Ursinus Wins $100,000 Challenge Grant

by Jennifer Basset

Ursinus College received a $100,000 Challenge Grant from the Pennsylvania Lottery fund. The grant, which is distributed by the Pennsylvania Higher Education Assistance Agency (HEAA), is designed to match state lottery funds, within the framework of the University of Pennsylvania, in order to raise awareness of the humanities departments and political science; Mrs. Geraldine Reiss, biology, and Dr. Frances Novack, French. The four new appointees are all volunteers at a local university. They majored in biology. He is a son of a professor of political science from the University of Pennsylvania last year, and was president of the Far East conference. Dr. Lee elaborated on the “open door” policy, which seemed to be, at least, an excuse for the United States to open the Far East to China and all of Western Europe combined. All of this was stated with utmost tact and diplomatic subtlety, so that the doctor understands that we are only human.

Dr. Lee said that the American press is inherently economically exploitative in nature. Dr. Lee elaborated on the “open door” policy, which seemed to be, at least, an excuse for the United States to open the Far East to China and all of Western Europe combined. All of this was stated with utmost tact and diplomatic subtlety, so that the doctor understands that we are only human.

Art and Loneliness

by Robert Brincatelli

"Then Talk to Me!"

Well let me tell you then that if you should want to survive, you can’t just try. You can’t just try. And you have to be loved. There are no rules or procedures for surviving politely. In fact, you can’t survive at all. "Politely" it doesn’t happen. Survival is tough.

Why?

There are two classes of people mauling about. There are those whom you know, and those whom you are not sure of by now. The former are your enemies, but the latter are your friends.

"I don’t understand."

Don’t worry, not many people do understand. Enemies remain a known factor, a quantity. You will always know them as enemies, and you will know what they are capable of. Your friends are may be untouchable. Often they will hurt you, often they will lie, and sometimes they will hate. It’s not a pleasant picture. But then again, what is loving anyone? It is pleasant, or easy. Perhaps those faces lurking in the shadows are not as much of a menace as you think. I know that friends they never were. There is no such animal as a group of friends, but there is a plague of acquaintances.

"I want to tell you then to watch your "acquaintances" know your friend, and talk to yourself. I cannot talk to you. You understand. It is "essential to be known." You are confined to that shell of illusion, and biochemical reflex reactions. By nature you are a loner. You need no group, no cliques, no belonging.

Best Paper to Receive Prize

A $100 cash prize is to be awarded by the American Health Foundation’s quarterly journal, PREVENTIVE MEDICINE, to the student author of the best original paper on the subject of physical fitness. The deadline for receipt of papers is January 31, 1978, and the contest is open to any student, except postdoctoral students currently enrolled in undergraduate or graduate school.
