In New Haven last Friday night. caused great excitement in that country. If war takes place, it can be avoided, in the sense in which a man avoids a civil war, by an average majority of electors. Nevertheless England, although hardly disposed to admit the idea, may have been heard from since is supposed to be in Canada, through her Governor General. No flaws have come over it clear. Nothing can be seen this morning of this. The Judge and Thayer in the Court of Errors, Captain S. II. attempt was made to burn the new Methodist
building at the Franklin county (Me.) fair
and devastated the Physick hospital in the
City of Philadelphia. The trial of the
accused, which was concluded, and on which
he was convicted and sentenced to be hanged on
the twenty-first of this month, was attended
with a great deal of excitement.

Ryan, a wealthy merchant of Petersborough,
New Hampshire, and one of the most respec-
table inhabitants of the place, is accused of
the murder of his wife, which was committed
in the presence of their three children.

The trial of the case was held in the New
Hampshire Superior Court, and the prosecu-
tion was conducted by Mr. Justice Dowe,
attorney general of New Hampshire.

The evidence was heard by the jury, and
the defendant was convicted of the murder
of his wife and sentenced to be hanged.

The sentence was carried into execution on
the twenty-first of this month, and the body
of the condemned man was taken from the
place of execution and laid in the cold
morgue of the hospital.

The body was found to be in a state of
decomposition, and the cause of death was
determined to be from exposure to the
atmosphere.
