Frat Pledges Taken For Spring Semester

On February 26 each fraternity received its respective pledges and plans have been made for pledging programs that will best familiarize the pledges with the fraternity and prepare them for membership.

No fraternity was especially busy, as usual, no note got all of the rushees that they gave bids to.

Gamma Chi consisted of Bruce Cameron, Bob Hedden, Mike Striff and John Duffy. Gamma Chi had pledged will experience something "point was a sailboat in the middle of the effervescent Bill Marts; the cool, silent Frank Lyon, and the indestructible Herb Smith.

The Lorelei, as usual, was held at Sunnybrook with its usual up-to-date band. Walters and ansens were played most of the evening, although a cosmopolitan atmosphere was created toward the end with the Mexican Hat Dance, Felix, and the Charleston were played. About 200 people attended this annual turn-about event. Students escaped the monotonous campus and mesosphere on the bellowing sails of the decorations, which were centered around the theme "Red Sand in the Sunset." Joyce Small, a junior, organized the decoration committee for the date. The focal point was a sailboat in the middle of the floor. Table decorations were designed and made by Linda Richtmyre.

U. C. Meisters To Tour In Maryland and Virginia

The Meistersingers, the College's German student touring concert choir, opened their spring schedule March 3 at 8 p.m. in St. John's United Church of Christ, Owingsburg. Their choir has twelve other concerts scheduled, more than in previous years. Included are: March 6, St. Paul's Presbyterian Church, Laurel Springs, New Jersey; March 10, 11:00 a.m., Faith United Church, Philadelphia. Also March 13, 7:30 p.m., First United Church of Christ, Spring City; March 17, St. Mark's United Church of Christ, Easton; March 20, 8 p.m., Lower Providence United Presbyterian Church, Trooper. The group leaves Saturday, March 26, on a six-day bus tour which will include concerts at: March 28, West Chester, Pa.; March 29, 30, Philadelphia; April 1, Greensburg, Pa.; April 2, Rock Spring United Church (Congregational), Arlington, Va.; April 3, Christ United Church (Reformed), Hagerstown, Md.; and April 4, St. Paul's United Church, Westminster, Md.

Student conductors assisting Dr. Philip are Miss Sharon Greif, Spring City, Pa., a senior, and Darrell Murdock, College Park, Md. Junior accompanists include the Minus Choir, Loretta, Reading; junior, and Miss Linda M. Pyle, Collegeville, a senior.

Whitins Honor Eight Women During Lorelei, Friday Night

The Whitins Society recently announced the selection of eight new members. Membership in the Whitins is based on leadership, scholarship, and service to the College. Any junior girl or any senior girl who has given both leadership and service to Ursinus is eligible if she has had an average of 85 for four out of five high school years. She has been active in at least two campus activities per semester; and if her leadership qualities are equal to her academic qualities. A recent constitutional change by the society removes the limit on the number of girls who can be awarded membership.

This honorary society was established in 1925 in honor of Elizabeth R. White, a professor here at Ursinus College. The Whitin Society sponsors a tea each semester in honor of those women students who have been selected.

Linda Fyle is a Spanish major from Coatesville, Pa. She spent her junior year studying in Madrid. Her activities have been in the area of musical organizations and the language department.

Chris Kuehn is a junior French major from Havertown, Pa. She is Vice President of the "Y" and has been active in sports and the C. C. C.

An English major from Shamo­ nik, Pa. Barbara Bingsman has been active in the Messiah, the English Club, and the "Y."

Linda Harsh is a Physical Science major from Petofistown, Pa. She has been active in sports, the W. A. A., and the Freshman Spirit Committee.

Nancy Holland is a French major who comes from Conshohocken, Pa. She has been active in sports and in the language department.

Barbara Lewis lives in Hones­ dale, Pa. She is a Spanish major and has been active in the Spanish Club and the Bible Fellowship.

Jeanette Ann Frost, a senior physics major, is among 980 or List five semesters at Ursinus with a grade point average of at least 85. She has been active in the science department and in her freshman year received the Philip Brownback-Anders Pre-medical Society award for highest scholarship among women students.

This year by the selection of eight new members, membership in the Whitins has been increased to 25. The Whitins was founded in 1918 by Howard Whitins' contributions.

Wilson Foundation Confers Honors on Senior Woman

Miss Charlotte Ann Frost, a sen­ ior physics major, is among 980 college seniors throughout the United States and Canada who received "honors mention" recogni­ tion in this year's awards from the Wilson Foundation of the National Fel­ lowship Foundation.

Miss Frost is a graduate of the Beverly, Massachusetts, High School. Charlotte enrolled at Urs­ inus College in the fall of 1964. In the fall of 1966 she went to Wellesley College for the first se­ mester where she turned to Ursinus to continue her college work.

68 Grad Dies; Smith Mourned

For the second time this year the campus was hugged by the tragic death of an Ursinus student. Den­ nis L. Smith, who graduated last year, died of complications follow­ ing an appendectomy on Monday, February 19 in Montgomery Hos­ pital, Norristown.

Smith was a native of Hamburg, Pa. He taught eighth grade sci­ ence since September 1 at Fattigrove High School. The week before his death he held the male lead in Barefoot in the Park.

At Ursinus, Smith was academi­ cally a good student. According to Dr. Howard, "Dennis was an in­ tegral part of the biology depart­ ment—student, worker and friend." He was a lab assistant for two years and one of four of Dr. How­ ard's research assistants last year. He graduated with a bachelor of science degree.

Smith remained in the College­ ville area after graduation. He lived at Shady Neck, First Avenue, Collegeville, with his wife, Mary Hunter Smith.

Dennis Smith, a local teacher and Ursinus graduate, died Feb. 19.
In the last issue, the Weekly called attention to the pseudo-“firing” (Let us not quibble over a trivial semantic technicality) of Mr. Gary Waldo.

This past week we were appalled to hear of a second absurd “non-renewal of contract.” The instructor concerned is Mr. Wesley Clymer, a member of the English department. Mr. Clymer is a man of rare brilliance and a teacher of unimpeachable ability. The literature of this world means something to this man; and more often than not, this concern for the history department, but for the students. Mr. Clymer has played a major role in elevating Freshmen composition from the almost community. To reject such a capable and stimulating instructor at the very time when the college should be strengthening its faculty is to me incomprehensible. The recent death of Dr. Armstrong was a great loss to the college. If it is even more imperative that instructors of the caliber of Mr. Waldo be retained than Mr. Armstrong was encouraged and rewarded! If the credentials and talents of Mr. Waldo are not sufficient nor proper for Ursinus College, what exactly does the Administration require of a new faculty member? Or could it be that Mr. Waldo and other young instructors rumored to be leaving have dared to commit the horror of teaching in this community. The thought surely are not provoked—they remain ensnared within a mass of graver matter that can only be impressed by diversion.

Perhaps I should entertain you with a case in point, or rather, two cases. The administrators of the Negroes here at Ursinus. There are Negroes now attending the college and not carried of these are males. There are 92 Negro people here and of these 92 there are 2 Jewish girls. To change the ‘color problem’ on campus, the Negroes and the Jews here are in bad shape. The concept of a diverse set of ideals is absent here.

Mr. Clymer, or Mr. Waldo! The Weekly hopes Ursinus has not overlooked the prime requisite of a teacher—he must be able to teach. Both of these young men clearly fill this sacred requirement.

The students of Ursinus have reacted to this depressing situation in a manner that dispels the notion that apathy rules this campus. Yesterday five students, Pam Green, Sue Royak, Rich DeAngelo, Dave Kaplan, and Gary Berman helped Mr. Helfricher a petition—a petition signed by over 800 U.C. students. The petition requests a formal explanation of the dismissal of Mr. Waldo.

Common decency demands a prompt satisfactory explanation of both ‘dismissals.’ And it is quite doubtful at this time that a ‘new faces—new blood’ explanation will be regarded as satisfactory by the students. As we have said many times before, the Ursinus student is tired of being ignored. If Ursinus wishes to avoid a painful and embarrassing episode for both the student body and the Administration, the Weekly strongly suggests the petition be taken seriously.

The Editor cares a great deal for this school, and he hates to see it commit academic suicide.

---

Mr. Clymer, Mr. Waldo!

By Lines

"It’s A Hurtin’ Thing"

February 28, 1968

To those of you who have not realized it yet, Ursinus College is a small liberal arts institution, located 25 miles northwest of the thriving metropolis of Philadelphia, and Ursinus has an enrollment of 1098 students and 7 Negroes and 2 Jewish girls. The purpose of this institution is to provide an intellectual and stimulating atmosphere to the student while supplying him with a diverse set of ideals and a liberal education. But in reality the Ursinus College community consists of diverse backgrounds and interests. As anyone can see, there is a lack of such things as Negroes and Jews and we are not stimulated, we are more withered, and our thought are not provoked—they remain ensnared within a mass of graver matter that can only be impressed by diversion.

Perhaps I should entertain you with a case in point, or rather, two cases. The administrators of the Negroes here at Ursinus. There are Negroes now attending the college and not carried of these are males. There are 92 Negro people here and of these 92 there are 2 Jewish girls. To change the ‘color problem’ on campus, the Negroes and the Jews here are in bad shape. The concept of a diverse set of ideals is absent here.

Mr. Clymer, or Mr. Waldo! The Weekly hopes Ursinus has not overlooked the prime requisite of a teacher—he must be able to teach. Both of these young men clearly fill this sacred requirement.

BEARS BEAT DREXEL DRAGONS; LOSE TO MULES IN MAC FINAL

The MAC playoffs at Allentown last Friday night began in a truly dramatic fashion. Drexel, the only team that had beaten all of the other contenders was in third place and Johns Hopkins, the first-place MAC finisher in the south, was the only team really counted out of the running.

For the UC Bears, successive losses to Delaware, Muhlenburg, Drexel, and Pharmacy did not drown their pennant hopes. Two point losses at Baltimore and at home to Drexel, 57-55, seemed to dispose all but a Mules playoff spot. The 121-72 thumping received at Allentown, 60-56, at the hands of Drexel, seemed to confirm these beliefs. But the other top teams could not find the winning combination. Drexel, the only team that had beaten all of the MAC teams, has not lost at home this year, and was defeated by Delaware.

The Southern division race of 1967-68 produced a confusing array of contests that left the standings to the last day when Hopkins beat West Maryland and Drexel, a late season surprise after a sound victory over Delaware, crept on Drexel to keep them from the top.

For the UC Bears, successive losses to Delaware, Muhlenburg, Drexel, and Pharmacy did not drown their pennant hopes. Two point losses at Baltimore and at home to Drexel, 57-55, seemed to dispose all but a Mules playoff spot. The 121-72 thumping received at Allentown, 60-56, at the hands of Drexel, seemed to confirm these beliefs. But the other top teams could not find the winning combination. Drexel, the only team that had beaten all of the MAC teams, has not lost at home this year, and was defeated by Delaware.

Compton tallies two during romp of Baptist.

The third and fourth quarters, and the first 14 period of sudden death oversteer are scoreless. Finally, at 7 p.m., the exhausted Packers make a break as Mike Shelley receives a troubleshooting on the Cowley 16. After losing 35 points on three plays, a hold goal is called for. Fes Shuman's kick looks short, but is carried over the goal posts with help from an Ed Fisher screen. Final score: Packers 108, Cowboys 106.

January 12: With the veterans still sick, The Packers beat Ohio in the Superbowl 21 to 99 yard quarterback sneak by Terry Wertz with 5 seconds to go. The play was set in from the 10-yard line. The Packers chants were plenty of running backs, but the defense was the making of a first center.

WHATLEY TO PACKERS

WHATLEY NAMED HEAD

WHATLEY TO PACKERS (Continued from Page 7, Col. 3)

December 29: The NFL championship at Dallas, was called for (1) all children from 7 to 18 who werea member of the league, be shipped from western to eastern end, or if more overweight to be transported to campsite centers, and to be released back in the kind, understanding campsite centers. The Weatherly and the mobile homes due to the machinery and the mobile homes, would have to go it alone.

First Quarter. The Cowboys go out about 105-106. Second Quarter. The former being in the last 21 to 99 yard quarterback sneak by Terry Wertz with 5 seconds to go. The play was set in from the 10-yard line. The Packers chants were plenty of running backs, but the defense was the making of a first center.

WHATLEY NAMED HEAD (Continued from Page 7, Col. 2)

Four-point plan for the improvement of all athletes was called for (1) all children from 7 to 18 who were members of the league, be shipped from western to eastern ends, or if more overweight to be transported to campsite centers, and to be released back in their kind, understanding campsite centers. The Weatherly and the mobile homes due to the machinery and the mobile homes, would have to go it alone.

Helfferich Slays Beast

A gigantic reptilian monster arose from the Perkiomen yesterday and laid waste to a large portion of Ursinus College. The hideous creature's reign of terror was abruptly terminated by Donald Lawrence Helfferich, 66, of Superhouse, Main Street.

"We've got a monster," said Atty. Anthony J. Giangiulio, Atty. for Angelucci and his father, Dominic Angelucci. "It's not known at this time who the monster is or where it came from."

Before its campaign of destruction, the allane-encrusted creature apparently was happily living in the Perkiomen Creek. Officer Mc­Clure, 52, leader for the Colevalle VFW, reflected, "I sure hope it's a case of missing cane­ists."

The marooned, President of Ursinus, which is reputed to be among our best small liberal arts colleges in upper Colesville, fielded the huge reptile with several well­placed shotguns blasts. "Mr. Helfferich's first comment was: "I sure hate killing anything as old and traditional as a dinosaur, but when it trampled my Goldwater statue I says red ... red, white, and blue."

Bent Barrel Boulevard, Crossed the street in front of his home, totally spent his life as a writer, described the monster as "one of the most interesting creatures I have ever seen." He described the monster as "ten feet tall, with a thick, green skin and a long, sharp tail." He added that the monster was "very aggressive and would attack anything that came near it." He also described the monster's eyes as "shimmering red." He said that he had seen the monster "swim" in the Perkiomen Creek.

Dr. Leary joins Faculty As Philos. Chairman

It was announced today by the President of the college that Dr. Timothy Leary will join the Ursinus faculty next fall as head of the Department of Philosophy. Dr. Leary formerly was an instructor of psychology at Harvard University where he achieved national academic fame for his studies about the effects of modern pharmaceuticals on the human body.

While at Harvard he conducted more than 3,500 case studies in this field and received high recognition for his work. In 1966 Dr. Leary established the League of Spiritual Discovery, a weekly newspaper has advanced an intriguing theory: "Why everybody knows that students throw Focus magazines into the Perkiome. It's become an Ursinus pastime."

Though the editor declined the offer it is thought that Washington officials still wish him to serve.

Dr. Leary made his off-Broadway debut at the Village Theater in the fall of 1966 when he produced and directed the play "Godzilla!" with the new, the familiar Pennsylvania Gothic with the older Romanesque, the new style being called Pennsylvania Grottesque.

Twin towers will rise above the Baroque facade, and will contain respectively an observatory, and a new academic building.

Courses in Ursinus history. Some of the events included will be Mrs. Helfferich crowning John Gable as King of the Lorelie. Dr. Parsons, giving a multiple choice final exam in American History, the food in dining hall while the Evaluators were here, and the Board of Direc­tion, the press corps, in the function of women in the field of philosophy. "She too has the desire to be recognized and reward­ed. We should be more conscious of her status and how she is being treated in the press." Dr. Leary said.

Despite the impressive beauty of the new building, required chapel attendance will be expanded to Matins, Evensong, and Vespers.

This move has met with the full approval of the student body. Furthermore, there will be an optional prayer meeting on Thursday eve­nings, and every night after dinner the Ursinus Christian Fellowship will lead a hymn-sing.

Police Chief Sued

In Brutal Beating

A Norristown youth and his father are seeking damages in excess of $5,000 in a civil suit filed against the Borough of Collegeville and its police chief, Richard Mc­Clure.

The suit says Armand Angelou­ci, 19, was injured June 14, 1977, when McClure struck him with a club "with great force and violence across the face, head and body."

Atty. Anthony J. Giangiulio, Norristown lawyer, filed the suit for Angelucci and his father Domi­nic Angelucci.

The teenager received a broken nose and other injuries which re­quired hospital care and which pre­vented him from performing his dial affairs and business, the suit says.

(Continued on Page 5, Col. 2)
Mr. Marsteller Shakes Nation With Prediction of Catastrophe

Twenty-Six Years Of Heroic Work Finally Rewarded

At a news conference this afternoon, in the basement of Pfahler Hall, Professor of Physics Woodrow Marsteller revealed the findings of his interplanetary and cosmic research project which began 26 years ago.

Nattily attired in a charcoal-gray business suit with a pinastria in his lapel, Mr. Marsteller told reporters that he had finally discovered and gained an explanation of a mysterious cosmic phenomenon which he began probing in the spring of 1941. The professor commented, "The results of my work will prove to be highly important to the general security and welfare of all the nations of the world. I have observed an impending catastrophic phenomenon which may develop into catastrophic proportions here on earth, as well as all through the universe."

Professor Marsteller conducted his significant research project in the observatory high atop Pfahler Hall. He worked unstintingly until 1965, at which time he discovered that one of his astronomy students, Chuck Burton, would make a superb protege. Mr. Burton is presently on a hand-shaking tour of the news media.

Yesterday evening at precisely 8:39 P.M., Professor Marsteller, one eye on the lens of his telescope, the other on a nearby 21-place natural logarithm table, shouted "Eureka, Eureka!" When Mrs. Marsteller did not answer his call, the professor immediately telephoned the NASA Space Center in Houston. After being alerted of Mr. Marsteller's findings, officials at the Pentagon scheduled a special top-secret meeting for this evening. At this meeting, Mr. Marsteller will present a 384-page report on his work (consisting of calculations, diagrams, graphs, tables, and doodlings), which he has painstakingly compiled over the years in his unlocked office, the upper left-hand desk drawer in Room 54.

When asked to provide a technical evaluation of his findings, the mild-mannered physics professor told the gentlemen of the news media, "I have basically confirmed an ancient astronomical theory, known to the Romans as "Ruina anchoris cavii." By evaluating the negative cosine curve of interstellar radioactivity at the point where epsilon-cubed equals the inverse tangential moment of inertia of the planet Earth, I was able to calculate the theoretical value for the simple harmonic vibratory motion of the various experimental temperature gradients which persist themselves in problems of this sort. The resulting definite integral could be solved by utilizing the basic Pythagorean identity: cos x sin x tan x sec x cot x cosec x = v² - n² + m² - n² + m² - v² + x² + 2. The x value is 1. At this point, the problem is practically finished. By merely applying these relationships to cosmic, interplanetary phenomena, the discovery upon which I have stumbled becomes readily apparent."

When Professor Marsteller was subsequently requested to explain his results in less technical language, the lanky astronomer replied, "What it all boils down to, gentlemen, is that I have actually confirmed Chicken Little's hypothesis. In truth, I have found that there can be no doubt in anyone's mind concerning the fact that the sky is indeed falling."

Radical Changes in Store For Ursinus by Year 1970!

1. Women's hours on weekdays have been extended to 12:00, with an increase of 1 minute each year for the next 60 years.

2. President Helfferich has agreed to retire gradually over the next twelve years. Between now and 1982 the President will relinquish control of one department or organization each year, first the physical education department, then the infirmary, the debating team, and the Weekly.

3. Assembly services have been reduced to 1 meeting per month, all students to meet on the football field with their Red, Old Gold and Black copies of "Quotations of Chairman Helfferich."

4. During the next 14 years, TV monitors and electronic bugs will be placed in all rooms in order to prevent students and faculty from breaking the rules.

5. Dinner Dress Regulations will become relaxed in the future 5 years. Men may wear increasingly shorter ties, but turtlenecks are still out.

6. Women's dress regulations—12 years from now, women will be permitted to wear slacks to class. This change will be accomplished by increasing the length of petticoats, while decreasing skirt length.

7. Women will be allowed in the men's dorms for 10 minutes each day, during which time they can watch TV, talk, play ping-pong, play pool, or even smoke!

8. Drinking will be permitted in the men's dorms for students 21 years of age. All liquor and beer must be bought from the proctor only, with a 20% college sales tax. Only LCB cards accepted.

FLASH — The books of Dr. Waddo, who recently won the Nobel Peace Prize, have hereby been banned on this campus for being too conservative.

9. Apathy is no longer present at Ursinus. Four emaciated students were seen picketing Mrs. Ot-stidersteele's office for 5 minutes yesterday.

WANTED: Protestant or Roman Catholic students majoring in physical sciences and entering graduate school, who desire to develop their Christian faith while training as scientists and engineers. Combine work towards Ph.D. or M.S. degrees at The Pennsylvania State University with seminars and lectures on contemporary theology and Christian responsibility for scientists, and participate in a supporting Christian community. Conducted by a group of Penn State faculty members. Write: THE SYCAMORE COMMUNITY, Dept. L, Box 72, State College, Pa. 16801.

Sex Expert Shocked By Profligate Ursini

— B. C. —

Smiling benignly over her spectacles, Miss Helen Moll talked to us from her rocking chair in the infirmary. "Yes," she answered our query, "birth control devices will be offered free of charge to any student requesting them. We are displaying a variety of these devices in the lobby show case in the library. We will try to fill every need. Diaphragms will be fitted every Friday afternoon from 3:00 to 4:30 P.M. and the Friday before P.F. weekends from 9:00 A.M. to 11:00 P.M. A Condo-Mat will be installed in each men's dormitory. The ever-popular pill (which takes the worry out of being close) will be available in a variety of pleasing packages, color coordinated to match your eyes, hair, or mood.

"Each student, however, is responsible for the proper use of these aids. He is admonished to call the doctor. He is admonished to those uids. He is admonished to those uids. He is admonished to those uids. He is admonished to those uids. 

"I noticed the new mood behind your science building; very accommodating. So nice to have it right on campus since many of your students don't have cars."

We asked Miss Greene, author of the upcoming Sex and the Nursery School Girl, if she had any advice for the Ursinus male. "Yes," she said, looking us straight in the eye, "Still try, for who knows what is possible."

— Cleanliness Next To —

An investigation has recently been concluded concerning the rumor that a 23 year old cleaning lady has been working in the new men's dormitory. Charges that the cleaning lady did not fulfill the necessary requirements of previous custodial experience have been dropped.

The supervisor of the maintenance and custodial personnel reprimanded the office of the college, who chose to remain anonymous, compounded. "The young lady was working free-lance, and not on the payroll of the college. In such a situation, we have no jurisdiction."

The cleaning lady in question was hired by the boys themselves. According to the young lady, a recent graduate of this institution, she was engaged in graduate work in human relations in addition to her custodial duties.

Dean Petick remarked, "The college has no way of reprimanding her. I feel that especially since teaching the boys is difficult."

"I stand in the way of a liberal education. However, all of the boys involved have been cautioned to be more circumspect in the future."

---

**Dining Hall Scene; Chivalry Prevails at UC**

As President Heifertich once said, "It is our responsibility to teach the good life." One example of such lessons may be seen above, in the picture of Ursinus students going in to dine at lovely Wimser Hall. The scene is full of old-world chivalry. Notice the pageantry stimulated by the rule that all students must wear their finest clothes. Courtly manners are abetted by the oversize entrance halls, which insure that no student need stand outside in the cold while awaiting a meal. Weekly calculations indicate that about one square foot of floor space has been provided for each student in these entrance foyers, a figure comparable to the Oriental grace of the Tokyo subway at rush hour.

---

**So you'll be 1-A. You're still A-1 with Armstrong.**

Let's be realistic—you may be serving in the military later on. But why just mark time until something happens? Facing the draft is no reason to be unemployed. 65% of the college graduates who joined us last year were eligible for military service. You can begin your career with Armstrong now. Then, after you fulfill your military obligation, you pick up right where you left off. Why this consideration? Because at Armstrong we need capable, imaginative college graduates who are looking for a place where they can grow and contribute. We're building for the future with each person we employ. And we stick by our people. Maybe that's why they stick with us. See our man when he is on your campus soon. For more information about Armstrong now, see your placement officer or write the College Relations Department, Armstrong Cork Co., Lancaster, Pa. 17604.

The Weakly Awards of 1968

As the self-appointed con-
science of Ursinus, we have
had it. For the past few
years we have watched this
college go quietly to hell.
Re-
straining our tongues and
pen we have always politely
pointed out the errors of your
ways, but the events of the
past few months have driven
us to the wall. This time
we’re really mad.

So gang, here are this
year’s choices for the ax. If
we published all the mistakes
and messes we’d have to put
them in hard covers and there
would go our second class
mailing privileges.

The Weakly Award (shown
at the left) is cast in a hand-
some combination of horse-
hair and Perklomen mud.
Those honored may pick up
their awards at the Weekly
office.

The LYNDON BAINEIS
JOHNSON CONCISE
AND ELECTRIFYING ELU-
QUENCE AWARD: Dr. Par-
sons

THE BETTY CROCKER
WHITE THUMB AWARD: the
kitchen staff’s magnificent
preparation of Swiss Steaks.

MOST ORIGINAL NAME
MEDALLION: the “new
building” since it is obviously
a building and obviously new.
In two simple words the real-
ity of it all has been captured.

THE AMY VANDERBILT
COURTESY AWARD: Mrs.
Wisdenmy.

THE NAACP “SOME OF
MY BEST FRIENDS ARE
NEGROES” AWARD: the
Office of Admissions for man-
aging to admit only seven Ne-
gro men and no Negro women.

THE JEWISH MOTHER
OF THE YEAR: Although
many elements of Ursinus
have a Jewish Mother aspect
to them, it was felt that Mrs.
D. best personifies this at-
titude. Through her efforts to
add “atmosphere” to the din-
ing hall, our meals, with the
possible exception of the food
have attained an “atmos-
phere” almost beyond inhabi-
tation.

THE COLLEGIQUE
CHAMBER OF COMMERCE
AWARD FOR ARCHITEC-
TURE: The Acme Markets Inc.

THE FIRST ANNUAL
ROGER BARON AWARD:
Charlie Lutz.

THE ETERNAL
OPIMIST AWARD: shared by Drs.
Perkins and Ringle.

THE HENRY MILLER
NEXUS SEXUS AND PLEXUS
AWARD: Dean Rothen-
berger.

Quotations From Chairman Helfferich

These quotations have been taken from the various speeches, writings, ramblings, and innumerable digressions of the honorable Donald L. Helfferich. Let all students, professors, juniors, cooks, and deans study, memorize and digest the exhortations of Chairman Helfferich. May our voices rise in public and private recitations of these joyous inspirations.

I. ARDUOUS STRUGGLE
at college... although life here can be fun, it will not be easy.

II. FAITH OF OUR FATHERS
Religion at Ursinus is a part
of life rather than a schedule
of classes.

III. THE GRANDIOSE
SOCIETY
... constant advances are being made in strengthening our faculty and our academic program.

Our curriculum is under a
process of continuous evalua-
tion and improvement.

Change is part of our plan-
ning but not to the point
where the essential nature of
the college is threatened.

IV. EDUCATION AND
SELF-CULTIVATION
The life of students on a
residential college campus
should not be bound by lec-
tures, laboratories, libraries,
and lodgings.

There are opportunities for
education outside the class-
room.

V. MAGICAL MYSTERY
TOURS
The snack bar provides
seating and table accommoda-
tions for at least eighty peo-
ple. For everybody’s conven-
tence there is a machine which
can identify a dollar bill,
swell it and disgorge small
change for it.

The supply store... pro-
vides ample space for the at-
tention of books and supplies
and for speedy effi-
cient service.

VI. REGIONAL INSIGHT
At Ursinus the boys look
like boys and the girls look
like girls.

VII. FUN AND GAMES
Ursinus is a Mexican hat
dance.

VIII. BENIGN DESPOTISM
At times I require the mys-
terious skills of the soothsay-
er. Without benefit of a crys-
tal ball I must make judg-
ments. (Some of) these must
be reached by jumping from
reason to speculation, to im-
pulse, to hunch.

IX. ULTIMATE REFLEC-
tion
Last year there were fewer
students visiting the campus,
fewer applying for admission
and a larger number cancel-
ing after acceptance.

Would You Buy a Used Car From This Man?

A WORKING REPLICA
OF DR. STRANGELOVE’S
DOOMSDAY MACHINE: Dr.
Livy Van Dam, who in his
own humble fashion, deci-
mates the sophomore pre-med
class each year.

THE JOSEPH F. PULITZ-
ER AWARD FOR OUT-
STANDING NEWS COVER-
AGE: Collegian Independent.

THE URUSINUS ACADEMY
OF ARTS AND SCIENCES
COMMISSION FOR "MORALIT Y
BEFORE PROFIT" AWARD: Rocco’s
Bar.

THE MILLARD FILL-
MORE OBLIVION AWARD
WITH OAK-LEAF CLUS-
TER: the Ursinus Football
team’s effort against Haver-
ford College last fall.

THE CHRISTIAN BARN-
ARD HEART TRANSPLANT
AWARD: the College Intern-
ary for its modern medical
practices and round-the-clock
prompt service.

THE ALBERT SCHWEIT-
ZER REVERENCE FOR LIFE
MEDAL: the Gerson
brothers.

And last but far from least
THE WEEKLY, GOOD FOR A
LIFETIME AWARD:
Richard Whitley for the fol-
lowing public utterances:

“Football is the greatest
ting thing going; it’s like a war.”

“Hit — beat ‘em! Hit —
beat ‘em! Beat — ‘em!”

“It’s a dry rain.”

“How’s your hand, I saw
you limping off the field.”

“That’s the way the ball
crumbles.”

“I only have two pairs of
eyes; I can’t watch every-
thing.”

“Barefoot In The Park”

Saturdays, March 23 - 8:30 P. M.

Presented by the Footlighter Players
The Fall Of The House of Fircroft

Soon, perhaps later this year, Fircroft will be demolished and with good reason for the old structure is in very poor condition. It stands in a lovely spot—opposite the sylvan pines, shrubbery, and green lawns, cut off from some of the bustle of Main Street by a low ivy-covered stone wall. Its setting efficiently belies the volcanic atmosphere within the dorm it surrounds.

It will surely be the end of a tradition. How many freshman girls have been warned by well-intentioned upperclass women about good sportswear and Fircroft in the same breath—often to our hem, for, without doubt, a certain spirit resides there. The nature of the spirit is hard to pin down precisely, perhaps it would be better called an aura. Anyway, it involved fraternity pride (Yea Chi, of course), enthusiasm for athletic events, a tolerant attitude toward the world of academe, a love of social conviviality, a pre-occupation with action of any kind, a ram- bunctiousness which may yet be the end of Fircroft. Also we get, and that this is part of the rea- sons why the "Croft" is being torn down. It's a symbol to its tenants and move them where they can't do such terrible things. It is a relic. This attitude is probably partially justified since there does exist a history of differences of opinion between Fircroft and the administration. This merit ratio is far above that which can be claimed by any other dorm. In fact, a significant factor con- tributing to Fircroft's "persuasion" to the tenants is the aura that its residents to have a highly dis- compliant attitude toward rules. This is the result of anti-social sen-

The recent shocking discoveries of human skeletons in the vicinity of Visser Dining Hall have caused quite a furor. An in-depth investigation is being undertaken into the composition of Ursinus "Mystery Meat." The worst is feared.

**MONSTER TERRORIZES**

(Continued from Page 1, Col. 3) Tic-toc Gostella's campus cutting. The faculty met and appointed a fact-finding team headed by Mr. Wor- der Pangloss for the possibility of adding Monster Control 1, 2, to the college's curriculum.

President Heffrich, deeply im- pressed in his daily revels meeting, was quickly informed of the situation by his marksman Deaver P. Organic who rushed into Flaherty inner sanctum screaming, "It's got my handkerchief! It's got my handkerchief!"

Heffrich grabbed his trusty blunderbuss (commonly employed in his frequent faculty dismissals) and strode towards the New Dorm. There he dispatched the monstrous- ty and it fell to earth with a re- sounding crash.

At a celebration held at Heffric- k's home the hero was hosed to remark, "Gee that was nothing, you should see me shoot the bull at the Board meetings."

Minutes of SFARC Meeting

The sixth meeting of the Student, Faculty, Administration Relations Committee (SFARC) was called to order on Wednesday, February 14, 1966.

Bill Bussard reported that during trials, the demand on the part of the students for the use of the library, past 10:00, did not justify the SFARC in making any recommendation for a permanent library extension. Equally very few students took advantage of this extension. It was asked, however, if the lack of proper publicity on the part of the committee might have had something to do with the limited use. This possibility was considered, and it was decided to ask for another extension during the second semester exam period.

SFARC has long debated the extent to which it should involve itself in the problems of curriculum improvements and evaluation. It has been decided that the committee itself can take no direct action, but it should take measures to evaluate the functions of the other agencies on campus involved with these problems. It was also decided that any true curriculum evaluation must initiate with the student body. In this regard the following recommendation has been made to the Ursinus Student Government Association (USGA): "SFARC recommends that the USGA establish an annual course evaluation guide which would include an appraisal of course content, presentation, examination procedures, etc., with the aim of informing students as to the strengths and weaknesses of respective courses and suggesting improvements to the faculty." All members of the SFARC present at this meeting agreed to this recommendation.

The members of the Faculty Assembly Committee will be invited to the next SFARC meeting, in hopes of working up together some feasible recommendations for the revision of Monday and Tuesday Assembly.

It was reported that the Board of Directors recent statement on academic freedom and guest speaker policies has yet to be received by the faculty. A delegation of SFARC members will arrange a meeting with Dr. Holzerick to discuss the content of this statement.

Dr. Fletcher will be invited to the March meeting of the SFARC to discuss the need of additional guidance personnel at Ursinus.

Two meetings of the SFARC will be scheduled for March; a short meeting on Wednesday, March 6, to discuss the Assembly situation, and a regular meeting on March 13.

With no further reports or discussion the committee adjourned.

John Enig, Secretary

Evaluators Praise Liberal Atmosphere

The recent evaluation committee was met by the Ursinus student body's lack of proper publicity on the student government. The committee expressed their desire to have such events publicized in the future.

One member of the committee stated that the students were interested, but not very knowledgeable about the evaluation process. The committee hoped that future events would be promoted more effectively.

Another member of the committee expressed the belief that the liberal atmosphere of the university was being praised by the students. The committee thought that the university should continue to promote its liberal values.

Snowball Thrower Declared Innocent By Judiciary Board

On February 28, a male student was brought to trial before the Judiciary Board, having broken law V of the Property Regulations of the Student Government. The law states that "Inindiscriminate throwing of snowballs near college buildings or sidewalks shall be prohibited." Naturally the secrecy which shrouds such trials caused rumor to run rampant, and an underground movement was begun to legalize the use of snowballs. The leader of the movement, who does not wish to be identified, stated "snowballs are less deadly than stones, and therefore it is not prohibited. Those of us who wish to throw snowballs shouldn't be discriminated against by those who prefer to throw stones. Everyone should be allowed to do his own thing."

This protest was, however, unnecessary. The student accused pleaded "not guilty," and submitted the following evidence: It was not "near" a College building at the time of the incident, having been standing behind a tree on the lawn in front of the library. This caused debate over how close was "near," and the board adjourned to inspect the scene of the crime. Dr. Ritter suggested that an operational definition of "near" be accepted, and proposed that it be defined as the distance at which it was possible to throw a snowball with average impetus and break a window in the nearest building. Since there was no snow on the ground a trial was made with crushed ice, and it was decided that a snowball thrown from the scene of the crime would not break a window.

This would have been enough to acquit the student, however, he wished to present further evidence pertaining to the discriminatory phrase in the rule. He explained that the snowball had a hard core, having been frozen earlier this winter. The student had spent 45 minutes in the nippy 45° weather, waiting for his target, keeping the snowball frozen by inserting it in an ice chest packed with cold beer. And finally, his victim would not strike on Monday, having been hospitalized for a deep cut on the forehead, proving that not only had the snowball been highly discriminant, but also effective.

Univac: for people who want to make it better

Here at Univac, we've spent the better part of 20 years working to make the world a little better place to live.

For example, Univac computers help to direct traffic, watch bank accounts, run steel mills, build bridges, keep track of airline flights.

But the important problems are the problems that aren't anywhere near solution, yet... overcrowded cities, dwindling natural resources, food shortages.

These are the problems we're working on today and this is where you come in.

Univac needs electrical and mechanical engineers, chemists, physicists, mathematicians; men and women with a scientific education but a humanitarian leaning, to help build the computers that will make tomorrow's world the kind of world it should be.

Get more information on Univac by visiting your college or university placement office. Univac will be on campus soon.

New Mascot! Ursus Retired To Honor Whatley

In honor of the unique and inimitable record compiled by Richard J. Whatley while head football coach here at Ursinus, the faculty voted unanimously to retire Ursus as school mascot.

The faculty had difficulty, however, in deciding on a mascot replacement for the fall 1968 season. The following is a letter from weekly reporter Guinny Rae, who, ensconced in the Wiser auditorium above, had a ring-side seat of the bizarre proceedings:

"Well, at least we didn't lose my clipboard!"

Whatley Named Head of Fitness

In a totally unexpected move President Johnson today named Richard J. Whatley as the new director of the President's Council on Physical Fitness, replacing the recently resigned Stan Musical.

Whatley, who had been in Washington, attended a national convention, immediately called a news conference in a downtown Y.M.C.A. after being informed of the appointment. Nat

ative dressing with the stirring words, "Now

Let me see... Was it votes to sweep the convention. It appeared that Symons would make the move. The farmers were one of the strongest and best united blocks among the faculty. They would not allow, ever.

...The lanky Symons was on his feet. "Mr. President," he declared with a solemn gravity, "I nominate the Parker!"

"Typical Symons' imagination," cracked J. B. Symons, the President and Dean's secretary, Mary "Grendel" Steele Woodmanse headed to rattle hurriedly.

Now Symons was on his feet. "Mr. President," he declared with a solemn gravity, "I nominate the Parker!"

Suddenly it all became clear. Symons had been a two-proposal man. "Mr. President," he declared with a solemn gravity, "I nominate the Parker!"

the nomination closed.

Also Ran...

Opposition - "Just a routine nomination," said Mr. Symons, "Mr. President," he declared with a solemn gravity, "I nominate the Parker!"
