COLLEGEVILLE, PA

VOLUME 27 ISSUE 24

## The Week in Pictures

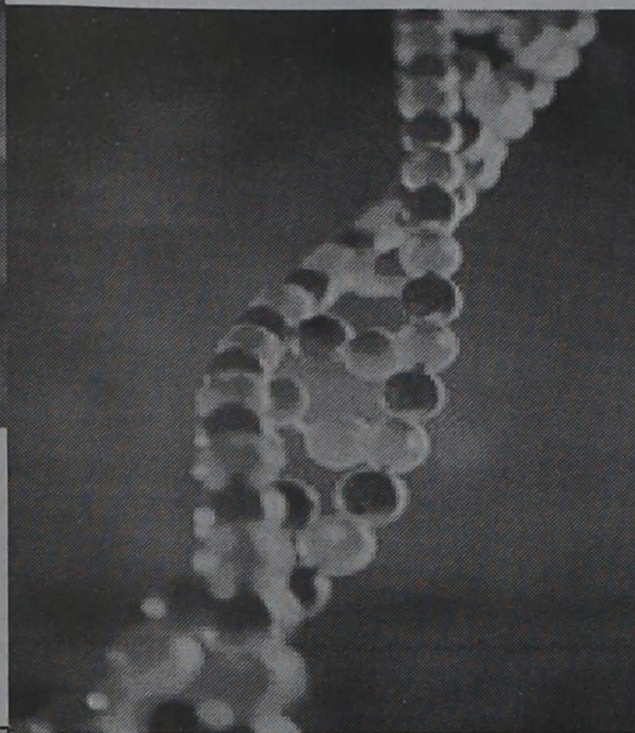

Compiled by News Editor Quinn Dinsmore with information from College Communications

Annual Student Exhibition 2003

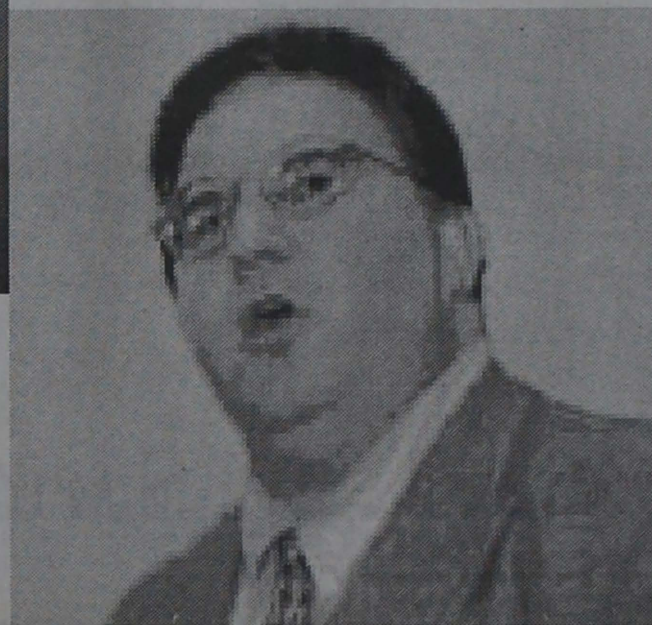

The Annual Student Exhibition 2003 opened in the Berman Art Museum on Tuesday and runs through May 17. For a list of student winners, see Page 3!

The "Hooray for DNA" celebration was held last Wednesday to mark the 50th anniversary of the discovery of DNA.

The newly formed Ursinus Forensics team competed in four tournaments this semester, taking home various awards. Pictured from left to right, John Mohl, advisor Helen Karchner, and Casey McCullough

John DiIulio, Jr., the Davis Lectures on Religion, Politics, Justice and Ethics, presented his fourth and final lecture on Wednesday, entitled, "God and Man at Yale Revisited: What's the Future of Religion at Top Colleges and Universities?"

### Political Theorist Discusses Democracy and Terrorism

Tia Larese  
Grizzly Staff Writer

On April 23, 2003 Dr. Benjamin Barber spoke to Ursinus Students and Faculty in Olin Auditorium at 7pm. Barber is currently a professor of civil society at the University of Maryland. He is a democracy and terrorism expert, as well as a political theorist.

President Strassburger began the evening by describing the history behind the Pancoast lecture, which Barber presented this year. This lecture is named in honor of the late G. Sieber Pancoast, an Ursinus alumnus and professor, who was extremely involved during his duration at Ursinus, and after. Barber's speech itself dealt with democracy and interdependence related to current events of today.

Barber began his speech talking about how today is a "World of Interdependence," one in which every country affects one another, whether we realize it or not. He related his theories to many current events. The ones most mentioned included September 11<sup>th</sup> and the War with Iraq.

He blatantly stated the problems with the recent war: 1) The U.S. Law states that war should be defensive (in a nutshell) 2) An offensive war is against International Laws 3) Doesn't work (i.e.

It doesn't prevent terrorism).

Barber described that war won't stop terrorism: "Fear against fear won't work, because fear is the one weapon terrorists have."

The second half of his speech dealt with democracy, specifically the fact that it is a possible solution for the political problems in today's world. He gave a simple explanation of what democracy is and how it could be achieved in other nations. However, he continually emphasized that Democracy is the "right of a people to make their own mistakes." If the U.S. did not progress to a democracy in 6 months, how can we expect Iraq to do such?

Barber's strong political views and persuasive language tried to engage the audience into seeing current affairs in a new light. It seemed his overall suggestion for the United States and the world is to "Democratize Globalization" or "Globalize Democracy." Also, he told audience members to look out for September 12, 2003 - Interdependence Day.

Until next year's Pancoast lecture, UC Students will be left with the thoughts and ideas of Dr. Benjamin Barber, whose theorizes that "Interdependence is now our reality."

### Ursinus Students Celebrate Spring with a Fling

This year's Ursinus College Spring Fling week was April 20-27, 2003. The entire college community was invited to take part in the festivities, sponsored by the Campus Activities Board (CAB). On Monday, Collegeville Squares was at 8:00 p.m. in Wismer Lower Lounge. It is Ursinus's version of "Hollywood Squares". Prizes included gift certificates to King of Prussia Mall and Best Buy.

On Tuesday, Rita's Water Ice was given out in Olin Plaza at noon.

The weekend movie at 8:00 p.m. in Wismer Lower Lounge was "Catch Me If You Can" with Leonardo DiCaprio.

On Sunday the Spring Fling was held outside of Helferrich from 1:00-3:00 p.m. There were inflatables, water games, cotton candy, snow cones, and popcorn. There were also wax hands.

Junior Chrissie Fecenko says, "Spring Fling was incredibly well

planned this year. I especially enjoyed the wax hands because it was a new and different attraction. It seemed to be everyone's favorite. All the inflatable toys were fun, and I loved the snow cones."

Later on Sunday, Casino Night and Glowzone were in Wismer Lower Lounge from 7:00-11:00 p.m. Those in the audience had the opportunity to win prizes like Blockbuster gift certificates and DVDs. Glowzone transformed

Wismer Lower Lounge, with glow-in-the-dark paint, music, and smoke machines.

Junior and CAB President Meghan Rooney says, "Spring Fling was better than I could have imagined. Casino Night was the best part of the week."

# More Responses to Berliner's Article...

**Brianna Worley**  
*Special to the Grizzly*

In regards to the article, *Environmentalists Succeed*, printed in last week's paper, I would just like to say how offended I was. As an environmental studies major I know how much we impact the planet, whereas some people who live in bliss are blinded by denial or to put it nicely, lack the knowledge of reality. This is not to say people other than environmentalists don't care but that they don't know what's happening outside of their own little bubble.

Our relationship with the Mother Earth has had grave consequences. A case in point is the passenger pigeon. When settlers of the Ohio Valley looked out over the skies these birds turned day to night, for there were millions of them, yet by the 1910 only one existed, in captivity. The reason these birds died out was not because of natural selection or even evolution, but

because of the combined effects of our ignorance of their ecology, our rampant clearing of their forest habitat, and uncontrolled hunting. The passenger pigeon was once the most populous species on earth, but is now extinct; thus proving that man's relationship with nature is both complex and can have unforeseen and tragic consequences.

However, environmentalists are not degrading man as the article seems to convey, rather they are promoting the planetary community. Environmentalists only want us to see what we as humans are doing to the environment and to realize that we are only a part of the whole. Stating that environmentalism is the enemy of man, the enemy of human life just goes to show how oblivious some people truly are. For the exact opposite is true; environmentalism seeks to

ensure the continuation of life on earth; it is the ally of all living creatures.

Michael Berliner's article insinuates that environmentalists are out to get man, however we only want people to see the destruction they are causing and together create a change. Though it is clear that intrusion is necessary for human survival, there is a limit to how much our planet can take. Thus, environmentalists are not damning people as evil-doers but as the primary cause of extinction mankind must learn that Nature is a part of the whole, not meant to be annihilated by the hands of man. Each one of us maintains different beliefs and values but we all need to follow the golden rule (do unto others as we would have done unto ourselves) even when it comes to Mother Earth.

And upon ending this rebuttal I am going to quote Aldo Leopold, who asks do we not already sing our love for and obligation to the land of the free and the home of the brave? Yes, but just what and whom do we love? Certainly not the soil, which we are sending helter-skelter downriver. Certainly not the waters, which we assume have no function except to turn turbines, float barges, and carry of sewage. Certainly not the plants, of which we exterminate whole communities without batting an eye. And certainly not the animals, of which we have already extirpated many of the largest and most beautiful species (Land Ethic, 240). Therefore, environmentalists want us to value nature, not shun progress. Simply put, we must be responsible with the resources we are going to use.

Unsigned editorials appearing in this section represent the opinion of *The Grizzly*. All other articles represent the opinions of their authors and are not necessarily representative of the school's and/or this paper's position.

**Submissions**

*The Grizzly* is produced by and for the students at Ursinus College. *The Grizzly* is supported by advertising and subscription revenues and student fees, and is published weekly throughout the academic year. Direct any questions, complaints, and/or comments via e-mail to Grizzly@ursinus.edu.

## Greek Week: a Blast!

**Kelly Gray**  
*Grizzly Editor-in-Chief*

Once again, an eventful Greek Week has come to end at Ursinus College. With the wonderful help of Austin Duckett, Greek Week Committee Members, and of course, the Greeks, Greek Week was a fun time to be had by all.

In a change from last year, Greek Week kicked off with a Greek rally in Reimert. Nearly all of the Greek organizations gathered with their banners as well as rocks and marched down to Wismer. This event was fun to join together as Greeks and display pride to the campus.

As the week moved on, the Greek organizations gathered together to play in the annual Greek Feud. With participation by almost every Greek organization, there was competition and fun for everyone. With questions such as "What is the BEST PARTY HOUSE on cam-

pus?" "Who is the hottest female professor?" "What is the best time to make the 'walk of shame'?" and "What is the dirtiest house on campus?" it allowed everyone to have a fun time.

Another event planned for Greeks was the Volleyball Tournament and Cookout. On such a beautiful day, Greeks had the opportunity to compete against each other and have a delicious cookout. Also, the Greeks had the opportunity to create their mascots out of food in Wismer.

Throughout the entire week, Greeks had the opportunity to compete and have fun with their organizations and other Greeks. The events brought the Greek community closer together and hopefully, the campus realized the bond Greeks have as well.

**Patricia Ruby**  
*Special to the Grizzly*

Rarely have I felt the urge to react publicly to even the most offensive articles, but Michael Berliner's opinion published in the April 17<sup>th</sup> issue of *The Grizzly* sent me scrambling for my laptop. Though he is obviously NOT an environmentalist, his article also suggests that he is ignorant of the definition of environmentalism. Semantics, however, is not the issue. Environmentalism is - the goal of which is not the demolition of industrial civilization as Berliner would have you believe, but the development of a sustainable society. Environmentalists, like Aldo Leopold, recognize that nature supports all human life and so protecting it is essential to ensuring human survival. If Berliner had made the effort to familiarize himself with environmentalism before ranting about how human life will become impossible as a result of it, he would realize that the actions of environmentalists actually improve the quality of human life.

Issues, like acid rain and deforestation, ARE dangers facing humankind, but ignorance, blatantly illustrated in Berliner's article, may pose the greatest challenge to environmental campaigns. Berliner criticizes the limited exploitation of practical energy sources, such as nuclear power and oil, which are relatively inefficient and cause massive pollution respectively. Practical in the long run? I think not. He suggests that housing and employment opportunities are sacrificed to endangered species when in reality, the reverse is more accurate. Human activities eliminate thousands of

species every year! Medical research is hindered less by animal rights activists than by the loss of potentially revolutionary drugs and models that disappear as humans reduce biodiversity at an alarming rate. Since an estimated 18 million rodents are used in research and millions of acres are logged in the United States alone each year, the rights of mice and trees are hardly an issue. Berliner claims that environmentalists only target humans, but they also manage non-native species in their efforts to minimize the disruption of nature. Humans are just the greater adversaries because unlike all other species on earth, they do not play by the rules.

Humans are not subject to the laws of nature that maintain the ecological balances that allow our planet to exist as we know it. Humans tend to lack harmony with nature. Unlike the wolf that can appreciate the time and energy required to secure a taste of sheep, people rarely see beyond the lamb chops on their plates. By making people more aware of the impact of their actions on the world in which we live, environmentalists hope to alter the way people interact with their environment.

Berliner claims that people must intrude upon nature to void pestilence and famine. One of the greatest factors influencing the new emergence of infectious diseases is the intrusion of humans into virgin territory. Many outbreaks of disease occur when people are exposed to new pathogens as they encroach upon previously uninhabited areas especially in the tropics. Additionally, humans will not avoid

famine through intrusion as Berliner suggests, because the lack of food in certain areas has nothing to do with a lack of resources. Read Francis Moore Lapp's *Diet for a Small Planet*. Berliner describes human behaviors as intrusion because he believes that environmentalists perceive nature as a world without man and so prohibit humans from using it.

Environmentalists do not prohibit the use of nature, only the ABUSE of nature. They constantly consider the role of humans in the natural world and acknowledge that they could further their goals if people saw humans as part of a community with nature. If people perceived themselves as part of the natural world, Leopold suggests that respect could be fostered for the resources we have available to us. By cultivating a greater sensitivity to and awareness of the relationship between humans and nature, environmentalists may convey the idea that nature has more than economic value. Even if non-environmentalists fail to appreciate the innate value of the natural world, educated people realize that resources must still be managed sustainably or ecosystems that support humans will not serve this purpose forever. If people refuse to acknowledge the impact of humans on the environment, nature will cease to be the commodity that many now take for granted.

To prevent this outcome, environmentalists must dispel the myths that individual behaviors do not matter and that people are outside the realm of nature. Our

actions put us right in the center of it, since we affect every natural process on earth! In order to become a more sustainable society, we should start by educating people about our place in the natural world.

Contrary to Berliner's opinion, environmentalists are NOT opposed to change! The goals of environmentalism require it! Technological advances have allowed people to pollute less, reduce wastes, and improve the use of energy. Many innovations along with changing perceptions are actually pushing us in the direction of a more sustainable society!

That is the goal of environmentalists. Environmentalism is not about sacrificing human lives and happiness to the nature gods. It is about changing our perceptions and behavior so that everyone can enjoy a long, high quality life without jeopardizing that standard for future generations. We stand to lose the most if misconceptions propagated in articles like Berliner's are not addressed. Environmentalists attempt to help people understand how their behaviors impact the natural world in order to prevent the degradation of nature and to promote a more sustainable way of life. Environmentalists improve the quality of human lives by maintaining healthy ecosystems that not only provide tangible sustenance but also fulfill the emotional needs of people who crave the experience of pristine wilderness. Environmentalism IS the philosophy of reason which makes life on earth possible.

Selected by the Chemistry Department \$500.00

## New in Berman

Bart Brooks  
Grizzly Staff Writer

At the Berman Museum of Art there is a new exhibit in the upper gallery. The collection of photographs featured is devoted to the flora and fauna of the Artic National Wildlife Refuge in Alaska.

Each of the photographers has captured vivid images of the surprisingly abundant wildlife in the Artic region. The photographers include Arte Wolfe, Subhankar Banerjee, Tom Walker, and Amy Gulick (among others).

The photographs depict wildlife such as lynx, owls, a trio of polar

bears frolicking in the snow; and birds-eye shots of literally thousands of caribou stampeding across the land. Others show the vibrant colors of wildflowers and vegetation. Each photograph presents a part of the tapestry that captures the essence of Artic Refuge.

Some of the photos are breathtaking, and seem to leap out to the viewer with their astute reality. Ursinus students will have a chance to meet photographer Sandy Sorlien on Wednesday, April 30, at 7:30 PM in the upper gallery.

## UC Women's Lax Fall to Washington, Invest in Bulletproof Jackets

Eric Fierro  
Grizzly Writer

The Lady Bears were unable to conquer the Shorewomen of Washington College, falling this past Saturday by a score of 12-9. Led in scoring once again by junior Emily Durkein the Bears could not stop the Centennial Conference player of the week Julie Studdiford, who registered six goals and one assist in Washington's victory.

Although the Lady Bears were disappointed by the loss it will not keep them out of postseason play. This Saturday after a mid-week tune-up with Dickinson, the Lady Bears will square off against the regular season conference champions Gettysburg Bullets.

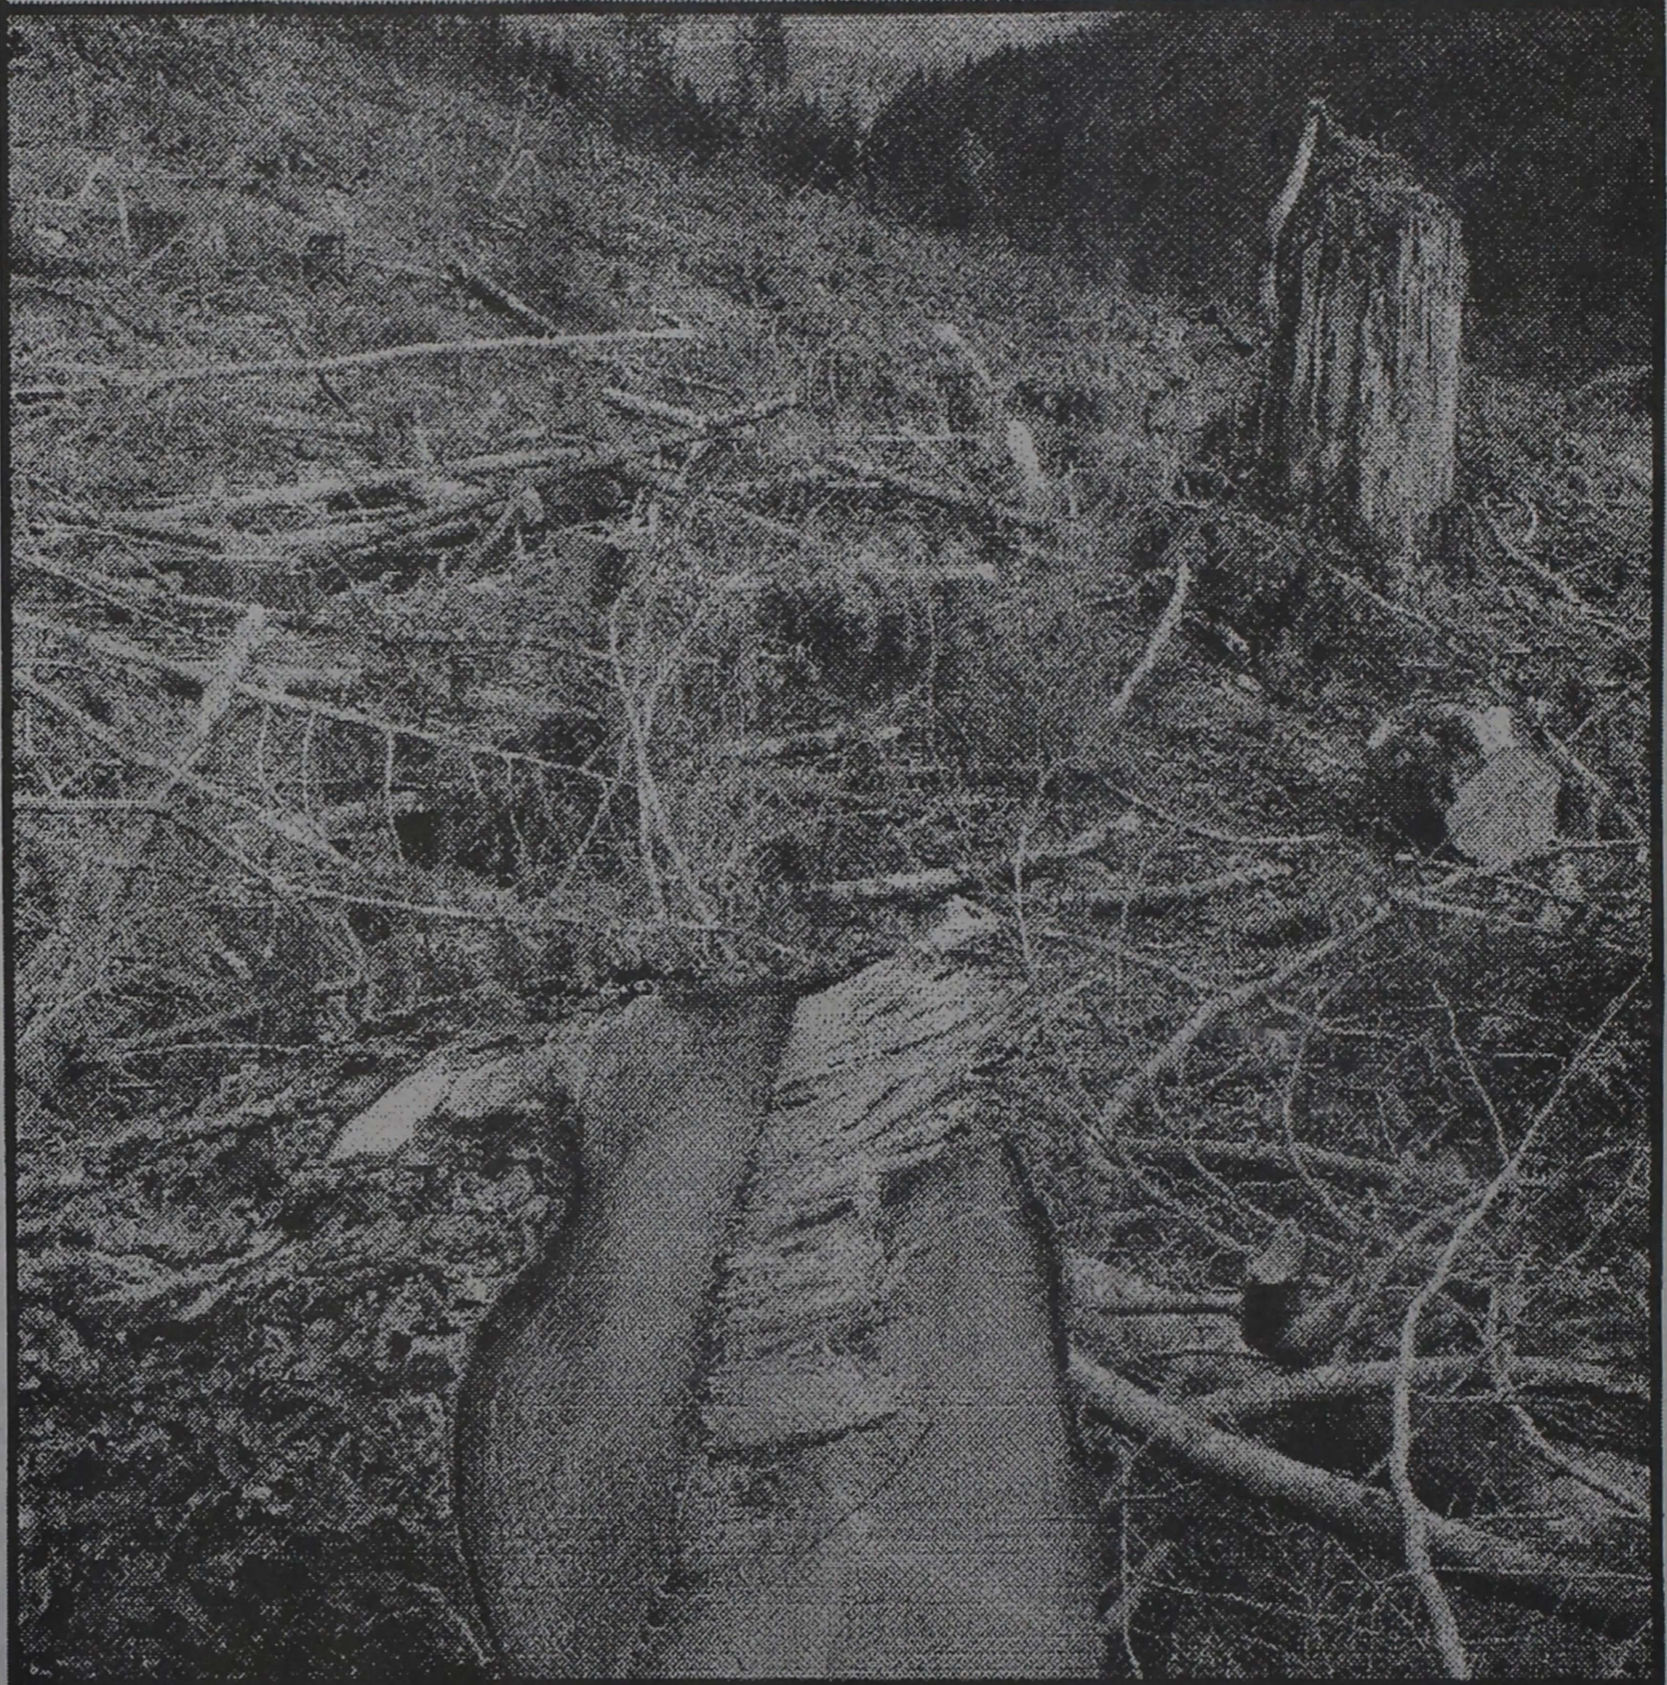

The Bears owe the Bullets after they were handed a 17-6 shellacking earlier this season, not to mention the 10-7 upset victory by the Bullets over UC in last year's Centennial Conference Champi-

onship. This year it's time for the Bears to pull off an upset of their own.

"We would have to face them sometime over the weekend, so we might as well get them out of the way first," Leigh Maggi, leader of the defense, and weekly correspondent to the Grizzly, confidently stated.

Loyal fans Chris Glowacki and Emily Fishwick, who can regularly be seen at Grizzly games hand and hand vehemently lamented state, "We feel the girls have improved so much since the beginning of the year, and since we started watching them together many years ago." The couple went on to compare the growth of the seniors over the past four years to the growth of their relationship. For both the Glowacki's and the Bear's, the sky is the limit.

## Dr. D says Farewell with a Fantastic Finish

Lindsey Fund  
Grizzly Sports Editor

Dr. Norman David conducted his last concert at Ursinus College last Saturday as the Jazz Band performed for a final time this school year.

And it proved to be something special.

"Listen carefully," noted David early on in the evening, "And remember what you heard here tonight."

The night included spectacular music, which included selections from Duke Ellington. After one number, David commented that he was pumped. "That was just great," said David.

Dr. David, himself, even joined in on the fun, joining in on "Crazeology", "Do Nothin' ill You Hear From Me", and "Whatever It Takes."

David also played an intense soprano saxophone solo near the end of the concert that some interpreted to be reflective of his career here at Ursinus.

David leaves Ursinus after the semester, but extends his best wishes to the Jazz Band. "Thanks for everyone who has given me their support here, and I'd really like to see this band continue. It has been great working with these people."

## Men's Tennis Looks to Rebound Next Season

Trevor Mohr  
Grizzly Sports Writer

The Ursinus College Men's tennis team struggled to cope with the loss of several varsity team members this season.

Before the season began in March, Coach Himes was forced to shuffle a line-up that had already lost two potential singles players. Already weakened by the graduation of the number one single's player, junior Trevor Mohr and junior Bob Gray were added to the list of casualties.

The team seemed to rebound with the addition of senior Rahul Patri, who had missed two previous seasons due to prior engagements. A brash of losses quickly indicated the weakened state of the Bears, however, who had seen a franchise high three wins in the previous season.

The list of losses continued as Nishant Keerikate was placed on the disabled list for the duration of the season due to failed attendance in the strict rehabilitation program of the Ursinus College

training facility.

Also, due to fierce disagreements and flared tempers, sophomore and future star of Ursinus tennis, Marcus Ressler, was ousted from the team because of repeated arguments with Coach Himes.

The cracks in the armor became floodgates as the season progressed into April.

When asked to comment on the loss of four of the previous top seven players of the team, co-captain Jeremy Landis had this to say, "You should have seen it when we lined up against [John] Hopkins. When they announced the 5 and 6 singles, we only had four guys there to play. We had to forfeit those matches".

Landis and co-captain Chris Fox, both juniors respectively, continued to battle staunch opponents in the extremely competitive Centennial Conference.

Obviously vexed by the situation, Landis stated, "half of our line up never showed up. Raul missed

the Western Maryland [McDaniel] match. We would have won that, but we only had four guys. It was one of the matches the trainer refused Keerikate to participate in." The outcome of the match saw a debilitating 4-3 loss to an opponent easily defeated in the previous year.

Last season reassured an upturn in the success of the men's program at Ursinus College. The line up was stacked with young, determined talent ready to take on the country club competition of the Washingtons and Gettysburgs of the Centennial Conference.

With blazing forehands like those of Landis, mesmerizing kick serves of Fox, cocky confidence of Keerikate and Gray, and the cheetah-like speed of Mohr, last season was a glimpse of what was and what should have been.

Instead, the Bears look to rebuild for another season with Coach Himes at the helm.

## UC Baseball Wins Eight Straight

Terri Wehnert  
Grizzly Sports Writer

Ever since April 19<sup>th</sup> the Bears Baseball team has been unstoppable, playing exceptionally well and winning eight straight games.

Ryan Bown threw a one-hitter in game one and Noah White followed with a two-hitter in game two to lead Ursinus to a sweep of Washington, 3-0 and 8-0, in Centennial Conference baseball action on April 19<sup>th</sup>.

In the first game, Bown lost his no-hit bid with two outs in the bottom of the seventh inning. He finished with eight strikeouts.

Victor Rodriguez was 2-for-2, including an RBI single.

In the nightcap, White fanned six and allowed just two singles. Ryan Regensburg went 1-for-2 with a run scored and two RBI, while Ted Piotrowicz went 1-for-2 with two runs scored and a two-run homerun.

On April 23<sup>rd</sup> the Bears took on Muhlenberg. Scott Barr and Mike Lombardo both pitched, only allowing four hits as Ursinus came out on top 4-0.

Barr only allowed two hits in his seven innings of pitching, while Lombardo struck out three in his two innings of relief.

Joe Bolinski went 2-4 with two RBI's and a run.

The Bears defeated Swarthmore on both April 24<sup>th</sup> and April 25<sup>th</sup>, with the score of 15-4 in the first game and 15-6 in the second. In

the first game Ursinus scored 14 runs in the first four innings, which gave them a great advantage over Swarthmore.

Jay Marakovits went 2-for-3 with three RBI's and Ryan Regensburg hit a solo homerun to up the score to 15 and secure the win.

The second game was almost identical. The Bears picked up runs in each of the first six innings to give them a 15-4 win over Swarthmore in Centennial Conference baseball action.

Mike Gizzi, Joe Bolinski and Jordan Hartline contributed two hits each for the Bears.

Finally the Bears played a double-header against McDaniel this past Saturday. The Bears

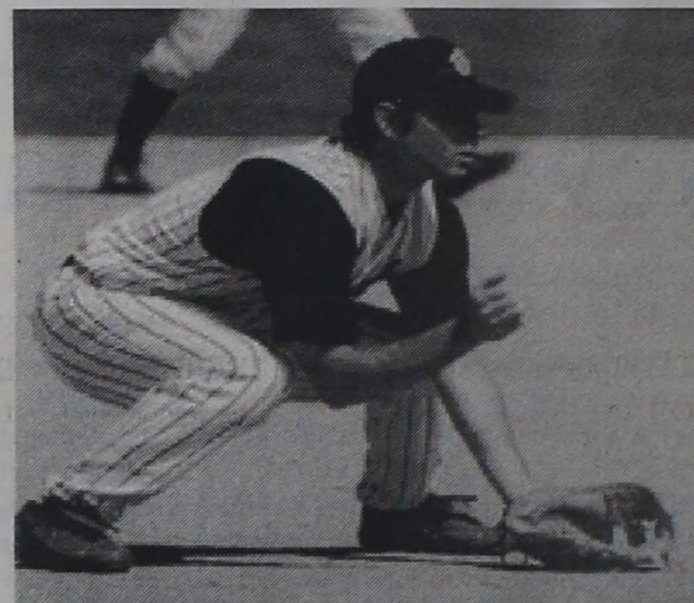

swept both games 9-5 and 3-1. In the first game, the Bears scored five runs in the second inning and added one run in each of the following innings.

Eric Shipe had two hits, Jay Marakovits and Jordan Hartline each had a pair of runs, while Mike Gizzi had two hits, which scored two runs and gave him an RBI.

Scott Barr pitched the entire game to pick up the win.

In the second game Ursinus had to work a little bit harder. McDaniel came back and tied the game with a solo homerun in the top of the sixth. Ursinus came back and scored two runs in the seventh to secure the win and the sweep.

Mike Lombardo allowed just four hits and picked up the win.

## Men's Lax Records Two Wins

Marie DiFeliciano  
Grizzly Sports Writer

The Ursinus Men's Lacrosse team posted two wins last week.

The first win came last Thursday against King's College. Although King's had home field advantage, Ursinus came out on top with a final score of 10-2.

The Bears out-shot King's 29-16 in the non-conference match up.

Nick Shriver scored two goals and had three assists in the game. Also adding to Ursinus' lead were

Carlo Fusco and James Lawson who each added two goals and one assist. Eddie Ramos also netted two goals for the Bears as the Monarchs struggled to catch up. However, their efforts were countered by goalie Joel Ford who registered six saves for Ursinus.

The Bears' second "W" was last Saturday at home against Washington and Jefferson. UC leading scorer, Nick Shriver, posted five goals and five assists.

By half-time Ursinus led the Presidents 11-2 and out-shot them 54-20. James Lawson and Carlo Fusco added three goals each, followed by Terry Reilly who had two goals and two assists. Goalie Joel Ford registered another six saves for Ursinus.

## Women's Golf Hurt By Weather, Injuries

Eileen Ageo  
Grizzly Sports Writer

The Ursinus College Women's Golf team has been around for many years, but gets little recognition from the school. This year's players were hoping to make more of a name for themselves, but faced difficulties such as weather and injuries, prohibiting them from playing most of their matches.

The roster includes senior Kate Gallagher, juniors Kate Hushen, Julia Campbell, Kim Salmon (who is currently studying abroad in France), and freshman Tracy Sapinski.

They are instructed by Coach Michelle Gavaghan, who was hired last April, and has been a pleasant addition to the team. Coach Gavaghan is an amateur golfer who works at River Crest Golf Club. The golf course is still under construction and is located off of

route 29, only 5 minutes away from school.

The UC Bears kicked off their practices after Spring Break at Limerick Golf Club. There they practiced their swing at the driving range and played a few 9-hole rounds. However, the weather was less than cooperative, which inhibited them from getting in as much practice time as they had hoped.

The Gettysburg Invitational was their first scheduled match, which was to be held on March 21<sup>st</sup>. However, poor weather conditions caused the match to be cancelled.

The rest of the season seemed to follow that same pattern. With 7 matches scheduled, the girls were only able to play 1 of them.

The Franklin & Marshall match was held during the third week in April, hosting Susquehanna,

Gettysburg, and Ursinus College. The team itself did not place, but junior Kate Hushen played strong and finished in the top ten.

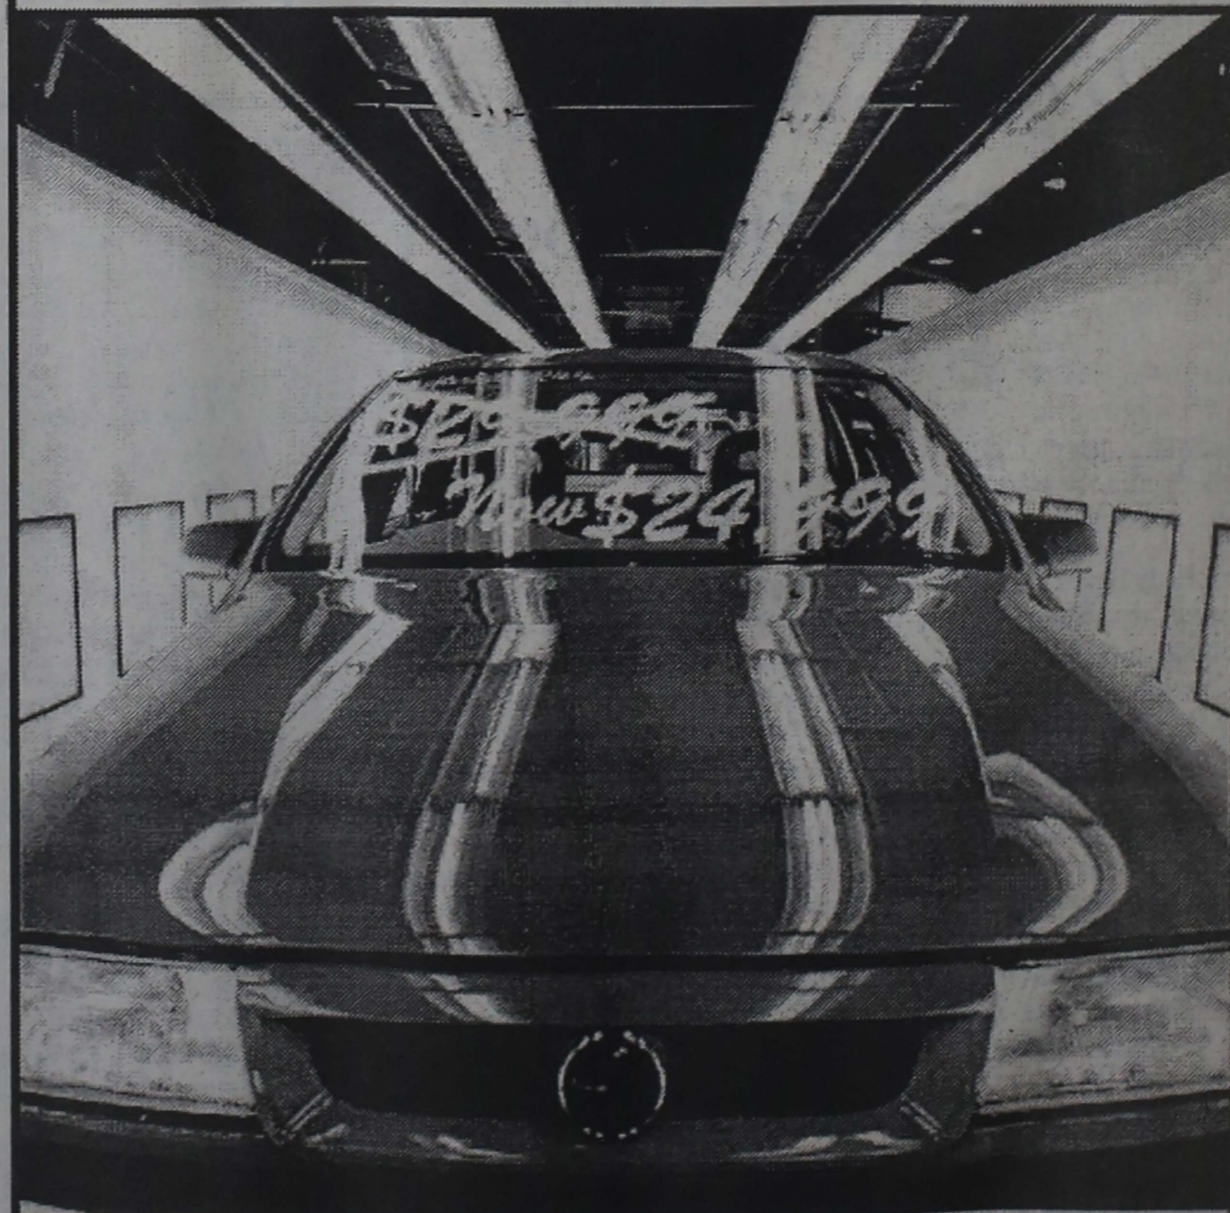

The team was scheduled to play in Ocean City, Maryland this weekend, but can not make it due to injuries.

Kate Hushen remarks, "It is not the best way to end the season, but that's pretty much how our season has been going."

The team looks forward to next year's season, but will miss senior Kate Gallagher. The team has 5 new recruits, thus they are hoping to expand the size of their roster.

Hushen also adds that, "Kim will be back playing with us next year, and I think more things should go our way." With the luck they had this year, I think things can only go up from here!

Course ID	Title	Instructor	Class Time	Exam Time	Exam Building	ExamRoom
<b>Anthropology</b>						
ANTH 100	Sociocult Anth	Mathieu,James	TuTh 1:30-2:45pm	05/08/2003 9 - 1	F. W. Olin Hall	108
ANTH 222	DrugsMind/Body	Gallagher,Thomas	MW 8:35 - 9:50am	05/09/2003 1 - 4	F. W. Olin Hall	108
ANTH 251	Archaeology	Mathieu,James	TuTh 3 - 4:40pm	05/15/2003 9 - 1	F. W. Olin Hall	103
<b>Anthropology/Sociology</b>						
ANSO 400W	Hist & Theories	Gallagher,Thomas	ARRANGE	ARRANGE	ARRANGE	TBA
<b>Art</b>						
ART 100	Intro to Art	Verstegen,Ian	TuTh 8:35 - 9:50am	05/14/2003 1 - 4	F. W. Olin Hall	108
ART 202	Studio Art II	Xaras,Ted	W 1:30 - 4:20pm	05/12/2003 1 - 4	Ritter Center	STUD
ART 203A	Printmaking	Xaras,Ted	Th 1:30 - 4:20pm	05/15/2003 9 - 1	Ritter Center	STUD
ART 203C	Sculpture II	Hromych,Alex	Tu 1:30 - 4:20pm	05/08/2003 9 - 1	Ritter Center	STUD
ART 204 A	Photography	Camp,Don	Tu 12:30 - 3pm	05/08/2003 9 - 1	Pfahler Hall	007
ART 204 B	Photography	Camp,Don	Tu 3 - 5:30pm	ARRANGE	ARRANGE	TBA
ART 211	Ancient Art	Verstegen,Ian	TuTh 10 - 11:15am	05/09/2003 9 - 1	F. W. Olin Hall	108
ART 302	Painting	Xaras,Ted	M 1:30 - 4:20pm	05/13/2003 9 - 1	Ritter Center	STUD
ART 350 A	Renaissance Art	Verstegen,Ian	TuTh 3 - 4:15pm	05/15/2003 9 - 1	Ritter Center	GYM
ART 350 B	"Facing" Gender	Shifrin,Susan	W 3 - 5:30pm	05/12/2003 1 - 4	Berman Museum of UG	
ART 401A	Adv Photography	Camp,Don	W 3:30 - 6pm	05/12/2003 1 - 4	Pfahler Hall	007
<b>Biochemistry/Molecular Biology</b>						
BCMB 426W	Molecular Bio	Lobo,Anthony	TuTh 10 - 11:15am	05/09/2003 9 - 1	Pfahler Hall	209
BCMB 452W	Biochemistry II	Roberts,Rebecca	TuTh 8:35 - 9:50am	05/14/2003 1 - 4	Pfahler Hall	210
<b>Biology</b>						
BIO 100Q A	Intro Bio	Fields,Mary	TuTh 9 - 9:50am	05/14/2003 1 - 4	Thomas Hall	324
BIO 100Q B	Intro Bio	Small,Peter	MW 10 - 10:50am	05/08/2003 1 - 4	Thomas Hall	324
BIO 200A	Human Heredity	Fields,Mary	TuTh 11 - 11:50am	05/09/2003 9 - 1	Thomas Hall	324
BIO 212W A	Cell Biology	Roberts,Rebecca	MWF 8 - 8:50am	05/09/2003 1 - 4	Thomas Hall	324
BIO 212W B	Cell Biology	Bailey,Beth	MWF 9 - 9:50am	05/13/2003 1 - 4	Pfahler Hall	100
BIO 212W C	Cell Biology	Roberts,Rebecca	MWF 9 - 9:50am	05/13/2003 1 - 4	Thomas Hall	324
BIO 212W D	Cell Biology	Kohn,Rebecca	MWF 10 - 10:50am	05/08/2003 1 - 4	Pfahler Hall	100
BIO 222	Vertebrate Bio	Allen,A. Curtis	TuTh 8:35 - 9:50am	05/14/2003 1 - 4	Thomas Hall	319
BIO 232	Ethology	Sidie,James	MWF 11 - 11:50am	05/12/2003 9 - 1	Thomas Hall	319
BIO 232A	Ethology Lab	Sidie,James	M 1:30 - 4:20pm	05/13/2003 9 - 1	Thomas Hall	210
BIO 305	Human Anatomy	Allen,A. Curtis	MWF 8 - 8:50am	05/09/2003 1 - 4	Thomas Hall	323
BIO 310	Oceanography	Goddard-Doms,Kathry	TuTh 10 - 11:15am	05/09/2003 9 - 1	Thomas Hall	112
BIO 334	Vascular Plants	Small,Peter	TuTh 10 - 11:15am	05/09/2003 9 - 1	Thomas Hall	319
BIO 349	Exp Physiology	Bailey,Beth	MWF 10 - 10:50am	05/08/2003 1 - 4	Thomas Hall	314
BIO 350U	Developmental	Lyczak,Rebecca	MWF 9 - 9:50am	05/13/2003 1 - 4	Thomas Hall	323
BIO 424W	Evolution	Dawley,Robert	TuTh 8:35 - 9:50am	05/14/2003 1 - 4	Thomas Hall	323

This issue of the newspaper marks the end of my two year career as a Co-Editor-in-Chief. The past two years working on the newspaper have been hectic and crazy, but I would not trade them

for anything and I will genuinely miss my responsibilities and working with everyone on the staff.

I want to thank everyone for their support as we try every year to make the newspaper better and a bigger part of the Ursinus Community.

Thank you to Kelly, my coeditor this year, for all of her hard work. Dr. Edwards, our advisor, for all of her help and support. Dr. Jaroff, our previous advisor, for her dedication and support. Cornota Harkins, my former co-editor, for her go-getter attitude.

A big thank you to all of the staff members that have worked while I was editor and for the people

who encouraged me to apply in the first place, as well as, my roommates, past and present, who have helped me out.

I would also like to thank the administration of Ursinus, for their extra support and their belief in our efforts.

And most, importantly, I would like to thank the students who read, and criticize the newspaper. The criticism can be trying at times but as we always like to say "at least we know the paper is being read!"

I am happy to pass the newspaper responsibilities to our new editors and I wish them the best of luck!

- Ann Antanavage

Kelly Gray (right) with Opinions Editor Kate Juliano.

It has finally come, my last issue as Co-Editor-in-Chief. This past year has been rememberable,

but also very crazy. Though at times it was hectic, the newspaper was a great opportunity for me. I would not trade it for anything!

First, thank you to my wonderful Co-Editor-in-Chief, Ann. Without you I would not have been able to do this! Thank you for all of your hard work and everything you did this year. Our advisor, Dr. Edwards, this would not be possible without. Thank you for all of your hard work and support, it means a lot. Dr. Jaroff, Thank you for pushing me to take advantage of this wonderful opportunity. Finally, last year's co-editor, Corrie

Harkins, if it wasn't for you I would not be a part of this paper... Thanks!

This year's staff on The Grizzly was the best and without them I do not know what I would have done! Thanks especially to Kate, Quinn, Katie, and Lindsey!

Thank you to the staff writers, copy editors, and the Administration that made this paper possible.

Also, I would like to thank those writers who were always willing to take any story... especially Cassie and Beens!

Congrats to the new editors! I know they will do a great job!

- Kelly
