U.C. German Prof Dies

Dr. George Wellington Harttall, 66, professor of German at Ursinus College, died yesterday, November 30, at his home after an illness of nearly two years.

Harttall was born in Bethlehem, Pennsylvania, and graduated in 1923 from Lehigh High School and from Lehigh University in 1929. He received a master's degree from the University of Pennsylvania in 1931.

From 1929 to 1932 he was in administrative work in high school and at Lehigh University, and while at the University of Pennsylvania he was named a Harrison Fellow.

During his career at Ursinus he received the Lindbach Award in 1965 for excellence in teaching.

Harttall "is deeply steeped in the history and culture of the German-speaking peoples," said the college. He was fond of quoting the language of the classics and literature.

He was the son of the late Wellington and Kathryn (Jordan) Harttall.

Harttall was survived by his widow, retired recently from a public school in the Philadelphia School District; three sons, Dr. Henry, of Boyertown; Robert E. Harttall, Sr., Sticks Park; William G. Harttall, Chester Springs; and seven (1929) grand-children.

The Funeral Home, St. Main St., Tredyffrin, is in charge of the arrangements.

Memorial gifts may be given to the George W. Harttall Memorial Fund, Ursinus College, Collegeville, Pa.

U.C.R. Prof. Dew 11/30

Three Named To Board

Three persons were appointed to the Board of Directors of Ursinus College for the term, bringing the total membership to 68 persons from various walks of life.

The Ursinus Board of Directors, November 20, at its former meeting in the college, announced the appointment of Mr. Frank W. Hartzell, chairman of the board, Mr. Marion H. Harttall, Jr., and Mr. Roscoe G. Harttall.

The Ursinus library is now open until midnight Sunday through Thursday. According to Mr. Broadbent, the extension of the library hours was brought about for a number of reasons. One important factor in that decision is the option of the Computer Center was just not open long enough to accommodate those who wished to use it.

At the start of the school year, Mr. Broadbent was approached by a number of people asking why the library wasn't open longer. He said the library staff discussed the problem and felt that if there was enough interest in the extension, the library should be open longer. In conjunction with the SPARC, it was ruled to run a survey to deter- mine which hour would be most popular.

Ursinus awarded him an honors bachelor of arts degree in June 1974. He joined the political career in the Washington area in 1931.

Hartzell was the son of the late Wel­

development of, the acres and building the necessary facilities. So

The College of William and Mary in Virginia is one of the oldest institutions of higher education in the United States. Founded in 1693, it has a rich history and has contributed significantly to the development of American education and culture. The college is renowned for its academic excellence and its role in shaping American society. The library is a vital part of the college, providing resources and support for students and faculty.
Inflation Urges Increase

Yesterday, the price of almost everything increased. To day, the price of those same items increased again. Tomor row, it seems the price of every other item which do not begin to suggest the prices required of our most basic needs food, clothing and shelter. We must also remember the commodities most people cannot live without modern wardrobes, personal objects, forms of entertainment or relaxation. The list is not only too long to continue; the mood could be described as one of panic or desperation.

A certain realization, however, can be drawn from this incontrovertible state of affairs. As the cost of everyday liv ing goes up for the individual, consider the substantial, almost sickening figures which threaten an institution with its wide spectum of expenses.

A program entitled the Century II Program for Academic Achievement conducted from 1970-1975 was one of the Ursinus College's efforts to raise money for their various costs. Efforts are being continued by a newly elected chairman, Dr. Thomas J. Bedlow '66, to supplement the program made through the previous five years.

However, this responsibility must also be borne by the students. In reference to the tuition increase of $400 set for September 1976, the student body should be willing to give their support as have various other groups in the past, alumni, corporations, parents and individuals, to name several. We demand recognition as a part of the college and we must be willing to accept such a responsibility.

For example, our fuel rate is going to rise tremendously. Not only do we need more money for normal maintenance and administration, but there are additional costs on our part. It is necessary for us to encourage our peers to assist us in this dire need.

In 1955 I proudly departed from Ursinus with a B.S. in psychology and a minor in philosophy (born Barn hart '54). Ursinus had been good to me, the price of those same items increased again. Tomor row, it seems the price of every other item which do not begin to suggest the prices required of our most basic needs food, clothing and shelter. We must also remember the commodities most people cannot live without modern wardrobes, personal objects, forms of entertainment or relaxation. TOO TALL STUBITS (Continued from Page 4, Col. 9) should also be willing to bend and see the students’ needs.
Q: What are your thoughts on the upcoming basketball season?
A: The season depends on how we put things together. Ability wise we have one of the most well-rounded teams in the league. We have eight or nine individuals who are capable of starting. Widener is over many other teams in the division.

The top two teams in the division have had a great deal of experience and a great deal of skill. The success of this summer job project has caused a great deal of excitement and interest both in America and Europe. Every year, the program has been expanded to include many more students and jobs. Already, many students have made applications for next summer jobs.

American-European Student Service (on a non-profitable basis) is offering these jobs to students from Georgia, Scandinavia, England, Austria, Switzerland, France, Italy, and Spain. The jobs consist of factory work, child care work (male only), farm work, hotel work (limited number available), construction work, and some other more qualified jobs requiring more specialized training.

The purpose of this program is to afford the student an opportunity to get into real living contact with the people and customs of Europe. In this way, a concrete effort can be made to learn something of the culture of Europe. In return for his work, the student will receive his or her room and board, plus a wage. However, students should keep in mind that they will be working on the European economy and wages will naturally be scaled accordingly.

The working conditions (hours, safety, regulations, legal protection, work permits) will be strictly controlled by the labor ministries of the countries involved.

In most cases, the employers have requested especially for American students. Hence, they are particularly interested in the student and want to make the work as interesting as possible.

They are all informed of the intent of the program, and will help the student all they can in driving the most from his trip to Europe.

Please write for further information and application forms to: American-European Student Service, Box 34733, FL 32011, Van der Linden (Europe).

SPARC MINUTES (Continued from Page 1, Col. 2) admitted in recent College history and was necessitated by the unprecedented rate of inflation in the cost of food. The statistics show that many colleges and universities are delaying or cutting announcements of their fall charges until the spring of the year because of the inability to project for a semester the impact of inflation on costs. Ur­

This was reported that tax dollars subsidized Urimus to some extent through PHEAA scholarship programs and the newly instituted institutional aid grant program. Urimus, however, has no arrange­ments with federally supported programs such as environmental engineering for women or ROTC.

Conference Proposal: There was a general discussion of the feeling of some students that they cannot satisfactorily lodge a complaint without first contacting the administration. The ideas expressed were the fol­lowing: Let SPARC itself be the organization for resolving administrative problems of students; let an occasional open meeting of administration­ers with students take place in a friendly but somewhat advisory atmosphere; the Center Coordinating Committee should set up visits of freshmen to administrators in their offices in Corson Hall and else­where; let small groups of students invite individual administrators to lunch for informal discussion; let the Center coordinating committee set up informal meetings for freshmen with college presidents; let the Center coordinating committee have an informal meeting for freshmen with faculty and stu­dents; and the students should generally agree that the less con­tact between an interested and staff can be, the better it will be.

Respectfully submitted:

**Sixers in '76?**

By WARREN FRITZ

The Team of The Year is in trouble. Yes, the Philadelphia 76ers have been eliminated from the playoffs without the services of veteran playmaker Billy Cunningham, out all season with a hip injury. But the Sixers will go into the season. Even though the Broad Street bullies are in second place in the tough Atlantic Division, they are in a good spot. They have a young, aggressive squad. The key man is new Sixer Frank Wolke, who led the Bears to second last year in scoring, and sophomore center and player Billy Cunningham, out all year with a hip injury. The Sixers are a good, deep squad.

**Our Other Team**

By ANDREW SCHWARTZ

The junior varsity basketball team continued as basketball games this year. The squad opened up their season with a convincing 67-51 victory over Haverford College. The victory was the second straight for the Bears.

Captain Braden Ross and Doug Collins and veteran Fred Carl were among the high men.
