Sasha Siemal, Big Game Hunter
To Speak at Forum, November 13

Wednesday evening, November 13, at 8:00 o'clock, the Ursinus Forum will present to the students and to the general public, a distinguished visitor to the campus, Mr. Thomas G. Siemal, who won fame as a hunter who speared jaguars in South America, visited the United States, and was the subject of a popular novel and a series of pictures by him. Mr. Siemal is the most interesting man that our generation has produced. His reason is that he has used primitive weapons to capture the most dangerous animal of the world, the jaguar. So far as we know, no other man has been able to use primitive weapons so successfully. The reason is that he has been trained to primitive weapons.

However, with Mr. Siemal, we have a well educated man who has knowingly turned his back on modern civilization and the corruption of modern civilization. He has been a follower of primitive weapons. He has been a follower of primitive weapons because he has been a follower of primitive weapons.

Addison M. E. McKeever, spiritual director of the Ursinus Forum, said the following: "Mr. Siemal's visit is the third in the series of distinguished visitors who have been presented to the Ursinus Forum. These distinguished visitors have included Dr. Harry B. Lewis, the editor of the "New York Times," and Mr. John D. Rockefeller, the president of the Rockefeller Foundation. Mr. Siemal is the most interesting man that our generation has produced. His reason is that he has used primitive weapons to capture the most dangerous animal of the world, the jaguar. So far as we know, no other man has been able to use primitive weapons so successfully. The reason is that he has been trained to primitive weapons. He has been a follower of primitive weapons because he has been a follower of primitive weapons."

In Appreciation

Miss Camilla B. Stahr, Dean of Women, received an Honorary Doctor of Letters Degree at the Founders’ Day ceremonies yesterday. The honor was well deserved.

For a quarter of a century, Miss Stahr has been a member of the Ursinus community, and in that time her wise counseling, friendship, and devotion to duty have been a source of inspiration to our College. She has devoted many years to the women of Ursinus, and, through her guidance, many women have known success in their life after graduation.

Miss Stahr has made many friends among all the students—men as well as women. Her sympathetic nature, coupled with the knowledge of what is right, has given the students a surer in their own actions when you try to hide the true. In knowing what is right she can look ahead and anticipate the problems and dangers that face the student. Miss Stahr has given freely of her time to those whose problems are great, for their problems are hers.

The sense of humor is well known on the Ursinus campus. Her witty comments are often a welcome relief at a time when they are most needed.

In order to increase the citation read at yesterday’s ceremonies, Dean Stahr is respected for her firmness, tempered with wisdom and sympathy. She is known for her kindness, fairness, and integrity. She is, most certainly, a most respected and admired Ursinus woman.

With the faculty, who stood to applaud her and her work, we join the ovation for Dr. Camilla Stahr, a woman of great dignity and poise—a model for all the women of Ursinus.

Due to the fact that the soccer team had four games within the past two weeks, this column will try to explain the soccer of his territory into enemy territory, and thereby aid in the build-up that Dick has played since the beginning of this season when he played in the past Saturday’s football game. This is the first time of Ursin keeping goals with 15 of Philadelphia’s 22, Franklin and Marshall.

Miller Discusses Buddhist Religion at Nov. 6th Forum

On Wednesday evening, November 6th, the Student Occupation Commission met in room 15 to hear Dr. Miller speak on a history of Buddhism. Dr. Miller admitted that he was a social worker, a writer and a religious teacher. His subject was the history of Buddhism in the East and from his research on the history of Buddhism, he told his audience about the importance of Buddhism and all the different aspects of it.

The discussion given by Dr. Miller was very interesting and informative. It was a great pleasure to listen to a man who knew so much about this religion. His knowledge of the history of Buddhism was very remarkable, and he was able to explain the different sects and beliefs in a very clear manner.

In conclusion, I would like to say that I was very much impressed by Dr. Miller's speech. He was a great speaker, and his knowledge of Buddhism was very impressive. I would recommend his speech to everyone who is interested in learning more about this important religion.
