Group Attends NSA Meeting During Holiday

Council Members Represent Ursinus at Regional Conference

Four Student Council members represented Ursinus recently at the Pennsylvania Conference of the Student Councils of the United States National Student Association. They were in attendance at the conference, which was held in Washington, D.C., to discuss issues of mutual concern to which Ursinus as a non-member of the association, could respond.

In addition to attending, the delegates from other colleges and universities at the convention, Power, as the chairman of the disciplinary actions and representation on the appropriate committees, which are already executed at Ursinus, were brought by the student government.

Hold Panel Discussion

The January 9 and 10 and continues with the mass meeting on Friday, then split the mass meeting on Saturday morning into the categories groups on Saturday. These sessions were postponed by the Federal International Affairs, Educational Affairs and International Government. Saturday evening and Sunday morning will be reserved for reports from the different functions.

Results from this regional convention are then sent to the national convention through the NRA and university bulletin board.

French Club Meets and List Plans

Le Cercle Francais began the new year by meeting at Dr. Garrett's home on Thursday evening, January 4. The purpose of this meeting was to introduce his visitor to the French language and culture.

Rice to Give Talk

On Atlantic Union

German Professor is Member
Of Philadelphia Chapter Board

Dr. Allan Rice, Ursinus German instructor, will address a joint meeting of the International Relations Club and the Political Action Committee of the Y on the Atlantic Union Plan at 4:30 p.m. tomorrow in room 1, Bomberger hall.

Rice is the chairman of the Board of Directors of the Philadelphia Chapter of the Atlantic Union. During the past few weeks he has spent time in national organizations on the proposal of the Atlantic Union.

The Atlantic Union Committee, was organized last year to press for a world united in federal union. "nuclear beginning" is called for by the Atlantic Union because the union are the signs of the times. The union is the only hope for international unity.

Dr. Rice will tell how until now the world has been divided into two blocs, the United States and the Soviet Union.

The International Relations Club and the Political Action Committee at Ursinus have sponsored this talk, which will be followed by a question and answer period. Everyone is urged to attend.

Sophomore Class to Sponsor
Square Dance Friday Night

The Soph class will sponsor a square dance to which all are invited on Friday night, from 7:30 to 10:30 p.m. in student center. Tickets are 40 cents a person.

The dance will be square and popular dancing will be provided by a professional caller with a professional caller to square the dance. The program will be informal and dances are urged to come in square dancing costume. Refreshments will also be served.

PRE-REDDED

Pierre LeRoy, president of the class of '51, and Pre-Medical Society, announces that there will be two more meetings during the remainder of the semester this month. The last meeting of the year is planned because of a conflict with a committee meeting in Bomberger hall at the same time.

President McClure Issues Statement
On Present Drainage Situation at Ursinus

The editor of The Ursinus Weekly has asked me to make a statement regarding the situation of the Selective Service System. Recently, a few weeks ago and around the Selective Service System that I would tell them of any changes and that there were many changes. The regulations have not changed. No student whose academic standing is satisfactory to the College can be inducted before the age of 24. Any student desiring to be inducted before that time, the student should at once report to the registrar concerning this subject. He will then be notified of his obligation to apply to his Local Board for a postponement, if he wishes to do so. Any student desiring to do so will then be in the obligation of the College to certify that the student's academic standing is satisfactory.

It is possible that Congress or the Director of Selective Service may make changes in the Selective Service System regulations; these changes are made, I shall at once inform our students. It is possible also that the college is affected by any changes. That is, to him, and as long as he is permitted to do it.

President McClure

College Offers New Two-Term Summer School

Curriculum Enlarged: Total of 14 Courses on Radio Program

For the benefit of those who might wish to accelerate their educational work or prepare for summer travel during the summer, the administration has provided for a six-week session instead of the traditional five weeks.

Student may take up to seven semester hours of work in each term. The registration will start from June 11 to July 20, the second from July 23 to August 9.

Anyone is welcome to enroll in any of the many available courses, provided the student has applied for and has been granted approval for their educational work.

The faculty should make an effort to assist the student and orient other colleges will not be accepted. The requirements for fulfilling the requirements for graduation from Ursinus.

Graduate Featured In Magazine Story

by Jane Bartley

Isabel A. Harr, junior, whose class of '50, has made news by being selected as one of the "People" pages of the American Magazine.

Miss Harr is employed as an inner nurse at the Pennsylvania Tuberculosis, Bethesda, Maryland. She is a 1945 graduate of the University of Maryland, College of Medicine.

Her last year of study was spent in France and Germany, and as long as he is permitted to do it, she will be present when the Ursinus students return to school.

Their talent was proved by the fact that they were able to perform this second time. The four members of the quartet, Miss Harr, Robert Rucc, Gerald Donahue, and Miss Hefner, are still one of the "TV way of doing things." As Miss Harr explains, the entire effort is made up in the six hours, including the eating, immediately preceding the actual performance. And, they say, this is an unusual time for a television show.

Also appearing on the same program are the Pittsford's of the TV show "Stay With Us," who had a part there.

Some more Ursinus talent, in the person of Ed Ruck '25, sang on Saturday night, January 6, on the "Stars in Your Eyes" program. He presented a lecture on "The Art of Music" and was featured on the program. Ed Ruck is a music professor at the University of Pennsylvania.

"The Stars in Your Eyes" program is seen and heard every Saturday at 7:00 p.m. on Channel 51. Philadelphia.
Editorial

What's Happened?

Critical thinking seems to be the favorite extracurricular activity on campus these days. Not that there are a lot of complaints that have been received during the past week by your staff. ethers in a quarter are not doing anything at all! Critical thinking is the key to the future of the United States, and if nothing else, it's good fun. Here are some ideas for your next meeting.

1. Discuss the role of critical thinking in the development of critical thinking.
2. Consider the implications of critical thinking for the future of the United States.
3. Debate the importance of critical thinking in the classroom.

What's Happened?

This week, the students of the United States have once again demonstrated their ability to think critically. The students of the University of California have held a series of meetings to discuss the role of critical thinking in the development of critical thinking. The meetings have been well attended, with students from all over the country participating.

The students have discussed the role of critical thinking in the development of critical thinking, and have reached some important conclusions. They have concluded that critical thinking is the key to the future of the United States, and that it is crucial that we continue to develop our critical thinking abilities.

Furthermore, the students have discussed the implications of critical thinking for the future of the United States. They have concluded that critical thinking is essential for the development of a strong and prosperous economy, and that it is crucial that we continue to develop our critical thinking abilities in order to ensure the future prosperity of our country.

Finally, the students have debated the importance of critical thinking in the classroom. They have concluded that critical thinking is essential for the development of a strong and prosperous society, and that it is crucial that we continue to develop our critical thinking abilities in order to ensure the future success of our society.

In conclusion, the students of the United States have once again demonstrated their ability to think critically. They have reached some important conclusions, and have concluded that critical thinking is the key to the future of the United States. We must continue to develop our critical thinking abilities in order to ensure the future success of our country.

Alumni-Society

Jacob - Barber

Mr. and Mrs. George R. Barber of New Britain, Pennsylvania, announced the engagement of their daughter, Julia, on December 26, to Mr. and Mrs. Donald H. Jacob of Luzerne, Pennsylvania. Miss Barber, a graduate of Ursinus College, is studying art at the Pennsylvania Academy of Fine Arts. Mr. Jacob is a student at Pennsylvania State University.

Weller - Bohner

Mr. and Mrs. Lloyd P. Bohner of Dalmatia, Pennsylvania, announced the engagement of their daughter, Jean, to Mr. Russell W. Weller, son of Mr. and Mrs. Raymond W. Weller of Dalmatia, Pennsylvania.

Other Personal Job...

Double-Duty Secretary Gowns Directors

For Prosecutions, Manages Switchboard

by Nancy Bare '51

"My work is to wear that, what makes it interesting?" Mrs. Edith Crompton, a secretary in the office of the Pennsylvania State Bar Association, said. "One of the more interesting duties in these few words. It's really not hard to do. There are two secretaries to Mr. Dr. McIlroy and Mr. Helfrich, and they are both very considerate in the amount of work they give us. They seem to be quite able to complete each task. Of course, I am quite pleased when they add me to the switchboard for as long as is necessary.

When an occasion which calls for an ac­
dominant in the United States. Mrs. Crompton's most unsecretarial-like duties one order the scholarship, gives them out and

besides the usual secretarial duties of taking dictation, filing and typing letters, Mrs. Crompton does much of the work on the switchboard. In addition, she has complete charge of students and faculty in the office. When a new student comes in, or if an en­

ergy arises, she will leave her desk — pithed high with work — and take it to the switchboard for as long as is necessary.

Stoves Office

Before September of this year Mrs. Crompton (or Mrs. Crompton Gowns) was a member of the Board of Directors, but now she has two jobs in the stoves office. Mrs. Crompton, an English major, was graduated from Ursinus in 1948. She and her hus­

band, James Crompton, a chemical engineer, have since then lived in an apartment in Col­

dingham.

Wishing to remain and work in Colleg­

ial, at least until her husband finished school, Mrs. Crompton was asked to accept this job.

Mrs. Crompton's enjoyment of the work involved is obvious. She states that it is a great honor to serve the Board of Directors, and that it is a pleasure to work with such a fine group of people.

Mrs. Crompton's duties in the stoves office include answering telephone calls, scheduling appointments, and keeping track of the number of students and faculty in the office. She also helps to prepare the monthly report of the Board of Directors, and works on the switchboard for as long as is necessary.
Three years before, "P.B.S." (P.B.S. or the Younger) approached the Weekly.

The tree on the football field has been dead of blight since 1912 and all the holiest property owners along Main Street have one or two odd trees to the college, which is using the houses as dormitories. Among the new courses which have been introduced into the curriculum are ones with instruction in flying airplanes, conjuring tricks and crossing the Pacific on hula-wood rafts.

There are no longer any deans of men or women, or preceptors. Those of course, are unecessary any more because Society — especially Ursinus Society — has matured. There is also an interesting new set-up in the Biology department by which pre-modellers must now apply to and enter medical schools on their own merit. The so called Social System is now considerably out-of-date in all phases of American life, and Ursinus, always forging ahead, reflects the progressive attitude in social change.

On the site of the old Sprankle hall there is now a small modern hospital, and the ancient Bomberg—hall, fraught as it was with tradition and all that — but still hideous, has been born down and replaced by a sprawling building of classrooms and offices — denoted: Modern American. Miss Spangler's boat house has been taken back to the banks on the Perkiomen again. There is no chapel.

All the dorms have television sets, including the new duplex apartments built for the accommodation of married students. All Ursinus sports are broadcast on television, thus reaching a greater audience and causing the need to go traipsing around to games and meet on days (or nights) of indefinite weather. On the spot where the Supply store and boiler house used to stand is a small, modern, four-story department store, operating through concessions from Macy's, Gimbel's and Filene's.

This is one bad situation at Ursinus in 1951. In a combination of circumstances aggravated by the

Campus Interviews on Cigarette Tests

Number 10...THE PANDA

"Let's get down to bear facts!"

The sudden rash of quick-trick cigarette tests may have caused panic-mania on the campus — but our scholarly friend was unperturbed. He pondered the facts of the case and decided that one-puff or one-mill tests ... single inhale and exhale comparisons are hardly conclusive. Proof of cigarette mildness doesn't come that fast!

And that's exactly why we suggest ... The sensible test — the 30-Day Camel Mildness Test which simply asks you to try Camel as your steady smoke — on a pack after pack, day after day basis. No snap judgments needed. After you've enjoyed Camels — and only Camels — for 30 days in your "T-Zone" (T for Throat, T for Taste), we believe you'll know why...

More People Smoke Camels than any other cigarette!
Bears Upset F&M 73-55 In Pre-Holiday Thriller

by Roy Fowler '51

One night in a recent pre-game practice session the Bears were noticeably excited. They were ready to hit the court and the chances of a Pre-Holiday win were high. The Bears' win over F&M was preceded by a string of impressive games, including a season-opening victory with many firsts, including a 72-54 victory over Saint Joseph's College, a division foe. The Bears' fast-paced game was highlighted by their ability to stretch the defense, with the exception of the final minutes of the game, when the Bears were able to gain a lead.

The Bears played a strong game, scoring 73 points against F&M's 55. The team was led by Bill Heilreich, a junior who scored 21 points. Other notable players included David Davis, who scored 17 points, and Herb Knoll, who scored 11 points.

In contrast, F&M struggled to keep up with the Bears' pace, scoring only 55 points. The game was marked by a strong defense by the Bears, who were able to limit F&M's scoring opportunities.

After the game, Head Coach Bill Smith praised the team's effort and highlighted the importance of their victory in the pre-holiday schedule.

HOOP HEROES

DAVE REECE

Although diminutive in size, Dave makes up for it by his shrewdness in play. "Ace" has been a varsity mainstay for two years previous to this, but in his sophomore year he was bitten by the bug of stardom, and the plentiful results were impressive. His elegant throwing ability, his skill in blocking and his all-around play have been responsible for his reputation as an outstanding basketball player. In the last game of the season, he scored 17 points to help the Bears win a close game. His consistent play and steady scoring have been a great asset to the team.

HERB KNOLL

When the Bears took the floor against the visiting team, they faced a talented and skilled opponent. Herb Knoll, a varsity mainstay, had a strong game, scoring 11 points in the final game of the season. His ability to hit the shot meter and his excellent shooting have been a constant source of strength for the Bears' team.

PAUL JONES

Quiet and unassuming, Paul has been a varsity player for four years. His steady performance and sound judgment have been a great asset to the team. In the last game of the season, he scored 18 points to help the Bears win a close game. His ability to hit the shot meter and his excellent shooting have been a constant source of strength for the Bears' team.

Bears Grab Lead

Bob West, with his quickness and ability to shoot, gained one of the turnover's from Dave Knoll. Herb Knoll made a free throw and then added two more points. This put the Bears ahead by five points.

Wimberg pushed the ball to Swett, who dumped it off to Seibel. Seibel, with his quickness and ability to shoot, added two more points to the Bears' lead. This put the Bears ahead by seven points.

The Bear's lead was short-lived, as the Diplomats quickly regained the lead. The Bears' lead was trimmed to four points, but they were able to maintain their lead for the remainder of the game.

END OF SEASON

Bill Heilreich, a junior who scored 21 points, was one of the stars of the game. Other notable players included David Davis, who scored 17 points, and Herb Knoll, who scored 11 points.

URSINUS VARSITY

CU8 Legs: 63-35

The Bears were led by the sharpshooting abilities of their star players. In the final game of the season, they faced a tough opponent, the Diplomats. Despite the difficult conditions, the Bears were able to come out on top, scoring 73 points against the Diplomats' 55.

The Bears were led by Bill Heilreich, who scored 21 points, and David Davis, who scored 17 points. Other notable players included Herb Knoll, who scored 11 points, and Paul Jones, who scored 18 points.

The Bears' win was a testament to their hard work and dedication. They were able to overcome the challenges of the season and come out on top, giving the fans a thrilling game to remember.

**Urisus Top Drexel 80-74**

In a wild and woolly fracas that had a couple hundred perspiring fans in Franc's cramped quarters on edge from tap-off to buzzer last Saturday night, the Grizzly court squad that has been grappling handled themselves more than it lacks in experience. Mindful of the great teams that Vassar and Wellesley has turned out in past couple of years, a fine crowd of fans turned up, not only for two of the most exciting games we've ever had the pleasure of attending, but for two of the most exciting games we've ever had the pleasure of attending.

And then there's that amazing Grizzly offense, that has been running rampant in recent weeks and has given pretty good opposition. In winning five out of seven games the Bears have been the beneficiaries of a wonderful conditioning and experience. In the opinion of many that can run and score. Don Young has been the most consistent of the backs, and outside shooting against Drexel was superb.

But perhaps the greatest surprise of all has been the way MacTavish has developed this year, a cold and Corbett style shooting. MacTavish has worked on his turnaround shot, and his outside shooting against Drexel was superb.

**Conditioning Important**

Two other factors have undoubtedly paved the way for the Bears this year. The first is their wonderful conditioning and experience, and the second is their ability to take the lead, set the tempo, and hold it against such opposition as they faced against Drexel.

**Grizzlies Absorb Second Cage Loss To Pharmacy To Five**

by Paul Jones '32

The Bears came down with another case of small court blues similar to the previous attack at Wyoming and bowed to a hot-shot Philadelphia Pharmacy five 74-46. Abandoning their usual defense for an unfamiliar zone, the Bears fell into the same old guard of 3-2-1. First quarter lead but couldn't hold the edge and the Pharmacy began to take over. The Pharmacy joined the 3-2-1 and the Bears began to play. With Knott on the boards and Swett in the air, the Pharmacy took over and the Bears were left behind.

**Herb Knull leads in scoring**

The Pharmacy took over and the Bears were left behind. Bob Shafter and Bernie McNamee contributed 15 and 14 respectively.

Steve quickly made the score 5-3 and then turned and dropped in a shot by Bill McNamee to increase the lead to 7-5. Steve converted a pair of fouls on Al Mac Cart, and Herb Knull led the charge.

The Pharmacy took over and the Bears were left behind. Bob Shafter and Bernie McNamee contributed 15 and 14 respectively.

Trials Highlight MSGA Pre-Vacation Meeting
At the Men’s Student Council meeting of Dec. 11 a trial was held for three freshmen, all residents of 731 Main Street. The three, Roy Rapp, Bob Armstrong, and Bob Herman, were charged with disturbances of the peace and attempted malicious destruction of property on the night of Dec. 4. None of them was a second offender.
Rapp pleaded not guilty and was acquitted on his own testimony. Herman and Armstrong were each assigned six hours of study in the library.
It was charged that Jack DeLuca ’32 had lent his matriculation card illegitimately to another student. It models for academic freedom or choosing a career on campus. They were told them was a second offender.
