HISTORICAL STATEMENT

The beginning of educational work on the grounds occupied by Ursinus College was in Todd’s School, opened in 1832 “for the use of the neighborhood and its vicinity,” the tract on which the school was located having been donated by Andrew Todd.

In the year 1848 a school for the higher education of young men was established on the tract adjoining that of Todd’s School. The school was named “Freeland Seminary.” Within a period of twenty years, more than three thousand young men from Pennsylvania, New Jersey, Maryland, and Delaware received their education at this school.

In 1868 a body of men, actuated by a desire to serve the interests of higher education and evangelical Christian religion, met in the city of Philadelphia and resolved to found “an institution where the youth of the land can be liberally educated under the benign influence of Christianity.” Ruled by this desire, they chose as the name of their institution that of one of the most distinguished reformers and scholars of the Reformation period, Ursinus, of the University of Heidelberg.

The Act of Incorporation under which Ursinus College is conducted was granted by the Legislature of Pennsylvania, February 5, 1869, and is as follows:

AN ACT
TO INCORPORATE UR SINUS COLLEGE

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, that there shall be and hereby is erected, established and incorporated in Upper Providence Township, in the County of Montgomery, in this Commonwealth, an institution of learning, for the purpose of imparting instruction in Science, Literature, the Liberal Arts and Learned Professions by the name, style and title of UR SINUS COLLEGE.

SECTION 2. Said College shall be under the care and management of a Board of Directors not exceeding twenty-one in number,
Historical Statement

who, with their successors in office, shall be and are hereby declared to be one body politic and corporate in deed and in law, to be known by the name, style and title of Ursinus College, and by the same shall have perpetual succession, and shall be able to sue and be sued, plead and be impleaded in all courts of law and equity, and shall be capable in law and equity to take, hold and purchase for the use and benefit of said College any estate in any messuages, lands, tenements, goods, chattels, moneys and other effects of any kind whatever, by gift, grant, bargain, sale, conveyance, assurance, will, devise or bequest from any person or persons, body politic or corporate either municipal or otherwise whatsoever capable of lawfully making the same, and the same from time to time to grant, bargain, sell, convey, mortgage, farm, let, place out at interest, or otherwise dispose of for the use and benefit of said College; Provided, however, That no bequest or donation made to and accepted by said Board for specific educational objects shall ever be diverted from the purpose designated in the conditions of such gift and acceptance.

SECTION 3. That the Board of Directors shall have power to establish, from time to time, in said College, such departments of study and instruction as they may deem expedient, and to provide libraries, apparatus, cabinets, endowments and all other needful aids for imparting full and thorough courses of instruction therein. They may appoint a faculty or faculties, professors, lecturers and teachers, prescribe their respective duties, fix their compensation, and remove them, or any of them, as, from time to time, the interests of the College may require; they shall have power to purchase or erect buildings for the accommodation of students, professors and officers, and for other needful purposes; to establish rules and regulations for the government of students and officers, and to do all and singular such other things and matters as may be requisite for the well ordering and proper management of the affairs of said College.

SECTION 4. That the said Board of Directors shall at first consist of the persons herein named, to wit: James Koons, Sr., J. Knipe, W. D. Gross, H. W. Kratz, A. Kline, H. K. Harnish, Abraham Hunsicker, Sr., J. W. Sunderland, John Wiest, A. W. Myers, H. H. W. Hibshman, A. Van Haagen, J. H. A. Bomberger, J. G. Wiehle, J. Dahlman, Jr., Emanuel Longacre, George Schall, W. L. Graver, William Sorber, Nathan Pennypacker, N. Gehr, who, or any nine of them, on the passage of this act, or at any time within three months thereafter, may meet and organize by electing a President and Secretary, and accepting this act, the evidence of which shall be the duly authenticated record of such meeting and action.
SECTION 5. That the Board of Directors shall have power to fill all vacancies in their own body, to expel any member thereof who shall be guilty of infamous conduct and to declare vacant the seat of any member who shall have, for three consecutive years, failed to attend the stated meetings of the Board; to appoint, from time to time, such additional officers and agents of their own body as may be deemed requisite, including a Treasurer, who shall always give ample security for the funds entrusted to his keeping; to adopt a common and corporate seal, by and with which all deeds, certificates, appointments and acts of said Board, signed by their President and attested by their Secretary, shall pass and be authenticated, and the same seal at their pleasure to break, alter or renew.

SECTION 6. That the said Board of Directors, at any meeting subsequent to their organization called for the purpose, and of which due notice shall have been given to each member, may adopt and establish a Constitution and By-Laws for the government of their own body, not inconsistent with this act, the laws of the State or the laws of the United States, which Constitution and By-Laws shall not thereafter be altered, amended or repealed except in the manner therein provided.

SECTION 7. That the faculty of any organized department in the College may, with the advice and consent of the Board of Directors, and under such regulations as they may prescribe, confer the degrees, honors, and dignities usually conferred by similar departments in the Colleges and Universities of this Commonwealth.

SECTION 8. That no misnomer of this corporation shall defeat or annul any gift, grant, devise or bequest to or from the said corporation: Provided, The intent of the parties shall sufficiently appear upon the part of the gift, grant, will, or other writing whereby such state or interest was intended to pass to or from said corporation.

The corporation was organized at a meeting of the Directors held in the city of Philadelphia, February 10, 1869. A permanent seat for the College was sought near Philadelphia. Attracted by the beauty of the region of Perkiomen Bridge, where Freeland Seminary had flourished for twenty years, and impressed by the reputation of the community for its interest in education, the Board of Directors purchased the property of Freeland Seminary, and incorporated the latter into Ursinus.
Historical Statement

College as its preparatory department. About this time the United States postal authorities named the post office at Perkiomen Bridge, Collegeville. Instruction was begun September 6, 1870. In 1881 the doors of the College were opened to women. The Academy was discontinued in 1910.

The Ursinus School of Theology was opened in 1871. The School was conducted at Collegeville in connection with the College until 1898, when it was moved to Philadelphia. In 1907 a Compact of Union was ratified by which it became a part of The Central Theological Seminary at Dayton, Ohio. In 1933 this union was dissolved by mutual agreement. In 1934 Central Theological Seminary was united with Eden Theological Seminary at Webster Groves, Missouri.

Collegeville is on the Benjamin Franklin Highway (Route 422) and is twelve miles distant from the Lincoln Highway. It is accessible by the Philadelphia and Reading Railway from Philadelphia, Allentown, or Reading. Motor coaches connecting Collegeville with Reading, Pottstown, Norristown, and Philadelphia pass the College campus. The College grounds cover eighty-nine acres, including an improved campus of twelve acres, tennis courts, and athletic fields.

NEEDS

The College constantly employs fully the equipment and resources at its disposal. The steady growth of the institution should encourage its friends to provide for its further needs. The following present exceptional opportunities for gifts and memorials: endowment of scholarships, $2,000 to $5,000 each; endowment of professorships, $50,000 and upwards; general endowment funds, $500 and upwards; residence halls for women, $20,000 and upwards; endowment for the Science Building, $200,000; an infirmary, $25,000. The counsel of the President of the College should be sought with a view to obtaining the most advantageous cooperation on the part of benefactors.
GIFTS AND BEQUESTS

It is the judgment of those who have had the responsibility of disposing of large fortunes that Education furnishes the most promising field for benevolence. The great philanthropic foundations, after discriminating scientific inquiry into the ways and means of doing good with accumulated wealth, have made Education their chief objective. The findings of these philanthropic agencies may be accepted for the guidance of others.

The practice of making donations during one's life rather than making bequests to be executed after death is recommended. In this way the donor has absolute assurance that his wishes are being carried out, he has the satisfaction of seeing his gift bearing fruit in the improved work of the institution, and he avoids the deflection of part of his proposed gift in the form of inheritance taxes.

When the donor wishes to retain the income of his estate during his lifetime, a very satisfactory arrangement is provided in Ursinus College Annuity Bonds, which the College issues in exchange for cash or property. Annuity Bonds guarantee to the donor a fixed income payable semi-annually during the period of his natural life, and upon his death the bonds become null and void, and the gifts which they represent continue as permanent possessions of the College.

When, however, it is decided to make a bequest, care should be taken to have all testamentary papers signed, witnessed, and executed in strict accordance with the statutory laws of the State in which the testator resides. In all cases the name of the corporation should be accurately given, as in the following form:

I give, devise and bequeath to Ursinus College, located at Collegeville, Montgomery County, Pennsylvania, its successors and assigns forever, the sum of ...................................... dollars, for its several corporate purposes (or name the particular corporate purpose desired by the testator).

ADMISSION

The first step in seeking admission to Ursinus College is the filing of a formal application. The application blank includes a form for the candidate's school record. This will be filled in by the school principal or headmaster and forwarded directly to the Registrar's office. All certificates of preparation are evaluated by the Dean of the College. Further inquiry is made as to the character and fitness of the candidate to do the work of this institution, and if found qualified the applicant is notified and a place reserved for him in the College. Each new student remains on probation during his first semester. Each candidate for admission must present a certificate of sound health on a form provided by the Registrar.

Applicants who rank in the upper two-fifths of their classes in the schools in which they received their preparation, applicants from other colleges, and candidates who have passed the examinations of the College Entrance Examination Board are ordinarily admitted on certificate. The qualifications of others are determined by entrance examinations conducted by the College. Particulars regarding these examinations, which are held at intervals during the year, may be obtained from the Registrar.

Every candidate admitted to College will upon entrance take tests that measure his mental aptitude and his achievement in major subjects.

TERMS OF ADMISSION

If the applicant is a graduate of a four-year school, he should offer for admission at least fifteen units; if he is a graduate of a senior high school, he should offer at least twelve units.

The applicant should present the following units: English, 3; Elementary Algebra, 1; Plane Geometry, 1; Science, 1; Social Studies, 1; Foreign Language, 2. Three additional units
in academic subjects complete the requirements for a graduate of a senior high school, and six additional units in academic subjects complete the requirements for a graduate of a four-year school.

Candidates whose preparation does not precisely coincide with the foregoing outline may be admitted to the College if, in the judgment of the Committee on Admissions, they are qualified to do satisfactory college work.

A limited number of applicants for admission may be received as Special Students, provided they have satisfactory preparation for the college courses which they desire to pursue.

When admitted, special students are enrolled as members of the groups they choose to enter and are under the direction of the regular advisers. Special students must register for at least twelve hours of work in each semester, and are held accountable for the satisfactory completion of courses for which they register. They are subject to the same regulations as other students.

**ADMISSION TO ADVANCED STANDING**

Applications for admission to advanced standing should be made to the Registrar of the College. The applicant should request the institution last attended to send to the Registrar a transcript of the student’s record accepted for admission, a transcript of his record there, and a letter of honorable dismissal.

**ADMISSION AT MID-YEAR**

At the beginning of the second semester a small group of students who have been graduated in the first fifth of their secondary school classes will be admitted. A student admitted at this time can complete his work for a degree in three and one-half years, provided that in college he make no grade lower than C, that his scholastic average at no time fall below B,
Admission

and that at the beginning of each semester he obtain written permission of the Dean to undertake the work outlined by his Group Adviser.

Students who are planning to teach are permitted to complete in seven semesters only 116 of the 124 semester hours required for a degree, and must return for an eighth semester to satisfy the requirements for certification in Pennsylvania and New Jersey.

REGISTRATION

All students must register at the opening of the college year for the work of the whole year, and will not be allowed to change their registration or drop courses of study later than one week after Registration Day except by special permission of the Faculty. A fee of One Dollar is charged for registration on days other than those appointed for the registration of students in the College Calendar.

ABSENCES

Students are expected to pursue their work without interruption or absence from any academic exercises. On account of exigencies such as sickness, the death of a relative, or duty away from college as a representative of the institution, a student is allowed as many absences in any course as twice the number of exercises per week in that course. A student who is absent beyond this limit will be dropped from the course unless permitted to continue by the Dean and the professor in charge, and he will then be required to complete the work omitted and to take an Extended Examination, for which a fee of Five Dollars is charged. Absences are counted from the first class exercises in any subject. At the beginning and at the end of a semester and immediately preceding and following a recess absences count double. No excuses for absence are granted.

Students of the third year and fourth year who, in the preceding semester, received no grade lower than B and at
least one A are placed on their own responsibility for attendance upon classes.

A student who absents himself from a test previously announced must take a special test, for which he must pay a fee of One Dollar. Permits for such tests must be obtained at the Dean's Office.

GROUP ADVISERS

At the beginning of the year the Faculty appoints from its own number an Adviser for the students in each of the seven Groups in which the courses of instruction are offered. He is the medium of communication between the Faculty and the students of his Group. The approval of the Group Adviser is necessary before a student may register for or enter upon any course of study, or discontinue any work.

COUNSELORS

Each first-year student is assigned to a member of the Faculty who is his Counselor for friendly advice and guidance in the making of personal and social adjustments and in the correlation of his intellectual interests with the curriculum requirements.

PUBLIC WORSHIP

Students are required to attend religious services in the College chapel each day of recitations, except Saturday, and are expected to attend services on Sunday morning in the church of their own or their parents' choice. Attendance is also required at all special public exercises appointed by the Faculty.

A student may not be absent from chapel services and other public exercises appointed by the Faculty more than ten times in a semester.

COLLEGE PRINCIPLES

The College is committed both in principle and by tradition to a policy which opposes unnatural distinctions among its
students. Equal opportunity for all is provided and a wholesome spirit of fraternity throughout the entire body is encouraged. A system of student government for young men, with powers inhering in a central representative body known as the Council, maintains order and encourages self-control in social and civil affairs. The life of the young women also is regulated through a system of self-government administered by the women students of the College. The aim of the institution is to train its students, through the performance of their social and civil obligations and duties, in those virtues which will fit them for the extraordinary responsibilities of educated men and women in after life. With this in view, the College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community, and in such cases the fees due or paid in advance to the College will not be refunded in whole or in part.

DOMESTIC LIFE

The College aims to provide thoroughly healthful, wholesome, and homelike conditions in the residences for both young men and young women. The boarding department is made an educational asset in the institution. All resident students take their meals in well-lighted and well-ventilated dining rooms. The meals are prepared in a spacious, well-lighted, sanitary kitchen with complete modern equipment.
COURSES OF INSTRUCTION

In designating courses of study, odd numerals are employed to represent the work of the first semester and even numerals the work of the second semester. When a single numeral is employed, the work represented constitutes a semester course. When two numerals are employed, the work represented constitutes a year course. When the numerals are connected by a hyphen, the course may be entered only at the opening of the year. When the numerals are separated by a comma, the course may not be discontinued, but may be entered at mid-year for the work of the second semester.

The credit value of each course, expressed in semester hours, is printed in italics. The hours per week are given in the definition of the course.

BIOLOGY
PROFESSOR BROWNBACK, ASSISTANT PROFESSOR OLD, ASSISTANT PROFESSOR SNELL, MR. WAGNER

A-B. INTRODUCTION TO SCIENCE. The methods and aims of the sciences, the structure and organization of the physical universe, and the part which the sciences have played in the development of civilization. A broad foundation is given in preparation for the more specialized course in a single science required in the second or third year. The course will put the student in a position to appreciate, and to investigate further in his own reading the place of science in modern life. The Departments of Biology, Chemistry, Physics, and Astronomy are jointly responsible for the course, which consists of lectures, demonstrations, recitations, and required readings. Required of first-year students in all except the Chemistry-Biology and Physical Education Groups. Two hours per week throughout the year. Four semester hours.

2. PERSONAL AND COMMUNITY HYGIENE. Study of the structure and physiology of systems in relation to personal hygiene; study of the problems of community hygiene. Lectures, papers, and discussions. Three hours per week. Three semester hours.

Course 2 is elective for first-year students in all the Groups.

3-4. GENERAL BIOLOGY. A survey of the biological facts and problems of the plant and animal kingdom. One semester is devoted to the study of zoology, the other to botany. In both semesters correlated laboratory and lecture work is definitely planned. Two hours of lecture and three hours of laboratory work. Six semester hours.

6. ADVANCED BOTANY. A course designed to acquaint the student with a more detailed study of the plant groups, stressing in particular
Courses of Instruction

the principles of taxonomy and ecology. Lectures and discussions
followed by field and laboratory work. Prerequisite, Course 3-4. *Three
semester hours.*

Course 6 is required for students who intend to apply for cer-
tification as teachers of biology in Pennsylvania.

7-8. **VERTEBRATE ANATOMY.** The comparative anatomy and rela-
tionships of the chordates. Prerequisite, Course 3-4. One hour of
lecture and six hours of laboratory work. *Eight semester hours.*

Course 7-8 alternates with Course 9-10. Course 7-8 will be
given in 1939-40.

9-10. **HISTOLOGY AND EMBRYOLOGY.** A course in the preparation and
study of tissues and in the embryology of the chick. Prerequisite,
Course 3-4. One hour of lecture and six hours of laboratory work. *Eight semester hours.*

11-12. **HEREDITY.** Designed to familiarize the student with the
recent work in heredity and its social applications. Open to students
who have had no biological training. Lectures, papers, and discussions.
Two hours per week. *Four semester hours.*

Course 11-12 is open to third-year and fourth-year students only.

15-16. **GENERAL PHYSIOLOGY.** The study of the physical, chemical,
and physio-chemical processes taking place in living matter. Pre-
requisite, Courses 3-4, 7-8 or 9-10 and Chemistry 1-2 and 7-8. Oppor-
tunity is given for students to investigate assigned problems at times
other than regular hours. One hour of lecture and six hours of labora-
tory work. *Eight semester hours.*

17-18. **ANATOMY AND PHYSIOLOGY.** The human skeleton; muscular,
respiratory, and circulatory systems; the internal organs; the special
senses; all considered with reference to structure and function; secre-
tion, absorption, and elimination. Models, charts, and parts of the
human cadaver. Three hours per week. *Four semester hours.*

Course 17-18 is prescribed for students in the Physical Education
Group.

**Note.**—A working knowledge of the leading biological contribu-
tions to present day thought is presented in Courses 3-4 and 11-12.
Students of the Chemistry-Biology Group taking their major work
in biology must complete not less than twenty-four hours of work in the
department. In most cases, this requirement will be met by taking
courses 3-4, 6, 7-8 or 9-10, and 11-12. Such students will also be
expected to take Chemistry 1-2 and 14 and Physics 1-2. Prospective medical students taking the full college course should take Courses 3-4, 7-8, 9-10, and if possible 15-16.

CHEMISTRY

PROFESSOR BEARDWOOD, PROFESSOR STURGIS, MR. PETTIT

A-B. INTRODUCTION TO SCIENCE. See B i o l o g y, Course A-B, p. 26.

1-2. GENERAL CHEMISTRY. The facts, theories, and laws of the chemistry of the commoner elements, their industrial uses, and their physiological and nutritional applications. Demonstrated lectures accompanied by oral and written recitations. The student preserves a record of laboratory observations which must be submitted to the instructor for correction and approval. Two hours of lecture and three hours of laboratory work. Six semester hours.

14. INORGANIC CHEMISTRY. A more detailed study of the theories and principles of chemistry accompanied by work in the solution of chemical problems. This course is to be pursued concurrently with Chemistry 2. Prerequisite, Chemistry 1. Two hours of lecture. Two semester hours.

3-4. QUALITATIVE ANALYSIS. The physico-chemical basis of analytical chemistry; analysis of metals and non-metals; practice in analysis of minerals, alloys, and commercial products. Prerequisite, Course 14. Two hours of lecture and three hours of laboratory work. Six semester hours.

5-6. QUANTITATIVE ANALYSIS. A study of the most acceptable methods of gravimetric and volumetric analysis. Prerequisite, Course 3-4. Two hours of lecture and three hours of laboratory work. Six semester hours.

7-8. ORGANIC CHEMISTRY. The study of the properties, synthesis, and structure of the most important classes of the carbon compounds. Prerequisite, Course 14. Two hours of lecture and six hours of laboratory work. Eight semester hours.

9-10. PHYSICAL CHEMISTRY. The course includes a study of atomic structure, radio-activity, the states of matter, the properties of solutions, and other topics. Prerequisites, Physics 1-2; Courses 1-2 and 3-4 or 7-8. Two hours of lecture per week. Four semester hours.

9a-10a. PHYSICAL CHEMISTRY. Laboratory. This course may be taken with Course 9-10. Two hours per week throughout the year or preferably four hours per week for one semester. Two semester hours.
12. **The Literature of Chemistry.** The use of books, journals, and reports in the field of Chemistry. Open to third-year and fourth-year students in the Chemistry-Biology group. One hour per week. *One semester hour.*

Course 12 is given in alternate years. Given in 1940-41.

Students of the Chemistry-Biology Group taking their major work in Chemistry must complete not less than twenty-four hours of work in the department. This requirement will be met by taking Courses 1-2, 14, 3-4, 7-8, and 5-6 or 9-10. Prospective medical students taking the full college course must take Chemistry 1-2, 14, 3-4, and 7-8.

**Economics**

**Professor Boswell, Associate Professor Bone**

1, 2. **Economic History.** A study of the economic development of the United States from the colonial period down to the present time. Some attention is given to the European origins of our economic institutions and attitudes. Two hours per week. *Four semester hours.*

Course 1, 2 is elective in all groups.

3-4. **Principles of Economics.** An analysis of our economic organization, including the study of such topics as the organization of production, value and exchange, mediums of exchange and our banking system, business cycles, international trade and the tariff, the distribution of wealth, monopolies, competition and other current problems. Three hours per week. *Six semester hours.*

Course 3-4 is a prerequisite for all other courses except Course 1, 2.

5. **Labor Problems and Personnel Administration.** A study of human relations arising from industrial organization and the employers' part in bringing about industrial peace. Prerequisite, Course 3-4. Three hours per week. *Three semester hours.*

6. **Business Finance.** A study of the financial aspects of business management, including such topics as the problems to be considered in launching an enterprise, methods of organizing, methods of financing, form of ownership, handling of sinking and depreciation funds, interpreting financial statements, extending credit, and distributing earnings. Prerequisite, Courses 3-4 and 11-12. Three hours per week. *Three semester hours.*

Courses 5 and 6 alternate with Courses 19 and 20. Courses 19 and 20 will be given in 1939-40.
7. MARKETING. A survey of the marketing mechanism and a comparative study of the most usual methods and practices. Special attention is given to such problems as the elimination of the middleman, market analysis, sales quotas, the incidence of advertising, and co-operative marketing. Prerequisite, Course 3-4. Three hours per week. *Three semester hours.*

8. FOREIGN TRADE. The relation of foreign trade to national prosperity; the foreign trade policies of the more important countries; export marketing machinery; the methods of export merchandising followed by several of our large corporations; documentation; credit extension. Prerequisite, Courses 3-4 and 7. Three hours per week. *Three semester hours.*

9-10. MONEY AND BANKING. A brief study of monetary and banking theories followed by a careful analysis of the services and methods of operation of various financial institutions such as commercial banks, clearing house associations, the Federal Reserve banks, Farm Loan banks, note brokers, commercial paper houses, finance companies, and investment houses. Three hours per week. *Six semester hours.*

Course 9-10 alternates with Courses 13 and 14. Courses 13 and 14 will be given in 1939-40.

11-12. PRINCIPLES OF ACCOUNTING. Fundamental principles involved in single ownership, partnership, and corporate forms of organization, including large enterprises and manufacturing types of business; rules for debit and credit, journalizing, operation of columnar books with and without controlling accounts, methods of handling cash, inventories, preparation of trial balance and financial statements and closing the books; procedure for handling capital stock, bonds, valuation reserves. Problems, questions, and a systematic practice set supplement the work. Two hours of lecture and two hours of laboratory per week. *Six semester hours.*

13. PUBLIC FINANCE AND TAXATION. A study of the general principles of public expenditures, public revenues, public indebtedness, and financial administration. Attention will be given to the principles and workings of the Federal Income Tax law. There will be class assignments in solving actual income tax problems. Two hours per week. *Two semester hours.*

14. RAILWAY TRANSPORTATION. A study of the financing of railroad construction in the United States; rate making, routing, personal and territorial discrimination, competition and consolidation; state and federal legislation and regulation; government operation;
Courses of Instruction

criticisms of some of the proposed solutions of our railway problems. Three hours per week. *Three semester hours.*

15. **Business Law.** An introductory course covering the fundamental principles and procedures governing contracts, sales, negotiable paper, partnerships, corporations, and business associations. Lectures, readings, and study of cases and problems. Prerequisite, Courses 3-4 and 6. Three hours per week. *Three semester hours.*

17, 18. **Business Organization.** A survey study of the organization and management of industrial activities and their relation to each other. The historical background, organization, physical plant, standardization, wage payment methods, employment and handling of men; control of production, planning and operation; executive control. Prerequisite, Course 3-4. Three hours per week. *Six semester hours.*

19. **Advanced Accounting.** A study of advanced accounting principles and the application of principles to the analysis of problems. The principal subjects discussed are analysis of profits, application of funds, capital expenditures and depreciation policies, determination of costs for inventory valuation, installment accounts, branches and agencies. Special consideration will be given to consolidation, reorganization, and liquidation. Prerequisite, Course 11-12. Two hours per week. *Two semester hours.*

20. **Introductory Cost Accounting.** A study of the fundamental principles of cost accounting. Methods of finding the cost of specific orders or lots, fundamentals of process costs, accounting for by-products and joint products, estimate costs, and standard costs. Emphasis is placed upon the bookkeeping procedure and upon acquiring familiarity with the use of forms commonly used in cost accounting. Prerequisite, Course 11-12. Two hours per week. *Two semester hours.*

Courses 19 and 20 alternate with Courses 5 and 6. Courses 19 and 20 will be given in 1939-40.

**Mathematics of Finance.** See Mathematics, Courses 13-14 and 15-16, p. 50.

**Education**

Professor Tyson, Associate Professor Heiges, Assistant Professor Michael

1. **Introduction to Teaching.** A survey of the field of education. The approach to the study of education through the underlying sciences. Analytical and constructive attempt to define education. Differentiation of the several fields of study. A preliminary course
32

Ursinus College

for all students of education. Three hours per week. *Three semester hours.*

Course 1 is prescribed for second-year students who are preparing to teach.

2. **PRINCIPLES OF SECONDARY EDUCATION.** The secondary school in America and in foreign countries; individual, social, and vocational aims; nature and interests of adolescents; subjects of the curriculum; program making. Prerequisite, Education 1. Three hours per week. *Three semester hours.*

Course 2 is prescribed for second-year students who are preparing to teach.

3. **EDUCATIONAL PSYCHOLOGY.** The data of psychology in their bearing upon teaching and learning; instinctive equipment of the learner; variation in human capacities; inheritance of human traits; rate and progress of learning; transference of training and allied subjects. Prerequisites, Psychology 1 or 2 and Education 1 and 2. Three hours per week. *Three semester hours.* See **PSYCHOLOGY, Course 5.**

Course 3 is prescribed for third-year students who are preparing to teach.

4. **PRINCIPLES OF TEACHING AND LEARNING.** The application of the principles of educational psychology to teaching in the secondary school; the teacher as a guide of learning; the activities in which the teacher is called upon to engage. This course is required by the department for all persons who expect to qualify for practice teaching. Prerequisites, Education 1, 2, 3. Three hours per week. *Three semester hours.*

Course 4 is prescribed for third-year students who are preparing to teach.

5, 6. **STUDENT TEACHING.** A laboratory course in student teaching, consisting of observation, participation and teaching in neighboring high schools with individual and group conferences. Courses of Instruction

7, 8. TACITUS, LUCRETIUS. (1) Tacitus: *Agricola, Germania*, and selections from the *Annals*. A study of the aims and purposes of the works with a survey of Roman history. (2) Lucretius: *De Rerum Natura*. A study of Epicureanism, Lucretius as a philosopher and a poet, his influence on other writers. Two hours per week. *Four semester hours.*

10. TEACHERS' COURSE. A consideration of the aims and purposes of classical studies. Preparatory authors will be discussed and interpreted with special regard to the essential points in teaching. Two hours per week. *Two semester hours.*

Course 10 is elective for students intending to become teachers of Latin. It is given in connection with Courses 6 and 8.

MATHEMATICS AND ASTRONOMY

PROFESSOR CLAWSON, ASSOCIATE PROFESSOR MANNING, DR. DENNIS

1, 2. COLLEGE ALGEBRA, TRIGONOMETRY. This course attempts to survey some of the important applications of mathematics in science and business, and to acquaint the student with the aims and methods of the subject. The emphasis is on utility and information rather than on formal statement. The historical development is indicated as far as possible. Three hours per week. *Six semester hours.*

Course 1, 2 is prescribed for all students who have been credited with not more than 3 units of mathematics toward admission, except that students in the Chemistry-Biology Group take Mathematics 3a-4a and students electing Latin are exempt from this requirement.

1a, 2a. COLLEGE ALGEBRA, TRIGONOMETRY. A more advanced course, presupposing the usual high school courses in these subjects. Three hours per week. *Six semester hours.*

Course 1a, 2a is elective for students who have been credited with 3.5 units of mathematics toward admission.

3-4. ELEMENTARY CALCULUS. A first course in infinitesimal calculus, comprising a study of the fundamental methods and applications of differential calculus and an introduction to integral calculus. Three hours per week. *Six semester hours.*

Course 3-4 is prescribed in the Mathematics Group.

3a-4a. ELEMENTARY CALCULUS. In addition to the fundamental methods of the calculus, this course will include portions of algebra and trigonometry necessary for an understanding of the calculus, and applications of differentiation and integration in engineering and the physical sciences. Five hours per week. *Ten semester hours.*
Course 3a-4a is prescribed in the Chemistry-Biology Group. A separate section will be provided for students who have presented two units of algebra and one-half unit of plane trigonometry for entrance.

5. **Plane Analytic Geometry.** The use of algebraic methods in the study of plane geometry. Three hours per week. *Three semester hours.*

6. **Solid Geometry.** The methods of pure geometry, of analytic geometry, and of descriptive geometry applied to polyhedrons and simple curved surfaces. Prerequisite, Mathematics 5. Three hours per week. *Three semester hours.*

Courses 5 and 6 are prescribed in the Mathematics Group.

7-8. **The Calculus.** Review of the fundamentals, and a further study of methods of differentiation and integration and applications. Elements of differential equations. Prerequisites, Mathematics 3-4, 5, and 6. Two hours per week. *Four semester hours.*

9-10. **Introduction to Modern Geometry.** The recent geometry of the triangle and quadrilateral; anharmonic ratio; ranges and pencils; projective geometry; non-Euclidean geometry. Prerequisite, Course 5, 6. Two hours per week. *Four semester hours.*

Courses 9-10 and 11-12 are given in alternate years. Course 11-12 will be given in 1938-39.

11-12. **Introduction to Modern Algebra.** The foundations of algebra; consistency, independence, and sufficiency of postulates; finite groups, with applications in number theory and in theory of equations. Prerequisites, Courses 3-4 and 5, 6. Two hours per week. *Four semester hours.*

13-14. **Mathematics of Finance.** The operation of interest in relation to the amortization of debts, the creation of sinking funds, the treatment of depreciation, the valuation of bonds, the accumulation of funds in building and loan associations, and the elements of life insurance. Two hours per week. *Four semester hours.*

15-16. **Mathematical Statistics.** Gathering the material, displaying it by the different types of graphs, analysis of the material, averaging, dispersion, correlation, probability, interpolation, and finite differences. Prerequisite Mathematics 1, 2 or its equivalent. Two hours per week. *Four semester hours.*

17-18. **Astronomy.** Facts and theories concerning the appearance, dimensions, constitutions, motions, and interrelations of celestial
Courses of Instruction

bodies; practical applications. Prerequisite, Course 1, 2 or its equivalent and some knowledge of physics. Two hours per week. *Four semester hours.*

19-20. **Problems and Reports.** One hour a week is regularly devoted to reports on current articles in journals or on other special topics. A weekly problem paper reviewing mathematics studied in former years is discussed at a second hour. Two hours per week. *Four semester hours.*

21-22. **Problems and Reports, Second Course.** Students specializing in mathematics will normally take work of the nature outlined in Course 19-20 for two years, the content being different in successive years. In this case, the second year is called Course 21-22. Description and credits as above.

23-24. **Teachers’ Course.** The study and teaching of mathematics: a consideration of problems, materials and methods. Two hours per week. *Four semester hours.* Prerequisite, at least eighteen semester hours in Mathematics.

**MUSIC**

**Assistant Professor Philip**

A. **Theory of Music**

1-2. **Elementary Harmony.** A thorough foundation in the melodic, rhythmic, and harmonic elements of music; keys, scales, intervals, cadences, major and minor chords; rhythmic reading and dictation, time durations, and the study of compound and simple measures. Two hours per week. *Four semester hours.*

3-4. **Advanced Harmony and Simple Counterpoint.** A detailed study of harmonic resources, from secondary chords to chromatic modulations and higher dissonances; principles of counterpoint, in two and three parts as divulged by study of sixteenth and seventeenth century compositions; four part harmony from melody and figured bass; dictation of four part harmony and works of the Classic School. Two hours per week. *Four semester hours.*

Course 3-4 alternates with Course 5-6. Course 5-6 will be offered in 1939-40.

5-6. **Counterpoint and Form.** Counterpoint based on study of mediaeval modes; fifteenth and sixteenth century styles; tonal counterpoint including two and three-part inventions; harmonic technique in contrapuntal style; dictation in contrapuntal style; survey of form
in music; analysis of a comprehensive list of masterpieces. Two hours per week. *Four semester hours.*

7-8. **DOUBLE COUNTERPOINT, FUGUE, AND CANON.** An advanced course requiring 10-15 hours of preparation per week. Two hours per week. *Four semester hours.*

   Course 7-8 alternates with Course 9-10. Course 9-10 will be given in 1939-40.

9-10. **COMPOSITION.** Practical composing in the smaller and simpler forms for voice, piano, and other instruments. One hour per week. *Two semester hours.*

11-12. **ORCHESTRATION.** Symphonic scoring through practical study; the study of the instruments of the orchestra and their relationship to the above. One hour per week. *Two semester hours.*

**B. APPRECIATION OF MUSIC**

13-14. **APPRECIATION OF MUSIC.** This course is especially intended for those not studying music from an applied or practical standpoint but for those desiring to enlarge their critical appreciation of music as a detail of their general culture. This course is more directly adapted to the special needs of the general group of college students than Course 15-16. This course has no prerequisite and is open to anyone. Two hours per week. *Four semester hours.*

**C. HISTORY OF MUSIC**

15-16. **HISTORY OF MUSIC.** Introduction on ancient and primitive music; music from the beginning of the Christian era to the present. Two hours per week. *Four semester hours.*

17-18. **OPERA AND ORCHESTRAL MUSIC.** Review of chief dramatic and musical developments of the masters with detailed study of outstanding compositions. Two hours per week. *Four semester hours.*

   Course 17-18 alternates with Course 19. Course 19 will be given in 1939-40.

19. **THE MUSIC DRAMAS OF RICHARD WAGNER.** An intimate discussion and the detailed analysis of Wagner's works. Two hours per week. *Two semester hours.*

**D. MUSICAL ORGANIZATIONS**

21, 22. **BAND.** A detailed study of both the "marching band" and the "concert band." Two hours per week. *Two semester hours.*

23, 24. **SYMPHONY ORCHESTRA.** Reading and study of the best literature for orchestra. Two hours per week. *Two semester hours.*
Courses of Instruction

Students completing Courses 21, 22, 23, and 24 receive no more than four semester hours of credit.

The musical organizations include the Mixed Glee Club, the Ursinus Meistersingers, the Choir, and various small choral and instrumental ensembles. For work done in these organizations no credit toward graduation is given.

27, 28. Vocal Ensemble and Methods. A study of the basic principles of choral ensemble technique; vocal characteristics and various types of voices. Discussion and study of the musical literature of the different periods. Practical application of principles studied as well as participation with the Ursinus Meistersingers in public concerts. Two hours per week. Four semester hours.

30. Choral and Orchestral Conducting. Organization, arrangement, and direction of choruses and orchestras. Technique of the baton. Study of tempi; phrasing; dynamics; nuances; color. Practical experience conducting the college choral and orchestral units. Two hours per week. Two semester hours.

PHILOSOPHY

Professor Tower, Professor Bancroft

One semester course in Philosophy is required of every student for graduation.

1. Logic. A study of the guiding principles involved in correct thinking; the use of terms; classification; the nature of deductive inference with special reference to fallacious forms of reasoning as they receive expression in daily life; the canons of inductive inference; the basic concepts involved in scientific method. Three hours per week. Three semester hours.

2. Ethics. A study of the principles of moral judgment, with exposition and criticisms of the more important theories concerning the basis of distinction between right and wrong conduct; the various problems of theoretical and practical ethics. Papers by students. Three hours per week. Three semester hours.

Course 2 is given in both the first and second semesters.

Courses 3 and 4 alternate with Course 9-10. Course 9-10 will be given in 1939-40.

5. INTRODUCTION TO PHILOSOPHY. A preliminary course designed to give the student orientation with reference to the field and problems of philosophy. Three hours per week. Three semester hours.

6. MODERN PHILOSOPHICAL PROBLEMS This course is continuous with Course 5, but is a more intensive study of certain problems outlined in the latter course and in Philosophy 4. It is designed to afford further orientation for a still more detailed and critical treatment of selected topics considered in Philosophy 9-10. Prerequisite, at least a one-semester course in philosophy. Three hours per week. Three semester hours.

7. HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY. This course and the following are designed to assist the student in his interpretation of modern thought-currents by giving him some acquaintance with the productions of the great constructive minds of the past. Three hours per week. Three semester hours.

Students may not register for Course 7 unless they also take Course 8.

8. HISTORY OF MODERN PHILOSOPHY. Descartes; Spinoza; Leibniz; the English empiricists; Kant and post-Kantian Idealism; recent philosophical tendencies. Three hours per week. Three semester hours.

9-10. PHILOSOPHICAL SEMINAR. Recent and contemporary philosophical constructions and their critics. Idealism, pragmatism, neo-realism. Selected portions of the works of Bradley, Royce, James, Schiller, Bosanquet, and the realists will be read. Prerequisite, at least nine semester hours in philosophy. Two hours per week. Four semester hours.

NOTE: Courses in philosophy are open to third-year and fourth-year students. Candidates for department honors must have had twelve semester hours in philosophy.

PHYSICS
ASSOCIATE PROFESSOR MAUCHLY

1a-2a. OUR PHYSICAL HERITAGE. Designed expressly for students who are not concentrating in science and mathematics, this course
Courses of Instruction

presents physics as a significant part of our cultural heritage. The subject is developed around force and energy, two concepts which underlie and unite many fields of science. The relation of physics to other domains of knowledge and the possibilities and limitations of physical science are examined.

No previous work in science is assumed, except Course A-B.

Two hours of lecture and three hours of laboratory per week. **Six semester hours.**

1-2. **General Physics.** Elementary mechanics, heat, sound, light, electricity, and magnetism. Physics is presented not only as a science having practical application to everyday life, but as an example in itself of general scientific method. No previous courses in physics or mathematics are required, but reasonable facility with pre-college mathematics is essential. Although not a requirement, Mathematics 3-4 is strongly urged, to be pursued concurrently if not already completed.

Three hours of lecture and three hours of laboratory per week. **Eight semester hours.**

**Note:** Admission to advanced courses depends upon the quality of work done in one or the other of the elementary courses, (1-2a or 1-2).

Usually no more than one of Courses 3 to 6 inclusive will be given during any one semester. Students intending to elect any of the advanced courses are asked to confer with the instructor during the year prior to that in which the course is to be taken, in order that a satisfactory schedule may be arranged.

3. **Optics.** Image formation; systems of lenses and mirrors; dispersion; spectra; interference and diffraction; polarization; origin of radiation; effects of radiation; applications. Three hours of lecture and three hours of laboratory per week. **Four semester hours.**

4. **Sound.** The nature of sound; the physical basis of music, speech, and hearing; acoustics of buildings; methods of sound transmission and reproduction, and study of distortion; diffraction and interference; applications. Three hours of lecture and three hours of laboratory per week. **Four semester hours.**

5. **Electricity and Magnetism.** Gauss's Theorem; potential; capacity; electric and magnetic circuits; Kirchhoff's Laws; inductance; alternating currents; elements of electronics; the electromagnetic field. If desired, this course may be extended to include more material on high frequency circuits and radio communication. Prerequi-
site, Mathematics 3-4. Three hours of lecture and three hours of laboratory per week. *Four semester hours.*

6. **MECHANICS, WITH AN INTRODUCTION TO MATHEMATICAL PHYSICS.** Fundamentals of theoretical mechanics; vector calculus; generalized coordinates; Lagrange's equations; Hamilton's Principle; potential fields; the wave equation; statistical mechanics; brief discussion of further mathematical methods. The laboratory work is chiefly concerned with the precise measurement of mechanical quantities. Prerequisite, Mathematics 3-4. *Four semester hours.*

7-8. **CHEMICAL PHYSICS.** A course in elementary thermodynamics, kinetic theory, atomic and molecular theory. Emphasis is placed on those phases of physics which are especially pertinent to an understanding of chemistry and related fields, such as biochemistry, biophysics, and physiology. Prerequisite, Mathematics 3-4. Three lectures per week. *Six semester hours.*

7a-8a. **LABORATORY IN CHEMICAL PHYSICS.** Laboratory work (optional) for Course 7-8. Three hours per week. *Two semester hours.*

9-10. **SPECIAL TOPICS.** Readings and laboratory work with conferences. The student, having chosen some field in which he is interested, is expected to become familiar with the special instruments and methods of measurement used in that field. Only students capable of independent work may elect this course. Prerequisites, Mathematics 3-4 and two years of college physics. Credit according to work done.

**POLITICAL SCIENCE**

**PROFESSOR BARNARD, MR. MILLER, MR. PANCOAST**

1-2. **AMERICAN GOVERNMENT.** A functional approach to the government of the United States. Stress is laid on the integration and cooperation of the federal, state, and local governments in the performance of essential services. This is an extensive basic course, intended both for those whose major interest is in other fields and as a foundation for those who expect to specialize in political science. A prerequisite for all the more advanced courses in political science. Three hours per week. *Six semester hours.*

3-4. **MUNICIPAL GOVERNMENT.** The daily work of the city; home rule, commission, and city manager systems; municipal budgets; public utilities; city planning, public safety, and public health; power and position of the city in our political system; present tendencies in municipal government. Three hours per week. *Six semester hours.*
5-6. **Comparative Government.** A detailed comparison of the cabinet and presidential systems, as exemplified by England and the United States; the study then extended to other representative governments of Europe, including France, Germany, Italy, Switzerland, and Russia. Three hours per week. *Six semester hours.*

7-8. **Political Theory.** During the first semester consideration is given to the nature and ends of the state and to the functions and problems of representative government in an industrial democracy. In the second semester a study is made of the thinking that lay back of political action during the colonial and national periods of American history. This necessitates the constant use of speeches, debates, and decisions of the Supreme Court. Application is made of the political theory learned in the first semester. Three hours per week. *Six semester hours.*

9-10. **International Law and Organization.** A descriptive analysis of the structure, functions, and work of such international agencies as the League of Nations, the Permanent Court of International Justice, the International Labor Office, and the Bank for International Settlements. Emphasis is placed upon the legal and practical limitations of their operations. Careful study of international practice in such matters as recognition of states and governments, treaties, and state succession. Three hours per week. *Six semester hours.*

Not given in 1939-40.

11-12. **Seminar in Political Science.** Various problems in the field of political science presented in carefully prepared papers, followed by class comment and discussion. Two hours per week. *Four semester hours.*

Course 11-12 is open only to seniors who have taken at least two other courses in Political Science.

Members of the History-Social Science Group majoring in political science must take from the foregoing courses an amount of work aggregating at least eighteen semester hours.

21-22. **Methods of Teaching the Social Studies.** The Pennsylvania course of study in history and social science for junior and senior high schools, interpreted in the light of modern ideals and practices. Two hours per week. *Four semester hours.*

This course corresponds to the one now being given in state teachers colleges and university schools of education, and is required by this Department of all who are qualifying to teach social studies in the Pennsylvania secondary schools.
PSYCHOLOGY

Professor Tower, Professor Tyson, Professor Sheeder

1. Elementary Psychology. An introductory study of mental life and accompanying types of human behavior. Three hours per week. Three semester hours.

2. Elementary Psychology. A course similar in content to Course 1, given in order to make the study available in both semesters. Three hours per week. Three semester hours.

   Course 1 or 2 must be taken in the second year by all students preparing to become teachers.

4. Social Psychology. A study of group action and of the group influences by which the individual is surrounded; tradition, custom, public opinion, and other psychological and social forces which affect individual judgment and action. Three hours per week. Three semester hours.

5. Educational Psychology. See Education, Course 3.

6. Psychology of Religion. The psychological processes of the religious life are analyzed and described. Worship, prayer, faith, and other religious phenomena are considered. Third and fourth years. Three hours per week. Three semester hours. See Religion, Course 9.

PUBLIC SPEAKING

Professor Sibbald, Associate Professor Carter

4. Advanced Public Speaking. Problems of the speaker, divisions of a speech, types of speeches, style of the spoken word. Recitations based on textbook; composition and delivery of various types of speeches. Three hours per week. Three semester hours.

   Courses 3 and 4 are elective for second-year and third-year students in all groups.

5-6. Public Speaking. The technique of play-writing and play-production. Two hours per week. Four semester hours.
Courses of Instruction

RELIGION

Professor Sheeder, Mrs. Sheeder

1. RELIGIONS OF MANKIND. A survey of the historic religions to discover characteristics and effects upon the civilizations of the world. The religion of the Hebrews is treated at length as a background for the study of Christianity. First and second years. Three hours per week. Three semester hours.

2. INTRODUCTION TO BIBLICAL LITERATURE. An appreciative and historical study of the literature of the Bible, with a view to discovering its origin, nature, and significance in the life of today. First and second years. Three hours per week. Three semester hours.

5. LIFE AND TEACHINGS OF JESUS. A comparative and interpretative study of the New Testament sources. A consideration of the way in which Jesus met life situations and the application of His method to modern life. Second and third years. Three hours per week. Three semester hours.

6. GROWTH OF CHRISTIANITY. A survey of the development of the Christian Church from the apostolic period to modern times, with a view to understanding the nature and extent of its contributions to society. Second and third years. Three hours per week. Three semester hours.

Courses 5, 6 and 9, 10 are given in alternate years. Courses 9, 10 will be given in 1939-40.

9. PSYCHOLOGY OF RELIGION. The psychological processes of the religious life are analyzed and described. Worship, prayer, faith, and other religious phenomena are considered. Third and fourth years. Three hours per week. Three semester hours. See PSYCHOLOGY, Course 6.

10. PHILOSOPHY OF RELIGION. A study of the nature and validity of religious beliefs, with particular reference to ideas of God, immortality, prayer, and the problem of evil. Third and fourth years. Three hours per week. Three semester hours.

11. FINE ARTS IN RELIGION. A study of the beginnings of art forms and their relation to early religious belief and practice; the significance of the arts in the development of the Christian church; the use of the fine arts in worship. Three hours per week. Three semester hours.

12. PRINCIPLES OF RELIGIOUS EDUCATION. A consideration of the theories underlying religious education, together with a study of aims
and techniques. The organization and administration of the Sunday school, vacation church school, and week-day school of religion will be considered. Three hours per week. *Three semester hours.*

**SOCIOMETRY**

**Mr. Miller**

1-2. INTRODUCTION TO SOCIOMETRY. A fundamental course covering the fields of social organization and social control. The course aims at presenting a basis for a scientific understanding of society, and for further study in the field of sociology or of social work. Open only to third-year and fourth-year students. Three hours per week. *Six semester hours.*

**SPANISH**

**Mr. Wilcox**

In arranging his curriculum, every regular student must provide for meeting the following requirement: (a) six semester hours of the modern language offered for admission, provided the student passes a satisfactory achievement test at matriculation; or (b) twelve semester hours of the modern language offered for admission, if the student has not passed a satisfactory achievement test at matriculation; or (c) twelve semester hours of a modern language begun in college.

1-2. BEGINNING SPANISH. (For those who begin Spanish in college, for those who have had one year of Spanish in high school, and for those who have had two years of Spanish in high school but who in the Freshmen achievement tests show an insufficient knowledge of Spanish.)

3-4. INTERMEDIATE SPANISH. Review of Spanish grammar and syntax, with more advanced treatment of pronunciation. Special attention to verbs and modern idioms. Conversation in second semester. Original compositions in Spanish. Uniform note books. One hour per week of reading and translation of selected, graded texts. Class discussions in Spanish. Prerequisites, Course 1-2, or equivalent. Three hours per week. *Six semester hours.*

5. COMMERCIAL SPANISH. Study of business vocabulary, forms, and letters. Original commercial letters. Prerequisite, Spanish 3-4, or equivalent. Two hours per week. *Two semester hours.*

6. ADVANCED GRAMMAR AND COMPOSITION. Advanced treatment of Spanish grammar and syntax. Drill on modern idiomatic conversa-
Courses of Instruction

61

tional forms. Original Spanish compositions. Prerequisite, Spanish 3-4, or equivalent. Two hours per week. Two semester hours.

7-8. SPANISH LITERATURE. Readings and translations of masterpieces of prose, poetry, and drama of the Siglo de Oro during first semester. Readings and translations of contemporary masterpieces during second semester. Class discussions in Spanish. Compositions and reports in Spanish. Outside readings. Lectures in Spanish on Spanish literary movements and their cultural background. Prerequisite, Spanish 3-4, or equivalent. Two hours per week. Four semester hours.

Courses 5 and 6 alternate with Course 7-8. Course 7-8 will be given in 1939-40.
THE GROUPS

The group system is employed in the organization and administration of instruction. By this system, the courses of instruction are offered in carefully arranged groups, each comprising (1) dominant subjects which adapt the group to the intellectual tastes and the future purposes of the student, (2) other prescribed subjects essential to a liberal education and required of all students, and (3) elective subjects from which may be selected studies meeting the particular objectives of each individual. A student, at matriculation, chooses the group of studies he desires to pursue, and with the advice and consent of his adviser, selects his studies for the year and reports the same to the Dean on a blank provided for the purpose. By virtue of this act he becomes a member of the group of his choice and as such is officially recognized thereafter in all acts and processes of administration in the College. A student who is uncertain on entering college as to his life purposes and, therefore, undecided as to the group of studies he should pursue, may make a temporary choice and change to any group he may prefer at the end of the first year.

CHOICE OF STUDIES

In registering, the student must present his complete list of studies, both prescribed and elective, for the whole year.

Courses to satisfy conditions take precedence of regular courses. It is strongly advised that conditions be made up in summer so as not to interfere with the proper arrangement of one's curriculum.

In selecting studies for the year, the student will follow the synopsis of his group as presented, although with the approval of his adviser and of the Dean, he may substitute other studies for the elective courses listed, or at the beginning of a year may change from one group to another.

When a student changes to another group, he will receive credit toward graduation only for such of the prescribed courses as he may have completed as are included in the group to which he has received permission to change.
Groups of Courses

THE COMPREHENSIVE EXAMINATION

The several courses constituting a group major are presented as a single unified project. The student is led to pursue each course with regard to the courses that follow, to study with a view to mastery and permanence, building up from semester to semester an ever-increasing, coherent body of knowledge. As an aid the student is given a syllabus presenting in logical order the subjects embodied in his major field of study. Included in the syllabus are lists of required readings and suggestions for study. The use of the syllabus is supplemented by conferences with the professor under whom the subject is being pursued. The student's work throughout is carried forward under the supervision of the group adviser.

As a test and measure of success attained, a comprehensive examination covering the student's entire major field of study is given each candidate for graduation toward the end of the senior year. The examination consists of several parts given separately on different days. Wherever feasible, it is set by at least two persons and is graded independently by at least two persons. Outside examiners may be employed to set and grade all or part of the examination at the option of the group. A minimum grade of C is necessary to pass the examination. In determining the student's final standing in his class, the grade made in the comprehensive examination is given a weight of three-tenths, and the grades made in the semester examinations through the four years are given a weight of seven-tenths. A candidate who fails may take any succeeding, regularly offered comprehensive examination in his major field. Passing of the examination is a requirement for graduation.

The Comprehensive Examination is designed to test the accomplishment of the following ends: (1) the attainment of a certain standard of knowledge in the student's major field of study, (2) the integration of the student's work in his major field and in allied subjects, (3) the conservation of his knowl-
edge through sustained interest from course to course and from year to year, (4) the student's assumption of responsibility for four years of planned effort toward a definite goal.

REQUIREMENTS FOR GRADUATION

For the degree of Bachelor of Arts or Bachelor of Science, a student must complete one hundred and twenty-four semester hours of work. A student may not take in any one semester less than twelve or more than eighteen semester hours of work. It is strongly recommended that the student's curriculum include: first year, thirty-three semester hours; second year, thirty-two semester hours; third year, thirty-two semester hours; fourth year, twenty-seven semester hours. The adviser may permit a deviation from these hours to an extent of three semester hours. With the permission of the Dean, a student in the Health and Physical Education Group may take each semester two semester hours more than the maximum set for the other Groups.

In arranging his curriculum, every regular student must provide for meeting the following requirement: (a) six semester hours of the modern language offered for admission, provided the student passes a satisfactory achievement test at matriculation; or (b) twelve semester hours of the modern language offered for admission, if the student has not passed a satisfactory achievement test at matriculation; or (c) twelve semester hours of a modern language begun in college.

2. Six semester hours of English composition and literature (Course 1-2).

3. Six semester hours of history (Course 1-2).

4. Three semester hours of psychology (Psychology 1 or 2).

5. Three semester hours of philosophy.

6. Six semester hours of science with laboratory work.
7. Satisfactory completion of Course 101-2 in Physical Education by the end of the Second Year (not required of students in the Physical Education Group).

Of the groups outlined on the following pages, the History-Social Science, the English, the Modern Languages, and the Business Administration Groups lead to the degree of Bachelor of Arts. The Mathematics, the Chemistry-Biology, and the Health and Physical Education Groups lead to the degree of Bachelor of Science.

In the synopses of the groups as presented, prescribed courses are printed in small capitals. Figures designate courses as arranged by departments on preceding pages. Odd numbers refer to first semester, even numbers to second semester. Numbers in parentheses indicate semester hours.

Prescribed courses should be taken in the years in which they appear in the synopses.

ADMINISTRATION

GRADES OF SCHOLARSHIP

On the completion of a course the standing of a student is expressed, according to his proficiency, by one of six grades, designated respectively by the letters A, B, C, D, E, and F. Grade E denotes failure which may be made up by a satisfactory re-examination. Grade F denotes failure such that the course must be repeated.

Each student is required to do a grade of work that shall average C in the courses pursued in any one year, and, in the event of his failure to do so, he is credited with only the courses in which his grade is C minus or better.

A permanent record is kept of each student's work, and a report of the same is sent to his parents or guardian at the close of each semester. Through correspondence and conferences, the co-operation of parents is sought in the endeavor to obtain the best possible results in the work of students.

HONORS

COMMENCEMENT PARTS

Two commencement honors are assigned: one, the Valedictory, to the person attaining the highest standing in the graduating class; the other, the Salutatory, to the person attaining the next highest standing.

GRADUATION WITH DISTINCTION

Members of the graduating class who have shown great proficiency in their entire course may be graduated with distinction if, in the opinion of the Faculty, their attainments warrant such honors. These distinctions, *Summa Cum Laude*, *Magna Cum Laude*, and *Cum Laude*, are given only for unusual excellence in all the subjects pursued by the candidate.
Students may be graduated with special honors in departments of study in which they have shown exceptional proficiency, and in which they have done extra work.

1. A candidate for Department Honors must have the endorsement of the professor in charge of the department in which he expects to try for such honors, and must enroll as a candidate at the Dean's office not later than October 1st of the college year in which he expects to receive his degree.

2. A student must maintain a grade not lower than C in any course pursued after the first year and must maintain an average of B while he is pursuing his work as a candidate for Department honors.

3. A candidate must complete an amount of work equivalent to three semester hours in the department in which he intends to try for honors in addition to the full number of semester hours prescribed for graduation. At least twelve semester hours must be in the subject in which he is registered for Department Honors. He must submit to the Faculty a thesis on some subject within the field represented by his extra work. The thesis must be presented at least one week before the time set for the fourth-year final examinations.

PRIZES

THE PHILIP H. FOGEL MEMORIAL PRIZE

The Philip H. Fogel Memorial Prize of $25 is awarded annually to the member of the Senior Class who has attained the highest excellence in the Department of Religion, as shown by examination on completion of at least twelve semester hours of work. The prize has been endowed by Mrs. Edwin J. Fogel in memory of her son Philip H. Fogel, Ph.D., of the Class of 1901.

THE E. L. WAILES MEMORIAL PRIZE

The E. L. Wailes Memorial Prize of $20 is awarded annually to the member of the Freshman Class who has attained the highest standing in Courses 1 and 2 in the Department of
Religion. This prize has been established in memory of E. L. Wailes by his son, the Rev. George Handy Wailes, D.D., Professor of the English Bible in Ursinus College, 1908-1921.

**THE ROBERT TRUCKSESS PRIZE**

A prize of $20 offered by Robert Trucksess, Esquire, of Norristown, Pennsylvania, is awarded annually at commencement to the member of the graduating class who has pursued the studies of the History-Social Science Group with the definite intention of entering the profession of the law, and who in his college work has revealed superior ability and promise of success as a future member of the legal profession. The competition for this prize is open only to men.

**THE PAISLEY PRIZES**

Two prizes of $25 each for the best dissertations on an assigned topic by members of the senior class, one open to men, the other open to women, are offered respectively by Mr. and Mrs. H. E. Paisley, of Philadelphia. These prizes are offered with a view to encouraging students in the thoughtful application of the principles of Christianity to problems of practical life. The awards are made at the annual commencement exercises.

**THE ELIZABETH ROCKEFELLER MCCAIN PRIZE**

A prize of $50 has been endowed in perpetuity by the late George Nox McCain, Litt.D., of Philadelphia, as a memorial to his mother, Elizabeth Rockefeller McCain. This prize is awarded at each annual commencement to the student who at the end of the second year has shown greatest ability in the knowledge and use of the English language as indicated by work in composition and literature.

**THE BOESHORE PRIZES**

Two prizes of $25 each, endowed by Mr. and Mrs. Miller H. Boeshore of Philadelphia, one open to men, the
Ursinus College

other open to women, will be awarded at each annual commencement to those students who have attained the highest standing at the end of the first year in the study of Greek.

THE DUTTERA PRIZE

A prize consisting of the income of $500 contributed by Mrs. Amos Duttera of Taneytown, Maryland, to be awarded to the student attaining the highest standing in the study of church history (Religion, Course 6).

THE UR SINUS WOMEN'S CLUB PRIZE

A prize of $20, offered by the Ursinus Women's Club is awarded at graduation to the young woman who has attained highest distinction in athletic sports.

THE UR SINUS CIRCLE PRIZE

A prize of $15 offered by the Ursinus Circle, is awarded at Commencement to the young woman who has written the best pageant under the auspices of the Department of Public Speaking.

THE VARSITY CLUB TROPHY

For the encouragement and promotion of interest among the classes as well as for the inspiration of the individual to participate in track athletics, the Varsity Club offers a trophy to the college class which scores the greatest number of points in the annual Interclass Track and Field Meet. The award is made on commencement morning.

THE PRESIDENT'S AWARD

A gold medal bearing the Athletic Emblem of Ursinus College is awarded at graduation to the student who throughout his college course has won highest distinction in athletics. This medal is the gift of the President of the College.
THE INTRA-MURAL CHAMPIONSHIP AWARD

To promote competitive interest in intra-mural sports, the Athletic Council offers a trophy to the team that achieves the best record in these activities for the entire year.

DEGREES

Ursinus College confers two degrees in course—those of Bachelor of Arts and Bachelor of Science. For specific requirements see pages 63-65. Degrees are conferred only on academic occasions and candidates must present themselves in person. Persons seeking the Master's degree are referred to the graduate schools of universities.

The College may confer the honorary degrees of Doctor of Divinity, Doctor of Pedagogy, Doctor of Science, Doctor of Letters, and Doctor of Laws on persons whose distinguished ability or service may have been deemed worthy of such recognition by the Faculty.

ORGANIZATIONS

The two literary societies, the ZWINGLIAN and the SCHAFF, each having held a place of honor and great usefulness in the College from the earliest days, have suspended activity, their functions having been assumed by other organizations.

The Hall Chemical Society, the James M. ANDERS Pre-Medical Society, the English Club, the French Club, the German Club, the International Relations Club, the Manuscript Club, and the Pre-Legal Society, are organizations for the promotion of scholarly interest in various fields of study.

The Debating Clubs, Tau Kappa Alpha, and the Curtain Club foster interest and develop skill in their respective fields of expression.
The Young Men's Christian Association, the Young Women's Christian Association, and the Brotherhood of St. Paul represent active and helpful forms of religious life among the students.

The Student Government Associations, the Athletic Associations, the Varsity Club, Student Publications, the Men's and Women's Glee Clubs, the College Orchestra, the Band, and the Chapel Choir provide a wide range of extra-classroom activities for the exercise of special talents and the development of latent abilities.

Publications

The Ursinus Bulletin, of which the catalogue is a number, is the official publication of the College. It is issued quarterly and is distributed free of charge to the students and the public.

The Ursinus Weekly is managed by a Board of Control representative of the Faculty and the student body, and edited by a Staff chosen from among the students on a basis of merit. It is a four-page newspaper, invaluable to students and alumni as a record of life at Ursinus. It is issued on subscription at cost.

The Ruby, the Senior Class book, is a pictorial volume presenting an intimate view of the year's life, not only of the Class, but of the whole College. The book is sold at a price to cover cost.

Post Office and Supply Store

The College enjoys city mail delivery and there are convenient boxes for depositing outgoing mail. A Post Office is maintained on the campus for the accommodation of students. Adjacent to the Post Office is a Supply Store, in which is kept
on sale a full line of college jewelry, felt goods, stationery, confections, and students' supplies. New and second-hand books are supplied on order. The profits of the Store are used in the support of the College Library.

EXPENSES

Ursinus College is a residential college. All students, except those who reside in their own homes, occupy rooms provided by the College and take their meals in the College dining rooms. The expenses of the year are therefore comprehended in a single fee which covers class-room instruction; privileges of the library, the gymnasium, and the infirmary; ordinary medical attention; care by the resident nurse; subscription to the Ursinus Weekly; admission to all athletic games on the home grounds; support of debating, the Christian associations, and student government organizations; furnished room including heat, light, and attendance; and table board exclusive of the Christmas and Easter recesses. This fee is $675, to which $40 is added for students who occupy rooms on the first, second, and third floors of the Brodbeck and Curtis dormitories; $75 for those who reside in Clamer Hall, at 612 Main Street, and 944 Main Street; and $25 for those who enter in September, 1939, and thereafter, and who reside in Shreiner Hall, South Hall, Sprankle Hall, The Maples, Glenwood, Lynnewood, and Fircroft. The charge for a student attending College from his own home is $350. The College reserves the right to make reasonable alterations in the fee at the beginning of any semester in order to cover possible unforeseen losses.

Each resident student supplies his own towels, two pairs of sheets for a single bed, mattress protector, a pair of pillow cases (19 x 34), a pair of blankets, and a bedspread.

First-year students, except those whose presence is required for service, are requested to vacate their rooms immediately following the second semester examinations to provide accommodations for alumni attending commencement.
Extra charges to cover the cost of materials in laboratory courses payable on or before November 16th, are as follows:

A fee of $25 per semester is charged on the mid-semester bill to students engaged in practice teaching. For each additional semester of practice teaching the fee is $15.

To students taking entrance examinations a fee of $10 is charged, payable in advance.

A charge of $20 is made in the last bill of the senior year to cover graduation expenses.

A charge of $1 is made for the transcript of a student's record.

A deposit of $10 is required of each student to defray any expenses incurred by injury to property. The unexpended balance is returned to the student when he leaves the institution.

A student who is absent from College on account of sickness or for any other reason, and retains his place in class, pays the Comprehensive Fee in full during his absence, except when the absence is continuous over a period exceeding two weeks, in which case resident students are allowed a rebate of $5 for each full week, on account of table board. No remittance is allowed on account of dismissal or withdrawal of a student from the institution during a semester.

Inasmuch as the College provides a health service including a regularly appointed physician and a resident nurse, which service is open alike to all students of the institution, the College will not undertake to pay bills contracted by students with
physicians not in the service of the institution. The College maintains the right to enforce quarantine and to engage the services of a special attendant if necessary, but will not be responsible for the compensation of extra physicians, nurses, or attendants, which compensation must be provided by the student or his parent or guardian.

FEES FOR INSTRUCTION IN MUSIC

Private individual instruction: organ, piano, violin, voice, or any band or orchestral instrument, $30, one lesson each week, term of fifteen weeks. Violin, voice, or band and orchestral instruments in classes, $15 per term of fifteen weeks.

PAYMENT OF BILLS

A candidate for admission must pay $10 on account at the time he files his application. An enrolled student must pay $10 on or before April 24th of each year and $50 on or before August 15th in order to reserve a place for the ensuing year. These payments are forfeited if the student fails to complete his registration.

The yearly charge to the student is payable in two installments and must be paid on or before the dates designated as follows:

The bills may vary from the stated amounts in certain instances on account of location of rooms and laboratory charges. Bills are issued approximately thirty days in advance. Students whose accounts are still open will not receive credit for attendance upon classes after the dates of settlement announced above.

No student who is indebted to the institution or to any of its departments or agencies will be permitted to register at
the beginning of any academic year, and all items due the College from a candidate for graduation must be paid before the candidate may be presented for a degree.

*Checks should be made payable to Ursinus College.*

**SCHOLARSHIPS**

**MUSIC SCHOLARSHIP**

A scholarship of two hundred and fifty dollars is provided to assist a student who desires to specialize in music. The scholarship may be divided between two students if, in the judgment of the President and the instructors in the Department of Music, this seems advisable.

**PERMANENT SCHOLARSHIPS**

The College possesses a number of permanent scholarships. The income of each scholarship is assigned annually to a student designated by the College. The list of these scholarships is as follows:

SCHOLARSHIPS

The College offers to each class at admission six Open Scholarships of $300 each. Many endowed scholarships, varying in value from $50 to $200 a year, are available. Each scholarship is tenable for four years, provided that the holder's conduct and scholastic work remain satisfactory. All scholarships to first-year students are awarded on the basis of the results of competitive examinations held at the College. Correspondence regarding scholarships should be addressed to the Registrar.
Temporary scholarships in the amount of $4,000 have been provided by the Board of Directors to aid students in financial need. These scholarships will be available in 1938-39. They will be awarded only to students of superior academic attainments and only in cases of unquestioned need.

APPLICATION FOR SCHOLARSHIPS

Scholarship application forms may be obtained from the Office of the Registrar. Candidates for scholarships must complete and submit a scholarship application form and an application for admission form. The regular pre-matriculation fee of $10 must accompany the application. If a candidate fails to receive a scholarship award and, because of that fact, is unable to complete registration at Ursinus College, one-half of the pre-matriculation fee will be refunded upon request.

LOAN FUND

A loan fund has been established through gifts of individuals and an appropriation by the Board of Directors, out of which loans are made to upper-class students under a contract providing definitely for their repayment. Application must be made to the President of the College, who is custodian of the Fund.

BUREAU OF SELF-HELP

This bureau, conducted under the management of officers of the College, provides opportunities in which students may meet part of their expenses by serving in working positions in the institution. These positions are standardized so as to represent an amount of work not likely to overtax the physical resources of the student nor to interfere with his studies. Positions under the Bureau of Self-Help, however, always must be regarded as taking precedence over any extra-curriculum student activities. A standard position, as a waitership in the dining room, yields compensation amounting to one hundred
and seventy-five dollars for the year. About eighty positions, representing varying amounts and types of work, are open to students.

MEDICAL SERVICE

The regular fee paid by students entitles them to medical treatment without charge. The College Physician, whose aim is to maintain health as well as to treat disease, may be consulted in his office on the campus during office hours, and he will regularly visit patients lodged in the infirmaries or confined to their rooms. The Resident Nurse is in charge of the infirmaries, cares for the sick under the direction of the Physician, attends to minor ills and injuries, and lends her aid in maintaining physical health and efficiency among the students of the College.

Each student is given a physical examination on entering college, and is advised as to ways and means of maintaining health and fitness for work.

TEACHER PLACEMENT BUREAU

Ursinus College, through its Department of Education, conducts a Teacher Placement Bureau for assisting members of the Senior Class prepared for certification to obtain teaching positions, and to aid graduates in service to obtain advancement in the profession. This Bureau cooperates with the Placement Service, Teacher Bureau, Department of Public Instruction, Harrisburg, Pennsylvania, and the Pennsylvania State Teacher Placement Association, of which Ursinus College is a member. All of these services are free. Communications should be addressed to Professor Eugene B. Michael or Professor Jesse S. Heiges.
BUILDINGS AND EQUIPMENT

BUILDINGS

Bomberger Memorial Hall, named for J. H. A. Bomberger, President of Ursinus College, 1870-1890, is a large and imposing structure in the Romanesque style of architecture, built of Pennsylvania blue marble. This building is for the use of the departments of language and literature, the social sciences, history, philosophy, religion, public speaking, and music. In it are the chapel, twelve classrooms, six conference rooms, a seminar room, two music studios, two day studies, and the offices of the Dean, the Registrar, the Treasurer, and the Director of Student Teaching and Placement. The erection of Bomberger Hall was made possible by the benefactions of the late Robert Patterson. The Clark Memorial Organ, the gift of Mrs. Charles Heber Clark of Conshohocken, Pa., occupies a position in the front of the chapel in Bomberger Hall. The organ is a memorial to the late Charles Heber Clark, LL.D.

The Science Building, erected in 1931-32, is a fireproof structure, 186 feet in length and 96 feet in depth. The first floor and basement are devoted to work in psychology, education, mathematics and physics, the second floor to biology, and the third floor to chemistry. The building contains the office of the President, thirteen teaching laboratories, two laboratories for research, nine professors' laboratories, three temperature rooms, a dark room, a balance room, two storage rooms, vivarium and aquarium, six supply and preparation rooms, a machinery room, workshop, electrical control room, elevator, incinerator, seven classrooms, a lecture hall with gallery and projection booth, a library and reading room, two rooms for stenographers, and nine locker rooms, cloak rooms, and lounges.

The Alumni Memorial Library is a building of Chestnut Hill stone in Colonial style and planned in accordance with the latest ideas of library administration. The space on the
main floor is unbroken and provides one large hall surrounded by book shelves, and equipped for reading and study. In the wings adjoining are seminar rooms, workrooms, the office of the librarian, a faculty room, and a museum. In the space between the wings in the rear is a fireproof stack room planned for three tiers of stacks having a capacity of 60,000 volumes. This building, erected by the alumni and non-graduate former students, is a tribute to their fellows who served their country in the World War and a memorial to those who gave their lives in the service. On the walls of a beautiful marble vestibule are appropriate inscriptions.

The Thompson-Gay Gymnasium, built in 1927, occupies a convenient position adjoining Patterson Field. It is built of native brownstone, structural steel, and concrete. It contains a playing-floor, a gallery for spectators, locker rooms, shower rooms, coaches' offices, and storage rooms. At one end of the main floor is a completely equipped theatrical stage. Portable seating constitutes part of the equipment of the building. This building is a memorial to Robert W. Thompson, '12, and George H. Gay, '13, noted Ursinus athletes, both of whom died in their senior year in College.

Freeland Hall, the original building of Freeland Seminary, Derr Hall and Stine Hall constitute a group of buildings for domestic purposes. The buildings are of stone, four stories in height with a fifth story of dormer rooms. On the two lower floors are the dining rooms, four in number, the kitchen, storage and refrigeration room, and the office of the dietitian. The upper floors are fitted up for the residence of men students. The rooms are of varying size, designed for one or two occupants, a number being arranged en suite.

The Brodbeck and Curtis Dormitories for Men are new buildings of exactly the same size and design. They are in English Colonial style and are built of Chestnut Hill
stone. Each building has four floors. The rooms are spacious, well-lighted, and easy of access by means of fireproof stairways. They bear the names of esteemed benefactors of the College, Andrew R. Brodbeck and Cyrus H. K. Curtis.

**Shreiner Hall**, fronting on Main Street and facing the College campus, is a residence hall for women. This is a three-story brick building arranged for the accommodation of twenty-nine students. On the first floor are a reception room and the office of the Dean of Women.

612 Main Street, next to Shreiner Hall, is a residence hall for fourteen women and a faculty family.

**Trinity Cottage**, familiarly known as South Hall, is a residence for women located in Sixth Avenue. This building, with the grounds on which it is located, represents a joint benefaction to the college by the late Henry M. Housekeeper, who was an elder in Trinity Reformed Church, Philadelphia, and the late Abram G. Grater, who was an elder in Trinity Reformed Church, Norristown, Pa.

**The Maples**, a three-story building located on Main Street, opposite the east campus, a residence hall for women, has a capacity for thirty students.

**Glenwood, Fircroft, Clamer Hall**, and 944 Main Street are leased by the College and used as additional residence quarters for women.

**Lynnewood** is a private residence hall for students located off campus but convenient to the College.

**Sprankle Hall**, on the east campus fronting Fifth Avenue, provides apartments for women students and officers of the institution.

**Superhouse**, a residence on Main Street opposite the College grounds bequeathed to the College by the late Henry W. Super, D.D., LL.D., Vice President and Professor of
The College Library

Mathematics, 1870-1891, and Acting President, 1892-1893, and constituting a fitting memorial of his long and valued services to the institution, is the home of the Professor of French.

Highland Hall, located on Main Street about a ten minutes' walk west of the campus, is owned by the College and used for institutional purposes.

The Eger Gateway, a beautiful piece of work in Chestnut Hill and Indiana stone masonry and hand-wrought iron, was erected in 1925 by George P. Eger, of Reading, Pennsylvania, father of S. A. Eger, M.D., Class of 1925. It constitutes the entrance to the avenue leading to Freeland Hall.

THE COLLEGE LIBRARY

The College Library contains about thirty thousand volumes, selected mainly for the purpose of study, reference, and thoughtful reading. The Alumni Memorial Library Building is open every week-day from 8 a. m. to 6 p. m., and from 7 to 10 p. m.; on Sundays from 2 to 4 p. m. Each student is permitted to take out two volumes at a time. Special arrangements have been made which enable students to obtain books from Philadelphia libraries.

The reading room is supplied with foreign and American periodicals. The shelves contain several thousand volumes for ready reference, encyclopedias, dictionaries, and other books for particular use.
