Business Resumed.

The disastrous fire, Monday night, July 14, 1890, destroyed to what we were not surprised but had anticipated. There being but one of two alternatives to accept—either "throw up the sponge," from its loss, with no mind to improve business opportunities, or else begin again with a determination to regain, which an hour's firm, destroyed, and with the hope that reported prosperity will follow in the world of to-morrow, we chose the latter.

Arrangements are being made to rebuild the ruined structure as quickly as possible. The mechanics and workmen, from both the uipers and pithers and the mechanics, are working day and night, and the work will be done as promptly as possible.

We hope to be able to report more progress in the near future.
