Ursinus College would not be what it is without the college community. Most importantly, the parents provide the students with an opportunity to succeed and become MUST SEE UC students. Within this section, parents celebrate the chance to honor their children for their accomplishments at Ursinus and beyond.

The ads section also provides an opportunity for clubs, organizations, sport teams, departments, individual faculty and staff, and greek organizations to congratulate their seniors. Many of the groups use this section to dedicate or capture the memories made throughout the year through pictures and stories. In addition, the college community becomes a part of the Ursinus family and in many ways helps students feel more at home. Local businesses realize the support of Ursinus to their overall success, so they often take the time in the advertisement section to say thank you for the loyal patronage of Ursinus students and faculty.

Thus, the support of the parents, campus organizations and departments, and community sponsors helps to create a MUST SEE UC.
To the Class of 2003,

Congratulations on your fine achievements! As men and women that engender qualities such as understanding and mutual respect, I commend all of you for continuing to make Ursinus College an institution that fosters excellence and nurtures responsibility. I wish you all the best of luck in the years to come.

I would also like to applaud the 2003 Ruby Staff for producing another fine yearbook – job well done!

Sincerely,

John Strassburger

To our Babygirl,

Your college experience began at the University of Massachusetts in Amherst performing with the Sudler Trophy winning Minutemen Marching Band and being inducted into the Eta Sigma Phi National Classics Honor Society. As a transfer student to Ursinus College, you continued to succeed in being elected as SERV chief and being accepted into medical school.

The example you set for others and the unselfish way you dedicate your time are among the many qualities that make you special. You continue to be an inspiration through your caring and kindness. Never lose yourself in another’s shadow. Let your own talents and abilities allow you to grow.

Congratulations on earning your Bachelor of Science degree in Biology. Even though you will be unable to walk for graduation, you will be aspiring to your dream of becoming a doctor.

Just remember, the moments in your life may be temporary, but the memories are forever!

Good luck Susan
We love you,
