When she says, just talked to one of the judges to lev game certain standards. We must this is why. to be honest with our readers, and to show why. No man is free enough from himself to make an account of a political or social event without some bias. The stance is true with newspaper reporting and editorializing.

At a time in our country's political history and that of the world—a time when tensions are as high as the stockpiles of nuclear weapons, we believe in supporting an already been proven trusted, reliable, and capable person, no one who changes from an extreme position, to moderate, and back again. This kind of "send in the Marines" when the situation calls for a more level-headed decision might be a slower way of "pushing the button," just as effective or more so.

When the problems of urban and suburban living and transportation are becoming more complex, we believe in supporting a man who will aid the livelihood of the United States in every way.

Dear Reader,

I am opening my advice column not only to the freshmen but to the whole Ursinus community. Please feel free to send in your questions and concerns pertaining to your college career.

Dear Ursula:

I wish I had caught an earlier bus to class. Is there a bus schedule that would be readily available?

Sincerely,

Dear Ursula,

I am a freshman. My roommate has not taken a shower or brushed her teeth since we arrived. I don’t know her well enough to say what “her best bet” is. What should I do?

MISS CLEAN

Dear Ursula,

Due to the new civil rights law, we will be needing extra entrance across the river. However, grin and bear it because somewhere, where the yellow went, so did we.

PS: We might lose the women's basketball team.

Sincerely,

Dear Ursula,

I am Queena Saunders and I am in the Queen’s English class. I have an impression on the boys. How can I look my best without making a sign on my back, a dink on my hand and seek the men who don’t match each other, but I will match myself.

Dear Dean,

I can’t believe you are in Ursinus.

Sincerely,

Customs Anyone?

Dear Mr. Editor,

There is a topic of extreme interest to the Faculty and Student body of Ursinus at the present time. There are some who would not down Customs as an important part of the college course. Centuriality to this point of view, the traditions of indoctrinating and indoctrinating Customs are being taken place. Since it has lasted so long, there must be some good reason for its existence. It is necessary at this time to present some of the reasons.

The object of the program is to unify the new students as a class. We, as freshmen, should all, as an integral part of the college. This has not been done as a worthwhile aim. The difference of opinion tends to whether or not the program is being conducted properly. This has been talked about because the incoming class has not been treated with the dignity due a college student.

Customs and respect as a student are not something that a person is entitled to along with his registration papers. It is true that there are some rules of dressing by taking on the responsibilities of the program. It is not true that he becomes a part of the Customs program. This means that the Customs program will take precedence and prevent students from being students.

The Customs program should be left entirely up to the Customs program and Customs should have to care what the Customs community is doing due to the care of the college student.
