Lack of UC Safety and Security Irritates Students and SFARC

BY JON WEAVER

Safety hazards to the security of Ursinus students were again aired to the college community by the new President Jim Stellar and Walker Tompkins at last night's meeting of S.F.A.R.C. Students, some of whom were feeling the inadequacy of the fire alarm system in the Men's New Dormitory, expressed the need for a system and ultimatum despite the presence of the security guard on campus, "I'm one of those people that has never been in eight-off-campus-girls dorms, and I think the emergency medical facilities are very lacking," a UC student said.

A Deaf Ear

"I'm one of those people that has never been in eight-off-campus-girls dorms, and I think the emergency medical facilities are very lacking," a UC student said.

The inadequacy of the fire alarm system in the Men's New Dormitory is not a new problem. The system proved far too quiet to be heard. New bells were installed approximately a year ago but these were reported insufficiently loud. "Given the usual noise level of a dormitory, with talk, radios, and records playing, the fire bell is barely heard by any of the occupants, and thus, could not be expected to awaken anyone who might be asleep," the problem was voiced by the Buildings and Grounds Committee on March 2, 1970, eliciting a promise of an investigation into the matter. The problem was again raised at last year's meeting of S.F.A.R.C., and a number of proposals have been made to correct the problem. A proposal for a simultaneous ringing of telephones was non-existent. Wailing sirens and claxons have been proposed as alternative warning devices, but administrators expressed a desire to retain bells as standard for all buildings, thus avoiding any possible confusion.

Proctor Walter Tompkins has promised bells placed in each suite by existing wiring, but as yet the inadequate bells remain, prompting proctor Tompkins to comment "Fire alarms have found a deaf ear."

Lost Allocation

Eight off-campus women's dorms have no locks for room doors despite an allocation last year of $1612 for the installation of such locks. The allocation came last year as a result of the Buildings and Grounds Committee following thefts from Durrall Hall last year while in use as a residence at dinner. Requests by resident officers to have locks installed in their own rooms have met with disapproval.

Shaman Cop

The addition of the Miley Detective Agency to the college community last year was not without its critics. The most recent of these involved forced entry into suites in the Men's New Dormitories. The three wheeled patrol proved unable to prevent the theft of an ARD dollar changer from the Snack Shop, and to prevent at a later date the breaking in of a door of the building and the related breaking of a window in Paisley reception room.

Emergency Procedures

The case of a student recently being a finger showed a serious deficiency in the college's prearranged plan, "A nurse is required to be present at every football game," the accident victim, thus found the immediate necessary. There is no medical attention, some of which are included in the student's insurance. The injured might not have been able to afford. This situation has been "rectified" by the addition of a medical emergency telephone which can be answered by the nearest medical assistance. A medical team is on call to the college physician Dr. William Shap.

John Gray Accepts Union Pilot Position

John Gray has accepted appointment as Student Pilot of the Union Pilot. The Pilot's role has been that of student representative to the Board of the College Union for the past four years. The Pilot Group will fulfill these objectives.

Voice of the Majority

The President-elect candidly adds that he will not bring with him many new and interesting ideas, but will try to improve and expand on many of the areas of student government not yet fully developed. The first priority, he says, will be to have the U.S.G.A. assume the voice of the majority of the students and thus, in the same time concern itself with the views of the minority," he explained. Stellar also has various specific plans that he will institute during his upcoming tenure. He wants to widen the use of the Campus Communications System which would make available to interested students the use of the phones of each of the U.S.G.A. mailing list. He also states that he will support protest marches that have the support of the majority of students—so did his predecessor, Alan Novak. In addition to acting as a representative body, the incoming president wants the U.S.G.A. to get involved in such "non-essential" areas as ecology, improvements in education, and with the election year coming up, to run a campus television campaign. To supplement these areas he wants to bring in speakers such as Ralph Nader and other individuals concerned with today's world.

Unlike most candidates who run for an office, Jim Stellar has had neither a campaign nor a fund to carry on campaign promises. Thus one can fairly say that plans he laid down for his term in office are realistic ones and congressmen who consider the candidates can be accomplished through hard work and diplomacy. However, the President-elect will sell if his term and President of the U.S.G.A. will be different from those of recent years.

McGovern's Ball Elegant, Festive

On January 19, the coldest night of the year, the Inaugural Ball for Pennsylvania's new Governor, Milton Shapp, was held at the Temple. The Mosque was decorated in the style of the YMAA. To ensure safety within the "Y" Mark Trishsim, former Colonel of the "Y" has agreed to fill out the remainder of Governor Shapp's term.

The objectives of the College Union Pilot Group are:
1. To act as a bridge between the present social system at Ursinus and the establishment of a college union.
2. To inform the student leaders and organizations of the college as well as the benefits and operations of a college union.

B.W. Matches Gifts From Ursinus Alumni

Harry J. Coleman, representative of International Business Machines, Inc., presented a check of $100 from the company to match IBM employee gifts to the College Loyalty Fund. Four Ursinus alumni are employed by IBM.

PEN & INK OFF-LIMITS

The management of Collegeville's Pen and Ink restaurant and tavern has announced that Ursinus students under the age of 21 are not permitted in the Pen and Ink, regardless of the purchase of alcoholic beverages. An exception to this ordinance would be a student accompanied by his parents.

Mike Flad: Security Guard

By David L. Hermey

March 4

Maxwell College campus from 10 p.m. until 6 a.m., a resident of Collingrove, and a core member of the campus police force. The article includes a discussion of the questions which are of major concern to the students.

"My duties consist of patrolling the grounds and buildings in search of suspected vandals, and of course, to act as a deterrent to outsiders, as far as vandalism and harassment is concerned."

On Firearms

"I firmly believe that the guards should have firing rights in those conditions that they are in cases of self-defense."

The article then goes on to discuss the role of the guards in providing a sense of security and the importance of maintaining a safe environment on campus.

"In a matter of seconds we can provide a place that is secure for the students and professors."

Rules and Regulations

"There are a few rules that are important for the students to follow."

The article outlines several rules and regulations, such as the prohibition of firearms on campus, and the requirement that students keep their dorms clean and well-organized.

"As far as being deprived of your room key goes, I can say if you believe that your roommate is overserved for having a female present in the room more than once every seven times it believes you well, you never know what life is all about."

The article then goes on to discuss the nature of the relationships between students, and the importance of maintaining a respectful and safe environment.

"I think the students are beginning to understand that the majority of students at Ursinus are mature. They express concern, act responsibly, and have a fresh outlook on some of the issues of the establishment."

The article concludes with a discussion of the importance of maintaining a safe and secure environment on campus, and the role of the guards in providing this security.

KITCHEN CYNIC

"Put Up, Start Up"

By Jane Siegel

The article discusses the difficulties faced by students who are trying to establish their own households, and the importance of finding solutions to these problems.

"As far as being deprived of your room key goes, I can say if you believe that your roommate is overserved for having a female present in the room more than once every seven times it believes you well, you never know what life is all about."

The article then goes on to discuss the nature of the relationships between students, and the importance of maintaining a respectful and safe environment.

"I think the students are beginning to understand that the majority of students at Ursinus are mature. They express concern, act responsibly, and have a fresh outlook on some of the issues of the establishment."

The article concludes with a discussion of the importance of maintaining a safe and secure environment on campus, and the role of the guards in providing this security.

DEAN'S LIST

(Continued from Page 2, Col. 5)

The full story has finally been told here. During the preceding week we had been hounded, hung up and written down. Dates, details and disasters have been turned over to the press, and the story of the bothersome boys has been told.

The full story has finally been told here. During the preceding week we had been hounded, hung up and written down. Dates, details and disasters have been turned over to the press, and the story of the bothersome boys has been told.

A local political scientist once asserted, "Government always reverts to the lowest common denomina-

Thought about it. Flaming liberal- ers arelamically dominated, who venominously complaining about the irrational and unwarranted rules and regulations of the campus government.

The real culprits are the government of the American Institute, who venominously complaining about the irrational and unwarranted rules and regulations of the campus government.

SPORTS CORNER

JIM WILLIAMS

Watching the bookstube does have its merits. Last weekend we were treated to the thrill and excitement of Big Five basketball. This five-team league (Penn, Temple, LaSalle, Villanova, and St. Joseph’s) has seen some intense competition in its history, but none better than Saturday’s Villanova-LaSalle tilt.

Perhaps nowhere else in America are basketball contests so hotly anticipated. Among the reasons that have developed between these schools is something sometimes unbelievable — when LaSalle (minus star Ken Durrett) topped the mighty Wildcats.

The intense Big Five competition has produced more than good basketball. It has enhanced the pride each student has in his school, and has increased community awareness in the Philadelphia area. Intercollegiate athletic rivalries have definite advantages.

There’s a lesson here for small colleges like Ursinus who are struggling to create interest — both on and off — in their athletic programs. Why shouldn’t Ursinus establish such a rivalry? An informal league could be created with rivals of long ago. These forays in football, basketball, and all sports. We see no reason why Ursinus cannot have the excitement of the Big Five on a smaller scale.

UC Netmen Fall to Mules After Win Over Hopkins

By DON McAVINCE

The Ursinus basketball team returned to action on Thursday, February 11, after a ten-day layoff and easily defeated a powerful Johns Hopkins squad. The Blue Jays entered the game with heavy favorites as and it often happens took the Bears a little too lightly. The result was a stunning upset victory for the Ursinus boys who played without the services of injured captain Gary Schaal.

The game opened with Hopkins scoring quickly, but the Bears came right back to tie it up. The early lead changed hands several times before the Bears overcame a five-point deficit and took the lead 29-28 with five minutes remaining in the first half. Ursinus never trailed after this point and took a 2-0 lead into the locker room at halftime.

The second half saw Ursinus consistently force the opponent into mistakes and the Bears continued turn over a second-half flurry.

Ursinus used its taller front court to its fullest advantage and outdistanced the Mules with the momentum they needed. The Mules capitalized on a slight height advantage and gradual

Kilt-Klad’s Comments

By CRIS CANE

3 BIG teams hit the courts and the pool to begin the uphill climb toward the national championships. Miss Snell’s Court Bellies, Miss Boyd’s Badminton Racquets, and Mr. Van Horn’s Aquatics... 

Co-captains Kip Mallie and Scott Sande, with a team of returning B-Vballers to try to improve on last year’s ranking as #5... 

The future this year is in North Carolina — someplace near a West Chester victory...

The Bearcats split on the road against East Stroudsburg State on Friday, February 5th... 

The Racquets settled for two close losses against Elise Tommasi and they are ready, reinforced by some enthusiastic freshmen, to freshen up with a victorious return.

In their foreign pool at Phoenixville, the Aquabearcats rally around Captain Marlin Hunter and co-captain Trudy Schneider... 

Also refurbished with some form of excitement are the Ursinus bowling team which opened this season on the 100th and swing into the season after vacation... 

And 5 new girls in athletics to add to the total of 96 Nationalists no less! No, U.C. girls in athletics do not have to wait in the winter, they just continue their training in the warm weather... 

Get out and support their efforts... more than wins to keep them warm.
