Faculty Action Approves Student Life Committee

On December 2, the Faculty approved the proposal for the formation of a Committee on Student Life but changed the provisions for the election of faculty representatives on the committee, so that one full professor, one associate or assistant professor, and one instructor should be chosen. Elected were Dr. Williamson, Dr. Cope, and Mrs. Lucas.

The proposed constitution for the USIA was re-committed to the Student Activities Committee for possible revision, because many faculty members had suggestions for further changes. These are to be submitted to the Committee chairman by December 15.

Combined Commencement and Baccalaureate

President Pettit will proceed with plans to combine the Baccalaureate and Commencement ceremonies on Sunday, June 6, 1971. Members of the Senior Class have expressed approval, and no objections were voiced by the Faculty.

Committee Members Appointed

Committees appointed: Ad hoc committee to prepare a memorial minute for Dr. Sturgis; Professors Heilemann, Staiger, and Baker.

Ad hoc committee to prepare a memorial minute for Dr. Wagner; Professors Yost, Dennis, Bailey.

"Task Force" to devise a recommended proposal to the National Association of Functional Humanities: Professors Hamilton, Craft, Williamson, DeCatur, Byerly, Garrett; Mr. Switzer.

Committee on Computer Needs: Professors Snyder, Hunter, Brenniler, Meyer, Craft, Sharp. Dr. Lewia as consultant.

Frosh Auction Slaves

The Frosh class sponsored a slave auction as a fund-raising project Thursday, December 3, after dinner in Winser auditorium. Frosh who volunteered were sold off as slaves to upperclassmen who could use them as they wished for any three hours Saturday, December 5. The activity brought the class of 1974 a net profit of over eighty-six dollars. The money will be used for the purchase of gifts for the spring and other class activities. Joan Cecil brought in the total of about forty to fifty Freshmen who volunteered were sold off as slaves to upperclassmen for a net profit of over eighty-six dollars.

YASS HAKOSHIMA

Yas Hakoshima, the only Japanese performing pantomimists in the Western world, presented a program of mime in Winser Hall on December 2. His original program included: Fisherman, Geisha, Haraku, Dictator, Puppet, Bunston, Dream, Forest, Labyrinth, Eagle, and Ecstasy. These works have been created by Hakoshima as a personal statement of his art.

The artist was born in Osaka, Japan. He studied Japanese literature at Kyoto University. In 1956, he became a member of the first Western Pantomime Group in Tokyo. He has worked with Etienne Decroux and other famous mime in Europe, and also studied modern dance with Erick Hawkins.

After reviewing Hakoshima’s performance, the Ursinus Weekly theater critic commented, “Hakoshima encourages an almost imperceptible energy to bounce and gain momentum until he seems to throb with life-action. It is an exciting display of concentration and control.”

CANDLESERVICE LIGHT

The Christmas Season at Ursinus, highlighted by the Candleservice Light, was sponsored by the Candleservice Committee, scheduled this year for Friday, December 4, at 8:00 P.M. in Bomberger Chapel. Everyone is cordially invited to attend.

U. C. Forum Features

The URSUSOFT Forum, held on the campus of Osaka University, presented a program of mime in Winser Hall on December 2. His original program included: Fisherman, Geisha, Haraku, Dictator, Puppet, Bunston, Dream, Forest, Labyrinth, Eagle, and Ecstasy. These works have been created by Hakoshima as a personal statement of his art.

By LESI SPACER

The request from the Student Long-Term Planning Committee to the USIA was re-committed to the Student Life Committee but changed. The Board has issued a mandate to the Executive Committee to proceed with the renovation of the College Union. The Finance Committee, the Board of Directors, and the Board of Trustees, accepted the plans and endorsed the work of the Committee. The Board has issued a mandate to the Executive Committee, the attorney for the Board of Directors will consider the constitution as it is within the corporate structure of the college.

The students, who are women who have volunteered, were further defined as a place to redress the consequences of the educational program of the college, and "a unifying force in the life of the college." Those roles have been further developed at conferences of the Association of College Unions—International. The last meeting held at Mercerian College was attended by 5,000 students.

The current meeting was held at the College Union, and the representatives of the various colleges and universities, with major emphasis placed on student participation at all levels.

Visualizing the future role in the development of the College Union and its programs, interested students should contact Janet Floyd or Lew Orchard.

33rd Messiah Tonight

Mezzo-Soprano Sophia Stefan is featured in tonight’s thirty-third Ursinus College rendition of “The Messiah.”

Ursinus Tops $29,413,288.28 in LoyaltyDrive

The $29,413,288.28 in Loyalty Drive was reached—and passed—on schedule, National Chairman Paul J. Gent, Jr., announced this week. The actual amount of gifts and pledges total $2,941,288.28.

The drive proceeded to conduct a fund-raising program to help underwrite the construction of a new library, science building, physical education facility, and the renovation of the old library into a student union.

The artist was born in Osaka, Japan. He studied Japanese literature at Kyoto University. In 1956, he became a member of the first Western Pantomime Group in Tokyo. He has worked with Etienne Decroux and other famous mime in Europe, and also studied modern dance with Erick Hawkins.

Student Union Plans Drag As Committees Deliberate

Constitutional Provisions

At Sky Top last spring, Dr. Helfwein suggested the Committee adopt a constitution for the operation of a Christmas union. The constitution provides for a governing board, a program board, and various operating committees, with major emphasis placed on student participation at all levels.

The Board of Directors expects to be taken in bid proposals by March.

The Student Long-Term Planning Committee which has been working on this project since January, emphasizes the student role in the development of the College Union and its programs. Interested students should contact Janet Floyd or Lew Orchard.

Fast Planned For Pakistan

The URSUSOFT has taken steps to raise funds for the relief of West Pakistan, which was hit devastated by a cyclone that claimed an estimated 500,000 lives by flood and tidal wave. The storm struck that country during harvest time, destroying the grain crop and leaving thousands of survivors starving.

The URSUSOFT has made arrangements to hold a Fast Day on Wednesday, December 10 from 9:00 A.M. to 9:00 P.M. on campus. The proceeds may be raised. Proceeds from the annual Fast Day will be donated to the Pakistan Relief Fund, an accredited charity of the Philadelphia area. The possibility of charging an admission fee is to be determined by the next ProTheatre production is being investigated. In this way the U.S.A. hopes to raise much money to avoid selling direct contributions. Student support of these activities will serve to aid people in great need.
Letters to the Editor

TOWARDS A BRIGHTER TOMORROW

Our cameras focus on Ursinus College, 1970, for the dedication of a new on-ramp to the expressway of life.

A new community has opened up here which is a true microcosm of society, no longer an island of a band of habitation, but a town at long last. The dramatic and exciting trends of the 1960s have made their presence felt on our greenwashed turf.

Are we infected or enlightened? Are these new stimuli villainous or virtuous? It certainly depends on which side of the proverbial fence you happen to be, or, on which side you wish to be. The urban, sophisticated student has brought with him his changing mores on sex, drugs, and general informality to a social surrounding that is sometimes hostile and, to be sure, has not yet caught up with these new concepts.

Wouldn’t it seem wiser for one side, progressive that it is, to give the other side a chance to shake off the cobwebs and obtain a clearer picture of what is happening? Ursinus tradition is not the grossly misshapen monster that it is purported to be, nor are the current students any more depraved than other people of their ilk, but I feel that Robert Doan of Min is showing an area of concern that has been conspicuously absent. Above all, this must be a platform for mutual understanding in an atmosphere of civil rationality.

The great comic playwright, Molieres, held up a mirror to his audiences, and they howled in delight. Yes, the ignorant are being taught what true education means?

MARC HAUSER

OVER-SEXED ROOMMATE

Dear Ursinus:

The great pestilence descended on Ursinus again last Saturday night when a regular party scene was replaced by sixteen open dorms. The invasion of privacy was even more popular than the invasion of the dormitory rooms. Everyone spent the night in the car house - we've become a girl in the room OVERNIGHT!!

It is bad enough that Open Dorms have been allowed at all, but the invasion of my privacy is atrocious. It is continuous until 1 a.m. and deprives other people of their sleep. My name is Robert Doan of Min and I am showing an area of concern that has been conspicuously absent. Above all, this must be a platform for mutual understanding in an atmosphere of civil rationality.

Robert Doan

STUART STERLING

SCIENTIST'S REPLY

Mr. Gold,

I was very disappointed to read Dr. Rice's recent letter concerning the open dorms. It only serves to reflect the worthlessness of the Dr. Rice I remember. Certain of his points are well taken. The CMPS are not able to administer the amount of the freshman's time cannot be denied, and that attendance at a CMPS test in time is perhaps true. But CMPS is not unique in this respect.

Thank you for printing this comment.

Dr. Rice

LITTLE MAN ON CAMPUS

Meeting was called to order by Jane Riegel at 4:10 p.m. on November 3rd.

Discussion was as follows:

I. It was agreed that the student directory should be issued earlier in the year.

II. Student life committees (formerly social committees) 1) will be made up of Deans of Men and Women; V.P. of Administrative Affairs; 2) an additional committee of the Penn State Student Council; 3) a committee of Phi Sigma Alpha. This committee will select the chairman of SFRAC. Note: It is hoped that this committee will be chosen by the President.

III. Faculty Salaries: 1) Sched. 2) Salary increases have been discussed. A letter to the President, chairman of the Academic Development Committee of the Board of Trustees, and suggest the rephrasal of fund requests directly into the academic process.

IV. It was brought up that more student life committees were desired in maintaining neatness in the student body. An attempt was made to suggest that if the present state of untidiness is continued it shall be based on faculty's initiative for the purpose of perfection.

V. Rattling was also discussed: A lack of trash receptacles around the campus was brought up. A lack of too many trash receptacles in an area is a unesthetic form (bag shaped) may help solve the problem.

The addition of heavy floor ash trays should be added to the Par- ents' Guide.

Respectfully submitted,

CARRIE CLARK

MEMORIAL SERVICE

A memorial service for Dr. Paul R. Wargner, who passed away suddenly on September 28, 1970, in Germany, will be held on Wednesday afternoon, December 1st, at the Bomberger Chapel. All friends, students, faculty members, and others interested in this event are invited to attend the service.

Respectfully submitted,

HARVEY M. MILLER

THE EDITORIAL CONTENT DOES NOT NECESSARILY REFLECT THE OFFICIAL POSITION OF URISNUS COLLEGE

Dear Mr. Gold,

In their continuing attempt to destroy the sanctity and morality and civility in our society, the long-haired hippie degenerates have started a new fad, to turn the four-letter word "love" into an obscenity by misusing it with yet another word: "free." Love should be earned and not passed around like the basest of cigarettes.

Glen Plaid
**REMEMBER:**

**The Academic Council**

An interview with Dr. Richard Bocour, Chairman of the Academic Council of the College.

**By CHUCK CAMBERS**

**Question:** What is the Academic Council?

**Chairman:** The Academic Council is a student elected body that is set up to handle academic affairs. The council can do itself as much as possible, but there are limits to this. It is nothing but a strainer, a sieve, because of Student Affairs, the Administration, the faculty. It's not set up to handle anything directly.

**Question:** How are the members chosen?

**Chairman:** The council members are chosen by the student body. They are elected to represent the student body and the Faculty. It was not set up for any external operations to handle academic affairs.

**Question:** What powers does the council possess?

**Chairman:** Some things are absolutely essential for this council to exist. For example, the council can do whatever it wants to do, within reason, so long as it is not interfering with the President's authority. The council can do their job, and they can handle any situation that arises. It is the top council of the college.

**Question:** When and where does the council meet?

**Chairman:** The council meets on the third Wednesday of every month, and it usually lasts for about two hours. They also have a meeting every other year. The council meets in the Board Room.

**Question:** Does it publish minutes?

**Chairman:** Yes, minutes are kept of council meetings, and they are made available to the public. The minutes are kept on file in the Board Room.

**Question:** Are there any specific actions or requirements that the council must follow?

**Chairman:** The council is granted a certain amount of autonomy by the administration, which allows them to handle academic affairs. However, the council cannot make decisions that would violate the President's authority. The council must follow the guidelines set by the administration.

**Question:** How does the council work?

**Chairman:** The council works by holding meetings, where they discuss and vote on issues. They also have a committee system, where they can discuss issues in smaller groups. The council has committees that handle different areas of the college, such as academic affairs, student affairs, and budgeting.

**Question:** Can the council make any decisions?

**Chairman:** Yes, the council can make decisions, but they must first be approved by the President. The council is very autonomous, and they can handle academic affairs on their own.

**Question:** Does the council have any influence on the President?

**Chairman:** The council can influence the President by providing them with advice and recommendations. However, the President ultimately has the final say in all decisions.

**Question:** What is the role of the Academic Council?

**Chairman:** The Academic Council is responsible for handling academic affairs. They discuss and vote on issues related to the college, such as curriculum changes, faculty matters, and budgeting. They also have the power to make decisions on matters related to the college, which are ultimately approved by the President.

**Question:** How does the council relate to the President?

**Chairman:** The council is responsible to the President, who has the final say in all matters. However, the council can influence the President by providing them with advice and recommendations. The council is autonomous and handles academic affairs on its own.

**Question:** What is the role of the President in the Academic Council?

**Chairman:** The President has the final say in all matters, and they can override the council's decisions. However, the council can influence the President by providing them with advice and recommendations. The council is autonomous and handles academic affairs on its own.

**Question:** Does the council have any influence on the Administration?

**Chairman:** The council can influence the Administration by providing them with advice and recommendations. However, the Administration has the final say in all matters.

**Question:** What is the role of the Administration in the Academic Council?

**Chairman:** The Administration is responsible for handling non-academic affairs. They discuss and vote on issues related to the college, such as budgeting, student affairs, and policy matters. They also have the power to make decisions on matters related to the college, which are ultimately approved by the President.

**Question:** How does the council relate to the Administration?

**Chairman:** The council relates to the Administration by providing them with advice and recommendations. However, the Administration has the final say in all matters.
Harriers Place Third In Middle Atlantic Conference

By PETE von SOTHEN

Friday, November 20, 1970 — A race which meant nothing to most people, but a date when something died at Ursinus College. On that day, the U.C. cross country team paid the price of being on top too long. The event was the annual Middle Atlantic Conference championship held in Philadelphia's Fairmount Park on the Belmont Plateau. This was the race which the Bears had dominated for two straight years; and which, in the minds of many, they would continue to do so this year as well. Yes, the names and faces were the same as those of 1968 and 1969, but something was different: intangible, yet very present. The final outcome reflected and even culminated this very frustrating and disappointing season. Ursinus had finished third, in a futile quest of a third M. A. C. championship.

Performances were the biggest letdown of all. Bruce Albert, team captain and the M. A. C. individual winner for the past two years, struggled home in 27:42, almost thirty seconds off his meet record. Bruce's time was only good enough for third, as two sophomores defeated the U.C. standouts in his last collegiate cross country meet. Rich Schultz of Swarthmore, the eventual winner, missed Bruce's championship record by a scant 0.2 seconds.

Tom McMorrow and Bob Moskowski captured 10th and 16th respectively, but their efforts were far from enough, as Swarthmore took 8th, 10th, 19th, and 44th in addition to Schultz's first. Also placing for Ursinus, in order of finish, were Tom Torchia, Bob Lane, Dave Wood, and John Russell. The junior varsity competition was highlighted by two outstanding races from Mike Cogle and Dave Marrington in 20th and 24th. Ray Berwick, Jim Eby and Graham MacKenzie also participated in the JV run.

What causes a team to drop from first to third in only one year? Perhaps, see three reasons. First of all, the Bears had more than their share of injuries this year. Dave Troshman, last year's 6th man, was unable to run at all because of mononucleosis suffered over the summer. Tom Torchia was still not fully recovered from a twisted ankle, and Tom McMorrow was competing with a thigh-muscle strain. Even Bruce Albert had ligament damage in one foot. All of this hurt conditioning, and affected the team significantly.

Secondly, there was disappointment, in the form of the twin loss to Swarthmore and F & M. The team had reached a mental peak for Swarthmore. Here, was the first genuine competition in four years. We all thought that we would beat Swarthmore — there was no doubt.

Tom McMorrow and Bob Moskowski captured 10th and 16th respectively, but their efforts were far from enough, as Swarthmore took 8th, 10th, 19th, and 44th in addition to Schultz's first. Injuries Cramp Style Of Ursinus Hoopmen

By DON McAVINEY

The Ursinus College basketball team opened its 1970-71 season on Wednesday, December 2, with an impressive 80-68 victory over the Fords of Haverford. The Bears, who outplayed their opponents both offensively and defensively, dominated the game from the opening tipoff. However, the victory was extremely costly due to the knee injury sustained by starting guard Tom Sturgeon.

Score Tied at 7-7

The Ursinus quintet took the lead after breaking a 7-7 tie early in the first period. The Bears assumed full control of the game at this point and were in possession of a comfortable 50-24 lead by halftime. With about 4:50 remaining, Coach Fry was able to substitute for his entire first team and did so by clearing the bench.

Sturgeon High Scorer

All five starters scored in the double figures with Tom Sturgeon, the sophomore from Phoenixville, Pa., leading the Ursinus scoring parade with 18 points. Farsey Catelli was close behind Sturgeon with 17. Gary Schall (14), Mike Weston (10), and Mike Hartline (10) completed the two-figure scoring for the Bears. Gary Schall also had an impressive game on the boards, pulling down 23 rebounds. The following Saturday, the Ursinus team traveled to Madison, N. J., and suffered their first defeat.
