Campus Chest Adds New Charity

The last meeting of the 1965-66 MSGA Executive Committee was held on Wednesday, May 5, at the home of Dr. Lewis. At that time John McInerney, Treasurer of the Council, announced that a total of $2,977.75 was raised during the ten day period of activities. This year, the money was used to give the third annual fund of the College in memory of the late Mary Spain Lewin. The proceeds from the concert on Saturday, April 9, were donated on the next as well as it has always been.

Campus Opinion Favors Merger

Representatives to the Men's Student Government Association (M.S.G.A.) have been asked to serve as schoolmates, juniors, and seniors to the S.G.A. Students. Three freshmen elected were New graduates Robert Pettingill, Steve Weiss. The three sophomores selected were Dick Behrman, Tom Dean, and Bonnie McCall. The upperclassman elected were George Atkinson, George Prentiss Biles, and Marshall Brooke.

Dean Doveran, a brother of the Young Democrats, the YMCA, and a freshman advisor, will be a freshman advisor for the first of the S.G.A. Joe Miller, who is a brother of the Young Democrats, will be a freshman advisor for the second of the S.G.A.

Pettit Advises Men on Draft

May 14, 21, and June, the dates for the Selective Service College Qualification Examination, could be the last ten days of the lives for many attending school here. Because of the gravity of the situation, Dean of the School William S. Pettit, has made public at the request of the MSGA, pertinent information regarding this test.

The Selective Service will consider all college by the test each local draft board that cannot determine whether or not any local boards must consider their particular districts.

Not Final Factor

The test is not necessarily the final factor in the maintaining of a 2-S or 1-A status, according to those decisions by the selective draft for the final examination of the end of the year. In fact, however, only guidelines for the end of the year by the selective draft. For drafting, the men who are drafted, as to whether or not they want to be drafted, can be used by that period to appeal through that program to theSelective Draft.

Particular Ursinus Problems

Dean Pettit also stated that he had received information concerning the various problems that are being discussed by the selective draft. It is obvious that there is no information concerning the selective draft, but the men who are drafted, as to whether or not they want to be drafted, can be used by that period to appeal through that program to theSelective Draft.

The kermesse of the Sixth Annual Spring Festival held on May 7, was variety. The afternoon program began with the intermezzo by Susan Lynch of the Spring Festival Queen and Her Court followed by the production of "Patriot" and "Annie" directed by Jayne Bug and Deborah Glassmoyer.

Editorial Answered

Dear [Name],

In your editorial of May 2, you expressed concern about the difficulties that the students may face when trying to organize events on campus. I wanted to clarify that there is no question of merit in this matter. Could, in time, drastically affect the nature of our work.

This week, however, I have a new critique to make. I believe that the problems of the present are not yet entirely solved. There is still much to be done.

Sincerely,

Perhaps you have a substance that is not suitable for use on the campus. I would like to make a point. If it is not suitable for use in the lab, we can't use it either. I would like to make a point. If it is not suitable for use in the lab, we can't use it either.

As you can tell, the moon is very large. I don't think we can see it without a telescope. But I think we can see it if we look through a telescope.

How many readers can actually say that they have seen the moon? Not many, I think. At least, if I have heard it said—"He's a small, perfect crater on the Southern portion of the moon. The fact is, however, that students at Ursinus DO have the opportunity to view many of the wonders of the heavens. Up four flights of stairs in Pfahler, through Ursinus antiques, up a final flight of stairs and out to the roof, where Mr. Converse, for the first time used in the ASTM.
