March 30, 1970

Dear Miss Snell,

Whenever I make an appearance at our local High School, the physical education teacher always greets me with, "Don't you want to stop by and sniff the locker room?" It's a standing joke, nostalgic only to "old" phys. educators, and I love it as I make the rounds of a gym and a locker room much more spacious and up-to-date than the one in Bridgeville, Delaware where I made my teaching debut. As with all nostalgia,

the years fall away and I remember
back to Ursinus College 1938-1942.

I don't suppose you have ever
had a less athletic physical
Education major than Judy Boqq!
In retrospect, it seems I might
have been much more suited to
art or writing or almost anything
else we could name. And yet,
those four wonderful years
helped shape my life. The
most memorable thing about
them was the emphasis on
sportsmanship and the dev-
elopment of an individual
far beyond the "interplay of
muscle" or skill on an athletic
field. I hope I was able to
impart this team spirit to my

Delaware students, who, by this time,
are teaching their own children!
Should this be true, the credit
goes to you, and I thank you now,
as I have many times, for your
superb example and influence.

May you find your retirement
years pleasant ones, secure in
the knowledge of a job well done.

My best wishes to you for
health and happiness in the
days to come.

Fondly,

Judy Dagg Hastings
