BY JILL LEAUBER

On Friday, April 13, forty-seven Ursinus students carrying suitcases and boxes of belongings moved into Presbytery Hall on a bus for a five-day musical experiment known as the "New Yorker Critic Graduation Speaker".

The journey began in the morning with the respondents claiming their space, and by late afternoon, the room was filled with the sights and sounds of a typical New York Cityatti...
Letters To The Meekness?

To the students:

Since Mr. Fegely has blundered with his opinion about "the largely under­
valued personality of the student," I thought I might offer my viewpoint would be appropriate.

There is an opinion that there is anything distinct in publishing an anonymous cri­
quise about someone, anything, anonymity reveals a cer­
tain indecency. Perhaps it is so, but, along with a few other members of the administration, ad­
tends to ignore the fact that often the au­
tives were not exactly pristine.

Since there is categorically not associated with the distribution of the Rules and Customs, the distribu­
tion is not necessarily a measure of

For instance, it's no accident that a majority of pro­professional faculty (who are generally dis­satisfied with the attitudes and policies of a few trivial, and so generally fearful that those people who are too public with their views, who perhaps are afraid of the possibilities for retaliation inherent in doing so, may find it worthwhile to read the Rules and Customs, you

Conflicts Simulation Activities

BY BRANT

Offering an alternative method of learning about political, economic, and social life, the Political Science and Social Studies Department has organized a Conflict Simulation Activities (CSA) program. This simulation allows students to engage in a series of interactive and engaging scenarios that reflect real-world situations. Participants are divided into teams, each representing a different political or social group, and are tasked with making decisions that impact the outcome of the simulation.

The CSA program is designed to promote critical thinking, problem-solving, and effective communication among participants. It encourages students to consider the perspectives of others and to work collaboratively to find solutions to complex issues.

For more information or to participate, contact your instructor or the CSA coordinator.

Observe Observer

Inexpensive or Just Plain Cheap

BY MARY L. HARTSHORE

During my four years here, I've heard and read about the costs of college, and how it's just not worth it. But what about people who can't afford it? What are some affordable alternatives?

Before I begin, I want to clarify that these suggestions are based on what I can afford. I have to balance my time between studying and working, so my ability to travel or participate in extracurricular activities is limited.

When it comes to college costs, here are some tips to consider:

1. Scholarships: Look into scholarships offered by your college or university. Many are based on academic performance, financial need, or specific demographics.

2. Work-Study: Participating in a work-study program can help defray the cost of tuition. This option allows you to work on campus while earning credits.

3. Online Courses: Consider enrolling in online courses. Many colleges offer lower tuition rates for in-state residents.

4. Community College: Starting at a community college can save you money, and then transferring to a 4-year institution once you've earned enough credits.

5. Living Expenses: Look into ways to reduce living expenses. Sharing a living space with roommates, cooking at home, and using public transportation can all help you save money.

While these tips may not completely eliminate the cost of college, they can certainly make it more affordable. And remember, there are always scholarships and financial aid options available. So don't let the cost of college be a barrier to your education.

THEATRE

Actors Comment

BY ALAN E. STEETLER

With the numerous students involved in the ProTheatre classes, the Theatre Department is always in need of eager volunteers and staff of Ursinus. This list includes: Student actors, stage managers, technical crew, and staff members.

Each of these individuals plays an important role in the success of the show, and they should be celebrated for their contributions.

The Union is another example of the collaborative nature of public relations. In addition to the students who create the show, there are numerous people who ensure the smooth operation of the event.

I have always been impressed by the dedication and hard work that goes into creating a union. It's not just about putting on a show; it's about creating a space for the community to come together.

I am grateful to be a part of this community and to work with such wonderful people. Thank you for your continued support.

A few words about the cost of college:

1. College is expensive. There is no denying it. The cost of tuition, room and board, books, and other expenses can add up quickly.

2. There are ways to reduce the cost of college. Some options include scholarships, work-study programs, and online courses.

3. It's important to budget your money wisely. Make a plan and stick to it. Don't overspend on non-essential expenses.

4. Consider living with roommates. This can help reduce living expenses and make college more affordable.

5. Remember, the cost of college is an investment in your future. It may be tough now, but it will pay off in the long run.

The cost of college is a reality that many students and parents face. However, there are steps that can be taken to make it more affordable. By making informed decisions and being proactive, we can navigate this challenge and achieve our goals.

2 GAMES, 2 LOSSES

By JOE SARACO

Ursinus baseball team failed to pull off the big upset on Saturday, April 26, dropping two games to Westminster College. The doubleheader was a MAC league game, and Ursinus's 0-1 victory clinched a playoff spot for the Yeomen. Ursinusconsistently hit the ball well, scoring six in the second, six in the third, and five in the ninth. However, the defense was suspect in the second and third games, giving up five runs in both.

Foci: Steve Fisher

By KEVIN GAULT

Q. What is your opinion of the sports programs at Ursinus?
A. There should be changes in the administration in order to improve the programs. A major concern is the lack of facilities and money to support the sports programs. Ursinus should invest more in equipment, building maintenance, and coaching salaries. The intramural program has potential, but it is not being utilized to its full capacity. The junior varsity also needs more attention and support.

Lacrosse Lookout

Half way through the spring season of 1973, we have a team that can boast a record of 6-1. The heroes of the team are the defense, midfield, and attack. The defense is strong and has the ability to win games. The midfield is fast and has great ball control. The attack is led by two seniors, John Schild and Tom McCloud.

Tennis Time

The Ursinus Men's Tennis team split with Westminster College. Ursinus has a strong team, but they need to work on their consistency. The doubles teams were strong, but the singles players need to improve. The team's strong points are their speed and footwork.

Flyers Go For Cup!

By JOE SARACO

Last year the Flyers won their quarter-final playoff series against Atlantic City. This year, they are looking to take the final game in overtime. This year they did the exact same thing to Toronto. Last year, the Flyers were able to come back from a two-goal deficit in the semi-finals. This year, they are playing New York. However, the Flyers have been struggling in recent games. It seems that time is the Islanders, the Rangers, who are the opposition.

The intramural program is very successful at Ursinus College. It provides a great opportunity for the student body to participate in sports and other activities. The program is open to all students and is inclusive. The intramural program is a great way to stay active and make new friends.
