Underdemocratic Election Offers Jim Stellar as USGA President

By JOE HOFFMAN

On Thursday evening, February 18th, the Ursinus College student body was faced with the unenviable task of choosing a new set of officers for the USGA. However, as in previous USGA elections, the student body decided that this task would be simplified—one-having a choice in just one of the positions. Candidates seeking the respective offices are as follows: President, Jim Stellar; Vice-President, Kevin Aker; Secretary, Jane Siegel; Corresponding Secretary, Eileen Schrag; Recording Secretary, Daphne Klime; Treasurer, Alan Novak.

Alan Novak, the outgoing President of the USGA, and Jim Stellar, last year's Vice-President, unopposed candidates for President and Vice-President, respectively. In the upcoming election, have similar views concerning the dearth of candidates for this year's election. Novak and Stellar, though pleased by the new and more liberal rulings concerning Ursinus College life—both academically and socially. As Alan Novak, the outgoing President, fully agrees, "in order to get students back into the active participation of student government, the administration must give the USGA more power and prestige than he had hoped."

John Gray Accepts Union Pilot Position

John Gray has accepted appointment as a representative on the proposed College Union in the old library. Because of the extensive amount of time required by this position, Gray has stepped down from his position as a candidate for the USGA. The Pilot Group will fulfill this objective by the end of April. The Officers and Committee of the College Union will be selected and seated together well before the scheduled opening of the College Union Building. Renovation is scheduled to begin this summer.

Governor's Ball Elegant, Festive

On January 11, the coldest night of the year, The Inaugural Ball for Pennsylvania’s new Governor, Nathan S. Shapp, was held at the Shrine Mosque in Philadelphia. The Arthur Hall Band provided colorful entertainment. Everyone was present to match IBM employee gifts to the College Loyalty Fund. Four Ursinus alumni are employed by IBM.

PEN & INK OFF-LIMITS

The management of Collegeville's Pen and Ink restaurant and tavern has announced that Ursinus students under the age of 21 are not permitted in the Pen and Ink, having not presented a rise in crime in Collegeville from reaching campus. There have been thefts reported following each of the evaluations. The majority of these involved forced entry into suites in the New Men's Dormitories. The three wheeled patrol proved unable to prevent the theft of an ARA dollar change from the Snack Shop, and to prevent at a later date the breaking in of a door of the building and the related breaking of a window in Paisley reception room.

Emergency Procedures

The case of a student recently being a finger showed a serious deficiency in the school's preparation to deal with an emergency. A nurse is required to be present at every home football game. The accident victim, thus, found the innermost darkest. There was no medic available, and so one medical attention, which otherwise might not have been able to afford. This situation has been "corrected" by the addition of a medical emergency telephone which connects with an answering service. An inquiry into what procedural instructions the answering service had been given was found for some reason of difficulty. As a result, the note that the operator was to call school physician Dr. William.

I.B.W: Matches Gifts From Ursinus Alumni

Harvey J. Coleman, representative of International Business Machines, Inc., presented a check from the company to match IBM employee gifts to the College Loyalty Fund. Four Ursinus alumni are employed by IBM.

MANDATORY FORUM PROGRAM

ATTENTION: ALL STUDENTS

1971 Ursinus College Rules and Customs #19. "Several forum programs are scheduled each semester, some during the day and some during the evening. Every student is required to attend two Forums in each semester during his first six semesters. The fulfillment of this requirement is noted on his permanent record."

Mike Flad: Security Guard

By DAVID L. HERMANY

Mike Flad, a resident of Ursinus College, is one of the few students who makes his living in the off-campus world. Flad is a member of the security force that is now being established on the campus as an additional guard for the building. Flad, who has been involved in security issues for several years, is a good example of what a student can do to help protect the campus.

I believe that the majority of the students at Ursinus are mature. They express concern about the present situation, especially with regard to the nature of the establishment. They also understand the need for the establishment to be run on a more responsible basis and are prepared to do their part in this regard.

Rules and Regulations

Yes, I disagree with some of the rules that are in force on the campus. They are not unreasonable, however. I am an individual in this establishment, and I believe that I have the right to speak out on my behalf and to express my views to others. I believe that the student body as a whole should be given the opportunity to express their views, and I think that the student body should be given the opportunity to participate in the decision-making process.

As for being deprived of your roommates, I can say that I believe that your roommate's activities are oversued for having a female present in the room, especially when they last three times a week. I believe that you have a right to be free from such activities, and I think that the administration should do what they can to make sure that such activities do not happen.

On Firearm

I firmly believe that the firearms should be kept on the campus for the safety of the students. They are necessary for the protection of the campus and the students. By having the firearms, we can protect the campus and the students from any potential danger.

On Parking

Parking Problems

Parking is a problem on the campus. There are too many cars parked on one side. By having the firearms, we can protect the campus and the students from any potential danger.

On Students

Students are facing a lot of problems on the campus. They are being deprived of their roommates, and they are being deprived of their freedoms. The administration should be doing more to help the students, and the administration should be doing more to protect the students.

On Firearm

I believe that the firearms should be kept on the campus for the safety of the students. They are necessary for the protection of the campus and the students. By having the firearms, we can protect the campus and the students from any potential danger.

SPORTS CORNER

JIM WILLIAMS

Watching the bookstore does have its merits. Last week-end we were treated to the thrill and excitement of Big Five basketball. This five-team league (Penn, Temple, LaSalle, Villanova, and St. Joseph's) has seen some intense competition in its history, but none better than Saturday's Villanova-LaSalle tilt.

Perhaps nowhere else in America are basketball contests so hotly contested. What has developed between these schools is something unbelievable—as when LaSalle (minus star Ken Durrett) toppled the mighty Wildcats.

The intense Big Five competition has produced more than great basketball. It has also enabled the pride each student has in his school and has increased community awareness in the Philadelphia area. Intercollegiate athletic rivalries have advantages.

There's a lesson here for small colleges like Ursinus who are struggling to create interest—both on and off the field. There's no reason why Ursinus cannot compete for a trophy in football, basketball, or all sports. We see no reason why Ursinus cannot have the excitement of the Big Five on a smaller scale.

The intense Big Five competition has produced more than great basketball. It has also increased community awareness in the Philadelphia area. Intercollegiate athletic rivalries have definite advantages.

UC Netmen Fall to Mules After Win Over Hopkins

By DON McAVINEN

The Ursinus basketball team returned to the court Thursday, February 11, after a ten-day lay-off and easily defeated a powerful Johns Hopkins squad. The Blue Jays entered the game with almost casual success, displaying his usual speed once again, clocked at 1:16.2 yard mile, and has also increased community awareness in the Philadelphia area. Intercollegiate athletic rivalries have definite advantages.

3 BIG teams hit the courts and the pool to begin the uphill climb towards the conference meets. Miss Snell's Court Belles, Miss Boyd's Badminton Racketeers, and Mr. Van Horn's Aquatics...Co-Captains Kip McKalic and James Pantano..."At a team of retiring B-V ball veterans to try to improve on last year's ranking as # 5..."

The Bears are struggling to create interest—both on and off the field. They were unable to hold it and trailed 45-40 at intermission. In the second half Ursinus hit an early cold spell which gave Muhlenberg the momentum they needed. The Bears capitalized on a slight height advantage and gradually widened their lead to 62-50 with ten minutes remaining to be played. The Bears continued to hustle, but they were never able to make a strong spell for the lead. The game ended with Muhlenberg trailing 92-74. Tom Sturgeon was high scorer for the Bears with 33. Mike Weston and Mike Hartline were also in double figures with 17 and 11 respectively.
