MSGA Buys Record Player

At the Oct. 36 meeting of MSGA, the first item of business brought forward for discussion was that the need was the title of a new record player for the dining hall. Accordingly, the committee unanimously decided to donate $25.00 in conjunction with the purchase of a new machine to replace the present one in use.

Mr. Henderson was selected as MSGA representative to assist Dr. Helfferich in advising and choosing furniture for the new building.

In accordance with a request of the WRCA, the date of the Lenten was changed to Feb. 10.

The next meeting of the MSGA will be devoted to a study of the Election Provisions for the University for the coming year.

Pre-Medical Society
Tours Med. College

The Brownback-Anderson Pre-Medical Society toured the Women's Medical College of Philadelphia on Saturday, Oct. 30. Upon arrival at the college, the group was met on an informal tour of the college's excellent facilities.

At one o'clock the visiting students were treated to a luncheon in the basement of the school's office. After a short two o'clock the group gathered in the library for a presentation given by a member of the medical school's faculty.

The principal speaker was Dr. Donald W. Helfferich, who discussed "Admission Requirements" and "The Typical Student." The presentation was followed by a question-and-answer period.

Pre-medical students from the Greater Philadelphia area were in attendance, as well as students from high schools in the area.

The wrap-up talk was given by Dr. Helfferich, whose father presided over the assembly on Saturday afternoon in the college auditorium for an in-depth discussion on the subject.

The next meeting of the Pre-Medical Society will be held on Nov. 15.

Don Adams, president of Delta Pi Sigma Fraternity, Dr. Helfferich and Dr. Donald Helfferich presented the college with a new tree, which was planted on Friday afternoon.

Dr. Helfferich, whose father presided over the assembly on Saturday afternoon, dedicated the tree to the college and presented it to Dr. Donald Helfferich, the current president of the college. The tree was actually presented to Dr. Helfferich, who accepted it for the school in the presence of the college's administration.

The presentation of the tree was made by Dr. Donald Helfferich, whose father presided over the assembly on Saturday afternoon. Dr. Helfferich, whose father presided over the assembly on Saturday afternoon, dedicated the tree to the college and presented it to Dr. Donald Helfferich, the current president of the college. The tree was actually presented to Dr. Helfferich, who accepted it for the school in the presence of the college's administration.

The tree is susceptible to very few diseases and pests, and is expected to live for at least 25 years. Dr. Helfferich expressed his blessings to the newcomer and wished it well.

The tree was planted on the college's campus, and is expected to thrive in the college's environment.

Don Adams, president of Delta Pi Sigma Fraternity, Dr. Helfferich and Dr. Donald Helfferich presented the college with a new tree, which was planted on Friday afternoon.

This week's suggestion boxes will ask seniors who wish to be considered for the Young Men's Scholarship to write to: Dean of the School of Education, Ursinus College, 1241 Locust Street, New York 3, N.Y.

Mayberry Completes Course

David S. Mayberry, who attended Ursinus College from 1931-33, has completed his course work. He was formerly a member of the Albany County Air Corps. After graduating from college, he served as a lieutenant in the Military Police. He is currently employed by the Special Weapons Unit of the United States Army.

Greek Societies

Sorority Change Request

From the spirit week, the president of the campus, Dr. Helfferich, was removed from office. The new president is to be chosen by the student body.

A comparison of the previous and current student bodies will be made in order to determine the student body's preferences. This comparison will be made by the Student Government Association.

High School Societies

See Campus, Slides

A group of eight-five men and women from fifty or sixty high schools in Pennsylvania and New Jersey visited Ursinus campus September 25-26 in an organized tour. Under the direction of Dr. Helfferich, registrar, this tour was arranged for the benefit of the students.

The high school students were shown around campus on guided tours by Ursinus students under the direction of the YM-YWCA reception committee, the Ursinus Staff, Dr. Edward D. Waterman, and Dr. Ralph A. Daniels, both of whom were present.

These students were introduced to the laboratories of the Pre-Legal Society, the Student Senate, and the various clubs and organizations.

The tour concluded with a group picture in front of the Thompson-Gay Gymnasium, where all were invited to join the Ursinus community in the future.

After lunch in the upper dining room, the group was taken on a tour of the campus by the Student Senate. The high school students left Ursinus campus late Saturday afternoon.

Dr. Lionel Mapp to Speak on "Trinidad: Medical and Ethnic"

Dr. Lionel Mapp, a brilliant ob- stetrician from Trinidad, will speak at the Ursinus College Forum on Monday, Oct. 13, at 8:00 p.m. in Bomberger Hall. Dr. Mapp is currently studying under an inter- national fellowship at the Medical Society of Pennsylvania Medical School.

In times like these, when colonial peoples are in a state of transition, the Forum Committee feels extremely fortunate in hav- ing the opportunity to bring to campus a man who has such first-hand knowledge of medical and social conditions in Trinidad. Not only is Trinidad extremely important to the free world but it is also of great interest to Dr. Mapp, who has spent three years in the East Indies, Negro and White, and has spent the past six months in a strange new pattern. Dr. Mapp knows the medical and personal history of the West Indies, but he also understands the aspirations and sacrifices of the Blackface peoples. It is hoped that this trip will help us students understand the complex- ity of the world struggle for human rights.

Pre-meeting students will be par- ticipating in a meeting on Saturday, Oct. 12, Dr. Mapp can give them the inside story of Trinidad. The re- mainder of the students will want to use this opportunity to learn more about what makes the people of the West Indies think and act the way they do.

Wood Sweeps Ursinus

Election by 64%

The student body of Ursinus College was asked to vote for the Republican party and the Democratic ticket in last week's election. The Republican ticket swept every three on the ballot.

The complete breakdown of the returns is as follows: of 316 votes cast, 47 went to the Republicans (giving them 56%) and 269 went to the Democrats (giving them 44%). There were also 15 votes cast for the WWSG candidates, who received 6% of the total vote.

The voting itself was heavy with 77% of the resident students voting.

**How I See It...**

by George W. Pauff '55

**DOES COLLEGE LIFE PROMOTE MATURITY?**

The process of human maturation is a complex and multifaceted one, involving not only the biological and physiological aspects but also the psychological and social dimensions. This process begins at conception and extends throughout a person's life, with the college years often playing a significant role in its development.

In college, students are exposed to new environments, ideas, and perspectives, which can challenge their assumptions and beliefs. This exposure is often accompanied by increased independence, as students learn to make decisions and take responsibility for their actions. College also provides opportunities for social interaction and personal growth, which can further contribute to the maturation process.

However, the college years are not without their challenges. The fast-paced and often stressful nature of college life can sometimes lead to a lack of focus and self-discipline. Additionally, the social pressures and peer influences that students may encounter in college can sometimes conflict with their personal values and beliefs, which can hinder their ability to mature.

Despite these challenges, college can be an empowering and transformative experience for many students. It can provide the tools and experiences necessary for students to develop into mature and responsible adults. It is important for students to recognize and navigate the challenges that they may face during their college years, as well as to take advantage of the opportunities for growth and development that are available.

**CLOTHING DRIVE**

KDK Sorority and Delta Fraternity will sponsor a clothing drive from November 1 to November 12 for the benefit of the Christ Home Orphanages. See any KDK or Delta member.

**Condensed Ed.**

This gem of wisdom appeared in an unbridled Weekly article this week, "...thus plan for revision of the proposed revisions." Please explain, Mr. Clifford.

And many deep-think thanks to Miss Jean Kowalski of the dining hall waitresses, who never complains about bringing a certain person his regular tea. Keep up the good work.

Congratulations Hal Singley! He attended Ursinus before entering the Borough was only thinking of welfare of his employers. Now this is a good use of the mind, and not for propaganda purposes, but it really does, we believe, mean "welfare" in the area that the weather is warmer in October than it is in November.

All research and carefully considered conclusions add the result of this phenomenon to the localities, may be that Morzy's given license to stand for a month's stand while pumpkins will be given a truly merry business of human maturity.

**RUSSIE COOLING OFF PERIOD**

by Carl Smith '55

Several new groups campus are wearing red ribbons on their sleeves. A common symbol is that the wearer has been raised by at least one father. This also means that neither member of any fraternity can be a member of three fraternities or three sororities, and a member of any fraternity can be a member of three fraternities only.

Bears Maul Shaky Wagner Eleven 34-7

Stars of the Week

by Dick Bowman '55

This week's Stars of the Week are freshman halfback BOB FAMOUS, named as Back of the Week, and senior halfback WALKER CRIGLER, chosen as Lineman of the Week. Both men turned in outstanding performances on offense and defense to help the Bruins wallop Wagner 34-7 and give the student body a holiday today.

Famous, playing his finest all-around game to date, scored two touchdowns with a brilliant leading interception at the 8-yard line. The smart-stepping "Rousier Sprints," scored the second Univeristy TD in the second quarter when he captured a bobbled pitchout and ran 20 yards to score. His fourth quarter interception gave Univeristy the ball on the Wagner 45, from where he passed to freshman Glenn Greth on the 15. Then he took a 10-yard bullet (from Walker who was handing off duties at the time) and jogged over.

Crigler was a consistent play-maker, breaking tackles and scoring his share of touchdowns, and was a threat every time he touched the ball. Against Wagner, he had the ball past the line of scrimmage 10 times and gained 109 yards on those 10 carries for an average of 10.9 yards per carry. In TD's fourth period Famous again showed his talent with a 30-yard pass to Glenn Greth, the 27-yard pass that set Wagner on the 26, and Famous, running at top speed, bobbled the pigskin in mid-air and dashed over untouched. Atittle's back was perfect, and it was 14-6.

In the second quarter, after a Nebraska punt set Wagner back on its own 26, the Bears got another break. Running to the edge in first downs, 8-7 and a 10-yard break midway through the first quarter, when Dick Famous flopped on a Wagner fumble on the 6. Two plays later, publicity scurried over to pick up the score. Walker's exuberant point attempt was wide to the left, making the score 6-0.

In the last period, after a Bob Famous punt set Wagner back on its own 30, the Bears got another break. Running to the edge in first downs, 8-7 and a 10-yard break midway through the first quarter, when Dick Famous flopped on a Wagner fumble on the 6. Two plays later, publicity scurried over to pick up the score. Walker's exuberant point attempt was wide to the left, making the score 6-0.

RABBI SCHORSCH
(Continued from page 1)
cure, and absolute from the Torah teaching “Man must learn until the
day of his death.”
In capsule answers to general questions usually raised: there are no
Jewish demons; they do not believe in the devil; nature is not
God, but a creation of God; every
man can come to God unless he has
indulged in murder or sexual im­
morality, for as demonstrated
when God stayed the hand of Ab­
raham over Isaac, human life is
believed in the devil; nature is not
immortal, immortality is accepted as
sacred; immortality is taught by Torah revelation
and self-evident by Torah revelation
and participated in some of the
Hebrew chants and English liturgi­
and learning for God
and a spark of God is God in every
man.
