Junior Class Extends Invitation to Carousel
Al Raymond Band at Sunnyside

The Junior Class cordially invited you to the Carousel on Friday, March 5th, at Sunnyside Park from 9 p.m. to 1 a.m. Dress is informal and admission is free. Music will be provided by the Junior Band led by Paul Edwards.

At the class meeting last week eleven girls were nominated for the Junior Queen. After lunch on Monday, 2 girls were eliminated. The selection of the Junior Class will vote again on Monday. The Junior Class will vote for one queen; the other will be members of the court.

The girls nominated are: Ann Bregnell, Barbara Bar­ ham, Debbie Glassman, Ann Beer, Mary Anne, Louise Johnson, Janie Printz, De­ bby Holz and Carol Wolfe.

Carol Wolfe and Rick Herman will be in charge of decorations which promise to be original as well as colorful. They will supervise table decorations, junior cards, etc. The committee of 3, comprised of the class president, Barb Evesen and myself will take care of lighting.

Students and Faculty Contribute to Art Show

Prizes Awarded to Varied Entries In 3 Day Exhibit

Last Friday room 7 was transformed into an art gallery with the aid of APO, Mary Auer, Judy Fryer, Sue Hartenstein, Barbara Zucker, and 24 students and 6 faculty

Students and Faculty Extends Invitation to Carousel At Al Raymond Band at Sunnyside

The Ursinus Chapter of Pi Nu Epsilon, the Greek music fraternity, is sponsoring a new and exciting event which will be of interest to students of the Ursinus Interfraternity Concert. The Ursinus Interfraternity Concert will be held on Sunday, March 5th at 5:00 p.m.

The student body feels that this year the Interfraternity Concert will be an even greater success and will attract a larger audience than last year. It is hoped that as many members of the public as possible will participate.

Several Stipulations

There are some stipulations in this event. The fraternity or sorority of each of the participating groups must provide third of their active members with performance permits. Only those students who are members of the participating organizations, by the Sunday, February 28th, may be able to participate.

The fraternity and sorority receiving the largest number of members from each group will receive a plaque to keep for one year.

WSGA Plans to Adopt A Child

Under a program sponsored by the SGA, the WSGA has agreed to adopt a child. The WSGA has met with the WUSC to discuss the possibility of the WSGA adopting a child. The organization has provided a plan which will outline how the group can contribute $10 to the WUSC and be considered to have adopted a child. The group will then have active contact with the child, including pictures and letters. According to the group, the project is designed to increase the awareness and participation of the WSGA.

The WSGA is sponsoring this project and will be in charge of the program. The WSGA is planning to adopt a child and will participate in a variety of events and activities.

Cheguvella Coffee House Provides Weekend Activity

The Cheguvella Coffee House is planning to provide a variety of weekend activities. The house will offer music and poetry readings, as well as social events such as movie nights and game nights. The Cheguvella Coffee House is located at 16 Main Street and is open from 7:00 p.m. to 2:00 a.m. on weekends.
THE "Y"

Page 1.

By John Braida

It's almost certain that someone has reported the charges that Ursinus is the second most dishonest campus in the nation, according to the survey, although I think it wouldn't be too far off the mark. I haven't heard any other campuses that are slightly above us in that direction, although I heard in the early 60s that the red face of the Ursinus male before reg­

Dear Editor

In response to the letter of John Braida, it is true that the "Y" is the best at "Y"ing around, especially when it comes to cheating. I would like to add that the Y's do not stand alone, as there are many other colleges that have the same problem. In fact, the Ursinus male before reg­

Please consider this letter for publication.

The first group I contacted was the Cabrini, and I was told that the Cabrini, President, gave up the fight for the sake of his students. When this program was started, the Cabrini students were not ready to accept it. It has been two years now, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the second group I contacted was the Olddomen, and they are still in the process of implementing their program. They have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the third group I contacted was the Delph, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the fourth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the fifth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the sixth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the seventh group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the eighth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the ninth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the tenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the eleventh group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twelfth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the fourteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the fifteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the sixteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the seventeenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the eighteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the nineteenth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twentieth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-first group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-second group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-third group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-fourth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-fifth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-sixth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-seventh group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-eighth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the twenty-ninth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirtieth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-first group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-second group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-third group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-fourth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-fifth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-sixth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-seventh group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-eighth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the thirty-ninth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.

In the fortieth group I contacted was the Olddomen, and they have been very successful in their efforts, and we have learned some things about how human nature will react to such an action. The students began by serving their community.
Bears End Week 1 for 2
Finish Season 8-9

Troyer and Parker: Standouts

Muhlenberg

In its last game of the season, the Ursinus basketball team lost to Muhlenberg 64-56, thus clin-
ing their leg at a 20-12 season record. Though the Bears were not predicted to win, it seems that with a little more team effort and a little more focus, theUrnins could have pulled off a mild upset. Barry Trovler and 1 ack Parker again led the carries, with Barry getting 36 points to be high scor-
er for the night and Jack adding 16 to the cause, 13 of the points coming in the second half. Be- sides Trovler and Parker, the other Bears had a rather bad game. Debbing Ruth Hofmann was literally bashed in the backcourt by John Berk and Gary Spengler. Mike Poluck considered shaking all evening, had trouble driving and was only 1 of 6; Bruce Krum had to stay back guard-
ing against, fast breaks and he could not use his shooting ability to the full. 

The score doesn't exactly in-dicate that the Bears were good, because Barry's and Jack's quick scores seemed to make up for the lack of the others. Probably the worst game for Chuck Fry's team was the defense, as 4 of 6 Mike starters helped double double Spenger running 29. Ursinus also seemed to have trouble knocking out only 16 of 30 shots. To add to all this, the complete lack of fan support. It

definitely was not "The Little Painters" on Saturday night. Be- ing down 18 points there is noth-
ing to cheer about, but being down six points and coming on strong there is something about and there was no cheering. Thus,slammed a rather poor showing on part of the team, and indeed of 7 it may seem, the years as well.

Drew

Although only Scored by 6 points, the Bears soundly defeated the Indians from Drew 59-52 last Wednesday night. The first half was marked by sloppy play by both teams. It appeared as though the Bears' 2nd place game on the basr ride up to Madison, particularly was made handling mistakes and refused to run when fast break opportunities presented them-

selves. However, due to Barry Trov-le-r's 15 point first half, the Bears led 31-24 at half-time. The Bears put together a good second half as the result of the team's help. Both Parker and Ruth Hofmann got 15 and 15 points respectively in the second half. "Booze" Poluck and Buddy Krum were very effective so the boards and on defense as the Bears seemed to have a way in the second half. Dick Glemmam played one of his best games for the Bears, key rebounds and made several "dunk" shots at the end of the game.

Let's kill'em.

Beaver Falls 55-53, Day Scores 22 Pts.

On Thursday, February 25, the lady Bears scored 55-53, score 22. The first quarter looked like the score was going to be outrageous as Ursinus dominated the boards and the scoring column. However, in the second quarter, Beaver began to fight back as they found the range and closed the scoring. The third quarter was fairly close but in the fourth quarter, Ursinus began to move the ball and play very tough defense and they widened the score and completely dominated play Ur-
sinus was 43 percent from the floor and 50 percent from the free throw line. While the Bears was 19 percent from the floor but they took a total of thirty-three shots. Sue played her best game of the season putting in 23 points and playing very good defense. Pat Holmes did a fine job defensively and pulled four key rebounds, Lee Bush made several free throw attempts and contributed four points to the cause. Ruth Sillings scored four points on outside push shots, and Diane Regester added two points on her patented corner jump shot (set shot). Kurt Hale added eight points and in fifteen minutes of action.

We won the game the unbelongable score of 74. They got everything they threw up went in, Defense for them was not a point in the last quarter. The AV added another victory to the string when they won on Saturday night.

Badminton Team

The Badminton Team completed its first three matches of the season. After winning the first, they lost the second, but won the third. The team has been receiving mixed results in each match. No one has been assigned a specific position for each match, which makes the team very strong. The team's performance is expected to improve as the season progresses.

Usurins Matron Lose Two Swath: & Drexel are Close

Drexel

The "but" was still around on the lady Bears last game against Drexel on this time to Drexel, 15-11. The Bears lost 15-11, not by much, but not a full match. In the heavyweight class, Ursinus lost to Swarthmore, 178-170. The Bears lost 157 pounds to the Garnets.

Philly

The lady Bears lost to the Garnets, 178-170. They played a hard second quar-

A Year in Review

The Bears basketball team has com-

pered a rather fruitless season with an 8-9 season record. What appeared to be a very good season was greatly hurt by two early season one-point losses to Pennsylvania State University and F & M. The Bears were able to put two good halves together in the 137 and 157, with the opposition playing a 1-

time or two time quarter. The team was better in the third quarter of the game. The final score was 53-51.

At 1 p.m. on February 28, the Bears played in the 157, 178, and the heavyweight ranks. Ursinus once again came out strong and dominated the first set by beating Swarthmore in the heavyweight class, 5-0. At 177, Fred Schmuck led the Bears to a victory over the Garnets in the heavyweight class, 5-0. At 137, Fred Brody led the Bears to victory over the Garnets in the lightweight class, 5-0. At 178, Ursinus used a 27-20 lead in the first period and held on to the lead in the second to win, 5-0. At 157, Ursinus used a 9-0 lead in the first period and held on to the lead in the second to win, 5-0. At 137, Ursinus used a 9-0 lead in the first period and held on to the lead in the second to win, 5-0.

An interesting sidelight oc-

ced on February 28. The Bears won a tight game under the lights at nightfall. The Bears won against Ursinus, 8-3. The team was composed of the Bear's regulars and one from Ursinus. The game was won by 10 to 8.

Rainbow Specials

by Karen Kohn

"Reflections of a Loser"

This was to have been a pompous, gloating editorial about the superiority of the girls' basketball team. We were inspired to smash West Chester. The way the game started it looked as though we were going to do just that—win. Even when we were down at the half, we still thought that we were going to win. But when the game was over, we realized the West Chester: they came out and took the game in the third quarter and never gave it back to us. We cer-

Swarthmore

tainly didn't challenge them and we played, the only thing we had to do was to win. It is very hard for a member of the team to write objectively and clearly about the game and therefore what happened in the first quarter was nothing more than to accept or reject on that merit alone.

We threw up the lamp. We had the game and just gave it away. When we played our most intense and best performance and put it up against performance in this game. Sue Day has been averaging about sixteen points a game. She had done a fantastic job on a two hand set and was doing a fine job and she played very well against West Chester. She played up to her ability. Pat Holmes has been doing an outstanding job defensively and she played very well in this game getting a good many rebounds. Judy Smiley contributed more than she has been in the past. She contributed to the Garnet's loss by disposing Jacobsen. Judy Berman played her usual game of tough de-

The Bears had a rather bad

Both were excellent and was able to win early in the last two games by Philadelphia and again against Swarthmore's. The last time was in the last game of the season. The passing particularly in the second half was slow and meaningless. The offense passed the ball around and the defense was hungry and more to the point. We had a large lead in the first half but it was a 5-0 lead. The Bears lost again on Friday, Feb-

Two starters fouled out but this is not the reason we couldn't see to get going. The defense was not up to the game and we lost it. We can say we were better but we didn't do nothing to prove it. All our promises were as empty as a gas tank with no gas to fill. The Bears played a hard game against West Chester thundered over Ursinus. Ursinus sorely through the game while West Chester ran.
Peace Treaty

It was a relief to me to learn that the American people had finally put an end to the war in Vietnam. However, I am not sure if what we have accomplished is the best solution. The war has left many people in the country suffering from poverty and instability. I believe that we should continue to work towards a long-term solution that will bring peace and stability to the region.

Vietnam

The situation in Vietnam is complex and difficult. The country has experienced a long history of conflict and division. It is important for the international community to work together to find a peaceful resolution to the situation.

Basketball

The basketball team is doing well this season. I hope that they will continue to work hard and continue their success.

Rushings

The rushings are in full swing. I hope that the students will enjoy the process and make the most of this opportunity.

College Diner

The College Diner is a popular spot on campus. I hope that the students will enjoy the food and the atmosphere.

By the Way

I hope that we can continue to improve our relations with other countries. It is important for us to maintain good relationships with our international partners.
