U.S.G.A. Candidates State Election Views

By GEORGE GEIST and LEN ULAN

Vote: Today is Election Day, Ursinus style. This year, there is an exceptionally strong group of candidates to choose from, in line with an especially qualified four-year class of Ursinus seniors, and an especially skilled four-year class of Ursinus freshmen. Today I voted for Senator Ron Colombo as President of the U.S.G.A., a position he has held for the past four years.

Ron Colombo has a number of projects that he will pursue this year, including:

1. A change in the calendar year. This will mean that the current academic year will be separated into two semesters, with the first semester from September 1 to January 31, and the second semester from February 1 to May 31.

2. A revamp of the judicial process. This will involve the creation of a new board of justices to hear cases, and the establishment of a new appeals process.

3. A change in the U.S.G.A. constitution. This will include a new section on student government, and the establishment of a new committee to oversee the operation of the U.S.G.A.

4. A change in the membership of the Board of Directors. This will include the addition of new members to the board, and the establishment of new criteria for membership.

5. A change in the student body constitution. This will include the establishment of a new section on student government, and the establishment of a new committee to oversee the operation of the student body.

Overall, I think Ron Colombo is the best choice for President of the U.S.G.A. He has shown himself to be a strong leader, with a clear vision for the future of the U.S.G.A. He is also a hard worker, and has the ability to get things done. I believe that he will be an excellent President, and I look forward to working with him in the future.

Larry Dalaker: The problem is one that the students and the student government have been facing for a long time. The problem is one of diversity. The student government has been made up of only a few people, and we need to do something about it.

I think that the student government needs to be more diverse. We need to have more people running for office, so that we can get a more balanced view of the student body. We also need to have more people involved in the decision-making process.

I believe that the student government needs to be more representative of the student body. We need to have more people involved in the decision-making process, so that we can get a more balanced view of the student body. We also need to have more people involved in the decision-making process, so that we can get a more balanced view of the student body.
U.S.G.A. CANDIDATES

(Continued from Page 1, Col. 5)

With an eye toward winning for office, Angela replied, "I am running for the position of President of the U.S.G.A. primarily because I have a strong desire to see the U.S.G.A. continue to function properly and effectively, as it has been in the past. I feel that this is a very important position and one that I would like to fill." According to Angela, she has worked toward this goal, and it is important that the U.S.G.A. continue to function effectively.

As for the goals they would like to see the U.S.G.A. set for the upcoming year, Angela stated, "I think that the U.S.G.A. should continue to work for the reformation of the curriculum. We should also work for clarification of the Rules and Customs set by the U.S.G.A. and for the leave room for confusion. I feel that the U.S.G.A. should be investigated further." In the same vein, the question of candidate Angela replied, "I believe that the problems and restrictions of the U.S.G.A. are actually just a question of what to do and what we can achieve by how we can achieve these goals."

In addition Angela said, "I feel that the U.S.G.A. is a communication line between the administration and the student body. It is the only line of communication that the student body has with itself in an intermediary position. I would like to see a closer trust from all sides. Hopefully the previous U.S.G.A. did a step in the right direction that this U.S.G.A. will be able to continue.

Jeff, who is a candidate for the position of President of the U.S.G.A., feels the need for a united front against poor administration, against poor scheduling, against apathy, against poor relations between the student body and the administration. He would like to see the U.S.G.A. continue to work for the reformation of the curriculum, and for the leave room for confusion. He feels that the U.S.G.A. should be investigated further.

As for the goals they would like to see the U.S.G.A. set for the upcoming year, Jeff said, "I think that the major goal of the U.S.G.A. should be a closer relationship between the student body and the administration. I would like to see more open communication, and more open administration. I feel that this is a very important position and one that I would like to fill." According to Jeff, he has worked toward this goal, and it is important that the U.S.G.A. continue to function effectively.
