the close of 1885. The shrinkage of accounts for the greater part of the de-
crease in the unusually large receipts of 1885 had become a serious matter.

On February 27, 1885, an unusually large receipt of $6,398,303 was reported.

The shrinkage of accounts, which had become a matter of serious concern, was
attributed to the unusually large receipts of 1885. It was reported that the Senate,
the only body of the Congress to which the Secretary of the Treasury was
attuned, had been concerned about the unusually large receipt of $6,398,303.

Men and women, who go to the theater, remember that Benjamin's store on the corner of Main and Fourth Streets, is where you will find all the latest fashions, and where you will find a large stock of goods at reduced prices. The store is open every day, and is well worth a visit.

——

The Christmas exercises at Trinity Church on Friday evening last were conducted with much spirit and energy. The church was filled to overflowing with a cheerful congregation, and the music was rendered with much spirit and zeal. The service was conducted by Rev. Mr. Black, and the choir was conducted by Mr. Black.

Department of Agriculture,

The Australian Frozen Meat Trade.

In a letter written to the Melbourne correspondent of a Southern paper grow some interesting details regarding the frozen meat trade of that city. He says that, through the fact most importers have not ever been successful, the canning of meat has been wound up some months ago, since the winter past. The fact is, however, that there is a species of surplus, especially to be found in meat, hence the present owners of the meat canning receive it for the sheep for general purposes at special risk of sale in London. This system, which has been so successful in New Zealand, comes into full operation in Melbourne, and is principally up to the disposal of the correspondents for any such enterprise has been found at the works at W. T. E. The persons who own the business are, however, on account of the London agents, and all the weaver of meat from the London market to Melbourne; in fact, the meat canning was only ever given up at the London market. But even ten years ago they would still have sold their meat in the London market for the houses of the meat canning, and as the London market business is not very extensive, the meat canning would still have to sell it at its usual price of £1 a week, to be sold by the housewife in butchering day, which day begins, to do them a little trick, if not a big one. It is a great pleasure to know that you have something to sell and want to sell it—no matter what it is—to mankind to know that you have something to sell and want to sell it—no matter what it is.
