Campus Life considers alternative housing

By STACY STAUFFER

A new proposal has surfaced at Ursinus College, specifically converting Reimert Complex into a co-ed residence hall. The campus life committee is presently working on this proposed change with enthusiasm and support from deans, faculty and students alike.

This proposal is new to the Ursinus campus; however, co-ed housing has been prevalent on many campuses throughout the country. Male and female students share their positive feedback concerning this type of environment with statistics showing that students develop faster and better interpersonal skills when living in co-ed dorms.

The college's language requirement. Therefore, RA's should be compensated "with an increased, fair wage rate. $2.85 an hour, maximum, is not a justifiable rate.

French Department plans summer study abroad

By BRIAN KELLEY

French students interested in improving their language skills and experiencing French culture can enroll in a 27-day program of summer study in France. The program is worth three credits and can be used to fulfill French Department's language requirement.

The object of the program is to introduce intermediate students to French culture and to help advanced students further their knowledge of it. Anyone who has completed French 102 or who has the permission of the instructor can enroll in the program.

The program requires the completion of assigned readings, keeping of a journal, and preparation of a final project that will be due before the start of the 1985 fall semester.

Applications are available from the French Department at 303-005 Main St. The deadline is March 18, 1985.

The cost of the program is $1999, and is based on an enrollment of 20 students. This price is guaranteed if full payment is made by Feb. 10, 1985.

The cost includes transportation, scheduled sightseeing, hotel accommodations, two meals a day and tips and taxes. A $35 non-refundable registration fee, personal expenses, and lunches are some things not included in the cost.

The itinerary begins on May 21, 1985 and includes visits to Paris, Versailles, Normandy, Avignon, the Riveria, Nice and Cannes. The program ends on June 17.

A release from the French Department explains that "there will be enough leisure time to complete short assignments, brief projects and participate in small group discussions."

Run your own business

Run your own business? It's very demanding, but very rewarding. Monday at 6:30 p.m. the Business and Economics Club will present Charles Chase, regional vice president of College Pro Painters.

He will address entrepreneurship and managing your own business including such aspects as marketing, sales, people management, production, and financial management. At the end he will discuss summer job opportunities.

Meunch proposes RA pay raise

By ARIANE BICHO

Dean Meunch recently submitted a proposal to President Richter recommending an increase in pay to Resident Assistants. Currently, RA's make approximately $2.85 an hour comprised of 12 hours of duty a week and at least one hour of meetings with Dean Meunch. Unfortunately, these calculations do not take into account daily mail pick-ups, distribution of mail, maintenance reports, conflict mediation between students, counseling, and the enforcement of regulations.

Party regulations are especially difficult to enforce because RA's must shutdown fellow students' parties at 2 a.m. and report any illegal kegs, or they are fired — no questions asked.

Dean Meunch has also increased their responsibilities. All Resident Assistants meet as a group once a week to discuss problems, inputs or special events, and in addition they meet with her individually every other week to discuss any particular problems they have personally or with their position. With these increased responsibilities the wage rate RA's receive has dropped below $2 per hour.

Due to this low wage rate many RA's must work on other on-campus jobs. Unfortunately, a student may have the desire to be an RA but not be financially able due to the large amount of time the job entails. P. Mary Young, RA on Stauffer II said she "...had no idea it (being an RA) would take up so much time. But the time spent is usually very rewarding."

Being an RA is a 24 hour a day job. An RA could work on campus and get paid more, but his/her dedication and responsibility to the student body and school comes first; therefore, RA's should be compensated with an increased, fair wage rate. $2.85 an hour, maximum, is not a justifiable rate.

Campus enjoys third pub night

By KAREN WISE

On Thursday, Nov. 29, a sizeable group of Ursinus students and Red and Gold Days guests filled the College Union Lounge for this year's third Pub Night.

Comedian Mike Saccone performed the entertainment for the event. Saccone began his career in Kansass City, and he now works clubs and colleges along the East Coast. His hysterical ability to poke fun at a wide variety of topics seemed to keep his Ursinus audience very amused.

The Pub Night also featured non-alcoholic drinks. Guests chose from among non-alcoholic strawberry daiquiris, pina coladas, hot apple cider and bear beer.

Susan Ashman, director of Student Activities, said that they are plans to continue the Pub Night program next semester. Various types of entertainment are planned for future Pub Nights. The next one is scheduled for February, and tentative plans have been made to hire a singer to entertain.

Hopefully the Pub Night program will continue to be a success. It provides very entertaining evenings and welcome breaks from study to students.

December 7, 1984

The Grizzly was founded in 1978, replacing the previous campus newspaper, The Ursinus Weekly. It is published by students ten weeks each semester. The Grizzly is edited entirely by students and the views expressed in the paper are not necessarily those held by the administration, faculty, or a consensus of the student body. The weekly, "The Grizzly invites opinions from the college community and will publish them as time and space permit."
Phone jacks in Old Men's dorms a spring semester, Kane says

By JOSEPH F. PIRO

At present, the Reimert Complex has one phone per suite. The Quad and Old Men's dormitories have hall phones. Finally, off-campus houses have at least one phone located within the residence.

Summons for personal phones have gone out. J. Houghton Kane, Dean of Student Life, has responded by stating that Old Men's will probably have personal jacks in each room by next semester. The installations will hopefully be completed by the maintenance staff over the Christmas break. As far as personal phones for the remaining houses and dormitories, Dean Kane believes that the Quad takes priority over Reimert and the houses. There is a slight chance that the Reimert Complex will receive private phones in the future, but there are no plans at present.

However, there are some problems in the procedures of installing such a phone system. Dean Kane believes the first problem is a physical one. There is a difficulty in the structure of the buildings, and in the fact that the walls are made of cinder blocks and not dry wall. The whole project will also cost a substantial amount.

The second problem involves the capability of the phones once they are installed. This is basically a question of security. If students were able to obtain Quad security numbers, they might be able to make long distance calls which would be charged to the college. So a decision must be made between the choices of giving secret numbers to each student, or disallowing long distances and out-of-state calls.

Progress is being made, and Old Man's should have personal phones by next semester. The remaining dormitories will just have to wait for further developments.

College Bowl enters sixth week

By KIM WALTER

The College Bowl season, now six weeks old, is moving into its final week before the Winter break. Here is a recap of some of the more recent matches to date.

The evening of Nov. 12 saw Dave "Scarfman" Redstone's team Specpter pitted against the inexperienced Down Under. It was a massacre, as the amazing Redstone and his entourage clinched a decisive 205-10 victory.

A portion of the Phi Alpha Phi cast of brain women also clawed victory on that evening, as the Cast of Brain Women also clawed a victory over Girls Just Wanna Have Fun, 295-36.

Leroy Moser lead his new team, The 94Z Dix, by the score of 185-80.

On Nov. 19, Ron Brown's Zippy and the Pin Heads squad took center stage, donning bandanas as thinking caps. Obviously, the strategy proved successful, as Zippy scored an impressive win over The 942 Dix by the score of 150-55. In the second match of the night, Leroy Moser lead his new team, Zacks Driving to a thrilling victory over Girls Just Wanna Have Fun, 130-40.

Nov. 26 wrapped up the first round of action and constituted perhaps the finest evening of College Bowl competition thus far. It is the first game of this night which I have chosen as the College Bowl Match of the Month. The match featured R.C. suite 107's The Bar vs. Phi Omega Delta. The Bar jumped out in front quickly and were able to build themselves a comfortable half-time lead, but the second half, brought new life to the Bar's Ken Bull, who made an incredible comeback. Phi Omega Delta lead 150-100, with less than a minute remaining, when The Bar's Ken Bull correctly identified that famous historical figure "Knute," to give his team the lead and the eventual decision over Phi Omega Delta, 130-105.

The second match of the night showed an awesome Demas team, captained by Don Walz trounce the Diaphramgs, 185-80.

This past Monday night marked the beginning of round action in the loser's bracket. Each of the teams that competed lost their first round matches and faced elimination upon incurring another defeat. This is basically a question of security. If students were able to obtain Quad security numbers, they might be able to make long distance calls which would be charged to the college. So a decision must be made between the choices of giving secret numbers to each student, or disallowing long distances and out-of-state calls.

By SHARON TUBERTY

Cafeteria style dining, as experienced over the final exam period last semester, may eventually replace the traditional family-style dining at Ursinus. Mr. Scott Dempsey, Food Service Director at Ursinus, originated the idea of experimenting with this type of dining during finals.

Dempsey had a threefold purpose in changing the dining service during this period. He wanted to help alleviate the problem that increased food waste during final exam time. He felt that by allowing the students more time to eat, it might help them to feel more relaxed and less pressured. Secondly, Dempsey wished to find out exactly how much this new type of dining would cost and whether it would be feasible to institute it with the present facilities at Ursinus. Lastly, he wanted to know what the student reaction would be to such a proposal.

The results from the experiment seemed to be favorable. Dempsey noted that the dining hall seemed quieter and there was a marked absence of food fights. He said that if the cafeteria style would eventually be put into effect, the school would have to purchase additional equipment. He also commented that there were both advantages and disadvantages to the new program. The cost factor would probably be about the same as before, but with cafeteria style dining, the quality and selection of food could be improved.

Dempsey submitted his analysis of the dining situation to the administration who will ultimately decide if the cafeteria style dining should be used at Ursinus. Most likely, if the change did occur, it would be feasible for dinner meals only. The daily class schedule being partitioned into meals during finals was $4.40 for food, $1.15 for labor, and $1.70 for supplies and building maintenance. With the cutback in labor hours, the biggest portion of labor cost, more of the delegated food allowance could be allotted to food and thus the quantity and variety of food could be increased slightly.

The employment of waitresses would be a strong factor in the decision of whether or not to change dining habits. With cafeteria style dining, waitresses would no longer be needed and the full-time waitresses presently employed would be out of work. Also, there would probably be a decrease in the number of busboys employed, and currently there are twenty. Since many students do depend on their dining hall wages, this matter would have to be given considerable thought.

By AMY KISTLER

The daily class schedule being partitioned into meals during finals was $4.40 for food, $1.15 for labor, and $1.70 for supplies and building maintenance. With the cutback in labor hours, the biggest portion of labor cost, more of the delegated food allowance could be allotted to food and thus the quantity and variety of food could be increased slightly.

Students may have to prove draft status

College Press Service

MEMPHIS, TN. A court okay of a law forcing Tennessee students to prove they’ve registered for the draft before they can enroll at a state school could mean students in other states soon may have to prove it, too, draft opponents say.

Until now, students’ signatures on a form swearing they’d registered for the draft before they can get federal financial aid had registered.

Tennessee’s new law requires students to sign forms certifying they’ve registered with Selective Service just to enroll in a state school, much less to qualify for federal student aid.

As a result, Memphis State University refused to let 19-year-old Thomas Vogel start classes because he refused to sign the compliance form.

Vogel then sued the university and the state, claiming the law unconstitutionally involved the state in enforcing federal Selective Service laws.

Pointing to a controversial July, 1964 Supreme Court ruling upholding the Solomon Amendment — the federal law which requires students to prove they’ve registered for the draft before they can get federal financial aid — U.S. District Judge Thomas Wiseman recently approved the Tennessee law.

“i think we’re beginning to see the effects of the predicted decline,” adds Dr. James KeIlerman of Fort Hays State University in Kansas.

No one, of course, is sure. The National Center for Educational Statistics (NCES) won’t be able to release firm numbers for nationwide fall enrollment until next spring, and still predicts the student populations will remain near last fall’s record 12.3 million for the time being.

There are signs the numbers may be worse than expected, however.

“The South Dakota School of Mines dropped 10 percent,” says Gordon Foster of South Dakota’s Board of Regents. “This puzzles and surprises us. We did not expect this” at what has been a very popular engineering school.

Even if nationwide numbers approach last year’s, the downward trend is expected to accelerate. “We think the enrollment trend is just beginning, and will last into the mid-1980’s,” says Vance Grant of the NCES in Washington, D.C.

The reason is there simply are fewer high school-aged people in the pipeline that usually provides students for colleges.

This year, the number of high school grads dropped six percent, the National Association of College Registrars and Admissions Officers says, to some 2.55 million students.

There’ll be some 50,000 fewer high school grads next fall, and the total could fall to about 2.3 million by 1992, the College Board predicts.

There is a projected five percent decline each year in the college-bound population, and that is drastic,” says Dr. Glenn Carter, Penn State’s associate admissions dean.

“The first thing to go in a community college,” says James Mahoney of the American Association of Community Colleges, “is the part-time faculty.”

“An declining enrollment can affect a school in any number of ways, but I feel the impact will be felt across the board: it affects everything from the quality of the faculty to the existence of the school,” suggests Terry McKosky, Eastern Washington University’s spokesman.

Some New Mexico administrators fear a long-term enrollment decline could force them to fire 50 to 60 faculty members, while Minnesota and Michigan, among many other states, continue concocting plans to merge and close various academic programs to avoid expensive duplications.

But the number of high school grads has been dropping for years, from a high of three million in 1979, and colleges have coped by recruiting more “nontraditional” generally older students.

The difference this year is that recruiting nontraditional students is getting harder because of the improved economy.

“College is not necessary for better jobs in today’s economy,” says John Stiles, the University of Tennessee’s assistant dean of admissions.

“If people can come out of high school and get a good job, then they don’t go to college,” adds Sherie Story of the Washington State Community College Board.

If they don’t go to any of the colleges, which are suffering their worst enrollment drops in 20 years, they don’t transfer to four-year colleges.

“There are not as many transfer students coming out of community colleges because they don’t have students, either,” says Dr. Glenn Allen of the University of Missouri at St. Louis.

Main administrators profess they aren’t overly concerned. Officials in Tennessee and South Carolina attribute their enrollment declines to tough new academic standards, which cause some students to drop out. Still others simply won’t acknowledge decreases for any reason.

“Schools hate to admit they’re experiencing a decline” says Dr. Hasking Pounds of the University of Georgia system.

“Education leaders hear stories that their competition is doing better, and they don’t want to admit they’re not doing well,” adds William McNamara, spokesman for the National Association of Independent Colleges and Universities (NAICU).

“They fear negative publicity,” says South Dakota’s Foster, “and if a school is shown to be a nonprosperous institution, it doesn’t attract students.”

But, inevitably, hope is springing eternal. “The declines are supposed to last into the mid-1980’s,” McNamara notes, and adds the wonderful thing about our world is that predictions and surveys don’t hold up a lot.”
Paolone captures 118lb. title

Grapplers take second at LVI

Friday, Nov. 20, the Ursinus College wrestlers traveled to Lebanon Valley College for the two day Flying Dutchman Invitational tournament. The tournament consisted of 20 teams from Pennsylvania and neighboring states.

Ursinus wrestlers finished second in the overall standings.

The only team ahead of them was a tough Mount Union squad from Ohio who the Bears do not meet in the regular season. Individually, six men from the starting 10 received medals.

Top-seeded Ralph Paolone, returning LVI champ at 118 pounds, took first place for the second year in a row. Ralph defeated Randy Cook from Mount Union in the finals by criteria.

After a tied score, they went into overtime and were again tied 2-2 at the end. Paolone, having the only reversal in OT, won the bout and championship.

Prody Ververeli, wrestling at 167 pounds, had a very good tournament, taking second place. An 8-0 whitewashing of Albright.

An Ursinus wrestler rides his way to a win en route to a 62-0 whitewashing of Albright.

Men's B-ball jumps to 4-0

By JOHN CALLAHAN

The Bears raised their record to 4-0 this past week with victories over Albright, Haverford, and Swarthmore. The team continues to play excellent basketball as they prepare for the showdown with Widener tomorrow night.

Against Albright on Wednesday, Nov. 28, Ursinus found themselves in a close contest. Albright led throughout the game until eight minutes to go when the Bears went up 40-35. The lead changed hands several times after that. Paul Udovich hit a key jump shot with two minutes remaining to put U.C. up for good. Clutch foul shooting down the stretch by Rob Volko clinched the 61-58 victory.

Freshman Mike Sarubbi came off the bench to lead the team with 16 points. Udovich also scored 16 and contributed eight assists, while John Ginley pulled down eight rebounds.

The Haverford game on the following Saturday was an 89-54 blowout by Ursinus. The Bears never trailed in the contest and led by 10 or more most of the first half. Again the team was sparked by Sarubbi, who came off the bench to score seven points within a minute. The Bears led 40-30 at halftime. Ursinus blew the game wide open in the opening minutes of the second half by scoring 13 unanswered points. Sarubbi and Udovich each finished with 16 points, followed by Volko and Harte with 14 and 13 respectively. Ginley added eight points and 10 rebounds.

The team continued their winning streak by defeating Swarthmore 122-97 in a run and gun shootout. The team trailed Swarthmore in the first half, but turned the game around in the second period. During the first 7½ minutes of the second half, U.C. outscored their opponent 22-4 to take a 72-51 lead. From there they coasted to their fourth straight win. Six players scored in double figures. Volko led the way with 24 points, Harte followed with 19, Mike Schaffer poured in 16 and also grabbed 12 rebounds. Ginley pulled down 13 boards and finished the game with 16 points. Sarubbi chipped in with 14 and Udovich scored 10 while handing out eight assists.

The team is off to their best start in years, and two key factors to this year's success have been the outside shooting by the guards and rebounding by the big men. As a team Ursinus is shooting 55 percent from the field. (Udovich (63%), Harte (63%), Sarubbi (69%) and Volko (54%) have all shot consistently from outside. Ginley (8 rebounds per game) and Schaffer (7 RPG) have battled much bigger opponents to control the boards.

Bear facts: Tomorrow night's game against Widener is home at 8 p.m...Five players are averaging double figures in scoring: Volko (14.8), Udovich (14), Sarubbi (13.5), Harte (12.5), Schaffer (10.3)...Two former Ursinus stars, Jack Devine and Steve Donahue were in attendance at the Swarthmore game.

Women’s B-bailloses to Swarthmore

By MICHAEL MARCON

The Women’s basketball team began its rebuilding process last Tuesday with a 77-43 loss at the hands of Swarthmore College. Following the graduation of four senior starters from last year’s team, only junior co-captain Kim Caffey, sophomore co-captain Ginny Migliore, and sophomore Nancy Karkoska return with any varsity experience. Round out the squad are eight very talented, yet inexperienced, freshmen. This unusually high number is a tribute to the phenomenal recruiting job done by head coach, John Strwoet, last spring. The only player missing to make this team a serious contender is a big, six-foot center to add some force under the hoop. Until then the Lady Bears continue to be outmanned by much bigger teams.

The starting line-up for Tuesday’s game consisted of two freshmen, two sophomores, and a junior. All five starters were under 5’8”, while Swarthmore boasted two 5’11” players. However, rebounding wasn’t the major problem. Shooting only 23 percent from the field, the Lady Bears trailed the entire game. The 34-point loss does not do justice to the hustle and determination of the team as all 11 players saw some playing time and all played as hard as the end when they did in the opening minutes. The bright spot of the game had to be Ginny Migliore’s stellar defensive job on Swarthmore’s All-American candidate, Michele Fowler. Ginny held Fowler to 13 points (10 below her average) while scoring 17 herself. Coach Strwoet wasn’t too disappointed after the loss. “We played hard. We didn’t shoot well, but that happens. The things you can’t teach is hustle and, tonight, we hustled,” he said.

Still smarting from Tuesday’s loss, the Lady Bears traveled to Reading on Thursday to play Albright. Displaying the overwhelming talent present on the team, the Bears jumped out to an 11-point lead behind the torrid shooting of Nancy Karkoska. But, inexperience took over and U.C. had to settle for a 4-point halftime lead. This lead turned into a 7-point deficit early in the second half. The Lady Bears didn’t give up though. Lead by freshmen Kris Carr, Lynda Hughes, Bobbie Sue Copley, and a full-court press, U.C. closed the lead to one. That’s as close as we came with the game ending, 60-57. With a few breaks, the game could have gone either way. Kris Carr supplied 10 points (5-7) and some solid play. Kim Caffey, decides out of the pivot, turned in a yeoman performance of 6 points and 5 rebounds. Two points coming on the patented “Caffey thirty-footer off the break.”

The player of the game was Ginny Migliore. She had a repeat performance of Tuesday night. Ginny lead all scorers with 17 points. She also had four assists, two steals (team hogs went to Lynda Hughes and Kris Carr with three each), and held Becky Batdorf to six points (18 below her average).

The Lady Bears opened their home season by playing host to Muhlenberg on Tuesday. Rounding out this year’s squad are two sophomores, and a freshman. All five starters were counted. Ginny Migliore, and freshmen Laura DeSimone, Missy O’Donnell, Jean Radwanski, and Kate Iorio.

Fencing Club co-sponsors tourney

On Saturday, Nov. 17, the Ursinus College Fencing Club and Santelli (Fencing Equipment Company) co-sponsored the second annual collegiate tournament. Any fencer with four or less years of fencing experience were eligible to compete, the tournament attracted fencers from Phoenixville, Drexel, West Chester, Montco and Ursinus.

In the final round to determine the three winners, the top three fencers fenced seven times. The highlight of this round was a match that eventually determined the first place winner of this tournament. Paul Marshall of Phoenixville, and Stuart Sacks of Ursinus fought a see-saw battle that was tied at four in a bout to five. Stuart used a six to four disengage attack that Andy successfully defended against, and scored the winning point on his report, winning the bout by a score of 5 to 4.

At the end of the round Jim Garvin of Phoenixville had won third place, and a third place plaque, with a record of five wins and two losses. Stuart and Andy were tied for first place with identical six wins, and one loss records. To break the tie the number of points scored against each fencer were counted. Stuart had 21 points against while Andy only had 14 points against. Since Andy had less points scored against him, he won first place and received a certificate from Santelli, while Stuart won second place and a second place plaque.

The Ursinus Fencing Club would like to extend its thanks to Santelli and special thanks to Joe Dequinque for doing all of the directing.

Mermen win big

Defeat Swarthmore, 71-33

By SCOTT WILLIS

The Fightin Ursini leaped once again into action this past Saturday night here at the William Ellet Pool and to the surprise of absolutely no one, the Ursini overpowered annual rival Swarthmore, 71-33. This victory was particularly sweet in that Swarthmore has beaten perennial powerhouse Franklin and Marshall already this season.

“Where the kings,” stated the elated Bob Sieracki and he was absolutely right.

There were many impressive performances turned in by all ‘mers involved. It started off gallantly with an awesome 400 medley relay (Reds, Skeeter, Greg, Paul G.) in a stunning early-season mark of 3:54.9. The glory then continued with Bill Lacy (Space Man) turning in a “fake time” of 1:49.86. Real times will be submitted later in the season and Jerry turned in an impressive 22.75 in the 50 free. Bill also turned in another great (fake) time in the 500 free of 5:11.64 and Paul Barone in a 2:54.69. There were also several races that all three entrants fared awesomely. The 300 IM (Greg 2:10.87, Dave 2:13.92 and Skeet 2:16.30), the 300 Fly (Dave 2:13, Greg 2:19 and Scott 2:20) and the 200 breast (Skeet 2:28.13, Dave 2:28.96 and Chuck Baby 2:30.03). All in all, an impressive performance turned in by everyone.

As always a few post mortem comments are due. First to Lon Chudner head. Where were you?

Next is our new weekly public service section, Mer-Chick of the week. This week we’d like to spotlight the beautiful (but very dangerous) Heather “Boom-Boom” Camp, who impressed us all by getting a new shiny hydrofrizzmic O-Chi hairdo to keep up with her roomy, Ree-Ray.

Finally, I’d like to wish all of my faithful readers a Cool Yule and a Happy New Year. Be careful out there. We want you all back alive, Bill.
How to live with someone who's living with cancer.

Learning to live with cancer is no easy task. Learning to live with someone else's cancer can be even more difficult.

Nobody knows better than we do how much help and understanding is needed. That's why our service and rehabilitation programs emphasize the whole family, not just the cancer patient.

We run local programs with volunteers who are recovered cancer patients, or whose lives have been touched by family members or friends with cancer. That's what makes us one of the largest, best-motivated and most caring of any health organization in the country.

Among our regular services we provide information and guidance to patients and families, transport patients to and from treatment, supply home care items and assist patients in their return to everyday life.

Life is what concerns us. The life of cancer patients. The lives of their families. So you can see we are even more than the research organization we are so well known to be.

No one faces cancer alone.
