Write Me A Murder, a Skillful Presentation of a Weak Play

By Norman Yell

WRITE ME A MURDER was skillfully presented by the Curtain Club last Friday and Saturday nights. The smoothness with which the play was given testified to the hard work put into it by Directors Don Boulter and Judy MacPhie. Dr. Hinkie, as omniscient guide and helper of the club, also deserves a round of applause. Perhaps the only person involved in the production who doesn't deserve the applause is playwright Frederick Knott. Write Me A Murder has the unfortunate fate of being an uneven piece of writing. The basic idea and plot are good, but their presentation var¬ied from fumbling to laborious and confused. Thus, the production was slow in really capturing the writer's intention, although many scenes were greatly overemphasized by the performers.

The best performance was undeniably given by the lead.新鲜man Jim Horr as Mr. Stuart Rock. Mr. Rock, a Moorings stage manager, immediately brought the piece alive and a gentle smile moving along with his delivery of the lines. Perhaps the only time he was truly fascinating was when he was speaking in a dialect. Usurin has gained an actor of the year in the recent past and is sure to be going out to ward to seeing again.

Other than Mr. Rock, Rod Miller, also a newcomer to the UC stage, was an adequate performance as Julie. His efforts were less than adequate as Julie. His efforts were not so effective, and the entire cast was a very natural ensemble of actors. The best of them were Charlye Redlingham, played by another新鲜man, James Devers, and was an easy arrangement of the old and new. His story line was humorless, but well-delivered.

The four-cell plays required a lower-class British accent ranging from good to bad. This led to the extreme variety in quality of the acting. Their presentation was so very good, but their delivery was so bad that it was hard to follow their lives at all.

The whole cast was well-ad¬vised and directed, although Mr. Rock's way of speaking was a pain. Although Dr. Hinkie's way of speaking was a little too much, the performance was quite good.

The National Topic will be, "The Federal Government should support private programs for the public good." Miss Minn. MacMillan, speaker in Massachusetts, will present Ururin at the Tournament, which is a tough classy affair. The debate will be held on December 12th at 8:00pm.

Over the summer these girls are working on a topic of their own, and they signed to them. They were a little more effective to help them get noticed. Their theme is "Abandoning school rules, buying books and going on to college. There are experts on the Jean Winter group. Jane Tillotson ject her own style or "The Deci¬

Usurin Students Attend Sheraton Collegiate Council

Ursinus Students were represented by five coeds at the Wor¬ld Council of Churches. Arch R. Jones was chosen to give the keynote address. Mr. Jones, a student at the Sheraton Hotel. Thursday, May 15th. The con¬vocation was Graduation and Sum¬mer Term of the Collegiate Council. The students present included Linda Dettore, Donna Dugan, Janey Stirn, Cheety Frye and Carol Huggins.

Panel Discussion
The program took the form of panel discussion. The panel members were Miss4 Liz von Gersdorff, Arch R. Jones, Pae¬trol Division Director of the Na¬tional Conference on Religion and Race in the Philadelphia area, and a panel of experts on the World Council. The discussion was open to the public, proceeds going to the World Council for Nonviolent Social Change.

Ursinus Women's Ensemble to Present "S" No Ball Turnabout

Judy Collins, a member of the Ensemble, announces that the program of "S" No Ball Turnabout will be presented by the Ensemble on Saturday, April 20th at 8:00pm.

USCBUS receives $1,500 Grant From Sears-Roebuck Foundation

Arch R. Jones presents a check to Dr. Heffterich from the Sears-Roebuck Foundation.

Arch R. Jones, director of Student Affairs for Sears, Roebuck and Company, presented a check for $1,500 to Dr. Donald J. Heffterich, one of the unsolicited grants totaling $70,000 being distributed this week by the Sears-Roebuck Foundation. Ursinus is one of 47 Pennsylvania colleges and universities sharing in the distribution which, in this state alone, totals $80,000.

In receiving the check, Dr. Heffterich said, "We continue to be deeply grateful for these pro¬fessional contributions from Sears, Roebuck and Company. Sears has been one of the leaders in making much-needed business and industrial corpora¬tions available to the humanities. We are very aware of the confidence in the humanities expressed by these corporations and the universities with which they are associated, and how this is working in preserving the American way of life and the concept of American humani¬tarian resources."

MBA School of Grants
Mr. Jones pointed out that the unsolicited grants were given to more than 400 colleges and universities from coast to coast. In addition to the new use of unsolicited grants as such he presented to...
Spotlight: UC Abroad
Student's Stay In Stockholm
by Candy Specht

Most students who desire to go abroad have a pre-mediated plan for their action. Carlson Dengler, a junior English major at UC, thought long and hard about this decision. He was on the fence about making the decision because he has a passion for reading and writing, which are some of the reasons he decided to make the move. Carlson Dengler was considering applying for the University of California, Los Angeles (UCLA) exchange program. This program would have allowed him to study abroad for one year and then return to the United States. Carlson Dengler ultimately decided to make the move because he really wanted to see the world and experience different cultures. He felt that the University of California, Los Angeles (UCLA) exchange program would be the perfect opportunity for him to achieve this goal. Carlson Dengler has already had the opportunity to study abroad and experience different cultures. He is currently in Stockholm, Sweden, where he is studying the local culture and customs. He is also gaining a deeper understanding of the language and traditions of the Swedish people. Carlson Dengler has already made many new friends and is enjoying his time abroad. Carlson Dengler plans on returning to the United States in the spring and is looking forward to sharing his experiences with his family and friends.
Silver mill strong team. In matches played exceptionally strong teams. DeMasi looks in a position to Freeland was convincing in its defenses of Maples and The Apex, and Stein has also folded a strong team. In matches played.

ELECTRONIC ENGINEERS

Let's discuss tomorrow

In science and technology, the accomplishments of today are but direction for tomorrow. Why? Simply because relying on the accomplishments of today is a luxury we cannot afford.

In Electronic Engineers, where other content to modify, our mandate is to CREATE.

In Electronic Data Processing Systems, where other content to modify, our mandate is to CREATE.

So let's discuss the future... yours and ours

If you are a gifted and interested Engineer or Mathematician, we have much in common — including A COMPETITION FOR TCP/IP.

Our future is contingent upon a constant input of new... and creative... scientific... the lifetime of any Institution. Our success is embedded in the technical capability of our personnel.

To assure this, scientific employees are encouraged to pursue graduate studies at local universities under Agency sponsorship. Your future with NASA will be largely dependent upon... and unusually challenging assignments. Why? Because:

- We MUST create completely new ideas of communications equipment and systems embodying concepts and techniques THAT HAVE NO PRECEDENT... transistors, transmitters, receivers and terminal hardware of a most advanced design.
- We MUST assure the complete irrelevancy of any content to SUCCEED.
- But never static... science of cryptography.
- We MUST develop full realizations for computers and electronic data processing systems experimenting with the latest semiconductors, magnetic film and superferric conductors to provide new logic circuits and memory units for increased speed and capacity.

Intensive... Intentional... If so, THEN LET'S DISCUSS TOMORROW. Representatives of the National Security Agency will be on campus in the near future. Check with your Placement Office for details and dates, or write:

Soccermen Split 43 and 45

LeRoy Radzynski

This past week the Ursinus soccer team played the two leading teams of the Centennial Football West Division and came out even—scoring twice against Franklin and Marshall in a 4-4 tie game.

Soccermen Finish Season with 5-5-1 Record

LeRoy Radzynski

It's over now. The 1964-65 soccer season has ended and for many of the players it is a long time in which to do the things that you like and be involved. This season was the season of hard work and sacrifice, the season of trials and tribulations, the season in which we overcame the problems we faced. Now, with the season over, we can all reflect on the good times and the bad times.

The season started with a good win against Mt. St. Mary's, followed by a tough game against Gettysburg. The team then faced a tough game against Harford, but came out on top with a 2-1 win. The team then faced a tough game against Juniata, but came out on top with a 2-1 win. The season then ended with a tough game against Muhlenberg, but the team came out on top with a 2-1 win.

The team was led by our captain, Dave Blaen, who had an outstanding season. Dave Blaen was the team's leading scorer with 12 goals and 8 assists. The team also had some other outstanding players, including Jim Seibert, who had 6 goals and 4 assists, and Steve Johnson, who had 5 goals and 3 assists.

The team's season ended with a 5-5-1 record, which was an improvement from the previous season. The team had some tough games, but also had some good games. The team was led by a strong defense and a solid midfield, which allowed the team to win some games.
