Many of the volcanoes of Central and South America, at times a free passage is formed between the interior of the earth and the surface of the earth, through volcanic pipes, forces water into the air, and supply the earth with energy that causes the flow of lava and the eruption of steam. In the latter case, the surrounding matter is melted rocks, and in the former case, the evolution of the force that is the origin of volcanoes takes place only at times, the spasmodic eruption of ashes, mud and gases, which with various deposits of sulphur, the frequent occurrence of volcanic activity through all parts of the globe, constantly giving rise to new beds of sulphur. The frequent occurrence of volcanic activity through all parts of the globe, constantly giving rise to new beds of sulphur, is an indication of the instability of the earth's crust. Closely allied to volcanic activity is the earthquake. The earthquake that shook the South Island of New Zealand in 1848, a fissure eruption that occurred in 1850, and the eruption of the volcano at the end of November, 1822, the coast of Chili in 1847, are examples of volcanic activity. The earthquake communique a wave motion to the waters of the sea, the wave velocity being increased for the distance of about 90 miles.

A Public Visit.

An invited social event held at the home of Miss Maud C. Badger, who lives on a hillside in the town, was attended by all the town visitors and was a great success. The house was beautifully decorated and the refreshments served were ample and delicious. The entertainment consisted of a dance, a concert, and a program of games and music. Everyone had a wonderful time and there were many pleasant gifts exchanged among the guests. The evening concluded with a grand supper and the company then adjourned to the home of Miss Badger for the night.

A Bachelor's Bachelor Dinner.

Joseph Roberts, a bachelor friend of the town, held a dinner in his honor at the home of Miss Emma Browning last night. Sixty or more guests were present and the house was beautifully decorated. The guests had a delightful time and the supper was followed by a dance. A number of interesting speeches were made and the evening concluded with a grand supper and the company then adjourned to the home of Miss Browning for the night.

A Cold Mangoed and Milled.

A child of Ifrient's parents, while visiting the town last week, was found to be suffering from a cold and was immediately taken to the hospital. The child has since recovered and is now doing well.

Religious Encampment.

The annual encampment of the Evangelical Church, held at the house of Mr. George M. King, was attended by all the town visitors and was a great success. The house was beautifully decorated and the refreshments served were ample and delicious. The entertainment consisted of a dance, a concert, and a program of games and music. Everyone had a wonderful time and there were many pleasant gifts exchanged among the guests. The evening concluded with a grand supper and the company then adjourned to the home of Mr. King for the night.

New York.

John G. H. Scott, the editor of the Independent, has completed a major addition to his home. The addition has more than doubled the size of the house and has greatly improved its appearance.

Designs of the Democracy.

The democratic club is holding a spitting contest in the town in order to determine whom the democratic club will endorse in the next election. The contest will be held at the town hall on the 25th of next month. All interested citizens are invited to participate in the contest.

Pu in Norristown.

The house on the sale property of Mr. Samuel S. Augee, was turned over to the bank for $1,200. The house has been sold at auction and the proceeds will be used to pay the debts of the estate.
