Asbestos Mess Hits Helfferich Hard

Danger! Danger! Students have been advised to stay clear of the basement area in Helfferich Gymnasium due to the recent asbestos outbreak. Staff Photo by Stephanie Restine

Bradford Joyce

Staff Writer

A recent asbestos scare has some students worried about their safety in and around Helfferich Hall. According to Athletic Director Bill Akin, the problem should be recognized but is nothing to panic about. "Sure, I have no concern. There is only a little however and it has all been contained," he said. "There is actually more of it

than we first thought," President Strassburger stated late last week.

Efforts are underway to surgically remove the asbestos and the basement areas and locker rooms underneath the gymnasium have been closed indefinitely until the situation is under control.

Asbestos is only dangerous in a dry form, such as it would be found in insulation. Once wet, the fibers are no longer able to float in the air where they may be

inhaled. The structural composition of asbestos differs greatly with that of other materials used in insulation. Instead of the fibers being straight, they assume the shape of a fishhook so that when a person exhales, they become imbedded in the lungs. Although a small exposure to the substance is not highly dangerous, continuous exposure could potentially cause lung disease or cancer.

The Class of 2000 gathered on the steps of Berman Museum for the freshman class picture back in August 1996. Four short years later, on May 13, 2000 they will take part in commencement. Photo by Todd McKinney

Commencement Set For UC Seniors

Stephanie Restine

Editor-in-Chief

In a little over a week, the Ursinus Class of 2000 will have reached its long sought goal: graduation. The members of the graduating class will attend the Baccalaureate Service on Friday, May 12 at 6:30pm in Bomberger Auditorium. Seniors anxiously awaiting their graduation day will then attend the Commencement activities on Saturday, May 13 at 10:00am on the front lawn of campus.

Giving the sermon at the Baccalaureate Services will be Reverend Martha R. Overall, the priest of St. Ann's Episcopal Church in South Bronx, New York. Rev. Overall was recog-

nized in Jonathon Kozol's "Amazing Grace: The Lives of Children and the Conscience of a Nation" for her ministry in the South Bronx.

Selected by their peers, seniors Meghan Gualtieri, Erny Hoke, Janel Reppert, and Cara Riley will be reading scripture passages during these services (see Features Page 7 for a closer look at these students.)

Neurosurgeon Benjamin S. Carson will deliver the Commencement Address on Saturday morning. Off to a tough start within inner city Detroit, MI, Carson was motivated by his mother to turn his life around. After years of hard work, Carson received a scholarship to Yale

WE REMEMBER

Douglass Davis, UC Alumnus and Faculty Member, Dead at 81

Douglass Davis, an alumnus and former member of the Ursinus faculty, died Saturday April 27 while in his home in North Coventry. Davis was 81.

Mr. Davis was a decorated veteran for World War II and served in the Army and the Army Reserves from 1941-45. He retired in 1970 as a Lieutenant Colonel.

Mr. Davis graduated from Ursinus in 1941 and earned his M.A. at the University of Pennsylvania. He returned to serve as the chair for the Ursinus history department as a specialist in European history and also served for 12 years as director of the Ursinus Senior Symposium program.

Mr. Davis was also the advisor to the fraternity Sigman Rho Lambda during his years at Ursinus. Even after his retirement from the school, Mr. Davis continued to have contact with loyal fraternity members.

"After he retired, Mr. Davis really wasn't

our advisor anymore," senior fraternity member Angelo Lepore commented. "On Thursdays, he would cook dinner for four or five of us. We'd all play cards and smoke cigars together. He was a really cool guy."

He was a native of Pottstown and was involved in a great number of organizations in the area. Mr. Davis was the past president of the Schuylkill Valley Chapter of the Ursinus Alumni Association and member of the Valley Forge Chapter of the Reserve Officers' Association, and of Stichter Masonic Lodge No. 254.

Mr. Davis traveled throughout Europe extensively. After leading student tours in the 1960s, he retired in 1987 and continued exploring.

He is survived by one nephew, Kenneth Davis of Pottstown, and two grandnephews. Services will be private and at the

convenience of the family. The burial will be in Mount Zion Cemetery, North Coventry.

Memorial contributions may be made to the Myrin Library.

Condolences may be sent to Mr. Kenneth Davis at 190 St. Clair St., Pottstown, PA 19465

Annual Spring Fling a High-Flying Success

Diane Johnson
Dan Reimold

Sports Editor
News Editor

The annual Spring Fling, sponsored by C.A.B., featured social events and activities throughout this past week.

UC students enjoyed a common hour concert in the Olin Plaza on Wednesday.

Scores of brave souls attempted simulation skydiving Thursday afternoon.

The popular 80s cover band "Orange Crush" wowed students in Wismer Lower Lounge on Thursday night.

On Saturday, the weather was picture-perfect for the annual carnival.

Human fooseball was just one of the popular attractions at Spring Fling. Among others were a blow-up obstacle course, laser tag, sumo wrestling, rock climbing, a giant slide, jousting, boxing,

velcro jumping, and karaoke.

"Beating my friends at laser tag was the best time I've had at UC so far," sophomore Matt Tuzman said.

"It was a great day to just be outside and

Above: UC students wait in line to have their caricatures drawn.

Left: Students with spring fever plead with others to, "Think Spring!"

Staff Photos by Stephanie Restine

relax with my friends before finals arrive."

The rides and Casino night were from the company Entertaining Ideas. Laser tag was from Parodime.

"We were happy how everything turned

out," sophomore Jen Repetto stated. "The weather outside was great and it brought a lot of students outside for the day."

Next year, C.A.B wants students to know that next spring laser tag will be free.

Commencement Set for Seniors

Continued From Front Page

and received an M.D. from the University of Michigan School of Medicine. Carson is currently the director of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, MD and the writer of motivational books such as, "The Big Picture: Getting a Perspective on What's Really Important in Life."

Senior oana nechita was selected by her peers to be the student speaker at the Commencement ceremony (see Features Page ?).

During the Commencement activities, 291 bachelor's degrees will be awarded to day-school students, while 57 bachelor's and associates' degrees will be conferred upon the night-school students.

The Commencement ceremony will occur outside, rain or shine; in past years, the rain would force graduates, faculty, families, and friends inside. The millennium Commencement activities will be held under a large tent whether it rains or not.

"I have no objection to it," senior Mike Morsby commented. "It is pretty shaky though to definitely have it under a big tent whether it's raining or sunny outside. It still will be great to have graduation outside."

UC Female Reflects on the Horrors of the Freshman Fifteen

Emily Baltz

Special to the Grizzly

When I came to college this fall as a freshman I promised myself that I would not gain the dreaded "freshman fifteen". It is now two weeks shy of the end of my freshman year and I have gained at least five pounds. It's not fifteen, but it is still more than I wanted to gain. I'm not alone in my grief - a lot of freshman and upper-classman also complain about the weight they put on while in college.

It's so hard to avoid gaining weight considering the options we are given in Wismer. The food is fattening and unhealthy. There are almost no options given if you want to eat a healthy, well-balanced meal.

Wismer's major downfall is that it simply does not give healthy options to the students. Fellow Ursinus students agree; the general consensus is that the food is not good. Suggestions range from low fat yogurt, low fat lunchmeats and low fat cheese. More steamed vegetables and not so much fried food would also help. Just a few small changes could improve the quality of the food in Wismer. I hope that more attention will be spent on this

matter. The majority of the college community would like to see some improvements in the food. It would not take any more money and just a little more effort.

Exercise is also an integral part of maintaining a healthy weight and body image. Ursinus' campus is full of sports teams to

join and clubs to occupy any free time. Remember as the years go by, your metabolism slows down. Your best bet to maintaining a healthy lifestyle is to stay active. And now is the perfect time to start.

Congratulations to the Fall 2000 Grizzly Staff!!

Students Selected to Speak at 2000 Ursinus Graduation Ceremonies

With graduation just around the corner, seniors are busy finishing papers (increasing fonts, changing margins), cramming for exams (D for diploma),

Janel Reppert
Baccalaureate Reader

and counting change (penny drinks), memories and the days until four years of hard work (and play) come plummeting to an end (or a new beginning). Five seniors in particular will be consumed with not only the typical concerns of the future graduates (now, when do we throw the cap?), but will decide in the next week how to address the class that they have been chosen to represent at the baccalaureate and graduation ceremonies. Let's take a closer look at who these seniors are, where they've been, and where they're going.

Major and any activities/offices at Ursinus:

Janel Reppert:

I'm a chemistry major, with a politics and philosophy/religion minor. I'm president of the Ursinus Chapel Program and President of Whittian's Society. Also, I'm secretary of the Beardwood Chemical Society. I was in concert band, and am a member of S.A.S.A. and the Democrats Club.

Erny Hoke: Biology and Communication Double Major, USGA Treasurer, Class of 2000 Secretary/Treasurer, President of Sigma Chi Delta, Features and Photography Editor of *The Grizzly*

oana nechita:

I am a Philosophy and Religion major with a Creative Writing minor; editor of *The Lantern*, coordinator of the Literary Society

Cara Riley:

Biology Major, Math minor, Varsity lacrosse player, Resident Assistant, SAAC

Post-graduate plans:

JR: I plan to attend Harvard Divinity School in the fall, to gain a master's of divinity degree. I hope to be involved in urban ministry, as a Moravian minister, and be involved in urban renewal programs.

EH: Pursue a career in student development

on: I was accepted for a Master of Arts in Religion and Feminist Studies at Yale Divinity School.

CR: Temple Medical School this fall for an M.D.

What do you think will be the biggest issue facing the class of 2000 after graduation?

oana nechita
Commencement Speaker

JR: In America between the illusions promised by the "growing prosperity" and the inability of America to admit its mistakes and the actual reality, where our income gap is growing between the rich and the poor, racism is still inherent in society, and a growing apathy of our citizens to governmental change. These illusions may be part of the class of 2000, but experience will demonstrate to our class what the reality of America is, and our problem will involve our reactions and if we choose to change this reality.

EH: I feel that our class has some amazing people that will succeed greatly in life. The most difficult thing may be choosing from the vast options we all may have, and choosing the option that our hearts want us to, not what anyone else wants.

on: The biggest challenge for us will be integrating four years of knowledge into a meaningful and sincere lifestyle.

CR: Children and violence. And how we can make sure that our own children do not have to experience this.

What's your most memorable Ursinus experience?

JR: My most memorable Ursinus experi-

ence is our last chapel service last year, where we held service outside with Tarika Tiggett speaking. We had a heterogeneous mix of students, faculty, and administrators with various religious beliefs, but seemed to share in the celebration of life.

EH: Senior Halloween Party....oh wait I actually don't remember it. It was the greatest experience to be with just other seniors. And the dip in the pool at Birchwood in 35 degree water was VERY memorable.

on: My most memorable moments ... the little good stuff ... late night talks with friends, winning an argument over a professor, learning how to drive and almost wrecking my friend's car, co-ed bathrooms. I am overwhelmed and honored to be chosen the class speaker - my most memorable moment is yet to come.

CR: When we (the lacrosse team) won the first round of the NCAA tournament last spring.

What's your favorite shot?

JR: I don't do shots. Sorry. (HEY-It's okay!)

EH: Buttery Nipple.

on: I prefer red wine instead.

CR: Buttery Nipple.

Erny Hoke
Baccalaureate Reader

In one word, or phrase, sum up your life experience at Ursinus.

JR: The ability of education to free the mind and soul.

EH: "Something unpredictable, but in the end it's right. I hope you had the time of your life"—Green Day.

on: very fortunate.

CR: It has been the best four years of my life.

What did you like best about UC?

JR: There are a few professors, such as Rev. Rice and Dr. Hess, who served as mentors to me. These professors acted as

educators who connected to the holistic development of the student. Ursinus, as a liberal arts institution, has the ability to change students' lives, opening their minds, and in that way to transform society.

EH: Student/Faculty interactions beyond the classroom, as well as the way you can get involved in the school and try to make a difference. And through all this, you meet some of the most amazing people.

on: Friends, Wicks, Literary Criticism.

CR: The size of the student body—I liked the fact that you at least recognized, if not knew personally, almost anyone that you ran into

If you could change one thing about UC, what would it be?

JR: I would change some professors who employ a narrative pedagogy, instructing their students from an authoritative point of view. Teachers need to be in dialogue with students open to the possibility of diverse and positive contributions of students. I also would emphasize the academic excellence over the athletic performance which we seem to have recently stressed.

EH: Make sure people know what is available to them, so that they can take advantage of it.

on: I would tear Reimert down.

CR: The parking SUCKS.

Favorite quote:

JR: "It is the responsibility of free men and women to trust and to celebrate what is constant; birth, struggle, and death are constant and so is love, ... [yet] to be able and willing to change"—James Baldwin.

EH: "Live each day to the fullest, as you may not know what tomorrow will bring."

on: "Do it. By all means, do it" —Maya Angelou.

CR: "There is nothing to fear but fear itself."

Please note: Valedictorian Meghan Gualtieri declined to comment.

Cara Riley
Baccalaureate Reader

EH: Make sure people know what is

The Bear Truth

Column by Heather Gurk

It's almost that time of year again. The weather has been getting warmer, signaling the end of yet another semester. Final exams and papers are on everyone's mind, and soon enough, the mad scramble to find a summer job will begin.

This year, finding a summer job is a little bit different for me and other graduating seniors. Those who are not continuing on to grad school are attempting not to find summer jobs, but "real" ones, permanent ones. The thought is scary to say the least.

So far, I have not followed the lead of others around me. I have not sent out twenty-some odd copies of my resume to various businesses, some near, others far, nor have I actually scheduled any interviews. This is because I know what I want to do, and I know the exact company where I want to work. At least, I think I do. After all, who can really know for sure?

In January of last year, I sent a cover letter, my resume, and two professor recommendations to this particular company that I am currently after, and have been interested in for quite some time. I called the appropriate departments and left message after message, trying to set up an interview, which is necessary to be considered for the internship program.

When it became painfully obvious that I was getting nowhere fast, I drove to the company, filled out an application, asked to speak to someone, and was promptly told that I would need to schedule an interview by phone. Well, how am I supposed to schedule an interview if the right people are never there to answer my calls, and seemingly refuse to return them? Very frustrating.

This past winter, I went through the same ordeal with the very same company. I sent in my resume in February, and was shocked to receive a postcard from the company that said my resume had arrived and that it would be reviewed by the correct department. The last line of the message said, in bold capital letters, "NO CALLS PLEASE." In other words, we'll call you if we're interested, which will be never. Since I received the postcard, I haven't heard a single word.

I guess my whole point in writing this is to admit my great error in judgement, and to give a little advice to next year's graduating class. Don't limit your options. Even if you love the idea of working at a certain company and don't even want to consider other businesses, DO consider them anyway. Focusing all of your attention on one company that doesn't appear to have any interest in you is not only frustrating, but it is a waste of time. In light of this experience, I now plan to open my options, and search for other opportunities.

Oh, and one more thing - Best of luck to the Class of 2000!

JOIN THE GRIZZLY!!!

Meetings are on
Mondays at 7pm in the
Grizzly Office
(Third floor of Bomberger)

LETTERS FROM THE EDITORS: SIGN-OFFS

Finally...NO MORE GRIZZLY!! It's been the best of times, and the worst of times, but boy am I glad to be done. Through three years on the paper, I have seen it evolve from a mediocre paper to something that has serious professionalism and class. The hard work of all the editors, often unheard of, has proven to be the method to success. I wish everyone the best of luck as they pursue their own passions.

Steph- Congrats on yet another great semester with *The Grizzly*. Once again, your enthusiasm and passion run wild and are shown through your actions. The paper has risen to yet another fine standard with your guidance. Good Luck in the future and thanks for being there when I needed you.

Fran- Way to go! Congrats on a great semester. Your wisdom and guidance shown has a lot to be said for. And who could forget those wonderful comments to the editors (you know what I mean). Good Luck in the future.

Di- Congrats on keeping up the high quality of Sports in *The Grizzly*. You had big shoes to fill, and surpassed those with flying colors. You should great effort and success in reporting all sports and making those all-nighters to cram everything in. Good luck next semester in keeping on with the Sports Editor tradition.

Dan- Another semester down, and another great job. Your dedication and performance are phenomenal and good luck as "Head Hancho" next year. I'm sure you will take the paper to even a higher professional level.

Lauren- Thanks for all your hard work as Copy Editor, and good luck with next years paper. Your talent will definitely lead *The Grizzly* to new horizons. Congrats and Good Luck!!

Jeff- Congrats and Good Luck next semester and whatever you choose to do.

DrE- Good Luck and continued success. Thanks for all your wisdom, guidance, and good humor, along with those long nights in the *Grizzly* office (who are you fooling).

Erny Hoke, '00
Features/Photography Editor

Steph- You're probably the most positive person I know. Thanks for having the patience to put up with my complaining at all hours of the night. Every time I hear our favorite songs on the radio I'll think of the late night crew. Thanks for your wisdom and new ways to "layout" my pages. I'll remember to capitalize the headlines. You did a great job this semester. Good luck with everything next year. I'll miss ya!

Fran- Ok. Ok. I'm still working on my headlines so shhhhh! It'll be ok. Thanks for being a late night pal who always kept me on my toes. And don't worry I won't forget to move in the margins. Thanks for drawing my lines. Good luck next year with everything. Unfortunately I actually think I will miss ya! Na! (just kidding!)

Dan- You always have your page finished before me - good job! Thanks for being patient with the sports box. You'll be a great Editor-in Chief next year!

Erny- From basketball to baseball you saved the day! Thanks for the endless photos and advice throughout the semester. I wouldn't have made it without your help. Good luck next year!

Lauren- Thanks for reading the endless articles at all hours of the night (and for writing those last minute articles!) I know break up the quotes. Don't worry I won't forget that next year. I can't wait to continue working with you next year!

Dr. Edwards- Thanks for all of your endless advice. Buffy rules!

Jeff- Thanks for the late night food runs!

Megan- Thanks for helping me with my headlines and being our biggest fan!

Diane Johnson, '01
Sports Editor

THE EDITORS OF THE SPRING 2000 GRIZZLY SIGN-OFF (CONTINUED)

Another semester working on *The Grizzly*, another offensive...hmmmm

Anyway, it's definitely been interesting. Fran and I came into the spring semester not knowing exactly what to expect. Our editorial staff really came through for us, taking initiative by chasing down writers and setting tough deadlines. I have to admit that I was really surprised. And contrary to what others may say, I really think that the quality of the paper has improved greatly (especially due to the editing skills of our esteemed copy-editor/Inquirer reporter.) I think that all the staff members should be proud of what they accomplished this semester and that all of their hard work has not gone unappreciated. I would also like to thank the individual editors and staff members who have contributed so much to the paper:

Fran-I was a little nervous during that first week when you were still a little wary of the waxer, but you wound up being the champ. We definitely had the division-of-labor thing down pat; I played with the pictures on the scanner, while you busted on Dan and Diane (hee-hee). I had so much fun, and I'd really like to thank you again for your words of wisdom on the steps of Olin. Yes, shit does happen, but we've always figured a way around it. Thanks for being a great partner.

Dan (as always "The Man")-What can I say? You are the king of harassing your writers, and I mean that in a good way. Always pushing for more pages, I can't say that I've met a more ambitious newsman, always looking to keep the campus well informed. Regardless of what others may say, you will be an excellent Editor-in-Chief, and I wish you the best of luck. Try not to let anyone (you know who I mean) push you around.

Erny-Mr. Baseball was at it again. You did a great job fitting all your activities in; I don't know how you do it. It's been a blast working with you. Good luck in your future pursuits.

Chris-Get any letters from our "West-Coast Correspondent" lately? Thanks for always handling "The Bear Truth" gracefully.

Jeff-What's the deal with all those boxes in the calendar? Oh no, all the students have gone cross-eyed. You did a terrific job picking up A&E again after your hiatus, and yes, I dare say that you definitely improved it and will continue to do so. (See, I admit it when I'm being a little oversensitive.) Thanks for introducing me to so many new things (Lit Soc, Woody Allen, the Lantern); you've been an important influence on the way I look at everything. I'll miss you.

Diane-You are a riot; you always keep things interesting during the afterhours in the office. To see you and Fran fighting about the caption or a title (no more par jokes about golf) never failed to crack me up. As a former Sports Editor, I was really impressed that you managed to rope your friends into writing; you're one brave chick. I really enjoyed working with you, and I'm sure you'll continue to do a great job next semester.

Lauren-Funny how since you've been around, I'm always worrying about what little things you're going to correct in my articles (yes, this is a good thing.) I know your job must not be the most entertaining, but we try to help you out when we can (aka-1/4 everything pizzas, N'SYNC shows, reading random emails.) You've done a terrific job and have definitely made a difference in the quality of the paper. Best of luck next year.

Megan-Did you win your Pulitzer yet? Even though you're not in the staff box (yet), you definitely should have been the official Grizzly cheerleader. You helped us out so much just by being around (and the dance displays were definitely spirit boosters.) I hope that you understand how much I appreciated your support in everything and that I'm going to miss you terribly next year. You're the best, Meganie!

Dr. Edwards-Thanks so much for all your input again this semester. You've kept us honest.

Special thanks to my roommate for not minding when I stumbled in at all hours of the night after a rough paper. You're a trooper.

Finally, thanks so much to everyone else who has helped keep me sane this semester.

Stephanie Restine, '00
Editor-in-Chief

This past year on the paper has been crazy, hectic, frustrating, rewarding, memorable and way too much fun. It's been great to know that I can wake up Fran at 9 am to ask her about the layout and pepper Steph the Nephew with countless random questions. I think with everything I've learned from watching you guys, I'll be ready to work with Lauren and continue putting out a quality paper this coming fall.

To the people who've meant the most:

Steph- Your hard-work and selfless devotion to this paper over the past year has been incredibly motivating and I can only hope to do half as good a job as you have done in the future. Even though you don't know what you're going to do in the "real world" yet, I wish you all the best. I am going to miss you a lot. You better come back to visit!

Fran- You taught me about outside margins, Exacto knives and making straight lines and for that I won't forget you. Good luck with horticulture magazine! Fran? Hello? Are you even listening to me?

Erny- Your presence in the room always provided a laugh and your work on the paper as an EIC, Features and Photography editor in my humble opinion has been first rate. You helped turn this paper around and I hope to continue the trend you set. I hope you find success and always stay happy.

Chris, Jeff, Diane- The paper has been excellent this semester and it's going to be great to work with you guys again to keep it that way.

Megan- Your score on the 'Nsync quiz was really impressive and your dancing is...what's the word, cute! I look forward to working with you next year, if you can take time away from the trampoline to do some work.

Emily C and Sean K- Your hard-work and well-written articles each and every week did not go unnoticed. Too often writers on this paper seem to be underappreciated and good ones are hard to find. I appreciate the fact that I was able to find two who are extremely talented and dedicated to the craft.

Lauren- We are polar opposites with one thing in common; we both want to make this paper unbelievably awesome and amazing. My main goal next year is to get you more excited and I guess you are going to have to calm me down. Thanks for teaching me to parallel-park. Have fun at camp. See ya in August!

Dr. Edwards- Your support and guidance has been invaluable over this past semester and especially in the exciting last few weeks. I look forward to learning from you over the next three years.

To the entire staff of the Grizzly: Thanks for a successful and rewarding semester. I will make no pithy concluding statement that will raise this sign-off from sentimentality.

Jeff Church, '01
A&E Editor

---Dan Reimold, '03
News Editor

THE EDITORS OF THE SPRING 2000 GRIZZLY SIGN-OFF (CONTINUED 2)

Well, I definitely have to agree with Steph that it has been interesting. I think that we all deserve a round at The Perk one night.

Steph-what can I say. You taught me well, I now can cut and paste with complete accuracy. We've had some late nights (3:30 am) but no matter what I said previously I strangely enough enjoyed coming up to The Grizzly on Monday nights. I think because we all had so much fun and our conversations were just so bizarre. Anyway, I can't thank you enough for all of the times you bailed me out.

Dan-you've done a fantastic job with the news section. I know from previous experience how hard that section can be, but you did a great job. I especially was impressed with your weekly emails to your writers, telling them specifically what to do for the article. Those were great! Good luck next semester as Editor-in-Chief.

Erny-our features/photography editor. Once again you've managed to impress me. You've managed to lay out a features section while also being a photography editor. It's been great working with you and good luck in the future.

Chris-Thanks for doing a great job with the Opinions section. Good luck next year.

Jeff-Mr. Dependable. I loved how it was a guarantee that jeff had two pages every week-no more, no less. You did a great job with A&E, but all of those lines in the calendar drove us crazy!! Good luck next year.

Diane-What can I say? Sometimes you really frustrated me with your bizarre ways of laying out your pages on the computer. I know that I really shat on you but my "advice" was only meant to help you out. I have be honest and say that I really was impressed with your "bitch" side when rounding up the articles from your writers. Maybe the next time I see you, you won't be delirious.

Lauren-You rock! You saved us from doing at least two hours of extra work every night. Steph and I owe you so much for sticking it out the whole semester. You always entertained us with your interesting comments. Thanks so much and good luck next year as Editor-in-Chief.

Megan-LOVED your N'Sync dance! You were a trooper to stay up with us every Monday night. But that one night when you were looking through all of the old yearbooks seriously freaked me out. I also have seen that you got promoted from safety article to front page news!! Congrats! Good luck next year as Opinions Editor.

Dr. Edwards-Thanks for all of your help, especially when we had to make some tough decisions.

Fran Shaughnessy, '00
Editor-in-Chief

Thanks to everyone for another good semester. I hope to see a lot more opinions from the campus in the fall...especially with a Presidential election rearing its sometimes ugly head. Have a happy, safe summer and don't forget to register to vote if you haven't done so already. Everyone's entitled to an opinion, but if we don't at least try to make a difference, none of us are entitled to complain. Send a message, exercise the rights we tend to take for granted, stand up, stand out...be heard. See you in the Fall.

Chris Cocca, '02
Opinions Editor

I feel like I'm cheating when I say thanks to everyone since I've only been on staff for the spring semester. As copy-editor, I read every article, rewrote a bunch and still managed to miss out on some major issues (sorry Dan). Yet, in all honesty I loved it. The Monday nights I spent up on the third floor of Bomberger were always the highlight of my week.

Steph and Fran- I have NO clue how you maintained your sanity for all those hours (maybe that's why you always laughed at me. . .) Good job this year. I hope you both do well after graduation! Steph, you're the best and I'll try to be happy ALL THE TIME, Fran! Love you guys!

Jeff, Dan and Chris made my job a lot easier by having your sections all done by the time I made it up there. THANKS!

Erny - if ever there was a person who talked more or distracted me entirely from my work. . . Thanks for keeping me going on Monday nights - I know everything about the Ursinus baseball team. (Oh, and it REALLY helped that I never had to read your section.) Can't wait for the next week! Good luck after graduation! You better come back and write!

Dan - I'll have to work on my patience and "excitability" for next semester. I'll make sure to practice this summer. In the meantime, can't wait for next year! Just remember, you can handle all the organizational stuff. . . Please.

Di - I just loved reading sports articles. We'll have to work on getting the writers to be a little more punctual. Don't worry, you won't be the only one not showering on Mondays next year.

Thanks **Dr. E** for the fun, next year should be a blast.

Lauren Cyrsky, '02
Copy Editor

The Grizzly staff takes time out at 2 am (still hours before deadline) to pose for a group picture. L to R: Diane Johnson, Fran Shaughnessy, Stephanie Restine, Erny Hoke, Lauren Cyrsky, Dan Reimold Not pictured: Jeff Church, Chris Cocca, Lauren Flanagan, Heather Gurk

Management

ACCOUNT MANAGER

*** Western Montgomery County ***

Join the American Red Cross in our century-old mission of saving lives by meeting the nation's critical needs for blood. When help is needed, we'll be there. We seek a proactive, flexible individual who is motivated by challenge and has the vision to develop and organize blood recruitment activities. College degree & 2-3 years experience in Sales or Public relations required. Superior communication, organization and problem-solving skills are essential. Salary to mid 30's + benefits. Send resume to American Red Cross, Dept HR-AM, 700 Spring Garden Street, Philadelphia, PA 19123. Fax: 215-451-4130. EOE.

AMERICAN RED CROSS

2000 YEARBOOK PICK-UP

Please pick-up your Ruby 2000 Yearbook in the Alumni Office (lower level of Corson) on Wednesday, May 3rd from 8:30 to 12:00pm or all day Friday, May 5th.

****Alumni Office will be closed Wednesday afternoon and all day Thursday.**

Yearbooks can still be purchased for \$50.
Look for us in Wismer at lunchtime this week or
contact the Alumni Office at x3585.

Look Sharp.

Experience the technical excellence of Supercuts. Our highly educated stylists deliver, well ... style. Today and tomorrow's style. We're open 7 days a week, all day long. And no appointments are needed, just walk right in.

The Poet-Tree Grows at Ursinus

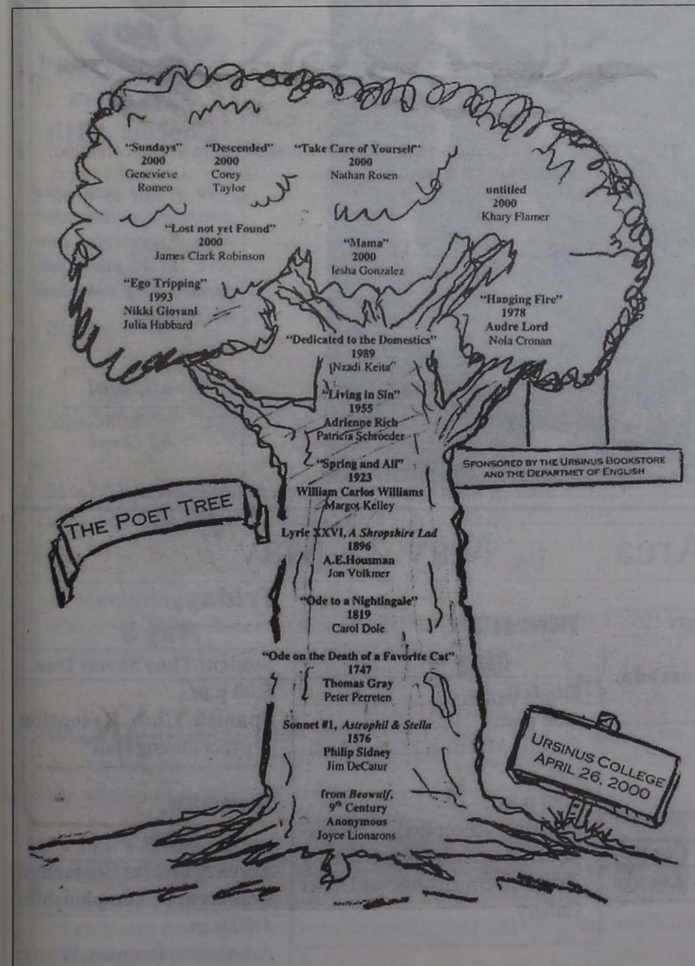

Students and Faculty Convened at Lunchtime to Display Poetry Diversity

Jeff Church
A & E Editor

In commemoration of Poetry Month, last Wednesday, April 26, poetry lovers assembled around the spiral staircase in the bookstore for a brief history of English-language poetry.

The English faculty each read a selection from his / her specialty (see the tree, below), which was followed by some creative-writing students reading some of their own original work, culminating the history of poetry all the way up to the year 2000.

Professor of English, Dr. Joyce Lionarons began at the bottom of the spiral staircase, at the beginning of English poetry, with the Old English poem "Beowulf." As the faculty members each read their poetry, the tree of poetry rapidly grew toward the present. Professor of English and Creative Writing, Dr. Nzadi Keita's original poem "Dedicated to the Domestics" was the poem that urged on, "fertilized," poetry. Her poem was dedicated to poets and their poems which are tossed aside, declared "bad," and left for cinder. She strengthens creative roots and urges this great tree of poetic history to keep growing.

The Grizzly's Poetry Corner

Hellfire and Love by Christopher Calderelli

(continued from last week)

Crackling, inciting the powers that be
To fight the storm and quell the sea
Of raging blood and feelings free

The water, the rain, blows over the tides
Raindrops of conscience with reason confide.

While passion inflames and wisdom presides.

The winds of Love, howling with madness

The thoughts of Being, tempted with gladness

The two, they swirl and struggle for endless

Moments of hold, and freedom of gain
With thoughts of the future and feelings insane

The heart pumps with thunder, the mind with its light

To see through the wonder, and harvest the plight

Steam! Billow the clouds of judgement and say

The hands that will touch and profess the way

Then words of lips on hot wings away
To rise higher and higher than clouds where they stay

And passive the flame, and raging it burns

On frail lands

Of life it turns,

The storm, brings sounds of echoing trains

Whispering lies of sorrows that reign

The dead and the willows
Fouling with crimson

Of stormy nights and rooted pains

The rain always billows

The fiery rains

Of bloody rings,

Where worms foul the season

While shorn branches sing

The empty harvest

That loneliness brings

And these burn the most

Engulfed by the flames

Infernally they boast

Of infinite blames

Culled from the ashes

Of imploded rage

The wasteland delivers

But a rose for this age

Life, but a dew

Delivered to you

A delicate potion

But only for two

And Love, this rose burns

A shimmering shade

Of glistening fire on petals of faith

Symmetrical Chaos cut to perfection

Upon a bloody stalk of thorns.

For while only one lives,

Many are made

Though each one yearns

They face all the wraith

One cut from this place

Will not be reborn

But with darkest grace

Will never be torn.

For a dozen red roses are lovely you see,

But only a dark one will eternally be.

True love,

If it is ever

Is the only love that is,

Truly forever.

Church on Film

The *Frequency* of Innovation

Jeff Church

A & E Editor

Frequency

Dennis Quaid . . .
 F r a n k
 Sullivan
 James Caviezel . . .
 John Sullivan
 Directed by . . .
 Gregory Hoblit

What should I say about *Frequency*? This is the kind of film that forces us to accept implausibility in a genre-crossing sci-fi / thriller / drama. The basic premise is this: John Sullivan finds his father's old Ham radio while the northern lights shine above New York, created through inscrutable sun-activity. These northern lights create a bridge between Frank Sullivan in 1969 and his son in 1999.

I could speculate for pages about the implausibility of radio waves going back into the past. I could bemoan the dilemma posed by time-tinkering (if John Sullivan messes with his own past, wouldn't he himself become a different person? John seems strangely unaffected, while everyone else changes).

Anyway, I could talk about the basic premise and argue that it is impossible, implausible, silly. But I would be

cheating myself. One of the great strengths of art in general is to create a world that does not necessarily seem to obey the same rules that ours does. Film is an escape. It catapults us into a world of *Star Wars*, *Blade Runner*, or *Snow White*. We know these things can't occur in the real world, but we enjoy ourselves anyway. If I close myself off from enjoying the movie just because I object to the assumptions, I would miss out in the wonders of brave new worlds.

That being said, I can still evaluate the film within the boundaries of this strong, innovative premise. Who doesn't dream about cheating death now and again?—about making the right decision instead of the wrong, deadly one. In *Frequency*, director Gregory Hoblit spins a story of the chance to set things right. Frank Sullivan died fighting a fire in a dilapidated warehouse. John Sullivan was much too young to save his dad, but he still regrets that he couldn't save him. This film's fantasy is that John can help out his dad, set things right, and enforce justice.

One of the problems of the film was that it regressed too often into sentimentality. The father / son scenes were all-too-ordinary which seemed strangely unusual given the extraordinary

circumstances. Quaid and Caviezel were strong in the all-American baseball-loving family. Quaid seems to possess characteristics that all our fathers have. It's just a shame that the screenplay wasn't better.

RATING:
 (out of 4 stars)
 **1/2

On Monday, May 1, the contributors to the Spring volume of the Lantern presented their work to students and faculty in Pfaller Auditorium. The work above was submitted by senior James Clark Robinson who was awarded this year's Cover Art Prize.

A New Chapter in the History Books: Newmaster Hurls the First Perfect Game in Centennial Conference History

Kevin Wilson

Staff Writer

Senior Lisa Newmaster threw the first perfect game in Centennial Conference history this past week. The effort came in a 12-0 win over Haverford College. Newmaster also hit a homerun for the Bears.

"I think it is a great honor for Lisa to become the first pitcher in conference play to pitch a perfect game," sophomore Sue Sobolewski said. "I was very proud to be a part of it."

Junior catcher Jody Smith had a huge day at the plate as she scored three runs while knocking two runs in on two hits. Junior Courtney Quinones added to the assault as she had two hits including one home run.

Ursinus kept the pressure on Haverford

in the second game as the team won easily by a score of 11-0. Sophomore pitcher Kristin Kinelski picked up the victory by going the distance while only allowing five hits. Sophomore Sara Smith helped Kinelski out offensively as she went 3-for-3 while smacking in four runs. Sobolewski also knocked in three runs on two hits to help win the game.

The Bears were able to sweep conference rival Gettysburg College. The team took the first game by a score of 2-1. Newmaster went the distance to pick up the victory as she struck out six throughout the game. Ursinus picked up both runs in the first inning and was able to hold on

for the victory. Quinones singled and then scored off a RBI double hit by freshman Jess Troutman. Sobolewski then drove in Troutman on a triple. Junior Kelly Meyer added two hits throughout the contest.

Freshman Denise Bozenski

allowed only three hits in five and one third innings as she helped guide Ursinus to a 3-2 victory. Newmaster came in to pitch a perfect one and two thirds innings to pick up the save. Bozenski scored a run in the third to tie up the game at 1-1. She was bunted over to second by Meyer and then was drove in by Troutman. The Bears

picked up two more runs in the fifth when Quinones reached on an error and then Troutman hit a single. Senior Kara Johnson then drove in Quinones on a single. Freshman Jenn Prendiville then knocked in Troutman on a RBI single.

"We hit the ball well and we flat out just wanted it more than them," Sobolewski said. "It was obvious that we wanted the sweep more than they did."

Ursinus unfortunately dropped a double header to Muhlenberg College this past Saturday. The Bears were defeated 3-1 in the first game and 8-0 in the second. Junior Nicole Erdosy scored the lone run of the afternoon in the sixth inning on a RBI by Meyer.

The team now stands at 33-10 overall and 12-4 in Centennial Conference play.

"I think it is a great honor for Lisa to become the first pitcher in conference play to pitch a perfect game. I was very proud to be a part of it."
--Sophomore Sue Sobolewski

Sports Profile of the Week

Lisa Newmaster

Year: Senior

Sport: Softball

Major: EcBa

Favorite class at Ursinus: Accounting 105 with Mr. Bowers

Most Memorable Moment at Ursinus: "Back when I was a freshman, we won the ECAC's. It is something that I will always remember."

Accomplishments:

- Centennial Conference Pitcher of the Year-'98,'99
- Centennial Conference Academic Honor Roll

What her teammates say about her: Junior, Jody Smith: "Lisa is an outstanding player and person. She has been a key to the team's success since she arrived as a freshman."

"A Few Years from Now": "I hope to be established with my career, possibly be married, and still find time to prepare to have kids."

"Ten Years from Now": "I look forward to a typical life with a nice house and a loving family."

Compiled by Andy Owens

UC Track Gears Up For Last Meet

UC 4x400 meter team poses for a quick photo at the Penn Relays.

Photo by Mariana Morris

Stephanie Ott

Staff Writer

On Friday, April 28, the Bears 4 x 400 meter relay team competed in the Penn Relays at Franklin Field. Freshman Latonia Tiggett, sophomores Eileen Duffy and Mariana Morris, and junior Nola -Rae Cronan. Also junior Yori Adegunwa placed 19th in the 400 meter hurdles. Adegunwa took first place in his heat and qualified for the NCAA Nationals.

Racing towards the end of the season, the Ursinus track and field team will face its final track meet this weekend at Swarthmore College for the Centennial Conference Championship. Hoping that the team's hard work throughout the year

will pay off, this meet is the final test. The championship meet will include all teams in the Centennial Conference. Also for an added challenge, the heptathlon will include seven events in which a number of UC track members will be participating. The three-day track meet starts on Friday, May 5 and continues into Sunday May 7.

"I think our team has really benefited from the addition of Coach John Marshall this season. Together with Coach Medina, we've learned that with hard work and dedication we can build a successful team," junior Andrea Lister said. "Losing only one senior, Marc Clymer, to graduation, the team has built a solid foundation for the future."

Bears Capture Back-to-Back CC Title

Erny Hoke

Features/Photography Editor

The Ursinus Bears' Baseball team won its second straight Centennial Conference title, with their win over Johns Hopkins 12-1 on Monday. UC finishes the regular season with a 16-2 CC record, and 27-9 overall.

Due to rain, the Bears had a busy week as they defeated Swarthmore 9-8 and 15-1, Muhlenberg 8-2, Western Maryland 2-0 and 5-4, and Johns Hopkins 12-1. Their lone loss on the week came at the hands of Johns Hopkins 13-3 on Monday.

On Wednesday the Bears traveled to Allentown to face

Muhlenberg. Senior John Hollinger took to the mound and received the victory, throwing eight innings of three-hit baseball. Senior Dave Pierce was back on the mound for the first time in almost a year as he struck out the side in the ninth. Junior Mike Ottey, Barrett, and Smith each collected two hits, while senior Craig Jones and Toto knocked in two apiece.

The Bears romped on Swarthmore on Friday in seven innings 15-1. Hunt picked up the win, as he went five innings and allowing just one run. Barrett went 3-3 on the day with three runs scored and two RBIs. Toto added two hits as he knocked in three and scored three himself. Sprague, Kyle Goldwater, and

junior Brian Carney all collected two hits in the seventeen hit route.

Ursinus played host to Western Maryland on Saturday for a Centennial Conference doubleheader. Once again, behind the pitching of seniors Matt Wiatrak and Kyle Goldwater, the Bears swept the Green Terror 2-0, and 5-4. Wiatrak threw a complete game three hitter, while striking out ten batters in the first game. Kyle Goldwater also threw a complete game in earning his ninth win of the year. UC came back from a 4-0 deficit on a 3-3 performance from Smith, and two hits from Toto.

UC then finished the regular season on Monday in Baltimore, as they faced conference foe Johns Hopkins. The Bears lost the first

game 13-3 in the error plagued game. Ursinus committed seven errors after jumping out to a 3-0 lead in the third inning. Hopkins responded with seven unearned runs enroute to their victory. But the Bears did not give up, as they need to come back and win the second game to secure the title. And UC did just that. The Bears pounded Hopkins for eight runs in the third inning, in the 12-1 win. Kyle Goldwater struck out five in his complete game four hit performance.

Barrett put the game out of reach with his three run homer in the sixth inning. Ottey capped off the day going 3-3 in the second game with three runs scored. Pierce also went 3-4 while scoring twice and knocking in two.

Kyle Goldwater picked up his tenth victory of the season against Hopkins, surpassing last years nine win performance.

With the win over Hopkins, UC won the Centennial Conference title. This also places Ursinus in the NCAA Division III Regional Playoffs for the second year in a row. The Bears are now ranked 23rd in the nation and 3rd in the Mid Atlantic Region.

The Bears have nine seniors graduating, Matt Wiatrak, Kyle Goldwater, Brian Goldwater, Jim Ward, John Hollinger, Dave Hunt, Dave Pierce, Craig Jones, and Joe Sprague.

Unpredicted Ending for UC Lacrosse

Sue Patton

Staff Writer

This was supposed to be the year. The ladies of the UC lacrosse team felt it from the very beginning. And despite a bump in the road they call Gettysburg, hope was not lost. However, that last string of hope for an NCAA bid was lost on April 29.

The Bears traveled to Washington College to take on the Shorewomen. The beautiful weather was a pleasant break from the cold they have been putting up with for most of the

season. It was a perfect day for lacrosse. Unfortunately, the weather was not enough to pull the Bears to a win.

Despite dominating draw controls and recording one more shot than the Shorewomen, the bears fell three goals short when time expired. The game was full of controversial calls by the referees.

Two Ursinus players were taken down to the ground by either a push or a trip without any foul placed upon the Washington player. Sophomore Erin Fitzgerald scored two goals

which were taken away by the referees due to bad judgements, but not without heavy protest from both coaches.

The ladies managed to decrease a five-goal deficit down to only one. However, as time was running short, the shorewomen managed to secure a three-goal lead.

The loss was a complete shock to players and fans alike. A NCAA bid is not a possibility for the Bears now, which raises the question of just how good this third place team is (or was).

Those who participated in and witnessed all can only offer the

answer to that question the hard work put forth by the ladies.

"This has been the most successful season since I have been here as far as our record of 10-3 has shown. As well as we were doing this season, we weren't expecting it to end so quickly," senior tri-captain Taryn Brackin commented. This has been the general feeling among the rest of the team when they begin to reflect on a season that was supposed to top all the rest.

Coach Reilly assured those who were present at the spring sports dessert that she is measur-

ing the season by the months and months of hard work, 6AM practices, and team comrodery. And for a team that had their sights set on a NCAA championship title, it is hard to focus on anything but the devastating losses against Gettysburg and Washington.

"Unfortunately the season did not live up to our high expectations. But our accomplishments are significant and deserved," senior offender Ashley Claus commented on the effort to look beyond defeat.
