Mattie, the Postman

You have often seen him crossing the fields with rapid steps, no sooner opening the mail than ready to stop by the doors and run on to the next. His face is never seen without a smile, and his hands are always busy. He has a daughter of the same age as the Eozoan of the Maritimes. She is often seen by the side of him, and they often work together. There is nothing else that he can do, and so he does it. He is happy.

The next week I saw him again, and this time he was accompanied by a beautiful little girl of the same age. She was walking beside him, and he seemed to be more contented than ever. He stopped near a little stream, and picked up a stone. "I found this stone," he said, "and I thought it was very nice. I wondered if I could find something like it anywhere else."

"What is that stone, my dear?" asked his father.

"It's a XF-5 stone," replied the girl.

"Yes," said Mr. Martin, "that's a XF-5 stone. It's very rare. I've never seen one before."

"But you found it, didn't you?" asked the little girl.

"Yes," said Mr. Martin, "I found it. I'll give it to you as a present."

"Oh, thank you, Father," said the little girl, "I'll keep it with all my other XF-5 stones."

"There are XF-5 stones," said Mr. Martin, "but they are very rare. I've never seen one before."

"But you found it, didn't you?" asked the little girl again.

"Yes," said Mr. Martin, "I found it. I'll give it to you as a present."

"Oh, thank you, Father," said the little girl, "I'll keep it with all my other XF-5 stones."

COMM. 25 YEARS IN THE TOPI ACHE.

The Providence Independent—The Providence Independent is one of the oldest newspapers in America. It was founded in 1837, making it 25 years old. The paper is known for its coverage of local and national news, as well as its role in shaping public opinion.

In this issue:

- The Providence Independent has a larger circulation than the New England Journal.
- Milk is being delivered at 6:56 a.m.
- Bloch & Co., Pheonixville.
- Why, of course, J. will, I am purrde of him.
- The Norristown Hospital.
- A public sale of real estate.
- A public sale of furniture.
- A public sale of horses.
- A public sale of land.

P.S. SUNDAY PAPERS.

The Department of Agriculture.

VALUABLE CLOVER.

Clover, both as a means of keeping the land and as a forage for stock, has no superior, if sound, and is a favorite for those purposes. Botanists differ as to the number of varieties of clover, but our poor farmers, who have only a few acres in which to plant this valuable crop, are not in a position to be particular about its kind.

A valuable variety of clover is at present in the Chicago market, and is known as the "American" variety. It is a hardy plant, and has the additional advantage of being a good haycrop. It is also a valuable soil improver, as it fixes nitrogen in the soil, and is one of the most useful crops that can be grown in the United States.

The clover is a valuable crop, and should be cultivated more extensively. It is a hardy plant, and is not liable to be injured by cold weather. It is also a good forage for stock, and is especially valuable in the spring.

A. KRUSEN, M. D.,
AUGUSTUS W. BOMBERGER,
JOSEPH STONE,
WILLIAM E. JOHNSON,
J. W. GOWTAL.

The different Philadelphia market is well supplied with clover, and there is a good demand for it. The farmers who grow clover are doing well, and the prices are high. The clover is a valuable crop, and should be cultivated more extensively.
