Ground Will Be Broken Second Semester
For UC's New Million Dollar Dining Hall

The million-dollar dining hall at Ursinus College, for which ground will be broken early next year, combines circular and segmented shapes in what the architects call a "floating ellipse," in an adaptation of colonial architecture to blend in well with other campus structures. Large segments of the exterior walls will be in clay to afford a view of the campus, while marble staircases will connect the exterior with the interior. The ceiling of the dining areas, bounded by movable partitions, will provide for smaller private groups as well as being available for use with the main area to give a total seating capacity of 1,600. The ground floor, most of which will be below ground level but two terraces, will house a 500-seat assembly room, offices for student publications and other organizations, and storage and utility rooms as well. It is hoped that the new building will be completed by the fall of 1964.

Construction of a million-dollar dining hall with a seating capacity of 1,000 was authorized by the Board of Managers of Ursinus College at their annual meeting on campus last Tuesday.

College President Heffter told the WEEKLY that ground-breaking for the building is planned for early in 1963, and it is hoped that the facility ready for use in the fall of 1964.

Dr. Harold Allerton, the architects, and Charles Schaeffer, landscape architect, member of the college faculty since 1949, is chairman of the Long-Term Planning Committee which recommended that construction proceed.

President Heffter reported that the college has a record enrollment of 806, including 547 full-time and 259 part-time students. The senior class has elected for the last year the college received an increase of 15 over the previous year; for the freshman class an increase of 46. The faculty numbers 64, including 21 professors, 21 associate professors, and 12 assistant professors.

After giving definitions of poetic devices, he said that the said concept is based upon the thought that poetry is, in fact, a language in itself or a combination of the poetic devices. The author of some of these may include the problem of poetry, the concept of poetry, and the function of poetry. The author of the latter book is a member of the English faculty, and the former book is a member of the English faculty. The latter book is a member of the English faculty.

HUNGARIAN PROF

Visits Campus

Dr. Nicholas Nyitray, a recent Hungarian professor at Bradley University and visiting professor at Ursinus campus October 31 and November 1, 1962, will deliver his public lecture at 11 a.m. in room 7 of Room.

At the lecture in Hungarian, Dr. Nyitray will discuss the political science course he is taking at this time, and his other interests. The lecture will be given in English to members of the political science class.

Dr. Nyitray, an English professor at Bradley University, is a specialist in political science.

In the absence of President McMillan, due to illness, Dr. Nyitray will address the students on the campus of Ursinus College, and the students on the campus of Ursinus College.

BOOK SALES

For those who have not returned their books to the library, "Surprise, It's '63" is the theme of the Senior Ball this year. To be held at Sunday, November 25, dinner will be held at 6:00 p.m. and the dance will begin at 7:30 p.m.

At the dinner, all seniors will be announced as crowned, and everyone will dance to the music of Lester Lanin's Orchestra, from 8:00 p.m. until 1:00 a.m.

Fall Play Terminated

President Heffter told the WEEKLY that fall play "Surprise, It's '63" will be terminated in January and June.

Special projects which will be manned by the fall play, and the fall play, will be announced in January and June.

Konic Discusses Teaching Devices

Last Tuesday, the members of the URCS heard an interesting and informative speech by Mr. Marcel Konic, president of the Bureau of Instruction Materials and Services of Pennsylvania. He spoke of the subject of teaching machines.

"A teaching machine is a machine designed to bring something back in memory," Dr. Konic said. "It is a machine designed to bring something back in memory."

Konic also spoke on the process of teaching. "It is important that the student learn what he has been taught," he said. "It is important that the student learn what he has been taught."
Miss O'Donnell, that the news coverage of the WEEKLY is complete, unbiased and interesting work. With the exception of Long's phenomenal organizational abilities and staff contacts are a never-ending source of amusement to us. We are unable to work with, informed-and above all, perhaps-most important of all—dependable as well as all get out.

We have no doubts that she is capable of staggering amount of work and responsibility that will fall the way under the RUBY co-editorship. It seems, then, that the class of '64 has made a wise decision.

A Critical Review of John Hersey’s Wartime Novel “A Bell for Adano”

Soccer Men Drop Season Finishes At Drexel, F & M

The Ursinus soccer team lost its final game this past week, both matches resulting in final scores of 2-1. Defeated by Mount St. Mary's 2-1, they were unable to keep up with the numbers of goals scored by the Retrievers. In the previous game, against F&M, the team was able to earn a point after falling behind 1-0 in the second half. The Retrievers scored twice in the second half, thus bringing the final score to 2-1. The Ursinus team faced a difficult game, with the Retrievers maintaining possession of the ball for most of the match. They were able to capitalize on weak spots in the defense and eventually scored the winning goal.

Football Season in Retrospect

By Bill Rutt

This year's football season has been a rollercoaster ride for the Drexel team. After starting strong with a 5-1 record, they faced a significant challenge against their arch-rivals, the Dragons. The Dragons capitalized on weak spots in the defense, scoring at 4:15 in the first half to secure an early lead. The Drexel team responded with a brilliant individual performance, showing great determination and resilience. However, they couldn't seem to find the winning formula, and the Dragons continued to score, ending the game with a 5-1 loss.

Walter Schilloff, a big gun for the Dragons, was instrumental in the Dragons' victory. Despite his efforts, the Drexel team fought hard and ultimately fell just short of securing a win. The match was a testament to the team's ability to fight back and remain resilient in the face of adversity.

October 5

21 Johns Hopkins 12

With the scoreline of 21-12, the Hopkins Blue Jays put in an outstanding performance. The Hopkins team was led by Karl Dersch, who scored two goals in the second half of the match. Although the Drexel team fought hard and showed great determination, they couldn't overcome the Blue Jays' superior performance. Despite the loss, the Drexel team demonstrated their resilience and showed that they are capable of competing at a high level.

October 5

12 Villanova 10

A stingy defense, which successfully held the Villanova team to just 10 points, was a key factor in securing a 12-10 victory for the Drexel team. The Drexel team's defense was impressive, successfully limiting the Villanova team's scoring opportunities. The team's focus on defense was evident, and they were able to capitalize on their opponents' mistakes, leading to a decisive win.

The Drexel team faced a challenging match against the Villanova team. Despite the Villanova team's efforts to score, the Drexel defense was strong and resilient, successfully thwarting their attempts. The match showcased the Drexel team's ability to fight back and remain focused on their goals.

October 13

12 Wilkes 11

A thrilling match between Drexel and Wilkes ended with a 12-11 victory for Drexel. The Drexel team started the game strongly, leading 7-5 at halftime. However, Wilkes came back in the second half, outscoring Drexel 6-1. Despite this comeback, the Drexel team managed to hold on and secure the win. The match was a testament to the team's ability to fight back and maintain their composure under pressure.

Robert G. McCurry, Ursinus' new wrestling coach, has made a strong impact on the team. Under his leadership, the Ursinus wrestling program has shown significant improvement. McCurry's coaching style is characterized by a strong focus on teamwork and discipline, which has helped boost the team's morale and performance.

In the early 1960s, the Ursinus wrestling team was led by John Kratz, who had an outstanding career as a wrestler and coach. Kratz was well-respected for his coaching skills and his dedication to the sport. He led the team to many successes, including conference championships and national titles.

The Ursinus wrestling program continues to thrive under McCurry's guidance. The team has shown remarkable improvement in recent years, with several key victories and strong performances at the conference and national levels.

COMMITTEES:

AN AGONIZING RE-APPRAISAL

To those of you who stay out of your student government because you believe the committee system is just an excuse for more paperwork, more bureaucracy, more jobs for your friends, and less for your education, your jobs are easily excused. There is room for improvement in the committee system, but it is not as bad as it seems. The committees that have been created are not meant to be a burden, but a tool to help you succeed.

Once you start attending committee meetings and become involved, you will see how much they can benefit you. The committees provide a platform for you to express your ideas, engage in discussions, and contribute to the decision-making process. By participating in committees, you can gain valuable skills and experiences that will benefit you in the future.

There are numerous committees within the student government, each serving a specific purpose. They range from academic committees to extracurricular committees, and each plays a crucial role in the functioning of the student government.

In conclusion, the committee system may seem overwhelming at first, but with time and effort, you will come to appreciate how it can benefit you. So, if you're thinking of skipping committee meetings, think again. There is a lot to gain by getting involved and participating in the committee system.
Travel Seminar . . .

The Corn and the Tomato seminar, again
commanded with the gleaming mustard seeds and the
fruits of the earth, it will begin again from the days of Judaism in the
Field of the Old Testament.

Then to Rome

The city of Rome, the capital of the Roman
Empire, will be the next stop on our tour. It is
a city full of history and culture, where we will
take in the sights and sounds of ancient Rome.

The tour will include visits to the Colosseum,
the Roman Forum, the Pantheon, and the
Vatican City. We will also have the opportunity
to see the famous Vatican Museums and the
Sistine Chapel.

The tour will conclude with a visit to the
Tibetan Monastery and the Buda Statues,
where we will learn about the unique
beliefs and practices of this ancient culture.

The tour will be led by a knowledgeable
guide who will provide insights into the
history and culture of Rome.

Looking forward to this amazing experience!
