The secret of happiness is not in doing what one likes, but in liking what one does.
—James M. Barrie

Honors Pilot Program a Success

by Erin Gambeski of the Grizzly

This semester provided a new opportunity for students doing independent honors research to come together and discuss their projects and the nature of scholarship and research. The Honors Pilot Program, coordinated by Dr. Dawley, Dr. Kelley, and Dr. Stern, brought seniors studying the humanities, social sciences, and physical sciences together to discuss such topics as discovery, meaning, and access in a common hour. The project featured weekly discussions which were casual and allowed students and professors the opportunity to exchange ideas without the restrictions of a regular class.

Group discussions were focused around texts chosen previously by the program coordinators from each area. These included Thomas S. Kuhn’s The Structure of Scientific Revolutions, John Berger’s Ways of Seeing, and a collection of social science essays. Each addressed topics from different disciplines, but discussion of the texts always included ideas from students in all subjects. Dr. Kelley was very pleased that the program was so successful and enjoyable and stated, “This is one of the most interesting experiences I’ve had at Ursinus.” Dr. Dawley agreed and stated, “By far, the high point of the semester.”

As a participant in this program, I found that the most interesting aspect was discussing topics from the viewpoint of different disciplines. The group consisted primarily of math, chemistry, biology, and English majors and the differences between the views and methods of the scientists and the humanities students was often an interesting point of discussion. Kristen Sabol, an English major in the group, stated, “I think it’s a positive attempt on the campus to let really motivated students from each discipline understand each other. It seems like, in the past, there wasn’t much respect between the people from different majors who were doing research. This project was really good in the sense that it helps you understand each other’s project and research in general. I think this should be applied to the campus as a whole rather than just honors students.”

The success of the Honors Pilot Program ensures that such opportunities will be available for students pursuing honors research in the years to come.

Who’s Using Up Your Fifteen Minutes of Fame?

by Erin Gambeski and Trish Daily of The Grizzly

As some of you know we are both seniors. As the end of the semester nears, we are feeling the pressure of attaining successful jobs closing in on us. Since the Roving Reporter doesn’t pay well (or at all) and the rest of the job market is pretty bleak, we thought we’d explore alternative career options. We are presently investigating celebrity impersonator positions in Las Vegas. We plan to take the following list of Ursinians who have a remarkable resemblance to the rich and famous with us on our Nevada tour. Feel free to contact us to reserve your seat on the bus if you can add to this portfolio.

Robin, as in Batman.
—Tim Ryan, Senior

“I’ve got a long list: Dave Matthews, Jim Carey, Michael J. Fox, somebody’s cousin, an ex-boyfriend, I mean...”
—Mark James, Catering

“John Travolta. It’s the chin.”
—Chris Storti, Senior

“I get mistaken for Anna Marie D’Alliesio all the time. I don’t think there’s a lot of girls with curly, dark hair on campus.”
—Caitlin Sigler, Freshman

“I’ve been told I resemble Patty Hearst. You’ll have to look her up.”
—Dr. O’Neill, Economics

“MC Search, Prince, and Chris O’Donnell (Robin).”
—Aaron Powers, Sophomore

“People have told me that I look like Forrest Gump.”
—Mike Huffman, Junior

“We should all go to Vegas as a group, stated, “I’ve got a long list: Dave Matthews, Jim Carey, Michael J. Fox, somebody’s cousin, an ex-boyfriend, I mean...”
—Mark James, Catering

“People say I look like Tia Carrera.”
—Hera Walker, Junior

“When Scott Winot isn’t starring in Ron Jeremy films or trying to be George Forman by beating on Trappe bouncers, he looks like Big Byrd.”
—Buddy “Billy” Stephanie, Sophomore

“People tell me I look like the dog from How the Grinch Stole Christmas.”
—Jared Rakes, Junior

“I don’t think so, but people say I look like Nancy Kerrigan without the buck teeth.”
—Cristin Veit, Junior

“George Zeppos tells me I look like Vern, Chunk, John Candy.”
—Jared Rakes, Junior

Pass-Fail Forum Set for Dec. 4

by Taneille Smith of the Grizzly

The committee seeking information on the possibility of Ursinus offering a pass-fail option to students in the future has established December 4th’s common hour (12:30-1:30) as a time when students and faculty can attain a better sense of what the option would entail. Sitting on the committee are, Tina Walgum, committee chair, Margot Kelley, Steve Hood, Barbara Boris, and Mary Fields. The committee is not responsible for deciding whether or not Ursinus will adopt the pass-fail option; they are strictly a fact-finding committee. According to Margot Kelley, “There is no set answer that we’re trying to push for.”

A few weeks ago, many teachers and students answered a survey regarding their opinion of the pass-fail option. Here are the faculty results: Out of the 22 faculty members, 7 humanities professors said yes to having the option and 1 was undecided; only 1 social science professor responded, answering yes; 12 science teachers responded favorably; and one professor whose field is unknown answered yes, which brings the total to 21 in favor, none against, and 1 undecided. Student survey results are as follows: out of 40 humanities majors 18 said yes, 6 said no, and 16 were undecided;

-continued on page two as “Pass-Fail”

In The News...

by Teresa Green

INTERNATIONAL

The Clinton Administration announced that they were cutting back on their plans to send over 4,000 troops to Central Africa because of the positive events surrounding the return of Rwandan refugees. The U.S. is now planning to send only 1,000 troops to Central Africa.

President Clinton visited Australia for four and a half days.

The government, trade, military cooperation, and the environment were discussed.

Romanians elected Emil Constantinescu as President. Some officials were surprised but the newly elected President said that he was not, especially considering the mounds of letters he received during his campaign from civilians complaining about corruption in the government.

A video-tape taken by an amateur captured two Israeli border policemen beating and kicking Palestinians near a checkpoint. Both policemen were arrested and denounced as unfit to serve in the security forces.

NATIONAL

The C.I.A. has discovered, while investigating the damage done by Harold J. Nicholson, a career officer who sold secrets to the Russians, that the Russians probably know every agent that has gone through its spy school in the last three years, as well as the techniques they were taught.

After the former Texaco executive who recorded senior company officials belittling minority groups was charged with obstruction of justice, Texaco officials settled the lawsuit filed against them.

A committee of health experts has reported that the U.S. has the highest rate of STD’s of any developed nation. They also said that the U.S. needs to organize an effective national system to help beat this epidemic.

A fire expert for the National Transportation Safety Board testified, at a hearing of the Valujet Flight 592 crash of May 11th, that the fire which caused the crash may have exceeded 3,000 degrees Fahrenheit, hot enough to burn stainless steel. The expert also said that this fire tragedy is the worst he has ever seen.

(Information taken from The New York Times)
"Pass-Fail" cont. from page 1

out of 57 social science majors 32 said yes, 11 said no, and 14 were undecided; out of 82 science majors surveyed 49 said yes, 19 said no, and 14 were undecided; out of 57 social science majors 32 said yes, 11 said no, and 14 were undecided; out of 15 unknown majors 6 said yes, 6 said no, and 3 were undecided, which brings the total to 110 students in favor of the option, 42 not in favor, and 49 who are unsure.

Supporters of the option claim that it will give students who wish to take certain classes, but are reluctant to do so because they fear that even a B- grade would dramatically affect their GPA, an incentive to broaden their intellectual horizons. Those not in favor of the proposal fear that it would establish two tiers in a classroom: those who are working hard for a good grade and participating and those who are taking the class under the pass-fail option and may not take it seriously. In other words, it has the potential to encourage slacking in some students.

As for the number of pass-fail classes a student could take, the decision has not been rendered. However, the survey limit was that students would be allowed a maximum of 1 pass-fail course per semester. Although more than 50% of people surveyed wish to see a pass-fail option introduced, clearly there is a sufficient amount of confusion to warrant a question and answer type forum. If you have any concerns, it is imperative that you attend this forum because it will be your chance to vocalize your opinion. If you have any questions, do not hesitate to get in touch with any of the committee members mentioned.

"Roving Reporter" cont. from page 1

Chris Farley... basically anyone who is overweight, [male], and makes him laugh. I, personally, think of myself more along the lines of Brad Pitt.
— Casey Fosbenner, Senior

"I've heard two: Julie from the Real World and Anna DuVane from General Hospital. I don't see the resemblance of either."
— Deidre O'Donnell, Sophomore

"There's a student who doesn't look like her but has the same name: Jessica Lang(e)."
— Mark James, Caterboy

"Michael Madson."
— Chris Daniel, Junior

"I look like myself."
— Patti McGinty, Junior

"I've been told I look like Meg Ryan, but I don't believe it."
— Monica Jushechshyn, Junior

"I've heard I look like the young Superman."
— Coach Guenther, Football

"People have told me I look like a young George Peppard (Hanibal Smith from The 'A-Team'). I'm not sure what are your thoughts on our football team. Coach? "I love it when a plan comes together."
— Coach Gilbert, Head Football Coach

"Powell=Spurio, Spurio=Powell."
— Coaches Gilbert and Guenther

"When I was in the seventh grade people told me I looked like Punky Brewster."
— Megan Brown, Junior

"John DuPont, Charlie Brown, Mr. Burns from The Simpsons, Barry Manilow and Tupac Shakur."
— Super Dave, Senior

"Robert Vaughn from The Man from UNCLE, a 1960's program."
— Dr. Barney Lentz, Economics

"Denzel Washington."
— Ron Floyd, Senior

"Jane from A Bronx Tale and Angela Bassett."
— Marshal Lee Clarke, Freshman

Laura Owens looks like Ellen Barkin and Chef William looks like Tommy Lee Jones.
— Mark James, dyeing to see his name in this column

"Harrison Ford."
— Orie Kristel, Senior

"People have told me that I look like Dean Cain from Superman."
— Kevin McGovern, Sophomore

"I look like Chief Clancy Wiggums."
— Mike Fabrizio, Junior

"Grease Lightning, when I am wearing my leather. Nickle looks like Hugh Grant."
— Mike DiGiantomasso, Sophomore

"People say I look like my mom."
— Hang Ho, Junior

"People say I look like Hang Ho."
— Ravi Chankshi, Sophomore

"Brad Getz used to tell me Jorge Don Juan DeMarco, when I had long hair and a 'goatee'. I also get Flash Gordon, quarter back for the New York Jets."
— George Zeppos, Senior

What About Easter?

by Teresa Green
of The Grizzly

As I was looking over the schedule for next semester, I was once again reminded that there is no Easter Break. But as I looked at the other breaks we had, I began to wonder why we are being denied this break.

I am a Christian and my family celebrates Good Friday and Easter. I know that many of the other students on campus do so also. Last year when the decision to eliminate Easter Break was announced, students asked what they were supposed to do, and were told that they were allowed to miss class for a religious holiday. In addition, I heard numerous teachers saying that they were just going to cancel Easter Break, this break was often a time of “catching up” and getting ready for exams. Not too many people (students) are thrilled with the idea of having to spend up to five weeks with their families, cooped up in their house because it snowed too much to get out. And not too many parents are thrilled with the idea of having to bring their children back on a Tuesday afternoon, instead of a Saturday or Sunday afternoon.

I realize that Easter is very close to Spring Break this year. But I do not believe that this is a valid excuse for eliminating the break altogether, especially from a school that was originally based on a “Christian” or “spiritual” background.

I guess what I am basically wondering is this: what would the students of this institution have to do to be allowed to have their Easter Break back?

Jesus Is Dead?

To the Editor:

After reading Miss Daley’s article in The Grizzly last Tuesday, I felt the need to respond. I saw that there was one question that strikes at the heart of Christianity. The question was, “How can He [Jesus] be inside of me if He is dead and I am living?” This is about the crux of Christianity because “if Christ is not risen, your faith is futile; you are still in your sins” (1 Corinthians 15:17,19).

The answer to the question is He cannot. Jesus cannot be inside of you if He is dead. However, the question is not valid because Jesus is not dead -- HE IS ALIVE! How do I know? I know Jesus is alive because of the impact He has had on my life; I believe that Jesus was raised from the dead because that is what the Bible says. Not only do I believe Jesus is alive because of these reasons, but it is the most logical reason for Jesus’ empty tomb early that Sunday morning. I am going to mention some common theories explaining the empty tomb, and then show why I think Jesus being alive makes much more sense.

The first theory is that Jesus just went into a sown, that He did not actually die. However, the people who buried Him judged that He was dead, and so did the soldiers, and they should know. If Jesus had only revived from a swoon, how could He give the impression of being dead, and so did the soldiers, and they should know. If Jesus had only revived from a swoon, how could He give the impression of being dead, and so did the soldiers, and they should know.

Another theory is that someone stole the body. After Jesus’ death, the disciples were hiding in a room in Jerusalem -- how would they get the courage and strength to fight a Roman guard and steal the body? If the soldiers were sleeping when the disciples came, how did they know it was the disciples? Most importantly, the disciples had radically changed lives, and they died because of their testimony about Jesus. Would you be crucified for a lie? If the Jewish leaders took the body, they would have shown everyone the body when Christianity started to grow. The Romans would not take the body because that would just cause them more trouble in Jerusalem. Some also think that the sightings of Jesus were hallucinations. The same hallucination is not seen by many people (Jesus was), hallucinations are restricted in time and place (the sightings of Jesus were not), people who are anticipating something hallucinate about it (the disciples were not anticipating Jesus coming back from the dead), and hallucinations occur over a long period of time (the sightings of Jesus abruptly stopped fifty days after He rose from the dead). Moreover, this still does not explain the empty tomb.

Finally, some others argue that the women and then everyone else went to the wrong tomb. The women had been at the tomb less than 72 hours earlier -- do you think they would forget where He was buried? The Jewish leaders would not have posted the guard at the wrong tomb, and even if they had, they would have searched for the right tomb until they found it to keep the disciples quiet. Even if they did go to the wrong tomb, Joseph of Arimathea, the owner who buried Jesus there, would know where his tomb was.

There are other theories, but they can be answered in much the same way as these theories have been answered. If you are determined to believe that Jesus is not alive, nothing I can say will change your mind. Christianity is based on the risen Jesus Christ, and that is why I have put my trust, imperfect as it is, in Him and given control of my life to Him. If you have any questions about this article or anything else, email me or give me a call at x3183. I cannot guarantee an answer, but I would love to talk to you.

Sincerely,
Benjamin Baehr

Letters From Ireland
by Caroline Kurtz of The Grizzly
Here I am once again in the computer lab, writing to you about my trials and tribulations while wandering the Emerald City...I mean Isle. Sorry, I happened to have watched an Irish version of the Wizard of Oz last night. You ain't seen nothing until you've seen green flying monkeys and munchkins with Irish accents!! Scary!!
This time I think that I will explore a very serious subject. Thanksgiving. As you are all well educated individuals, you know that the only country to celebrate the American version of Thanksgiving as a national holiday would be, that's right you guessed it, America. I am currently friends with 14 Americans over here. Because of this, I decided to have a Thanksgiving pot luck dinner. Great idea, you say? Well it was until I told my flatmates about it. Now a simple little dinner party has turned into the holiday from hell.
You see, the Irish don't have a holiday even remotely close to the Thanksgiving ideology of eating yourself into a coma while watching 35 different football games all named after some sort of bowl (Sugar Bowl, Rose Bowl, Toilet Bowl—I know, old joke). Well, when explaining this holiday to my flatmates and their friends an idea began to form in their minds. Why not just make this one giant party where we can eat free food and trash Americans? So my guest list of 14 has shot up to 26. Being the nice alcoholics that my flatmates are, they offered to supply alcohol...for themselves.
So the moral of this story is that even if you do study abroad you can celebrate the holiday in the way it was intended to be celebrated: arguing with those that you live with, while cooking enough food to feed the seventh fleet for a year.
One more little tip for those who want to study abroad. Make sure your parents don't move while you are gone. Mine are. They have threatened to not tell me where they are going. They have also told me that they are downsizing my things. This means everything I own is going into the garbage. So take my advice and call at unexpected times to see if your family really is still there. The junk you save may be your own.
Next installment is my last. I look forward to seeing everyone when I get back.

Opinions
by Todd Brenneman of The Grizzly
Well, my friend has been insulted. It's a shame. However, he's used to it. He does the same thing every time it happens. He bleeds. (Let's see Buddha do that—just kidding.)
It truly is a shame, though, that some people view religion as a series of do's and don'ts. Some people miss the point. Of course, some people like wasting their time waiting for trees to talk and asking people about waking up in strange places. But hey, we're all professional thinkers here.
However, I'm not offended. After reading last week's article 80 times, I think I finally understand it. The problem is, in my humble opinion, that some people write about things they do not know about. I have been somewhat guilty of this in my past. (Not in the Grizzly of course.) It is easy to criticize Christianity, if all you know about it is that it is a series of rules that seem contradictory (they're not, thank you).
But since it is that time of year, I thought I would write about some things for which I am thankful. I'm thankful for my friends, as I said before. The whole thing is overwhelming to me. The Supreme Being of the universe cared so much for me and you that He came to this silly little planet. The Creator visited the creation, and what did they do? Do you know or care? They beat Him, mocked Him, taunted Him, slapped Him, humiliated Him, and if that wasn't enough, they killed Him. To my knowledge no other religion lays claim to something like that. My God came down and bled before I even knew or cared. In my Problem of Hell class, it is often mentioned that

Some people like wasting their time waiting for trees to talk and asking people about waking up in strange places.

Thanksgiving

by Mike Podgorski of The Grizzly
You have probably already heard about how we live in a disposable society. Not that the people are necessarily disposable, not all of them at least, but that we throw away everything. So what? There are now recycling programs that take care of all our unwanted glass, plastic, and paper. So where does Ursinus fit into all this?
Over the three years that I have been here, it seems that recycling has become less and less of a concern of the college. Occasionally you see a recycling container, but not very many and not very often. So there is an inadequate number of places to put your recyclables, and people will put their recyclables in trash cans because it is more convienent. At least some recyclables will be saved. At least I thought this was true. I mean, people do come around to collect recyclables.
Right outside my house on campus, the recyclables are put into huge containers marked "recyclables" next to the trash dumpster. Then, the trash men come and once they are done loading the dumpster, they dump the huge containers of recyclables into the trash. This struck me as odd the first time I saw it happen. Someone told me that they sort it out when they get to wherever they are going. But I don't think this is true because they usually just go to the next dumpster and load that one. So, I'm guessing the unofficial policy of the college is that recyclables are trash.
I think it is safe to say we've all seen that huge container of cans behind Wismer before, and that is good if they are getting recycled, but I really have to question the college's motives for recycling cans. Aluminum cans are worth about seventy cents per pound. I suppose I can conclude that money and not concern for our environment is the motivation for recycling here. I really don't understand how this can be. There are about twelve hundred full time students living on this campus besides about eleven hundred evening students and the college does not recycle. That is really quite a lot of people and also a lot of recyclable material that gets thrown in the trash. This is unacceptable. I don't see how the college can be so irresponsible to an area that should garner so much concern. This isn't a big secret either. I know students and professors who take their recyclables home because they are aware of this fact. I commend them but I don't think it should be their responsibility. It is the college's responsibility. They should have a legitimate program for recycling. There really is no explanation or excuse for this.

To the Editor:

Before I begin, I must first say that this commentary is directed to the ignorant percentage of the majority. This needs to be done because I do not feel that one speaks for all.

Last week when I read the overwhelming response to Marsha’s article, I was not surprised in the least bit. In fact, the writers of these articles made my opinions stronger about the racial minorities. Yes, I used the words racial and problem in the same sentence. I did this because we are all adults now and need to stop using avoiding our problems.

Now that I have your attention, let us analyze the responses to the article. I will first begin with “It’s All In Your Head.” The title alone should tell any enlightened individual that something is definitely wrong!! I understand that it is hard to relate to things that you have not experienced. This is definitely the case with discrimination. However, I find it hard to believe that anyone could have lived this long and not felt discrimination’s effects, regardless of his/her cultural background. Let us move on to the matter at hand. The authors of this article felt appalled. Well, I’m glad that they are appalled, but they should not be appalled that she wrote this article; they should be appalled that she felt the need to write this article. The main points of their paper happen to be the most ignorant aspects of it. “One does not become an outsider merely because of his or her race, religion, sexual preference, or other such characteristics.” How can anyone in their right minds make such a statement? The quote, “one who is ignorant of history is doomed to repeat it” kept popping into my head.

Let me apologize for the views that will come out in my article. I am a woman who comes from a black and Jewish background; so it’s easier for me to write about the problems that affect those groups in society. In a perfect world, a person would never be judged on race, religion, or gender. We do not live in a perfect world and we need only look at recent history to see that. I know history is not a strong point for some students here, so I’ll do a quick recap.

A) Did you know that Jews were not make me any less of a leader or not, I did not understand. This needs to be said authors of this article felt appalled, but they should not in this country? The author also stated that he “found her attitude...” very dangerous it leads to that “I am an outsider attitude”. This was one of the most annoying points of this article. The very fact that she noticed it is saying it bothers her and she wants to do something about it. To elaborate a bit more, let’s look at this little scenario: if you are sitting on a cactus and the thorns are pricking your butt, do you ignore it or do think of a way to stop the pain? We all know the answer. You do something about it. The last quote that I will cover from this article is attitude”. Why is it she has to have an “attitude” just because she is speaking her opinion? Just because you don’t see it, or you’re not affected by it, does not mean it does not exist.

The only comment that I have on the article “An Insider Throwing out a Line,” is that the writer obviously did not understand Marsha’s article. Had he understood the article, he would not have written the following phrase: “decide who you are, the image you want to portray, and how to assume leadership roles here at Ursinus to convey that image”.

Wake up! It’s not about knowing who you are, it’s about who you are. Leader or not, “some” people will still view you differently because of your ethnic background.

In closing, I’d like to say that Marsha and I come from a part of the country where people mix better and are more aware of each others’ backgrounds. I know that not everyone has had that privilege, and I feel truly sad because it is one of the life experiences that I would not trade for the world. I highly recommend that everyone at this campus take full advantage of the opportunity to learn about different cultures. It doesn’t take much energy, and it is a gift that will last you a lifetime.

To Boldly Review... Brian Boasts

by Brian Hamrick

Stuck in a Time Warp

Crowds fascinate me. Crowds work in very weird ways, and if you have some clue as to how crowds work then you can totally have your way with them. Push through, shove, tell people to get out of your way, do whatever you want, just look like you know what you’re doing. If you look like you know what you’re doing then people will assume you do know what you’re doing, and they’ll stay out of your way.

That’s how a bunch of my friends and I fought our way through the lobby to get in line to see Star Trek: First Contact. Now before you continue reading this article, take a moment and spit out all the clichés, catchphrases, Saturday Night Live jokes, parodies, and satires on Star Trek. Do this now, otherwise, it will cloud this entire review. Now take a deep breath and continue.

It was a really good movie! Now, I’m not a die-hard Star Trek fan, but I have seen the other movies, and this was probably the best one made. Personally, I really liked The Wrath of Kohn, but overall First Contact was much better. I’m going to talk about the problems first, after I give a little plot synopsis, and then heap mounds of praise on it.

In the future, on board their brand new Enterprise E, the crew, with all your favorites, Picard, Data, Troi, LaForge and the gang, are sent to patrol the Neutral Zone while the Borg attack Earth. Star Fleet Command doesn’t want Picard there because he was taken over by the Borg six years ago, and they consider him a risk. However, the Borg kick serious ass, and Picard flies the Enterprise to help. The Enterprise and other Star Fleet ships blast the hell out of the Borg cube, but before it blows up a smaller ship flies out of the cube and goes back in time. They try to disrupt Earth’s first contact with an alien race, and enslave the Earth that way. So a bunch of the crew (Riker, Troi, LaForge) head down to Earth to make sure they make first contact, while a group stays on the Enterprise. Unbeknownst to everyone the Borg begin to take over the Enterprise. So you have two separate plots going on, and because their radio doesn’t work, the other group has no idea what’s going on.

It deals with “a temporal anomaly”, or time warp. Gee, I’ve never heard about something like this before. A time warp, you say? Not like in Star Trek W, not like in about a dozen of the TV shows, not like when the writers can’t think of anything new. Now, actually, it does work very well in this movie, but the premise is so overused I wish they could think of something new.

Also, it is studded with inside Star Trek jokes, with recurring characters from the TV show, like Reg, and that holographic doctor who can heal the ship’s malfunctions. It plays to this, and a few of the lines are overly melodramatic. You know, things like “Let’s rock and roll!”, and “It ends here!”. It seems like in the last few years script-writers have just given up on writing new lines to introduce the climaxes of the movie. How many times have you heard “Let’s finish this.” I don’t blame the actors, because occasionally they can pull off these really cheesy lines. I blame the script-writers.

Now that I’ve wrecked the script-writers, I’m going to praise them. Several times in the movie they completely fooled me with a plot twist. It was really clever how they did it too. I’m about to give away a bit of the plot, so if you want to be surprised skip to the end of the paragraph. When the Borg are on the Enterprise all the crew wants to blow up the Enterprise so the Borg are destroyed. Picard rants and raves, saying no, not while it’s my ship, stuff like that. They throw in an obvious Moby Dick reference about revenge and destroying your ship, and so Picard let’s them blow up the ship. The script-writers have made you fight to believe the ship will be destroyed, and then something happens and its not. It was great.

There is also a lot of good character development. Data becomes more human, and even has real skin for a short time. The Borg queen was excellent, both in costume and character. Troi gets completely trashed on tequila, and that’s always a refreshing thing to see. LaForge has new eyes, and that’s pretty cool. Everyone had some new facelift, and for the most part it worked really well.

Overall, I’ll give it a 7.5 out of 10. A 7 would be too low, but it isn’t quite an 8. It was really entertaining and easy to follow, even if you don’t know a lot about Star Trek. You’ll miss some of the inside jokes, but who cares? It’s a really solid, cohesive movie. Oh my God, I completely forgot the other thing that made it really great. The special effects, especially the miniature effects, were fantastic. Shots of the crew walking on the ship, and realizing how large the ship is next to them, were incredible. The opening shot was very Sam Raimi (director of The Evil Dead, The Quick and the Dead, with a shot from Picard’s eye to twelve miles back to encompass the entire Borg ship. Wow.

OK, really, that’s all I’m going to say. I recommend it, especially in a really loud theater. Music and movies should be played loud, and it increases the enjoyment when it is.

**What’s Up In Wellness**

Be Your Absolute Best

by Cristin Veit
of The Grizzly

As we quickly approach the end of the semester and finals, most of us are a little tired and worn out from all of the work we have had to complete this semester. Most of us could probably use some type of “boost.” Well, we all know that phrase, “you are what you eat.” Food can affects both mental and emotional health because of its effects on brain chemistry. The most powerful means we have of achieving an ideal balance of neurotransmitters is through food. Neurotransmitters are the chemical messengers that govern how we feel, think, and act. By watching what one eats and when it is eaten, anyone can become mentally geared for any situation.

There are four neurotransmitters that are easily influenced by food intake. The first one is dopamine. It speeds nerve impulses in the brain, increasing awareness. Its levels can be boosted with high protein. The second one is serotonin, which relaxes the central nervous system. Relaxation of the CNS, which increases self-confidence and stamina, is achieved with an increased amount of carbohydrates in the diet. The third is norepinephrine which activates the “fight or flight” response. By eating food with high proteins like meat or legumes, this one can enhance motivation. The fourth neurotransmitter is acetylcholine. It is associated with memory and smooth muscle movement, and it acts as a complement to the others. Eat soybeans and eggs to boost this one.

The following situations can be improved by watching one’s diet:

1. **Nervous about an important exam first thing in the morning.** For this situation, one will need the right balance of dopamine (to stay focused), norepinephrine (to clearly express oneself), and serotonin (to curb anxiety and boost confidence). Start by planning the night before with complex carbohydrates as a late-night snack; try popcorn or a rice cake. That will help the serotonin levels and allow for a good night’s sleep. In the morning, eat a bagel for more carbohydrates, and have a cup of coffee or soda for an extra jolt. The caffeine will boost the dopamine and norepinephrine.

2. **Too much work and you feel like you will snap.** When a person feels like he or she is going to lose his or her cool, the person is most likely having a dopamine overload. This happens when one becomes aggravated. In order to regain composure, one must increase the serotonin level in the brain. Therefore, try having something like an English muffin with jelly. However, do not use cream cheese or butter because the fat in those will increase the dopamine level once again and counteract what the serotonin accomplishes.

3. **It’s 2PM, class is boring, and your brain is drained…you have NO energy!** When this occurs, the dopamine, norepinephrine, and serotonin levels have been zapped. In order to prevent this mid-afternoon slump, it is important to eat a well-balanced lunch. Try having chicken or tuna on a whole-grain roll with veggies or fruit as an extra. The protein from the meat will raise the dopamine and norepinephrine levels to make you stay alert & aware, and stimulate muscle activity. The carbohydrates in the roll will help keep a constant serotonin level going, which will prevent a mid-afternoon craving.

4. **It’s the third night this week that you can’t fall asleep.** In order to have a good night’s sleep, one must boost the serotonin level. Do this by eliminating caffeine and meat or dairy products after 3 p.m. Eat pasta at dinner in order to raise the serotonin levels for the evening. Just before bed, it is a good idea to try popcorn or a roll as a snack, as well as warm milk in order to really increase the serotonin levels.

Although most people will not change their diet forever according to some of these hints, it may be a good idea to try some of these suggestions for special occasions. For example, the night before a big final exam might be a good time to try and get a good night’s sleep, so raise those serotonin levels and try to be relaxed! Also, dopamine is a good one to improve on in order to stay alert and aware and keep on studying as we near the end of the semester. Hopefully, these ideas can come in handy when it gets down to “crunch time,” and good luck with the rest of the semester.

---

**A Long Way From Bedlam**

The treatment of mental illness has always plagued society. This dilemma manifests itself everywhere we see the homeless wandering the streets and know they need psychiatric help. Even the rich and powerful Duponts fell victim to a system that gives the sick individual the power to say whether he is insane or not. However, no matter how the system works, it has come a long way from Mary of Bethlehem Hospital of the Insane aka Bedlam. The master of thrill and chills, Boris Karloff plays Master Sims, the sadistic headmaster of an English asylum, in Bedlam. Master Sims tortures and mistreats the inmates, exploiting their sickness for the entertainment of the aristocracy. When Neil Rowen, played by Anna Lee, tries to change the conditions within the asylum, she becomes an inmate. Wait until you see what happens to her! Freaky. Karloff in the end.

De Havilland is a mentally disturbed woman institutionalized by her husband, who desperately wishes to see her well. In this film we see the depressing and overcrowded conditions present during the mid 1900’s. The director presents us with dynamic characters with whom we can empathize. There is a beautiful scene where the inmates, at a hospital social, sing “Going Home.” Before production, De Havilland researched her character by visiting several mental institutes and studying their various treatments. De Havilland’s illness and treatment is a bit simplistic and too optimistic. However, the film became one of the first to examine seriously the subject of mental illness and treat it with respect. A great drama directed by the same man who made Gentleman’s Agreement. Pleasant viewing.

**TIRED?? STRESSED OUT?? RE-ENERGIZE WITH STEP AEROBICS!!!**

For all of you who are feeling the end-of-the-semester grind, the Intramurals Step Aerobic Program is a great way to relieve stress and revitalize yourself.

Mon.-Fri. 7am

**Classes are held in the Helferrich Dance Room.**

Work out three times a week for four weeks and you receive a free Step Aerobics T-shirt or Towel! (Incentive carries over winter break)

---

**The Silver Screen by Hera Walker of The Grizzly**

**The Snake Pit,** starring Olivia De Havilland, became a wake-up call for the public on the treatment of the mentally ill.
THE GAME PLAN

by Tony Palladino and Phil Blessington

TONY'S PICKS (29-26)

DETROIT 28, Kansas City 14
TP: Detroit doesn't lose on Thanksgiving.

Arizona 21, MINNESOTA 20
PB: Boomer keeps it close.

GREEN BAY 34, Chicago 14
PB: Green Bay is clearly dominant.

N. Y. Giants 28, PHILA. 24
TP: The Giants always find a way to win at the Vet.

Houston 28, N. Y. JETS 21
PB: Why are the Jets even playing?

PHIL'S PICKS (33-22)

Kansas City 20, DETROIT 10

MINNESOTA 17, Arizona 14

GREEN BAY 31, Chicago 24

PHILA. 28, N. Y. Giants 17

Houston 30, N. Y. JETS 3

Tampa Bay 24, CAROLINA 14
TP: Buc's open the battle of whoop-ass on the Panthers.

San Francisco 42, ATLANTA 14
PB: Atlanta scores 10 points...how?

Washington 34, DALLAS 21
DALLAS 31, Washington 28

Buffalo 28, INDIANAPOLIS 17
JACKSONVILLE 14, Cincinnati 3

Cincinnati 17, JACKS. 10
Miami 27, OAKLAND 17

OAKLAND 32, Miami 27
Pittsburgh 35, BALTIMORE 14

Pittsburgh 28, BALTIMORE 17
St. Louis 10, NEW ORLEANS 3

NEW ORLEANS 17, St. Louis 10
DENVER 10

Seattle 14, DENVER 10

New England 24, SAN DIEGO 14
SAN DIEGO 28, New England 21

***The home teams are listed in capital letters.

A PHILLY FAN

by Joel Schofer

Sports Editor

Over the years I've been writing the Philly Fan, and I guess it really has been years, I've developed a tendency that should be readily apparent to anyone who's been a loyal reader. I'm not proud of it, nor am I ashamed, but ninety percent of my material has a negative slant to it. It's not that I'm not a positive person, I'm usually making fun of someone, from my best friends to people I'll never meet, or disagreeing with something that someone has said or done. Why? Well, in all honesty, I believe that my personality allows me to reach my comedic height only when working with some good solid negativity.

This week, however, there will be no negativity. I solemnly swear to it. It's Thanksgiving on Thursday, as you already know, and 'tis the season to give thanks for some things at Ursinus as well as in Philadelphia sports.

All Eagles fans have a lot to be thankful for, but most importantly we should thank our lucky stars we have Ray Rhodes as our head coach. Last week after the Redskins game, Rhodes caught a lot of flack in the press due to some of his postgame comments. To paraphrase, he compared the Redskins coming to the Vet and beating the Eagles to someone coming into his home and sodomizing his wife and children while he sat there and did nothing about it.

Not the most pleasant images, to say the least, but very effective in their intended role, which was simply to illustrate how much Rhodes' despises home losses and, in particular, the one his team had just been dealt. Well, the papers crucified him for his statements and there were people all over the place claiming that he had belittled and brought humor to sexual assault, an obviously very serious matter.

Yeah, no kidding. Sodomy and other sexual offenses are not to sound juvenile way, way, way more serious than a loss on the gridiron, and Ray Rhodes has always known that and always will.

The man just eats, sleeps, drinks, and excretes football and it is a damn good thing that's on our side. If a loss at home that could have lost the division title doesn't make the head coach feel AT THE TIME the same way he would if something horrible had happened to his family, then he's in the wrong business and I don't want him coaching my football team.

I myself have been a loyal reader. I've developed a tendency that should be readily apparent to anyone who's been a loyal reader. I'm not proud of it, nor am I ashamed, but ninety percent of my material has a negative slant to it. It's not that I'm not a positive person, I'm usually making fun of someone, from my best friends to people I'll never meet, or disagreeing with something that someone has said or done. Why? Well, in all honesty, I believe that my personality allows me to reach my comedic height only when working with some good solid negativity.

This week, however, there will be no negativity. I solemnly swear to it. It's Thanksgiving on Thursday, as you already know, and 'tis the season to give thanks for some things at Ursinus as well as in Philadelphia sports.

All Eagles fans have a lot to be thankful for, but most importantly we should thank our lucky stars we have Ray Rhodes as our head coach. Last week after the Redskins game, Rhodes caught a lot of flack in the press due to some of his postgame comments. To paraphrase, he compared the Redskins coming to the Vet and beating the Eagles to someone coming into his home and sodomizing his wife and children while he sat there and did nothing about it. Not the most pleasant images, to say the least, but very effective in their intended role, which was simply to illustrate how much Rhodes' despises home losses and, in particular, the one his team had just been dealt. Well, the papers crucified him for his statements and there were people all over the place claiming that he had belittled and brought humor to sexual assault, an obviously very serious matter.

Yeah, no kidding. Sodomy and other sexual offenses are not to sound juvenile way, way, way more serious than a loss on the gridiron, and Ray Rhodes has always known that and always will.

The man just eats, sleeps, drinks, and excretes football and it is a damn good thing that's on our side. If a loss at home that could have lost the division title doesn't make the head coach feel AT THE TIME the same way he would if something horrible had happened to his family, then he's in the wrong business and I don't want him coaching my football team.

The students of Ursinus, also have someone to be thankful for, someone who's presence on our team is also a damn good thing because without them we'd be screwed.

Last week there was an article by Taneille Smith entitled "A Question of Security" that...wait...I'm being positive. I almost forgot.

Well, thank God we have freedom of speech or else we wouldn't be able to read factually incorrect material riddled with logical holes. Ms. Smith makes two excellent points. Yes, we could use more call boxes on this campus. Yes, the PA lei desk can sometimes be less than helpful. It is interesting to note, however, that these problems are in no way attributable to the individual uniformed officers themselves, as Ms. Smith suggests, but are attributable, in varying degrees, to the head of security, Brian McCullough, the student run Residence Hall Association, and the Residence Life Office. As for the rest of the article... She suggests that security should provide escorts for students who feel uncomfortable walking on campus. Guess what. They already do this. Call them. They'll do it.

Finally, she attributes faults she sees in the "write-up" system to security. This is not security's responsibility. Their responsibility in the "write-up" process is to provide security for the RA's and RD's of the Residence Life Office. These are the people who initially "write-up" people and it is their office, RLO, that is in charge of the disciplinary process. Basically, I feel as if the individual security officers are getting an undeserved bum rap. The security officers are not "beer nazis." They are people who do all of the things that we need them to do and all of the things they are required to do.

Think about it. While students may not always like what security is doing, for example busting a keg, they are always there if we need them.

The security officers deserve no blatantly incorrect, poorly researched, and illogically structured press that contributes to the formation of a negative image in the minds of students. They deserve to be thanked. If a student needs them they're always there, and anyone who thinks otherwise is 100% wrong.
BEARS SUFFER 31-24 DEFEAT IN NCAA PLAYOFFS
Finish the Season at 9-2

by Joel Schoder
Sports Editor

The Ursinus College football team traveled to Lycoming, Pennsylvania, for their first ever NCAA Division III playoff game and suffered a 31-24 loss at the hands of the Lycoming Warriors (10-0). The loss to Lycoming, the number one seed in the South, put an end to the most successful football season in Ursinus history and left the Centennial Conference champion Bears with a 9-2 overall record. The Bears, who led most of the game, were up by a score of 17-16 in the third quarter before the Warriors’ overpowering offensive line and running game generated two late touchdown drives.

Lycoming fullback Steve Hill broke off a 69 yard touchdown run for a 31-17 Warrior lead with 6:20 left in the game. The Bears responded with a 43 yard kickoff return by senior wide receiver Ron Floyd that put the Bears in Lycoming territory. It took the Bears just seven plays for Mark Parks to score on a one yard run. A Mark McGonagle extra point brought the score to 31-24 with 3:42 left.

The Ursinus defense forced the Warriors into a three and out series, but UC quarterback Chris Orlando threw four straight incomplete passes to leave the score at its final, 31-24. Lycoming finished with 257 rushing yards and the Bears’ usually dominating ground game, without second leading rusher Brandon Shepherdson (out with a fractured ankle), could generate only 83 yards on the ground.

Lycoming will advance and host Albright (10-1) in Saturday’s NCAA quarterfinal.

BEARS PLACE NINE ON ALL-CONFERENCE TEAM

Centennial Conference champion Ursinus College placed nine players on the All-Centennial Conference Football team. Four Bears, including three on the nationally ranked Ursinus defense, were named to the first team.

Senior offensive tackle Sean Lakatosh led Ursinus with nine sacks, eight tackles for a loss, and six forced fumbles. McGonagle was also named to the second team defense as a punter.

Senior middle linebacker, was named to the first team defense, along with cornerbacks Peter Hinckle and Eric Lieberman. Hinckle set an Ursinus single-season record with 11 interceptions. He was twice named the Centennial Conference’s Defensive Player of the Week.

Senior wide receiver Ron Floyd was named to the second team offense for the third straight year. Also named to the second team offense were running back Dan Steigerwalt and place kicker Mark McGonagle. McGonagle tied the Ursinus single season field goal record with six.

WRESTLING OPENS WITH TWO WINS
Beat Johns Hopkins in Conference Match

The Ursinus College wrestling team (2-0, 1-0) opened its season by defeating Johns Hopkins and Baptist Bible in dual meets. The Bears routed the Blue Jays, 43-4, in a Centennial Conference match. Bucky Johnson (126 pounds), Nate McElhaney (167 pounds), and Walt Dull (177 pounds) all pinned their opponents for the Bears. Dull needed just 22 seconds to pin P.J. Fontanetta.

Chuck Borkowski (134 pounds) and Donny Asper (138 pounds) posted technical falls for Ursinus. Bob Riley decisioned Don Solomon, 6-4, at 190 pounds for the only Blue Jay win. Ursinus was aided by seven forfeits in the 46-9 win over Baptist Bible. McElhaney posted a 13-1 major decision over Chuck Sizza at 167.

Hopkins got five forfeits in a 36-15 win over Baptist Bible.

MEN’S BASKETBALL OPENS WITH AN OVERTIME WIN
Lose Second Game to PCPS

by Chris Daniluk
Of The Grizzly

This past weekend, in front of the loyal, screaming Ursinus fans at historic Helfferich Hall, the men’s basketball team won an exciting overtime game against Delaware Valley, 77-72, and lost to the Philadelphia College of Pharmacy and Science 70-57.

With only two returning starters from the 1995-96 season, there were a lot of new faces in the starting lineup.

Senior Pat Buyse, voted last year’s Most Valuable Player, is a consistent post scorer and rebounder, and will be called upon to lead a team consisting of mainly freshmen. Joining Buyse in the frontcourt are freshman Kevin Thompson, a 6'-6" forward with an excellent touch around the basket, and Chris Ciunci, a 6'-4" guard/forward with exceptional range.

Rounding out the starting line-up in the backcourt are two more freshmen, Jim Reilly, a 5'-9" point guard with outstanding ball handling and court awareness, and James Rossiter, a strong 5'-11" shooting guard who definitely likes to put the ball up.

Replacing the guards off of the bench are returning starter Jason O’Neill, junior Randy McDonald, and freshman Rob Bishop.

With only four upperclassmen on the team, the freshmen will be looked upon to make an immediate impact. On Friday night, all players, starters, and subs made significant contributions in the team’s first victory.

In the first half of action, the Bears found themselves down by 11 with about 10 minutes left. Then, thanks to an excellent defensive effort and five Buyse field goals, the team outscored Delaware Valley 15-8 and trailed by only four, 28-32, at the half.

The Bears continued their excellent play in the second half. They, sparked by O’Neill’s three steals, converted many break away baskets, highlighted by a Thompson two-handed slam. The teams went back and forth for the rest of the half and ended up deadlocked at 61-61 after 40 minutes.

Then, in the overtime session, the team’s two returning starters, Buyse and O’Neill, took over. The two combined to score 11 of the team’s 16 overtime points while the rest of the players harassed Delaware Valley and forced them into five crucial turnovers.

The team’s first win was due to an all-around effort. All players entering the game, both upperclassmen and freshmen, made significant contributions.

The game was highlighted by the play of Buyse, who led all scorers with 23 points and six rebounds. Thompson had 18 points and five boards and O’Neill had 12 points, six boards, and three steals.

Saturday’s game had the Bears matched up against the very physical Philadelphia College of Pharmacy and Science. Led once again by Buyse, with 17 points and seven rebounds, and Thompson with 12 points and seven boards, the team, only trailing by four at the half, could not overcome the aggressive Blue Devil defense. The Bears lost by a score of 70-57. Rossiter also added 11 points in the loss.

The Bears (0-0, 1-1) host Wheeling on Tuesday at 9:00 as the second part of a men’s and women’s double header.
