Dean Petts Plans Sabbatical; Dr. Vorrath to Act as Dean

William A. Petts, the Dean of the College, will be taking a sabbatical leave of absence during the coming semester. He will leave Nevada on February 10 for an extended trip to Europe, where he will be away from the college for approximately six months. During this time, Dean Vorrath will serve as the dean of the college.

The Dean's absence will be a welcome opportunity for the college to reflect on its future direction and for the administration to consider new initiatives for the institution.

Student Co-author Of Publication

Craig A. Bennett, whose paper "An Analysis of the History of the Bicycle" will be featured in the Winter 1946 issue of the "Journal of Transportation Studies," has been accepted for publication. "Cudahy Carnival," an annual event in Cudahy, Wisconsin, was the doctoral dissertation on which the paper was based.

Bennett's research involved the use of Spring-Ford High School data, the first article written by a member of the Bennett family. Bennet also performed research for the Bennett Company of Industrial Relations and the National Right to Work Committee.

Other research topics included the study of "The Evolution of the English Language," "The Development of the Automobile," and "The History of Music in the United States."

Dean Pettit, who was elected to the Board of Trustees last year, is responsible for the college's academic and financial success.

Tour Outlined

The first stop of the trip will be Cusco, a historical city in Peru, where the group will explore the Inca ruins. From there, they will travel to Rio de Janeiro, Brazil, where they will experience the vibrant culture and music of Brazil.

The group will then travel to Buenos Aires, Argentina, where they will visit the tango district and see a tango show. From Argentina, they will travel to Paris, France, where they will visit the Louvre Museum and attend a French opera performance.

In the UK, they will visit London, where they will see the Tower of London, the British Museum, and the Tate Modern art museum. They will also attend a concert at the Royal Albert Hall.

The trip will conclude with a visit to the Maldives, where they will learn about the culture and history of the Maldives.

UC Circle Elects 1964 Officers

Mrs. James M. Voss, Ethel Keatley, and Alice Johnson, who were elected as the officers of the UC Circle, are preparing for the upcoming academic year. Mrs. Voss will serve as president, Ethel Keatley as vice-president, and Alice Johnson as secretary-treasurer.

UC Students Hear Phi, Omega

The UC Circle will hold a meeting on Thursday, January 15, from 3:30 - 5:30 p.m. in the UC Student Union.

Chapel Changes Announced

Certain changes in Chapel procedures will become effective immediately. These changes were made following a series of discussions with the faculty and students. The changes include the use of a new hymn book, the introduction of a new music director, and the addition of a new organist.

For Next Decade Total $10,000,000

The building and endowment needs of the college have been estimated at $10,000,000 for the next decade. The Board of Trustees has approved a campaign to raise this amount, which will be used to fund the construction of a new library, the renovation of existing facilities, and the support of academic programs.

Scholl Resigns As IPC President; Bill Mack Is Elected to Position

The Inter-Fraternity Council, on December 16, 1963, elected William Scholl as the new president of the council. Scholl will be succeeded by Bill Mack.

Building and Endowment Needs

The building and endowment needs of the college have been estimated at $10,000,000 for the next decade. The Board of Trustees has approved a campaign to raise this amount, which will be used to fund the construction of a new library, the renovation of existing facilities, and the support of academic programs.

The president of the college, Mr. Heflin, has stated that "the board will not consider any expansion of facilities unless the fund drive has reached a substantial amount of the $10,000,000 goal."

In Concert: A Success

The MBA will conduct an extensive holiday

To the Editor:

The Ursinus Delta Kappa Delta Chi is pleased to announce that on Friday, February 27, the Ursinus College Department of Theater is presenting a full evening production of "The Member of the Wedding." The play, written by Carson McCullers and directed by Professor Robert Martin, is based on the novel by the same title. The play is set in the 1940s and centers around the relationship between a young girl and her older brother. The cast features talented student actors who will bring this timeless story to life on stage.

We encourage all members of the Ursinus community to attend this captivating performance. "The Member of the Wedding" promises to be an emotional and thought-provoking experience that will leave a lasting impact. Tickets are available at the box office, and we look forward to seeing you there!
One of the most interesting academic theories advanced in any long a year has recently been advanced by that interesting academic, Dr. E. Ewbank. The theory, which Dr. Ewbank has applied to the field of mathematics, suggests that certain academic theori...
The Ursinus cagers looked a little shabby after the two-week holiday lull, but they managed to sneak by PMC, 70-59, Wednesday night. Once again Barry Trooper proved the spark as he dumped in 22 markers to pace the UC scorers.

The Bears held anyone at PMC, consistently bested them off the bench with a little jumping jack named Charlie Suriano and by entering two subs in the backcourt along with Ward. Joe Jones, at 6'9", is a 7 point threat near the end of the second half. Bill Siebenson was particularly impressive, mainly because

against F&M when the Bears notched 57 per cent of their shots, an incineration even the Collegetown fire company couldn't do. It just seems so simple when you just watch them do it.

On the other side of the fence, wrestling Coach Bob McCreary didn't think for one minute that it would be simple to dump Delaware. "I'm just going to see what these boys are made of and stick with my best. We might have to do a little juggling but we'll give them a good battle." He certainly saw what his team was made of, and he must have been pleased with such performers as Dean, Kratz, Videon and Sieberson. The victories scored by Frank Videon and Bill Sieberson were particularly impressive, mainly because of 90 Barry Trooper says, "It's a combination of teamwork, moving the ball, and taking good shots." That seems to be a pretty good analysis of why UC is coping more than its fair share of games. The teamwork is obvious—scraping, hustling, and rebounding effectively.

As for moving the ball, well, UC has unveiled the fast break which had previously been confined to mountainous. All five starters are capable of handling the ball on the break, something which is rapidly going out of style in college basketball today. Good shots have been abundant, and the best shot so far has been Mr. Trooper who has the distinction of being the second deadliest in small college ranks. The team on the whole has been tickling the twine at a red hot rate of fire, and may have been the biggest surprise of the season.

All the usual suspects were on hand at tonight's activities. Achievement was the display against F & M when the Bears notched 57 per cent of their shots, an incineration even the Collegetown fire company couldn't do. It just seems so simple when you just watch them do it.
