New U. S. A. Policy

The USGA submitted the following letter to President Pettit on March 5th concerning the annual request for continuation of the Open Dorm Policy. The letter was composed with the knowledge that the new USGA would not be responsible for previous USGA commitments. Finding that previous USGA commitments were no longer supported by the students, this letter was submitted to make the administration aware of the changed attitudes of the majority of the students concerning Open Dorm Policy. As of this time, no approval of the Open Dorm Policy has been given by the administration.

March 5, 1976

Dear President Pettit,

We as the newly elected Ursinus Student Government Association have read and discussed correspondence between yourself and previous Ursinus Student Government Associations concerning the continuation of the experiment in open dorm policy. In our new position we wish to eliminate our responsibility for all previous letters by President Pettit.

Sincerely yours,

William S. Pettis was, in Williams’ words, “probably the most controversial figure in the birth control movement.” He was one of the first to advocate for birth control, and his work helped to shape the future of the field.

The approach to birth control was one of the areas of the Women’s Campus Council that the council felt needed more attention. The council noted that the current curriculum did not adequately cover the topic of birth control, and that there was a need for more diverse and inclusive programming.

The council also noted that the curriculum was not adequately reflecting the needs of all students. They felt that the current curriculum was not adequately reflecting the needs of all students, and that there was a need for more diverse and inclusive programming.

The council noted that the recruitment process was also an area of concern. They felt that the current recruitment process was not adequately reflecting the needs of all students, and that there was a need for more diverse and inclusive programming.

The council also noted that the sexual health education programs were also an area of concern. They felt that the current sexual health education programs were not adequately reflecting the needs of all students, and that there was a need for more diverse and inclusive programming.

The council concluded by recommending that the administration take steps to address these concerns. They noted that the administration had the responsibility to ensure that the curriculum was adequately reflecting the needs of all students, and that there was a need for more diverse and inclusive programming.

On Wednesday, March 31, at 7:30 p.m., the Bears continued their strong play by winning Eastern 11-0, with Justin Freeman and Jack Smith (Sr.) (Jr.) hitting two home runs each.
