JUST YOUR SIZE!

Something in the Way of Pants.

We begin to-day our annual odd pants sale, which you remember was so successful in past seasons. But this sale will eclipse all the others in every respect. Here are some of the specimen prices:

Men’s Hard Twisted Nottingham Tweeds in fancy stripes, make an excellent knock-about or working pants at $1.14; would be cheap at $1.75.

Men’s Fancy Stripe Wool’s WANTED at $1.30; sold everywhere at $1.60. Men’s Premium Constancy fancy stripe pants $4.25; all over at $5.25.

Men’s extra All wool Crepe Trousers Black, three styles, $2.00 and 25c. each.

These are a few of the prices our East Window is filled with; styles of all the above; 5 times as many inside, yet that window-front represents more than the whole pants stock of the average clothier.

English and American Roads.

Experiences on the Reece Highway, a new road designed to take advantage of the existing rail lines, indicate that it will take eight hours to travel from a town to another, which is a significant improvement. On such highways, land is in high condition, and can be improved by a day or two without much effort. On similar roads, one can move the same load all day long, and this is considered to be a great advantage. The following from the report of the board of directors of the railroad company, gives an idea of the developments in the railroad system.

"The point which work is to improve is the Reece Highway, as it is regular and large enough to accommodate traffic. The work has been in progress for several months, and will be completed in a few weeks. The work is being done under the supervision of the engineering staff, and is progressing satisfactorily."
