The Ursinus College Board of Directors met in regular spring session; discussed tax proposals, committee reports, and appointments.

USGA Fills Vacancies; 3 New Members Elected

By JOE VAN WYK

The Ursinus Student Government Association held elections on Wednesday, March 7, to fill three vacancies—two for men's and women's representatives from the senior class and one for a sophomore class man's representative. Two of these races were contested. Chuck Chambers, a Political Science major from Dunwoody, Georgia, was elected senior men's representative. Cindy Miller, a Health and Physical Education major from Cranford, New Jersey, is the new sophomore man's representative. The newly elected sophomore class representative is Joe Rich who is a Political Science major from Center Valley, Pa.

Chuck is also the Editor in Chief of the WEEKN%, the Forum and Cultural Affairs Committee and during his junior year, he was an Andrew Rich Scholar at Aberdeen University, Scotland. Cindy is in Phi Alpha Psi and was secretary of her class's sophomore year. She is also on the Hockey, Tennis, and Badminton teams. When asked about her new office, Cindy commented, "I am, naturally, pleased to be elected; and I feel that I will be able to serve the students more effectively this year than when I did during my sophomore year. USGA has become in the interim I have learned more about how Ursinus operates. Being a USGA representative is Rich's first office."

These elections were held later than the regular council elections because the new council had previously run. The council was elected to stir up some interest though, and the vacancies were finally filled.

STATEMENTS

The Ursinus Weekly Board of Control will hold its regular annual meeting to select a new Rider Representative on Monday, March 19, 1973. All those interested in the position must submit a statement of purpose to Dr. George Storey, or Dean H. Lloyd Jones, or any other member of the Board before that date. Contact.presentator for further information.

Old Snack Bar To Be Transformed

By DAVID OCHOCKI

At a time when other colleges are putting their lab equipment into and selling a apples, Ursinus has a right to be proud. First a new gym, then a new student union, and now... The Montgomery County Center for the Performing Arts. (The selection of this name is in honor of Memorial Hall of Drama, but those who worked so hard in making the arts what they are here. This performing arts center is only one small step for ProTheatre, but it represents a giant leap for the fine arts at Ursinus.

The next meeting of the U.S.G.A. is scheduled for Monday, after dinner, in the Union. Everyone is invited to attend.

To fill the vacancies left by the resignation of Dave Zimm erman reported that the visit of the Bloodmobile was a complete success. A total of 156 people gave blood which was a 29% increase over last year's total. After the renovation are completed on Bomberger Hall, a large circular area will be placed between Bomberger and the old snack shop. The new location hopefully will encourage a wider use of bikes on cam-

USGA Secures Bike Racks; Readyies for J-Board Elections

The regular weekly meeting of Student Government Asso-

By DAVID FREDENBERG

The regular weekly meeting of Student Government Association was held at 6:45 p.m. Monday, March 5 in the conference room of the College Union Building. After calling the meeting to order, Presi-
derate David Zimmerman reported that the visit of the Bloodmobile was a complete success. A total of 156 people gave blood which was a 29% increase over last year's total. After the renovations are completed on Bomberger Hall, a large circular area will be placed between Bomberger and the old snack shop. The new location hopefully will encourage a wider use of bikes on campus.

It Depends on Your Point of View

Over one-sixth of Ursinus Weekly readers are not students or professors at the college; instead they are graduates, Board members, or friends of the college. We welcome these readers and hope that their number increases. However, we feel that our more remote readers should occasionally be advised how to read a campus newspaper, as this is a skill requiring some cultivation.

Growl!

First, let us see what happens to an unsuspecting reader who has not yet grasped how to treat a college newspaper. As often as not he (or she) will be lounging in his most comfortable chair while he both reads the Weekly and drifts off to sleep. And soon, when he runs across something unusual, he stops slouching, sits up straight, starts grinding his teeth, gulps, grows red as the blood shoots to his face, and finally he jumps from the chair, throws down the paper, and bellows some good thing to say about the advanced science courses, emphasizing that research projects and experimental courses were especially beneficial. For example, in a course of vertebrate physiology, the student is given an opportunity to operate on live animals, an experience which must certainly be helpful to future medical students. His feelings about his liberal arts courses were positive, but somewhat mixed. While saying that he got a great deal of the arts courses, he admitted somewhat ruefully that there were times during essay tests when he wished for an arts course tailored for the science major; though Dave conceded that some science majors do even better in the arts than in the sciences, "but what are they doing as science majors?".

Going on about the curriculum, and in response to a question concerning how best to get into medical school, Dave emphasized that good grades are the most important factor. The medical schools can always find, and always have room for, the top notch student, but the well rounded student, the one with offices and many extra-curricular activities, must have good grades. WRUC Radio Voice of Ursinus, On the Air 12 Hours a Day

By CAROL ABBOTT

The radio voice of Ursinus College, WRUC 95.5 FM stereo, is a non-profit organization. Approximately forty-five students are involved in the radio station which begins at ten o'clock in the morning and continues until ten-thirty at night. There are no commercials, only remarks made by the disc jockeys about the music and service announcements such as advertisements for campus activities. Community events are also broadcast over the station.

By the way, if you have a normal speaking voice and are of average intelligence, you too can become a member of the wonderful WRUC family.

THE UR SINUS WEEKLY

Published each week during the academic year by the students of Ursinus College, Collegeville, Pa. 19426. Seventeenth year of publication.

FOCUS:

David Mowere

By JOHN FIDLER

Almost no one in Ursinus mem­

ory has been so successful in his college career yet been so quiet and unassuming about it as David Mowere. In an age when those who have achieved half of what Dave has about at the top of their line about the fact, Dave Mowere has quietly worked his way into no less than four medical school admis­

sions. This must be a record even for Ursinus. Most students, if they know Dave, know him only as the person whom they pass so often in the corridors. The Weekly was fit to shatter the silence.

Dave came to Ursinus from Phoenixville, Pennsylvania, and is a senior biology major with, as he added, "almost enough chemistry credits to graduate with a degree in chemistry." He is also a mem­

ber of the wrestling team and was nominated most valuable wrestler in his junior year; he was undes­

ervedly a co-captain of the squad. When asked what his favorite pin­

ning technique was, he replied characteristically that any tech­

nique would do as long as it worked. In his sophomore year, Dave was asked to join a fraternity and choose De­

mas. He feels strongly about fraternities at Ursinus, does not think that fraternities are dying out at Ursinus as they are at many other schools. He feels that fratri­

nity life has been central in his college years and has provided him friends, a social life, and transportation to that social life to which he might otherwise not have had access.

Inasmuch as he has been accept­

ed at four medical colleges, Jeffer­

son, Hahneman, Temple, and Milton Hershey, the last of which he will attend in the fall, Dave has some

FIDLER ON THE WAX
New L.P. a Delight
For Traffic Fans
By JOHN FIDLER

Traffic is one of those bands who seem to change enough to make us notice the change, but still keep the old core. Traffic has always been a band that we have to waste time trying to define their new directions. One can see a similarity in the organizational aspect of music with Traffic, beginning with the 1970 release, "John Barleycorn Must Die," and continuing through the recently released "The Factory Fantasy." The new album might just as well be called "The Continuing Story of an Underrated Band," because, although far from being an unknown band, Traffic is enveloped in its own past which included several superstars at the head of the group. Some of the stars are still there, but the pomp is gone, and in the commercial world of pop music, if one strives real success, one must banish pomp. As Traffic sheds its dried skin of superstardom, they appear to be maturing, and it is this very quality which is admirable in Traffic.

On the surface, the new album is more of what we have come to recognize as Traffic's good music. But after a few times through, one begins to see this slight evolution of sound. Helping out are David Hood, bass, and Roger Hawkins, drums, who replace Rick Grech and Jim Gordon. The new men are studio musicians who know the ropes of the recording business only after years of playing. The rest of the group is the same as you saw on "The Low Spark of High Heeled Boys," last year's edition of the story of Traffic. Steve Winwood is still at the helm, singing, playing guitar and keyboards. And generally keeping the group together. Chris Wood, who has been content to play the Africanized percussion that has become a Traffic trademark. Last, and perhaps least, is Jim Capaldi, who is given credit with Winwood as having written four of the five songs on the album. Capaldi has been content to play the bass line, drums, who replace Rick Grech on the old form so we don't have to recognize as Traffic's good music. Whatever Traffic chooses to do on their next album, I am certain that they will be able to pull it off as well as they have on "Silent in the Factory Fantasy." As long as Wood and Wood stick together, they will continue to do well without the help of Dave Mason, who many consider the focus of Traffic's musical abilities.

BOARD MEETING
(Continued from Page 1, Col. 5)

Mr. Howard Schultze should be found it possible to recognize these two ladies who should be received.

UNION HEAD HAPPY

Dear Sirs: I appreciate the very fine account of the opening of the College Union which the issue of last week contained. I am sure I speak for all members of the Program Committee who during the early fall months and in the months previous to the opening of the Union worked so devotedly and with such great dedication. I noticed that you mentioned the names of the men on the Program Committee. I want to call your attention also to the two ladies who should be recognized too for their efforts and their work. They were Kathy Jo- pan and Judy Preclin. In addition to these students, the great number of people who served on the various committees in making final arrangements should be recognized. Their names are many, but all of them, due credit should be given. And don't forget, please, that Mr. Richter, Mr. Williams and Dean Harris were stalwarts and supported all that the Program Committee planned and accomplished. For the successful completion of the physical facilities in the Union, Mr. Howard Schultze should be given his credit. I hope you will find it possible to recognize these people. Thank you.

Sincerely yours,

H. M. Wessel
Director of the College Union

FEMALE UPROAR

To the Editor:
We, the future serious women of Ursinus wish to register a complaint against the dining service. "I," the author of The Sensuous Woman, states:

And this wise woman now knows to feed a man high protein and low carbohydrate dinner if she wants a good performance from him that night. If she stuffs him with macaroni, bread, potatoes, rich sauces and cake at seven he'll be snoring in front of the TV set by

(Continued on Page 4, Col. 4)
By RUTHANN CONNELL

Last Monday, March 5, our Ursinus Baby Bearettes traveled to the campus of arch rival, West Chester State. The Purple Rams came on strong on their home court, rolling ended their season last week on a couple bitter notes. First on Wednesday, our Baby Bearettes hosted the third and fourth team Rams from West Chester. What a fight our girls put up against a team that always seems to dominate our up and coming stars. Ursinus’ man-to-man defense was excellent and controlled the guards from West Chester. Our Baby Bearettes were tough under the boards, as well and did a good job rebounding. At halftime, we were down by only 24-22. Then third quarter saw Kathy Jameson hitting for 14.

Baylor Split Pair

Miss Baylor’s yard work set up a battle at the hands of a strong West Chester team. The first and second singles were the only Ursinus ladies to win. Captain Carolyn Fagley won her match in three games, 11-8, 11-4, and 11-3. Second singles Elaine Studer also went to three games winning 12-9, 10-12, and 11-2. The match was a learning experience for our girls afforded by the extremely well run, 44-2. The following day, Trentan Boydies traveled to Lock Haven State. The Trenton game completed the Ursinus Baby Bearettes. Way to go ladies!

RURYANG MILLER

By MARILYN HARSCH

The Ursinus girls swimming team ended its season Wednesday afternoon with a 70-18 victory over Bryn Mawr.

It was quite an experience for the team as most had never swam in the marble bath tub with the water-spooning over our heads. It was also the team’s first excursion into a cool locker room. The team finished the season with a 6.5 record in varsity competition and a 2-1 junior varsity record.

The real end of the college season came last Sunday, March 4. Ursinus finished 11th out of 27 colleges and universities of which we were the smallest in size. The 400 foot free relay lay of Betty Clayton, Tricia Kennedy, Patty Macafee, and Donna Snyder finished 4th for our high school finish. Betty Clayton took an 11th in the 100 I.M. and a 12th in the 200. Lee Rambo only cut a two take in 11 finals in the 1 meter diving competition.

Currently, Ursinus is enjoying the winning season and good to next year, to frost—Linda Heida, Terry Shettsline, Donna Lesoffler, Patty Macafee, and Pat Belmont; soph--Lee Rambo, Jerry Drane, Robert Punt, Courtsey Salenberger, Sid Hock, Donna That, Mary Caster, Marilyn Harsch, Marya Grubb, and Amy Harper; juniors—Cindy Marson, Betty Clayton, Pam Poole, and Cathy LeClaire; and Seniors—Wendy Lockwood and Joan Frankenfeld.
