students who are candidates for, or who have received degrees from, Ursinus College or other accredited institutions of higher learning. An applicant from another institution must submit written permission from the Dean of that institution authorizing him to enroll for a specific course or courses. Inquiries should be addressed to the Director of Admissions.

THE EVENING SCHOOL

The Evening School is organized to make college work available to men and women employed in business, in industry, in teaching, and to others who may be interested. The program emphasizes courses in business administration and in fields closely allied to business administration, such as economics, political science, history, English composition, public speaking and certain foreign languages.

For information, catalogue, and application forms, address The Director, Evening School, Ursinus College, Collegeville, Pa.

TUITION EXCHANGE PROGRAM

Ursinus College is a member of the Tuition Exchange. Requests of children of faculty members of other member institutions for tuition remission will be considered upon application. Because of the necessity for maintaining a balance of imports and exports, it may not always be possible to honor such requests. Applications for tuition remission should be made through the liaison officer of the institution with which the applicant's parent is associated. Those who receive aid through the Tuition Exchange Program are not eligible for additional grants.
PROGRAMS IN SPECIAL FIELDS

Ursinus is a college of liberal arts and sciences. This means that Ursinus emphasizes a broad, general education regardless of the career for which a student plans to prepare. At the same time, it is possible at Ursinus to prepare for specific careers in the fields listed below. A placement service maintained by the College helps the student to find a position in the field of his choice.

Business. Graduates in Business Administration are employed by many types of industrial concerns, banking institutions, public utilities, transportation companies, department stores, chain stores, etc. By electing languages, students majoring in business may prepare for the growing opportunities in world trade.

Chemical Research: Industrial Chemistry. The College provides opportunities for students desiring to major in Chemistry with a view to devoting their lives to some type of chemical research. Graduates find employment in the chemical industry doing pioneer work in the field of chemical research and development.

Dentistry. The Council on Dental Education of the American Dental Association fixes as the minimum basis for admission to an approved dental school the successful completion of two full years of academic work in an accredited college of liberal arts and science. This college work must include courses in English, biology, physics, inorganic and organic chemistry.

Educational Administration. Basic courses in Education are provided which are prerequisite to the professional courses in Educational Administration offered in graduate schools of education of leading universities.

Engineering. Students who wish to study Chemical, Civil, Electrical, Mechanical or Metallurgical Engineering may avail themselves of a program which is being offered at Ursinus College in cooperation with engineering schools. A student at Ursinus College may transfer to an engineering school after completing three years of prescribed work toward the B.A. degree at Ursinus.

Ursinus College will grant the B.A. degree after the student has satisfied the requirements for that degree. The engineering school will grant the engineering degree upon completion of the fifth year.
Foreign Service. The American foreign service presents attractive opportunities to a limited number of young people who are willing to prepare themselves adequately for service abroad. The history and social science courses, together with offerings available in the modern languages, provide preparation for the examinations required of applicants for positions in foreign service. Upon graduation students are urged to pursue additional work at a recognized graduate school.

Graduate Study. One purpose of the curriculum of the modern liberal arts college is to prepare students for advanced study in various fields of knowledge. Preliminary study is done by the student at the undergraduate level in his chosen major field. Those intending to enter graduate schools should have a thorough grounding in their chosen field. As a reading knowledge of French and German is essential for most higher degrees, this knowledge should be acquired in the undergraduate school.

Health and Physical Education. It is possible to specialize in health and physical education and at the same time obtain a general cultural education. Health and physical education graduates meet the requirements for certification to teach in this field in Pennsylvania and other states.

Journalism. A student interested in journalism should enroll in the departments of history, political science, or English and elect widely in other fields. A year at a professional school of journalism is recommended.

Laboratory Technology. It is possible to arrange for either a two-year or a four-year course of preparatory work, although the latter is strongly recommended as the preferred training.

Law. As a general rule leading law schools require a baccalaureate degree as one of the conditions for acceptance of candidates. A broad, cultural education is considered the best preparation for legal study.

Medicine. Concentration in biology or chemistry is recommended in order to prepare students who are interested in the various aspects of medicine. Preparation for schools of osteopathy and of veterinary medicine, as well as for the regular medical schools, is provided.

Music. Although a considerable number of courses in music are available at Ursinus, no major in music is offered. Those who wish to follow music as a career should plan to attend graduate school after completing their work at Ursinus.
Nursing. Students who plan to enter the profession of nursing should register for courses in biology, chemistry, and liberal arts in order to qualify for consideration by schools of nursing.

Physical Research. A program of concentration in physics and mathematics is offered to students interested in physics as a career.

Psychology. Undergraduate work in psychology is designed for those who seek admission to graduate schools or who wish to enter personnel work in industry. Undergraduate study in psychology is of assistance in the fields of teaching, guidance, law, clinical psychology, personnel and social work, nursing, and preparation for medicine.

Teaching. Work in education, including practice teaching, as required by many of the state departments of education, is offered to those who plan a career in education. Teacher preparation is limited to the secondary school field. Students follow curricula under the guidance of advisers.

Theology and Religious Education. Most leading theological schools have as a requirement for consideration for admission a degree in liberal arts. Students who are preparing for the ministry should plan a broad course of study which will include history, languages, literature, religion, and philosophy.

THE COLLEGE YEAR

The College year at present consists of two terms of sixteen weeks each and a Summer Term of twelve weeks. Students are admitted to the College at the beginning of any term. Students who wish to do so may accelerate their college courses by attending the Summer Term in addition to the Fall and Spring Terms. The Summer Term is available to all students who wish to take advantage of it.

vance payment of $100 at such time as may be designated by the College. This payment is forfeited if the student fails to complete his registration.

**Comprehensive Fee** covers classroom instruction, tuition, use of libraries, gymnasiums, and the infirmary; ordinary medical attention; care by the resident nurse; furnished room and board, exclusive of Christmas and Winter and Spring recesses. The variation in fee depends upon the location of the room and choice of major.

*The College reserves the right to make reasonable adjustments in the comprehensive fee at the beginning of any term to cover possible unforeseen costs.*

**Activities Fee** covers subscription to the *Ursinus Weekly*, intercollegiate debating, the Christian Associations, the Ursinus College Forum, admission without charge to all athletic contests at the College and to College dances.

**Students’ Medical Insurance Plan.** A twelve-month coverage for accident, sickness, and health is available at nominal cost. Further information is available in the Office of the Treasurer.

**Pre-Session Camp for Women in Physical Education.** An instructional fee of $75 is charged for attendance at the Pre-Session Physical Education Camp. The charge for room and board is $55 for the period.

**Room Drawing.** A previously enrolled student must pay $10 in order to qualify for drawing a room. Credit for this amount will be applied on the bill for the following term.

**Private Musical Instruction.** A fee of $150 is charged for any students wishing private individual instruction in voice or on the piano, organ or other orchestra or band instrument. This charge is for one half-hour lesson each week during the regular college year and is payable as shown on billing.

**Science Fee.** A fee of $25 per semester is charged to each student majoring in Biology, Chemistry, Pre-engineering, Physics, and Freshmen who are enrolled in Undesignated III (Science).

**Breakage Deposit.** A deposit of $10 is required of each new student to defray any expense incurred by injury to property and is included on the bill for the first term. The unexpended balance is returned upon graduation or withdrawal from College.

**Student Teaching.** An additional fee of $75 is required of each student engaged in practice teaching. This is payable upon presentation of the bill.

**Graduation Fee.** A graduation fee of $25 is charged each student on the last bill of his senior year. An additional deposit of $25 will be required

*Checks should be made payable to URSINUS COLLEGE.*
for the use of cap, gown, and hood. This deposit will be refunded upon return of the equipment.

**TRANSCRIPT FEE.** A charge of $1 is made for each transcript of a student's record after the first. Requests for transcripts should be made to the Office of the Dean.

**REGULATIONS**

Bills for the Comprehensive Fee are issued approximately thirty days before the beginning of each term. A student's bill must be settled no later than the date indicated on the statement.

No student who is indebted to the College or to any of its departments or agencies will be permitted to register at the beginning of any term, and all items due the College from a candidate for graduation must be paid before the candidate may be presented for a degree.

A student who is absent from College because of sickness, and retains his place in class, pays the Comprehensive Fee in full during his absence, except when the absence is continuous over a period exceeding four weeks, in which case resident students are allowed a rebate of $10 for each full week on account of table board.

*No refund is allowed because of a student's dismissal or withdrawal from the College during a term, except when the student enters the armed services.*

A student who voluntarily withdraws from College must notify the Dean of the College *in writing* and settle all bills within thirty days or be liable to dishonorable dismissal.

The possession or use of alcoholic beverages or firearms on the campus or in Collegeville is forbidden.

Freshman and Sophomore resident students are prohibited from having an automobile in Collegeville and vicinity during the academic year. Junior and Senior resident students holding scholarships, financial grants, and positions under the Bureau of Student Employment are similarly restricted.

If a woman student marries, she at once forfeits her membership in the College. She may, however, apply for readmission.

The College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community, and in such cases the fees due or paid in advance to the College will not be refunded in whole or in part.

*Checks should be made payable to URSINUS COLLEGE.*
GENERAL INFORMATION

ROOMS AND MEALS

URSINUS COLLEGE is a community and pleasant community life is emphasized. Students who are not living in their own homes are required to room at the College and to take their meals in the College dining rooms.

Each resident student supplies his own towels, pillow, two pairs of sheets for a single bed, mattress protector, a pair of pillow cases (38" x 45"), a pair of blankets, and a bedspread. Linen rental service is available.

First-year students, except those whose presence is needed for service, are required to vacate their rooms immediately following the second-term examinations.

PUBLIC WORSHIP

ALL Resident students and all day students whose homes are within a mile of the campus are required to attend religious services in the College chapel on certain designated days of each week. Students may not be absent from chapel services more than three times in a semester without valid excuse. Students are encouraged to attend services on Sunday in the church of their own choice.

ABSENCES

STUDENTS are expected to attend all meetings of the classes in which they are enrolled and to take all tests and examinations on the announced days.

A student's absences in any course must not exceed twice the number of meetings per week in that course. This regulation is designed to allow for cases of illness, the death of a relative, or duty away from the College as a representative of the institution, and, in the case of a day student, transportation difficulties.

If a student has exceeded the number of allowed absences he may be dropped from the course by the Dean after consultation with the instructor and the student's adviser. If a student is dropped for over-cutting, he will be assigned a grade of F in that course. If he is allowed to continue, he must make up the work missed and pay the required fees for permits and re-examinations.

Three latenesses are counted as the equivalent of one absence. Absences directly preceding and following a holiday are counted double.

A third-year or fourth-year student whose grades in the term immediately preceding include at least one A and no grade lower than B is placed on his own responsibility for attendance at classes.
GRADES OF SCHOLARSHIP

When a course has been completed, the standing of the student is expressed, according to his proficiency, by one of five grades: A, B, C, D, or F. Letter A denotes grades between 100% and 90%, B between 90% and 80%, C between 80% and 70%, D between 70% and 60%, and F denotes 45%. Any grade of less than 60% denotes a failure in the course. Students who have received passing grades are not permitted to take re-examinations for the purpose of raising their grades.

The mark I, which may be given only with the written permission of the Dean, is reserved for cases of incomplete work or of failure under extenuating circumstances. When the removal of the mark I requires an examination, a fee of ten dollars ($10.00) will be charged. If the mark of I is not removed within one month after the beginning of the following regular term, the grade of F will be assigned for the course.

A student is required to have an average of 70% at the end of each term in College. A student who fails to do so will be restricted in his extra-curricular activities, declared ineligible, and reported to the Faculty.

A student whose average at the end of the first term or second term is below 65%, whose cumulative average is below 65% at the end of the first year, or whose cumulative average is below 70% at the end of the third term or thereafter will be dropped from the College unless, as a result of mitigating circumstances, the Faculty votes that he be permitted to continue. The action of the Faculty in all such cases is final.

Employment under the Bureau of Student Employment, or participation in intercollegiate athletics or other intercollegiate activities is not allowed to a student whose average for the preceding term is below 70%. A student under discipline may be barred by the Committee on Discipline from all extra-curricular activities.

A permanent record is kept of each student's work, a copy of which is sent to his parent or guardian at the close of each term. The standing of first-year students is reported also at mid-term. Through correspondence and conferences, the cooperation of parents is sought in the endeavor to obtain the best possible results in the work of students.

Any student may be dismissed from the College for cause by the Faculty regardless of the student's academic average.

DEGREES

Ursinus College confers two degrees in course: Bachelor of Arts and Bachelor of Science. For specific requirements of the curricula leading to each of these degrees, see pages 104 to 109. Degrees are conferred only at convocations and candidates must present themselves in person.
The College may confer the honorary degrees of Doctor of Divinity, Doctor of Pedagogy, Doctor of Science, Doctor of Letters, and Doctor of Laws on persons whose distinguished ability and service have been deemed worthy of such recognition by the Faculty and the Board of Directors.

HONORS

COMMENCEMENT

Two Commencement honors are assigned: one, the Valedictory, to the person attaining the highest standing in the graduating class; the other, the Salutatory, to the person attaining the next highest standing.

GRADUATION WITH DISTINCTION

Members of the graduating class who have shown great proficiency in their entire course may be graduated with distinction if, in the opinion of the Faculty, their attainments warrant such honors. These distinctions, Summa Cum Laude, Magna Cum Laude, and Cum Laude, are given only for unusual excellence in all the subjects pursued by the candidate.

DEPARTMENT HONORS

Students may be graduated with special honors in departments of study in which they have shown exceptional proficiency, and in which they have done extra work.

1. A candidate for Department Honors must have the endorsement of the professor in charge of the department in which he expects to try for such honors, and must enroll as a candidate at the Dean's office at least eight months prior to the anticipated date of graduation.

2. A student must maintain a grade not lower than C in any course pursued after the first year and must maintain an average of B while he is pursuing his work as a candidate for Department Honors.

3. A candidate must complete an amount of work equivalent to three semester hours in the department in which he intends to try for honors in addition to the full number of semester hours prescribed for graduation. At least twelve semester hours must be in the subject in which he is registered for Department Honors. He must submit to the Faculty a thesis on some subject within the field represented by his extra work. The thesis must be deposited in the Office of the Dean by May 1 preceding the convocation when the honors are to be awarded.

MEDICAL SERVICE

The Comprehensive Fee paid by resident students entitles them to ordinary medical attention. The College Physician may be consulted in his
office on the campus during office hours. He will regularly visit patients in the infirmaries. During the regular College sessions the resident nurses are on duty twenty-four hours a day. They care for the sick under the direction of the College Physician.

The College will not pay bills that students contract with hospitals or with physicians or nurses not on the staff of the College. The College reserves the right to enforce quarantine and to engage the services of special attendants if necessary, but will not be responsible for the compensation of extra physicians, nurses, or attendants, which compensation must be provided by the student or his parent or guardian.

ACCIDENT AND HEALTH INSURANCE
A Student accident and health insurance program is available. Details are available in the Office of the Treasurer. See under Expenses.

PRE-SESSION CAMP FOR WOMEN IN PHYSICAL EDUCATION
A camp is available on an optional basis for sophomore, junior, and senior women who are majoring in Physical Education. The camp is operated during a period of two weeks immediately preceding the opening of the fall term. Class instruction by regular members of the staff normally includes work in archery, canoeing, hockey, horseback riding, officiating, swimming, life-saving, and tennis. The time spent in camp activities will be deducted from the hours required in Physical Education activities. Courses 303 to 308, during the college year. See page 40.
SCHOLARSHIPS & AID TO STUDENTS

FULL-TUITION SCHOLARSHIPS
There are eight Open Scholarships, each having a potential value of $4800, available to the entering Freshman Class in September. The Open Scholarships are competitive, provide full tuition to the recipients, and are tenable for four years, provided that the holder's conduct and scholastic work remain satisfactory. All scholarships are subject to yearly review.

Candidates for Open Scholarships must take the Scholastic Aptitude Test and three sub-tests of the Scholastic Achievement Tests (one of which must be in English) in the December, January, February or March series of the College Entrance Examination Board.

Application for Open Scholarships must be filed by March 1.

OTHER FINANCIAL GRANTS
Many endowed financial grants, each having a potential value of from $200 to $2800 for four years, are awarded on the basis of financial need. Each grant is tenable for four years provided that the holder's conduct and scholastic work remain satisfactory. All financial grants are subject to yearly review.

Scholarship application forms may be obtained from the Director of Admissions. Applicants for both types of aid are required to fill out the College Scholarship Service Statement, indicating financial status.

Applications for financial grants must be filed by March 1.

BUREAU OF STUDENT EMPLOYMENT
The Bureau, conducted under the management of officers of the College, provides opportunities for students to earn a part of their expenses by working as waiters, laboratory assistants, library assistants, typists, and clerks in the Supply Store. These positions are standardized so as not to overburden the student or to interfere with his studies. Positions accepted under the Bureau of Student Employment must, however, always take precedence over any other extra-curricular activities. A standard position, such as a waitership in the dining room, pays three hundred and seventy dollars per year. Approximately two hundred positions, representing varying amounts of compensation and types of work, are now open to students.
Students who agree to perform a specific task, such as serving in the dining rooms, have their accounts credited in advance of their work. Those who work by the hour, however, have their accounts credited at the end of their term of work. Inasmuch as bills for the Spring Term are prepared and mailed before the end of the Fall Term, students who work by the hour must all have their bills adjusted at the opening of the Spring Term.

Letters of application, as well as those requesting information, should be addressed to the Director of Student Employment.

PLACEMENT BUREAU

Ursinus College conducts a placement bureau to assist students and graduates in finding positions for which they qualify. Its function is to serve as a point of contact for seniors and alumni with educational institutions, business, and industry. Detailed personal and scholastic records of seniors and alumni are compiled and are available along with a photograph, for all prospective employers.

Alumni Placement — The Placement Bureau acts as a clearing house for the placement of alumni seeking employment or new positions. Alumni are encouraged to place their names on the list of available candidates. A fee of $1.00 is charged for alumni registrations.

Persons seeking placement in the educational field or in business or industry should address communications to the Director of Placement, Ursinus College, Collegeville, Pa.

LOAN FUNDS

Permanent funds have been established to provide loans to third-year and fourth-year students. Applications for loans should be addressed to the Director of Admissions.
PERMANENT SCHOLARSHIP FUNDS

The College possesses a number of permanent scholarship funds. The income of each fund is assigned annually to a student designated by the College. The list of these scholarships is as follows:

The MacDade, Abbott & Co. Scholarship, established by William Henry MacDade and Temple W. Abbott, the income to be awarded to deserving students, 1,000.00

The Francis Magee Scholarship, founded by the late Francis Magee, of Philadelphia, 1,000.00

The Aaron E. March Scholarship, founded by Aaron E. March, of York, Pa., 2,000.00

The Markley Scholarship, founded by Dr. Mary E. Markley, '02, in memory of her father, the Rev. A. B. Markley, D.D., '76, 4,500.00

The Saint Mark's Scholarship, founded in 1918 by the members of Saint Mark's Reformed Church, Lebanon, Pa., in honor of their pastor, the Rev. I. Calvin Fisher, D.D., '89, and his wife, Eva S. Fisher, and in celebration of their twenty-fifth anniversary in the pastorate of Saint Mark's Church, 1,000.00

The James W. Meminger Scholarship, founded by the congregation of Saint Paul's Reformed Church, Lancaster, Pa., in honor of the Rev. James W. Meminger, D.D., '84, former pastor, 1,000.00

The Meyran Scholarship, founded by Louis A. Meyran and his wife, Marie H. Meyran, of Grace Reformed Church, Pittsburgh, Pa., 2,000.00

The Miller Scholarship, founded by Elmer E. and Erma Miller Steinbrunn, of Orwigsburg, Pa., in memory of Mrs. Steinbrunn's parents, Alfred M. and Pauline Miller, 1,000.00
The William David Miller Scholarship, founded by Mr. and Mrs. William David Miller, Jr. of Philadelphia, Pa., 1,000.00

The D. Charles Murtha Scholarships, founded under the will of D. Charles Murtha, '86, 19,949.32

The Annie Neff Scholarship, founded under the will of Annie Neff, of Alexandria, Huntingdon County, Pa., 1,500.00

The Martin B. Neff Scholarship, founded by Annie Neff in memory of Martin B. Neff, of Alexandria, Pa., and in recognition of his life-long interest in Ursinus College, 1,800.00

The Carolina E. Louden Niblo Scholarship, founded under the will of James Martin Niblo, D.D., 5,000.00

The Noss Scholarship, founded by Charles H. Noss, of York, Pa., in memory of his parents, William S. Noss and Emma S. Noss 15,000.00

The Ralston Oberholtzer Scholarship, founded under the will of Ralston G. Oberholtzer, '25, of New York City, 2,000.00

The George Leslie Omwake Scholarships, founded by several hundred alumni and other friends of the sixth president of Ursinus College, 100,280.00

The Omwake Memorial Scholarship, founded by W. T. Omwake, Esq., of Waynesboro, Pa., as a memorial to his parents, Henry and Eveline Beaver Omwake, 2,000.00

The Paisley Scholarship, founded in honor of Mrs. Carrie Strassburger Paisley, of Trinity Reformed Church, Philadelphia, 2,000.00

The Harry E. Paisley Scholarship, founded by Harry E. Paisley, L.L.D., of Trinity Reformed Church, Philadelphia, 7,028.75

The John and Margaret Paisley Scholarship, founded by John and Margaret Paisley, of Garden City, Long Island, N. Y., 6,000.00

The Saint Paul's, Lancaster, Scholarship, founded by the congregation of Saint Paul's Reformed Church, Lancaster, Pa., the Rev. T. A. Alspach, D.D., '07, pastor, 2,000.00

The Pascucci Scholarship, founded by the Class of 1952 in memory of Eugene Anthony Pascucci, '52 (1928-1954), 4,343.05

The Pennsylvania Female College Memorial Scholarship, founded by the Glenwood Association, a body of former students of the Pennsylvania Female College, in recognition of the earlier work done at Collegeville for the higher education of women, 3,000.00

The Neri F. and Serena J. Peters Scholarship, founded in memory of the Rev. and Mrs. Neri F. Peters by their children, 2,000.00
The Raynor-Fetterolf Scholarships, founded by Alves L. Raynor and his wife, Helen Miller Raynor, '11, in memory of their son, Eugene Richard Raynor (1926-1940), 97,481.82

The Ritter Scholarship, established by R. A. Ritter, LL.D., of Wyncote, Pa., 16,261.00

The Jesse W. Roberts Memorial Scholarship, founded by Charles V. Roberts, '32, in memory of his father, 11,539.13

The Silas H. Rush Scholarship, founded in memory of her parents, Mr. and Mrs. Silas H. Rush, by Mrs. E. R. Hoffman, of Philadelphia, 1,000.00

The Scheer Memorial Scholarship, founded under the will of Thekla Ida Scheer, in memory of her father, the Rev. George A. Scheer, D.D., '76, the income to be used to aid students who plan to enter the Christian ministry, 5,000.00

The Adam E. and Dorothy T. Schellhase Scholarship, founded by Dorothy T. Schellhase, 1,922.80

The Jacob S. and Lucinda Schwartz Scholarship, founded by the bequest of Jacob S. Schwartz, of Hanover, Pa., 1,000.00

The Schwenksville Community Scholarship, founded by the Citizens of Schwenksville, Pa., 1,927.00

The Shaffer Scholarship, established by Faith United Church of Christ, Philadelphia, Pa., in honor of their pastor, the Rev. William R. Shaffer, D.D., '23, and his wife, Katherine Stevenson Shaffer, '25, 4,200.00

The Jocelyn Xander Sheeder Scholarship, established by the late S. Elizabeth Xander, of Philadelphia, Pa., 1,000.00

The J. B. Shontz Memorial Scholarship, founded by the Congregation and Sunday School of Saint John's Reformed Church, Chambersburg, Pa., in memory of their former pastor, the late Rev. J. B. Shontz, 1,000.00

The A. Lizzie Shreiner Scholarship, founded under the will of A. Lizzie Shreiner, of Lancaster, Pa., 1,350.00

The Siebert Scholarship, founded under the will of P. W. Siebert, of Pittsburgh, Pa., 1,004.00

The Sigma Rho Lambda Fraternity Scholarship, 3,975.61

The George S. Sorber Scholarship, founded by the Rev. George S. Sorber, D.D., of York, Pa., 2,000.00

The Nathan Spangler Scholarship, founded by Nathan Spangler, of York, Pa., 1,000.00

The Sprankle Scholarship, founded under the will of Samuel Sprankle, of Altoona, Pa., 2,000.00
The Stauffer Memorial Scholarship, founded in memory of Robert Ursinus and John Donald Stauffer, deceased children of the Rev. J. J. Stauffer, by gifts amounting to $500 from the pastor and members of the Lykens Valley charge, and completed by a bequest of $500 under the will of Elizabeth Ritzman, of Gratz, Pa., 1,000.00

The Stauffer Scholarship, founded by the Rev. George A. Stauffer, '94, and Laura M. Stauffer, Lancaster, Pa., 7,217.11

The Harold D. and Edith C. Steinbright Scholarship, founded by Dr. and Mrs. Harold D. Steinbright, of Norristown, Pa. 20,000.00

The Marilyn Lee Steinbright Scholarship, established by the gifts of Marilyn Lee Steinbright of Norristown, Pa., the income to be awarded to needy and deserving students, 1,491.52

The Clementina R. Stewart Scholarship, founded under the will of Clementina R. Stewart, of Myerstown, Pa., 1,000.00

The Stoudt Scholarship Fund, founded in memory of the Rev. John K. Stoudt, D.D., by his wife, Mrs. John K. Stoudt, and by his children, Mark R. Stoudt, '36, and Mary Helen Burkey, '39. 1,000.00

The G. Leicester Thomas Scholarship, founded by G. Leicester Thomas, of Adamstown, Md., 9,800.00

The Trinity Bible School Scholarship, founded by the Bible School of Trinity Reformed Church, Philadelphia, 3,500.00

The Trumbower Memorial Scholarship, founded by Mr. H. C. Trumbower, of Trinity Reformed Church, Philadelphia, in memory of his parents, Dr. Lewis T. and Annie B. Troxel Trumbower, 5,000.00

The Vance Scholarship, founded by the Class of 1949 in memory of John Robert Vance, '49 (1925-1954), 5,091.25

The Abraham Wagner Scholarship, founded under the will of Abraham Wagner, of the Robinson Church, Berks County, Pa., 1,000.00

The George A. Walker Scholarship, founded under the will of George A. Walker, of Philadelphia, Pa., 10,000.00

The Wehr Scholarships, founded in honor of the Rev. Calvin P. Wehr, D.D., '95, and Agnes E. Wehr, by their daughter, Florence A. Wehr, 13,000.00

The John Wiest Scholarship, founded in memory of John Wiest, a member of the original Board of Directors of Ursinus College, by his son, Howard M. Wiest, '92, 5,100.00

The George Wolff Scholarship, founded by the Rev. George Wolff, D.D., of Myerstown, Pa., 1,000.00

The Young Scholarships, founded under the will of Mary Lantz Young, of Philadelphia, Pa., 16,000.00

The Dr. and Mrs. Isaac Zyner Memorial Scholarship, founded under the will of Jennie H. H. Wieder Zyner, 30,230.34
THE EDUCATIONAL PROGRAM

THE DEPARTMENTAL SYSTEM is employed in the organization and adminis­tration of instruction. By this system, the courses of instruction are offered in thirteen departments: Biology, Chemistry, Classics, Economics and Business Administration, English, German, Health and Physical Education, History, Mathematics, Physics, Political Science, Psychology, Romance Languages. The adviser is the medium of communication between the Faculty and students of his department. The approval of the adviser is necessary before a student may register for or enter upon any course of study, or discontinue any work.

A student, at matriculation, chooses the subject of major concentration he desires to pursue, and with the advice and consent of the adviser selects his studies for the year and reports his selection to the Dean on a blank provided for the purpose. A student who is uncertain as to his future plans, and therefore undecided as to his major field, may choose to be registered in an “Undesignated major” for the first year.

SUMMER READING PROGRAM

In order to stress the importance of good reading and to develop the student’s appreciation of good writing, the Faculty has approved the Program in Summer Reading which is required of all students. It begins with the summer preceding the freshman year and continues through succeeding summers. The paper-bound volumes assigned for reading are mailed to the student. These books are discussed formally and informally during the early weeks of the first semester.

CHOICE OF STUDIES

THE WORK of every student is composed of three parts: (1) courses which are, in the judgment of the Faculty, essential to a liberal education and are required of all students before graduation; (2) courses required by the department in which the student is registered, and which comprise his major field of concentration; (3) elective courses chosen by the student as a means of further individualizing his course of study, and adapting it to his own intellectual tastes and future purposes.

REGISTRATION

ALL STUDENTS must register at the beginning of the Fall Term for the work of the Fall and Spring Terms. Changes in course of study may be made during the first week of a term with the written approval of the adviser. After the first week, courses may be added or dropped only by joint permission of the Dean, the adviser, and the instructors involved. A student who withdraws from a course without such permission will receive the grade of F. A fee of one dollar is charged for the registration of students on days other than those appointed in the College Calendar.
In registering, the student must present to his department adviser his complete list of studies, both prescribed and elective, for the whole year. Courses prescribed as degree or departmental requirements or to satisfy conditions must take precedence over and be scheduled before elective courses. When a student changes to another department, he must fulfill the requirements of that department in order to be graduated.

REQUIREMENTS FOR GRADUATION

The requirement for the degree of Bachelor of Arts or Bachelor of Science is the completion of one hundred and twenty semester hours which must include all the courses required by the Faculty of all students for graduation and the courses required by the department to which the student belongs. At least sixty semester hours of this work must be completed at Ursinus College, and this must include the work of the senior years.

A regular student may not take in any one term fewer than twelve semester hours of work. The normal maximum for a term is five courses or fifteen semester hours. Two semester hours above the normal maximum may be scheduled with the approval of the adviser, provided the student's average for the preceding term is eighty or higher. Three semester hours above the normal maximum may be scheduled for the preceding approval of the adviser, provided the student's average for the preceding term is eighty-five or higher (Exception: Engineering and Physical Education majors are permitted to schedule in each term three hours more than the normal maximum).

All fourth-year students shall enroll as full-time students. They must carry a minimum load of fourteen (14) semester hours in each of the last two semesters.

PREScribed COURSES (REQUIRED OF ALL CANDIDATES FOR GRADUATION)

- English Composition 1, 2
- English Composition 3, 4
- English Literature 3, 4 or 17, 18 or 19, 20
- History 1, 2
- Foreign Languages 1, 2 and 3, 4 or equivalent
- Biology 3, 4 or Chemistry 1, 2; Geology 1, 2 or Physics 1, 2 (if prerequisites are satisfied)
- Economics 3, 4 or Political Science 1, 2
- Psychology 1
Philosophy (one semester)
Physical Education 101, 2 (No semester hour credit. Not required of students in the Physical Education Department).

All requirements for graduation must be satisfied before the end of the last day of examination week preceding commencement. Each student must bear responsibility for fulfilling his requirements for graduation.
COURSES OF INSTRUCTION

IN DESIGNATING COURSES of study, odd numerals are employed to indicate the courses offered during the Fall Term and even numerals the work of the Spring Term. Exceptions to this regulation are noted. Summer Term offerings are not announced in this catalogue, but so far as possible, courses will be offered to meet the needs of students who register for the Summer Term.

The credit value of each course, expressed in semester hours, is printed in italics. The hours per week are given in the definition of the course.

BIOLOGY

PROFESSOR WAGNER
PROFESSOR VAN DAM
ASSOCIATE PROFESSOR HOWARD
MRS. SHINEHOUSE

The program of this department aims, through the study of a number of aspects of biology, to foster the scientific attitude in its students, to encourage and maintain a critical and enthusiastic interest in the subject of biology for its own sake, and to provide a background of fundamental courses sufficient for its majors to qualify for teacher certification in the secondary schools and for pre-professional preparation in the several fields of the health services. The department prepares students for advanced work in the biological sciences.

Students majoring in Biology must take a minimum of 28 semester hours in Biology, including Biology 103, 104; 7, 8; 19; 21 or 22. The additional electives may be selected from Biology 6, 17, 18, 20, 21, 22, 23, 24, 25, 26. This department also requires its majors to take the following related courses: Physics 1, 2; Chemistry 101, 102; Mathematics 29, 30. Those planning to pursue graduate studies in Biology are advised to elect Mathematics 31 (Calculus), and/or Mathematics 13, 14 (Statistics), and/or Mathematics 41 (Probability), before completing their third and fourth years.

Teaching This program (major in Science, concentration in Biology) is designed for prospective secondary school teachers whose principal interest is Biology and who wish to be certified in Biological Science, Science, and General Science.

The following courses are prescribed by the Department of Biology: Biology 103, 104, 6, 17, 18, 19, 21, 22, Chemistry 1, 2 or Physics 1, 2, Mathematics 29, 30, History 16.

The curriculum of students beyond the first year must be arranged in consultation with the head of the Department of Education.

For sequence of courses, see Major in Science, Concentration in Biology, p. 107.

NOTE: Students who complete the integrated course in General Chemistry, General Physics and Mathematics (CMP267-1, 2) will satisfy the requirement for the following combination of courses: Chemistry 101-2, Physics 1-2, and Mathematics 29-30. See p. 103.

3. General Biology (Zoology)

DR. HOWARD

Introduction to principles of structure, function, and development of living things as revealed in a study of selected animal types. Two hours of lecture; one two-hour laboratory period per week. Three semester hours.
4. **General Biology (Botany)**

   **DR. HOWARD**

   Introduction to principles of structure, function, and development of living things as revealed in a study of selected plant material. Two hours of lecture; one two-hour laboratory period per week. *Three semester hours.*

   Courses 3 and 4 of General Biology are not open to Biology majors but may be taken by any student to satisfy the college requirements for graduation.

103. **General Biology (Zoology)**

   **DR. VAN DAM**

   A study of general principles of structure, function, and development of animal cells and organs, and of representative animal types. Prerequisite, Chemistry 101, 102. Two hours of lecture; two two-hour laboratory periods per week. *Four semester hours.*

104. **General Biology (Botany)**

   **DR. VAN DAM**

   A study of general principles of structure, function and development of plant cells and of representative plant types. Prerequisite, Biology 103. Two hours of lecture; two two-hour laboratory periods per week. *Four semester hours.*

   Courses 103 and 104 are the basic introductory courses prescribed for all biology majors and for any others who are planning to meet the various pre-professional requirements in biology.

6. **Advanced Botany**

   **DR. WAGNER**

   The course is designed to give the student a more detailed knowledge of the vascular plant groups, stressing the principles of taxonomy, ecology, and plant geography. Lectures and discussions followed by field and laboratory work. Prerequisite, course 104. Two hours of lecture; one three-hour laboratory period per week. *Three semester hours.*

   *Biology 6 is required for those who intend to apply for certification in Pennsylvania as teachers of biology and for pre-veterinarian students.*

7. **Vertebrate Anatomy**

   **DR. HOWARD**

   The comparative anatomy and relationships of the chordates. A survey of the lower chordates and a detailed consideration of the external anatomy, the skeletal and muscular systems of the Lamprey, Dogfish, Necturus, Alligator, Pigeon, and Cat. Prerequisite, Biology 103, 104. One hour of lecture; two three-hour laboratory periods per week. *Four semester hours.*

8. **Vertebrate Anatomy**

   **DR. HOWARD**

   A continuation of course 7 covering the digestive, circulatory, uro-genital and nervous systems of the Lamprey, Dogfish, Necturus, Alligator, Pigeon, and Cat. Prerequisites, Biology 103, 104, 7. One hour of lecture; two three-hour laboratory periods per week. *Four semester hours.*

17. **Human Anatomy and Physiology**

   **DR. VAN DAM, MRS. SHINEHOUSE**

   A study of the structure, function and development of the muscular, skeletal, and nervous systems. One hour of lecture; one two-hour laboratory period per week. *Two semester hours.*
18. Human Anatomy and Physiology

A study of the structure, function, and development of internal and sense organs. Prerequisite, Biology 5 or 103. One hour of lecture; one two-hour laboratory period per week. Two semester hours.

19. Embryology

Gametogenesis, early development, histogenesis and organogenesis of selected animal types, especially the chick, pig, and human. Prerequisites, Biology 103, 104. One hour of lecture; two three-hour laboratory periods per week. Four semester hours.

20. Histology

Structural and developmental study of tissues and organs of the vertebrate body. Introduction to histological technique. Prerequisite, Biology 103, 104. One hour of lecture; two three-hour laboratory periods per week. Four semester hours.

21. Heredity

Lectures and discussion dealing with the principles of plant and animal genetics, and the consideration of factors pertaining to human inheritance. Assigned readings and papers. Prerequisite, Biology 3, 4 or 103, 104. Three hours per week. Three semester hours.

22. Evolution

Lectures and discussions explaining the history of living things in space and time. Assigned readings and papers. Open to all students. Two semester hours.

23. Seminar

Papers and reports concerned with selected phases of biological knowledge. Topics to be chosen by the instructor in charge. Prerequisites, Biology 7-8; or 19, 20. Open to fourth year majors in biology. One hour per week. One semester hour.

24. Seminar

A continuation of course 23. Prerequisites, Course 7-8; or 19, 20. Open to fourth year majors in biology. One hour per week. One semester hour.

25. General Physiology

A study of physical-chemical aspects of cellular processes, and principles of related experimental techniques. Prerequisites, Biology 103, 104; Chemistry 101, 102 (107, 108 recommended); Physics 1, 2. Two hours of lecture; one four-hour laboratory period per week. Four semester hours.

Enrollment is limited to 15 students in each term. A minimum enrollment of six students is required for course to be offered.

26. General Physiology

A continuation of Biology 25. Prerequisites, Biology 7, 8, 25. Two hours of lecture; one four-hour laboratory period per week. Four semester hours. A minimum enrollment of six students is required for course to be offered.
CHEMISTRY

PROFESSOR STURGIS
PROFESSOR PETTIT
ASSOCIATE PROFESSOR STAIGER
ASSISTANT PROFESSOR FORTNUM
ASSISTANT PROFESSOR BARTH

The courses of study offered by the Chemistry Department are (1) to provide a course in general chemistry which will satisfy the requirements of the College for a laboratory science; (2) to provide training in chemistry for students planning to teach; (3) to provide more than minimum training for students planning to become technicians in medical laboratories, and for pre-dental and pre-medical students; (4) to offer sufficient specialized training in chemistry beyond the basic courses that will enable a graduate to enter a career as a professional chemist; and (5) to prepare students for graduate training.

Students whose principal interest is Chemistry will select a degree of concentration consistent with their vocational objective.

One of the following programs must be selected:

I. Chemistry Major

This program outlined in detail on page 107 is approved by the American Chemical Society for undergraduate professional training in Chemistry.

The following courses are prescribed: Chemistry 101, 102, 3, 4, 5, 7, 8, 9, 10, 11; Mathematics 29, 30, 31, 32; Physics 1, 2; Physics 4 or Biology 3, 4.

II. Healing Arts

This program is designed for degree-seeking students planning for admission to professional schools in the healing arts (medicine, dentistry, osteopathy, veterinary medicine, etc.) who are specializing in Chemistry in college.

The following courses are prescribed: Chemistry 101, 102, 3, 7, 8, 9, 10; Mathematics 5, 6; Physics 1, 2; Biology 103, 104.

III. Teaching

This program (major in Science, concentration in Chemistry) is designed for prospective secondary school teachers whose principal interest is Chemistry and who wish to be certified in Physical Science, Science, and General Science.

The following courses are prescribed by the Department of Chemistry: Biology 3, 4, 21, 22; Chemistry 101, 102, 3, 7, 8; History 16; Mathematics 29, 30; Physics 1, 2, 11, 12. A student presenting six credits in general chemistry may satisfy the prerequisite for an advanced course by passing a written examination set by the faculty of the Department.

NOTE: Students who complete the integrated course in General Chemistry, General Physics and Mathematics (CMP267-1, 2) will satisfy the requirement for the following combination of courses: Chemistry 101-2, Physics 1-2, and Mathematics 29-30. See p. 103.

1. General Chemistry

A development of the facts, theories, and methods of chemistry as applied to solids, liquids, gases and solutions. Related laboratory work is given. Chem. I does not satisfy the prerequisite requirements for advanced chemistry courses. Two hours of lecture and three hours of laboratory per week. Three semester hours.
2. General Chemistry
   DR. FORTNUM
   A continuation of Course 1. Prerequisite, Chemistry I. A study of the properties and reactions of the elements. A study of descriptive inorganic and organic chemistry based on principles of equilibrium and structure. Chemistry 2 does not satisfy the prerequisite for advanced chemistry courses. Two hours of lecture and three hours of laboratory per week. Three semester hours.

*101. General Chemistry
   DR. STAIGER
   A study of the basic theories and laws of chemistry covering the common elements of the periodic system, their structures, interactions and energy relationships. This course is accompanied by work in the mathematical solution of chemical problems and is the prerequisite to advanced chemistry courses. Three hours of lecture and recitation and three hours of laboratory per week. Four semester hours.

*102. General Chemistry
   DR. STAIGER
   A continuation of Course 101. Prerequisite, Course 101. A study of oxidation states of the common elements, chemical equilibrium, solubility product and pH. The laboratory experimentation deals with the qualitative separation and characterization of the common cations and anions. Three hours of lecture and recitation and three hours of laboratory per week. Four semester hours.

3. Quantitative Analysis
   MISS BARTH
   A study of commonly used methods of gravimetric and volumetric analysis. Emphasis is placed on the theory of equilibrium developed in Course 102. Three hours lecture and three hours of laboratory per week. Four semester hours.

4. Inorganic Chemistry
   MISS BARTH
   A study of the nuclear and extranuclear structure of the atom, chemical bonding stereoconfiguration of molecules and coordination compounds. The laboratory covers special preparative techniques involved in inorganic synthesis. Two hours of lecture and three hours of laboratory per week. Prerequisite, Course 9. Three semester hours.

5. Analytical Chemistry
   MISS BARTH
   An advanced course in quantitative analysis. Methods of separation for complicated materials including the quantitative estimation of organic compounds and the use of chromatography, spectroscopy, and electrometric methods in analysis are studied. Prerequisites, Courses 3, and 10. Two hours of lecture and three hours of laboratory per week. Three semester hours.

6. Analytical Chemistry
   MISS BARTH
   A continuation of Course 5. Prerequisite, Course 5. Two hours of lecture and three hours of laboratory per week. Three semester hours.

7. Organic Chemistry
   DEAN PETTIT
   The study of the properties, synthesis, and the structure of the most important classes of the carbon compounds. Prerequisites, Courses 101, 102 or equivalent. Three hours of lecture and three hours of laboratory per week. Four semester hours.

8. Organic Chemistry
   DEAN PETTIT
   A continuation of Course 7. Prerequisite, Course 7. Three hours of lecture and three hours of laboratory per week. Four semester hours.

*This course is not offered in 1964-1965
9. Physical Chemistry  
A study of the principles of chemistry. The principles of thermodynamics and quantum chemistry are used in studying the states and structure of matter. Kinetics and mechanism, equilibrium, electro-chemistry, surface chemistry, solutions, and phase rule are also studied. Related laboratory work is provided. Prerequisites, Chemistry 102, Physics 2, and Mathematics 32. Three hours of lecture and three hours of laboratory work per week. *Four semester hours.*

10. Physical Chemistry  
A continuation of Course 9. Prerequisite, Course 9. Three hours of lecture and three hours of laboratory work per week. *Four semester hours.*

11. The Identification of Organic Compounds  
The classification and identification of organic compounds based on physical and chemical properties; the chemical analysis of organic functional groups and the preparation of characteristic derivatives. Two hours of lectures and six hours of laboratory per week. Prerequisite, Course 8. *Four semester hours.*

12. Advanced Organic Chemistry  
A study of the structures of organic molecules and their relation to the mechanism of organic reactions. Prerequisite, Courses 10 and 11. Two hours of lecture per week. *Two semester hours.*

*20. Seminar  
Paper and reports in Physical Chemistry. One hour per week. Prerequisite, Course 10. *One semester hour.*

*21. The Literature of Chemistry  
The use of books, journals, and reports in the field of chemistry. Open to third and fourth year students. Prerequisites, Course 8, German 4. One hour per week. *One semester hour.*

22. Seminar in Organic Chemistry  
Reports on recent advances in Organic Chemistry. One hour per week. *One semester hour.*

30. Research  
This course consists of laboratory and library work together with a final written report. It is open to Chemistry majors who have attained an average of 80 in all courses during the first five semesters and who have received the approval of the department in the course. The laboratory work will be the equivalent of three hours of work per week. *Two semester hours.*

CLASSICAL LANGUAGES

PROFESSOR DONALD BAKER

The chief objective of the Classics Department is to develop in the student accuracy in thought and verbal expression. Other objectives are to enlarge the student’s perspective by introducing him to a civilization other than his own; to increase his knowledge and understanding of the literature and institutions of England and America by studying the Greek and Roman sources from which they came; to encourage in the student a mastery of two languages which are important tools in many fields.

*This course is not offered in 1964-1965*
Students majoring in Classical Languages are required to take at least 12 semester hours of Greek and 12 semester hours of Latin beyond Latin 2. In the first half of his senior year, each student must take the Seminar in Classical Studies, Greek 7. In the examination at the close of this course, he will be expected to show a satisfactory general knowledge of Greek and Roman literature, language, art, history, geography, mythology, religion, and private life. For this examination the student is expected to prepare himself (with the advice and help of the instructor) throughout his previous three years both by courses and by outside reading.

GREEK

1. *Beginning Greek*  
Three hours per week. *Three semester hours.*  
Course I may be elected by students in any major field.  

2. *Intermediate Greek*  
Three hours per week. *Three semester hours.*  
Prerequisite, Greek 1 or its equivalent.

3, 4, 5, 6. *Advanced Greek*  
Readings from Homer, Thucydides, Aristophanes, and other authors depending on the preferences and capacities of those electing the course. Only one of these courses will be given in any one semester. *Three semester hours.*

7. *Seminar in Classical Studies*  
A study of selected topics dealing with the Greco-Roman world. Knowledge of Greek and Latin is a prerequisite. Three hours per week. *Three semester hours.*

8. *New Testament Greek*  
Three hours per week. *Three semester hours.*  
Prerequisite, Greek 2.

LATIN

1. *Elementary Latin*  
A study of the grammar, syntax, and vocabulary, with emphasis upon the Latin elements in English words. Reading of passages from various authors. Three hours per week. *Three semester hours.*

2. *Elementary Latin continued*  
*Three semester hours.*

3, 4. *Ovid, Virgil*  
Each *three semester hours.*  
Prerequisite, Latin 2 or its equivalent.

PROFESSOR MESSINGER  
MR. TALBOT  
PROFESSOR FLETCHER  
DR. KIRKPATRICK  

The Department of Education provides the professional courses required for certification of Secondary School teachers in Pennsylvania, New Jersey, Delaware, and Maryland. Students preparing for requirements of other states should consult the Head of the Department for information concerning specific requirements of those states. In
planning its curriculum, the Department has in mind five specific areas in which the
growth of students is to be stimulated:

1. To increase their awareness of the function of the school in modern society;
2. To understand the changing philosophies of education which are advanced with
the changes occurring in society;
3. To increase their understanding of the nature of growth and development of
human beings;
4. To understand how learning takes place;
5. To understand the methods used by the school in gaining its objectives.

The Department of Education regards the preparation of teachers to be a function
of the College as a whole.

Students preparing for teaching must complete Psychology 1 prior to taking courses
in Education. Students are expected to follow the sequence of courses listed below:

- Spring semester of the second year, Education 2.

This department offers instruction in the knowledge and use of the English language, a study based on the premise that language is the indispensable tool in the life and labor of civilized man and is the art through which he most fully expresses his spirit. Its courses in literature provide opportunity to form an extensive acquaintance with English and American literature and to understand individual works as unique artistic creations and as products of a historical and social process. The ultimate aim is to implant a discriminating appreciation for the best that has been written in our civilization.

Students majoring in English must take the following courses: English Literature 3, 4; 9, 10; 11, 12; 19, 20; and eight additional semester hours in English; History 9, 10 or 11, 12; 13, 14.

Students preparing for graduate study in English should elect French and German as their modern languages. Study in classical languages is strongly recommended for such students.

Course with greatest stress laid on team sports. All activities are analyzed from the teaching standpoint. Students are given opportunities for self evaluation and for creative and teaching experiences. Consideration is given to the role of rhythmical activities in the program and to the selection and sources of dance materials. Six hours per week. Four semester hours.

MEN: Football, soccer, tennis, basketball, baseball, track and field, volleyball, marching tactics, tumbling, calisthenics, apparatus, square, folk and social dancing.

WOMEN: Hockey, soccer, speedball, lacrosse, tennis, volleyball, basketball, softball, track and field, marching tactics, tumbling, calisthenics, rhythmics, square, folk and social dancing.

303, 304. Second Year Activities
A continuation of Course 301 and 302 with some additional activities. More stress is placed on teaching and on the development of advanced skills and team strategies. Six hours per week. Four semester hours.

MEN: Football, soccer, speedball, tennis, volleyball, baseball, track and field, boxing, wrestling, marching tactics, tumbling, calisthenics, apparatus, tap dancing.

WOMEN: Hockey, soccer, speedball, lacrosse, tennis, volleyball, basketball, softball, track and field, archery, campcraft, canoeing, low organized games, rhythmics, calisthenics, tumbling, apparatus, tap dancing.

305, 306. Third Year Activities
More time is devoted to individual sports with continuing emphasis upon the teaching and analysis of skills and strategies, and upon the role of these activities in the physical education program. Opportunity is given in modern dance for original composition. Six hours per week. Four semester hours.

MEN: Archery, golf, riding, tennis, lacrosse, canoeing, badminton, boxing, wrestling, swimming, apparatus.

WOMEN: Archery, golf, riding, tennis, lacrosse, canoeing, badminton, swimming, modern dance, apparatus.

307, 308. Fourth Year Activities
A continuation of Course 305 and 306 at a more advanced level. Bowling and lifesaving are offered as additional activities. Three hours per week. Two semester hours.

NOTE: Sophomore, junior, and senior women may attend a pre-session camp which offers activities in partial fulfillment of these requirements.

Professional courses offered by the Department of Health and Physical Education are designed for students majoring in Health and Physical Education. Students in other majors may elect such courses but academic credit will be withheld until the student has completed the general college requirements, his departmental requirements, and has earned a total of one hundred twenty semester hours credit. An exception will be made in the case of a student who wishes to have Health or Physical Education written upon his teaching certificate in addition to another subject matter certification. This will require him to take eighteen semester hours in either Health or Physical Education in order to obtain academic credit for these courses within the one-hundred-twenty hour limit.
The objectives of the History Department are to provide an opportunity for students to understand the backgrounds of Western culture and their relationship to the whole world, to illuminate their chosen fields with a knowledge of pertinent historical material, and to become acquainted with the methods of objective historical research analysis.

In addition to History 1-2, students majoring in history must take Course 13-14; six additional semester hours of European history; ten semester hours in elective history courses, including one seminar; Economics 3, 4; Political Science 1, 2 and Sociology 1.

1. European Civilization
An introductory history of Europe for the purpose of providing a general historical background for other courses and for an understanding of contemporary world affairs. Required of all students for graduation, and prerequisite for all other history courses. Two lectures and one section meeting per week. *Three semester hours.*

2. European Civilization
Prerequisite History 1. Continuation of Course 1. Required of all students for graduation. Two lectures and one section meeting per week. *Three semester hours.*

*3. Medieval Institutions
A study of selected economic, social, cultural, religious, and political institutions essential to the understanding of the period from the fall of Rome to the Renaissance. Three hours per week. This course is open only to third-year and fourth-year students. *Three semester hours.* (Alternates with 11.)

4. The Renaissance and the Reformation
A study of humanism and religion in the 15th and 16th centuries. Three hours per week. This course is open only to third-year and fourth-year students. *Three semester hours.* (Alternates with 26.)

*5. The Age of Enlightenment
The development of the European state system 1648-1815, the Enlightenment, the French Revolution and the Napoleonic Era. Three hours per week. *Three semester hours.* (Alternates with 21.)

*6. The Age of Romanticism
European romanticism and nationalism 1815-1870. Three hours per week. *Three semester hours.* (Alternates with 22.)

7. The World Since 1870
A study of the impact of industrialization, neo-imperialism, and nationalism upon European peoples and their overseas empires 1870-1914. Three hours per week. *Three semester hours.* (Alternates with 9.)

*This course is not offered in 1964-1965.*
8. The World Since 1870
A continuation of Course 7 covering the period 1914 to the present. Three hours per week. *Three semester hours.* (Alternates with 10.)

*9. England and the British Empire
A history of the English people with special attention to political and constitutional developments to 1600. Three hours per week. *Three semester hours.* (Alternates with 7.)

*10. England and the British Empire
A continuation of Course 9 with special attention to political and imperial developments since 1600. Three hours per week. *Three semester hours.* (Alternates with 8.)

11. English Social History
A study of the daily life of the English people. Three hours per week. *Three semester hours.* (Alternates with 3.)

12. English Social History
A continuation of Course 11. Three hours per week. *Three semester hours.* (Given in alternate years.)

13. The United States of America
Political and cultural history from colonial status to World Power with special emphasis on Pennsylvania. This course is prescribed for all students majoring in history and for any others who are preparing to teach social studies. Three hours per week. *Three semester hours.*

14. The United States of America
A continuation of Course 13. Prescribed for all students majoring in history and for any others preparing to teach social studies. Three hours per week. *Three semester hours.*

15. American Diplomatic History
A study of American diplomacy from the treaty of 1783 to the present, including an analysis of the various factors which determine that policy: public opinion, population, world markets and international organization. Three hours per week. *Three semester hours.* (Given alternate years.)

16. Economic and Social History of the United States and Pennsylvania
Economic foundations and social change in the United States with intensive study of Pennsylvania. Three hours per week. *Three semester hours.*

*17. Latin America
Political and cultural backgrounds of South and Central American nations and their relation to the interests and policy of the United States. Three hours per week. *Three semester hours.* (Alternates with 23.)

*18. Latin America
A continuation of Course 17. Three hours per week. *Three semester hours.* (Alternates with 24.)

*This course is not offered in 1964-1965.*
19. **Greek History**  
Studies in the political, social, and economic life of ancient Greece. Two hours per week. *Two semester hours.*

20. **Roman History**  
This course deals especially with the government of the Roman Republic, the transition to Empire, and the causes of its decline. Two hours per week. *Two semester hours.*

21. **The Middle East**  
The ancient civilization of Egypt, Babylonia, Persia, Greece, and the Byzantine Empire. The Moslem World and the Middle East in modern times. Three hours per week. *Three semester hours.* (Alternates with 5.)

22. **The Middle East**  
Prerequisite Course 21. A continuation of Course 21. Three hours per week. *Three semester hours.* (Alternates with 6.)

23. **The Far East**  
History of the Asiatic Mainland and the Pacific Islands. Three hours per week. *Three semester hours.* (Alternates with 17.)

24. **The Far East**  
A continuation of Course 23. Three hours per week. *Three semester hours.* (Alternates with 18.)

*25. **Russia**  
Political and social history of Russia. Three hours per week. *Three semester hours.* (This course is given in alternate years.)

*26. **Canada**  
The development of the Canadian people from colonial status to nationhood. Three hours per week. *Three semester hours.* (Alternates with 4.)

27. **History of Western Art**  
An introduction to the history of architecture, sculpture and painting presented by means of illustrated lectures and museum trips. Three hours per week. *Three semester hours.*

28. **Geography**  
Extensive study of the major regions of the world. The purpose is to analyze each from the standpoint of climate, natural resources, and economic problems, and to give the student a fairly detailed knowledge of the physical geography of the regions. Three hours per week. *Three semester hours.*

29, 30. **Seminar in European History**  
Preparation and discussion of research papers in European history. Open to third and fourth year students with permission of the instructor. Two consecutive hours per week. *Four semester hours.*

---

*This course is not offered in 1964-1965.*
COURSES OF INSTRUCTION

31, 32. Seminar in American History

Preparation and discussion of research papers in American history. Open to third and fourth year students with permission of the instructor. Two consecutive hours per week. Four semester hours.

The requirement for History 29, Seminar in European History, may be met by students who complete a special summer course of European travel and research conducted by a member of the Department of History of Ursinus College.

MATHEMATICS

PROFESSOR MANNING
PROFESSOR DENNIS
ASSISTANT PROFESSOR SCHULTZ
MR. PENNA

The aims of the Mathematics Department are (1) the development of an appreciation of the role of mathematics in the progress of civilization, both past and present; (2) the development of the ability to do abstract, logical thinking by the analysis of the various deductive systems of mathematics; and (3) the development of special techniques which can be utilized in the related fields of physics, chemistry, biology, psychology and economics.

NOTE: Students who complete the integrated course in General Chemistry, General Physics and Mathematics (CMP267-1, 2) will satisfy the requirement for the following combination of courses: Chemistry 101-2, Physics 1-2, and Mathematics 29-30. See page 103.

A student majoring in Mathematics is required to take Physics 1, 2 and Mathematics 29, 30, 31, 33, and 34 and fifteen additional hours in Mathematics selected from the courses whose number are above 31.

Certain particular courses are recommended but not specifically required. For those preparing to be teachers — 35, 36, 37, 38, 41, 42. For those preparing to take post graduate work — 32, 35, 36, 37, 38, 39, 40, 41, 42 43, 45. For those preparing for engineering jobs in industry and for work in the computing field — 32, 35, 36, 39, 40, 41, 42.

1. Fundamentals of Modern Mathematics

A treatment of the ideas that are especially pervasive in modern mathematics; sets, functions, operations, and relations; with emphasis on the logical structure of the number systems, algebra, and analytic geometry. Three hours per week. Three semester hours.

2. Fundamentals of Modern Mathematics

A further development of modern mathematics with a greater emphasis on analysis, and the mathematical disciplines as illustrated in the study of transcendental functions, probability, statistics, and the calculus. Three hours per week. Three semester hours.
13. Statistics  
Statistical methods of studying data from the fields of economics, education and industry; probability, measure of central tendency, dispersion, skewness. Two hours per week. Two semester hours. Prerequisite, Mathematics 2.

14. Statistics  
A continuation of course 13, correlation, analysis of variance, and methods of testing hypotheses. Two hours per week. Two semester hours. Prerequisite, Mathematics 13.

29. Analytic Geometry and Calculus  
An integrated study of analytic geometry and calculus with respect to functions of one variable. Three hours per week. Three semester hours.

30. Analytic Geometry and Calculus  
A continuation of course 29, with applications to the fields of chemistry and physics. Three hours per week. Three semester hours. Prerequisite, Mathematics 29.

31. Intermediate Calculus  
A continuation of course 30, with emphasis on functions of more than one variable including three dimensional geometry, partial differentiation and multiple integration, study of infinite series; and applications to problems in engineering. Three hours per week. Three semester hours. Prerequisite, Mathematics 30.

32. Differential Equations  
A study of the methods of solving types of ordinary differential equations with applications to problems in the physical sciences. Three hours per week. Three semester hours. Prerequisite, Mathematics 31.

33. Linear Algebra  
An introduction to the important mathematical concepts of systems of linear equations, matrix theory, linear transformations on vector spaces, bilinear and quadratic forms. Three hours per week. Three semester hours.

34. Linear Algebra  
A continuation of course 33 with emphasis on applications to Euclidean vector spaces of two and three dimensions. Three hours per week. Three semester hours. Prerequisite, Mathematics 33.

*35. Modern Algebra  
An introduction to the modern mathematical systems of groups, integral domains, rings, and ideals, fields, and vector spaces. Three hours per week. Three semester hours. Prerequisite, Mathematics 31.

*36. Modern Algebra  
A continuation of course 35, with extensions to linear groups, algebraic number fields, algebra of classes, Galois theory of equations. Three hours per week. Three semester hours. Prerequisite, Mathematics 35.

*This course is not offered in 1964-1965.
37. Modern Geometry  
DR. DENNIS  
A study of modern Euclidean geometry of the triangle and circle; inversion and polar reciprocation, isometry and similarity in Euclidean spaces, coordinate geometry, linear transformations and invariant theory. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 31.

38. Modern Geometry  
DR. DENNIS  
A continuation of course 37, with emphasis on affine geometry, projective geometry, non-Euclidean geometry, differential geometry of curves and surfaces; and an introduction to topology. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 37.

39. Advanced Calculus  
DR. DENNIS  
A theoretical treatment of the concepts of limits, continuity, partial differentiation, indeterminate forms, and infinite series; definitions and properties of the Stieltjes integral, multiple integrals, line and surface integrals. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 31.

40. Advanced Calculus  
DR. DENNIS  
A continuation of course 39, with an introduction to Gamma and Bessel functions. Fourier series, Laplace transforms, and applications to the solutions of differential equations. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 39.

41. Probability  
MISS SCHULTZ  
An introduction to probability theory; a study of discrete and continuous probability functions. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 2 or 29.

42. Mathematical Statistics  
MISS SCHULTZ  
This course emphasizes the essential mathematical background of modern statistics. It includes the mathematical development of sampling distributions; the theory and application of tests of hypotheses, regression and correlation, and analysis of variance. Three hours per week. *Three semester hours.* Prerequisites, Mathematics 31 and 41.

43. Vector Analysis  
DR. DENNIS  
Applications of vector calculus to geometry and physics; properties of scalar and vector fields, theorems on line and surface integrals, generalized coordinate systems and transformation theory. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 39, or simultaneously with Mathematics 39.

*44. Theory of Numbers  
DR. DENNIS  
Theory of primes and divisibility conditions; simple continued fractions, congruence theory, quadratic residues, diophantine equations. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 39.

*45. Functions of a Complex Variable  
DR. DENNIS  
An introduction to the theory of analytic functions, integrals of complex functions, conformal mapping, harmonic functions, Taylor's and Laurent's series, residue theory, geometry of elementary functions. Three hours per week. *Three semester hours.* Prerequisite, Mathematics 39, or simultaneously with Mathematics 39.

*This course is not offered in 1964-1965.*
The program in music is designed to meet the needs of non-professional music students and to promote a wider knowledge and appreciation of the history, theory, and performance of great music. The program comprises classroom instruction and opportunities for individual and group participation.

A. Theory of Music

1. Elementary Harmony
   A thorough foundation in the melodic, rhythmic, and harmonic elements of music; keys, scales, intervals, cadences, major and minor chords; rhythmic reading and dictation, time durations, and the study of compound and simple measures. Prerequisite, one year of piano study or of musical theory. Two hours per week. Two semester hours.

2. Elementary Harmony
   A continuation of Music 1. Prerequisite, Music 1. Two hours per week. Two semester hours.

B. Appreciation of Music

13. Appreciation of Music
   This course covers the early development of music through religious music, folk song and folk dance, and follows their progress to the larger forms of musical composition. Two hours per week. Two semester hours.

14. Appreciation of Music
   A continuation of Music 13. The further development of music is traced into the symphonic and operatic fields of composition. Prerequisite, Music 13. Two hours per week. Two semester hours.

C. History of Music

15. History of Music
   Introduction to choral and instrumental music of the ancient and medieval period. Two hours per week. Two semester hours.

16. History of Music
   A continuation of Music 15. This course deals with the music of the Eighteenth Century, the Romantic period, and the Twentieth Century. Prerequisite, Music 15. Two hours per week. Two semester hours.

17. Opera and Orchestral Music
   A detailed analysis of symphonic music. Two hours per week. Two semester hours.

18. Opera and Orchestral Music
   A detailed analysis of proven operatic compositions. Two hours per week. Two semester hours.

19. Music Dramas of Richard Wagner
   An intimate discussion and the detailed analysis of Wagner's works. Two hours per week. Two semester hours.

Course 19 alternates with Courses 17, 18.

*This course is not offered in 1964-1965.
D. Musical Organization

21a, 22a. Band
Participation in the marching and the concert band. Two hours per week. Not a credit course.

21b, 22b. Band
Second year. Continuation of first-year work. Two hours per week. Not a credit course.

21c, 22c. Band
Third year. Continuation of second-year work. Two hours per week. Not a credit course.

21d, 22d. Band
Fourth year. Continuation of third-year work. Two hours per week. Not a credit course.

27a, 28a. Vocal Ensemble and Methods
A study of the basic principles of ensemble technique, vocal characteristics, and various types of voices. Discussion and study of the musical literature of the different periods. Practical application of principles studied as well as participation with the Ursinus Meistersingers in public concerts. Two hours per week. Not a credit course but a prerequisite for Music 27b, 28b.

27b, 28b. Vocal Ensemble and Methods
Second year. Continuation of first-year work. Two hours per week. Credit of one semester hour to be awarded at the conclusion of the year.

27c, 28c. Vocal Ensemble and Methods
Third year. Concentration of second-year work. Two hours per week. Credit of one semester hour to be awarded at conclusion of the year.

27d, 28d. Vocal Ensemble and Methods
Fourth year. Continuation of third-year work. Two hours per week. Not a credit course.

No more than twelve semester hours in Music may be counted toward graduation.

Philosophy

Professor Mattern
Associate Professor Creager
Assistant Professor David Baker

The primary aim of the Department is to cultivate a sensitivity to criticism, to the weighing of evidence, the drawing of inferences, and the becoming aware of latent assumptions.

The secondary aim is to have the student read some of the writings of the philosophers so as to see for himself how philosophical problems spring from common sense opinions. It is hoped that such training may better enable the student to integrate the knowledge he has acquired in other departments.

One three-semester-hour course in Philosophy is required of every student for graduation.
Courses in Philosophy are open to third-year and fourth-year students, with the exception of Course 6. Course 6 is open also for second-year students.

Courses 5 and 6 are designed for students who do not plan to elect advanced courses in Philosophy.

1. *Introduction to Philosophy*  
   DR. MATIERN  
   A preliminary course designed to give to the student orientation with reference to the field and problems of philosophy. Three hours per week. *Three semester hours.*

2. *Modern Philosophical Problems*  
   DR. MATIERN  
   This course is continuous with Course 1, but is a more intensive study of certain problems outlined in Course 1. Prerequisite, Course 1. Three hours per week. *Three semester hours.*

3. *History of Ancient and Medieval Philosophy*  
   DR. MATIERN  
   This course is designed to assist the student in his interpretation of modern thought-currents by means of a history of the evolution of reflective thought from Thales to Descartes. Three hours per week. *Three semester hours.*

4. *History of Modern Philosophy*  
   DR. MATIERN  
   This course is a continuation of Course 3, beginning with Descartes and tracing the modern development to present philosophical tendencies. Prerequisite, Course 3. Three hours per week. *Three semester hours.*

5. *Ethics*  
   DR. MATIERN  
   A study of the principles of moral judgment, with exposition and criticism of the more important theories concerning the basis of distinction between right and wrong conduct; the various problems of theoretical and practical ethics. Papers by students. Three hours per week. *Three semester hours.*

6. *Logic*  
   DR. MATIERN  
   A study of the guiding principles involved in correct thinking; the use of terms; classification; the nature of deductive inference with special reference to fallacious forms of reasoning as they receive expression in daily life; the canons of inductive inference; the basic concepts in scientific method. Three hours per week. *Three semester hours.* Course 6 is open to second-year students.

7. *Philosophy of Religion*  
   DR. CREAGER, DR. DAVID BAKER  
   A philosophical study of religious beliefs and practices in order to ascertain the nature and value of religion. Particular attention is given to questions involving the nature and reality of God, the problem of evil and suffering, free will, and immortality. Prerequisite, third-year standing. *Offered in both terms.* Three hours per week. *Three semester hours.*

**PHYSICAL EDUCATION**

See under *Health and Physical Education.*
COURSES OF INSTRUCTION

PHYSICS

PROFESSOR HEILEMANN
ASSOCIATE PROFESSOR SYNDER
ASSISTANT PROFESSOR MARSTELLER

The courses in Physics are designed to furnish the student with a groundwork of as much of the material of physics as time will permit. Stress is laid upon methods of analysis and presentation of ideas. It is hoped in this way to make the student conversant with the methods of Physics, to develop in him the ability to study independently and to transmit his ideas to others.

Students majoring in Physics must take the following courses: Physics 1, 2, 3, 4, 5, 6, 7, 8; Mathematics 29, 30, 31, 32, 39, 40, 43, 45; Chemistry 101, 102.

Students majoring in Physics who are preparing to teach in secondary schools may substitute courses in Education for the following courses: Physics 7, 8; Mathematics 21.

NOTE: Students who complete the integrated course in General Chemistry, General Physics and Mathematics (CMP267-1, 2) will satisfy the requirement for the following combination of courses: Chemistry 101-2, Physics 1-2, and Mathematics 29-30. See page 103.

1. General Physics
   DR. HEILEMANN, DR. SYNDER, MR. MARSTELLER
   Elementary mechanics and heat. Physics is presented not only as a science having practical application to everyday life, but as an example in itself of general scientific method. Prerequisite, Mathematics 1, 2, or high-school trigonometry and a satisfactory rating in the Mathematical Aptitude section of the CEEB test or in some test of a similar nature. Although not a requirement, Mathematics 29 and 30 are strongly urged, to be pursued concurrently if not already completed. Three hours lecture and three hours laboratory per week. Four semester hours.

2. General Physics
   DR. HEILEMANN, DR. SYNDER, MR. MARSTELLER
   Elementary sound, light, electricity and magnetism. Prerequisite, Physics 1. Three hours lecture and three hours laboratory per week. Four semester hours.
   Admission to advanced courses depends upon the quality of work done in the elementary course.
   Students intending to elect any of the advanced courses are asked to confer with the instructor during the year prior to that in which the course is to be taken, in order that a satisfactory schedule may be arranged.

3. Mechanics: Statics and Dynamics
   DR. HEILEMANN
   Plans and space force systems; concurrent forces; moments; center of gravity; friction; motion; curvilinear motion; projectiles; D'Alembert's Principle; moment of inertia; equilibrium of a rigid body; kinematics; Newton's Laws; work and energy; harmonic motion rotation about a fixed axis; torsion pendulum; compound pendulum; coupled systems. Prerequisite, Mathematics 29 and 30. Three hours lecture and three hours laboratory per week. Four semester hours.

4. Electricity and Magnetism
   DR. SYNDER
   Gauss's Theorem; potential; capacity; electric and magnet circuit; Kirchhoff's Laws; inductance; alternating currents; electrical machinery; elements of electronics. Prerequisite, Mathematics 29 and 30. Three hours lecture and three hours laboratory per week. Four semester hours.

5. Optics
   MR. MARSTELLER
   Image formation systems of lenses and mirrors; dispersion; spectra; interference and
diffraction; polarization; origin of radiation; effects of radiation; applications. Three hours of lecture and three hours laboratory per week. **Four semester hours.**

6. Sound  
**DR. HEILEMANN**  
The nature of sound, the physical basis of music, speech, and hearing; acoustics of buildings; methods of sound transmission and reproduction, and study of distortion; diffraction and interference; applications. Three hours lecture and three hours laboratory per week. **Four semester hours.**

7. Modern Physics  
**DR. SNYDER**  
The elementary charged particles; electromagnetic radiation; waves and particles; elementary theory of the hydrogen atom; atomic spectra and electron distribution; natural radioactivity; nuclear disintegration; nuclear energy. Prerequisite, Mathematics 31. Three hours per week. **Three semester hours.**

7a. Laboratory in Modern Physics  
**DR. SNYDER**  
Laboratory work (optional) for Course 7. Three hours per week. **One semester hour.**

8. Modern Physics  
Continuation of Course 7. Three hours per week. **Three semester hours.**

8a. Laboratory in Modern Physics  
**DR. SNYDER**  
Laboratory work (optional) for Course 8. Three hours per week. **One semester hour.**

9. Research  
**STAFF**  
Special studies, usually of an experimental nature, pursued independently by the student. The preparation of a summarizing report is required. Before a student registers for this course he must have the assent of a member of the physics staff to serve as his adviser. **One semester hour.**

10. Research  
Continuation of prerequisite Course 9. **One semester hour.**

11. Astronomy  
**MR. MARSTELLER**  
Facts and theories concerning the appearance, dimensions, notions, and interrelations of celestial bodies. Prerequisite, Mathematics 1 and 2 or its equivalent and some knowledge of physics. Three hours per week. **Three semester hours.**

12. Astronomy  
Continuation of Course 11. Three hours per week. **Three semester hours.**

14. Alternating Currents  
**DR. SNYDER**  
Capacitative and self-inductive circuits; mutual induction; the alternating-current circuit; alternating-current power and power factor; divided circuits; application of complex numbers; electro-magnetic waves. Prerequisites, Physics 4 and Mathematics 31. Three hours per week. **Three semester hours.**

15. Elements of Mathematical Physics  
**DR. SNYDER**  
Introduction to selected concepts and techniques of theoretical physics; vector and tensor analysis, differential equations, LaGrange’s equations, Laplace transforms, Fourier analysis, boundary value problems for the diffusion equation, heat flow equation, wave equation, calculus of variations. Prerequisites, Physics 1, 2, 3, 4; Mathematics 29, 30. Mathematics 39, 40 and 43 although not prerequisites should be pursued concurrently. Two hours per week. **Two semester hours.**

16. Elements of Mathematical Physics  
Continuation of prerequisite Course 15. Two hours per week. **Two semester hours.**
COURSES OF INSTRUCTION

POLITICAL SCIENCE

PROFESSOR E. H. MILLER
ASSOCIATE PROFESSOR ZUCKER

The objectives of the Department of Political Science with relation to the general student are:

1. To help the student attain an appreciation of both the theory and the functioning of politics.
2. To aid the student in developing the faculty of critical thinking and objective attitudes.
3. To teach the student those values that sustain faith in freedom.

The professional objectives are:

1. To prepare students for graduate work in political science and the law.
2. To prepare students for the examinations for both the domestic civil service and the foreign service.

In addition to History 1-2 and Political Science 1-2, which are required for graduation under the general college requirements, students majoring in Political Science must take an additional sixteen (16) hours of Political Science (Political Science 5, 6 and ten elective hours); History 13-14; Economics 3,4; Sociology 1-2.

It is recommended that Political Science 1-2 be taken in the first year, Political Science 5, 6 and Economics 3,4 in the second year, and History 13-14 in the third year.

1. American Government
   DR. PANCOAST, DR. ZUCKER
   An analysis of the structure and functions of American national and state governments. Three hours per week. *Three semester hours.*

2. American Government
   Continuation of Course 1. Three hours per week. *Three semester hours.*

3. Municipal Government and Administration
   DR. PANCOAST
   The legal power and position of the city in our political system. Thorough consideration of forms and activities of city government. Three hours per week. *Three semester hours.*

4. Political Parties
   DR. PANCOAST
   Both structural description and functional analysis of American political parties. The organization, work, leaders, and place of political parties in our democracy are considered at length. Three hours per week. *Three semester hours.*

5. Comparative Government
   DR. MILLER
   A detailed comparison of the Cabinet and Presidential systems, as exemplified by England and the United States. Three hours per week. *Three semester hours.*

6. Comparative Government
   DR. MILLER
   The study is extended to other representative governments, including France, Germany, Italy, Russia and Japan. Three hours per week. *Three semester hours.*

7. Political Theory
   DR. ZUCKER
   Significant political ideals, forces, and concepts from Plato to the present. Three hours per week. *Three semester hours.*
8. Constitutional Law  
Dr. Pancoast  
Historical backgrounds and principles formulated by the United States Supreme Court receive special emphasis. In addition to a textbook, extensive use is made of case studies. Three hours per week. *Three semester hours.*

9. Public Administration  
Dr. Pancoast  
A survey of the field of public administration, emphasizing administrative organization, fiscal management, and personnel management. The administrative process is considered as a unit encompassing federal, state, and local administration. Three hours per week. *Three semester hours.*

10. American Political Theory  
Dr. Zucker  
Main currents in American political thought from the seventeenth century to the present. Three hours per week. *Three semester hours.*

*11. Seminar in Political Science*  
Dr. Miller  
Selected topics in international organization and international relations. Two hours per week. *Two semester hours.*

*12. Seminar in Political Science*  
Dr. Miller  
Continuation of Seminar in Political Science 11. Two hours per week. *Two semester hours.*

**PSYCHOLOGY**  
Professor Fletcher  
Dr. Kirkpatrick  
The Department of Psychology is guided in its offerings and activities by two sets of objectives: (1) For the student majoring in areas other than Psychology, the introductory course for all, and Abnormal Psychology and Mental Hygiene for many, endeavor to show the growth of modern psychology and an understanding of adjustments used in maintaining mental health; and (2) an attempt is made to present a composite view of the main phases of present-day psychology, which is based on a broad foundation in social science and the biological sciences.

Students majoring in Psychology must take the following courses: Biology 3, 21, 22; Mathematics 1-2, 13-14; Economics 3-4; Political Science 1-2 and Sociology 1-2; Psychology 1, 4, 8, 9, 10, 12, 14, 31, and 32. Students who plan to continue the study of Psychology at the graduate level are strongly urged to include in their schedules Mathematics 29, 30; Biology 17-18; Philosophy 3-4 and Physics 1-2.

*This course is not offered in 1964-1965.*  
†Open only to third-year and fourth-year students.
1. **Elementary Psychology**  
**DR. FLETCHER, DR. KIRKPATRICK**  
An introductory study of mental life and accompanying types of human behavior. Three hours per week. *Three semester hours.*  

Course 1 must be taken during the first semester of the second year by all students preparing to become teachers.

4. **Social Psychology**  
**DR. KIRKPATRICK**  
A study of group action and of the group influences by which the individual is surrounded; tradition, custom, public opinion, and other psychological and social forces which affect individual judgment and action. Three hours per week. *Three semester hours.* Permis­sion of the instructor is required for admission to the course.

8. **Mental Health and Abnormal Psychology**  
**DR. FLETCHER**  
The problem of mental health is treated under the following topics: The dynamics of human behavior, normal and abnormal reactions to frustration and conflict. Psychological, organic, and social causes of poor mental health. The roles played by the home, the school, and society in mental health. Additional topics include psychoneuroses and functional psychoses, epilepsy, drug addiction, and alcoholism. Methods of prevention and treatment of mental illness are discussed. This course is given from the point of view of preventive mental hygiene. Three hours per week. *Three semester hours.*

9. **Educational and Psychological Tests and Measurements**  
**DR. FLETCHER**  
An introductory survey of the field of measurement in education, including measurement of intelligence and school results; main features of the technique of testing and test construction; types of tests and scales; evaluation; interpretation; use. Prerequisite, Courses 31, 32. Three hours per week. *Three semester hours.* (The same course as Education 9.)

10. **Elementary Experimental Psychology**  
**DR. KIRKPATRICK**  
This course is designed to acquaint the student with laboratory techniques used in psychology. Limited to and required of all majors in psychology. Lectures, demonstrations, individual experiments and the preparation of scientific reports. Two hours lecture and four hours laboratory. *Four semester hours.*

12. **Psychology in Industry**  
**DR. FLETCHER**  
This course deals with the application of psychological techniques and principles to the problems of industry. Emphasis is given to individual differences, aptitudes and skills, job evaluation, merit rating, work methods, training programs, fatigue, accident control, safety education, incentives, employe attitudes, morale, the interview and related employment methods. Three hours per week. *Three semester hours.* Permission of the instructor is required for admission to the course.

14. **Seminar in Psychology**  
**DR. FLETCHER**  
A course designed to acquaint the student with current trends in theoretical and applied psychology. Emphasis will be given to the preparation and presentation of papers on selected topics which will vary from year to year. Open only to fourth-year students majoring in psychology. One hour per week. *One semester hour.*

31. **Educational Psychology—Growth and Development**  
**DR. FLETCHER, DR. KIRKPATRICK**  
The nature of growth. The dynamics of personality development. The characteristics
31. Educational Psychology—Learning and Teaching  DR. FLETCHER, DR. KIRKPATRICK
The role of the teacher as a professional person. The basic learning theory needed by teachers. The nature and conditions of learning. The development of learning units. Individual differences in mental ability and their educational implications. Mental hygiene in the classroom. (The same course as Education 32.) Three hours per week. Three semester hours.

PUBLIC SPEAKING
ASSISTANT PROFESSOR KERSHNER

3. Public Speaking
Composition and delivery of various types of speeches, with group criticism and discussion. The class will be organized and conducted according to the rules of parliamentary procedure. Prerequisite, English Composition 1, 2. Two hours per week. Two semester hours.

4. Public Speaking
Continuation of Course 3. Prerequisite, Public Speaking 3. Two hours per week. Two semester hours.

5. Debating
This course is organized for both beginners and advanced students who are interested in debating in intramural and intercollegiate tournaments. Open to third-year students who have completed Public Speaking 3 and 4, or who have been members of the Debating Club for at least one year. The course may be repeated for credit in the senior year. One hour per week. One semester hour.

6. Debating
Continuation of Course 5. One hour per week. One semester hour.
Note: All students in the College may participate in the activities of the extra-curricular debating society without being enrolled in Courses 5 and 6.

RELIGION
ASSOCIATE PROFESSOR CREAGER
PROFESSOR DONALD BAKER
PROFESSOR ARMSTRONG

PROFESSOR MATTERN
ASSISTANT PROFESSOR SCHELLHASE
ASSISTANT PROFESSOR DAVID BAKER

The aim of the Department of Religion is to give opportunity for a scholarly and reverent study of religion, centering attention primarily upon the Hebrew-Christian tradition. The courses in the English Bible are considered basic to a liberal education. Philosophy of Religion, Church History, and Christian Classics are courses offered to afford opportunity for students to deepen their interest in the "heart truths" of religion. The department directs a religious program, led by students, which includes
worship, service projects, counseling and discussion. The unique nature of our College lays responsibility upon every member of the faculty, administration, and student body to lend support to these objectives.

1. Introduction to the Literature of the Bible: Old Testament  
   MR. SCHELLHASE  
   An appreciative and historical study of the Bible, with a view to discovering its origin, nature, and significance in the life of today. Three hours per week. Three semester hours.

2. Introduction to the Literature of the Bible: New Testament  
   MR. SCHELLHASE  
   Three hours per week. Three semester hours.

4. Christian Classics  
   DR. CREAGER  
   Readings in the classics of Christian literature including the writings of such men as Augustine, St. Francis of Assisi, Thomas a Kempis, Fox, Law, Baxter, Woolman, and Temple. Three hours per week. Three semester hours. (This course alternates in the Spring Term with Religion 6.)

6. History of the Christian Church  
   DR. CREAGER  
   A study of the development of the Christian church from the apostolic period to modern times, with a view to understanding the nature and extent of its contribution to society. Three hours per week. Three semester hours. (This course alternates in the Spring Term with Religion 4.)

The following related courses are recommended to students interested in the study of religion.

HISTORY
4. The Renaissance and the Reformation  
   DR. ARMSTRONG
31, 32. Seminar in American History  
   DR. ARMSTRONG
   (This seminar is especially recommended to students interested in the study of religion in the semester when the content of the seminar is devoted to church history.)

PHILOSOPHY
5. Ethics  
   DR. MATTERN
   Three hours per week. Three semester hours.

PHILOSOPHY
7. Philosophy of Religion  
   DR. CREAGER, DR. DAVID BAKER
   Three hours per week. Offered in both terms. Three semester hours.

GREEK
8. New Testament Greek  
   DR. DONALD BAKER
   Three hours per week. Three semester hours.

*This course is not offered in the Spring Term of 1965.
Reading ability and an understanding of the foreign culture comprise the scope of the first two year's work.

Students who advance beyond courses numbered 4 receive further instruction in conversation, composition, and the literatures of the respective languages. The goal of this teaching is to develop faculties of critical and esthetic judgment.

**FRENCH**

French majors must meet the following requirements:

French 5, 6, 9, 15, 16; History 3, 4 or 5, 6. It is recommended that Latin 1, 2, 3, 4 (or equivalent, i.e., four years of Latin in secondary school) be taken.

One of the following courses: French 7, 8, 10;

Two of the following courses: French 11, 12, 13, 14.

1. **Elementary French**
   
   Three hours per week. *Three semester hours.*

2. **Elementary French**
   
   Prerequisite: French 1. Three hours per week. *Three semester hours.*

3. **Intermediate French**
   
   Prerequisite: French 2 or equivalent (i.e., satisfactory completion of two years of French in secondary school). Three hours per week. *Three semester hours.*

4. **Intermediate French**
   
   Prerequisite: French 3. Three hours per week. *Three semester hours.*

5. **Survey of French Civilization and Literature**
   
   The development of French life, arts and literature from the Middle Ages to the Revolution. Tapes and slides showing French cultural life from origin to modern time. Three hours per week. *Three semester hours.*

6. **Survey of French Civilization and Literature**
   
   A continuation of Course 5; from 1789 to the present. Three hours per week. *Three semester hours.*

7. **Rabelais, the Pleiade, Montaigne**
   
   Two hours per week. *Two semester hours.*

8. **Corneille, Racine**
   
   Two hours per week. *Two semester hours.*

9. **Moliere**
   
   Two hours per week. *Two semester hours.*

*This course is not offered in 1964-1965.*
COURSES OF INSTRUCTION

*10. **Voltaire, Rousseau**
Two hours per week. *Two semester hours.*
Courses 7 and 8 alternate with Courses 9 and 10.

*11. **Seminar in French Literature 1800-1860**
Three hours per week. *Three semester hours.*

*12. **Seminar in French Literature**
Prerequisite: French 11. Three hours per week. *Three semester hours.*

13. **Seminar in French Literature since 1860**
Three hours per week. *Three semester hours.*

14. **Seminar in French Literature**
Prerequisite: French 13. Three hours per week. *Three semester hours.*
Courses 11 and 12 alternate with Courses 13 and 14.

15. **Advanced Grammar**
Two hours per week. *Two semester hours.*

16. **Oral French**
Two hours per week and additional laboratory work. *Two semester hours.*

*21. **Conversation**
Prerequisite: French 16 and permission of the instructor. Two hours per week. *Two semester hours.*

SPANISH

Spanish majors must meet the following requirements:
Six hours of advanced Spanish composition and conversation and fourteen hours of Spanish literature (Students planning to teach shall take three hours of advanced grammar in second semester of the senior year and will be permitted to take only eleven hours of literature).

1. **Elementary Spanish**
Three hours per week. *Three semester hours.*

2. **Elementary Spanish**
Prerequisite: Spanish 1. Three hours per week. *Three semester hours.*

3. **Intermediate Spanish**
Prerequisite: Spanish 2 or equivalent (i.e., satisfactory completion of two years of Spanish in secondary school). Three hours per week. *Three semester hours.*

4. **Intermediate Spanish**
Prerequisite: Spanish 3. Three hours per week. *Three semester hours.*

9. **Spanish-American Literature**
Prerequisite, Spanish 14 or permission of the instructor. Two hours per week. *Two semester hours.*

*This course is not offered in 1964-1965.*
10. *Spanish-American Literature*  
Prerequisite, Spanish 14 or permission of the instructor. Two hours per week. *Two semester hours.*  
Courses 9 and 10 alternate with Courses 125 and 126.

13. *Advanced Composition and Conversation*  
Three hours per week. *Three semester hours.*

14. *Advanced Composition and Conversation*  
Three hours per week. *Three semester hours.*  
Courses 5 and 6 alternate with Courses 13 and 14.

*121. Spanish Theatre Since 1800*  
Prerequisite, Spanish 14 or permission of the instructor. Three hours per week. *Three semester hours.*

*122. Spanish Prose Since 1800*  
Prerequisite, Spanish 14 or permission of the instructor. Three hours per week. *Three semester hours.*

123. *Theatre of the Siglo de Oro*  
Prerequisite, Spanish 14 or permission of the instructor. Three hours per week. *Three semester hours.*

124. *Prose of the Siglo de Oro*  
Prerequisite, Spanish 14 or permission of the instructor. Three hours per week. *Three semester hours.*  
Courses 123 and 124 alternate with Courses 121 and 122.

125. *Spanish Lyric Poetry*  
Prerequisite, Spanish 14 or permission of the instructor. Two hours per week. *Two semester hours.*

126. *Medieval Spanish Literature*  
Prerequisite, Spanish 9, 10, 121, 122, 123, 124, 125, or permission of the instructor.  
Two hours per week. *Two semester hours.*

128. *Advanced Grammar*  
Intended primarily for Spanish majors who plan to teach. Prerequisites, Spanish 14 and at least one year of a Spanish literature course. Three hours per week. *Three semester hours.*

**RUSSIAN**

1. *Elementary Russian*  
Grammar, conversation, reading. Three hours per week. *Three semester hours.*

2. *Elementary Russian*  
Continuation of Russian 1. Emphasis upon reading and conversation. Three hours per week. *Three semester hours.*

3. *Intermediate Russian*  
Grammar review, reading, conversation. Three hours per week. *Three semester hours.*

4. *Intermediate Russian*  
Continuation of Russian 3. Emphasis upon reading and conversation. Three hours per week. *Three semester hours.*

*This course is not offered in 1964-1965.*
SOCIOLOGY

DR. J. A. MILLER

1. Introduction to Sociology

A course designed to give the student a more scientific understanding of man's social nature and of the social world in which he lives. In addition to fundamental concepts and theories particular attention is focused on problems arising from race relations and personality disorganization. Not open to freshmen. Three hours per week. Three semester hours.

2. Introduction to Sociology

A continuation of Sociology 1. Problems to which particular attention is given include urbanization, public opinion and propaganda, marriage and the family, and crime and delinquency.

Prerequisite, Course 1. Three hours per week. Three semester hours.

EXPERIMENTAL PROGRAM

CMP 267-1. Integrated General Chemistry, Mathematics, and General Physics

DR. STURGIS, DR. STAIGER, DR. SNYDER, MISS SCHULTZ

A combined course of general chemistry, analytical geometry, calculus, and general physics which avoids repetition and takes advantage of the complementary nature of these subjects. As the calculus is developed it is utilized in the presentation of the concepts of chemistry and physics. A knowledge of the elements of trigonometry is assumed.

It includes a study of the basic theories and laws of chemistry covering the common elements of the periodic system, their interactions and energy relationships. The mathematics portion is an integrated study of analytic geometry and calculus with respect to functions of one variable. The coverage is equivalent to the content of Mathematics 29. Elementary mechanics and heat comprise the physics content. Emphasis is placed on gaining an understanding of basic concepts of physics. An attempt is made to foster an analytical approach to the sciences through the application of mathematical and physical principles to physical problems.

Seven hours of lecture; two three hour laboratories, one in chemistry and one in physics, per week. Nine semester hours.

CMP 267-2. Integrated General Chemistry, Mathematics, and General Physics

DR. STURGIS, DR. STAIGER, DR. SNYDER, MISS SCHULTZ

A continuation of course 267-1. The chemistry content is a study of the oxidation states of the common elements, chemical equilibrium, solubility and pH. The chemistry laboratory work deals with the qualitative separation of the common cations and anions. The mathematics portion is a continuation of the study of analytic geometry and calculus. It is equivalent to Mathematics 30. The physics subjects covered include sound, light, electricity and magnetism.

Prerequisite, course 267-1. Completion of course 267-2 is prerequisite for subsequent chemistry and physics courses and satisfies the prerequisite for Mathematics 31. Seven hours of lecture; two three-hour laboratories, one in chemistry and one in physics, per week. Nine semester hours.
