Dearest Editor,

On behalf of the Campus Weekly, and on behalf of your loyal staff, we extend a hearty thank you to the administration, the maintenance crew, and the entire student body who connected with Alfred Willems during his tenure here at Ursinus. Alfred Willems was a true example of what it means to be a student at Ursinus College. He was a mentor, a role model, and a true friend to those who were fortunate enough to know him.

The fact that we exceeded our goals for the 1969-70 Academic year is quite contrary to the situation that existed at the time of the pseudo-intellectuals. It was clear that this was not a phenomenon that had been overlooked or ignored by us. We were naive enough to think that intellectual pursuits, and the pseudo-intellectuals, were not something that we needed to be concerned with. We assumed that intellectual pursuits were something that we could afford to ignore.

When I was graduated from college many of my classmates were receiving degrees in such fields as philosophy, political science, and economics. This was a time when the serious-mindedness of intellectual pursuits, and the pseudo-intellectuals, were becoming more apparent. It was a time when we were beginning to realize that intellectual pursuits, and the pseudo-intellectuals, were not something that we could afford to ignore.

For those of us who are uninitiated, and know very little about these things, it is important to realize that intellectual pursuits, and the pseudo-intellectuals, are not something that we can afford to ignore. It is important to realize that intellectual pursuits, and the pseudo-intellectuals, are not something that we can afford to ignore.

As far as I know, Dr. Robert E. Noland has written an excellent book on this subject. It is a book that I would recommend to anyone who is interested in intellectual pursuits, and the pseudo-intellectuals.

Respectfully yours,

Dean Terri L. McGeoch

A Tribute

The meaning of death is understood by few of us, even those who have been closely affected by it. There is always a death in part of someone who is near to our friends and relatives. This is a time of great sadness and sorrow. There is a sense of loss that is felt throughout the community.

John Grace did an excellent job. He was a most productive and creative faculty member. He was a true scholar, and a true friend to many of us. He was a true model of dedication and service, always working towards the betterment of the institution he called his home.

Dear Reader,

In the last issue of the Campus Weekly, we discussed the importance of intellectual pursuits, and the pseudo-intellectuals. Knock at Any Dorm

By Richard F. Levine

Ask any Ursinus girl what she thinks of the local fraternity scene, and you will find an abundance of those who are in favor of the fraternity system. The girl usually has one very strong objection to the current fraternity system: the cost. Fraternity membership is usually about $250.12 per year, and the annual dues may vary from fraternity to fraternity. Many girls are very dissatisfied with the way the money is spent. They claim that the majority of the money goes to the fraternity’s social activities, while very little goes to the academic activities of the fraternity.

Dear Editor,

I have been a member of the fraternity for two years and I think that it is very important to be an active member of the community. I believe that this is the responsibility of every member of the fraternity. Our fraternity has a strong connection with the community, and we work hard to make a difference.

Respectfully,
