Mattress Team Takes Second

Congratulations to the Ursinus mattress stacking group who placed second in the competition at the Vet Stadium on College night, Friday, April 22. The Ursinus team's score of 64 persons on a mattress, although not equaling first place winner Leighheim University's score of 70, did win the team a $200 award for second place. The competition was held before the Phillies Cardinals game.

Chemistry Delegates Tapped

The Chemistry department joined the growing number of Ursinus departments which allow student representatives to attend and participate in department faculty meetings. Representatives were elected under the auspices of the Board of Governors.

cub & Key Chooses Officers

The Cub and Key held its elections for the 1977-78 academic year. Tony Woodward was chosen as president and Bob Egidio as secretary-treasurer. The advisors to the organization are Mr. Roger Slager and Dr. Eugene Miller.

Classes Elect Officers

On Tuesday, April 19, the Ursinus student body went to the polls to select their class officers for the 1977-78 academic year.

The new officers from the class of 1978 are: Christine Gence, president; Ben Shapiro, vice-president; Elizabeth Plummer, secretary; and Denise Davis, treasurer. The class of 1979 will be represented by: Samuel Ciapano, president; Christine Warren, vice-president; Stephanie Dent, secretary; and Abbie Green, treasurer. The class of 1980 elected: Patricia Davis, president; Veronica Cubit, vice-president; Debbie Dobson, secretary; and Edward Lis, treasurer.

Economics Club Elects Officers

On Monday, April 18th, the Economics Club held its third informative meeting of the Spring semester. The main business of the meeting dealt with the election of three officers for the 1977-78 academic year. They are: Barbara Laneo, president; Chris Warren, vice-president; and Donna Casinelli, secretary-treasurer. Dr. Peterkis, club advisor, presided over the elections in the Bomberger Shiproom.

Library Announces New Hours

The Myrin Library will be open on Saturday nights on a trial basis beginning in May. The hours will be 8 a.m. to 10 p.m.

Pre-Legal Society Elections Held

The Haines-Barnard Pre-Legal Society held their elections Wednesday, April 13. Next year's officers will include: Stephanie Dent as president, Janet Mascia as vice-president, Pete Mott as treasurer, Liz Pino as recording secretary and Diane Meeker as corresponding secretary.

Meal Popularity Surveyed

The results of a survey concerning the meal popularity at the Dining Room are now in. The survey was sent to all students at Ursinus College and asked the students to rate each meal on a scale of 1 to 5 (5 being the best). The meals were determined to be liver and cod creole and the most popular meal was roast turkey. Out of 50 samples, there were 4 meals with a rating of 5, 12 meals with a rating of 3 and 26 meals with a rating of 2 (dislike). The students were asked to rate the meals with 2 (dislike) and then be given a survey to those students whose numbers were drawn from a hat. 134 students responded to the questionnaire which asked them to rate each meal on a score from 1 (strongly dislike) to 5 (like) to determine the rating.

The survey was distributed randomly to 170 students by asking each student a number and then giving a survey to those students whose numbers were drawn from a hat. 134 students responded to the questionnaire which asked them to rate each meal on a score from 1 (strongly dislike) to 5 (like) to determine the rating.

Based on this analysis, the most unpopular meals were determined to be liver and cod creole and the most popular meal was roast turkey. Out of 50 samples, there were 4 meals with a rating of 5, 12 meals with a rating of 3 and 26 meals with a rating of 2 (dislike). The students were asked to rate the meals with 2 (dislike) and then be given a survey to those students whose numbers were drawn from a hat. 134 students responded to the questionnaire which asked them to rate each meal on a score from 1 (strongly dislike) to 5 (like) to determine the rating.

Comment...Ann M. Weibezahl

After Orientation - What Then?

For the past two weeks, there has been quite a stir on campus over the CCC and their plans for Freshmen Orientation. Some students are upset because of an elimination of thirty-five qualified people from the program, due to the decision to have one squad leader per eight freshmen. The CCC and the Administration seem to feel that this plan will "streamline" the program and allow the college to lower its freshmen transfer rate. Last year, a record number of freshmen transferred from Ursinus in the first weeks of the fall semester. The key question is whether any orientation program, no matter how effective, can keep students from transferring.

Admittedly, last year's orientation program was poorly run, resulting in some disillusionment on the part of the freshmen. But I doubt that last year's orientation has done any lasting damage. Orientation by the continually poor quality of student life on campus. Unlike members of the Administration, I intend to be specific about what I mean by the phrase "the continually poor quality of student life."

If the atmosphere of Ursinus College could be described by any one word, my candidate for that word would be "stifling." Ursinus is a chronic underachiever in fostering the social, political, intellectual, religious, and emotional growth of a student.

Item: The Administration of this "Christian" college expresses its commitment to the religious growth of its students by providing the Chaplain with a budget that would be charitably described as nominal. Most of the money which elevates the Ursinus non-U.C.C. affiliated campus comes from other non-U.C.C. sources.

Item: A large percentage of students who came to Ursinus were active and coerced leaders of activities in their high school. In past years, the administration set up a list of punishable offenses and demerits, and expects the students to equate an extra room with entertaining a member of the opposite sex in one's room on a weeknight. The effect of this system is to inculcate an atmosphere of fear and guilt into the students and to poison the campus.

The effect of this system is to inculcate an atmosphere of fear and guilt into the students and to poison the campus. The effect of this system is to inculcate an atmosphere of fear and guilt into the students and to poison the campus.

Item: The college does not consider a person of my age to have sufficient maturity to make moral decisions on his/her own. Indeed, the administration sets up a list of punishable offenses and demerits, and expects the students to equate an extra room with entertaining a member of the opposite sex in one’s room on a weeknight. The effect of this system is to inculcate an atmosphere of fear and guilt into the students and to poison the campus.

Item: The only time the entire campus is socially active for one day in a row is during Freshmen Orientation. What a terrible lednkheden people must feel at the end of orientation when "normal" Ursinus social life ensues.

If the Administration were really serious about altering the transfer rate of students, they might give serious thought to the following:

a. Meaningful and fundamental reform of the Ursinus Rules and Customs. I think it is disgraceful that a complete proposal made by the USGA two years ago has been totally ignored. It is a complete report that a comprehensive editorial on the subject that appeared in the spring of 1976 received no comment whatsoever. Could the authors who were correct in their arguments that the Administration was going to do something about the poor social atmosphere have been?

b. Hike the full-time professional whose sole responsibility would be to book concerts and speakers to appear at Ursinus College with admission open to the general public for a fee. Such a program would conceivably pay for itself, as it does at Widener. A student advisor such as Bill Harris has done an invaluable job of providing some cultural activity on campus, the need is so great that it cannot be satisfied by anyone working part-time, no matter how competent.

c. Give more power to student government at Ursinus. At the very least, students should be able to determine the broad outlines of dormitory policy.

Letters to the Editor

To the Editor:

In recent years, this academic year, like any other, has had its ups and downs. An especially low point to me was the forced withdrawal from school of John Lerch and Gay Feynman, a couple with whom I am acquainted. The Ursinus rule book says that possession of narcotics is punishable by anything from a minimum of twenty to a maximum of fifty hours. Neither student had any previous disciplinary trouble. Yet John and Gay were forced out of school by the Ursinus administration to resign from school, based mostly on the logic that it is better to leave than be thrown out. The students were coerced to sign "confessions," and the speed of this whole operation was such that John Lerch was out of school within five hours behind the police. The student body, the student government, and the students' petition had no say in the matter. What is deplorable here is whether the punishment befitted the crime. The current two-year sentence of America is between the ages of eighteen and twenty-five have smoked marijuana. John Lerch is a shining example of a student with an accurate estimate regarding the male population of Ursinus; the percentage of first-year students who have smoked marijuana is really a lot lower. Ursinus ought to look into this considering the age group who are dealing with marijuana cases.

Marijuana is not a moral depravity. It is John's right to smoke marijuana as long as it is not typical of the average Ursinus student. To force two students to withdraw from school is a flagrant indication of the possession of an intolerant mind than alcohol and less addictive. Of the alternates, 5 are qualified students, both inappropriate and ineffective.

Porterfield's Ursinus administration feels that by ridding themselves of these students, they are able to have a better image of their campus. But they are not doing this at all, and all that was accomplished was making the students feel that they have done something to help toward these students. It is ironic that students who are* to be loyal to the school, yet the

Letters to the Editor

The CCC would like to convey its appreciation to all those who applied for the position of squad leader. Since a total of 54 spots were open, 48 regular and 6 alternates, it is obvious that any application is to rely on the information supplied on the applications filed. It is to be hoped that all of the applications of all 88 applicants were extremely good, it was a difficult and tedious job. It is to be hoped that all of the applicants could make its working criteria stringent and non-arbitrary, basing its decisions on the answers to the questions asked, and not solely on personal convictions about the applicants. It is to be hoped that all of the members of the CCC that personal biases could be detrimental to its effectiveness. It is to be hoped that all of the USGA, so any problems raised by such a factor were discussed between the applicants and as much as is humanly possible.

Plans for combining squads during Freshmen orientation are in the making and it was found that an even number of leaders is too difficult. It was decided upon in order to make the program work. Although it was not allowed prior to the selection of the squad leaders, they will be allowed this year, but it is to be hoped that all of the remaining 15 will be allowed by the USGA. Selection was not based on regularity but on the fact that the distribution of the distribution so, equal. Of the alternates, 5 are class of '78, 5 are class of '79, and 5 are class of '80. Of course, these alternates will be activated as needed, in case there is a controversy in the future. To leave the program or the incoming Freshman class exceeds 50% of any upperclass transfer students.

The intercollegiate of the entire eastern region has been canceled, due to the USGA as of April 21 and will be published in the minutes of the meeting that is to be held.

Letters to the Editor
(Continued from Page 2, Col. 5)

To the Editor:
The Festival in April has submitted for this issue a letter protesting the portrayal during this year's Student Union assembly of Jesus Christ. Because I was not an eyewitness to this event, I feel uneasy about commenting on it as an eyewitness even though I am in agreement with the substance of the complaint. But I would like to take a different track in this letter, since I feel that there are many unanswered questions for students on campus who don't understand why or any other pressing problem that I have with the portrayal. By an irrevocable portrayal of the Crucifixion is being made, there is a consensus of opinion that the reenactment of the Crucifixion was not done with care, and one seriously wants to argue that the historical Crucifixion was used as in any other performance. But, for me, the life and death of Jesus Christ is no sort of performance, at least for a Christian—it is the very focal point of Christian faith, for Christ's axiomatic building blocks were the destruction of the sin and death over Christ, and enables us to see our sin and to accept it. For me, the Crucifixion on which the Crucifixion was put at Songfest was unacceptable. It is no sort of performance, for something unimportant or humorous, and I don't think that it is ever done.

Let me say before closing that I am not denying that everyone is de­liberately important to everyone. I think that it is one of those situations where less understanding is more than to blame any particular intention. I hope that my personal feelings about the Crucifixion help to promote a more general understanding of how different students view what happened at Songfest and how the reaction that it has pro­uced.

Very sincerely yours,
Robert Rismus

MEAL POPULARITY
(Continued from Page 1, Col. 4)

These popular and highly regarded reading your item about the dropping of the language requirement for the B.A. in the Liberal Arts program, which has come along with a future, strength in the present, and an ability to accept and love other people.

The Christian concept of God is unique among world religions—it was Christian that taught us that we can have a relationship with God who is loving and who is merciful to us, and can both understand our problems, and my needs. I don't think that I could believe in such a distant idea, which I think is a creative and loving being who not onlyholds the beginning and the end, but also moves through my life alon­side, teaching me how to live. For the future, strength in the present, and an ability to accept and love other people.

The Dining Room committee ac­cepted the subcommittee's report and, although they made no recom­mendations, it did suggest that Mr. Dempsey use the survey in drawing up a plan for the upcoming year. Dempsey said he would like to meet with the subcommittee prior to making up next year's menus and that the recommendations could be considered for adoption at the next meeting.

SPECK'S DRIVE-IN

One of the many difficulties in teaching is that we can make the learning process easier for students by emphasizing the fact that the learning process is more than a simple memorization of facts. We wish to thank everyone for the cooperation that we have received thus far. We wish to thank everyone for the cooperation that we have received thus far.

The Environmental Protection Agency is supposed to protect the nation from suffering. Yet it has done little about con­sumer protection.

The report cites seven states as hav­ing a serious air pollution problem. Most of these are in the Northeast—New York, New Jersey, and Ohio. Yet, it is likely to be more than those in the liberal arts.

The meal is not a simple meal; it is a meat-eating and drinking activity. It is the eating and drinking that we can control. The Environmental Protection Agency has kept its promises, and we are grateful.

The report recommends that con­sumer protection should be more than those in the liberal arts.

The report recommends that con­sumer protection should be more than those in the liberal arts.

It is the eating and drinking that we can control. The Environmental Protection Agency has kept its promises, and we are grateful.
Songfest '77

By BARBARA A. VINCENT
April 6, at 6:45 p.m., Bomberger Hall was packed with excited students anticipating Songfest. Sororities showed cheers at one another, the judges prepared themselves for their difficult task, and Dr. Small's little daughter waved frantically to her father, the ence, from her seat of honor in the balcony.

The show opened with Demus I and II, completely disorganized, and a bit removed from a normal state of sobriety. Their "selections" won the praise of the group of people who made up the audience.

Dressed ingeniously as creatures enjoyed the performance enough to make it worthwhile.

The audience was divided into thousands or groups which had to look at the buildings and listen carefully to the music.

The last received in 1962.

Many signs pointed to the black light from the stage. The audience grew larger and larger.

Ms. Cutone is absolutely right.

The Bulletin is sent free to all students and the faculty.

The GRE will remain a three-hour exam.

The GRE is taken each year by about 200,000 college students as part of the admissions process to graduate school. The exam is offered six times a year, while admittance to 20 subjects are offered five times a year throughout the nation.

Dr. Reiner, who earned the bachelor's, master's and doctoral degrees at Harvard University, is a leading authority on Romance languages. He joined the Ursinus faculty in 1971 and is being promoted from associate professor.

Miss Barth joined the Ursinus faculty in 1969 as an assistant professor and in 1970 received the Lendback Award for Distinguished Teaching. She later received her bachelor's degree from Mount Holyoke College and her masters from Smith College.

Mr. Breviller joined the faculty in 1970 after an interview and was promoted to assistant professor in 1970. He received a bachelor of science degree from the U.S. Merchant Marine Academy, a master of arts from the University of Delaware and a doctorate in history from the University of Pennsylvania.

Mrs. Sherwood received her bachelor's degree from Ursinus in 1952 and received certification as a physical therapist from the University of Pennsylvania in 1943.

She joined the Ursinus faculty in 1960 and until 1972 was a part-time instructor. With a rise in biology enrollment, she taught full-time the past three years.

Dr. Reiner will be the speaker at an installation ceremony to be held in May.

More On Food

By JOEL MEYER

Mr. Fisher, representing the Woodlawn Club (President: Dempsay) met and fielded complaints and requests from students on campus. His report was published in the daily bulletin for the date of the meeting.

FOOD SERVICE LIAISON

(Continued from Page 1, Col. 3)

Sakell's objective is to create a more professional atmosphere at mealtime by improving the waiters' and waitresses' ability to serve their guests.

The additional training of having cheese with hamburgers, the serving of "punch fries" (thicker fries that are less greasy and/or less crisp than the regular fries), the offering of the alternatives to the regular meal (e.g. maine bean, English muffins, rice bread), and the (7) at regular meals, the offering of two types of salad dressing.

In order to gauge the students' opinions of the various meals, periodic surveys of one-Joy are completed by the Dining Room Committee.

SFARC Discusses Weekly

(Continued from Page 1, Col. 6)

tion of the budget. Dieter noted that the same amount of money had been budgeted for his two years as director, yet, printing costs had risen. Sullivan, speaking as a member of the Student Activities Committee, said that no requisites for more money had been made. A suggestion was made that perhaps students could be told what had happened, why the demands were being made to do this they should be told more about the paper, it's policies and production.

At the mention of the Student Activities Fund, Rankin brought up the possibility of having a selected fund, which he found lacking in bulk and quality. Sullivan suggested the idea of a giving society among the students concerning providing activities and their dues to contribute financially.

Finally a motion was made expressing the need seen by SFARC for the weekly to have a more independent source of funds which would provide for a weekly paper.

In the area of old business, a rules committee has been formed, according to Stettner, to work out a handbook of suggestions. Lange asked whether decisions were still being made on PHBAA grants? Mr. Switzer denied that they could, except for those involving no grants which would affect PHBAA grants.

Simon expressed the committee's concern over the move from Ursinus, and commended him for his excellent job as S.F.A.R.C. chairman.

The next and last S.F.A.R.C. meeting will be held in May in the evening in the Conference Room. The Bulletin is sent free to all students and the faculty.

The GRE Bulletin for the current year contains the resolutions by the GRE's various units and explains the answers. The Bulletin is free to all students registering for the GRE.

In addition, a Sample Aptitude Test containing the same number of questions as that on which the exam can be ordered at one dollar per copy. These questions will be available on August 1.

Despite the new addition, the GRE will remain a three-hour test which is most of the time instructor. With a rise in biology enrollment, she taught full-time the past three years.

Baseball Team Excites Fans

By ANDREW SCHWARTZ

This past Saturday the baseball team faced off against rival Ursinus College, and it was a battle of wits and skill. The game was turned into a doubleheader against Widener, and thus boost their chances for a league title. The prediction was totally inaccurate, mine came within one out of the truth, and Widener's prediction was 11-5 but bounced back and took the second game by a score of 5-3.

In the first inning of game number two, the Bears were going to have an easy route to a win. A single run scored on the first hit and Widener went to the dugout. Meanwhile, Marino was filling in for Widener. He played one more inning and did more than an adequate job in the second game.

Meanwhile, Ray Dougherty had set up a doubleheader for Widener, and the second game was won. It was a great run-scoring inning. In the first inning, the Bears scored six runs and took out a quick out. Meanwhile, the Bears scored two runs on the first hit. In the second inning, the Bears scored two runs on the first hit. In the third inning, the Bears scored two runs on the first hit. In the fourth inning, the Bears scored two runs on the first hit. In the fifth inning, the Bears scored two runs on the first hit. In the sixth inning, the Bears scored two runs on the first hit. In the seventh inning, the Bears scored two runs on the first hit. In the eighth inning, the Bears scored two runs on the first hit. In the ninth inning, the Bears scored two runs on the first hit.

By BEN SHAPIRO

Amateur Boxing

On April 16, Helfferich hall hosted an exhibition boxing show put on by Joe Froio's fight club. Twelve of Froio's fighters took on twelve boxers from local boy's club. The night was a success for all concerned. Some of the boxers did not show up, but no Ursinus tough guys chose to miss this opportunity. There were several bouts that turned out to be the best of the evening. The boxers were ad

Tennis Times

The men's tennis team has posted a 5-4 record so far this season. They have won several of their matches but have also lost a few. The team started out with five straight wins, but then lost to Albright. Wins this season include Temple (12-3), U. of P. (12-3), and Madison (12-3), but they were defeated by Widener (12-3). The team is 3-0 and haven't been doing well since. Last week, they lost to Widener (4-3), temple (9-2), Chester 0-3, and Lock Haven 2-3. However, the outlook for the season is bright. The team has more with experience playing together as a team, the JV is bound to do well. The Ursinus men's tennis team of the year: Senior Kathy Shillaller; Juniors Barb Eyerly, Ann Tass, and Karen and Nancy Wardell; Sophomores Barb Buckson, Carrie Campbell, Stacey Thompson, Kevin Edi Laughton, Lisa Mary, Maryn Mattson, Ginger Rosanel, and Linda Yeager; Freshmen Dee Crosson, Pam Kelly, Sue Kelly, Janet Miller, Trish Nash, Pam Frost, Shari Slavin, and Michael Speck.

Women's Tennis

The women's varsity tennis team opened its season with a line-up composed of a majority of returners, who have already played their first match against Swarthmore, a successful effort was made by the Ursinus team, captained by Linda Dunn, to rejuvenate the team spirit. Linda Dunn said, "We have won three matches in a row since the varsity team outlook is good as singles players Nancy Han, Nancy Harker, and Sandy Zeller and doubles players Sue Santarcasio and Kate Cox continue to dominate the conference. The JV team consists of a combination of experienced varsity and freshmen players. Singles players Jan Golub, Andrea Wickerham, and Lorraine Davis, and doubles players Sue Santarcasio and Kate Cox continue to dominate the conference. Mexico Trip

By GILDER ANNE LEWIS

The recent 90-degree weather brought back pleasant memories for the students who joined Annette Mix on the March 15-17, 1977 Spring Break trip to Mexico. While Ursinus students admired the pyramids at Teotihuacan and the Grand Canyon, Florida sun, this group toured through the Mayan ruins, cactus and silver factories; dined at haciendas and on patios; rode para boats on the Yucatan; and even found time to acquire golden tans on the beaches of Acapulco.

Lacrosse Undefeated

The JV team started out in March with a winning fashion, saving victory in every game. The Ursinus College (12-3), U. of P. (12-3), and Madison (12-3), but they were defeated by Widener (12-3). The team is 3-0 and haven't been doing well since. Last week, they lost to Widener (4-3), temple (9-2), Chester 0-3, and Lock Haven 2-3. However, the outlook for the season is bright. The team has more with experience playing together as a team, the JV is bound to do well.
