Seniors Admitted To Dramatic Honor Fraternity

Three new members, all seniors, were initiated into Alpha Pi Omicron, the dramatic honor fraternity Tuesday night in secret ceremonies at Ursinus College on December 7. Over a hundred and fourteen pins were collected from the sophomore class, less than a hundred were expected. Professor LeRoy 51, president of the group, said James M. Andrews Pre-Med Society, interviewed Mary Lee Ross '53 after she left the bloodmobile.

"There was nothing to it," she said. "I don't feel anything."

And when she asked if she could donate again in the spring when the Red Cross returns, she replied emphatically, "Yes!"

Thanks Explored

Those in charge expressed special thanks to all those among the students and faculty who assisted them during the day. Many students were permitted to donate blood just before they went to work so that they would have time to have their blood taken. The doctors in charge were especially appreciative to Dr. J. H. Brown, President of Ursinus College; Bill Von Horn 51 and Pete Le-Boeuf 51, who assisted in setting up and dismantling of their equipment.

This plan has been endorsed by several women's organizations and men, including the president and members of the American Legion and the Rotary club. The Canadian Parliament has already passed a resolution in aid of the Red Cross movement.

Red Cross Unit Plays Host to Area Chapters

The Red Cross chapter of Ursinus College has invited representatives of other Red Cross chapters to participate in a concert Saturday morning in the faculty room of the college. The orchestra represents the diverse talents of Ursinus College, Pennsylvania, and Temple.

Red cross disaster units, including the aid, home nursing, and emergency committee, were explained by Mr. James Bowen, Mr. David Burnhart, and Mrs. Maun Warner. Instructions were given for setting up first aid stations in case of the need for blood in the college.

The next meeting of Red Cross representatives will be held on Saturday morning, February 10, at Swarthmore college.

Students, Faculty Give Blood to Red Cross

Over forty students and faculty members donated an anonymous gift to American fighting forces abroad when the bloodmobile of the American Red Cross came to Collegeville on December 7. Over a hundred and fourteen pins were collected from the sophomore less than a hundred were expected. Professor LeRoy 51, president of the group, said James M. Andrews Pre-Med Society, interviewed Mary Lee Ross '53 after she left the bloodmobile.

"There was nothing to it," she said. "I don't feel anything."

And when she asked if she could donate again in the spring when the Red Cross returns, she replied emphatically, "Yes!"

Editorial

From Fiction to Fact

On October 25 a hockey game between Bryn Mawr and Ursinus was interrupted by the sudden death of the five-day-old son of Dr. and Mrs. Chester C. Jones. She was taken to the hospital where she was obliged to undergo three serious operations and the medical bills mounted higher and higher. As quickly as a spreading fire, the Ursinus paper which previously had no insurance for its athletes was passed by word of mouth throughout the physical education department.

From this point on, fact was fiction. A threat was heard in the women's phys-ed department as it was becoming generally accepted that since the money for athletic injuries comes out of the general athletic fund, a curtailment of the latter part of the girls' basketball schedule and the elimination of a few minor sports would be necessary to meet the current hospital expenses. Rather than lose any of their sports programs, the women attempted to raise enough money to pay off the medics, but failed.

Why don't we have insurance?

With the hope of an answer to the foregoing question in mind, as well as the supposed knowledge of the limitations to be imposed on the sports programs, the Weekly paid a visit to Mr. Donald Helfferich, vice president of the college.

This insurance coverage appeared to us not only to be desirable, but also essential and our first question was "What is the policy of Ursinus on insurance for athletes?"

Mr. Helfferich told us that the subject of insurance had often been discussed by the proper committee of the Board of Trustees, but it was found to be unsatisfactory, due to its complications, inadequacies and expenses.

In the course of the conversation Mr. Helfferich explained that the college pays "all reasonable" costs of accidents incurred in inter-collegiate athletic activities. In case of an injury which he judged would require hospitalization, he would be asked if that injury was related to the recent mishap on the hockey field, he answered in the affirmative.

This information exposed the curtailment of athletic contests to pay for medical bills.

The rumor had apparently arisen from a meeting of the women Phys-Ed students where it was announced that the medical bills for injured athletes comes from the athletic fund. This is true, however, such are facts, are added, unsubtracted.

Mr. Helfferich then explained the system which has been functioning effectively for the past two years.

Each authorized college activity or department makes a requisition for a specified amount of capital to meet its expenses for the coming year; however, if one department should need more money because of an emergency, the amount to meet the requirements will be taken from others, to be applicable in emergencies.

A recent storm blew down several campus trees and ripped off part of the barn roof, but the maintenance department did not stop but in the supposed limitations of the loan, it simply added the rent on to its present allotment for repairs.

As a result of the interview with the vice president we learned that the administration feels that, although it would be "very nice," insurance would be impracticable; that the college pays the bills of injured athletes; and, finally, that perhaps it is better to check facts before announcing supposed authentic information.

The Mail Box

Christmas Greetings

To the students:

This week in 1945, William Philip was accorded a prominent spot in the 1946 edition of Who's Who in Music. The reason of his contributions to the field of music was this:

This week in the 1950s, the able debaters opened their season against Haverford college.

This week in 1941, Charles Grover Haines, noted medical doctor and head of the medical department of the Ursinus campus, was taken to the hospital where he was obliged to undergo three operations, opening their season against Hartwick college.

This week in 1945, the Freshman paper, Highlights, was distributed for the purpose of acquainting the day students with their fellow classmates.

This week in 1946, the Freshman paper was defunct. The Ursinus campus was at its calmer.

This week in 1950, I entered through a silver arched doorway, first thing to be seen was an old water pump...haven't figured out the connection yet. The waters of seniors adorned the goode of the ballroom, lighting effects on the vocalist and orchestra were particularly good. The orchestra had couples blinking and wondering how their picture would turn out.

Donors entered through a silver arched doorway, first thing to be seen was an old water pump...haven't figured out the connection yet. The waters of seniors adorned the goode of the ballroom, lighting effects on the vocalist and orchestra were particularly good. The orchestra had couples blinking and wondering how their picture would turn out.

Only Memories and Souvenirs Remain

Of Seniors' Colorful Formal Dance

by Joanne Nolt '53

Friday, December 1, 1950

As we look back, as we look back at memories that are all that is left now of the Snowball, the 1950 senior prom. The first big formal that Ursinus students have put on on their own campus. Of course the snowball programs and the ribbons from their corsages. Women can put away their shift skirts until the next time...and took their tax back into their pockets.

Though it was the Snowball, outside climatic conditions were ideal...just right for fur coats...not necessary for chains, shovels andashes...but the orchestra was pretty hot.

Dancers entered through a silver arched doorway, first thing to be seen was an old water pump...haven't figured out the connection yet. The waters of seniors adorned the goode of the ballroom, lighting effects on the vocalist and orchestra were particularly good. The orchestra had couples blinking and wondering how their picture would turn out.

The waters of seniors adorned the goode of the ballroom, lighting effects on the vocalist and orchestra were particularly good. The orchestra had couples blinking and wondering how their picture would turn out.
Holiday Functions

Commercialized Christmas Forms Basis Of Writer's Satire on Holiday Theme

by Doug MacMillan '33

"And she brought forth her first-born son, and wrapped Him in swaddling clothes, and laid Him in a manger; because there was no room for them in the inn." This Biblical verse, reminding us, perhaps, of the Nativity scene, led me to wonder what might have happened if the inn had been full. So, I decided to write a satirical piece about the Christmas season.

Saturday, two days before Christmas, five minutes late came the song of the store owners: "Without your small purchase, you ain't gettin' the presents you do want." For, as the boss said, "It'll have to be this or that." So, if you don't buy, the credit will be taken away. Indeed, in this age of "All the buyer's got a credit card," the credit card is becoming the Christmas card.

Ella Doolittle skitted down Main street, dodging the rush of the last Christmas shoppers and occasionally glancing at the tinsel-laden gift windows of the shops. She still saw Sam and Fanny's presents in the bay. In front of the Emporium she stopped. A sign printed in the manner of an illuminated manuscript proclaimed a sale. "Little Sammy was up stairs in bed. Ella felt something had not been too happy about the Oriental purple of his "Swaddlers," but she turned smilingly to Sam.

"Do you like your new ring, honey?"

"Huh?"

"Do you like the ring I got you?" She was a bit surprised. "Yes, how much did they sell you for it?"

"Why not much... only forty-two fifty; forty dollars with tax and other adjustments..."

"Darn it, you'll have to give me the price, you know!" She turned to the postman, yet what else did she do. Anyhow, she was happy.

"But Sam, sweetheart, they give you credit on your name."

"On my name? Crap! I'll have to call that store and find out if you keep up. Where the..."

"Oh Sam, don't fight. It's Christmas. I want to know; you know, the things you like your new ring..."

"You like your new ring..."

"Do you like my Holy Mary dress..."

"You like my Holy Mary dress..."

"Yes, of course, I mean yes, of course."

"Do you like my Holy Mary dress..."

"Yes, of course..."

"Do you like my Holy Mary dress..."

Ring Cleat Promises
To Be Improvement
In Gridiron Play

A radical improvement in foot- ball shoes was announced by Roy Goldsmith Inc., one of the nation's top athletic equipment manufacturers. The improvement consists of a ring cleat, which is placed on the sole of the shoe directly beneath the ball of the foot. An additional cleat of circular form is placed on both the toe and heel of the shoe, according to extensive tests, give equal or more traction than afforded by seven conical cleats now commonly used on football shoes, and will insure the player of better grip, greater maneuverability, and easier stops, besides reducing injuries to ankles, knees and hips.

The ring cleat, being directly beneath the ball of the foot, provides a broad platform of stability and offers good traction over this area. On which most of the body weight is carried in any forward motion. The shape and position of the cleat offer the least resistance to rotation—enabling a player to turn, cut and maneuver with much greater ease, and less chance of picking up an ankle or more than ever before.

Clogging Prevented
To reduce any clogging tendency within the ring, the cleat is so designed that any clod which might be formed would be the thinnest at the center, and therefore weakest at the section where most of the body weight is carried in any forward motion. The shape and position of the cleat offer the least resistance to rotation—enabling a player to turn, cut and maneuver with much greater ease, and less chance of picking up an ankle or more than ever before.

Matmen Work Out
For Coming Season

Although their season doesn't open until January 6 against Muhlenberg, the Ursinus wrestlers have been working out in an attempt to round themselves into shape for the grueling sched- ule which faces them. Coach Kurt Warske has been using fundamen- tals and conditioning in hopes of equaling or bettering last year's impressive record of seven wins against three losses.

Since its revival in 1947, wrest- ling has been an extremely popular sport around the Ursinus campus, and an attempt to round themselves into shape for the grueling sched- ule which faces them. Coach Kurt Warske has been using fundamen- tals and conditioning in hopes of equaling or bettering last year's impressive record of seven wins against three losses.

Courses on Cigarette Tests

Number 9...THE MARSH HEN

"For a while they had me swamped!"

Seems like this confused fowl got mixed in a metaphor — and was almost turned into a guinea pig. The story goes she got caught in a web of quick-trick cigarette tests... one puff of this, a puff of that... a sniff — a puff — a puff — inhale and exhale. And then she was supposed to know all about cigarette nibles! Is that the way to treat a lady? Just ask that the marsh hen to judge a cigarette!

We think not. That's why we suggest:

The sensible test — The 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoker — on a pack after pack, day after day basis. No soap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste) we believe you'll know why...
Girls Elect Keyser Keyboard Captain

In recognition of her outstanding leadership ability and spirit, Kitty Keyser was chosen by her teammates to captain an Ursinus women's basketball team which this fall, Betty was elected for a second time.

A versatile athlete, she participated in three varsity sports — basketball, track, and softball. Playing center halfback in soccer, she was chosen on the All-College team and the second squad this season. A guard on the basketball team, she never seemed to be a slouch. She was always on the lookout for the open, aggressive game, making it difficult for her to score only four points.

In the spring she does a splendid job of point guard. She also excels academically, with a junior physiology major.

Athletic Achievement

"Heep" is the name of Ursinus' version of the "Mike Tomlin" in the people's minds.

Hooper Elected as 1951 Hockey Captain

Next year when the Ursinus varsity field hockey team takes the field, its captain will be населной, a hard worker, and the type of player that has distinguished himself as a star on the Ursinus mound, "Jing" Johnson.

For four years "Jing" has been a member of the Ursinus hockey team, captaining the latter the past two seasons. As is usually the case, tragic events have a way of making him the hero of the situation. As far as his prowess on the subject as an athlete is concerned, "Jing" has contributed many points to the Ursinus hockey team, with the hockey season being his favorite. As an athlete he was known in our terminology for his defensive work.

The former had pitched for a powerful Fordham nine. A sore arm, however, had ended his pitching career early in the season. Throughout the entire season he continued to pour in points, his offensive game being his favorite. In his four years on the team, he had scored only 4 points.

4.9
Young ........ 3 1 2 6 12
Derago Leads District Scoring; Seibel Fourth

Tony Derago, Philadelphia Textile's prolific scorer, is the top point-producer among Philadelphia suburban district college collegiate basketball performers, latest tabulations show. His 113 points in six games gives him a 49-point average over his nearest competitor, while his 51-point average per game ranks him third.

Don Young, Ursinus' captain, was named the All-College competition at Swarthmore College.

BRUNNEN

Don Young, a senior in the Ursinus business school, was selected on the first team by the Philadelphia District-I grading committee.

1951-52 Varsity Basketball Roster

Player City Yr. Ht. Wt.
Ira Bronson, N.Y.C. Sr. 5' 11 180
Paul Jones, Pottstown, Pa. Jr. 5' 11 170
Frank Neubauer, York, Pa. Jr. 5' 11 170

Bears' Fiery Attack Breaks Teams Mark

Lycos Win 62-46 Friday Night

by Paul Jones '52

The Lycoming Warriors added the Bears' scalp to their collection with a 62-46 victory Friday night at Williamsport. Led by the sharpshooting of Billy Graft with 22 points and Jack Bowes with 16, the Lycoming club jumped into an early lead, in which the Bears couldn't overcome, to remain underdogged, having previously swamped Juniata and Union last week.

Brilliant defensive play on the part of both teams featured the action in the first half; at that time the score was 20-16 in favor of the Williamsporters in the lead. Inability to hit from the floor caused the Ursinus downfall, especially in the first quarter in which they scored only four points.

With Will Wimberg and Phil Seibel leading the way the Bears poured in 4 points to 0 points of the Warriors by the end of the half.

Throughout the entire game the Bears continued to pour in points, eventually pulling to within 4 points of the Lycoming squad with 3:25 remaining in the second half.

But Don Young, Ursinus' captain, still leads the team. Practicing teaching at Boyer University, he is a forward to teaching and coaching teams of his own.

Patterson Field.

"Jing" Johnson was chosen on the All-College basketball team. A couple had even never heard of him. We were as close as I could get to the subject at the rest, so we decided to do a little investigating from the talk of the townefowk. Johnson seemed just as usual, but today a bit more talkative.

"Well, you see," he said, "I was brought up in the soybean fields of Pennsylvania. A bit more talkative. Growing up on a husky farm boy didn't hurt much in the people's estimation for themselves.

The problem is, the Bears opened up a 23-point first period advantage on the Ursinus team.

Ursinus was known and admired throughout the entire area. Ursinus is the only team to have the edge over Ursinus in the entire state.

In his most recent varsity games, Johnson had scored only 4 points.

"When they precede in the game, they really dominate."

BANQUET, DANCE TO TOP PRE-HOLIDAY FESTIVITIES

The traditional Christmas banquet, dance, and all-night dorm festivities will light the YWCA pre-Christmas festivities.

Decorations for competition between the Women students, at the formal banquet, Wednesday night, are well underway, under the leadership of Marie Linder '51, Grace Matthews '52, Mary Ann Townsend '53, and Jennifer Price '54.

The banquet for the women students in the upstairs dining room will begin at 5:30 p.m. afterward there will be a semi-formal dance in the T-G gym sponsored by the WSGA and the MSGA, and featuring entertainment by the 35 voice, Ed Rush '52, and Santa Claus.

Wednesday night and during the earliest hours of Thursday morning, men students will sing Christmas carols at the girls' dorms, and at 6:00 a.m., Thursday, girl students, after theoretically staying up all night, will return the favor.

Preparations are being made for the Christmas communion services Thursday evening by the Chi Alpha and the YM-YWHA.

CHESS TEAM WINS

The Ursinus chess team beat La Salle 4 to 0 last Tuesday. Participating for Ursinus were John Mattingly, Myra Kapustinsky, Paul Halleck, and Jim Bright. The team placed second at the LANCASTRE during the first week attended the tea, which was served at McClure's for the way in which she accepted a last-minute need to play the entire piano part.

And the man who co-ordinated the club's next match will be with residences and women students at the Literature Concerning the Atlantic was performed, the Messiah performance of the Messiah.

Y CONDUCTS XMAS VESPERS

A Christmas Vesper service was conducted last night in the Chapel by Kathryn Lyttle, Joan Kaczik, Anna Hausman, Paul Scheter, and Bob McCarty.

Features were carols, special music by Bob McCarty, and the reading of The First Christmas Roses. Jim Morgan played the organ.

GERMAN CLUB FETES

The German club held last Christmas party last Wednesday at 8:00 a.m. in the Rec center.

Original poems were read by various members and Christmas carols were sung. Charades were played by the members. Refreshments were served.

The next meeting of the club will be held Wednesday, January 10.

DURVIA HOLDS燈

Durya held its annual tea last Wednesday at 8:30 p.m. in the Rec center. This tea was sponsored by the Ursinus women students association.

The tea was served by the members of the club and the guests were entertained by music by Bob McCarty and the reading of the Christmas Vesper service.

The Leonard conducted the performance, and the choir was performed by a marked spirit of enthusiasm.

The orchestra also played its role well in making the presentation a success. The strings were exceptionally melodic in the moving Pathetic Symphony, and responded well to the baton. Only a very few instances was the accompanying a shade heavy.
