Miss Eleanor Frost Snell  
Ursinus College  
Collegeville, Pennsylvania

Dear Miss Snell:

To me and the many others for whom "Eleanor Snell" has been "Ursinus" your retirement will be viewed as a loss to the College and to us personally.

It is difficult to express in writing what your guidance, teaching, example, and friendship have meant to me and so many others over the years. Many times when I am teaching and coaching, an incident from my "Ursinus days" will come to mind and remind me of how fortunate I am to have been one of "Snell's Belles".

Right now I wish almost daily that my college riding classes weren't twenty years in my past. Our family circle has increased by three horses, and I am having trouble trying to show a young mare that I ever learned anything about horsemanship.

Idaho is really a wonderful place to live. We have countless fish waiting to be caught and an abundant supply of horses ready for a trip into the mountains. Our guest room is always ready for visitors. Can't I tempt you to come to the Northwest for a visit to "your kind" of country?

Prayers and best wishes for many more years of enjoyment and service.

Love,

Jean L. Horwood
