Ursinus Board Of Directors Meets;
Acts On Degree Policy, Appointments

Ursinus students who entered medical, law or other graduate schools before graduation have just received good news. At the meeting of the Board of Directors on November 17, 1972, it was announced that the college will award these students Bachelor's degrees provided that they completed 90 semester hours at Ursinus. The degree is awarded after the candidate has received his graduate degree award, which is forthcoming.

This is especially advantageous to physicians because many societies, such as the National College of Physicians, requires its members to have a Bachelor's degree.

Several committees presented reports to the Board. Work on Bonhöper Hall and the student center was approved as progressing satisfactorily. Hope was expressed that the Student Union would be ready for the fall semester. The work was hampered by unforeseen complications. Bonhöper Hall probably will not be ready until Fall, 1973.

Loan Program
The financial operations of the College were also discussed. The Schloss II program is reported to be progressing well, with the goal approximately halfway completed.

New student loan plans, sponsored by several foundations and banks, has been established and the Board voted to incorporate this plan at Ursinus.

Appointments
The Board also, as a formality, approved several faculty appointments. Dr. Donald G. Baker, Professor of Chemistry, and Dr. F. Phillip, Professor of Music, both of whom retired at the end of the Spring 1972 semester, were awarded Emeritus status. New faculty appointments and department chairmen were approved. Two new department chairmen, Dr. Albert L. Reiner, Professor of German, and Dr. John M. Wickerham of Classics were approved, and the remainder of the Department chairmen were reappointed. Several honorary degrees were also approved.

Guests
Mrs. Ruth R. Harris, a guest at the meeting, presented to the Board a summary of her numerous duties as Dean of Women and Chairman of the Student Affairs Committee. Charles Chamber, a student groom in the presentation, showing slides from his trip to Scotland during the 1971-72 academic year, when he was a St. Andrew's scholar at the University of Aberdeen. Miss Jane Muszweil also attended as a student visitor.

New Board Members
The Weekly notes with pleasure the arrival of two new members to the Ursinus Board of Directors, Dr. Robert J. Anderson and Dr. Alexander Lewis.

Dr. Anderson is Director of the International Universities Board of Sun Oil Company. He was a Bachelor of Science in Mechanical Engineering in 1949 and went on to earn a Masters Degree in Industrial Administration in 1961 while a Sloan Fellow. Dr. Anderson is married, father of two children, and lives in Wayne, Pennsylvania.

Dr. Alexander Lewis, Jr., is the Senior Vice President of the Gulf Oil Corporation. He was graduated from Ursinus College in 1938, received a Master of Science degree from the University of Pennsylvania, went on to earn a Masters Degree in Chemistry at the University of Pittsburgh, and the Ph.D. from the University of Pittsburgh in Chemistry.

Eleven U. C. Students Named To Who's Who

By MARK M. BORISH
Richard J. Whatchey, Dean of Men, has revealed the names of the eleven Ursinus College students who have been selected for this year's Who's Who Among Students in American Universities and Colleges. Criteria for selection included scholarship, participation in the campus community, citizenship and service to the school, and promise of future usefulness. The following is a short excerpt of each distinguished student's activities.

From Pennsylvania

Kathleen M. Abrham is the daughter of Mr. and Mrs. William A. Abrham, of Glen Ridge, Pennsylvania. She is majoring in Biology and has been treasurer of the Kappa Delta sorority and of the Ursinus-YWCA Club for the past two years. She is also co-chairman of the Campus Community Committee and the Brothers-Anders Pre-Med Society, and has been a member of the Millers since the last three years.

Susan K. Tu, daughter of Mr. and Mrs. George D. Kott, of Allentown, Pennsylvania. She is majoring in English. She is the recording secretary of the Kappa Delta sorority and is a member of the Ursinus-YWCA Club. A member of the Millers, she has been in the Millers for the last three years.

From New York

Linda M. Mabury is the daughter of Mr. and Mrs. Henry J. Mabury, of Whitehall, Pa., and is majoring in Mathematics. She is chaplain of the Kappa Delta sorority and former social chairman, president of the Ursinus-YWCA Club for the past two years, member of Millers, and senior in Mathematics.

From Washington

Linda Mills is the daughter of Mr. and Mrs. William H. Mills of Drexel Hill, Pa., and is majoring in English. She is a member of the Ursinus-YWCA Club, and is the president of the Student Activities Association, and member of the Millers. She is also a member of the Student-Faculty-Administration Relations Committee, Millers, and at Drexel Hill High School.

From California

James Craft

By JUDY JAMES

Dr. James P. Craft, Jr., assistant professor of political science at Ursinus College delivered his paper, “Cybernetic Models: Human and National Decision-Making Processes,” before the North East Political Science Association. He presented the paper as a controversial paper in a two-hour panel discussion on national decision-making and was the only paper on the色调's annual meeting at Amherst, Massachusetts, on December 23.

Dr. Craft explained that he had studied "the application of biological cybernetic theory to national decision-making in the form of a model and analyzed the theoretical implications of lack of communications or presence of adequate communications within national political policy-making and policy-executing organizations.

Confused by the explanation, this reporter asked Dr. Craft what is so important but difficult to understand and manipulate space.

A separate circuit, the writer was told, connected the brain where the hand is in space. A separate circuit, the writer was told, connected the brain where the hand is in space. Dr. Craft explained that his study could help solve the problem of understanding the brain's response to what is happening in space.

In his research, Dr. Craft examined the transfer of information within a decision-making organization. (Continued on Page 2, Col. 5)

Dr. E. H. Miller Elected Vice President Of Northeast Political Science Association

By JUDY JAMES

Dr. E. H. Miller, professor of political science at Ursinus College, was elected second vice-president of the North Eastern Political Science Association. The Northeastern Political Science Association was founded in 1879 by the merger of the Pennsylvania Association of Political Scientists and the Political Science Association of Pennsylvania from 1966 to 1968 and was instrumental in promoting the establishment of the various state organizations in the region.

The Association is dedicated to the promotion of research and scholarship. Annual two-day meetings are held where in which speakers, panel discussions, and seminars in the various phases of political science. The Association also publishes "Politics," a quarterly journal.

As second vice-president Dr. Miller will attend board meetings of the association and take part in establishing its policies. Dr. Miller has been a member of the University since 1963 and is a member of the Political Science Department since 1965.

Dr. Miller's academic qualifications for his new post are voluminous. He graduated from Ursinus College in 1939 and received his Master's degree and Doctorate in Political Science from the University of Pennsylvania in 1939 and 1940, respectively. He has been a member of the Department of Political Science at the University since 1963 and is a member of the University's executive committee.

Dr. Miller, who is himself a political scientist, has been attending meetings of the association for the past two years and has been active in its affairs.

Dr. Miller is a native of Pennsylvania, and has been active in political science for many years.

Dr. E. H. Miller is a native of Pennsylvania, and has been active in political science for many years.
Ever since we can remember, *Weekly* Editors have been plagued by criticisms directed against the length of our editorial sections. Much as we hate to admit the fact, those complaints are quite correct. This particular editor used to make the same critical point himself to the legendary Alan Gold—although Alan’s editorials never seemed to have suffered in attention from the average Ursinus student because of their length. Yet there is no getting around the fact that eight hundred words make a great deal of editorial; we will try to keep editorial mercifully short whenever possible in the future.

However, there is something which the reader should realize when he innocently remarks upon the length of the editorial. He is not telling us anything of which we were not already well aware; a fact that is true of most complaints about the *Weekly*. The editorial is lengthy for several reasons which should be made clear to the student body.

The several reasons stem basically from logistics; a paper with an editorial section must be printed almost every week, and that section must be full of relevant, well chosen, well ordered, and hopefully interesting copy. We believe that for speak for all *Weekly* editors past and future, we make editorial sections that are too long. The paper and the editorial section is good for more than a few good sermons a month on a limited number of subjects. Breaking up the column into different editorial subjects each week, would allow us to discuss our topics after three weeks into the semester. Now readers might regard that as a blessing in disguise, but we can say without qualification that editors do not.

There are only a limited number of activities taking place at any given moment which require an editorial comment, just as there are only a few national topics at any given time which bear the attention of a college newspaper. An editorial trip over the campus on a Saturday afternoon which subject a semester on the average. Were three subjects to be covered in one week’s editorial section, then the entire semester which is by far inferior to the perfect system in which department this year is that of Dr. Forrest Small. He is not telling us anything of which we were not already well aware; a fact that is true of most complaints about the *Weekly*. The editorial is lengthy for several reasons which should be made clear to the student body.

The Case of the Missing Counselor

By CAROL ABBOTT

The USGA voted to cancel having Mr. Richards, a Psychology teacher, come on campus to counsel students who are in need of help with their problems. Five members of the USGA, Kevin Albers, Dave Friedenberg, Pat Miller, Linda Mills and Dave Zimmerman, came together on President Pettingill's request on Tuesday, November 21, 1972, to talk about the reasons why having Mr. Richards wouldn't work.

The main reason is that the college would be responsible legally for any action which could be brought against Mr. Richards by a student who wasn't well advised. The Psychology teacher was not protected by the college's insurance policy. The administration feels that students should speak to any member of the faculty or to the college chaplain. The USGA sent the matter back to a committee for further investigation.

There are many, diverse opinions regarding this controversial subject. The following is a survey of what some of the faculty believe in regards to this affair:

Dr. Boney, the head of the English department, believes that there is a "need on campus for students to have somebody to consult." He feels that when students are deeply worried about a problem or problems that they have to deal with, they should be able to go to a counselor on campus. The counselor should preferably be a practicing psychologist.

Georgia Ferrrell, a teacher of Health and Physical Education and Hobson Hall's dormitory counselor, feels that "the whole college community should have access to a counselor." She said that there were many problems on campus capable of solving students' small problems. Yet, "counseling service provides anonymity." Miss Ferrrell feels that students might not go to their professors with their problems as they would wish to burden them with their anxieties. Her belief is that there ought to be a place for a trained psychologist in all junior high schools, high schools and colleges. Miss Ferrrell, a graduate of Ursinus College, felt as though an idea to students here it would have been beneficial to have a counselor here on campus.

A professor of the Psychology department, Dr. Fletcher believes in an idea to hire someone out of Pottstown Medical Health Clinic. He felt one afternoon a week from one o'clock to five o'clock would be enough time for a clinical psychologist to come. It wouldn't be a long-term counseling. He might agree with the faculty that it would be a little bit of a luxury if the counselor just spent most of his time talking to people with minor problems. The faculty can talk to those students. Yet with students who have major psychological problems a psychologist or psychiatrist is needed. Dr. Fletcher also feels that the school's aim for the selection of housemothers should be that they have had training or dealing with youth so that they can help to spots people with real problems.

Dr. Cope, a member of the History department, agrees with the previous three members of the faculty that "there probably should be a well-qualified counselor available to the students."

The Chaplain of Ursinus, Mr. Deterline, believes that "the students should be aware of the counseling service on campus." His idea is that any faculty member is readily available to help solve or just listen to students with minimal problems, yet students with major problems should be referred to a clinic or a psychologist. Also, if the kids do not wish to reveal their anxieties to a person related to college then there are folks in Collegeville who are capable advisors. The problem with a counselor is that he would not always be available on campus since he might have only come once or twice a week. Yet the faculty is always on campus ready and willing to listen to the kids problems and difficulties. He feels that students who wish to preserve anonymity can preserve it on campus since the people who have qualifications here for advising always maintain the confidence of the student.

Dean Harris believes that students have many available people on campus to get aid for helping to solve their problems. Some of the people willing to help students are: the faculty advisors, the resident heads, the seniors, the freshmen advisors, the academic deans, the Chaplain and the other members of the staff. Also Mrs. Claryemb, part of the medical staff, welcomes people to come in and talk to her about their hangups or difficulties. Yet, students have had problems the medical department and student's family will refer them for psychological help.

There are many feelings on the subject of the counselor. It is a controversial issue with many facets, ideas and views to it.
Student Union Group Outlines Plans For Spring, ’73 Opening

By JOE VAN WYK

The words Student Union mean more than a building, they also imply an organization. Currently at Ursinus, the Student Union consists of one building functioning as but as soon as the building is opened, the Student Union will realize that the Union is not just another campus group, they are the biggest student organization.

According to Bob LeMoine, who heads the Union, the building is proceeding ahead of schedule. The plans for the inside of the building have recently been approved and

Letters To The Editor

Yearbook Staff To Present Campus Life Realistically

By SANDRA WIEBE

Planning a yearbook that will be both artsy and well-organized, the editors and staff of the 1972 Ruby are busy at work. Jay Walter, sophomore, and Janet Mitchell, sen-
ior, are co-editors, and says Jay. "The philosophy of this yearbook is to present, in a pictorial essay, life at Ursinus as it really is." This includes dorm life, academics, peo-
ple, fraternities, sororities, and the many other organizations and ac-

tivities that are present on campus.

In recent years the yearbook has been criticized for its "clucky" style, but according to Jay, this yearbook will allow equal coverage for all aspects of the college. "We have a diverse, imaginative, and creative staff," states Jay, "which allows for a system of balances in organizing the book." 

Differences in the 1972 Ruby will be found mainly in the distribution of color pages throughout the book. Eleven color pages are planned, and they will be used in many of the candid shots.

The layout of the senior section will be another change. For the first time the seniors were consulted on how their section would be presented. Girls voted to wear sweat-
eries instead of the traditional drapes. Cost and tie were still re-

The seniors also decided that only their name and major should appear beside their picture. Activities, quotes, and addresses will be placed in a separate section.

Another possibility for change might be in the area of fraternity and sorority photos. Each sorority and fraternity might receive a double page spread with which it will be able to arrange its own lay-
out under the supervision of the yearbook staff.

Sports will receive much more coverage. Besides pictures of the teams there will be candid shots, records, and names of the players; and coaches.

Jay states that a change in the cover of the yearbook will occur but
that-it will still bear a quality of tradition.

The yearbook receives no funds from the school, but has one of the most expensive budgets of all school organizations. All finances depend on the sale of books, advertising and patrons. Clubs and organiza-
tions can buy advertising in the back of the book.

The yearbook also receives all profits from the football concession stand, which proved to be a success last football season. In past years, books were only purchased by about half of the stu-
dent body, and faculty sales have been down. Jay hopes with a more inclusive picture of the overall life at Ursinus, sales will increase. He urges the cooperation of the student body in making this yearbook a success.

The Ruby ’73 staff has already been chosen, but anyone with ideas should feel free to deposit them in the Ruby office in Fitch 106.
Messiah Performance To Be Thirty Fifth At U.C.

By NOSAN KADIRGAMAR

The thirty-fifth annual performance of the Messiah is being presented tonight (Thursday, Dec. 7) at 8:15 p.m. in the new gymnasium, Hoffman Hall. Tonight there are a total number of two hundred who will be singing. This includes several teachers and alumni. The performance will start with the chorus and orchestra presenting Bach’s “Benedictus Crude Here I Stand” and Händel’s carol fantasy, “Christmas Day,” which is a collection of old familiar Christmas carols collected together. There will be four members of the Metropolitan Opera who will be soloists tonight. Joan Kaplan is the mezzo-soprano. The soprano, Karen Altman, performed last year as did Dan Marx, the tenor, and David Clatworthy, the bass.

Most members of the orchestra are people connected with Philadelphia Orchestra. Messiah performances were begun on campus in 1938 by Dr. William F. Phillip, who retired in June as chairman of the college’s music department.

Conductor of tonight’s performance is Dr. Doug Hewlett, the new Director of Music at Ursinus. He is guiding us over three students: a senior, Jane Sell, who is the president of the department.

As we sing and hear the Messiah tonight let us also not forget the true meaning behind the performance. It is humble event that took place on a cold winter night in Bethlehem which has influenced the history of the world as no other event has. “God so loved the world to come to this world as a human being to face all the problems that we face as he has done in Christianity. His love is so great that many believe it incomprehensible especially in this century. Neither science nor philosophy in any other man’s advanced knowledge and technology could answer man’s problems. Man could find peace, meaning and purpose for his life and destiny only by accepting the greatest gift that was ever given and freely given which is the true love of God and His revelation through Jesus Christ. Let the unpronounceable holy name of the Lord who said “I AM WHO I AM” (“I CAUSED TO BE”—the real meaning in the Hebrew language) be praised. Let the peace of the little baby Jesus be with you.

WHO’S WHO

(Continued from Page 1, Col. 2) Pre-Theatre, Forum, and cultural committee.

William L. Hafer, son of Mr. and Mrs. Jack G. Hafer, of Reading, Pa., is a Political Science major. He is vice president and past president of the International Relations Club. He received “Honors upon Entrance” and was winner of the Freshman Class. Mr. Hafer is also a member of the Alpha Phi Omega social fraternity and the Campus Musical Organization; a junior, Jannette Bakalian; and a sophomore, Dave Spitko.

By RICHARD WHALEY

Dr. Carl F. H. Henry came to Ursinus College on Wednesday, November 29th, to speak at the Forum on the subject of “Divine Authority and the Bible.”

At 4:30 in Presbyterian Lounge, he met with the Socratic Club as an expert in the总有 what was called “Confrontation With Dr. Henry.” After the give and take discussion, he had dinner with the Socratic Club in the Presidential Dining Room. At 8:00 o’clock he was the speaker at the Forum on the subject of “Divine Authority and the Bible.”

During the discussion at 4:30, Dr. Henry discussed his evangelical aim, which is to have Christians not only accept Christ by an act of faith but intellectually as well. He feels the Christian message is for the whole man: the will, the intellect, the emotions. Christ expects to have all of us, nothing less.

Dr. Henry feels that one should not entirely leave out the logic of God, or one may lose the reality of God. Belief in God should not only be a leap of faith.

Non-Christians come up with a god that they feel comfortable with. They reduce God so that Biblical authority is second to the truths of science.

Humanists believed that everything was evolving to a utopia. The utopia dream was shattered by the nightmares of World War One and World War Two.

Neo-Orthodoxy believed that the Bible was not the word of God, and that God’s reality is a matter of internal decision. This was not much different from skepticism.

Dr. Henry believes that the Bible is divinely inspired and that the secular spirit will not accept the divine authority of the Bible because the Bible is authoritarian. Today we have reduced Biblical authority second to the truths of science. The Bible is to be taken as the Word of God. God has no higher authority than His own word. He ended the speech by saying the generation that buried Moses, buried themselves, the generation that buries Jesus, buries themselves in hell.

Some questions were asked after the speech, two involved the interpretation of the Bible and utopias. Dr. Henry responded that the Bible is its own interpreter, and that the secular utopia is a counterpart of the Biblical utopia of the second coming of Jesus Christ.

Dr. Carl F. Henry, Theologian, Speaks At College Forum

Dr. Carl F. H. Henry

By RICHARD WHALEY

Dr. Carl F. H. Henry came to Ursinus College on Wednesday, November 29th, to speak at the Forum on the subject of “Divine Authority and the Bible.”

At 4:30 in Presbyterian Lounge, he met with the Socratic Club as an expert in the总有 what was called “Confrontation With Dr. Henry.” After the give and take discussion, he had dinner with the Socratic Club in the Presidential Dining Room. At 8:00 o’clock he was the speaker at the Forum on the subject of “Divine Authority and the Bible.”

During the discussion at 4:30, Dr. Henry discussed his evangelical aim, which is to have Christians not only accept Christ by an act of faith but intellectually as well. He feels the Christian message is for the whole man: the will, the intellect, the emotions. Christ expects to have all of us, nothing less.

Dr. Henry feels that one should not entirely leave out the logic of God, or one may lose the reality of God. Belief in God should not only be a leap of faith.

Non-Christians come up with a god that they feel comfortable with. They reduce God so that Biblical authority is second to the truths of science.

Humanists believed that everything was evolving to a utopia. The utopia dream was shattered by the nightmares of World War One and World War Two.

Neo-Orthodoxy believed that the Bible was not the word of God, and that God’s reality is a matter of internal decision. This was not much different from skepticism.

Dr. Henry believes that the Bible is divinely inspired and that the secular spirit will not accept the divine authority of the Bible because the Bible is authoritarian. Today we have reduced Biblical authority second to the truths of science. The Bible is to be taken as the Word of God. God has no higher authority than His own word. He ended the speech by saying the generation that buried Moses, buried themselves, the generation that buries Jesus, buries themselves in hell.

Some questions were asked after the speech, two involved the interpretation of the Bible and utopias. Dr. Henry responded that the Bible is its own interpreter, and that the secular utopia is a counterpart of the Biblical utopia of the second coming of Jesus Christ.
**Cagers Open With Late Rally Nips Back to Back**

By VEETS

The 1972 Ursinus basketball Bears opened their campaign Saturday with a 74-71 speaker to the Juniata College Nittany Lions in a battle held at Haverford’s fieldhouse. The Bears featured a quick Haverford lead followed by an Ursinus rally and dynamic third quarter play which would seal the deal. In the second minute of the last period, the Bears hold a 56-53 advantage but four minutes later a great effort of Bill Downey was backed into a man-to-man defense. Haverford’s Bill O’Neill then made a great drive and appeared he had a three point play. However, on the foul shot attempt, Newman had left the lane too soon and the converted foul shot was negated. Again Sturgeon connected two more charity tosses and the board read 49-48 Haverford with only 2.33 remaining.

At this point the Bears still appeared to be in control although the Bear defense put great pressure on the ball. Guard Messenger proved to be the big bandit of the half stealing a missed layup and forcing a fast lead pass to Sturgeon who was fouled on an offensive foul. So with 1:26 remaining O’Neill left the ball game when his aggressive ball handling ability was most needed. He finished with 20 points and five assists. Sturgeon who has proven in past seasons that he could convert the foul shot when it counts just did that and the lead again belonged to U.C. Ursinus then went into a freeing defense as Sturgeon was fouled. He converted one of two and it led by two. At 0:18 left Sturgeon was tied up in attempting to air it out. Messenger controlled the tip-off, however it was stolen from him. From what appeared to be a sure Haverford solo field goal Messenger made a great defensive play on the Eagles’ Eigel knocking the ball out of his hands off him out of bounds. Second half after a series of unsuccessful full court open passes and a missed Cottel foul shot the Bears were up by two.

This week the cagers do battle with Widener on Tuesday, Dec. 3 at 8 p.m. in Chester, and tackle with Frank and Marshall in Lancaster on Saturday, Dec. 9. If the Bears are to survive these two tough tests it will be a matter of attack and continued strong defense. Reviewing the Bear scoring Sturgeon 13; Messenger 11; Stubbe 2, 6 rebounds; Cottel 20, 10 rebounds; Downey 0; Weston 1; Knight 1.

In JV action, Greg Waygand of the Bears and Ross Over the Junior Ford 59-47.

---

**Kilt Klad's Comment: U.C. Hockey Plays Off To California**

By RUTHAN CONNELL

Remember, if you can, November 20-21 when the Philadelphia Sectional Hockey Tournament was held at the Philadelphia Arena? Tournament six Ursinus ladies faced very good and as a result will be headed for California (that’s right, California) over the Christmas holiday. Ursinus being one of the teams in the States National Field Hockey Tournament. Sectional teams throughout the United States will be present. It can be expected that hundreds of girls will make up the United States Team and the U.S. Sectional teams will be represented. Ursinus who made Philadelphia Sectional field hockey co-captain, Philadelphia I left half, Alisa McCauley, Pennsylvania I right half; Jannell Love, Junior, Philadelphia I center half; Elizabeth Johnson, Philadelphia I right fullback; Janet Eisel, Junior, Philadelphia II center half; Marilyn Bhuyung, Philadelphia II left half; Judi Zeller, Junior, Philadelphia II left fullback; Lyle, Junior, Philadelphia II right fullback; Claudia Buehler, Senior, Philadelphia II left half; Gloria Matzig, Senior, Philadelphia II right fullback; Claire McEwen, Senior, Philadelphia II left fullback. These six Ursinus athletes will be in sunny California over Christmas playing field hockey and most certainly visiting Disneyland. Great luck and have fun you lucky devilish Ursinus ladies. The bright lights of the limelight, we go indoors and even underneath our own winter sports. Badminton, Basketball, Swimming comprise the list of activities. Ursinus with a brand new gymnastics and swimming pool at our own disposal, has everything in store, and more likely Ursinus will experience another famous win of this year! Yes, it is still too early to evaluate the teams but in the coming weeks all members of the returning veterans must work harder. Incidentally, the freshness of the famous Hillsb. Back hall is undoubtedly for a pleasant surprise.

**Sig Rho Whips Beta Sig**

In Ursinus Football Classic

By JOHN FIDLER

On November 16, a cold, damp Saturday, the dishwashers of Sigma Rho Lambda met and defeated theAedking and sliding members of Beta Sigma Lambda on Pattison Field. For what could have well been the grudge match of the year. The Betans, captained by Bob Gillis, were well suited to the playing surfaces in that their play was mired for most of the afternoon. Under-talented and demoralized by Sig’s havoc maneuvering, the boys from Curtiss put up a half-hearted defense of a game. On the other hand, the Heifers, led by semi-endless Gell who displayed an awesome defense during the entire game which didn’t come until later.

The opening kickoff was abandoned because nobody was wads, so the Betans, winning the toss of the coin, began to play on the 20 yard line. First downs were accomplished by reaching the 25 and 50 yard lines. The game was divided into two 300 second halves, the first of which brought little excitement to the crowd of sixty. At the end of the half, however, things started to happen. Junior Alph Maxmor blocked a Sig Rho scoring attempt in a pass from quarterback Bill Shirley to Tom Sturgeon in a heretofore unseen set of defense. Sturgeon long before Big Sig bounced back with one minute to play when Dave Good caught a pass from Jack Messenger. The score became 7-0 when Sturgeon kicked the extra point.

The second half began much like the first, the Betans on offense. What appeared to be an attempted reverse was intercepted by John Fabian (his fourth) and returned to win the game which didn’t happen.

At 0’43, the ball was taken from by Beta Sig and was returned to the goal line. From what appeared to be a timeout at 0’38, the clock ran out.
