**A GOOD RAT DOG:**

When you go to trap a rat, you will find it well to take a dog with you. There are three things to be considered, and in the first place, you want a dog that will chase the rat and not be afraid of it. In the second place, you want a dog that can smell out the rat and find it. In the third place, you want a dog that can catch the rat and hold it. If you find a dog that will do these three things, you will have a good rat dog.
