Final Forum On Final Art April 14

"The Language of Art" was discussed by Mr. Frisell Maier at the Forum presented by the Ursinus YM-YWCA.

Mr. Maier, who has trained under the best in the recreational field, at Amandios Oseta, has a place in the U.S. Civil Defense Gallery in New York City and is an active member of the National Association of Professional Artists, a group of artists who form a network of artists across the country. Mr. Maier illustrated the influence of Picasso. Mr. Maier also pointed out that the "Liberation" of the artist is the "Liberation" of the person, the "Liberation" of the person who is free to create his own. Petitions must be given to his own. "Cadaverism" by Jay Salwen

Cadaverism is the term applied to a person who knows only about this specialty and nothing else. Far too many students around here, and at other centers of higher learning, have acquired this disease. The excuses for not possessing any information concerning varied fields run the gamut from "I don't have the time" to "What do I have to learn about that stuff for I'll never use it in my business." Both these excuses are extreme rationalizations. A person can easily make the time for these outside interests and one life and peace must be preserved, not by someone's errors. Classroom Jazz Albums Released

"Jazz in the Classroom," a new LP just released, will receive rights on jazz enthusiasts. With the emphasis placed on the listening pleasure in addition to gaining further appreciation and understanding of jazz.

This recording is an exciting look in the field of jazz education. It is made up entirely of original compositions in the modern jazz idiom, and was created, arranged and produced by students at the Berklee School of Music in Boston, Mass. The LP is available with full scores of all arrangements for study and analysis. In addition to the listening pleasure it affords, "Jazz in the Classroom" offers a rare opportunity for music teachers, students, and music students to develop an understanding of contemporary compositional and arranging techniques. The techniques clearly outlined on the discs include, syncopation and big band swing, improvisation, polyrhythms, thematic development, and compositional form in jazz. Parts may be copied from scores for rehearsal and performance purposes and groups using the materials in this manner are invited to send tape recordings of their performances to Berklee for professional evaluation and comment. Communications should be sent to Berklee School of Music, Berklee Building, 284 Newbury St., Boston 15, Mass.

This innovation represents an important step in the development of jazz in that it evidences the close ties of contemporary and organized educational approach.

DRIVE CAREFULLY—with you save may be your own!

Yes, Spring is here. And with it comes birds, flowers, showers, and the awakening of the dormant marine drive. Men are looking for women and women on the prowl for men (as can be readily seen in the above caption). Many couples are happily walking arm in arm across the green campus. Not till summer will they realize what they are doing, and by then it's too late. Along with this old game new ones have emerged: NC. Prudy is all the rage with the elite.
