HISTORICAL STATEMENT

The beginning of educational work on the grounds occupied by Ursinus College was in Todd's School, opened in 1832 "for the use of the neighborhood and its vicinity," the tract on which the school was located having been donated by Andrew Todd.

In the year 1848, a school for the higher education of young men was established on the tract adjoining that of Todd's School, now central in the campus. The school was named "Freeland Seminary." Within a period of twenty years, more than three thousand young men from Pennsylvania, New Jersey, Maryland and Delaware received their education at this school.

In 1868, a body of men, actuated by a desire to serve the interests of higher education and evangelical Christian religion, met in the city of Philadelphia and resolved to found "an institution where the youth of the land can be liberally educated under the benign influence of Christianity." Ruled by this desire, they chose as the name of their institution that of one of the most distinguished reformers and scholars of the Reformation period, Ursinus, of the University of Heidelberg.

The Act of Incorporation under which Ursinus College is conducted was granted by the Legislature of Pennsylvania, February 5, 1869, and is as follows:

AN ACT

TO INCORPORATE UR SINUS COLLEGE

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, that there shall be and hereby is erected, established and incorporated in Upper Providence Township, in the County of Montgomery, in this Commonwealth, an institution of learning, for the purpose of imparting instruction in Science, Literature, the Liberal Arts and Learned Professions by the name, style and title of UR SINUS COLLEGE.
SECTION 2. Said College shall be under the care and management of a Board of Directors not exceeding twenty-one in number, who, with their successors in office, shall be and are hereby declared to be one body politic and corporate in deed and in law, to be known by the name, style and title of Ursinus College, and by the same shall have perpetual succession, and shall be able to sue and be sued, plead and be impleaded in all courts of law and equity, and shall be capable in law and equity to take, hold and purchase for the use and benefit of said College any estate in any messuages, lands, tenements, goods, chattels, moneys and other effects of any kind whatever, by gift, grant, bargain, sale, conveyance, assurance, will, devise or bequest from any person or persons, body politic or corporate, either municipal or otherwise whatsoever capable of lawfully making the same, and the same from time to time to grant, bargain, sell, convey, mortgage, farm, let, place out at interest, or otherwise dispose of for the use and benefit of said College; Provided, however, That no bequest or donation made to and accepted by said Board for specific educational objects shall ever be diverted from the purposes designated in the conditions of such gift and acceptance.

SECTION 3. That the Board of Directors shall have power to establish, from time to time, in said College, such departments of study and instruction as they may deem expedient, and to provide libraries, apparatus, cabinets, endowments and all other needful aids for imparting full and thorough courses of instruction therein. They may appoint a faculty or faculties, professors, lecturers and teachers, prescribe their respective duties, fix their compensation, and remove them, or any of them, as, from time to time, the interests of the College may require; they shall have power to purchase or erect buildings for the accommodation of students, professors and officers, and for other needful purposes; to establish rules and regulations for the government of students and officers, and to do all and singular such other things and matters as may be requisite for the well ordering and proper management of the affairs of said College.

SECTION 4. That the said Board of Directors shall at first consist of the persons herein named, to wit: James Koons, Sr., J. Knipe, W. D. Gross, H. W. Kratz, A. Kline, H. K. Harnish, Abraham Hunsicker, Sr., J. W. Sunderland, John Wiest, A. W. Myers, H. H. W. Hibshman, A. Van Haagen, J. H. A. Bomberger, J. G. Wiehle, J. Dahlman, Jr., Emanuel Longacre, George Schall, W. L. Graver, William Sorber, Nathan Pennypacker, N. Gehr, who, or any nine of them, on the passage of this act, or at any time within three months thereafter, may meet and organize by electing a President and Secre-
tary, and accepting this act, the evidence of which shall be the duly authenticated record of such meeting and action.

SECTION 5. That the Board of Directors shall have power to fill all vacancies in their own body, to expel any member thereof who shall be guilty of infamous conduct and to declare vacant the seat of any member who shall have, for three consecutive years, failed to attend the stated meetings of the Board; to appoint, from time to time, such additional officers and agents of their own body as may be deemed requisite, including a Treasurer, who shall always give ample security for the funds entrusted to his keeping; to adopt a common and corporate seal, by and with which all deeds, certificates, appointments and acts of said Board, signed by their President and attested by their Secretary, shall pass and be authenticated, and the same seal at their pleasure to break, alter or renew.

SECTION 6. That the said Board of Directors, at any meeting subsequent to their organization called for the purpose, and of which due notice shall have been given to each member, may adopt and establish a Constitution and By-Laws for the government of their own body, not inconsistent with this act, the laws of the State or the laws of the United States, which Constitution and By-Laws shall not thereafter be altered, amended or repealed except in the manner therein provided.

SECTION 7. That the faculty of any organized department in the College may, with the advice and consent of the Board of Directors, and under such regulations as they may prescribe, confer the degrees, honors, and dignities usually conferred by similar departments in the Colleges and Universities of this Commonwealth.

SECTION 8. That no misnomer of this corporation shall defeat or annul any gift, grant, devise or bequest to or from the said corporation: Provided, The intent of the parties shall sufficiently appear upon the part of the gift, grant, will, or other writing whereby such state or interest was intended to pass to or from said corporation.

The corporation was organized at a meeting of the Directors held in the city of Philadelphia, February 10, 1869. A permanent seat for the College was sought near Philadelphia. Attracted by the beauty of the region of Perkiomen Bridge, where Freeland Seminary had flourished for twenty years, and impressed by the reputation of the community for its interest in education, the Board of Directors purchased the property of Freeland Seminary, and incorporated the latter into Ursinus
Historical Statement

College as its preparatory department. About this time the United States postal authorities named the post office at Perkiomen Bridge, Collegeville. Instruction was begun September 6, 1870. In 1881 the doors of the College were opened to women. The Academy was discontinued in 1910.

The Ursinus School of Theology was organized June 1, 1871, and opened for instruction the following September. The School was conducted at Collegeville in connection with the College till 1898, when it was removed to Philadelphia. March 8, 1907, a Compact of Union was ratified by the Board of Directors of Ursinus College, by which the instruction of the Ursinus School of Theology is conducted in the Central Theological Seminary, located at Dayton, Ohio.

Collegeville is on the Benjamin Franklin Highway and is twelve miles distant from the Lincoln Highway. It is easy of access by the Philadelphia and Reading Railway from Philadelphia, Allentown or Reading. Electric cars connecting Collegeville with Pottstown, Norristown and Philadelphia pass the College campus. The College grounds cover sixty-six acres, including an improved campus of twelve acres, tennis courts, athletic fields, and several fields for agriculture.

NEEDS

The College constantly employs fully the equipment and resources at its disposal. The steady growth of the institution should encourage its friends to provide for its further needs. The following present exceptional opportunities for gifts and memorials: endowment of scholarships, $2,000 to $5,000 each; endowment of professorships, $50,000 and upwards; general endowment funds, $500 and upwards; a woman’s building, $150,000; science building endowment, $300,000; an infirmary, $25,000. The counsel of the President of the College should be sought with a view to securing the most advantageous cooperation on the part of benefactors.
GIFTS AND BEQUESTS

It is the judgment of those who have had the responsibility of disposing of large fortunes that Education furnishes the most promising field for benevolence. The great philanthropic foundations after discriminating scientific inquiry into the ways and means of doing good with accumulated wealth, have made Education their chief objective. The findings of these philanthropic agencies may be accepted for the guidance of others.

The practice of making donations during one's life rather than making bequests to be executed after death is recommended. In this way the donor has absolute assurance that his wishes are being carried out, he has the satisfaction of seeing his gift bearing fruit in the improved work of the institution, and he avoids the deflection of part of his proposed gift in the form of inheritance taxes.

In cases in which the donor needs the income of his estate in order to live, a very satisfactory arrangement is provided in Ursinus College Annuity Bonds which the College issues in exchange for cash or property. Annuity Bonds guarantee a fixed income to the donor payable semi-annually during the period of his natural life, at the end of which the bonds become null and void and the gifts which they represent continue as permanent possessions of the College.

When, however, it is decided to make a bequest care should be taken to have all testamentary papers signed, witnessed and executed in strict accordance with the statutory laws of the State in which the testator resides. In all cases the name of the corporation should be accurately given, as in the following form:

I give, devise and bequeath to Ursinus College, located at Collegeville, Montgomery County, Pennsylvania, their successors and assigns forever, the sum of ........................................ dollars, for its several corporate purposes (or name the particular corporate purpose desired by the testator).

ADMISSION

The first step in seeking admission to Ursinus College is the filing of a formal application together with a preliminary statement of qualifications by the applicant. Application blanks may be had by addressing the College. The College then secures from the school in which the applicant has been prepared a certificate embodying the school record of the candidate. All certificates of preparation should be sent by the school principal directly to the Dean of the College, by whom they are evaluated. Inquiry is made further into the character and fitness of the candidate to do the work of this institution, and if found qualified the applicant is notified and a place reserved for him in the College. The process of matriculation is continued in the actual trial of all applicants during the first semester, at the end of which time their status as candidates is finally determined.

Students from high schools, academies and normal schools approved by the faculty, or from other colleges, and candidates who have passed the examinations of the College Entrance Examination Board are admitted on certificate. Consideration is given to the length of time spent in preparation, the grades attained and the rank in class. In the case of well prepared candidates admission may be granted with conditions as to specific subjects. Applicants from the lower third of their class in the preparatory school are not admitted on certificate but will be admitted to the entrance examinations.

Applicants who desire admission by examination will present themselves for such examination at the Dean's Office in Bomberger Hall, on Monday and Tuesday, September 19 and 20, 1933, at the opening of the collegiate year.

Every candidate admitted to College will be examined in four major subjects of his preparatory course and will be given an intelligence test with a view to determining his proper classification.
TERMS OF ADMISSION

The unit used in determining the value of a study presented in satisfaction of the requirements for admission represents, in general, a year's study in the subject in a secondary school, constituting approximately a quarter of a full year's work. The time element involved in the evaluation of college preparatory work should be given due consideration by teachers and pupils in secondary schools.

CANDIDATES FOR THE DEGREE OF BACHELOR OF ARTS

Applicants for admission intending to present themselves as candidates for the degree of Bachelor of Arts at graduation must present 15 units from the following list. The studies printed in capitals are prescribed:

A limited number of applicants for admission may be received as Special Students provided they have satisfactory preparation for the college courses which they desire to pursue.

When admitted, special students are enrolled as members of the groups they choose to enter and are under the direction of the regular advisers. Special students must register for at least twelve hours of work in each semester, and are held accountable for the satisfactory completion of courses for which they
Admission register. They are subject to the same regulations as other students.

ADMISSION STUDIES

The studies which may be presented in satisfaction of the requirements for admission are set forth below. A candidate must present, either by examination or by certificate, satisfactory evidence of preparation in such of these studies as he may offer in accordance with the requirements in each as defined:

ENGLISH

Habits of correct, clear, truthful expression. This part of the requirement calls for a carefully graded course in oral and written composition, and for instruction in the practical essentials of grammar, a study which should be reviewed in the secondary school. In all written work constant attention should be paid to spelling, punctuation, and good usage in general as distinguished from current errors. In all oral work there should be constant insistence upon the elimination of such elementary errors as personal speech-defects, foreign accent, and indistinct enunciation.

Ability to read with intelligence and appreciation works of moderate difficulty; familiarity with a few masterpieces. This part of the requirement calls for a carefully graded course in literature. Two lists of books are provided from which a specified number of units must be chosen for reading and study. The first, designated as "Books for Reading," contains selections appropriate for the earlier years in the secondary school. These should be carefully read, in some cases studied, with a measure of thoroughness appropriate for immature minds. The second, designated as "Books for Study," contains selections for the closer study warranted in the later years. The progressive course formed from the two lists should be supplemented by home reading on the part of the pupil and by class-room reading on the part of pupils and instructor. It should be kept constantly in mind that the main purpose is to cultivate a fondness for good literature and to encourage the habit of reading with discrimination.
A. BOOKS FOR READING
LIST FOR 1933-34

From each group two selections are to be made, except that for any book in Group V a book from any other may be substituted.

GROUP I.—Cooper: *The Last of the Mohicans*; Dickens: *A Tale of Two Cities*; George Eliot: *The Mill on the Floss*; Scott: *Ivanhoe* or *Quentin Durward*; Stevenson: *Treasure Island* or *Kidnapped*; Hawthorne: *The House of the Seven Gables*.

GROUP II.—Shakespeare: *Merchant of Venice*, *Julius Caesar*, *King Henry V*, *As You Like It*, *The Tempest*.

GROUP III.—Scott: *The Lady of the Lake*; Coleridge: *The Ancient Mariner*; and Arnold: *Sohrab and Rustum*. A collection of representative verse, narrative and lyric. Tennyson: *Idylls of the King* (any four). *The Aeneid* or the *Odyssey* or the *Iliad* in a translation of recognized excellence, with the omission, if desired, of Books I-V, XV, and XVI of the *Odyssey* and Books XI, XIII-XV and XXI of the *Iliad*; Longfellow: *Tales of a Wayside Inn*.

GROUP IV.—*The Old Testament* (the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther); Irving: *The Sketch Book* (about 175 pages); Addison and Steele: *The Sir Roger de Coverley Papers*; Macaulay: *Lord Clive*, or *History of England*, Ch. III; Franklin: *Autobiography*; Emerson: *Representative Men*.

GROUP V.—A modern novel; a modern biography or autobiography; a collection of short stories (about 250 pages); a collection of contemporary verse (about 150 pages); a collection of scientific writings (about 150 pages); a collection of prose writings on matters of current interest (about 150 pages); a selection of modern plays (about 150 pages). All selections from this group should be works of recognized excellence.

B. BOOKS FOR STUDY
LIST FOR 1933-34

One selection is to be made from each of Groups I and II, and two from Group III.

GROUP I.—Shakespeare: *Macbeth*, *Hamlet*.

GROUP II.—Milton: *L'Allegro*, *Il Penseroso*, and either *Comus* or *Lycidas*; Browning: *Cavalier Tunes*, *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Home Thoughts from
Admission

GROUP III.—Burke: Speech on Conciliation with America; Macaulay: Life of Johnson; Lowell: On a Certain Condescension in Foreigners, and Democracy; Lincoln: Speech at Cooper Union, Farewell to the Citizens of Springfield, Addresses at Indianapolis, Albany and Trenton, the Speeches in Independence Hall, the Two Inaugurals, the Gettysburg Speech and his Last Public Address, together with a brief memoir or estimate of Lincoln; Carlyle: Essay on Burns with a brief selection from Burns's Poems. Three units.

LATIN

The Latin reading required for admission of candidates for the degree of Bachelor of Arts, without regard to the prescription of particular authors and works, is not less in amount than Cæsar: Gallic War, I-V; Cicero: the orations against Catiline, for the Manilian Law, and for Archias. Whenever possible Vergil's Æneid, I-VI, should be included in the student's preparation.

The amount of reading specified above should be selected by the schools from the following authors and works: Cæsar: Gallic War and Civil War; selections from Aulus Gellius, Eutropius, Nepos, Phaedrus, Quintus Curtius Rufus, and Valerius Maximus; Cicero: orations, letters, and De Senectute; Pliny; Sallust: Catiline and Jugurthine War; Vergil: Bucolics, Georgics, and Æneid; and Ovid: Metamorphoses, Heroïdes, Fasti, and Tristia. Three or four units.

GREEK

The candidate must show a mastery of the common forms, idioms and syntax of the language, and must know the rules of accent and their changes. He will be required to translate simple English sentences into Attic Prose, and translate, at sight, passages of ordinary difficulty taken from Xenophon. The following books will meet the requirement: White: First Greek Book, or an equivalent; Xenophon: Anabasis, books I-IV. Two units.

FRENCH

Elementary French. The candidate should be able to pronounce French accurately and possess a thorough knowledge of the rudiments of grammar. He should be able to read at sight easy dialogue and modern French prose, and is required to put into French simple
English sentences; to give abstracts of the portions of the texts already read; and to write French from dictation. He should have read from one hundred to one hundred and seventy-five pages of graduated French texts and from two hundred and fifty to four hundred pages of easy modern prose in the form of stories, plays, or historical or biographical sketches. To meet this requirement two years' work will generally be necessary. **Two units.**

*Intermediate French.* This should comprise the reading of four hundred to six hundred pages of French of ordinary difficulty, including at least two works of a dramatic character, the constant practice in giving French paraphrases, abstracts or reproductions from memory of selected portions of the matter read, the study of a grammar of moderate difficulty, and writing from dictation. At least one additional year of study will be necessary to meet this requirement. **One unit.**

**SPANISH**

*Elementary Spanish.* The work should comprise constant drill in pronunciation, the rudiments of grammar, including the conjugation of the regular and more commonly used irregular verbs, the inflection of nouns, adjectives, and pronouns, and the general rules of syntax. There should be daily practice in translating at dictation Spanish into English and English into Spanish. Some 300 pages from representative modern authors should be carefully read. **Two units.**

*Intermediate Spanish.* This should comprise the reading of three hundred pages of modern Spanish of ordinary difficulty, a portion to be in the dramatic form; constant practice in giving Spanish paraphrases, abstracts, or reproductions from memory of selected portions of the matter read; the study of a grammar of moderate completeness; writing from dictation. **One unit.**

**GERMAN**

*Elementary German.* The candidate must possess an accurate knowledge of the rudiments of grammar. He should give special attention to the acquisition of a good pronunciation and to the memorizing and frequent repetition of easy colloquial sentences, and cultivate readiness in the reproduction of natural forms of expression. He is expected to have read from seventy-five to one hundred pages of graduated texts from a reader, and from one hundred and fifty to two hundred pages of literature in the form of easy stories and plays. He must be able to read, at sight, easy dialogue or narrative prose; to put into German short English sentences taken from the
language of everyday life and based upon the text offered for translation; and to reproduce in an offhand way, both orally and in writing, the substance of short and easy selected passages. Two units.

Intermediate German. An additional unit representing a third year's work, and comprising the reading of at least three hundred pages of moderately difficult prose and poetry, may be offered. Continued attention should be given to the grammar, including the less usual strong verbs and the syntax. Suitable reading for the third year may be found in such texts as Wildenbruch: Das edle Blut; Eichendorf: Aus dem Leben eines Taugenichts; Riehl: Das Spielmannskind, Der stumme Ratsherr; Freytag: Die Journalisten; Moser: Der Bibliothekar; Schiller: Das Lied von der Glocke, Balladen; Goethe: Hermann und Dorothea. One unit.

HISTORY

Ancient History. The Orient should be surveyed with special reference to contributions to later civilization; Greece should be studied in outline to the time of the Persian wars and with thoroughness from that time to the death of Alexander. After Alexander emphasis should be laid on the philosophy, literature, art and religious cults to which Rome became heir. The second half of the year should be devoted to Rome, proceeding rapidly to about 300 B.C. and from that point to the death of Marcus Aurelius, the work should be relatively detailed and thorough. The study should be brought down to 800 A.D. One unit.

European History. If the course embraces Mediaeval and Modern European history emphasis should be given to the contributions of the Roman Empire, the Germans, and the Christian Church to mediaeval civilization. The structure of feudal society, the Crusades, the formation of the European states, the phases of the Renaissance and the Reformation and the discoveries outside of Europe should be stressed. If Modern European history only is included in the preparation, emphasis should be given to the absolute monarchy of Louis XIV, colonial expansion and rivalries, the constitutional monarchy in England, the despotism of Frederick the Great, the republican government of France, the Napoleonic epoch, and the main facts in the political development of Europe since 1815. One unit.

English History. Only brief reference to the period before 1066 need be made. Up to the time of the Tudors the treatment should be topical rather than exhaustive. The Norman Conquest, relations with France, Scotland and Ireland, Magna Charta, the rise of parlia-
mentary government, developments in the Christian Church, the struggle between Crown and Parliament, the wars with France including commercial and colonial expansion in America and the East, the revolt of the American colonies, the revolution in agriculture, industry and transportation are among the topics with which the candidate should be made familiar. Attention should be given to important epochs, movements and personalities rather than to the reigns of monarchs. One unit.

*American History.* The period prior to 1763 may be treated briefly and about equal attention should be given to the periods up to and after 1865. Careful attention should be given to map studies. The subjects of territorial expansion and social and industrial growth should receive ample consideration. In the later period the foreign policy of the United States, the tariff, banking, civil service, currency, trusts, conservation of natural resources, capital and labor and immigration constitute the more important topics. Familiarity with the lives and public services of great Americans should be especially encouraged. One unit.

*World History.* A world survey, that shall show in broad perspective how Man has learned to live the group life, to associate with his fellows; one that shall deal with essentials only but without loss of sequence, and so grouped as to show the outstanding epochs through which the race has struggled on its way up from savagery to civilization.

Such a one-year course will necessarily be extensive in character, though time can easily be found for committee reports and class discussions on especially interesting and important topics. Care must be taken that "extensive" shall not become a synonym for "superficial." One unit.

**SOCIAL SCIENCE**

*Problems of Democracy.* Young people face social problems, not social sciences; but they must go to these sciences for explanations and possible solutions. Accordingly, this course should train the pupils to read, to think, to weigh evidence; in short, to learn the elementary technique of investigation. As an important by-product, a solid foundation will have been laid for the social sciences—economics, political science, and sociology. To accomplish this result, free use must be made of the fundamental concepts and theories; and care must be taken not to confuse problems with remedies. One unit.

*Government.* A course in the fundamentals of American government—local, state and national. Comparison should be made between
the English Cabinet or Parliamentary system and our own non-Parliamentary or Presidential system. Considerable attention must be given to the newer experiments in government and to the organization and work of political parties. *One-half unit.*

*Economics.* An introductory study of the production, distribution, and consumption of wealth, and of Man in his relation to wealth.

Constant application of the underlying theories should be made to problems of the day, in order that the pupils may learn to *use* Economics and not simply learn *about* the subject. *One-half unit.*

**MATHEMATICS**

*Arithmetic,* with the metric system of weights and measures, as much as is contained in Wentworth's Advanced Arithmetic. *Elementary Algebra,* including Variation and the Binomial Theorem, as in Wells's Essentials of Algebra, or its equivalent. *Plane Geometry,* complete as in Phillips and Fisher's Plane Geometry, or its equivalent. *Two and one-half units.*

*Solid Geometry,* as contained in Phillips and Fisher's Geometry of Space, or its equivalent. *One-half unit.*

*Algebra* continued, to include The Progressions, Choice and Chance, Partial and Continued Fractions, Graphical Representation, Complex Numbers and Logarithms, as contained in Hawkes's Advanced Algebra, or its equivalent. *One-half unit.*

*Plane Trigonometry,* as in Ashton and Marsh's Plane and Spherical Trigonometry, Chapters I-IV and VI, or its equivalent. *One-half unit.*

**SCIENCE**

*Physics.* Instruction should include the use of a textbook suitable for secondary schools, lectures with emphasis on demonstrations to illustrate qualitative aspects and practical applications, recitations including the solution of problems in which the pupil should be encouraged to use the simple principles of algebra and geometry, and individual laboratory work requiring at least the time of twenty-five double periods. The experiments performed by each pupil should number at least twenty-five. The aim of laboratory work should be to cultivate accurate observation and clearness of thought and expression. Attention should be paid to common illustrations and to industrial and household application of physical laws. *One unit.*

*Chemistry.* The preparation should emphasize the general principles which are involved in the laboratory and textbook study and should give the student a comprehensive and connected view of the
most fundamental facts and laws of elementary chemistry and their applications. The individual laboratory work should comprise at least thirty experiments. The properties of elements and compounds studied should be those which serve for recognition, or illustration of a chemical principle, or relate to some important household or industrial use. It should be an aim of the teacher to emphasize the importance of chemistry in the industrial and economic growth of our modern civilization. *One unit.*

**Physical Geography.** The most essential facts comprehended under such topics as the Earth as a Globe, the Ocean, the Atmosphere and the Land. The preparation should include the study of a good secondary school textbook and individual laboratory work comprising at least twenty exercises. From one-third to one-half of the classroom work should be devoted to laboratory exercises, which in fall and spring may be supplanted by field trips. *One-half unit.*

**Botany.** The candidate’s preparation should include the structure, physiology, life-history and classification of plants together with the relation of the latter to human welfare in such matters as food, clothing, medicine, fuel, furniture, building and decoration. At least one-half the time should be devoted to practical studies in the laboratory. *One-half unit.*

**Zoölogy.** The study of the structure, physiology, life-history and classification of animals and their relation to human welfare covering such subjects as the economic value of insects, their relation to disease, methods of extermination, the economic value of birds, necessity of bird protection, etc. At least one-half of the classroom work should be devoted to laboratory exercises. *One-half unit.*

**Physiology.** Human physiology involving the essentials of deglutition, digestion, absorption, circulation, respiration, secretion, excretion, locomotion and nervous functions. The subject as presented in any good secondary school textbook will be acceptable. *One-half unit.*

**MECHANICAL DRAWING**

Thoroughness in fundamentals should be the main feature of the preparation. The right use of drawing instruments, the primary principles of projection, and accuracy in work should be made matters of drill. Ability to use some standard form of single stroke free hand lettering and the proper method of inserting explanatory notes should be developed. The time required to accomplish the work should be approximately 100 hours. *One-half unit.*
GOVERNMENT

A student whose application for admission to college has been approved by the Faculty, becomes a member of the institution by matriculating at the Dean’s office. Until students have fully completed their matriculation (see page 24) they are not permitted to represent the college in any public performance except the regularly constituted Freshman athletics.

REGISTRATION

All students must register at the opening of the college year for the work of the whole year, and will not be allowed to change their registration or drop courses of study, later than one week after Registration Day except by special permission of the Faculty. A fee of One Dollar is charged for registration on days other than those appointed for the registration of students in the college calendar.

ABSENCES

Students are expected to pursue their work without interruption or absence from any academic exercises whatever. On account of exigencies such as sickness, the death of a relative, or duty away from college as a representative of the institution, a student is allowed as many absences in any course as twice the number of exercises per week in that course. A student who is absent beyond this limit will be dropped from the course unless permitted to continue by the Dean and the professor in charge in which case he must make up the work omitted and take an Extended Examination for which a fee of Five Dollars is charged. Absences are counted from the first class exercises in any subject, and at the beginning or end of a semester and immediately preceding and following a recess they count double. No excuses for absence are granted.

Students of the Third and Fourth years who, in the preceding semester, received no grade lower than B are placed on their own responsibility for attendance upon classes.

A student who absents himself from a test previously announced must take a special test for which he must pay a
fee of One Dollar on securing the permit for the same at the Dean’s Office.

GROUP ADVISERS

At the beginning of the year the Faculty appoints from its own number an Adviser for the students in each of the seven Groups in which the courses of instruction are offered. He is the medium of communication between the Faculty and the students of his Group. The approval of the Group Adviser is necessary before a student may register for or enter upon any course of study, or discontinue any work.

COUNSELORS

Each First Year student is assigned to a member of the Faculty who is his Counselor for friendly advice and guidance in the making of personal and social adjustments and in the correlation of his intellectual interests with the curriculum requirements.

PUBLIC WORSHIP

Students are required to attend religious services in the college chapel each day of recitations, except Saturday, and are expected to attend services on Sunday morning in some adjacent church of their own or their parents’ choice. Attendance is also required at all special public exercises appointed by the Faculty. A student may not be absent from chapel services and other public exercises appointed by the Faculty more than eight times in a semester without having been excused. For each absence in excess of this number he will be given five demerits.

COLLEGE PRINCIPLES

The College is committed both in principle and by tradition to a policy which opposes unnatural distinctions among its students. Equal opportunity for all is provided and a wholesome spirit of fraternity throughout the entire body is encouraged. A
Government

system of student government for young men, with powers inhering in a central representative body known as the Council, maintains order and encourages self-control in social and civil affairs. The life of the young women also is regulated through a system of self-government administered by the women students of the College. Since the institution is organized on the group basis, class rivalry and its attendant evils are extraneous. Each student pledges himself on admission to abstain from every form of rushing or hazing. The aim of the institution is to train its students, through the performance of their social and civil obligations and duties, in those virtues which will fit them for the extraordinary responsibilities of educated men and women in after life. With this in view, the College reserves the right to exclude at any time students whose conduct or academic standing renders them undesirable members of the college community, and in such cases the fees due or which may have been paid in advance to the College will not be refunded in whole or in part.

DOMESTIC LIFE

The College aims to provide thoroughly healthful, wholesome and homelike conditions in the residences for both young men and young women. The boarding department is made an educational asset in the institution. All resident students take their meals in well-lighted and well-ventilated dining rooms constructed on thoroughly sanitary lines. The meals are prepared in a spacious, well-lighted, sanitary kitchen with complete modern equipment.

By controlling the conditions under which the students live, the College provides a physical basis for its higher functions that insures not only health of body and joy of life, but greatly promotes mental efficiency and success in intellectual pursuits.
COURSES OF INSTRUCTION

In designating courses of study, *odd* numerals are employed to represent the work of the first semester and *even* numerals the work of the second semester. When a single numeral is employed the work represented constitutes a semester course. When two numerals are employed the work represented constitutes a year course. When the numerals are connected with a hyphen the course may be entered only at the opening of the year. When the numerals are separated with a comma, the course may not be discontinued, but may be entered at mid-year for the work of the second semester.

The credit value of each course, expressed in semester hours, is printed in italics. The hours per week are given in the definition of the course.

**BIOLOGY**

**Professor Brownback, Assistant Professor Old, Miss Snell**

1. **Sanitation and Hygiene.** Study of the structure and physiology of systems in relation to personal hygiene. Lectures, papers and discussions. Two hours per week. *Two semester hours.*

   Course 1 is elective for First year students in all the groups.

3-4. **General Biology.** A survey of the biological facts and problems of the plant and animal kingdom. One semester is devoted to the study of Zoology, the other to Botany. In both instances correlated laboratory and lecture work is definitely planned. Two hours lecture and four hours laboratory work. *Eight semester hours.*

6. **Advanced Botany.** A course designed to acquaint the student with the principles of taxonomy and plant ecology. Lectures and discussions followed with field and laboratory work. Prerequisite, Course 3-4. *Two semester hours.*

7-8. **Vertebrate Anatomy.** The comparative anatomy and relationships of the chordates. Prerequisite, Course 3-4. One hour lecture and six hours laboratory work. *Eight semester hours.*

9-10. **Histology and Embryology.** A course in the preparation and study of tissues and in the embryology of the chick. Prerequisite, Course 3-4. One hour lecture and six hours laboratory work. *Eight semester hours.*

   Course 7-8 alternates with Course 9-10. Course 7-8 will be given in 1933-34.

11-12. **Heredity.** Designed to familiarize the student with the recent work in heredity and its social applications. Open to
Courses of Instruction

students who have had no biological training. Lectures, papers and discussions. Two hours per week. *Four semester hours.*

Course 11-12 is open to Third and Fourth year students only.

15-16. **GENERAL PHYSIOLOGY.** The study of the physical, chemical and physico-chemical processes taking place in living matter. Prerequisite, courses 3-4, 7-8 or 9-10 and Chemistry 1-2 and 7-8. Opportunity is given for students to investigate assigned problems at times other than regular hours. One hour lecture and six hours laboratory work. *Eight semester hours.*

17-18. **ANATOMY AND PHYSIOLOGY.** The human skeleton; muscular, respiratory, and circulatory systems; the internal organs; the special senses; all considered with reference to structure and function; secretion, absorption and elimination. Models, charts, and parts of the human cadaver. Three hours per week. *Six semester hours.*

Course 17-18 is prescribed for students in the Physical Education Group.

**Note.—** A working knowledge of the leading biological contributions to present-day thought is presented in Courses 3-4 and 11-12. Students of the Chemistry-Biology Group taking their major work in biology must complete not less than twenty-four hours of work in the department. In most cases, this requirement will be met by taking courses 1, 3-4, 7-8 or 9-10, and 11-12. Such students will also be expected to take Chemistry 1-2 and 7-8, and Physics 1-2. Prospective medical students taking the full college course should take Courses 1, 3-4, 7-8, 9-10, and 15-16 if possible.

**CHEMISTRY**

**Professor Beardwood, Professor Sturgis, Dr. Allison**

1-2. **GENERAL CHEMISTRY.** The facts, theories and laws of general chemistry presented in lectures with oral and written recitations kept parallel with the laboratory work. The student preserves a record of all laboratory work in a note book properly paged and indexed. Two hours lectures and four hours laboratory work. *Eight semester hours.*

3-4. **QUALITATIVE ANALYSIS.** The physico-chemical basis of analytical chemistry; analysis of metals and non metals; practice in analysis of minerals, alloys and commercial products. Prerequisite, Course 1-2. Two hours lectures and four hours laboratory work. *Eight semester hours.*

5-6. **QUANTITATIVE ANALYSIS.** A study of the most acceptable methods of gravimetric and volumetric analysis. Prerequisite, Course
3-4. Two hours lectures and six hours laboratory work. *Eight semester hours.*

7-8. ORGANIC CHEMISTRY. The study of the properties, synthesis and structure of the most important classes of the carbon compounds. Prerequisite, Course 1-2. Two hours lectures and six hours laboratory work. *Eight semester hours.*

9-10. PHYSICAL CHEMISTRY. The course includes a study of atomic structure, radio-activity, the states of matter, the properties of solutions, and other topics. Prerequisites, Physics 1-2; Courses 1-2 and 3-4 or 7-8. Two hours lectures and two hours laboratory work per week. *Six semester hours.*

11-12. CHEMICAL PHYSIOLOGY AND CHEMISTRY OF NUTRITION. The study of the chemical composition of the body and the chemical changes it undergoes; the chemistry of foods, the action of the digestive enzymes upon them; the chemistry of the different body fluids. The study of normal nutrition as it involves the adaptation of foods and dietaries to age, activity and climate; also as it relates to economic, social and racial needs of the individual, the home, the school and the community; the causes and treatment of malnutrition. Prerequisites, Course 1-2 and Biology 17-18. Two hours lectures and two hours laboratory work. *Six semester hours.*

Course 11-12 is prescribed for students in the Physical Education Group.

**ECONOMICS**

**Professor Boswell, Associate Professor Bone**

1, 2. INDUSTRIAL GEOGRAPHY. The first half of the year is devoted to a study of the main factors of the physical environment which influence the capacity, activity, occupation, and business relations of peoples. In the second half of the year the principles derived in the first semester are applied to a more complex study of the continents. Two hours per week. *Four semester hours.*

Course 1, 2 is elective in all groups.

3-4. PRINCIPLES OF ECONOMICS. An analysis of our economic organization including the study of such topics as the organization of production, value and exchange, mediums of exchange and our banking system, business cycles, international trade and the tariff, the distribution of wealth, monopolies and competition, labor problems, and such current problems as the coal and railway situation. Three hours per week. *Three semester hours.*

10. **Educational and Psychological Tests and Measurements.** An introductory survey of the field of measurement in education, including measurement of intelligence and school results; main features of the technique of testing and test construction; types of tests and scales; evaluation; interpretation; use. Prerequisite, Education 3. Three hours per week. *Three semester hours.*

Course in the Teaching of Social Studies. See Political Science, Course 21-22.

Requirements for State Certification to Teach. In Pennsylvania: Courses 1, 3 and 5, six semester hours of electives, and at least eighteen semester hours of work in College in each subject to be covered by the certificate. The following specific requirements should be noted: For certification in Social Studies, 9 semester hours of History and 9 of Social Sciences (Economics and Political Science); in the Natural Sciences—three types of certification: (a) nine semester hours of Physical Sciences including at least 3 of Physics and 3 of Chemistry, and 9 semester hours of Biological Sciences including at least 3 of Botany and 3 of Zoology; (b) at least 6 semester hours of Physics and 6 of Chemistry; (c) at least 6 semester hours of Botany and 6 of Zoology. For these three types of preparation respectively, the subjects, Science, Physical Science and Biological Science are entered on the certificate. For further information consult the Pro-
fessor of Education and the heads of respective departments. In New Jersey: For a Limited Secondary Certificate—Courses 2, 3, 4 and 5 (both semesters) and Biology 1. Certification to teach in a subject-matter field requires 12 semester hours of approved preparation in each subject. In New York: Courses 2, 3, 4, 5 and 7, Psychology 1 or 2, and at least one special methods course in either a major or minor field. Special certification is required for teaching a modern Foreign language.

To meet the requirements for certification to teach, preparation should be begun not later than the first semester of the Second year.

The teaching fields in secondary schools are usually grouped as follows: English, Mathematics, Foreign Languages, Natural Sciences, Social Studies, Music, Art, and Physical Training. Students aiming to teach should confer with the Professor of Education or with their Adviser in choosing the field for which they will prepare.

LATIN

PROFESSOR KLINE, ASSISTANT PROFESSOR BAKER

A, B. VERGIL. Æneid, Books I-VI. Greenough and Kittredge. Three hours per week. Six semester hours.

Course A, B is prescribed for students who offer three units of Latin for admission and absolves the requirement in Latin for the Bachelor of Arts degree in all groups except the Classics Group. It is a prerequisite for Course 1, 2.

1, 2. CICERO, LIVY, HORACE. Cicero: De Senectute, with a critical analysis of the essay. Livy: Book XXI, History of the Punic Wars. Horace: the Odes with sight reading. The Horatian meters will be carefully studied, together with the interpretation of the poems. Three hours per week. Six semester hours.

Course 1, 2 is prescribed for students who offer four units of Latin for admission.

3, 4. HORACE, CICERO. Horace: Satires and selected Epistles, with a careful study of style and a discussion of Roman Satire. Cicero: De Oratore; its chief literary and rhetorical characteristics together with
an examination of Roman Oratory. Horace: Ars Poetica; an analysis of the poem and a study of didactic poetry. Three hours per week. *Six semester hours.*

5, 6. LATIN COMEDY; CICERO AND PLINEY. (1) Terence: Phormio and Heauton-Timorumenos. Plautus: Captivi or Trinummus and Menaechmi. Lectures on the ancient theater and kindred topics. (2) Cicero and Pliny the Younger: Selected Epistles. This part of the course is designed to train the student in the power of rapid reading, by covering a large amount of Latin of only moderate difficulty. Two hours per week. *Four semester hours.*

Course 5, 6 alternates with Course 7, 8. Course 7, 8 will be given in 1933-34.

7, 8. TACITUS, LUCRETIUS. (1) Tacitus: Agricola, Germania and Selections from the Annals. A study of the aims and purposes of the works with a survey of Roman History. (2) Lucretius: De Rerum Natura. A study of Epicureanism, Lucretius as a philosopher and a poet, his influence on other writers. Two hours per week. *Four semester hours.*

10. TEACHERS' COURSE. A consideration of the aims and purposes of classical studies. Preparatory authors will be discussed and interpreted with special regard to the essential points in teaching. Two hours per week. *Two semester hours.*

Course 10 is elective in the Classics group and for others in special cases. It is given in connection with Courses 6 and 8.

**MATHEMATICS AND ASTRONOMY**

**PROFESSOR CLAWSON, ASSISTANT PROFESSOR MANNING**

1, 2. COLLEGE ALGEBRA, TRIGONOMETRY. A standard course embracing the fundamental elements of these branches. Three hours per week. *Six semester hours.*

If the equivalent has not been credited for entrance, Course 1, 2 is prescribed in the First year for all candidates for the B.S. degree and for A.B. candidates in the Mathematics and Chemistry-Biology Groups. It is elective for other First year students.

3-4. ELEMENTARY CALCULUS. A first course in infinitesimal calculus, comprising a study of the fundamental methods and applications of differential calculus and an introduction to integral calculus. Prerequisite, Mathematics 1, 2. Three hours per week. *Six semester hours.*

Course 3-4 is prescribed in the Mathematics Group and is strongly recommended for students in the Chemistry-Biology Group.
Courses of Instruction

5. **Plane Analytic Geometry.** The use of algebraic methods in the study of plane geometry. Prerequisite, Mathematics 1, 2. Three hours per week. *Three semester hours.*

6. **Solid Geometry.** The methods of pure geometry, of analytic geometry and of descriptive geometry applied to polyhedrons and simple curved surfaces. Spherical trigonometry. Prerequisite, Mathematics 5. Three hours per week. *Three semester hours.*

Courses 5 and 6 are prescribed in the Mathematics Group.

In the courses of the first two years as above outlined, it is a chief aim of the Department, by careful supervision and as much individual attention as possible, to teach the student to read mathematics for himself with less and less reliance upon the instructor. To a considerable extent laboratory methods replace formal recitations, and some variation is permitted in rate of working and in ground covered in accordance with differences in ability.

9-10. **Higher Pure Mathematics.** One hour a week is regularly devoted to reports on current articles in journals or on other special topics. A weekly problem paper reviewing mathematics studied in former years is discussed at a second hour. The two remaining periods are devoted to conferences on the student’s study of important standard treatises. Students electing this course, which is open only to juniors and seniors and for which Courses 3-4 and 5, 6 are prerequisite, are presumed to be mature enough to read such books without much formal instruction. The books read vary from year to year and to some extent from student to student. Initiative is encouraged. Students may register for portions of this course only, with correspondingly reduced credits. Four hours per week. *Eight semester hours.*

11-12. **Higher Pure Mathematics, Second Course.** Students specializing in Mathematics will normally take work of the nature outlined in Course 9-10 for two years, the content being different in successive years. In this case, the second year is called Course 11-12. Description and credits as above.

13-14. **Mathematics of Finance.** The operation of interest in relation to the amortization of debts, the creation of sinking funds, the treatment of depreciation, the valuation of bonds, the accumulation of funds in building and loan associations, and the elements of life insurance. Two hours per week. *Four semester hours.*

15-16. **Mathematical Statistics.** Gathering the material, displaying it by the different types of graphs, analysis of the material, averaging, dispersion, correlation. Prerequisite Mathematics 1, 2 or its equivalent. Two hours per week. *Four semester hours.*
Courses 13-14 and 15-16 are offered mainly for students of economics or science who are interested in the applications of mathematics. Courses 1, 2 and 13-14 or 15-16 satisfy the requirements in Mathematics for the B. S. degree.

17-18. ASTRONOMY. Facts and theories concerning the appearance, dimensions, constitutions, motions and interrelations of celestial bodies; practical applications. Prerequisite, Mathematics 1, 2 or its equivalent and some knowledge of Physics. Two hours per week. *Four semester hours.*

MUSIC

**PROFESSOR THUNDER, MISS HARTENSTINE, DR. GOEPP**

1-2. EAR TRAINING AND SIGHT SINGING. Training in the accurate recognition of intervals; development of the rhythmic sense; writing from dictation of simple melodic phrases. A fundamental course. Two hours per week. *Four semester hours.*

Course 1-2 is intended for students who have acquired a rudimentary knowledge of music from singing in a choir, playing on the piano or organ, or from listening intelligently to music.

7, 8. HISTORY OF MUSIC. Development of music in its various forms from the beginning of the Christian era to the present time, with special reference to the progress of musical taste and culture. Text, lectures and collateral reading. One hour per week. *Two semester hours.*

PRIVATE INSTRUCTION is provided in Applied Music (Piano, Organ and Voice). For terms, see page 85.

PHILOSOPHY

**PROFESSOR TOWER, PROFESSOR BANCROFT**

*One semester course in Philosophy is required of every student for graduation.*

1. LOGIC. A study of the guiding principles involved in correct thinking; the use of terms and classification; the nature of deductive
inference with special reference to fallacious forms of reasoning as they receive expression in daily life; the canons of inductive inference, and the basic concepts involved in scientific method. Three hours per week. *Three semester hours.*

Course 1 alternates with Psychology 4. Offered in 1933-34.

2. **ETHICS.** A study of the principles of moral judgment, with exposition and criticisms of the more important theories concerning the basis of distinction between right and wrong conduct; the various problems of theoretical and practical ethics. Papers by students. Three hours per week. *Three semester hours.*

Course 2 is given in both the First and Second semesters.

3. **INTRODUCTION TO PHILOSOPHY.** A preliminary course designed to give the student some orientation with reference to the field and problems of philosophy. Three hours per week. *Three semester hours.*

5. **PHILOSOPHY OF RELIGION.** An outline course designed to acquaint the student with the fundamental problems of the religious consciousness in their philosophical aspects. Students electing this course should have taken Course 2 or Course 9 in Religion. Three hours per week. *Three semester hours.*

6. **MODERN PHILOSOPHICAL PROBLEMS.** A more intensive study of problems outlined in Philosophy 3 and Philosophy 5, affording further orientation for the more detailed and critical treatment of topics considered in Course 9-10. Prerequisite: Psychology 1 and Courses 3 and 5 or 8. Three hours per week. *Three semester hours.*

7. **HISTORY OF ANCIENT AND MEDIEVAL PHILOSOPHY.** This course and the following are designed to assist the student in his interpretation of modern thought-currents by giving him some acquaintance with the productions of the great constructive minds of the past. Three hours per week. *Three semester hours.*

Students may not register for Course 7 unless they also take Course 8.

8. **HISTORY OF MODERN PHILOSOPHY.** Descartes; Spinoza; Leibniz; the English Empiricists; Kant, and Post-Kantian Idealism; Recent Philosophical Tendencies. Three hours per week. *Three semester hours.*
9-10. PHILOSOPHICAL SEMINAR. Recent and contemporary philosophical constructions and their critics. Idealism, Pragmatism, Neo-Realism. Selected portions of the works of Bradley, Royce, James, Schiller, Bosanquet, and the Realists will be read. Prerequisite, nine semester hours in Philosophy. Two hours per week. Four semester hours.

NOTE: Courses in Philosophy are open only to Third and Fourth year students. Candidates for Department Honors must have had twelve semester hours in Philosophy.

PHYSICAL EDUCATION

Professor Brownback, Associate Professor Gerney, Miss Snell, Mr. Johnson, Mr. Foertsch, Mr. Nelson, Mrs. Ogden, Mr. McAvoy, Mr. Chase, Mr. Carleton, Mr. Sterm

1-2. INTRODUCTION TO PHYSICAL EDUCATION. Interpretation of Physical Education; survey of content, terminology and technique of the various activities; definitions and special aims as determined by the functional or developmental effects of the various activities; physiological effects of the various activities. Two hours per week. Four semester hours.

3. FIRST AID. Modes of infection; use of insecticides, germicides, disinfectants; methods of dressing and bandaging; what to do and what not to do in case of injuries and accidents; first aid treatment for hemorrhages, bruises, strains, sprains, dislocations, fractures; diagnosis and treatment of poisoning, etc. The American Red Cross will grant a certificate to those who pass an approved examination. One hour per week. One semester hour.

4. THEORY OF PLAYS AND GAMES. A course in the theories, characteristics, methods and value of play; consideration of the social, educational and biological aspects of play. A development in the various types of expression and interest through the different age levels. Two hours per week. Two semester hours.

5-6. PRINCIPLES AND METHODS OF PHYSICAL EDUCATION. The content and ideals of physical education. The kind, classification, selection, management, and graduation of physical exercises; the construction of lessons to such varying factors as age, sex, gymnastic plant, and type of community. Two hours per week. Four semester hours.

7. PRINCIPLES AND METHODS OF COACHING. Organizing and developing a team; offensive and defensive tactics; play in various
Courses of Instruction

positions. Correct and incorrect form studied and visualized by photograph, stereoptical and moving pictures. Football, Soccer, Basketball, Baseball, Track and Field Athletics, Hockey and Swimming. Two hours per week. Two semester hours.

8. Organization and Administration of Athletics. Value of sports for all; methods of creating interest; managers and captains; eligibility; transfer rules; coaching; officials; schedule making; intramural programs; budgeting; construction and care of fields. Two hours per week. Two semester hours.

9. Organization and Administration of Physical Education. The organization of the department of physical and health education from the standpoint of the problems and responsibility of department heads; duties of staff and its relationship in organization and administration to other departments; rating and selection of teachers; teaching load; making of schedules, records and reports; order and discipline; construction and equipment of the physical plant and the administration of its use. Two hours per week. Two semester hours.

10. Organization and Administration of Recreation. Management and activities of playgrounds, community and settlement houses; equipment and arrangement of apparatus, places for games, wading pools and buildings; methods of organization; management and arrangement of programs. Lectures, topic assignments and visitations. Two hours per week. Two semester hours.

12. Hygiene. The symptoms of diseases of school children; communicable diseases; tuberculosis, tonsillar and adenoid diseases. A study of acute communicable diseases, scarlet fever, diphtheria, measles, chicken pox, etc., particularly as regards the early symptoms, so that teachers may advise parents to seek medical advice. Two hours per week. Two semester hours.

13. Applied Anatomy (KINESIOLOGY). Principles of bodily movements; detailed study of the important muscle groups engaged in the various body movements; all of the fundamental movements and exercises in gymnastics and athletics are analyzed. Two hours per week. Two semester hours.

14. Physiology of Exercise. The Physiological effect of exercise upon the structures and functions of the body; upon respiration, circulation, nutrition, nervous system and the organs of elimination; problem of conditioning, training, overwork, stiffness, fatigue and breathlessness; effects of exercises of strength, skill, endurance and speed. Two hours per week. Two semester hours.
15. **Physical Diagnosis and Prescription Work.** Study of the normal human body and structural deviations with regard to abnormal posture, curvature of spine, round shoulders and flat chest, low right or left shoulder, flat feet and weakness of muscle groups; impaired vision and hearing; abnormal conditions of mouth, throat, and nose. Study of the various examination blanks; methods of making health examinations, anthropometric measurements and the correction of remediable defects. Two hours per week. *Two semester hours.*

16. **Health Education in Schools.** The problem of the classroom teacher in Health Education; special methods of correlating hygiene with other school activities, medical inspection, school lunches, heating, ventilating, seating and lighting; health attitudes and habits; health education programs; selection of materials and methods of teaching in elementary, junior and senior high schools. Two hours per week. *Two semester hours.*

18. **History of Physical Education.** The history of Physical Education in its relation to the history of civilization; status of physical education in primitive society; the ancient oriental nations; Greeks and Romans; status of physical education in the early Christian society; the Renaissance; Germany, Scandinavia and Great Britain since 1800; Colonial outdoor games; gymnastic movements and their leaders; American sports; Universities and Colleges, elementary and high schools; playground movement; health education and teacher training. One hour per week. *One semester hour.*

20. **Adolescent Organizations.** The fundamental principles and policies common to adolescent organizations; the period of adolescence and physical needs; recreational leadership; extra-curriculum activities; Boy Scouts; Woodcraft League, Camp Fire Girls, Girl Scouts and Girl Reserves. One hour per week. *One semester hour.*

**Course in Anatomy and Physiology.** See Biology, Course 17-18.

**Applied Physical Education**

101-2. **General Gymnastics and Graded Games.** Fundamentals in free exercises; tactics of the individual, rank and combinations; exhibition drills; graded games and plays for school room, playground and gymnasium. Two hours per week. *Two semester hours.*

103-4. **General Gymnastics and Graded Games.** The work of the first year is increased in difficulty. Arrangement of material from the standpoint of the teacher. One hour per week. *One semester hour.*

105-6. **General Gymnastics and Graded Games.** Swedish and Danish gymnastics; planning and teaching lessons. Student will work
Courses of Instruction

out the lesson plan and teach it to the class. One hour per week. One semester hour.

107-8. PRACTICE TEACHING. Physical education majors conduct physical training classes for general student body of the college. One hour per week. One semester hour.

109-10. DANCING. Folk dances and singing games; group country dances including English and Morris dances. One hour per week. One semester hour.

111-12. DANCING. The technique of aesthetic dancing; group and character dances; advanced folk dances; character dancing with special attention to personal technique. One hour per week. One semester hour.

115-16. DANCING. Continuation of the work of the third year. Composing dances suitable for use in the various grades as teaching material. Practice teaching. One hour per week. One semester hour.

117-18. APPARATUS WORK. Fundamental positions on all pieces of gymnastic apparatus; practice of assisting and methods of placing and handling gymnastic apparatus. One hour per week. One semester hour.

119-20. APPARATUS WORK. Exercises suitable for boys and girls of the junior high school age; squad work with various grades of difficulty; tumbling and pyramid building. One hour per week. One semester hour.

121-22. APPARATUS WORK. Personal practice in advanced and difficult stunts and combinations. One hour per week. One semester hour.

123-24. APPARATUS WORK. Continuation of the work of the third year. Arranging apparatus objectives and efficiency tests. Methods of marking and officiating. One hour per week. One semester hour.

125-26. ATHLETICS. Fundamentals, learning to play the various games. First semester's work will consist of (Men) football, soccer, and cross-country running; (Women) hockey and soccer. The second semester's work will include (Men) basketball, wrestling, boxing, track and field events, baseball, tennis and swimming; (Women) basketball, track and field events, baseball (12 inch ball), tennis and swimming. Eight Hours per week. One semester hour.
127-28. Athletics. The organization and development of a team; perfecting one's self to the highest possible degree of efficiency. Eight hours per week. One semester hour.

129-30. Athletics. Competing in various sports on varsity teams; coaching teams in the intramural leagues. Eight hours per week. One semester hour.

131-32. Athletics. Competing, officiating and coaching. Eight hours per week. One semester hour.

PHYSICAL TRAINING
ASSOCIATE PROFESSOR GERNEY, MISS SNELL

1-2. Physical Training for Men. Systematic gymnastic training including marching tactics, calisthenics, and apparatus work, with a view to health in the individual student and instruction in technique. Two hours per week throughout the First and Second years. Not a credit course.

1-2. Physical Training for Women. Gymnastics, marching tactics, apparatus work, folk-dancing. Exercises to suit the needs of students with special reference to health and posture. Two hours per week throughout the First and Second years. Not a credit course.

Course 1-2 is prescribed for all students except those in the Physical Education Group.

Each student is given a physical examination at the beginning of the year and the work is prescribed with a view to particular needs. Football, basketball, baseball, track and tennis for men and hockey, basketball, baseball, track and tennis for women are the forms of athletics provided. In one or another of these forms every student in College who is physically fit is encouraged to participate.

PHYSICS
PROFESSOR KLINTECHMAN

A-B. Elementary Physics. A general elementary course covering the subjects of mechanics, heat, sound, light, electricity and magnetism. Emphasis is laid on the applications to daily life through the solution of simple problems. No previous knowledge of the subject is assumed. Prerequisite, College entrance mathematics. Two class periods and one laboratory period per week. Six semester hours.

1-2. General Physics. An advanced general course, being an extension of Course A-B with special emphasis upon applied mechanics, light and electricity and magnetism. The solution of problems throughout the entire course will be stressed. Prerequisite, Course
A-B and Calculus, although the latter may be pursued the same year. Three class periods and one laboratory period per week. *Eight semester hours.*

3. **Mechanics.** A mathematical treatment of theoretical mechanics. In the laboratory extensive and practical measurements are made. Prerequisite, Physics 1-2 and Mathematics 3-4. Three recitations and one laboratory period per week. *Four semester hours.*

   Course 3 alternates with Course 5. Course 5 will be offered in 1933-34.

4. **Electricity and Magnetism.** A mathematical treatment of the subject with applications. In the laboratory precise measurements are made. Prerequisite, Physics 1-2 and Mathematics 3-4. Three recitations and one laboratory period per week. *Four semester hours.*

   Course 4 alternates with Course 6. Course 6 will be offered in 1933-34.

5. **Thermodynamics.** The laws of thermodynamics will be discussed and applied to physical and chemical problems. In the laboratory certain essential measurements are made and various temperature measuring instruments studied. Prerequisite, Physics 1-2 and Mathematics 3-4. Three recitations and one laboratory period per week. *Four semester hours.*

6. **Optics.** Various optical systems will be studied in detail, and selected topics in Physical Optics discussed. In the laboratory measurements of optical constants are made with instruments of precision. Prerequisite, Physics 1-2 and Mathematics 3-4. Three recitations and one laboratory period per week. *Four semester hours.*

7-8. **Modern Physics.** The phenomena of radio-activity, x-rays, discharge of electricity through gases, etc., are studied. The theory of atomic structure will be discussed. Prerequisite, Physics 1-2 and Mathematics 3-4. Three recitations per week. *Six semester hours.*

**Political Science**

**Professor Barnard, Mr. Willauer**

1-2. **American Government.** A study of the activities, organization, and legal powers of federal, state, and local governments in the United States. This is an extensive, basic course, intended both for those whose major interest is in other fields and as a foundation for those who expect to specialize in Political Science. Prerequisite for all the more advanced courses in Political Science. Three hours per week. *Six semester hours.*
3-4. Municipal Government. The daily work of the city; home rule, commission and city manager systems; municipal budgets; public utilities; city planning, public safety, and public health; power and position of the city in our political system; present tendencies in municipal government. Three hours per week. Six semester hours.

5-6. Comparative Government. A detailed comparison of the Cabinet and Presidential systems, as exemplified by England and the United States; the study then extended to other representative governments of Europe, including France, Germany, Italy, Switzerland, and Russia. Three hours per week. Six semester hours.

7. Political Philosophy. A study of the nature and ends of the state, of government, of law, and the relation of sovereignty to individual liberty. Constant use is made of the writings of contemporary political scientists, such as Burgess, Willoughby, Wilson, Dealey, Bryce, Haines, Gettell, Garner, and Leacock. Three hours per week. Three semester hours.

8. American Political Theory. An attempt to get at the thinking that lay back of political action during the colonial, revolutionary, and national periods of our history. Considerable attention is given to decisions of the Federal Supreme Court. Course 7 is a prerequisite to Course 8. Three hours per week. Three semester hours.

9-10. International Law. A study of the growth and development of international law and organization. The underlying principles governing the inter-relationships of states is illustrated by the extensive use of the case method. Three hours per week. Six semester hours.

11-12. Seminar in Political Science. Various problems in government, political theory, and international law presented in carefully prepared papers, followed by class comment and discussion. Two hours per week. Four semester hours.

Course 11-12 is open only to seniors who have taken at least two other courses in Political Science.

Members of the History-Social Science Group majoring in Political Science must take from the foregoing courses an amount of work aggregating at least eighteen semester hours.

21-22. Methods of Teaching the Social Studies. The Pennsylvania course of study in History and Social Science for junior and senior high schools, interpreted in the light of modern ideals and practices. Two hours per week. Four semester hours.

This course corresponds to the one now being given in state teachers colleges and university schools of education, and is required
Courses of Instruction

by this Department of all who are qualifying to teach Social Studies in the Pennsylvania secondary schools.

**PSYCHOLOGY**

**PROFESSOR TOWER, PROFESSOR TYSON, ASSOCIATE PROFESSOR SHEEDER**

1. **ELEMENTARY PSYCHOLOGY.** An introductory study of mental life and accompanying types of human behavior. Three hours per week. *Three semester hours.*

2. **ELEMENTARY PSYCHOLOGY.** A course similar in content to Course 1. Given in order to make the study available in both semesters. Three hours per week. *Three semester hours.*

   Course 1 or 2 must be taken in the second year by all students preparing to become teachers.

4. **SOCIAL PSYCHOLOGY.** A study of group action and of the group influences by which the individual is surrounded; tradition, custom, public opinion, and other psychological and social forces which affect individual judgment and action. Three hours per week. *Three semester hours.*

   Course 4 alternates with Philosophy 1. Not offered in 1933-34.

5. **EDUCATIONAL PSYCHOLOGY.** The data of psychology in their bearing upon teaching and learning; instinctive equipment of the learner; variation in human capacities; inheritance of human traits; rate and progress of learning; transference of training and allied subjects. Prerequisite, Psychology 1 or 2. Three hours per week. *Three semester hours.* See EDUCATION, Course 3.

6. **PSYCHOLOGY OF RELIGION.** The psychological processes of the religious life are analyzed and described. Worship, prayer, faith and other religious phenomena are considered. Third and Fourth years. Three hours per week. *Three semester hours.* See RELIGION, Course 9.

**PUBLIC SPEAKING**

**ASSOCIATE PROFESSOR CARTER, MRS. SHEEDER**

2. **PAGEANTRY.** The theory and practice of pageantry. Under careful supervision, students in this Course are given training and experience in the management of the May Pageant. Two hours per week. *Two semester hours.*

   Course 2 is elective for young women of the Third and Fourth years in all the groups.

4. ADVANCED PUBLIC SPEAKING. Problems of the speaker, divisions of a speech, types of speeches, style of the spoken word. Recitations based on textbook. Writing and delivery of various types of speeches. Three hours per week. Three semester hours.

Courses 3 and 4 are elective for Second and Third year students in all groups.

RELIGION

ASSOCIATE PROFESSOR SHEEDER, MRS. SHEEDER

1. RELIGIONS OF MANKIND. A survey of the historic religions to discover characteristics and effects upon the civilizations of the world. The religion of the Hebrews is treated at length as a background for the study of Christianity. First and Second years. Three hours per week. Three semester hours.

2. INTRODUCTION TO BIBLICAL LITERATURE. An appreciative and historical study of the literature of the Bible, with a view to discovering its origin, nature, and significance in the life of today. First and Second years. Three hours per week. Three semester hours.

5. LIFE AND TEACHINGS OF JESUS. A comparative and interpretative study of the New Testament sources. A consideration of the way in which Jesus met life situations and the application of His method to modern life. Third and Fourth years. Three hours per week. Three semester hours.

6. GROWTH OF CHRISTIANITY. A survey of the development of the Christian Church from the Apostolic period to modern times, with a view to understanding the nature and extent of its contributions to society. Third and Fourth years. Three hours per week. Three semester hours.

9. PSYCHOLOGY OF RELIGION. The psychological processes of the religious life are analyzed and described. Worship, prayer, faith and other religious phenomena are considered. Third and Fourth years. Three hours per week. Three semester hours. See PSYCHOLOGY, Course 6.

10. PRINCIPLES OF RELIGIOUS EDUCATION. A consideration of the theories underlying religious education, together with a study of aims and techniques. Third and Fourth years. Three hours per week. Three semester hours.

11. DRAMA AND PAGEANTRY. Survey of the field. Historic use of the drama in religion; study and analysis of religious dramas and pageants; practical application of the principles of play production; co-operative class presentation of a one-act play put on as the Sunday evening program in various community churches throughout the school year.
Groups of Courses

12. THE CHURCH SCHOOL. A study of the principles and methods underlying the organization and administration of the Sunday School, Vacation Church School and Week-day School of Religion. Third and Fourth years. Three hours per week. **Three semester hours.**

SOCIOLOGY

1-2. INTRODUCTION TO SOCIOLOGY. A fundamental course covering the fields of social evolution, the forces shaping society including the physical environment, the biological equipment, the psychological foundations, and the cultural inheritance. It deals with social organizations and social control, and gives a brief introduction to social problems and their scientific treatment. The course aims at presenting a basis for a scientific understanding of society and for further study in the field of Sociology or Social Work. **Six semester hours.**

SPANISH

ASSOCIATE PROFESSOR SIBBALD

1-2. BEGINNING SPANISH. (For those who begin Spanish in College, those who have had one year of High School Spanish, and those who have had two years of High School Spanish but show an insufficient knowledge of the subject in the Freshmen placement examinations. These latter must make a grade of B in the course to receive credit.) Beginning grammar and pronunciation. Irregular verb drill. Uniform note books. Reading and translation of graded texts to begin late in first semester. Three hours per week. **Six semester hours.**

3-4. INTERMEDIATE SPANISH. Review of Spanish grammar and syntax, with more advanced treatment of pronunciation. Special attention to verbs and modern idioms. Conversation in second semester. Original compositions in Spanish. Uniform note books. One hour per week of reading and translation of selected, graded texts. Class discussions in Spanish. Prerequisites, Course 1-2, or equivalent. Three hours per week. **Six semester hours.**

5-6. SPANISH LITERATURE AND COMMERCIAL SPANISH. Readings and translations of masterpieces of prose, poetry, and drama of the Siglo de Oro during first semester. Readings and translations of contemporary masterpieces during second semester. Class discussions in Spanish. Compositions and reports in Spanish. Outside readings. Lectures in Spanish on Spanish literature and literary movements. One hour per week of Commercial Spanish. Study and drill on business vocabulary, forms, and letters. Original commercial letters. Prerequisite, Spanish 3-4, or equivalent. Three hours per week. **Six semester hours.**
THE GROUPS

The group system is employed in the organization and administration of instruction. By this system, the courses of instruction are offered in carefully arranged groups, each comprising (1) dominant subjects which adapt the group to the intellectual tastes and the future purposes of the student, (2) other prescribed subjects essential to a liberal education and required of all students, and (3) elective subjects from which may be selected studies meeting the particular objectives of each individual. A student, at matriculation, chooses the group of studies he desires to pursue, and with the advice and consent of his Adviser, selects his studies for the year and reports the same to the Dean on a blank provided for the purpose. By virtue of this act he becomes a member of the group of his choice and as such is officially recognized thereafter in all acts and processes of administration in the College. A student who is uncertain on entering college as to his life purposes and, therefore, undecided as to the group of studies he should pursue, may make a temporary choice and change to any group he may prefer at the end of the first year.

CHOICE OF STUDIES

In registering, the student must present his complete list of studies, both prescribed and elective, for the whole year.

Courses to satisfy conditions take precedence of regular courses. It is strongly advised that conditions be made up in summer so as not to interfere with the proper arrangement of one's curriculum as laid down.

In selecting studies for the year, the student will follow the synopsis of his group as presented, although with the approval of his Adviser and of the Dean, he may substitute other studies for the elective courses listed, or at the beginning of a year may change from one group to another.

When a student changes to another group he will receive credit toward graduation only for such of the prescribed courses as he may have completed as are included in the group to which he has received permission to change.
Requirements for Graduation

For the degree of Bachelor of Arts or Bachelor of Science, a student must complete one hundred and twenty-four semester hours of work. In addition, each student must complete at least four semester hours of physical training. A student may not take in any one semester less than twelve or more than eighteen semester hours of work. It is strongly recommended that the student's curriculum include: First year, thirty-three semester hours; Second year, thirty-two semester hours; Third year, thirty-two semester hours; Fourth year, twenty-seven semester hours. The Adviser may permit a deviation from these hours to an extent of three semester hours.

In the Physical Education Group, 140 semester hours of work are required for graduation. These should be distributed as follows: First year, 36 semester hours; Second year, 36 semester hours; Third year, 35 semester hours; Fourth year, 33 semester hours.

In arranging his curriculum, every regular student must provide for meeting the following general requirements:

A. For the Bachelor of Arts Degree: (1) six semester hours of Latin; (2) six semester hours of the modern language offered toward admission, or twelve semester hours of a modern language begun in college, except for students of the Classics Group having had at least two years of a modern language in preparation, in which case the further study of modern languages is not required; (3) at least eight semester hours of science with laboratory work; (4) three semester hours in philosophy.

B. For the Bachelor of Science Degree: (1) six semester hours of a modern language at least two years of which were offered toward admission, or twelve semester hours of a modern language begun in college; (2) at least eight semester hours of science with laboratory work; (3) four semester hours of mathematics, in addition to Mathematics 1, 2, or an equal amount, or more, of work in science; (4) three semester hours in philosophy.

The general requirements in foreign languages and in science must be fulfilled one year prior to graduation.
In the synopses of the Groups on the following pages, prescribed courses are printed in small capitals. Figures designate courses as arranged by departments on preceding pages. Odd numbers refer to first semester, even numbers to second semester. Numbers in parentheses indicate semester hours.

Prescribed courses should be taken, as far as possible, in the years in which they appear in the synopses.

---

Students having advanced standing in Physical Education or who pursue some of the courses prescribed above in summer schools whose work is accepted by Ursinus College, may have a larger choice of elective studies than is here represented.
ADMINISTRATION

GRADES OF SCHOLARSHIP

On the completion of a course the standing of a student is expressed, according to his proficiency, by one of six grades, designated respectively by the letters A, B, C, D, E and F. Grade E denotes failure which may be made up by a satisfactory re-examination. Grade F denotes failure such that the course must be repeated.

Each student is required to do a grade of work that shall average C in the courses pursued in any one year, and in the event of his failure to do so, he is credited with only the courses in which his grade is C minus or better.

A permanent record is kept of each student's work, and a report of the same is sent to his parents or guardian at the close of each semester. Through correspondence and conferences, the co-operation of parents is sought in the endeavor to get the best possible results in the work of students.

HONORS

COMMENCEMENT PARTS

Two commencement parts (or honors) are assigned to members of the graduating class: One to the person attaining the highest grade among the young men, the other to the person attaining the highest grade among the young women. Of these two, the one having the higher grade is assigned the Valedictory; the other, the Salutatory.

GRADUATION WITH DistINCTION

Members of the graduating class, who have shown great proficiency in their entire course may be graduated with distinction if, in the opinion of the Faculty, their attainments warrant such honors. These distinctions are: Summa Cum Laude, Magna Cum Laude, and Cum Laude, and are given only for unusual excellence in all the subjects pursued by the candidate.
DEPARTMENT HONORS

Students may be graduated with special honors in departments of study in which they have shown exceptional proficiency, and in which they have done extra work as prescribed in the following rules:

1. A candidate for Department Honors must have the endorsement of the professor in charge of the department in which he expects to try for such honors, and must enroll as a candidate at the Dean's office not later than October 1st of the college year in which he expects to receive his degree.

2. A student must have maintained a grade not lower than C in any course previously pursued after the First year and must maintain an average of B while he is pursuing his work as a candidate for Department Honors.

3. A candidate shall be required to do an amount of work equivalent to three semester hours in the department in which he intends to try for honors in addition to the full number of semester hours prescribed for graduation of which at least twelve semester hours must be in the subject in which he is registered for Department Honors, and shall submit to the Faculty a thesis on some subject within the field represented by his extra work. The thesis must be presented at least one week before the time set for the Fourth year final examinations.

PRIZES

THE HAVILAH MCCURDY-BENNETT ESSAY PRIZE

A cash prize of Twenty Dollars is offered by Mrs. Havilah McCurdy-Bennett, A.M., '92, of Washington, D. C., for the best essay submitted on a topic assigned by the English Department as a feature of the work embodied in Course 1, Rhetoric and Composition. Competition is open to all First year students. The award is made at the annual commencement.

THE PHILIP H. FOGEL MEMORIAL PRIZE

The Philip H. Fogel Memorial Prize of Twenty-five Dollars is awarded annually to the member of the Senior class who shall have attained the highest excellence in the
Prizes

The department of Religion, as shown by examination on completion of at least twelve semester hours of work. The prize has been endowed by Mrs. Edwin J. Fogel in memory of her son Philip H. Fogel, Ph.D., of the Class of 1901.

THE E. L. WAILES MEMORIAL PRIZE

The E. L. Wailes Memorial Prize of Twenty Dollars is awarded annually to the member of the Freshman class who shall have attained the highest standing in Courses 1 and 2 in the department of Religion. This prize has been established in memory of E. L. Wailes by his son, the Rev. George Handy Wailes, D.D., Professor of the English Bible in Ursinus College, 1908-1921.

THE ROBERT TRUCKSESS PRIZE

A prize of Twenty-five Dollars in gold established by Robert Truckess, Esquire, of Norristown, Pennsylvania, is awarded annually at commencement to the member of the graduating class who shall have pursued the studies of the History-Social Science Group with the definite intention of entering the profession of the law, and who, in his college work shall have revealed superior ability (not necessarily highest grades) and promise of success as a future member of the legal profession. The competition for this prize is open only to men.

THE PAISLEY PRIZES

Two prizes of Twenty-five Dollars each for the best dissertations on an assigned topic by members of the senior class, one open to men, the other open to women, are offered respectively by Mr. and Mrs. H. E. Paisley, of Philadelphia. These prizes are offered with a view to encouraging students in the thoughtful application of the principles of Christianity to problems of practical life. The awards are made at the annual commencement exercises.
THE ELIZABETH ROCKEFELLER MCCAIN PRIZE

A prize of Fifty Dollars has been endowed in perpetuity by George Nox McCain, Litt.D., of Philadelphia, as a memorial to his mother, Elizabeth Rockefeller McCain. This prize is awarded at each annual commencement to the student who at the end of the Second year shall have shown greatest ability in the knowledge and use of the English language as indicated by work in composition and literature.

THE BOESHORE PRIZES

Two prizes of Twenty-five Dollars each, endowed by Mr. and Mrs. Miller H. Boeshore of Philadelphia, one open to men, the other open to women, will be awarded at each annual commencement to those students who shall have attained the highest standing at the end of the First year in the study of Greek.

THE LENTZ PRIZE

A prize of Twenty-five Dollars, offered by Mrs. John Lentz of Collegeville, Pa., in memory of her deceased father, John Bethke of Philadelphia, is awarded annually to the student who attains the highest standing in the course in Intermediate German. Students who pursue Intermediate German a second year by taking the alternate course, or who have already taken an advanced course are not eligible for the prize.

THE DUTTERA PRIZE

A prize consisting of the income of Five Hundred Dollars contributed by Mrs. Amos Duttera of Taneytown, Maryland, to be awarded to the student attaining the highest standing in the study of Church History (Religion, Course 6).

THE URSINUS WOMAN'S CLUB PRIZE

A prize of Twenty Dollars in gold, offered by the Ursinus Woman's Club is awarded at graduation to the young woman who shall have attained highest distinction in athletic sports.
Prizes

THE URSINUS CIRCLE PRIZE
A prize of Fifteen Dollars in gold offered by the Ursinus Circle, is awarded at Commencement to the young woman who shall have written the best pageant under the auspices of the Department of Public Speaking.

THE VARSITY CLUB TROPHY
For the encouragement and promotion of interest among the classes as well as for the inspiration of the individual to participate in track athletics, the Varsity Club offers a trophy to the college class which scores the greatest number of points in the annual Interclass Track and Field Meet. The award is made on commencement morning.

THE PRESIDENT'S AWARD
A gold medal bearing the Athletic Emblem of Ursinus College is awarded at graduation to the student who throughout his college course shall have won highest distinction in athletics. This medal is the gift of the President of the College.

OPEN SCHOLARSHIPS
The College offers four scholarships of Three Hundred Dollars each, open to young men who may apply as candidates from approved preparatory and first-grade high schools. Selection for these scholarships is based on the following: 1. Qualities of personality, character and leadership. 2. Scholarly ability and attainments. 3. Physical vigor as shown by interest and skill in outdoor sports, or in other ways.

DEGREES
Ursinus College confers two degrees in course—those of Bachelor of Arts and Bachelor of Science. For specific requirements see page 67. Degrees are conferred only on academic occasions and candidates must present themselves in person. Persons seeking the Master's degree are referred to the graduate schools of universities.
The College may confer the honorary degrees of Doctor of Divinity, Doctor of Pedagogy, Doctor of Science, Doctor of Letters and Doctor of Laws on persons whose distinguished ability or service may have been deemed worthy of such recognition by the Faculty.

ORGANIZATIONS

The two literary societies, the Zwinglian and the Schaff, each having held a place of honor and great usefulness in the College from the earliest days, have suspended activity, their functions having been assumed by other organizations.

The Biology Club, the Hall Chemical Society, the James M. Anders Pre-Medical Society, the English Club and the International Relations Club are organizations for the promotion of scholarly interest in various fields of study.

The Debating Clubs, Tau Kappa Alpha and the Curtain Club foster interest and develop skill in their respective fields of expression.

The Young Men's Christian Association, the Young Women's Christian Association and the Brotherhood of St. Paul represent active and helpful forms of religious life among the students.

The Student Government Associations, the Athletic Associations, the Varsity Club, Student Publications, the Men's and Women's Glee Clubs, the College Band and the Chapel Choir provide a wide range of extracurricular activities for the exercise of special talents and the development of latent abilities.

The eight Groups of the college hold stated meetings. The groups are of the nature of literary and scientific clubs, and the meetings combine academical and social features.
PUBLICATIONS

The Ursinus Bulletin, of which the catalogue is a number, is the official publication of the College. It is issued quarterly and is distributed free of charge to the students and the public.

The Ursinus Weekly, published by the Alumni Association, is managed by a Board of Control representative of the alumni, the Faculty and the student body, and edited by a Staff chosen from among the students on a basis of merit. It is a four-page newspaper, invaluable as a record of life at Ursinus for students and alumni alike. It is issued on subscription at cost.

The Ruby, the Senior class book, is an annual printed on plate paper and elegantly bound. It is a pictorial volume presenting an intimate view of the year’s life, not only of the Class, but of the whole College. The book is sold at a price to cover cost.

POST OFFICE AND SUPPLY STORE

The College enjoys city mail delivery and there are convenient boxes for depositing outgoing mail. A Post Office is maintained on the campus for the accommodation of students. Adjacent to the Post Office is a Supply Store, in which is kept on sale a full line of college jewelry, felt goods, stationery, confections and students' supplies. New and second-hand books are supplied on order. The profits of the Store are used in the support of the College Library.

EXPENSES

Ursinus College is a residential college. All students except those who reside in their own homes, occupy rooms provided by the College and take their meals in the college dining rooms. The expenses of the year are therefore comprehended in a single fee which covers class-room instruction, privileges of the
library, the gymnasium and the infirmary, ordinary medical attention, care by the resident nurse, subscription to the *Ursinus Weekly*, admission to all athletic games on the home grounds, support of debating, the Christian associations and student government organizations, furnished room including heat, light and attendance, and table board exclusive of the Christmas and Easter recesses. This fee is $675 to which $40 is added for students occupying rooms on the first, second and third floors of the Brodbeck and Curtis dormitories. The charge for a student attending College from his own home is $350. The College reserves the right to make reasonable alterations in the fee at the beginning of any semester in order to cover possible unforeseen losses in operating expenses.

Each resident student supplies his own towels, two pairs of sheets for a single bed, mattress protector, a pair of pillow cases (19 x 34), a pair of blankets and a bedspread.

First year students, except those whose presence is required for service, are requested to vacate their rooms immediately following the second semester examinations to provide accommodations for alumni attending commencement.

Extra charges to cover the cost of materials in laboratory courses payable on or before November 12th, are as follows:

A fee of $25 per semester is charged on the mid-semester bill to students engaged in practice teaching. For each additional semester of practice teaching the fee is $12.50.

To students taking entrance examinations a fee of $10 is charged, payable in advance.

A charge of $10 is made in the last bill of the senior year to cover graduation expenses.
A deposit of $10 is required of each student to defray any expenses incurred by injury to property. The unexpended balance is returned to the student when he leaves the institution.

A student who is absent from college on account of sickness or for any other reason, and retains his place in class, pays the Comprehensive Fee in full during his absence except when the absence is continuous over a period exceeding two weeks, in which case a rebate is allowed resident students of $5 for each full week, on account of table board. No remittance is allowed on account of dismissal or withdrawal of a student from the institution during a semester.

Inasmuch as the College provides a health service including a regularly appointed physician and a resident nurse, which service is open alike to all students of the institution, the College will not undertake to pay bills contracted by students with physicians not in the service of the institution. The College maintains the right to enforce quarantine and to engage the services of a special attendant if necessary, but will not be responsible for the compensation of extra physicians, nurses or attendants, which compensation must be provided by the student or his parent or guardian.

FEES FOR INSTRUCTION IN MUSIC

Private lessons per term of fifteen weeks: organ, once a week, $50; piano, once a week, $50 and $30; voice, once a week, $30. The charge for use of piano is $10 a year.

PAYMENT OF BILLS

A candidate for admission must pay $10 on account at the time he files his application in order to secure a place in the institution. An enrolled student must pay $10 on or before April 24th of each year in order to secure a place for the ensuing year. In every case this payment is forfeited if the student fails to complete his registration.
The yearly charge to the student is payable in four installments and must be paid on or before the dates designated as follows:

The bills may vary from the stated amounts in certain instances on account of location of rooms and laboratory charges. Bills are issued approximately thirty days in advance. Students whose accounts are still open will not receive credit for attendance upon classes after the dates of settlement announced above.

Credits on account of scholarships or service under the Bureau of Self-Help are allowed on the November and March bills.

No student will be permitted to register at the beginning of any academic year who is indebted to the institution or to any of its departments or agencies, and all items due the College from a candidate for graduation must be paid before the candidate may be presented for a degree.

*Checks should be made payable to Ursinus College.*

Scholarships

**THE SIEBERT SCHOLARSHIP**, established in memory of P. W. Siebert of Pittsburgh, Pa., from a fund designated by him for the College out of his estate, $1,004

**TEMPORARY SCHOLARSHIPS**

Temporary scholarships in the amount of $4,000 have been provided by the Board of Directors out of current income to be used in aiding students in financial need during the period of the depression. These scholarships will be available in 1933-34. They will be awarded only to students of superior academic attainments and only in cases of unquestioned need.

**LOAN FUND**

A loan fund has been established through gifts of individuals and an appropriation by the Board of Directors, out of which loans are made to upper class students under a contract providing definitely for their repayment. Application must be made to the President of the College who is custodian of the Fund.

**BUREAU OF SELF-HELP**

This bureau, conducted under the management of officers of the College, provides opportunities in which students may meet part of their expenses by serving in working positions in the institution. These positions are standardized so as to represent an amount of work not likely to overtax the physical resources of the student nor to interfere with his studies. Positions under the Bureau of Self-Help, however, always must be regarded as taking precedence over any extra-curriculum student activities. A standard position, as a waitership in the dining room, yields compensation amounting to One Hundred and Seventy-five Dollars for the year. About eighty positions, representing varying amounts and types of work, are open to students.
The regular fee paid by students entitles them to medical treatment without charge. The College Physician, whose aim is to maintain health as well as to treat disease, may be consulted in his office on the campus during office hours, and he will regularly visit patients lodged in the infirmaries or confined to their rooms. The Resident Nurse is in charge of the infirmaries, cares for the sick under the direction of the Physician, attends to minor ills and injuries, and lends her aid in maintaining physical health and efficiency among the students of the College.

Each student is given a physical examination on entering college, and is advised as to ways and means of maintaining health and fitness for work.
BUILDINGS AND EQUIPMENT

BUILDINGS

Bomberger Memorial Hall, named for the first President of the College, is a large and imposing structure in the Romanesque style of architecture, built of Pennsylvania blue marble. This building is for the use of the departments of language and literature, the social sciences, history, philosophy, religion, public speaking and music. In it are the chapel, twelve classrooms, six conference rooms, a seminar room, two music studios, two day studies, and the offices of the Dean, the Registrar, the Treasurer, and the Director of Student Teaching and Placement. The Clark Memorial Organ, the gift of Mrs. Charles Heber Clark of Conshohocken, Pa., occupies a position in the front of the chapel in Bomberger Hall. The organ is a memorial to the late Charles Heber Clark, LL.D.

The Science Building, erected in 1931-32, is a fireproof structure, 186 feet in length and 96 feet in depth. The first floor and basement are devoted to Psychology, Education, Mathematics and Physics, the second floor to Biology, and the third floor to Chemistry. A large room at the base of the cupola and a roof-deck 45 feet square adjoining it for observation, are for the use of the Astronomy department. The building contains the office of the President, thirteen teaching laboratories, two laboratories for research, nine professors' laboratories, three temperature rooms, a dark room, a balance room, two storage rooms, vivarium and aquarium, six supply and preparation rooms, a machinery room, workshop, electrical control room, elevator, incinerator, seven classrooms, a lecture hall with gallery and projection booth, a library and reading room, two rooms for stenographers, and nine locker rooms, cloak rooms, lounges and toilets. There are two steel stairways so located as to require a minimum of travel in going to any part of the building. The services available in the laboratories are hot water, cold water, drainage, high pressure steam, high
pressure return, gas, compressed air, distilled water, hydrogen sulphide, 110 volt alternating current, 110 volt direct current, and low voltage direct current. Steam is conducted to the building through a tunnel leading from the central heating plant. The temperature of each room is automatically controlled by the latest system of temperature regulation. The ventilating system provides for the introduction of heated fresh air and the withdrawal of vitiated air by means of motor driven fans. The most durable acid resisting materials are used in the construction of hoods and ducts for disposing of fumes. All laboratories, storage and preparation rooms are equipped with all-steel tables, desks, cases and shelves built to meet particular requirements. The table-tops and sinks are of Alberene stone.

The Alumni Memorial Library is a building of Chestnut Hill stone in Colonial style and planned in accordance with the latest ideas of library administration. The space on the main floor is unbroken, constituting one large hall surrounded with book shelves, and equipped for reading and study. In the wings adjoining are seminar rooms, workrooms, the office of the librarian, a faculty room, and a museum. In the space between the wings in the rear is a fireproof stack room planned for three tiers of stacks, having a capacity of 60,000 volumes. This building erected by the Alumni and non-graduate former students is a tribute to their fellows who served their country in the Great War and a memorial to those who gave their lives in the service. On the walls of a beautiful marble vestibule are appropriate inscriptions.

The Thompson-Gay Gymnasium, built in 1927, occupies a convenient position adjoining Patterson Field. It is built of native brownstone, structural steel and concrete. It contains a playing-floor, two locker rooms, two shower rooms, a gallery for spectators, coaches' offices, storage rooms, a fireproof furnace room, and living quarters for employees. At one end of the main floor is a completely equipped theatrical stage. Portable seat-
Buildings and Equipment

buildings and equipment constitute part of the equipment of the building. The seating capacity when used as a theater is one thousand. This building is a memorial to Robert W. Thompson, '12, and George H. Gay, '13, noted Ursinus athletes, both of whom died in their senior year in College.

Freeland Hall, the original building of Freeland Seminary, Derr Hall and Stine Hall constitute a group of buildings for domestic purposes. The buildings are of stone having a light sand finish four stories in height with a fifth story of dormer rooms. On the two lower floors are the dining rooms, four in number, the kitchen, storage and refrigeration rooms, and the office of the dietitian. The upper floors are fitted up for the residence of men students. The rooms are of varying size, designed for one or two occupants, a number being arranged en suite.

The Brodbeck and Curtis Dormitories for Men are new buildings of exactly the same size and design. They are in English Colonial style and are built of Chestnut Hill stone. Each building has four floors, the downstairs floor being devoted partly to storage. The rooms are spacious, well-lighted and easy of access by means of fireproof stairways. These buildings embody the latest and best ideas with reference to student residence. They bear the names of esteemed contemporary benefactors of the College—Andrew R. Brodbeck and Cyrus H. K. Curtis.

Shreiner Hall, fronting on Main Street and facing the college campus, is a residence hall for young women. This is a three-story brick building arranged for the accommodation of twenty-nine students. On the first floor are a reception room and the office of the Dean of Women.

Trinity Cottage, familiarly known as South Hall, is a residence for young women located in Sixth Avenue, having eighteen rooms. This building, with the grounds on which it is located, represents a joint benefaction to the college by the
late Henry M. Housekeeper, who was an elder in Trinity Reformed Church, Philadelphia, and the late Abram G. Grater, who was an elder in Trinity Reformed Church, Norristown, Pa.

The Maples, a three story building located on Main Street, opposite the east campus, a residence hall for women, has a capacity for thirty students.

Glenwood, a building located near the historic site of the one-time Pennsylvania Female College, is leased by the College and used as additional residence quarters for young women students.

Lynnewood and Fircroft are private residence halls for students located off campus but convenient to the College.

Sprankle Hall, on the east campus fronting Fifth Avenue, is a large residence with porches and veranda, providing apartments for women students and officers of the institution.

Superhouse, a residence on Main Street opposite the college grounds bequeathed to the College by the late Henry W. Super, D.D., LL.D., Vice-President and Professor of Mathematics, 1870-1891, and Acting President, 1892-1893, and constituting a fitting memorial of his long and valued services to the institution, is the home of the President.

Highland Hall, a colonial house occupying a commanding site embracing ten acres of grounds, located on Main Street about a ten minutes' walk west of the campus, is owned by the College and used for institutional purposes.

The Eger Gateway, a beautiful piece of work in Chestnut Hill and Indiana stone masonry and hand-wrought iron, was erected in 1925 by George P. Eger, of Reading, Pennsylvania, father of a member of the graduating class, in appreciation of the work of the College. It constitutes the entrance to the avenue leading to Freeland Hall.
The College Library

A central heat and water plant furnishes steam heat for the principal buildings, and distributes excellent water from deep wells to all the buildings on the premises.

THE COLLEGE LIBRARY

The College Library contains about twenty-four thousand volumes, selected mainly for the purpose of study, reference and thoughtful reading. The Alumni Memorial Library Building is open every week-day from 8 a. m. to 6 p. m., and from 7 to 10 p. m.; on Sundays from 2 to 4 p. m. Each student is permitted to take out two volumes at a time. Special arrangements have been made which enable students to obtain books from Philadelphia libraries.

The reading room is supplied with foreign and American periodicals. The shelves contain several thousand volumes for ready reference, encyclopedias, dictionaries, and other books for particular use. The following newspapers and periodicals appear on the files during the course of the year:
