Summer School Subjects to Be Selected Now

Ursinus summer school offers an excellent opportunity for students to accelerate or to make up credits. Seven summer months may be achieved by registering during any seven weeks of the summer school, June 14 to September 16. The following courses will be offered: (1) Those which are not a part of the regular curriculum; (2) Those courses which fulfill the requirements of subjects of interest to students for the May Day committee, and (3) Those courses which are in the immediate interest of students for the May Day committee.

Don't forget: Religion in Life Day, Wednesday, May 25

ATTENTION, GIRLS!

Elections will be held for the Student Senate for the spring and will include shots of the various pictures were taken by Mr. Jones the spring will be discussed. All elections will be present, since plans for the May Day committee, and the annual trip to Washington, D.C. will be made.

On Monday, February 24, in the Faculty Room of the library, all students will be present, since plans for the May Day committee, and the annual trip to Washington, D.C. will be made.

6th Foreign Policy Institute to Be Fr.

"Add or Trade" is to be the topic for discussion at the Sixth Annual Foreign Policy Institute to be held at the University of Pennsylvania Museum, 34th street below Spruce, on February 27.

The all-day session will break up into three sessions with the first beginning at 9 a.m. and presenting all discussions on this subject. The second will begin at 11:45 a.m. and present different views on the subject. The third will begin at 2 p.m. and present further views on the subject. All discussion sessions will be open to the public.

Freshmen and sophomores will be present at each session, and each leader of the discussion groups will be present at each session. All freshmen and sophomores will be present at each session.

The day will be divided into three discussion groups with the first at 9 a.m., the second at 11:45 a.m., and the third at 2 p.m. The discussion leaders will be John A. Brown, Jr., Dean of Men and Women; Dr. Edwin C. Codrington, head of the department of History, Lafayette College; and Dean C. H. Balderston of the Wharton School of Finance and Commerce, University of Pennsylvania.

At 4:15 p.m. the evening session will commence with the presentation of a debate on the topic "American Foreign Policy and the United Nations" (Continued on page 5)

Rev. Flynn to Speak Tonight

"One God—As Worshipped in the Catholic Faith" will be discussed tonight by the Rev. Dr. Anthony Flynn. Dr. James L. McNeill, professor of economics, will be the moderator.

Rabbi Harold L. Kramel of the National Synagogue, correspondent of the first interfaith student last Monday at 4:30 o'clock in Bomberger chapel. Dr. Allan M. F. Philipson, president of the conference organist.

Rabbi Kramel's talk covered the foundations of Jewish faith and left some specific queries to the audience in the question period. The history of the discussion included the following: Rabbi Kramel explained the historical development of Christian ceremonies and stressed the point that all places place strong emphasis on conduct rather than on belief in the hereafter. Both Jews and Christians share the belief that there is a God to love their God and to love their neighbor as their chief commandment.

In the question period which followed, Rabbi Kramel was asked about Jewish beliefs concerning sin and redemption, and what difference 20th century worship, life after death. He also clarified the idea of the role and meaning of Jewish worship and their view of Divine degrees qualifying him to speak on the topic.

Mr. Detweiler will be present at the meeting.

Jones to Show Slides

The International Relations club has arranged for Mr. H. Lloyd Jones, noted writer and photographer, to speak on "The Middle East" on Monday, February 28. The meeting, open to all interested in foreign affairs, will be held in the library at 4:30 p.m. The slides will be shown by Mr. Jones.

Dr. Vost Reads Short Stories

At Second English Lit Reading

Dr. Calvin A. Vost read a series of short stories at the English Reading Tuesday, February 22. The selections he chose were:

1. "The Virginian" by Louis D'Arcy, featured by Baby by Kate Chopin. Western Frontier life in the Far West.

2. "The Love Letters of Smith by H. C. Bunner, greeted to the group a mixture of the amusing and serious mood which can be found in short stories.

The next reading will be held Tuesday, February 24 in the Faculty Room of the Library. All students are welcome.

Cortino to Sing

The Ursinus quartet, the Pitchforks, will sing Bob McCurry '34, Joe Blunder '34, and Warren Poley '34, will present a program of sacred music at the United States Seminary for Foreign Missions, Saturday night, May 28 at 7:30. Each semester will present programs of the chapel each night during this week. Last night the quartet sang for the Collegiate-Grande family high school. After their regular program of sacred music, they led group singing.

Courses in the spring will be discussed. All courses will be present, since plans for the spring will be made.

8th Foreign Policy Institute to Be Fr.

"Add or Trade" is to be the topic for discussion at the Sixth Annual Foreign Policy Institute to be held at the University of Pennsylvania Museum, 34th street below Spruce, on February 27.

The all-day session will break up into three sessions with the first beginning at 9 a.m. and presenting all discussions on this subject. Fraternities Sign 54 Men

On Monday afternoon, February 23, the six fraternities, Zeta Chi, Delta Mu Sigma, Delta Phi Lambda, Delta Mu Sigma, Delta Phi Lambda, and Delta Chi, gave out bids, culminating the 1953 social season. The following received bids:

- Zeta Chi—Phil Smith, Wayne University
- Delta Mu Sigma—Bob Friend, Pittsburgh
- Delta Phi Lambda—Tom Ayre, Moorhead State, Kansas
- Delta Phi Lambda—Bob Ackley, Illinois State
- Delta Mu Sigma—Bob Crigler, Art Institute of Chicago
- Delta Chi—Dick Hennessey, Erin To, Tom McCoy, Tom Townsell, Jack Wilson

Dean Charles Doan, Dave Hayner, Roy Craddick, Jeff Dittmer, Don Chew, Bernie Voyt, and Karl Behmann, Frawg Tibble, chairmen of the social committee, conducted the bidding.

Science Majors Awarded Atomic Energy Posts

Several majors in the physics, chemistry, or engineering field are eligible for Atomic Energy Commission fellowships in radiological physics for the 1953-54 academic year. Radiological physics is a new expansion of science. It is concerned with health physics, radiobiology, radiotrace isotope measurements and similar fields which use of radiotrace isotopes or the release of radiation phenomena in the human body.

About 75 fellowships may be awarded to qualified graduate student. A study must be carried out in collaboration with a research laboratory operated by the University of California, the Brookhaven National Laboratory, another by the University of Minnesota, the Oak Ridge National Laboratory, the third by Van Andel Institute, the Oak Ridge National Laboratory, Massachusetts Institute of Technology, or Cornell University. In each case, the research with be directed by a professor or a student.

The program is accredited for graduate students in physics or advanced degree.

The fellowship consists for $150 per month, with an allowance of $30 per month for the dependent child. Independent University tuition and fees are paid for by the Nuclear Science Laboratory, another by the University of Minnesota, the Oak Ridge National Laboratory, and the Oak Ridge National Laboratory.

Margie Fretz found herself in last year, and your classmates didn’t quite know how formally to address you. This is the situation Marjorie Fretz found herself in last year when she returned to Ursinus as assistant to the late Dr. J. Harold Brownback, Professor of Biology.

Miss Fretz completed her college work in three years and received her bachelor’s degree in science in 1935. She was requested to return as Dr. Brownback’s assistant last year and this year, and was appointed an instructor in biology. The young dentist in one of 21 persons on the Ursinus faculty who have done their undergraduate work at Ursinus. This is about 40 percent of the total.

At present the young instructor is busy scheduling activities on the campus calendar. Her own schedule includes lecturing, assisting in laboratories, doing office work, helping to schedule students’ courses, and taking courses at night for her master’s degree which she will receive in June.

This ambitious young lady would like to have her dentist’s degree but for the lack in which she works at Ursinus.

Miss Fretz appears to like the atmosphere in which she works in the high schools of Pennsylvania, but she prefers to stay.

Aimee Matz, the young dentist didn’t pursue industrial or laboratory work, because she would refuse work with students technic.

With all of this work to do, it hardly leaves time for Miss Fretz to have time for anything else. The only time she manages to squeeze in a smattering of the arts is this year. Last December was the sixth time she attended the symphony which accompanied the singing of The Messiah. The artistic stage also enjoys attending the theater and concerts, knitting, drawing, painting landscapes, dancing and delving into photography.

Students Examine Kimberton Farms Teaching Methods

On Thursday evening, February 19, a small group of four set out for a visit to Kimberton Farms. No one had ever taught a class on this subject, and most of us thought we were going to visit an ordinary open house evening in a good traditional school. The evening turned out to be an inspiring one for many future teachers and one which will be long remembered.

As we soon to learn Kimberton Farms is no ordinary elementary school, but one unique in every respect. Located in farm country the school is built to blend with the beauty of the countryside, and nature were the focal points of this trip.

The children under this new philosophy are taught academic subjects for one hour and a half in the morning, and spend the rest of the day in cultural classes such as music, arts and crafts, and physical education. The stimulation of creative ability is the central theme in the teaching. Academic subjects are taught for three week periods and then that particular subject is taught again for awhile to permit the "smoking in" process. French and science are begun in kindergarten and taught in every grade. The same teacher stays with the class for at least five years. The teachers were interested in the children’s progress on beauty. Even the spelling papers are given beauty which to look at and decide if the work is pleasing. The work of the children was shown to us as the children were interested in the work of other children. We were shown the children’s work in their classrooms, and we were able to see how the children were working at the end of the school year. By leaving Kimberton Farms, we were shown how the children who had entered high school were doing. By this time we had become interested in the work of this new type of education. We had the pleasure of attending a lecture by Mr. Harwood, a British teacher.

Mr. Harwood gave an interesting explanation of the "Walworth" system of education which is founded by Rudolph Steiner and which is done in most of the schools in England and America. The natural rhythm is well developed in the child in education. In this manner the creative ability of each child is stimulated. The Kimberton Farm school is an excellent illustration of how well the new philosophy can be utilized in practical application. The traditional classroom becomes the environment of seeking experiences for boys and girls.

After the lecture we were shown more and then enjoyed delicious refreshments. We were introduced to Mr. Maree, the founder of the school, and the very gracious principal, Mrs. Kuhrt Wieneke. We were quite interested as we taught the children we had a challenge to meet. The progressive forms of teaching are being used in this school, and we had to depend entirely on the ingenuity, understanding, and ability of every teacher.
Drexel Rallies in Last Period to Triumph 62-52

Score Tied at 44 After Three Periods; Gene Harris Tallies Twenty Points

Gene Harris took over where he left off against PMU two weeks ago, but his fine effort was not enough as Drexel defeated the host Owls, 62-52, last Wednesday afternoon. The Bears played a brilliant game for three periods and an outstanding basket in the last minute. The Owls took the lead from the start and were never headed in the final minutes of the third period.

Many of the onlookers expected a one-sided game when they noticed that the familiar numbers 77 and 22, of Bob Swett and Andy Carter respectively, were absent when Ursinus took their warm-up drills. As soon as the opening whistle sounded, the partisan crowd showed the Owls their support. Herb Knull led off with a quick basket and Walker dropped in a feed for Drexel. Ralph Schumacher's early goal tied the score to the letter and Gene Harris set the pace as he made good. The Owls also took 72 shots for baskets to Drexel's 32. Rebounds told the story of the game. The Bears snatched 23, most of them in the first half. To the Owls 20. Prominent grabbed 12 and Walker 10 for Drexel. Edy led the boards with seven.

Totals: 17 2

The Bears played an aggressive game for three periods, scoring the majority of their points in the first half. The Owls scored only six points in the entire third period. In the third quarter, the Owls scored only 11 points, while the Bears managed to put 15 points on the board.

In the fourth quarter, the Owls managed to tie the game, with a 21-21 tie. However, the Bears regained the lead, scoring 16 points in the last quarter. The Owls were unable to score any points in the final minutes, ending the game with a 37-35 score.

Celebrate the Little Things with Luckies

Do you want to enjoy the little things in life and treat yourself to something special? Look no further than Luckies, the perfect blend of flavor and quality. With a range of delicious and indulgent flavors, Luckies is the perfect choice for anyone who wants to savor the small pleasures in life.

Make Every Day Count with Luckies

Are you looking for something to make your days a little brighter? Look no further than Luckies! With a range of flavors to choose from, you're sure to find something that suits your taste.

Order Luckies Today and Treat Yourself!

Experience the joy of Luckies today! Whether you're looking for something to enjoy on your own or share with friends and family, Luckies is the perfect choice. Order now and enjoy the little things in life!
Mermaids Dunk Drexel; Lose to Powerful Garnet

The Ursinus Mermaids captured their second Mid-Atlantic Conference title by outscoring Drexel in the final minutes of the game, 22-81. The defeat sent Drexel to the third place finish in the conference.

Thursday the Ursinus Mermaids faced their toughest test, as they took on the powerful Garnet. They came away with a strong victory, scoring 22 points. The game was not without its challenges, as the Garnet fought back with a 10-2 run, but the Mermaids were able to pull ahead with a 14-2 run of their own.

Wednesday in the T-Gym the Mermaids faced off against the powerful Garnet. The game started off with a 10-2 run by the Garnet, but the Mermaids quickly took control with a 14-2 run of their own. The Garnet tried to make a comeback with a 2-0 run, but the Mermaids were able to hold them off. The game was a testament to the determination and grit of the Mermaids.

The Mermaids have been a consistent force in the conference, and their victory against Drexel was a strong indication of their dominance. They are looking forward to the upcoming conference championship game, where they will face off against the top teams in the conference.

The Mermaids are currently ranked third in the conference, but they are confident that they can take the championship. They are looking forward to the challenge of facing off against the top teams, and they are determined to come out on top.

The Mermaids have been working hard to prepare for the championship game, and they are ready to make a strong showing. They are looking forward to the opportunity to prove themselves against the top teams in the conference.

The Mermaids are looking forward to the upcoming conference championship game, and they are determined to come out on top. They are confident in their abilities, and they are ready to make a strong showing. They are looking forward to the opportunity to prove themselves against the top teams in the conference.
