Field Hockey Places Second

The Ursinus College field hockey team finished second in the Intercollegiate Hockey Championship held at Valley Forge Military Academy during Thanksgiving recess. It was the second year in a row Adele Boyd's squad wound up second in the nation, and both times West Chester State beat the Bears for the national championship. This year the score was 2-0.

Ursinus reached the finals by placing second, behind West Chester, in the regional tournament because the top two teams advance to the championship round. The Bears, led by Betsey Meng, Judy Turner, Sue Rowe, Nancy Zorn, and Candl Russell, defeated Ohio State and Delaware for the right to meet West Chester for the title. The Rams shut down the Bears offense to successfully defend their national championship. Complete report in next issue.

McCarthy Addresses Pre-Legal Group

The Haines-Barnard Pre-Legal Society featured guest speaker, Professor McCarthy at their November 22 meeting. Mr. McCarthy spoke to about twenty pre-law students about an "interesting" career in law and the realities and demands of the present situation in the legal field. McCarthy commented on a recent Philadelphia Inquirer article which discussed the crowded field and the difficulties which law school graduates are now facing.

Alumni attorneys' support through speaking appearances on campus at the society's meetings has helped revive the organization. Frank Calola, the former mayor of Norristown and graduate of Georgetown University School of Law, was the fourth of the alumni group of 106 to speak on campus during this semester. Calola explained the difficulties of maintaining a private practice or partnership in the constantly changing legal field. Calola emphasized the advantages of earning a degree from Ursinus and cited several ways in which the Ursinus pre-law student gains benefits while preparing for a future legal career.

Forum Committee Finalizes Program

The Forum Committee is in the process offinalize the second semester forum schedule. The Forum Committee consists of faculty members and students. These faculty members are appointed by the President of the College. The students volunteer for the position and ask other students for suggestions.

Ursinus has received a grant from the Presser Foundation which enables us to have three young artists next semester. They are a clarinetist, Stewart Newbold; a pianist, William Horn; and a basso, John Paul White.

Alumni Directory Published

The alumni offices of Ursinus College recently published a 178-page hardback Alumni Directory, which lists more than 7,000 living graduates of the college in both an alphabetical list and a list by classes.

Board Plans Tuition Increase: Welcomes Two New Members

The Board also heard a report on the 1975-76 fiscal year from the Board's Finance Committee. The Board's chief financial officer, Charles E. Stahl, commented that the Board's current fiscal year is operating with funding from the National Endowment for the Humanities.

Career Night Planned

The Alumni Career Seminar for this semester will be held on Thursday, December 2nd at 6:30 p.m. in the Faculty Dining Room in Wimmer Hall. The program is being held to inform the Ursinus students about the career opportunities in their field of study. It was planned in conjunction with the Placement Office. Both Mr. Vaughan and Dr. Cogger feel that the students and the alumni should be given the opportunity to meet each other. The purpose of this program being held is to further the relationship between the Alumni and students and to help people make better contacts in their field of work.

The program is set up very informally. "Come and go" when you desire; there are no formal speeches given by the Alumni. The Alumni, most of them from recent years, are broken up into two's according to their field. Eight of the ten have no advanced degrees, and the Alumni have years of experience, corporations, government jobs and personal jobs are being represented.

Five areas of study will be represented: Insurance and Real Estate, Mason Williams, ’71 and Mariette Rafter, ’51; Money and Banking, Walter Tompkins, ’71 and Marion Strange, ’72; Journalism and Publishing, John Hope, ’62 and Robin Miller, ’69; Computer Science, Carol Tompkins, ’71 and George Alkione, ’57; Personnel and Counseling, Nancy St. Laurent, ’66 and Steven Custer, ’71. At each table, there will be two Alumni to answer your questions about that field. Every twenty minutes, the groups will break up, participants may move on, to a different area in a different room, the original station and continue talking. The Alumni will be here to give tips on how to get a job in including what directed studies and extra-curricular activities are ad

CR's Make A Difference

With a coordinated effort by the campus senior class representatives, led by John Roberts and Kim McFadden, both freshmen and the Board committee, directed by sophomores Charles Stahl and Jim Grosh, and the entire club committee, directed by George Geist and Eric Wenner, the "Campaign-In the Lin "Ursinus-Elect Republic Members" helped do exactly that.

Participating on Election Day, the club was represented at the Hilton Hotel in King of Prussia, twelve elected the election of Representatives Pacos, Congresswoman Dick Schuler, Senator John Hain (R-102), and the rest of the many successful Montgomery County Republican.

In addition to campaign work, the club was represented at the Montgomery County Republican Annual Banquet at which Senator Charles MacMaths of Maryland (Continued on Page 4, Col. 3)

MORE ON "FRITZ"

Dear Editor:
The longer I remain a student, the more I become aware of the various illusions perpetrated by the administration of Ursinus College, particularly the idea of self-discipline and personal responsibility. This, I believe, is one of those qualities that the college pretends to develop, but does not properly train students to become. The illusion of student control of crime is a serious problem that is not adequately handled by the administration. I'd like to present a few examples of this illusion and the reality behind it.

This is the case of a student who was convicted of a crime on campus. He was found guilty of breaking into a dorm room and stealing a laptop computer. The student was given a deferred sentence and placed on probation for two years. He was also required to complete 50 hours of community service.

On the surface, this seems like a just sentence. However, when you look closer, you realize that it was just an illusion. The student was not held accountable for his actions. He was not forced to face the consequences of his actions in a way that would teach him a lesson.

The administration claims that this is a way of teaching students responsibility. However, it is not effective. The student was not forced to go through the process of facing the consequences of his actions. He was not required to make any sort of restitution to the victim.

The administration claims that this is a way of teaching students responsibility. However, it is not effective. The student was not forced to go through the process of facing the consequences of his actions. He was not required to make any sort of restitution to the victim.

Letters to the Editor

"A Backside View of Wimser Cafeteria"

In a recent article appearing in the Ursinus Record, Mr. Harris stated that the cafeteria had raised the price of a meal by 50 cents. He also stated that the cafeteria had failed to meet the dietary needs of the students.

I would like to present a few examples of how the cafeteria has failed to meet the dietary needs of the students.

The cafeteria has a limited selection of vegetarian and vegan options. It is not unusual to find only one or two vegetarian options on the menu each day. This is frustrating for students who are vegetarians or who follow a vegan diet.

The cafeteria also fails to meet the dietary needs of students who have food allergies. The cafeteria does not have a separate area for preparing food that is free from common allergens such as milk, eggs, and nuts.

The cafeteria also fails to meet the dietary needs of students who are on a special diet. The cafeteria does not have a separate area for preparing food that is free from common allergens such as milk, eggs, and nuts.

The cafeteria also fails to meet the dietary needs of students who are on a special diet. The cafeteria does not have a separate area for preparing food that is free from common allergens such as milk, eggs, and nuts.

(Continued from Page 2, Col. 5)

Dear Mr. Schofield,

We, the undervalued subscribers who celebrate their next over-the-counter is always part in the national consciousness, and we are pleased at having it look so attractive, thanks to the editors and other writers. Though perhaps the decision to remove Fetherolf from its original location in the building wherein we rehearse has been made again so attractive.

Union Board Meets
By DONNA L. PHILLIPS

CHRISTMAS SHOPPING
There will be one last hurrah for Christmas shopping, to the King of Prussia Mall, reserved for Saturday, December 16. The mall will begin at eleven o'clock A.M. and last until four p.m. Registration is for students only; it is first come first served basis. Sign-up for your ticket by November 17 at the House Manager's desk in the Student Union.

JAPANESE TRIP
The Union would like to stress the fact that they are not sponsoring the trip. However, the trip is being promoted as a type of trip and acting as an agent for the program; it is not a college sponsored trip.

The cost of the trip will be $275.00 for one week. This includes the plane fare and a very nice hotel. This cost does not include meals.

UNION TOURNAMENTS
There will be a gathering again for the Annual Student Union Tournament. The activities include ping-pong, pinball, and pinball. The winner of the pool competition will receive an American Express card, and the University of Maryland at the expense of the Program Board.

CASINO NIGHT
The following games have been reserved for this evening night: real, Atlantic City style, 1 dice wheel; 1 black jack, 1 three- die bounce; 1 craps-under; 1 dress-up dealer, 1 dice.
**Bears 0-9...But the Future Looks Brighter**

BY ANDREW SCHWARTZ

"A winning bullpen is an important measure of the success of a football program. Yet even more important is the team's mental attitude. For without a proper attitude winning is next to impossible. Positive thoughts eventually breed positive results.

Many people who follow the Ursinus football program probably feel that the season recently completed was totally frustrating and futile. A majority of people who watched the Bears play are probably extremely disappointed in the team's performance this fall. The Bears finished the year with a record of six wins (a record three shutout victories), two fumbles, and scores by the defense being the only points scored by the offense.

However, the Bears finished the year without a victory and nine losses. The less said about this game, the better. Ursinus totaled only 273 yards offense. However, the hosts scored touchdowns after each of six Ursinus turnovers; three interceptions, one for 76 yards on a scoring pass, two fumbles, and a blocked punt. Bill Bob Terpovsky ran for four TDs and made a 19-yard field goal.

The season opened with a 27-yard pass play from Bob Skinner to Steve Calahan. A two-point conversion failed. Joe Rudi had 75 solo tackles, including one fumble, and was named First-team all-MAC at middle linebacker.

Terrence Gullet, Joe Rudi, Bobby Grich, and Randy Davidson have stated, "If we don't have enthusiasm, we don't have a chance." They are examples of players disgruntled with salaries who are eligible to transfer. It was a disappointing season for Ursinus, which did not total only 331 points. But there is a good nucleus of returnees for 1979.

**Phils Not Shopping**

BY WARREN FRITZ

While the Flyers are flapping, the Eagles are soaring and the Eagles are struggling (as usual), the Phillies are victorious. Playoffs are in the offing, and people like most things. To those who call the Eagles a "soft" team, unless if Ursinus ran out of time they would have won the game.

The attitude displayed by Ursinus, according to Bob Bob Terpovsky, was common throughout the season. The Bears were scrambling and fighting to get the ball game, no matter what the circumstances. That's what this season's Ursinus campaign was about.

So what does this determination and new spirit mean to the people at Ursinus? To the philosophers, it means a successful football season in proportion to the amount of games a team wins. To the fans who hold the opinion that winning attitude comes only after winning several games that it matters little whether anyone ever wins before a win. To well, to people who cite the example of the Pittsburg Steelers is that the Bears have been perennial losers and suddenly rose to a Super Bowl champion this year. It was necessary for them to become Super Bowl champions for two consecutive years. It is necessary for them to become Super Bowl champions for two consecutive years. For the past three seasons at previous years at Ursinus a win never meant a drastic change in attitude. The skepticism will then say, "all right, so they are a bunch of attitude. An improved attitude is not the only necessity for a successful football program, but it must have a certain amount of talent. It must be realized that Coach Karas was placed in a tough situation this year because the team's attitude was in the midst of the recruiting season. Thus, he was at immediate disadvantage and was in a difficult position to bring the necessary ingredients for a successful football team. As athletic director Mr. Joe K. Karas has stated, "The Bear is not yet dead!" Look for a big improvement in its life come next fall.

**Ursinus Equestrian Club News**

The Ursinus Equestrian Club traveled to Philadelphia, Pa., from Monday to Friday, Nov. 27, to participate in the second Intercollegiate Horse Show. The show was sponsored by Rutgers University. There were 212 riders representing 17 colleges and universities in Region 5.

The Ursinus Hunt Team, consisting of Coach Ed Kahler, Tim Jenkins, and Candi Russell, placed fourth in their initial ride together. The riders hope to continue winning each time they ride together.

Individual horses went to Dave Clare who placed second in novice Horsemanship, Craig Hoff, who placed sixth in Advanced Horsemanship Over Fences. Also, Mr. and Mrs. Ellis, the show were Debbie Gay and Carol Samuelson.

The Intercollegiate Horse Show Association was formed over ten years ago to promote fun and competition among colleges and alumni of the show. Horses and riders are drawn for the horse to ride in the first phase of the class.

The Ursinus Hunt Team recently sponsored a successful program, and improved talent was created within the proper attitude for the necessary ingredients for a successful football team. The athletic director Mr. Joe Karas has stated, "The Bear is not yet dead!" Look for a big improvement in its life come next fall.

**Swim Season Opens**

BY JOE SARACO

The Ursinus swimming season began on a good note as the women won one meet while the men split their meet with Swarthmore. The Ursinus men continued last year's sparkling performance, trounced host Dickinson, 120-76, and the Ursinus women opened their season by also beating Dickinson, 84-50.

The Ursinus women had 77 points to win the meet. There were five girls coached by Hemph Vanhorn, dominated their meet, winning each one of the events, with second, second, third, and third place finishes. The 400-yard medley relay team of Amy Early, Shari Slavin (freshman), Sandi Winebaker, and Linda Susskind got things started with a victory in 4:51.43. Maureen James captured the 300-yard free style in 2:23.8, then Weiler and Early took the 50-yard free style (25.9) and 50-yard back style (25.67), with Nina Geier and Slavin placing second, respectively.

After the Ursinus women had almost the one meter diving with Linda Mann second, Ursinus led 86-7. Marley, and Karen Weil (Freshman) followed with first place finishes. Terri Samuels, as usual, had her way in the 50-yard free style with a time of 20.47. However, the Ursinus men won the 500-yard medley relay in 4:04.7 to complete the rout for Ursinus.

Bob Sieracki and Tom Slote led Ken Johnson's squad in their first victory of the season. The men won 10 of the 14 events in the 50-yard free style (23.2) and second in the 100-yard free (51.43). Slote won the 500-yard free in 5:28.45 and was third in the 200-yard free by only a half second at 2:02.45. The two, along with Irv Gill and Steve Gill, are making a solid effort in the 200-yard medley relay (2:03.47). Bruce Miller won the three-meter diving and Terri Samuels in the women's one-meter diving. The Ursinus men battled closely until Miller's and the relay team's victories in the medley relays.

Swimming, which was the Ursinus men's specialty last year, saw its split in the meet. Saturday, each team meets for the first time this season.
