In Memoriam

By RUTH VON KIMMER

The college was deeply grieved last week by the death of a very dedicated member, Mr. Walter Woodrow Marsteller. Mr. Marsteller died at 1:00 a.m. on Friday, Sept. 19.

He was praised by both his faculty teachers and the students he taught for finding such interest in teaching. Mr. Marsteller attended Ursinus many times, and it was at the University of Pennsylvania in which he completed his master's degree.

Beginning in the fall of 1949, Mr. Marsteller taught courses at Ursinus in optics and astronomy, and he taught a class on Physics in all his life. He also had classes in Astrophysics and in general physical sciences. He attended the University of Pennsylvania for graduate school, but never completed his master's degree.

Mr. Marsteller was extremely interested in and knowledgeable about being an observatory at his home, he had an interest in both the southern and northern hemispheres. He also constructed a telescope at Ursinus and could see a telescope to remain for many years, and he used it to test his theories in other regions. His vision helped him to see new, creating viable opportunities to expand and expand the subject, as he says.

In recognition of his achievements, Marsteller was awarded a Rockefeller Foundation Grant to write the book "Designs of Cities," which was published in 1950.

Among the many awards Mr. Bacon received was the 1974 Gold Medal of the American Institute of Chariot Surveyors; the 1971 Pennsylvania College Planning Commission; and within three years he received the power to turn his dreams into reality as a result of a new city charter. His vision has helped him to see new, creating viable opportunities to expand and expand the subject, as he says.

In recognition of his achievements Bacon was awarded a Rockefeller Foundation Grant to write the book "Designs of Cities," which was published in 1950.

Along with court talent, a professional basketball franchise must have a strong front office organization. With General Manager Pat Williams and Coach Doug Collins, the Sixers have two of the East's best in the business. Shue took over the club after a 5-7 record in 1972-73 and has created a competitive team in just two seasons, even though it has yet to rise out of the Atlantic Division cellar.

Now, the common belief around the league is that the addition of Collins to the club is a step forward, and if Shue can play his own game, they may win a game power basketball they've been unable to do for many seasons.

Larry Dauks, the eighteen year old high school youngster from Orlando, Florida, is another potential blockbuster. Nicknamed "The Kid" or "The Next Kareem," the 6-10, 250 pound center has been feeding on his playing experience in the Baku league as well as getting daily individual instruction from assistant coach Jack McHale.

It remains to be seen how Dawkins can do in regular NCAA competition and how quickly he can hold his own. Shue will bring him along as rapidly as his play warrants. If he performs as well as the Sixers will become a dominant force.

The three Cs of the Sixers—Billy "The Kangaroo Kid" Cunningham, Fred "Mr. Basketball" Cavanaugh, and Doug Collins—lead the returning group. Billy was plucked by Shue last season, while Doug Collins, the University of Pennsylvania's top player, has been an integral part of the Sixers' success since 1974.

Cavanaugh has been an assistant coach with Cunningham and Collins, 76ers have one of the best freshmen in the country. With Collins and Collins, the Sixers have a very impressive team that can score (21.9 ppg) as he had his top career mark, 25.6, in 1980.
A Different Year?

By KELVIN LEIBENBERGER

It’s not unusual to feel that you’re accomplishing little or nothing of value during your time at college. Perhaps you feel as though you’re just passing the time until you graduate. You may have found that turning to your friends to make friends with them has been unthwarted. And yet, to this same campus, the return of college activity, it seems obvious that Ursinus “tradition” remains unthwarted. And yet, to this same campus, the return of a group of people with fresh ideas and hopes has begun to make a significant difference, which if fully developed might be the prelude to a more harmonious community in the days to come.

The changes which mark Ursinus this year can and should be attributed to its students. The newcomers, what can be termed, “a large freshman class,” have already shown a definite improvement in attitude. As the first week in October, they have demonstrated their willingness to make a significant difference, to be the concerned, functioning members of a college community. The past may take pride in seeing some of the ideas we have already in general than any textbook could ever contain. You’ll come to understand yourself better by learning to understand others.

If you wish to become a Pennhurst volunteer, move in formation on it, contact David Rose or Kevin Leibensperger, Room 101-B NMD, 449-1056 or Steve Horsman, Maple 8, 449-1999. Don’t say no without trying. All are welcome to go along once an afternoon with those currently doing volunteer work, just to see what Pennhurst is all about, with no further obligation to the program. If you can’t make it every week, go when you can. It is a feasible program, and every minute you can give is of great value. Please join us, and be someone helping someone.

New Dorms Renovated

By DAVID DEWITT

On September 13 in Winser Auditorium, William Petit talked to the students concerning the renovation project. Mr. Whatley introduced Dr. Petit with a few words that portrayed the “outright destruction” of the residence halls. He also mentioned the few years by a small minority of students.

When Dr. Petit began his talk, he mentioned that he could not honor this man whose loss will serve as a tribute in the eyes of his presence along with his many contributions toward the college. He will serve as a tribute in the eyes of those who knew him and many who never had that opportunity.

New dorms are being renovated on campus this year. The renovation of the new dorms is a $100,000 project. Dr. Petit said that it is now important to maintain the dorm in good condition over the years so that the donor will see his money is well spent. The cost of reconditioning the new dorms was $100,000, a gift from a friend of the college.

The Aurelius and Pennhurst renovations are complete. The Pennhurst renovation is complete as well. The Aurelius renovation is complete as well.

NEW EVENTS BY ALAN K. STErLE

The Walnut Street Theatre, located on South Main Street in Philadelphia, has begun to revive the tradition of new and distinctive events. The theatre is a non-profit organization that presents the best in drama and music, and it has established itself as a leader in the field. The theatre is committed to presenting a diverse range of productions that cater to a wide range of audiences.

The Walnut Street Theatre's first event of the season will be held Friday evenings at 8:00 p.m. at the theatre's location at 200 South Main Street. The event will feature live music and performances by a variety of artists. The theatre is open to the public, and admission is free.

For more information about future events at the Walnut Street Theatre, please visit their website at www.walnutstreettheatre.org or call 215-546-3131.

CHRIS HILLMAN RATED

By B. RANT

Barrie Fife, Byrds Brothers fan, does not find current country rockers to be head and shoulders above their forerunners. He particularly admired Chris Hillman's set of the week at The Main Point. Hillman's former band, The Byrds, Dillard and Clark, and newer band The Flying Burrito Bros. have been a favorite of Fife's since the first set of the week. Hillman's set at The Main Point on October 18 was a reunion of the band that was once known as The Byrds, ex-Burrito Chris Hillman, and drummer Pete Kleinow. It was a pleasant surprise for Fife, who had cancelled when Hillman had contracted hepatitis. The main event was a marathon of material, including songs from the band's second album, "Days of Rain." Hillman was unimpressed by the band's performance, and Fife was disappointed that the band's lack of energy did not improve throughout the evening.

The second set included material from The Souther, Hillman's band, and second and third studio albums, "The Best of Friends" and "The Bottom Line." Fife and other fans were disappointed with the band's performance, and Fife felt that the band's lack of energy did not improve throughout the evening.

Chris Hillman's greatness has something to do with being equally at ease both as a performer and as being featured on many albums. He is a well-known figure in the entertainment industry, and he has been recognized for his talent both as a solo artist and as part of a band.

The band opened the first set with "Lay Down Somewhere," a song that was popular during the band's time. Hillman's use of a pedal steel guitar was particularly impressive, and Fife was impressed by the way the band's performance improved throughout the evening.

The second set was highlighted by the band's performance of "The Best of Friends," which was particularly impressive. Fife was impressed by the band's performance of this song, and he felt that it was one of the highlights of the evening.

The band's performance of "The Bottom Line" was also notable, and Fife was impressed by the way the band's performance improved throughout the evening.

Fife was particularly impressed by the band's performance of "The Best of Friends," which was a highlight of the evening. He felt that the band's performance of this song was particularly impressive, and he was impressed by the way the band's performance improved throughout the evening.

The band's performance of "The Bottom Line" was also notable, and Fife was impressed by the way the band's performance improved throughout the evening.

The band's performance of "The Bottom Line" was also notable, and Fife was impressed by the way the band's performance improved throughout the evening.
Instructor Appointed To Biology Dept.

By LEONARD ULAN

Mary Blair Fields, a graduate student, is completing her doctoral studies in botany at Miami University, Oxford, Ohio. She was appointed instructor of biology at Ursinus College this summer.

She is teaching Genetics, Evolution, and Bacteria at the College of Atlanta, and is completing her master's degree in botany from Miami University. At Miami, she conducted experiments in botanical genetic mutations at the subcellular level. Continued experiments of this region are restricted by Ursinus lack of a radiation license. She does, however, plan to conduct other plant studies. Mrs. Fields is a member of the American Association for the Advancement of Science, the Botanical Society of America, the Environmental Mutagen Society, Genetics Society of America, the Ohio Academy of Science, Sigma Xi, Alpha Epsilon Delta, Sigma Xi and has been named to Who's Who in American Colleges and Universities.

She enjoys the flexibility and variety of teaching and believes that the friendly, positive atmosphere is what attracts her to Ursinus. Along with small changes to accommodate overcrowding, she feels labs would be a valuable addition to Genetics.

Dr. Albert C. Allen conducted an interesting screening process for applicants seeking the position Mrs. Fields holds. After hearing a lecture by an applicant, students were asked for their opinions concerning his or her general personality and lecturing techniques. Mrs. Fields was an outstanding favorite among the students.

May we extend congratulations and a warm welcome to Mary Fields.
Grad. Elect Officers

By J. CRAWFORD

The Ursinus College class of 1975 elected the following permanent officers on the recommendation of the Committee on Class Officers, according to Frank Smith, Assistant Registrar.

Class President is Geoffrey Higginbotham of Old Saybrook, Connecticut, majoring in biology, a junior, and a member of Alpha Phi Omega. He was awarded the George Ditter Prize and the W.C. Murphy Scholarship. Upon graduation he joined the staff of Ursinus as an administrative assistant to the President and a special assistant in student affairs, and is a son of Mr. and Mrs. Richard G. Wigger, 513 E. Waverly Ave., Route 1, Lincoln, Pa.

Class Secretary is Patricia Kennedy from Ft. Washington. She graduated with a bachelor of science degree, majoring in psychology, a junior, and is a daughter of Mr. and Mrs. Michael W. Kennedy, 1108 Hawthorne Rd., Ft. Washington.

Class Treasurer is Susan Cole, Morrisville, Pa., the loyalty fund chairman. She graduated with a bachelor of arts degree, majoring in psychology, and is a member of Phi Kappa Phi. She was awarded the St. Andrews scholarship in psychology and the St. Andrews scholarship in sociology.

Lee Rambo, Lincoln University Pa., was elected reunion chairman. She graduated with a bachelor of science degree in biology and was class president in her senior year. She is a daughter of Mrs. Isabel Andra Rambo, Route 1, Lincoln, Pa.

CHRIS HILLMAN RATED (Continued from Page 3, Column 5) 

Chris Hillman is not a guitar virtuoso; his classic number was a "just about the best in the business" version of his signature song. He has been called a "good sideman who should be listened to by his leader, Chris Hillman." His fingerpicking was clean and pleasant. His voice was clear and he was able to fill out the vocal part of the song. His playing was very well done. Chris Hillman is definitely a band leader in his own right and a valuable addition to the Hillman Band. His fingerpicking was clean and pleasant. His voice was clear and he was able to fill out the vocal part of the song. His playing was very well done. Chris Hillman is definitely a band leader in his own right and a valuable addition to the Hillman Band.

F & M Stings Bears 35-21

By GEORGE GEIST

Franklin and Marshall Undoubtedly the Ur- 
sinus football Bears opened up 
their 1973 season with a very re-
spectable 29-21 loss to M.A.C. pow-
erhouse Franklin and Marshall last 
saturday before a large, vocal and 
enthusiastic crowd at Lancaster's Willocum Field.

F & M, with a power offense which 
held the nation in scoring last year with 
a 41 point per game average, 
was unthrusted in their F & M attack.

Paced by returnees, full-
tack Tom Donaldson and halfback 
Ted D'Amico, this running game of the 
F & M Diplomates continuously 
ennamed ground for the 
afternoon 310 yards.

The Diplomates' first quarter 
showed a preview of their offensive 
potential. After an incomplete Joe Covito 
pass, F & M ran around end for 
eleven yards, which was followed by 
a fourteen yard stamep by 
Donaldson. Three successful 
by D'Amico and another 
Donaldson made it a 40 yard F & M 
Touchdown as the crowd 
ripped.
