Alumni to Enrich Activities
With New "Student Fund"

The method used to reimburse the Alumni Association Fund will be of the sort that may be said to "free up" the money normally allocated for this organization to be used for other purposes. For instance, the Activities Committee, under the suggestion of seniors, has decided to award up to $1,000 to reimburse the Alumni Association Fund for breakage and repairs of any type at the college. This is an example of what will be done with the new "Student Fund" which will be used to support those activities which are most meaningful to the students.

Seniors Will Be Instrumental in Fusing Ambitious Scheme

The Student Activities Committee—and hence nearly every non-academic organization on campus—stands to receive a tremendous financial lift if an already planned alumni-senior class "Student Fund" is instituted this year. Thus, WUGA-WINC has been contacted by the committee and is being asked to set aside a special fund for the purposes stated above.

Both Alumni Secretary Richard P. Richter and Senior Class President Jack Gould are highly pleased that the idea will be carried out. "I think that this positive program will be adopted," remarked Gould in a comment for the WUW, "everyone seems to be interested in it." Thus, the plan is this: when the seniors make the minimum donation of $100 to the fund this spring, they are to receive a letter that contains the pledge that any student who is interested in this program will be able to adopt.

Although Mr. Richter has been both concerned and perplexed enough to remove the idea in the past, he does believe that the program of improving those conditions which have been brought to his attention is to be continued. He has also said that, for example, he is going to change a scholarship which was offered to those who had not earned it. He will make sure that this priority is not given to those who are not needy and that the student's experience convinces me that eventually they will be outgrown. Any person who has a minimum of $100 scholarship; Fourth, Fifth and so on; and the fifth scholarships will be made to those entries which have the most money. We are going to make sure that the college gets the most money, no voice for the other students.

The previous program of raising money for whatever the seniors were interested in was dropped. "The object of having some cash over their breakage for those who pay for library books and other things is the only purpose for which this money is going to be used."

Reed and Barton Hold AnnualSilver Opinion Contest

During the month of February, Reed and Barton, America's oldest silver makers, sponsored a "Silver Opinion Competition" in which students were given $100 cash scholarships. In order to be eligible for the competition, students had to solve a problem stated in each issue of the "Silver Opinion" magazine.

The body that ultimately will be asked to speak against the additional funds will be the Student Senate. It is possible that the money collected from the Student Senate will go back to the students in the form of scholarships or other activities that they may desire.

In the 1956 "Silver Opinion Competition," the winners included won first and second place respectively for the Fall term. The third place winner was also given a scholarship.

Alumni Corner

Ground was broken last week for the new men's lounge and study area in the Administration Building. The building, which will be dedicated to the Alumni Continental Fund, will be a two-story structure that will provide a comfortable place for students to study and relax. The lounge will be a meeting place for alumni and students.

At the time of writing, several alumni have already put up $400.00 to help initiate the project. If you are interested in helping, please let us know.

Europe with Mr. Davis: 2 Credits and a "Fun" Summer

Among the horde of American college students heading for Europe this summer, there are many who will travel in groups organized by Mr. Davis of the U.S. History Department. He has been greatly pleased to see the development of the summer program which has been so successful in the past.

For those of you who have never been abroad or who want to experience a new culture, this is the perfect opportunity. Mr. Davis is well known for his ability to make learning enjoyable, and he has successfully organized many trips for students over the years.

This Week's Movie is For the Birds

Those of you who have read the comments of the past weeks are aware that the decision for the better movie of the weekend is usually made. Last week's film, "The Cardinal," has been highly recommended. We believe that you will enjoy it as much as we did.

We would like to encourage all of you to participate in the "Student Fund" campaign. It is a great idea that will benefit everyone.
In the Mail  
Clarified Policy. . .

Dear Editor:

Somehow, somewhere an important statement of policy did not get into the Weekly. The Lantern has received exactly three contributions since the closing of the contest. One of these was found yesterday and the other two were received today. The statement of policy must have formulated this statement of policy. Any student balloting for the Lantern as a candidate in the next contest would not have contributed anything to the Lantern, but is not eligible for a candidate, you must write for something on that Monday. The lantern is a time when there is none. The contest is one because we don’t like to see the objective of writing something stupid.

There are certain other things which might be clarified. I should point out that this statement of policy has not been included in the YeWeekly.

Sincerely yours,

[Name]

Anyone Can Learn a Language!  
Profs Reveal Secrets of Success  
In Exclusive Weekly Interviews

Any student who can read a language . . . No special linguistic gift is necessary. . . . What is important is the point of the student and the teacher. In a series of recent interviews, Ursinus profs revealed how it could be done.

**Teacher-Mentor Schools**

Several other language professors were also interviewed, and the conclusion reached is that there is some mention in this particular learning process, and that the sessions were very much the same. Several other language teachers who attended the professor interview stated that the students are a prerequisite to success in foreign language education.

** Aptitude Not Essential**

All the teachers interviewed seemed to agree that some people have greater aptitude and ability than others. It was not as if the teacher could identify a student’s aptitude before he went on to study a foreign language.

Mr. Vannucchi felt that a student in his classes knew what he should want to do with his foreign language. He must be interested in such a language. He pointed out that there are those who are interested in foreign languages, but who do not have the talent. Mr. Hartzell suggested that anyone should solve that problem concerning teaching methods.

**A Third Point**

A third point is that I am still getting questions about the open meeting. What is it? Anyhow, The Lantern has received an additional order of all interested writers-inference writers. There will be no meeting of the writers to the meeting that is. At the moment, I am still on the lookout for a voice both for defending his own point of view. And I am still working on the works in the mass media. A second reason for my defensive approach in evaluation, criticism, and encouragement is that I might get their attention. I want them to try to write better. In some cases, none of our efforts are necessary. It is a question of what the student wants to do. Although none of us are official writers, we are collectors of things for something to offer do you.

Yours sincerely,

Sage Advice Offered By UC “Eldest Statesman”

You ‘learn ‘till the day you die, that’s why I’m here,” says John Mathers, a full time student on campus here. This is one of the reasons he, because Mr. Mathers is sixty-two years old.

Mathers and Conrad (Connie) Meyer are two of about a dozen students (that they really are) on campus who have been members of the Lantern in the past.

Mr. Vannucchi felt that a student in his classes knew what he should want to do with his foreign language. He must be interested in such a language. He pointed out that there are those who are interested in foreign languages, but who do not have the talent. Mr. Hartzell suggested that anyone should solve that problem concerning teaching methods.

“Izzy & Lizzy” Opens Triumphant Amid Ribbon Snippings, Hurrah

Basement Becomes Informal Café

Amid cheering, the opening of red, gold and black was snapped to mark the opening of the IZZY AND LIZZY LOUNGE on Friday at 9 a.m. Dean Vorrath performed the honors at the ribbon cutting. Foregoing formal speeches, the waiting guests streamed into the downstairs dining room of Freeland Hall in search of coffee and doughnuts.

As a bonus the hungry students and faculty members found that the former diner has been transformed into a small lounge, much to the delight of students of Ursinus.

The lounge will be open Monday through Thursday from 11 a.m. to 10 p.m., Friday and Saturday from 11 a.m. to 11 p.m., and Sunday from 11 a.m. to 9 p.m.

Paw Prints
by Sue Tucker
For years, the Ursinus women athletes have been well known for their outstanding teams, a fact which cannot be disputed. In the major team sports such as hockey, basketball, and lacrosse, our varsity squads are many times considered superior to varsities from other colleges and consequently our junior varsity takes them on — and usually comes on top. The teams giving us the greatest challenge, are from those schools such as East Strousberg, and West Chester who offer physical education as one of their major courses of study. By major, we mean that there are anywhere from 125 to 350 girls enrolled as Physical Education majors in EACH CLASS.

How does Ursinus compete? How many girls, let alone straight physical education majors, does Ursinus have to chose from when it comes time to make up teams? At the present time, there are approximately 450 women enrolled at Ursinus. Out of 450, there are about 40 as physical education majors.

Why are we on top? There are several contributing factors. First of all, we have outstanding coaches — women who have, and will continue, to mold winning teams. Secondly, we have a reputation to uphold and a great desire to win. This enthusiasm is fantastic and unmatched.

For such a small, liberal arts college, the women's athletic record is truly astounding. Why not come out and cheer our girls on to victory — they certainly deserve your support!

 Trojan gets two more points on his way to three scoring victories, including the total career mark for an Ursinus player...

Wrestlers Maul Smore Ripped by Drexel

The final games of the valley basketball season were played last Wednesday evening with the Ursinus basketball team qualifying for the third year in a row. The Bombers were by no means an easy victory for the Moty Kings which they won 85-72. The Bombers were scheduled for all games which were played six days, giving three points for a win and two points for a loss. Points will be given to each team entered. There is a lot of time available for games this week. Because we may not get it again, some games are scheduled for all two and in some cases three games. Barry boys, but gym space is hard to get.

The games this week are as follows: Thursday at 8, 7-8, 7-8 — Owosso vs. Freeland; Friday at 7-8, 6-9 — Marlette vs. Sandusky; and against Davison at 6-9. New — gym 7-8, 7-8, 6-9. These games are planned for the teams which qualify for the third year in a row. The games will consist of two, twenty-minute halves which will last a ten-minute half time. Teams are supplied an official for each game. The games are at five minutes past the hour.

The brothers of Delta Pi Sigma wish to extend heartfelt congratulations and best wishes to Tanis and John’s lovely Mary. Rushing and finals is primary in our minds right now, but we’re sure to get around to fixing up our place at the dorm next term. We’re limited to a single party during our rush period. The rushing party will be on Monday night, highlight- ed by a grand entrance of the brothers in a tux. Bystanders will be aware of the commotion for a tremendous hour as Furthermore, if you’re a member of the new group of pledges, I would like to mention that we are making our best efforts to get in our records. The current pledge, a cousin of pledge candidate, Ken "So-Mercy" McMahan, is another typical "diabolo" McNaught and Dave "Boy" Green is a stabilizing effect on our group. They’re ready for their new move.

Kappa Delta Kappa
Not only do we want to extend our congratulations on the recent pinning to honorary sister of Su sie Stauffer. Finally picked a winner. Place­ ment and performance or certain inwcntol’ ing. Exercises are done before bed. We have more time for... Writ­ing. Joan though had est!!
