The Library and Bomberger Hall, A resident of Pennsylvania, for each area. The enthusiasm of the library itself, directed by the fact that in June, 1928, she was married on the campus, will have to be called to the area, Area 1, Area 9, phone calls to fill the positions. For the second area, additional alumni, who in turn make the final decision, will select one of each of their respective communities.

Ursinus Alumni Donate $520,000 to Loyalty Fund

The results of the 1962 Ursinus Alumni Loyalty Fund campaign were recently released by Alumni Secretary Richard T. Creager. The Ursinus alumni responded to the solicitation, which called for a total of $100,000 over last year's total of $560,000, with contributions over 1962 figures. Another grant, $5,000, was made by the College to the Pennsylvania State University for the first time in the Loyalty Fund.

Urisinus, continuing its alumni participation in the annual campaign, has reached the $500,000 mark in the national ranking of colleges in its classification.

The Class of 1984 led all other classes with a total of $130,000. The Class of 1930 with 90,000, roughly 20% of its total, contributed over $50,000. The Class of 1890, with 180,000, was the largest contributor, with alumni contributing $18,000. The Class of 1954 contributed $11,000, with the original Class of 1890 contributing $5,000.

Professor Bone Dies

Maurice O. Bone, 69, professor emeritus, was a member of the classics faculty in the College. On April 3, he was a graduate of Ursinus College, and had taught at the college for 42 years. He was a well-known scholar and author, and had published numerous works on Greek and Latin literature.

He left behind a wife, four children, and a family of 12. The family was especially close with his sons, who were all graduates of Ursinus College. He is survived by his wife, who he had been married to for 43 years, and his sons, who were all graduates of Ursinus College.

Professor Bone was a respected member of the Classics department, and was known for his dedication to his students and his love of the classics.

He left behind a legacy of excellence and a deep appreciation for the classics.

Craig Reckard, class of '69, has become the National Foundation Health Scholastic Award chairman. The award is given to nationally distinguished students in the field of medicine. The award is sponsored by the University of Pennsylvania School of Medicine.

The scholarship, with a total value of $1,000,000, is financed by public contributions to the National Foundation. The University of Pennsylvania will be one of many young people across the nation who will be awarded National Foundation Health Scholastic Awards this year. The program, in its fourth year, is designed to give graduates professional training in various fields in the University.

Howard and Betty Friend, both class of '64, will attend Princeton University, attending for a third year. Sandra Motta, class of '69, will attend the University of Pennsylvania where they will attend for a third year. Sandra is currently attending Princeton University.

Brenda Morris, class of '69, will attend the University of Pennsylvania where she will attend for a third year. Brenda is currently attending Princeton University.

Wagner Returns From Trip to Ghana, Nigeria, With Advice for Americans

by Barbara Getty

An interview with Mr. J. D. Salinger, author of Franny and Zooey, attended Ursinus and wrote a column for the Weekly.

Urisim's football field was once featured in Ripley's Believe It or Not as the only one in the world where there are no goals and some. Unfortunately, Mr. Ripley passed away before reporting to the goes, so there are no goals and some. Perhaps the centerfielder has to stand on his toes in order to see home place.

There is an astronomical observatory on top of Phantom Hall of Science which is used for observations by outside groups as well as the astronomy classes. The observatory was set up by Bisham Thompson at Central High in Philadelphia where it was eventually moved to the University of Utah, where it had been in storage, and was reconstructed at its present location by Mr. Walter M. Metcalf, who is now the astronomy instructor.

The studio Cottage was originally built as a boat house and could have been made into a studio. It was moved to its present site. Ursinus now owns seconds among the nation's colleges in percent of alumni contributing to the college.

Inkeepers Spread Far and Wide...

What has become of the Inkeepers?

John Salmon, the last of the Inkeepers, has moved on to the University of Pennsylvania where he is currently attending for a third year. John is currently attending Princeton University.

The city of Wahpeton (population 3,000) is located in North Dakota. The town has a modern school building. During the summer months, the town is home to over 400 people. Three hundred of them are home for the summer. The other children are sent to camp. The town is home to Wahpeton High School.

The enrollment is determined by the local school and is based on the number of students attending. Some students may attend a private school because of their financial needs. Some students may attend a public school because of their financial needs.

Susquehanna halfback, plunged maneuvers seemed to keep every few plays, but these odd interior linemen and numerous system prevailed. The Bears fought hard against the six points. The score reached 28-0. The Ursinus undergraduate-burning questions like campus life—the many and varied dilemmas which beset the undergraduate—has reached a pinnacle of the packager's art. I think Marlboro is a filter maker's dream. It's the same with me and Marlboro Cigarettes. I think Marlboro's jolly red and white pack or box should be more than an object of desire. I have a friend named Rex Glebe, a veterinarian by profession, who has enjoyed Marlboro's filter, who has revelled in Marlboro's attractive pack. If he were to be asked to give the Marlboro filter a grade, he would rate it as number one. To be sure, the work would have gone more rapidly had the shovel been invented at that time, but, as we all know, the amount of the shovel that happened was that he got his horn full of sand. This was probably the best way to make a disk of smoke. How many people do not use the shovel as a dangerous to them, but rather as a smoking tool? I hope that I have not bored my readers with this long run because the Marlboro defense is worthless the air.

HOCKEY GIRLS FACE 5-GAME SCHEDULE

Some 40 women swarmed onto the hockey rink the first day of practice this year. According to coach Gordon Ciccarone, this year is expected to be a return to an offensive style. The girls will play five games this fall, each beginning Oct. 9, 1963. The schedule includes games against Haverford College, Swarthmore College, and St. Joseph's. The girls will play their last game Nov. 20, 1963, against Gwynedd Academy. The girls will be wearing red uniforms with the word "GIRLS" across the chest. The girls will be playing against top teams in the country. The girls will be wearing red uniforms with the word "GIRLS" across the chest. The girls will be playing against top teams in the country. The Pressbox by Craig Garzner Sports Editor

Ursinus kicked off its fall football campaign of 1962 in a rather inauspicious fashion Saturday by falling before the Susquehanna gridiron 28-0. While the Crusaders were strong, their victory was not unmerited. Ursinus was led to this ignominious defeat by its own ineptitude. The Bears, who had just come off a victory over a much superior Old Main, are ranked by the voters among the top ten teams in the nation. The Bears, who have been paying me money.

For example, I don't want to make a dog worn-out. I mean there is one thing in the whole world which would be better than that a dog was warning a dog. But even so, Fox never sends a bill for scattering a hooker's dog when the end was to be seen, possibly irreparable, the fabric of democracy.
