Six Seniors Vie For Homecoming Queen

By EILEEN SCHLAGER

"Stand firm — stand together — stand up and be counted!" — from keynote address by Dr. Allan L. Rice.

On October 15, 1969, the Ursinus College community took part in part of the nationwide Vietnam Moratorium. The theme of the address was "What the Individual Can Do". Miss Porter, set up a program of orderly discussion and peaceful demonstration.

Keynote Participation

The mood of the day was set by the first activity, an hour of individual meditation. Following this, at 9:00, in Wissner Auditorium, Cyndy Deyto read the National Call for the Moratorium, then Ed Wilmski introduced Dr. Allan L. Rice. Rice opened the discussion by offering rebuttal to Dr. Rice's keynote. Dr. Miller felt that, "This is a moral issue. Religion must concern itself with life. We were wrong from the start in Vietnam. This draft system saps the moral strength of this country."

At 10:00, there was a Rice "Fast" for all students who wished to participate rather than eat the lunch in the dining room. Approximately 200 people took part in the fast and opted for the rice mixture provided by the kitchen.

After lunch, tents were blown, church bells were rung and some of the stores in Collegeville closed in recognition of the Moratorium.

Draft Counselor Speaks

At 1:00, there was a general discussion on the Vietnam war. Dr. Levyter attended the meeting and introduced Mr. Karer, his Master's degree from the Marine Corps, and his husband. He has been active in many of the peace demonstrations and has taken a very strong stand against the war. In addition, he is the chief teacher of the Ursinus Peace Committee, and his wife, the Friends Peace Committee, and he marched the marathons for the Peace movement into Washington, D.C. In his opening statement, he expressed his hope that if you want peace you have to sacrifice because of what you have to go to jail rather than from Vietnam.

He felt that, "The only way to end the draft is to resist it. Mr. Lev- erter was asking on what alternative methods of defense the United States could institute, and he suggested that this was Czechoslovakia. Mr. Levyter concluded the discussion with the belief that in the future, this country will be able to say that these peaceful demonstrations will end up turning the country upside down to turn it right side up."

Panel Airs Issues

Following this, the program was turned over to panel discussion. The members of the panel were Mr. Zucker, Dr. Williamsson, Dr. Karer, and Mr. Levyter. The topic of the discussion was the Vietnam war. Mr. Miller began the discussion by offering rebuttal to Dr. Rice's keynote. Dr. Miller felt that, "I hope this beautiful sugar maple will grow here for the next century. In the spring, when the beauty is in bloom, and remind future generations of students and faculty that it represents the will for life and peace for the students of 69 to 70, in the candidate of the United States involvement in Southeast Asia by the students.

My personal position most clearly held is that for the Vietnam war our country and its allies do not (Continued on Page 3, Col. 3)

President's Statement

Almost 80 years ago my father, then a student, planted the two ginkgo trees that flunct the front entrance to Bonsberger Hall. In 1921 when I was a student I planted the oak that grows there. I believe this is a good ground for question of the loyalty of the present faculty and student body.

In the call for the Moratorium on this campus, the Committee used the phrase "A day of total re-evaluation of the war." This is well said. It is also good to have a day for informative discussion of the war and to support a cause for the consideration of the United States involvement in Southeast Asia by the students.

In answer to Dr. Miller's comment on the responsibility of the dissenting individual to offer an al-

COMMUNICATIONS COMMITTEE

The tradition of Ursinus Homecoming will be fulfilled on November 3rd with the return of graduates, football, and selection of a Homecoming Queen from the candidates of six fraternities.

Homecoming Activities

The schedule of sports activities for Saturday includes Cross Country meet, 9:00, Minor Track meet, 11:00, College Hockey, and football against Town State College of Baltimore, Maryland. In the evening, the various fraternities will sponsor their formal Homecoming parties.

Half-Time

Half-time at the football game will culminate another Homecoming competition, already in progress, with the naming of the Homecoming King.

LINDA CLARKE

Representing Sigma Eta Lambda this year is Linda Clarke, a Biology major with a master's degree in Gamma sorority, Spring Festival chairperson, and a member of the color guard.

BETSY FLYNN

Betsy Flynn is the candidate of Zeta Psi, Sigma. She is a graduate of Haddon Township High School, and a member of the color guard.

JOAN HALEY

Joan Haley is a graduate of Trappe in our nation's wars. She has been a member of Delta Mu Delta since 1917-18 the College became a loyal citizens of the United States. In 1917-18 the College became a loyal citizens of the United States.
A Day of Moratorium, A Lifetime of Commitment

Ripped open by metal explosion, Caught in barbed wire, Fireballs, bullets, shots, Electric shocks, Schrapnel robbing me. Electronic data processing, Black uniforms, bare feet, carbines, Mail-ordered nerves for the muscle. 256 Vietcong captured. 256 Vietcong captured...

—Ragui, Rado, MacDermott

The Vietnam Moratorium of October 15 expressed the utter dissatisfaction of many Americans with the war our nation is currently waging in Southeast Asia. At Ursinus College hundreds of concerned students and professors helped express this nationwide disenchantment. There is no doubt that the Ursinus community contributed in its own way to the making of a truly historical day.

To publicly deliberate upon national policy is one of the best forms of education available. The Vietnam Moratorium provided students here with an opportunity to interrupt their daily course of events in order to take a deep, long look into the war and into their own conscience. The educational value of this day cannot be disputed. Those who did not participate in the Vietnam Moratorium missed, in part, a chance to see what college is supposed to be all about.

By means of peaceful, orderly, and solemn demonstration and discussion throughout the day, the students at Ursinus admirably protested the obscene squandering of life in Vietnam. Moreover, the concerned individuals at Ursinus demonstrated that the movement was currently stimulated at Bryn Mawr College, that "they are singularly unimpressed with Presidents who claim they are unimpressed with momentous events.

The Vietnam Moratorium represented one of the too frequent occasions on the Ursinus campus when students, faculty, and administrators have united in the pursuit of a meaningful and constructive goal. Hence, the Moratorium had special significance for Ursinus. It was an opportunity for all of us to temporarily forget the petty grievances of everyday life here (which seem thoroughly insignificant by comparison to the larger issues at stake on October 15), and direct our thoughts toward a problem which has far-reaching repercussions. Hence, the Moratorium was more than just a massive outcry against the war in Vietnam. Rather, it marked a step to reaffirm our belief in the essential value of human life.

Only one factor somewhat shatters the seemingly noble intentions behind the Vietnam Moratorium. This is the fact that we, as a society, are not prepared to face the reality of what we have always been afraid to accept. As a result, the motives of the national organizers of the Moratorium are numbered in the millions. In addition, we should realize that the intentions of those who organized the Moratorium are currently waging in Southeast Asia. At Ursinus College, October 15 expressed the

"I love children, but if I became pregnant before my marriage as a result of a sexual crime, I hesitate in getting an abortion."

On Goals

My goal is love, and love is not in a wishy-washy kind of way. I don't mean people should be self-seeking, but I think you have to realize that people are self-centered. The best is we're not necessarily bad things. It's actually a good way of working things if everybody looks out for themselves without interfering with someone else. But my goal is love, and you got a lot of people in a society who pretend that everything they do is for the good of everyone else when the whole time that's just their way of gratifying their own self-centeredness. Norman Mailer in Miami: In the Siege of Chicago says something about it being the WASPs' burden to serve even while the objects of their charity vomit and rage and laugh and blunder. It's just so much more simple to accept the fact that we are all concerned with our own well-being first and foremost, and this is healthy.

On Happiness

Happiness is a state of self-adjustment. If a person is unhappy, it means that the source of the unhappiness is still outside the person. He or she needs to make himself happy; not drugs or marijuana, but rather some other reinforcement from an outside source, especially marriage.

On the "American Myth"

It is a crime. Honest dissent never has been thought of as a crime. It doesn't break the law. Plenty of intoxicating weeds, but which are they? We have a shortcoming-s somewhere, and I can hardly wait to have my first, but if I became pregnant because he writes just like I do, I would never use astrology as a scientific theory is nice enough, but it doesn't break the law. It means something about it being the personality agrees with the astrological sign. I would never use astrology as a scientific theory is nice enough, but it doesn't break the law. Plenty of intoxicating weeds, but which are they? We have a shortcoming-s somewhere, and I can hardly wait to have my first, but if I became pregnant because he writes just like I do, I would never use astrology as a scientific theory is nice enough, but it doesn't break the law. The Vietnam Moratorium had many vocal supporters among the faculty, who dismissed their classes and participated in the program, Dr. Gayle Byerly's rejection of the national protest probably went un- noticed except by her own students who were given a taste of her opinions and limited time to react to them at the class prior to Oc- tober 15, and then forbidden speech on the war during her Wednesday sessions.

She commented recently, "A pro- test for peace sounds very appeal- ing, but the more I read the advertise- ments in newspapers and pam- phlets the less enthusiastic I be- come. As far as the war itself is concerned, I think it's best de- scribed as a major mistake. When people or nations make a mistake, it usually proves impossible to sim- ply reverse the decision and return to the initial decision point. It looks as though the present admin- istration is trying to de-escalate the war and withdraw gradually. I think that is the policy which should be supported. It would be better now to express disson through standard channels, such as writing the President." Her specific reason for objecting to last week's moratorium is that, "You do not get more and more a collection of bodies. I profoundly distrust the emotions generated in any large group for any reason. I object to the idea that this is a protest. I think it has been set up in this way to get more and more people to show up in order to make it easier to get students to cut classes than a fraternity party. I thought it was my duty as a teacher to act as a counterforce."

In her specific reason for objecting to last week's moratorium is that, "You do not get more and more a collection of bodies. I profoundly distrust the emotions generated in any large group for any reason. I object to the idea that this is a protest. I think it has been set up in this way to get more and more people to show up in order to make it easier to get students to cut classes than a fraternity party. I thought it was my duty as a teacher to act as a counterforce."

In short, Byerly does not think the protest will have any effect either on the President's decision or peace talks. She believes, "The largest factor in shoveling for the project every year. We have gone pence talks."

She feels that the moratorium has done nothing to establish any connection between the students and faculty. "And this idea from a wealthy and a affluent is that the moratorium is a profound idea. Re-inforcing this statement is the lack of facilities open to both men and women. The moratorium is a rather clear indication that we students stand alone as in- dividuals to cope with archaic edu- cational restraints."

D.A. FRIDEL, President, Alpha Sigma Nu Sigma NU REPLIES
Dear Dr. Byerly,

I would like to make a few com- ments in relation to Mrs. Lucas' general description on campus.

Mrs. Lucas mentioned that she does not hear much about soror- ities, but I have noticed that to exist for a drinking get-together. Soror- ities are social, this will not be dis- continued. I would like to point out that we have a service present every year. We have gone to Pennhurst and St. Mary's Or- phanage, and this year's activities include a tutoring program for or- phans and also providing gifts for war orphans overseas. We have not in the past few years needed to in- form the campus of our service projects since we feel that a service proj- ect isn't a service if it is just for notoriety. You see, Mrs. Lu- cas, we exist for a little more than just our social benefit.

LINDA MURRAY, Junior, Alpha Sigma Nu}

Byerly Probes Moratorium, S F A R C

The atmosphere will be whatever the students choose to make it. Those who want to protest will find it easy to do so, no organization, no schedule; every day, anywhere, with all of us. Bring whatever you need to get yourself into a state of excitement."

"We exist for a little more than just our social benefit."

LINDA MURRAY, Junior, Alpha Sigma Nu

In Our Mail Bag

INTERACTION

The faculty's denial of an open dorm policy has raised two important questions. Why is there a gap between the students and fac- ulty? And does the faculty adequately understand the problems, hang-up s, and inhibitions of other students.

"The atmosphere will be whatever the students choose to make it. Those who want to protest will find it easy to do so, no organization, no schedule; every day, anywhere, with all of us. Bring whatever you need to get yourself into a state of excitement."

"We exist for a little more than just our social benefit."

Byerly Probes Moratorium, S F A R C

Yesterday a superego ap- proached me. The poor devil was working himself up to a level of tension and a real sense of honor instead of many of the rules. Ideal college climate is expected to do away of the laws of nature. By supercharging the amend- ments, and do their best to live by the rules."

President Helphferich's letter which accompanied the rules he has sent for S F A R C, did get through all the proper channels. Of course there is a weighty factor. What the Board of Directors thinks is more important than the faculty view and in turn the opinions of the students. Basically this is as it should be.

"Although I was disappointed that more of what S F A R C pro- posed didn't go through, I think that the amended rules, as com- pleted, are a reasonable represen- tation of what this college community, in terms of its weighted groups instead of sheer numbers, thinks.

That she has not is happy with the rules as they now stand, "I believe in the superego and a real sense of honor instead of many of the rules. Ideal college climate is expected to do away of the laws of nature. By supercharging the amend- ments, and do their best to live by the rules."

Mr. Melvyn H. Ehrlich

Mr. Melvyn Ehrlich comes to Ursinus after a varied academic background. He received his Bachelor's degree in English from the University of Pennsylvania. He took his master's courses at Harvard and at Oxford in England before receiving his degree at Penn. Mr. Ehrlich is currently working on his Ph.D. in Educational Theatre at New York University.

Weekly: What is your opinion of the typical Ursinus student? Mr. Ehrlich: Repressed. Also, restrained, inhibited and unimaginative. To say conservative is somewhat less than democratic. The major change then is a philosophical change or view of government. Perhaps you have seen a tall, thin man in green work clothes with thinning grey hair and a cigarette dangling continuously from the corner of his mouth in the area of Curtis, Wilkinson and Braddock Hall. Well, he is Claire Prindle, employee of Columbia Cleaning Service. Would you believe he is 60 years old and a veteran of 56 years of married life? According to Mr. Prindle it is a happy marriage, he and his wife, "get along alright." He is from Colerford in Potter County, Pennsylvania (somewhere past Altoona). Before coming to Ursinus he worked at Bethlehem Steel Company in Pottstown. He has been working at Ursinus for 12 years.

When Columbia Cleaning Service was first contracted by the school there was a bit of a row and many of the custodial staff left Ursinus. Mr. Prindle, however, switched rather than fought and remained at Ursinus. When asked about this he replied that he thought that it would be difficult to get a job elsewhere. He found that, "they were pretty good to work for." He said that Columbia was pretty good—"alright—liked it better than before." He said that there were approximately the same amount of women helping him now. There were three women in the dorm before and now there are only two.

When asked what he thought about the students he had met on campus he replied, "well, they never did anything to me." Mr. Prindle demonstrated a live-and-let-live attitude. He said, "From what I’ve seen of them, they are pretty nice boys." He added that they’re pretty good in keeping the dorms clean—they’re no trouble—but initiatives will be a mess. "Last year they raised hell and upset trash cans, this year they’re pretty good," he concluded.

When asked about strange rumors of rampant homosexuality (this of course is the writer’s sneaky way of inserting an irrel­vant criticism of one aspect of party-bait traditionalism) he commented that, “he hadn’t heard of or seen any such thing.” "Of course," he added, "they do run around in drawers all the time."

WHIM'S CAN DO SOME GOOD. Just look at the end to which Sis Sweet's will go. Sis had a house with a barn and bought a horse to build a wall so that everyone would be able to see what was going on at Ursinus without having to join in a small, crowded hallway. And, to see some of that is what happened. It started on a typical Ursinus Sunday—the twelfth of October, to be exact. Sis decided we needed a place where we could "communify" that's communicable and beautiful—the Ursinus campus. Borrowing an idea from city universities—where construction sites are going on, where walls are built to hide the process, and where these walls are covered by students with murals, designs, posters, and signs—they decided to build a wall.

The wall had started with only two or three doing anything with it, early that Sunday afternoon. By dinnertime, about half the people at school were assembled around the wall. They were not all working on the wall, or even getting helpful advice, but the wall did bring the school together.

One of the main reasons for the building of the wall was to publicize the Vietnam Moratorium. That did take place. But, as we could expect, when the building of the wall was over, pictures and were also added. By the end of Monday, these had been removed. Another cost of the pain was added by the people who had put up the wall but others, who, in a sense of public spirit, were trying to beautify the campus. They, too, entered into the community spirit the idea of the wall had tried to start. Since no more slogans were added, apparently the initial childhoodness had worn off.

The only actions in a similar vein since then has been the defacing of some of the posters. That has particularly bothered Sis. "Anyone may write what they want, but it is not right to deface posters that others have spent a lot of time and effort on. If someone disagrees with a poster, he may make a poster refuting it, and hang it up the other way."}

This is the centennial year. Sis feels that this might be right if the wall was developed into something more—no eyesores. Eventually we'll have to have something pretty on it. Perhaps designs on several panels, or a mural to commemorate the centennial year. Had she also felt that some original poets would be maintained for posters and announcements. The panel would be used until the scheduled board in front of the main shop is erected.

The only official repercussions Sis has received is a bill for $77.25 to cover the cost of four pieces of plywood that form the wall. They will probably pay the bill, since they plan to use it for the advertisement of the November 15 activities in Washington. If they are unable to pay, Sis would very much want to be a part of the solution.

According to Sis, the most profound thing put on the wall has been the quote from Edmonds Cheever: "If you part of the public, you are part of the problem." He feels that this "can apply to a university as well as to Ursinus—not necessarily the administration, but the students at Ursinus are at least partly a solution of the part.

JANE YATES
Student Body Rejects Current U.S. Draft System

In a response to a request by Pen- nsylvania's Governor, a Selective Service System, on Oct. 5, the college administration-chairman, W.R. T. Smith, stated that the college would not accept any students under the Selective Service System. The student body voted 21.5% for a lottery system, 5.5% for a universal military training, 9.63% approval, 46.2% disapproval, and 28.8% changed.

The first question the vote addressed was the major difference between the men and women's opinions on this question.

If the question was to be changed, 58.6% would prefer an all-volunteer force, 56.8% strong disapproval, and 41.7% no opinion. Thrown out would be the major difference between the men and women's opinions on this question.

C.O. Status

The consensus of opinion on the issue of conscientious objection deferrals was: 15.4% favored COs being given to those from peace churches, 22.8% for those apppellants of any religious conviction. 41.5% for being against war, 12.8% no one, and 7.5% had no opinion. The results will be posted in full.

Others stated that the draft draft system was repulsive and un-constitutional, that, "We must return to the country what it has given us," and that every person should serve in some way, not necessarily the military. Another stated, "I've been there and back. Euthanasia is where I'm going to live."

KEN FINEKEL

Melvyn H. Ehrlich

Melvyn H. Ehrlich, 20, is a political science major at Ursinus College. He represents the student body in its relationship with the college administration. Ehrlich believes that the war in Vietnam will be prolonged and that the United States will continue to support the South Vietnamese government.

"One of the problems with the war is that it is a war fought not only by the United States but also by the South Vietnamese government. The United States is responsible for providing the South Vietnamese government with the necessary resources to continue the war. This is a violation of the principles of self-determination and the right to decide one's own future."

"I believe that the United States should withdraw from Vietnam and support the efforts of the people of Vietnam to determine their own future."

"I also believe that the United States should engage in a peace process with Vietnam. This would involve negotiations between the United States and the South Vietnamese government, leading to a peaceful resolution of the conflict."

Weekly: What do you think of the English department at Ursinus?

Mr. Ehrlich: I have no quarrels with it. Certainly, an increased staff would mean more courses. I admire and respect my colleagues. They perform services for children's homes, foster homes, etc., but students can perform such services also. I admire and respect my colleagues. They perform services for children's homes, foster homes, etc., but students can perform such services also.

Weekly: What about fraternity and sorority?

Mr. Ehrlich: I don't really see what they contribute. I know they made a minimal contribution to the Student Community Chest. It's true that they perform services for children's homes, foster homes, etc., but students can perform such services also. I admire and respect my colleagues. They perform services for children's homes, foster homes, etc., but students can perform such services also.

Weekly: Do you feel pressured to see their off-campus offices, and it also forced students to clean up a lot. It was an increased success in many ways. Many students who are important-not wealthy businessmen and alumni who gave money, but people who thought that Protheatre is an art. All they need do is liberate themselves, and they can appreciate and participate in it. Anybody can appreciate and participate in it. All they need do is liberate themselves, and they can appreciate and participate in it.

Bill Brown Elected "Frosh" President

The domineering, underlying tone of this year's Freshman class elections could have been best described by the phrase "The desire to win." Enthusiastic campaigns were waged by most of the candidates and the excitement of the race swept through the entire class of '73. Several of its members, it was rumored, had even gone so far as to research the actual names (both first and last), of several of the people running. This, of course, would have been unnecessary if these interested freshmen had known that all the candidates were actively campaigning. For such being the case, all the said individuals would have had to have done was approach the office-seekers and ask them the question "Are you running for an office of the Freshman class?" And one could be reasonably certain that at least 40% would have admitted that they were.

Presidential Election

When the big night finally arrived, there were four young men striving to obtain the office of president. (In alphabetical order) Bill Brown, Bob Kesner, Cliff Lacey and Dan Leibkind. All four gentlemen presented well-prepared speeches; that, when edited back to old of all audible pauses, averaged well Courtney emerged the victor, destined to be a Yankee. Needless to say, there were four young men Franci Bowen was the pride of when on the second arrived, there were four young men. The implications of this fact will be stated is that Franci Bowen was the pride of Virginia and that Debbie Courtney was Yankee. Needless to say, there were tears in the eyes of the folks back home when on the second ballot over Donna Doganiero, and ask them the question "Are you running for an office of the Freshman class?" And one could be reasonably certain that at least 40% would have admitted that they were.

Ten Ursinus Seniors Selected For '70 Who's Who Rating

Ten Ursinus students have been nominated to appear in Who's Who Among Students in American Universities and Colleges, an annual publication which provides a national basis for the recognition of campus leaders. At Ursinus, a committee made up of Deans Harris and Whatley and John Emig, President, and the Vice President of the U.S.G.A. chose the students on the basis of their scholarship, participation in academic and extra-curricular activities, citizenship and service to the school, and their promise of future usefulness.

Those selected are:

Jeffrey D. Beck, a senior economics major, from Brandewine High School in Wilmington, Delaware. He is a member of the Cub and Key Society, the Curriculum Committee, Alpha Phi Omega (he served as Historian as a Sophomore and Second Vice President as a Junior), and was a member of the Curriculum Committee in 1968. Jeff plans to join the Trust Department of the Wilmington Trust Company and earn an M.B.A. degree.

Kenneth G. Distler, senior biology major, from Philadelphia High School in Plantville, Pennsylvania. He served as Apportionment Court House and the glorious Yankee Doodler for three years. The last order of business was the election of a treasurer. Ed Newey was selected on the second ballot over Donna Doganiero, and was elected Woman's Y.M.C.A. - V.P., and Treasurer, KDK Treasurer, and a member of the Campus Chorus, Montclair Chorus, and Band. Carol wishes to attend graduate school and then teach college.

William A. Norcross, senior chemistry pre-med major, from Toms River High School in Toms River, New Jersey. Bill presided over the U.M.C.A., Cub and Key Society, Boardwalk-Arden Psychosomatic Society and is a member of the Alpha Phi Omega Fraternity. He was a member of the Student Senate and Treasurer. Gail will pursue a career in medicine, and Advisor to the Student Senate and Treasurer. Gail will pursue a career in medicine, and Advisor to the Student Senate and Treasurer. Gail will pursue a career in medicine.

George Resnick, senior biology major, attended Camden High School and lives in Collingwood, New Jersey. He is Editor of the Annual and was Assistant Editor of the 68-69, President of the Rand, member of the pre-med society, and orientation advisor. He will enter Medical school next fall.

Miss Gail V. Sternitzke, senior psychology major, from Glen Rock High School and lives in Glen Rock, New Jersey. She has been elected Y.W.C.A. President and Secretary, a member of S.P.A.R.C., Tau Sigma Gamma, Campus Coordinating Committee of 69, and Psi Chi, for which she serves as Secretary and Treasurer. Gail will pursue a career in social work.

Miss Joan D. Stettler, senior health and physical education major, from Springfield High School in Springfield, Pa. She has played hockey, basketball, lacrosse, and softball and was elected Woman's Athletic Association President in her junior year. She serves in the Judiciary Board and Senate of the U.S.G.A., and as President of Phi Alpha Phi Sorority. Joan has been a freshman advisor and on the Campus Coordinating Committee. She plans to go to graduate school and eventually teach.

Miss Barbara J. Wagner, senior psychology major, from Upper Montclair High School, lives in Fanwood, Pa. Her student government activities include membership in S.P.A.R.C., the Judiciary Board, the Vice Presidency in 68-69 and Office of the President of the Student Senate in 67-70 of the U.S.G.A., and the Boardwood Dorm Presidency. She was elected in 68-69 to Psi Chi's Democ­racy Psychology fraternity and is a member of Alpha Omega Chi. Barbra is both a psychology and literature major.

Late Ursinus Pass Downs Mules

By JIM WILLIAMS

The exciting 1969 Ursinus football team pulled another one out of the fire last Saturday, defeating Muhlenberg on a fourth period TD pass from Pete Shuman to Mike Mangan. An improved Muhlenberg on a fourth period TD running attack also contributed to the 7-3 victory before a capacity Parents' Day audience.

Muhlenberg threatened early in the first period as scrambling QB Randy Urich ran around his end to the UC 46. Freshman fullback Chris Fadley then carried twice to the UC 22. The drive finished as a pass after a faked fieldgoal was wide of its target. Held well within their own territory by John Miller's excellent punting, the Mules couldn't move the pigskin for the rest of the first half.

With Muhlenberg stalled, Ursinus mounted several drives. Fielding a stubbed punt on the Mule 30, Ursinus put its revitalized ground attack in motion. Fullback Jack Stewart of Schwenkville carried for 7 yards, and Greg Adams captured a first down on the Muhlenberg 13. The drive ended as Paul Werrell intercepted a Pete Shuman pass on the 11-yard line. With 10:00 remaining in the half Ursinus moved to the visitors' 29. Mule Bruce Kilroy then picked up another Bear fumble.

Passing Power

Ursinus found its passing strength late in the first half. QB Shuman hit Mangan and Nagor on the Muhlenberg 30 and 23, respectively. Greg Adams carried for another first, but Shuman fumbled the next snap from center and Joe DiPanni, Mule co-captain, recovered. The half ended 0-3. But while the offense has come through in the clutch.

But if Mangan's catch was important, then so was his defensive play in the last minute. The Bears' 7-3 come-from-behind triumph followed the pass in stead of the UC run.

With 6:59 remaining in the third quarter, Shuman hit Mangan again on the Mule 11-yard line. With 10:00 remaining in the half Ursinus moved to the visitors' 29. Mule Bruce Kilroy then picked up another Bear fumble.

Parents' Day opened up. Shuman tossed a 49-yard pass to Mike Mangan on the Muhlenberg 38. Stewart and Adcox combined for another ten yards. As the fourth quarter began, Mangan caught two more Shuman passes and Amos Price, a senior, in his fourth year, scored a TD first to the 7, the second to the end zone. According to Werrell, UC led 3-0.

Bear Football Tide Turning

The disastrous tide that has plagued Ursinus football for the past 4 seasons may have finally turned. At least there are signs of change in the grid climate which has left the Bears without a winning season since 1964.

One sign was the Bears' 7-3 come-from-behind triumph over visiting Muhlenberg last Saturday. For the first time since 1966, Ursinus beat the Mules. The statement is somewhat misleading in that the two schools' have played each other perhaps only six times since then, but the Ursinus win wouldn't have been more impressive to a crowd of 4100 at the Parents' Day game.

Pete Shuman, the MAC Southern Division passing leader, hit his tight end, Mike Mangan, with a 13 yard scoring strike in the opening moments of the fourth period to wipe out a 3-0 Mule lead. Shuman's extra point put the Bears up 7-3.

Whalley Praises O'Connor

But if Mangan's catch was important, then so was freshman Kevin O'Connor's defensive play in the last minute of the game. O'Connor, the replacement for the injured Tony Pacenta, knocked down a Randy Urich pass intended for Carl Evans in the end-zone. Had Evans caught the pass, Ursinus would now be 1-3 instead of 2-2.

"Kevin played the ball just like he was supposed to," Head Coach Dick Whalley said. "Evans was running a post pattern, and O'Connor followed the pass instead of the man." Bear O'Connor had helped even the Muhlenberg in the first half. The record since the series was renewed on a steady basis in 1956. The overall series record is 12-16-6 in favor of Muhlenberg.

Another sign that Bear football fortunes are looking up came two weeks back when Ursinus won its first game of the season over defending MAC champion Johns Hopkins. That too, was a come-from-behind victory, with Joe Corvala scoring a fourth period touchdown on a five yard run to give the Bears a 19-14 victory.

But while the offense has come through in the clutch, the defense has been outstanding from the very beginning of the season. Ursinus has yielded only 30 points in four games. Quite a contrast to the 124 points given up to the same four teams a year ago.

0-4 This Time Last Year

And the contrast is astounding. In 1968, Ursinus lost to F & M 36-0, Lebanon Valley 28-6, Hopkins 55-20 and Muhlenberg 45-6. In sum, an 0-4 record. Only a surprising comeback in the last four games last season enabled the Bears to finish with a 3-5 mark, breaking the best a Whalley-coached team has come up with. Whatley's Bears were also 3-5 in his first year as Bear coach in 1960.

But the prospects of a winning season this year are excellent. The last four opponents include three teams the Bears trounced last year, and one team from a school newly universal to Lebanon Valley.

Haverford Always a Threat

Haverford, although winless at 0-4, is always a tough opponent for Ursinus.

"The records mean nothing in a Haverford-Ursinus game," Whatley said. "I've seen Haverford upset us when we've been through the whole season without a loss. Personally, I don't think we have an easy team in the four that we have left to play." Bearing out a defensemen who has helped hold Ursinus opponents to 30 points this year are Tom Branca (middle linebacker), Mike Mahalchick (middle guard), Gary Dolch (tackle) and Gary Keyes (end). All are seniors except Keyes.

The Bears, under Ray Gurzynski, in 1965 came out with a 4-3-1 record. But barring injuries to key players this fall, there is no reason why the Bears should not improve upon that record.

Bakemen Even Record; Team Called “Balanced”

By JIM YEARLY

The record of the soccer team dropped to 2-2-2 as the Bears lost a tie game at Middleboro Nov. 25th. However, after winning their opener against Eastern Baptist 5-4, losing to a tough Lehigh team 0-3, and beating the University of Scranton 5-0, last Saturday was somewhat of a disappointment. However, prospects look good and the team is not downhearted. There are no outstanding stars, but the team is unified to use the talents of each player. A tough road schedule is expected but there is no reason to predict defeat. The Bears are aiming at their ultimate goal this year. Both seniors, Dave Grau and Danny Spencer, are aiming at their ultimate goals this year.

Harriers Cap 28th Straight

By RUDI HERMAN

As a speculation of its own, the University of Scranton's men's and women's teams, including the soccer team, have been undefeated of late. The team is unified to use the talents of each player. A tough road schedule is expected but there is no reason to predict defeat. The Bears are aiming at their ultimate goal this year. Both seniors, Dave Grau and Danny Spencer, are aiming at their ultimate goals this year.

Hormone Bust

By CRIS CRANE

While this year’s soccer team has not been as good as last year’s, the team is unified to use the talents of each player. A tough road schedule is expected but there is no reason to predict defeat. The Bears are aiming at their ultimate goal this year. Both seniors, Dave Grau and Danny Spencer, are aiming at their ultimate goals this year.
